Who likes to cook during hot summer weather?

I don't imagine there are many ladies that like cooking on a hot summer day. But I can show you plenty of homemakers who find summer cooking easier and much more pleasant since they started using an automatic gas range. And they learned about the advantages of a modern gas range the same way you are right now.

They read all about the new easier, faster cooking features such as spacious ovens, smokeless broiling, accurate top burner controls, convenient electric outlets, smart styling, and easy-to-clean porcelain finishes. But what really sold them was the automatic clock controls that enabled them to bake and roast complete dinners automatically. They could relax or take it easy while cooking chores were taken care of with hardly any work at all.

Why don't you stop in at your gas range dealers store and see these new gas ranges. You'll be amazed when you learn how easy it is to own and enjoy one in your home. Get the facts! Don't wait. See them today.

Your Gas Appliance Dealer... will be glad to show you these new automatic ranges. They cost less to buy, less to use, and less to install than any other automatic range on the market today.
