MCGUIRE ELECTRIC & HEATING PH. GA 3-2451

As your probate judge, my time during the last few months has been open in familiaring system with the details of probate and provide court administration. Though the duties of a probate judge are imminably raised, the experiment prince in its years of law procedule has been of great assistance to me.

I have found my work challenging. The problems of boys and girls are not a father of any new to me. Each child and his problems are different, how a not it is not always easy to find a way to content a irrection positions member of the community.

The present diction will I have for its imper manner of Walternam todays the points places around the county. While I very much desire to deviative work as produce judge, I will respect the decision of the voters reparties.

Manchester gives fiest aid to boys of tessaches who registered for the war.

One hundred twelve young men stepoed proudly and manfully forward Tuesday moramage and registered their names, showing their willingness to obey the first call Jenter, George Coleman Herman Fersieth Whom for men to defend American rights and to give freedom to the people of the world. The number may seem shall in proportion to some villages no larger than Manchester, but when we take into consideration that there is very unite manufaruring done here, our boys, all of whom want to work, seek employment in the nearby cities, we think the matter is explained. Chinton, Tecunsels, and Chelsea have factories where the young men are employed.

"We did not hear a word of dissatisfaction over the registration and several said that they shought where the young men are employed.

New kind of Ford makes record run of decisive importance to 57 car buyers!

A new 1957 Ford traveled 50,000 miles at an everage speed of better than 108 mph... including all pit stops . . . to smash 458 National and international records in a single test! Never before has any car been so severely tested ... so successfully proved!

Just recently—on the Bonneville Sait Flats in Utah, two new '57 Pords completed the most exhaustive endurance test in history—under supervision of the United States Auto Club and the Federation Internationale de Auto-mobile. They were Ford-prepared pre-production models, exact duplicates of models which your Ford Dealer now has for sale. These Fords completed the 50,000 mile run in less than

20 days. One averaged 108.16 mph for the entire run the other over 107 mph. These arcrages include time for all The test shows without qualification what Ford's new

Thunderbird V-8 engines will do. But this was no mere demonstration of speed! It was a convincing demonstration of the superior quality of the whole Ford car. It shows the superior endurance of Ford's running gear, brakes, body materials, steering—every part of the car. For without such built-in staming, Ford could never possibly survive such terturous treatment.

Such a test can't help but make the decision easier for people who prize truly outstanding performance and durability in a new automobile . . and who want the fullest possible value from their new-car dollars. valiable in a wide range of horsepower to meet every need. New Y8-powered '57 Chevrolet trucks, heavily loaded, made one of the world's toughest roads look easy! in a ALCAN Highway to Alaska-in less than 45 hours (normally a 72-hour run). Here's proof-in-action of

131 - Adrian

Six new Task-Force huskies made the run. And six ultramodern Chevy engines proved their power and performance-with gas mileage up to 18.17 miles per gallon! Two of the engines were not stopped once, and they hummed along at peak efficiency the entire 1,520 miles! Chevy's big V8's-including the new 283-cu-in. Super

askmaster-turned in top performance jobs. They hauled typical loads up and down towering grades and through vashouts that sucked wheels into hub-deep mud. They roared on through miles of heavy dust that narrowed visibility to a few hundred feet. And in spite of the varying altitudes and temperatures, not a single Alcan run truck was forced to drop out or turn supervised ack! Stop by and see them soon!

Proved on the Alcan Highway Champs of every weight class!

woman was wounded in the left foot Sunday when a 22 caliber rifle held by her 14-year-old son accidentially discharged.

State police at the Clinton post said the injured woman is Mrs. Incr. Brown of 7460 Ernest Road. She suffered several broken bones in her foot and was taken to Herrick Memorial hospital, Tecumsen, troopers noted.

Officers said Mrs. Brown told them she was talking on the telephone in her home when the mishap occurred. Her son, James, was unloading the rifle nearby, troopers related. Suddenly the fire arm discharged, sending the bullet into Mrs. Brown's foot, officers said.

Troopers said the shooting has been listed as accidental and means the surface of the public going into the building is on Ann Street. There are two exits, at Fourth Ave me and Ann Street.
