The Record-Breeking Book of Our Times

Serialized in 35 newspapers, featured in 13 national magezines, rewritten in a special edition- for 'teen-agers, translated
into 14 foreign languages, Dr.
Peale's famous book has been
read by an estimated 18 million
people throughout the world.
More importantly, it has helped
in the problems the problems in the problems. millions to solve the problems of daily living.
So profound has been the influ-

ence of this single book, that the expression "think positively" has become an American by-word. It has crept into the idiom of our The Rev. Norman Vincent Peals

It has crept into the idiom of our language and placed the secret of success in the individual's appreciation of his own worth, his ability to "do the impossible" if he chooses, provided only that his faith be positively rooted in God and himself.

"The Power of Positive Thinking" is more than an evening's reading matter. People act on Dr. Peale's advice—and this is the ultimate test of his practical creed. It has become a reference for twentieth century hving.

With the Bible as his inspiration, Dr. Feale describes in a simple, forthright style his philosophy—which he illustrates with the case histories of men he has observed as a preacher, lecturer itoos of America.

A POT NEVER BOILS over when the housewife is nearby. That's one of the best reasons for having a kitchen telephone. When the phone rings you can keep an eye on what's cooking in the kitchen, and you can keep the children in sight, too. A phon within reach saves count-

less steps and precious time. The housewife needn't run when the phone rings; she can just reach. An extension telephone in your kitchen will cost you about \$1 a month. Call our business office to order yours.

EVER SINCE "barn raisng" days, one of the best things about rural life is that you can always count on the neighbors to pitch in and help in an emergeory. In the same spirit. our Michigan Bell"neigh. bors" showed up when tornadoes hit Michigan

recently. The winds had barely died down when telephone people from nearby towns started arriving, bringing trucks loaded with material, to help local telephone folks get the phones working again. From other parts of the state, telephone people started new poles, wire and cable rolling toward the stricken area. In times of emergency-and in everyday things, too-telephone people hope you can count on them to be good neighbors.

attested by an unusual land abstract owned by Sergeant Arthur ernois, the former Ag- Kramer, a grandson of the centenarian.

In the document fascinating family history was interwoven

with land titles.

Mrs. Livernois, can remember back to some of the interesting events recounted in the old document and knows of others handed down by word of mouth in the family for congrations.

'SO HAPPY BIRTHDAY, dearest Mother, May God give you back your sight. That you may look upon your loved ones. And there you'll see God's will is right. These lines which were written by Mrs. Martha Townsend on the occasion of the 100th birthday of her mother. Mrs. Agnes
Livernois indicates the hope that is in the heart. The bright
eyes of her youngest great-great-grand sughter, eight

Its origins reach far back into the annals of time.

As a consequence the city of Saline named after the numerous nearby salt springs — has something of an historic reputation. It was frequented by French traders in pre-Revolutionary days. In 1784 General "Mad" Anthony Wayne camped his troops here. As it came into use more, the U.S. Congress saw in this "Chicago Road" a strategic military route.
