EVER HAPPEN to you? You drive about fifty miles on your vacation trip and suddenly think of something you forgot to do. Happily in most cases you don't have to turn back. Just stop at a convenient Public Telephone and set

things right with a telephone call. And if you're going to arrive later or earlier than expected, Public Telephones make it easy for you to call ahead and tell your host. Outdoor phone booths are open 24 hours a day, every day of the year.

ACCORDING to old records, back in 1902 people cere charged for the first 15 seconds of a Long Distacce call, with an extra charge for each additional two seconds. Over the years the price of Long Distance calls has come down and down. After

6 P.M. or any time Sundays you can make a three-minute call clear across the country for about \$2. A threeminute call that far in 1915 (when transcontinental service began) would have cost you ever \$20.

IF YOU OR SOMEONE you know plays a clarinet, listen to C two octaves above middle C. This is one of eigh musical tones being tried out in a test in 300 homes near Chicago as a possible successor to the familiat telephone beli.

The tone comes from a small loud-speaker in the phone and is interrupted about fourteen times a second to give an attention-getting but pleasant "chir; chirp" effect. Don't call and ask for one now becauthe "tone ringer," as it is called, is still in the testistage and isn't available except in the trial area.
