## Schwab Re-elected Village President

At the annual village election held Monday there were 91 votes cast. Twenty-nine were straight-Progressive and two were straight-Citizens. Joe Schwab was re-elected president; LeRoy Marx, clerk, and Ed Kirk treasurer. These three were unopposed. Bennett Root was elected assessor and the trustees for a two-year term were re-elected as follows: Earl Koebe, Eugene Bent-schneider, Harold Alexander. Merlyn Mingus was elected for a 1-year term.

## Girl Scouts Plan Court of Awards Council

At the March meeting of the Manchester Girl Scout Council Monday night at the Library, plans for the annual Court of Awards were introduced. On this, the 42nd birthday of the Girl Scouts of America, the Manchester Council has 103 girls enrolled in the Scout and Brownie programs. The organization is sponsored by the Community Chest and is open to all girls between the ages of 7 and 18.

Like all organizations involving volunteer leaders, Girl Scouts are unable to fully meet the demands of all the young people. As in Detroit, the birthday present which would be most appreciated would be more qualified women to volunteer as leaders. To deliver this present, call Mrs. Paul Kappler (GA8-3591), chairman of the Manchester area Council.

There are seven troops enrolled in this area now. Those for Girl Scouts are: No. 4, with Mrs. Paul Kappler as leader; No. 2, with Mrs. Marvin Oates; No. 6, with Mrs. Duane Braun; and No. 7, with Mrs. Kenneth Kouba and Mrs. Alfred Strang. There are three Brownie groups: No. 3, with Mrs. Clarence Schaible and Mrs. Larry Pepper; No. 8, led by Mrs. Ralph Lockbridge and Mrs. Allan Schaffer; and Beginning Brownies with Mrs. Robert Kuhl and Mrs. Evan Leddy.

This time the girls receive the Court of Awards will be held Friday evening, May 21st at 7:30 at the Civic Auditorium. At badges they have earned individually and as a troop through the past year, advancement in rank is made and the 10-year-old Brownies become full-fledged Girl Scouts. Parents and friends are urged to attend this public acknowledgement of growth.

Committees for the Court of Awards are: arrangements, Mrs. Oates and Mrs. Reck; award table and plans, Mrs. Kuhl, Mrs. Strang, and Mrs. Kouba; refreshments, Mrs. Kappler and Mrs. Braun. Troop leaders are requested to make out their badge and pin requirements for their troops and get them in to Mrs. Kappler at once so that the supplies will be here in time for the Court of Awards.

## Mom's Meeting

The regular meeting of the local unit of Moms was held last Tuesday at the Legion Hall with three new members: Mrs. Art Wahl, Mrs. Alfred Strang and Mrs. Oscar Walz.

The next meeting will be Tuesday, April 13 with Mrs. Grace Kuhl, Mrs. C. W. Knauss and Mrs. Edna Kline on committee. At the conclusion of the meeting refreshments were served by Mrs. Louis Kemmer and Mrs. Erwin Kensler. Others on the committee were Mrs. Bertha Huber and Mrs. Pete Johnson.

## Dollar Days Slated For Friday & Saturday March 19-20

The merchants of the town have decided to give the home folks an old fashioned dollar day—not one but two, there will be some really outstanding values to be displayed in the stores here.

The stores will remain open until 10 p. m. on Saturday evening in an all out effort to offer some real bargains—so it will pay to plan some time and money in town and just look over the wares.

Patronize the home town and take advantage of the amazing values. Watch for next week's paper for the full details of Dollar Days. Make Manchester your week end shopping center.

Don't forget too that the news will have to be in on Monday with only last minute things Tuesday morning in order to have the paper on the street Wednesday night.

## Businessmen's Bowling

Short's Electric Service team added another point to their lead over Mary's Tavern in the Man-

chester Businessmen's Bowling League this week. The big news was the bowling of the A B C Service team, who grabbed the high team series, and Roy Marx of the A B C team who grabbed the high team series, and Roy

Marx of the A B C team who bowled a 618 series for the third highest individual series of the season. The A B C team had a 2728 team series that beat Kappler's Contractors series of 2727 by 1 pin. Short's Electric swept all 4 points from Jan & Jim's Grill although not one of the bowlers cracked the 500 mark in this match. A B C Service clashed with Klager's Hatcher series. After some very good bowling on both sides, the Service team had 3 out of the 4 points. The other star besides Roy Marx in this match was "Jack" Weir of the Klager team who had two good games of 205 and 213 and a 577 series. The other big guns in this match were Elwin Benedict (572 series), Dewey Hartbeck (565 series) and Bob Clark (554 series) of the A B C team and Paul Widmayer (520 series) and Dick Widmayer (503 series) of the Klager team.

Mary's Tavern lost a little ground in the league standings when they got 3 out of 4 points from Carl Schaible's Ford team, but Mary's Tavern remained in second place. Bob Popkey (544 series) and Morgan Kern (522 series) were the ones who helped Mary's Tavern team to their victory. Widmayer's Sales and Service jolted Kappler's Contractors by taking 3 points from the Kappler team. Speck Kappler was the only one in this match to get a big series, which was 555.

Mann's Millers and Double A Products played give and take in their match with Mann's finally taking 3 points. None of the bowlers in this match could be too proud of their series unless it would be Del Ludwick and Charlie Eisenhauer.

K & W Farm Supply continued their winning streak by shutting out Spike's Mobil Service. Charlie Schebor (541 series) and Jerry Bower (514 series) of K & W were the top bowlers.

The 200 bowlers were: Jack Weir (2) 213 and 205, Roy Marx 265, and Morgan Kern 202.

There were some changes made in the different departments. Roy Marx replaced Homer Kappler as the league's highest individual game — some game "Marxie." A B C Service has a 2728 team series that takes the lead from Kappler's Contractors. The old leaders are: League — Short's Electric with 69 points, Homer Kappler has the high individual series, 632, and Mary's Tavern holds high team game, 1002.

This week a couple of the girls could give professional bowling lessons to new bowlers and maybe some of the older ones. L. Riedel smashed the high individual single game of 210 with a 220 game, and she rolled 5 successive strikes to help her on her way. While at the same time, J. Armentrout didn't smash any records, but she did roll a 509 series and also had two turkeys. Congratulations, girls!

Now back to the mediocre bowlers.

Uphaus Drug are now in first place all by themselves, and they got there by taking 3 points from the Schaffer team. V. Fielder and I. Lamb took home turkeys and I. Lamb had a 176 game, while A. Schied had a 175 game and picked up the 4-7-9 split. For the Schaffer team, J. Schaffer and B. Schabile had 185 and 175 games respectively.

Manchester Drug and Lannom's really got down to business and split the 4 points. M. Koebbe and P. Soldan bowled 183 and 165 respectively, while L. Riedel, for the opposing team, rolled her big game of 220.

Carl Schaible's Ford five held the inside track and took 3 big points from Widmayer's. J. Armentrout rolling 188, 185 and 136 for her 509 series, while her teammate, S. Bower, rolled 179 and picked up the 4-7-6-9-10 split. D. Bersuder for the Widmayer team taking home a turkey and a 173 game.

Manchester Bakery, although on the bottom at the present time, is a team to keep your eye on. They took three points from Hamilton's Market. L. Trent had a 165 game and A. Pniewski rolled a 187 and also a turkey. The Hamilton girls couldn't seem to click, and E. Dietle picked up a 5-10 split.

## Sarah Louise Gosmer Kader

Funeral services were held Sunday for Sarah Louise Gosmer Kader who died on Feb. 18, 1954 at her home in Norvell. Born on Sept. 20, 1870 in Bridgewater, she was married to Gotfrey Kader on Feb. 18, 1890. She died on her 64th wedding anniversary and at the same hour on which she was married 64 years before.

An invalid for thirty years, she had spent most of her life in Norvell. She was a member of the Seventh Day Adventist Church of Jackson. Funeral services were held at the Weatherby Funeral Home in Jackson on Sunday with Rev. S. B. Newmeyer officiating and burial took place at the Norvell Cemetery.

The survivors include her husband; a daughter, Grace Van Loken of Norvell; and a son, Leo of Jackson and Loys of Pontiac; one grandson, Dr. Robert Kader of Lansing; two great-grandsons, also of Lansing.

# There Are Two Sides to Every Christian

By Reverend Joseph Mantou

THESE ARE TWO SIDES TO every Christian. One side shows religion at prayer; the other, religion in practice. One is the service of God in the Temple, the other the service of neighbor in town.

We need both but we more easily forget the second. We like a quiet prayerful church, especially at sunset when every stained-glass window blazes like a flower garden. But this is only half of religion—religion under the sun. The other half is the harder half—religion out among the people. But God made the people. God loves the people. God died for the people. He did not die for any stained-glass window.

YOU WILL FIND PEOPLE who are very convinced of their love for God, but who never dream of giving any practical help to some of God's children who really need it.

If there is sickness in a home, they never think to drop around to help straighten out the house or stir up a meal. They would never get the idea to maneuver in a tactful and delicate way to send one of the children to summer camp.

OUR BLESSED LORD, Jesus Christ, said, "Whatsoever you do to the least of My brethren, you do to Me." There is the difficulty: to recognize God behind the masks of men. But we have to do it. Because when He appeals to us for help, He will not send a special Star of Bethlehem pointing its finger of fire to the spot where we are to do our bit of good.

Charity for Christ does not need fireworks and a full heavenly choir. No, Our Blessed Lord will always stand in the shadows, and under the guise of some poor creature, even as He hid that Christmas Eve under Mary's ample robe.

SOMEONE ELSE always knocks at the door for Him, as at the Inn at Bethlehem. If that door had not slammed and shuddered in His Face, to this day men would have beaten a path to it, the most famous shrine in the world. As it is, it is only the sad symbol of Christ unrecognized, Christ turned away.

NATURALLY GOD WANTS us to clasp our hands in prayer. But He also wants us to unclasp them and reach them out to any neighbor in need. Someone has said that God has divided man into men so that they might help one another. The body you help may be anybody's, but the soul you save will be your own.

Rev. J. Mantou

## Religion Emphasized In TV's "Juvenile Responsibility Plan"

The nation's television casters will give new emphasis to combating juvenile delinquency under a "juvenile responsibility" program of the National Association of Radio and Television Broadcasters, it was announced here.

The program emphasizes parent-child understanding and development of religious and moral standards through religious training in the home and improved church attendance.

Other points promote healthful recreation, group activities such as the Boy Scouts, development of proper "heroes" for children to emulate, and elimination of discrimination on the basis of "race, religion or economic standing."

Almost Three Million Children Receive "Released Time" Religious Training  
Between two and a half and three million children are being given an hour or more off from school each week to get religious teaching, according to Edwin L. Shaver, a director of weekday religious education for the National Council of Churches.

It is estimated that about 26,000,000 school children have no formal religious ties.

The University of Michigan was a pioneer in establishing a formal alumni organization, with the appointment of an alumni secretary in 1897.

## 'Lucy' Too Late For Children — Mothers Complain

Los Angeles mothers took exception to television time tables that schedule "unsatisfactory" (children's) programs early in the day and save "excellent family programs" like "I Love Lucy" for late evening.

A survey conducted by Los Angeles women showed that programs like "Lucy" and the "Denning Day Show"—which are enjoyed by the children and approved by adults—are often scheduled too late for children to view them.

Programs for children shown during the early evening are often

## Farm Home Needs Special Rooms, Architect Says

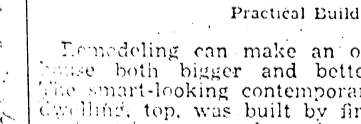

Five special-purpose areas need to be provided for in the design of a farm home, says Walter T. Anicka, architect, of Ann Arbor, Mich.

They are a large workroom, a clean-up room, a farm office, an extra-large kitchen, and a self-contained freezer room. Some of these areas can be combined in one room.

In farm building design in general, Mr. Anicka suggests using the same solid or blended color asphalt roofing material on all buildings. This gives the neat appearance of planned uniformity, he says.

He points out that economical construction has particular appeal to the farmer because he cannot delay building by renting an apartment or a house. This is an additional reason for the farmer to make full use of modern materials and methods, Mr. Anicka says.

## Outmoded Home Bigger, Better After Remodeling

Remodeling can make an old home both bigger and better. The smart-looking contemporary dwelling, top, was built by first modernizing a run-down house, bottom, and then adding a new wing of matching design to it.

This project, which was planned by the Builders Planning Service, Peoria, Ill., illustrates what can be done with an old home when it is both too small and outmoded. Remodeling is always possible if the basic structure is sound.

Much of the success of this modernization is due to new roofing and siding materials, which give the dwelling its handsome appearance. The fire-resistant asphalt shingles that were selected are a light, blended color that harmonizes with the medium-dark siding. White trim accentuates the pleasing architectural lines.

## Communism Spread by Christendom's Failure to Heed Social Teaching, Educator Contends

Communism was spawned by failure of Christendom to abide by the social teachings of the Church, Rev. Louis J. Twomey, of Loyola University, declared here.

"Our great failure," he said, "is not lack of principles, but failure to put them into practice in politics—and in our social and individual lives. . . . There are men who would die for dogmatic teachings, but who say, 'Religion is one thing; political affairs, business affairs and race relations are other things.' Secularism beats in on them. We are in an atmosphere of danger."

"The world owes no man a living," the educator said, "But it owes him a right to earn a living—a minimum of food, shelter and clothing for himself and his dependents. The idea that labor is a commodity on the open market is immoral in principle."

## Better Eating

By ELEANOR  
Jigg's favorite, corned beef, has a new look today. Now the spices are usually added for you during the cooking process.

The secret to tender juicy meat remains the same—long, slow cooking with the corned beef completely submerged in water.

## Modern Methods With Meat

The cooking time can be shortened by using a pressure sauce pan.

## Quick Cooked Corned Beef

2-3 pounds corned beef  
2 cups water  
4 carrots  
4 medium size potatoes  
1 small cabbage  
4 to 6 medium onions

Cover the corned beef with cold water for an hour or two. Drain. Place on rack in pressure sauce pan. Add water. Cover and cook at ten pounds pressure about one hour.

Reduce pressure quickly. Add vegetables and cook at fifteen pounds pressure eight minutes. Reduce pressure quickly.

Serve on a platter. Pass the Horseradish Dressing. This is a complete hot dish for four to six people.

## Horseradish Dressing

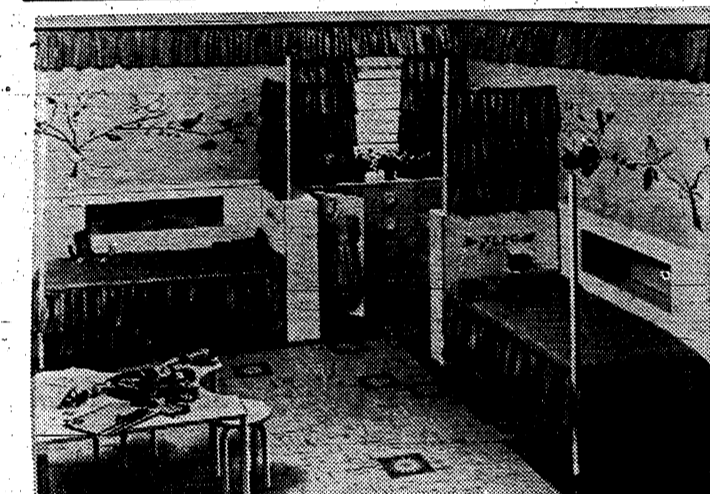

1/2 cup salad dressing  
1/4 cup whipped cream  
1/2 teaspoon salt  
2 tablespoons prepared horseradish

Combine ingredients just before serving. Faithfully

## St. Patrick's Day Palatables

By BETTY BARCLAY  
Here are some St. Patrick's Day delicacies that I'm sure would prove pleasing to good old Saint Patrick himself. Serve any of them once, and you may rest assured you will have calls for them again and again.

**Shamrock Chocolate Cake**  
1 package Swans Down Devil's Food Mix  
Mint Frosting  
Green-tinted Coconut

Prepare cake mix according to package directions. When cool, frost tops and sides of layers with Mint Frosting, reserving a small amount to make three shamrocks on top of cake. Tint reserved frosting a deeper green. Outline shamrocks on top of cake, using a paper pattern, then fill in with the deep green frosting. Sprinkle sides of cake with coconut which has been tinted a bright green.

**Mint Frosting:** Combine 2 egg whites, 1/2 cups sugar, dash of salt, 1/2 cup water, and 2 teaspoons light corn syrup in top of double boiler. Beat with rotary egg beater or electric beater about 1 minute, or until thoroughly mixed. Cook over rapidly boiling water, beating constantly with rotary egg beater (or at high speed of electric beater) 7 minutes, or until frosting will stand in stiff peaks. (Stir frosting up from bottom and sides of pan occasionally with rubber scraper, spatula or spoon.) Remove from boiling water. Add 3/4 teaspoon of peppermint extract and beat 1 minute, or until thick enough to spread. Add enough green coloring to give a delicate tint.

**Favorite Icebox Cookies**  
2 cups sifted flour  
1 1/2 teaspoons double-acting baking powder  
1/2 teaspoon salt  
1/2 cup butter or other shortening  
1 cup granulated sugar  
1 egg, unbeaten  
1 cup shredded coconut  
1 tablespoon milk  
1 teaspoon vanilla

Sift flour once, measure, add baking powder and salt, and sift again. Cream butter and add sugar gradually, beating thoroughly; add egg, coconut, and vanilla, and beat well.

**Hot Fudge Sauce**  
1/2 cup cocoa  
1 cup sugar  
1 cup light or dark corn syrup  
1/2 cup light cream, or undiluted evaporated milk  
1/2 teaspoon salt  
3 tablespoons butter or margarine  
1 teaspoon vanilla

Combine all ingredients except vanilla in saucepan. Cook over medium heat, stirring constantly, until mixture comes to a full rolling boil. Boil briskly 3 minutes, stirring occasionally. Remove from heat. Add vanilla. Serve hot. Sauce may be stored in refrigerator. To reheat, place in pan of hot, boiling water until sauce has thickened to pouring consistency. Makes about 2 1/2 cups.

**Shamrock Rennet Desserts**  
2 cups milk (not canned)  
1 package vanilla rennet powder

Set out 4 or 5 dessert glasses. Warm milk slowly until lukewarm, stirring constantly. Test a drop on the inside of your wrist frequently. When it is comfortably warm (110° F.) it is not to be removed at once from heat. Stir in the contents of package, and let stand until liquid is dissolved—over one minute. Pour at once, still liquid, into dessert glasses. Do not disturb for about 10 minutes, when milk sets. Then chill in refrigerator until serving time. When ready to serve, top with green shamrocks made from halves of green cherries.

\*If milk gets too hot, cool to comfortably warm before adding powder or it will not set.

### RA-SEBA TOLD SCRABBLE

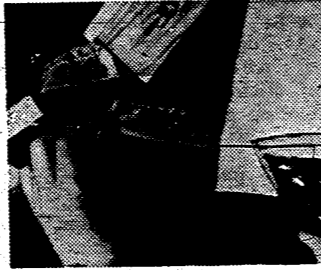

**PRINCESS Flavine Abdul-Ali-Khan** plays the new parlor game which foretold the success of Scrabble. Here's how it happened: Not very long ago two old friends were discussing their hobby of inventing games. One was James Brunot, who was depressed about the lack of response to his game Scrabble. The other was Henri Englebert, who discovered and revived the ancient Egyptian "prediction" game: Ra-Seba. "Let's see what Ra-Seba predicts for the future of Scrabble," suggested Englebert. He laid out the Ra-Seba cards on the beautifully decorated board to play this popular fortune-telling game. The message flashed: "don't judge hastily... before long... success." This intimation of Scrabble's prospects for the future gave Brunot the extra lift he needed to go on.

### HOW TO DO IT

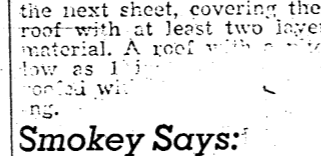

#### Roofing Suits Low Slope

When heavy roll roofing is desired for a low-slope roof, 19-inch selvage, double coverage asphalt roll roofing is recommended.

This comes in 33-inch-wide sheets. As the name indicates, 19 inches of the width is lapped by the next sheet, covering the full roof with at least two layers of material. A roof with a slope as low as 1/4 inch in 12 feet can be covered with this material.

## The SNAPSHOT GUILD

It's hard to predict which way baby will lean. But if you use fast flash bulbs, you can stop the motion without a blur.

### It's So Hard to Sit Still

**EVEN** when our children are trying hard to be on their very best behavior and to please the adults of the household—they really find it very difficult to sit still. At least, for very long at one time.

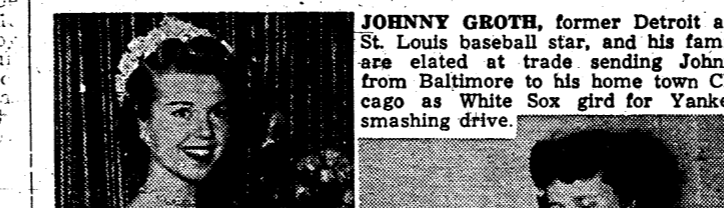

It has been said that children have 1,500 muscles with which to wiggle and only one for sitting still—and that gets tired very quickly.

That's why snapshotting that requires the subject to be very still poses a bit of a problem when you are aiming your camera at the small fry. Or, rather, I should say it used to be a problem—in the days before flash photography was available to all of us.

Now that even the simplest box cameras have their own synchronized flash attachments, picturing even the wiggliest of children in doors is a practically foolproof process. The secret of this is in the speed of the flash bulbs available for use with the comparatively slower cameras. Some of the bulbs have a speed of 1/200th second. That means your picture is taken at that speed, even though you may be using a camera that's preset at about 1/40th second. And with that kind of speed, the wiggling will just add interest to the picture. It will be "stopped" in mid-air and not blur the picture.

Thus, if baby chooses to coo and reach for the camera, it's wonderful! You'll have a much better picture than if he were motionless. The speed of the flash will prevent the blurring and the outstretched arms will add life and appeal to the picture.

### LUMBERING "DELUXE"

Throughout the upper peninsula these days lumbering operations are going along at a good clip—but old time "jacks" are rubbing their eyes at what they see in the modern lumber camp. Men are working under conditions undreamed of by the woodsmen of 30 years ago.

Back in the 20's the wages were pretty well standardized at around \$30 a month plus "board and room"—with the food generally poorly cooked and sleeping conditions badly overcrowded. Men slept in crude bunks in shacks that offered little protection against the weather. Clothes had to be dried around a central heater, and the "atmosphere" was on the thick side!

**Today's Picture**  
Today's bush-worker can earn as much as \$20 a day cutting pulpwood—on a piece-work basis: As far as food is concerned he is probably given the best in the world compared to the size of the operation—and the menus are all planned by dietitians who know just how many calories a lumberjack burns per day in this strenuous occupation. Sleeping accommodations have changed a lot, too. The modern lumber camp in Michigan may provide quarters allocating only two men to a room. All camps provide good laundry and medical service—and

### 1954 Easter Seal Campaign To Open

The 1954 Easter Seal Campaign will open in Michigan and throughout the entire nation on March 18, Walter F. Gries, president of the Michigan Society for Crippled Children and Adults — the statewide Easter Seal Society — announced today. The appeal will continue through Easter Sunday, April 18. In fact the period of March 18 through April 18 is designated Easter Seal Month, and a special day, April 10, is nationally designated as Crippled Children's Day, the day of the Easter Seal Tele-Parade.

This 21st annual campaign for crippled children and adults, conducted by the Michigan Society, now 31 years old, is expected to be the most extensive campaign in the Society's history. A million and a half Easter Seals will be mailed to residents throughout Michigan by 91 local affiliated chapters of the Michigan Society, Mr. Gries said.

The Seal for 1954 is designed in bright blue, white and yellow. It incorporates the white lily symbol of the Easter Seal Societies imposed on a yellow envelope which symbolizes use of Easter Seals.

The president emphasized that 91.7 per cent of all funds received from Easter Seal contributions will remain right in Michigan to help its thousands of crippled citizens through expert examinations, treatment, special education, vocational guidance and training,

and many other services, including the furnishing of orthopedic aids and appliances and occupational therapy crafts for the severely handicapped who are homebound.

Among the major projects supported by the Michigan Society and its local affiliates are the conduct of free public clinics — especially for the cerebral palsied — medical care, braces, wheel chairs, crutches, casts, walkers and other special appliances, recreational activities including special summer camping, bedside instruction for those who cannot attend school, special transportation to and from clinics, hospitals and schools, physical and occupational therapy and special education facilities and equipment, all leading toward self-supporting lives.

The Michigan Society for Crippled Children & Adults, Inc. is the oldest non-profit organization in Michigan. It serves all physically handicapped persons, regardless of color, race or creed and regardless of the causes of crippling.

Gries, the president of the Society, is widely known throughout the state for his many philanthropic and public services, to which he has devoted his life. His early years were spent in teaching and as Marquette County School Commissioner. For years he served as a member of the State Welfare Commission, for several years as its chairman. Currently he is an officer of the Michigan Tuberculosis Association and a member of the State Board of Education. His bread-and-butter job is Director of Welfare for the Cleveland-Cliffs

Iron Company, with headquarters in Ishpeming. He is in great demand as a public speaker.

Mr. Gries administers the work of the Society with the aid of a large Board of Directors, who are widely known for their devotion in the cause of public health. The affairs of the Society are carried out by Percy C. Angove, its Executive Director, well known ever the past 30 years in the field of work for the physically handicapped.

### New Jobless Bill Proposed By G. O. P.

A new unemployment compensation bill which raises benefits to approximately 50 per cent of the take-home pay for men with families is being sponsored by Republican legislative leaders.

The new proposal would raise allowances for children by \$4 weekly so that the new maximum in Michigan would be \$39 weekly compared with the present \$35.

Republican leaders pointed out that the new scale would raise Michigan's average benefit check to the point where it would be the highest in the nation and that the proposed legislation is "a sound approach to helping unemployed persons maintain themselves until they find new jobs."

The bill provides that the duration of benefits shall be 26 weeks instead of the present 20. Overall, there is a 40 per cent increase in benefits to the unemployed, so that unemployment compensation in Michigan will be far ahead of the percentage increase in the cost of living.

Under the bill, the single man could receive \$27 weekly; the married man whose wife is not working \$29; family with one child \$33; two children \$35; three children \$37 and four children \$39.

A merit rating system for employer contributions would reduce the tax paid by those business firms which maintain steady employment and have little unemployment. This feature of the bill would benefit thousands of small businesses in the State. The \$440,000,000 unemployment compensation fund is protected by a provision that the employer tax shall be raised if the fund falls below a certain amount.

The bill follows the program outlined by President Eisenhower for unemployment compensation.

### U-H Sponsors Statewide High School Debate

A statewide high school debate program sponsored by the University of Michigan has about 5,000 students eagerly discussing the merits of electing the President of the United States by direct ballot instead of through the Electoral College.

Winners of elimination contests now in progress will tangle at the University April 24th, when the State Championship Debate is held.

Official direction for the debate program and other high school speech activities comes from the Michigan High School Forensic Association, a division of the U-M Bureau of School Services. Co-operating organizations are the University's Department of Speech and Library Extension Service, the State Forensic Council and the Detroit Free Press.

### Does a Woodchuck Chuck Wood

A woodchuck does chuck wood, but only occasionally, according to Earl C. O'Roke, University of Michigan associate professor of forest zoology.

The professor points out that, contrary to popular belief, the woodchuck chucks only those twigs and pieces of brush which interfere with his burrow or house-building activities.

As far as the diet of the small animal goes, the professor explains that its favorite food is green vegetation, "with the bark

of trees tossed in for occasional variation."

Actually, the woodchuck is a fairly heavy eater, he continues, for during warm months is must store up fat for its winter hibernation. "Incidentally, a woodchuck's hibernation is not always a heavy, uninterrupted sleep, for a series of warm days can act as an alarm clock for an early awakening," Professor O'Roke says.

Living in extensive ground burrows the woodchuck builds himself a regular "one-floor apartment," the professor continues. "With several openings (one a concealed one) for emergency exits, the burrow may boast both a front and back door," he adds.

Usually located in brushy, wooded areas, these burrows, when vacated by their original tenants, frequently are taken over by cottontail rabbits for temporary winter shelter. Other animals also may use the burrows.

The woodchuck, a common native rodent, weighs an average of five to ten pounds and lives four or five years. The young are born in April or May and average about four per litter. Blind and helpless, they must stay in the burrows for several weeks.

In spite of common belief, the woodchuck causes little damage to gardens, shrubs and small trees. Another fallacy, Professor O'Roke concludes, is the label of "groundhog," for there's "Nothing hoggy about the animal!"

### Farm Accidents Among Topics Of U-M Conference

Ways to prevent farm and home accidents and sanitation problems in "boom" towns will be among subjects discussed at the Third Health Conference of the University of Michigan's School of Public Health, scheduled for March 23-25.

Over 60 public health officials and specialists also will consider fluoridation of drinking water, tuberculosis and chronic disease, all

problems common to the public health field.

Participants and guests will include Governor Williams, State Senators Creighton R. Coleman of Marshall and Elmer R. Porter of Blissfield, State Health Commissioner Dr. Albert E. Heustis, and U-M President Harlan Hatcher.

Other such conferences were held in 1946 and 1949.

### U-M To Mark 137th Year On March 18

The University of Michigan, older than the state itself, is planning to celebrate its 137th anniversary this month.

While an act by the "territorial legislature" established the University on August 26, 1817, alumni throughout the world traditionally mark the historical date about March 18. The later date is the 1837 one, when the state's first legislature passed an act to reorganize the University.

Perhaps some of them will wonder what the educational institution now fourth largest in the country was like "back in those days." Well, one of the most interesting records of the University's past is in the U-M Michigan Historical Collections.

The information concerns an 1880 inventory of the University, when the only land which "the Mother of State Universities" owned was the original 40 acres that had been given when it moved to Ann Arbor from Detroit in 1837, plus a lot on which one of its three observatories now stands.

Now there are some 970 acres in the Ann Arbor area and about 17,500 more in out-state Michigan and elsewhere including the 346 acres of the new North Campus.

Back in 1880 the buildings were lighted with gas and heated by stoves, with cord wood always on hand and coal stuttles furnished for every classroom. Today the University furnishes enough elec-

tricity to light the cities of Sturgis and Charlevoix.

The University Hospital at that time consisted of a faculty house and a one-story farm extension. Then it was believed by some that hospitals should be built cheaply so that they could be burned and replaced by another inexpensive structure when they became "germ laden." The hospital inventory shows that the beds were furnished with ticks or mattresses stuffed with corn husks or with straw. But even then the University

was keeping up with the times. For the Michigan Historical Collections' inventory lists a phonograph "bought in 1878-79," just a year after Thomas A. Edison made his first experimental phonograph.

**Exchange Club News**

The regular meeting of the Exchange Club was held Monday, March 8th with 29 members and 4 guests present. After a short business meeting the guests were introduced to the club.

Roscoe Lannom, Boy Scout Chairman, introduced Wade School of Ann Arbor, who is field representative of the Boy Scouts in the district. He later met with the Boy Scout committee.

George Merriman, the program chairman, then introduced William

Strickland of Ann Arbor, who is president of the Michigan State Exchange Club. He gave a short talk on his experience at the National Exchange Convention in Colorado Springs. He then showed colored movies of the convention, the scenery around Colorado Springs, and other points of interest in the West. These were greatly enjoyed by the club.

It was then announced that the next meeting will be the annual athletic banquet to be held in the high school gym. It will be open to the public. Tickets are available from the following members: A. Luckhardt, L. Widmayer, R. Masten, R. Davidter, E. Galloway, L. Wurster, R. Grossman and M. Uphaus.

**Elizabeth Braun**

Funeral services were held on Tuesday, March 9, for Mrs. Elizabeth Braun, aged 69 years, who passed away at the Tecumseh hospital on Saturday morning.

She was born on October 19, 1885 in Russia, the daughter of Philip and Anna Yagard Silcher, and came to America in 1908. On February 25, 1911 she was married to Fred Braun. The couple lived in Manchester township until moving to Bridgewater 33 years ago.

She was a member of the Bethel Evangelical and Reformed Church and of the Women's Guild. Survivors include her husband; two daughters, Mrs. Ernest Krause of Ann Arbor and Mrs. Norman Mattis of Clinton; three grandchildren; two sisters, Mrs. William Merz of Bridgewater and Mrs. Christine Reih of South America; and three brothers, Edward Silcher of Detroit and Godfrey and Adam of Germany.

Funeral services were held Tuesday at 2 p. m. at the Jenter Funeral Home and burial was at Oak Grove Cemetery with Rev. Theophil Menzel officiating.

**Subsoil Strong Enough For School**

Soil tests of the Davis property on West Main street, proposed site for the new high school, show that by the use of a conventional foundation under most of the structure, and by the use of pilings at three points, the subsoil in general is strong enough to bear the weight of the school.

Clark Ackley, school architect, met with members of the school board and several representatives of the citizens' committee last Saturday to report the results of the soil survey made by the Michigan Drilling Company of Detroit. Ackley's report set at rest rumors that the subsoil, a mixture of loam, sand and gravel, with some water-bearing sand, might be unsuitable for the school.

The Michigan Drilling Company made test borings ranging from ten to twenty-five feet at all points marking the foundation of the school. At seven of the ten points, the strength of the subsoil ranges from 5000 to 6000 pounds per square foot, which is more than ample to guarantee a structure that will not settle. At

the other three points, two courses of the plot, where the subsoil is stronger. Either method will guarantee a solid foundation. According to Ackley, any added cost due to the use of pilings will be minor. Mr. Ackley brought with him

**From Storage Space To Hobby Room**

A charming multi-purpose room was created from garage storage space by the noted designers, Kim Hoffman and Stephen Heidrich. The finished room, above, is easily maintained because the owner installed walls, built-in furniture, spacious storage closets and fold-away work surfaces of Georgia-Pacific Ripplewood, a textured plywood. Acoustical tiles were used for the ceiling and brown-and-beige linoleum covered the plank flooring. The storage wall closets were planned to provide ample space for card tables, movie projector, screen, tape recorder, television set, sewing machine, painter's supplies, and cleaning tools. The color scheme of the room, which also will care for an extra guest, is beige and brown with coral-rust and turquoise accents.

detailed plans for some of the rooms of the new school, and said that in a short time detailed drawings of all the rooms will be ready for presentation to the state department of education for its approval. Not long after that, contractors will be invited to bid on the structure.

On March 18, at eight p. m., bids by investment houses for the bond issue will be opened. Recent issues of school bonds have gone for considerably under two and one-half percent. If Manchester's bonds are bought at lower than that figure, there will be a considerable saving to the taxpayer.

**Blizzard Closes Schools, Blocks Roads**

After a real vacation last week the pupils are back in school after having only two days of study last week because of the heavy snow storm which lashed this part of the state Tuesday night and continued all day Wednesday. The blizzard closed all of the country schools in the Manchester area.

One third of Manchester high school students live in the town. The remaining two-thirds are all rural students and secondary roads in this area weren't opened for the most part until Saturday, according to the Washtenaw County Road Commission. Drifts in the country often were found to pile up as high as the gates in the fields.

The Pleasant Lake Consolidated School's 114 pupils also had a vacation from school—Wednesday through Friday—according to the school principal, Miss Mildred Gieske.

From all indications the kids had a fine time—tumbling in the snow, congregating in the streets and some of the really ambitious ones earned a tidy sum cleaning walks and shoveling paths, which to their delight, filled up about as fast as the kids could clear them away.

Supt. Fred Atkinson said his work on the telephone began before 6 a. m. Wednesday as he checked road conditions which governed school recess.

It was reported that the Double A Products Company had 25 percent absenteeism on Wednesday and Thursday shifts and 50 percent on the night shift. The plant employs 215-55 on the night shift.

At the Ford plant 43 percent absenteeism was reported among the 500 day shift employees and 22 percent Thursday. The night shift went home both Wednesday and Thursday night at the supper hour, after 4 hours of work.
