After trout hatch from eggs, the delicate fry-stage of life begins. Workers at conservation department hatcheries must keep careful watch over the young fish to make sure water is kept at proper temperature and that they have enough to eat. Such scenes as that above are common these days in hatcheries throughout the state, as next year's trout get started in life.

NATURE'S ENORMOUS BASKET

Despite the fact that most of us in Michigan recognize the fact that we do a lot of hunting and fishing as a hobby, we know that we are not doing it as well as we could. The numbers of fish taken from Michigan waters each year is just about impossible to calculate — but we know it runs into astronomical figures.

100,000 Squirrel Hunters! Hunting squirrels in Michigan is a sport which attracts a great many sportsmen. It is a sport which is fast becoming one of the most popular in the state.

Deer and Pheasant Biggest Game! It's about a tie between the deer and pheasant when it comes to the number of hunters for this game. Both tallies at season's end show better than 400,000 hunters in the field for each species.

Built to Flash Ahead

(not just get by!)

THE NEW **DODGE**
Flair-Fashioned... and Flashing Ahead!

Some things you can see right away that tell you this is the year of the big Dodge more. (Sales have doubled over last year!)

You can stack the new Dodge up against other cars in its field, and see how much larger and more luxurious it is: Up to 9 inches longer than competition.

You can see the distinction of new Dodge styling, with eager lines that are stealing the "OH's" from the costliest cars. The swept-back except-around windshield. The "sparkle" of twin-jet taillights and three-tone color combinations. The beauty of Jacquard tapestry interiors.

But more important than this is the deep-down dependability engineered into every important part and feature of this great Dodge!

That is something you discover through the years and over the miles. It is your sure reward for choosing the new Dodge.

CHECK YOUR CAR — CHECK ACCIDENTS!
