

Today Is The Day! Chicken Bar-B-Q

Today, all roads lead to Manchester. Beginning at 4:30, an estimated crowd of 4,000 people will eat charcoal broiled chicken on the Athletic Grounds on the east side of town. This event, now famous in southern Michigan, is sponsored by the Manchester Optimist Club and the Jaycees.

Luther Klager, general chairman of the event, says that the chickens this year are Capotes, a specially grown breed of chicken that has been capotted by injection and grown in nine weeks to a weight of over three pounds. This process results in a highly tenderized, superior bird, ideal for charcoal. The chickens are Michigan-grown.

Chickens will be broiled by the Michigan State University method, on special equipment, cooked slowly over charcoal, and basted with butter. Complete dinner, including buttered butter, potato chips, apple salad and olives. Dresselhouse and deserts will be available at the Jaycee counter.

Tickets are available at the gate. Service is from 4:30 until everyone is served. Championship football games will be played after dinner. Prices, adults \$1.50, children \$1.00, takeout dinner.

School Loses Accreditation From University

Napoleon high school has been dropped from the University of Michigan's list of accredited schools, announced last Tuesday.

One of the county's largest rural agricultural schools, it has been on the accredited list for 25 years. For the last 2 years the accreditation was on a tentative basis with the understanding that the school would meet the standards for the next year.

For the last 2 years the school has been dropping in the number of students and the bond issue contemplated in December and had drawn the University to carry Napoleon on its list a white tiger.

Exclusion from the list means that Napoleon high school students will be required to take entrance examinations before enrolling in a college or university.

Open Letter From Prosecutor Devine

EDITOR'S NOTE: The following is an open letter from Washington County Prosecutor Edward F. Devine to clarify his views about the selection of Robert E. A. Lillie as Sheriff of Washington County last February.

The letter is in no way expressive of the views or opinions of this newspaper.

There seems to be some misunderstanding regarding the manner in which Robert E. A. Lillie was selected as Sheriff of Washington County in February of this year. Upon the death of a sheriff in an election dated March 4, 1958, "New Sheriff" appointment appears excellent choice. The new sheriff's background of service in the Marine Corps appears to fit him admirably for the office. Criminal investigation, personal supervision, accounting and responsibility for military base detention facilities, all have been part of his training and experience in the service, and all have some application to his new duties. Mr. Lillie also seems to have a grasp of the problems he will face in running this major department of county government.

Mr. Lillie's work as Sheriff since his appointment has materially advanced the cause of law enforcement in Washington County. His department is well organized and is making increasing use of modern investigative and administrative techniques. It was with the hope of this increasing the efficiency of this important department in the interests of the citizens of the county that Sheriff Lillie's appointment was made.

Minor Changes In 1958 Hunting Laws

Only minor changes in 1958 game laws are recommended by the Conservation Department's game division. Recommendations go to the State Conservation Commission for action at the group's July 20 meeting at Higgins Lake.

Game division recommendations for 1958 seasons include: Phalaropes: Same as last year except season would open October 20 in lower peninsula.

Ruffed Grouse: Same as last year except season would be opened on High Island under permit and closed on Hog Island; both islands are in the Little Belles group. Also, season would open October 20 in southern lower peninsula.

Squirrels: Same, except for October 20 opening in southern lower peninsula.

Bobcats: Same, except season would be closed in lower peninsula south of highway M-55, also in Crawford county and in Oceola county west of highway M-33.

Shupps' Crossbill: Same, except season would be closed on Sugar Island, Michigan, and on two birds per day; four in possession and eight per season.

The Commission also will be asked to approve purchase of 878 acres of hunting land for public use in 11 state game areas, plus 150 feet of frontage on the St. Joseph River, St. Joseph county, for a public fishing site.

Sweepings From The Press Room Floor

A BOVISH DREAM Her hair was light, her eyes were blue. Her lips were like the honey-dew.

Her cheeks were red and Oh the bliss. I up and took a sweet, sweet kiss.

She said, "Oh quit, you'll muss my hair."

But then, I knew she didn't care.

She blushed and whispered, "Just one more."

REALITY Mouse colored hair, eyes greenish blue.

With cheeks an artificial hue. Her lips were red, the artificial kiss.

She stuck them out for him to kiss.

She said, "Oh kid, you'll muss my hair."

But I don't mind if you don't care.

She tried to blurt and asked for more.

SEQUENCE (Her Deal) "No hair at all but on the chin—"

"—and that was about, and awful thin."

His nose was red, his voice was rough.

His hair was big, his muscle tough.

He saw the kid that mussed the hair.

For several hours he'd waited there.

"The boy was lifted through the door."

"Come back," said dad. "If you want more."

Wash. Certified As Modified Brucellosis Free

The Washtenaw County Board of Supervisors accepted a modified certificate attesting to the fact that Washtenaw dairy herds are practically free from Brucellosis.

Washtenaw Board of Supervisors meeting had two representatives of the U. S. and Michigan Department of Agriculture present and read letters from G. S. McIntyre, director of the department, praising the county for its accomplishments.

McIntyre said that the designation means that less than 1 per cent of the cattle in less than 5 per cent of the cattle herds in the county were infected with brucellosis (undulant fever in man).

When the Washtenaw herds were first tested in 1957, 100 per cent of the cattle and 78 per cent of the herds were found to have brucellosis resistance.

Dr. James H. Campbell, U. S. district veterinarian with the Department of Agriculture, said that when the cattle were retested on about June 1, only 65 per cent of the cattle and 53 per cent of the herds were infected.

Campbell said the goal now will be complete eradication of brucellosis among cattle here. He said that from now on the testing on milk cattle probably will be done every four months, and every six months for beef, dry, heifer herds.

The modified certificate was presented to William I. Scheel, chairman of the Board of Supervisors, and will be placed in the agriculture extension office.

Recovery Doctor: "How's the patient this morning?"

Nurse: "I think he's regaining consciousness. He tried to blow the foam off his medicine."

National 4-H Group Reports On 36th Year of Service

The only organization of its kind in the nation has completed 36 years of service to some two million boys and girls enrolled in more than 90 thousand 4-H Clubs throughout the 48 states, Alaska, Hawaii and Puerto Rico, according to the 1957 annual report just released.

This unique non-profit agency is the National Committee on Boys and Girls Club Work with headquarters in Chicago. President Dwight D. Eisenhower is honorary chairman. Up until May 1 of this year, the Committee has been headed by Guy L. Noble, one of the founders who is now retired. His successor is Norman C. Min-

drum, former director of the National 4-H Club Foundation. Kenneth H. Anderson is associate director.

The Committee's principal function is to assist in furthering 4-H Club work through cooperation with state and Federal Extension Services of the USDA. Over the years it has obtained financial support of business and philanthropic interests that has provided funds for 4-H awards and expenses involved in program operations.

During the last fiscal year an all-time high of \$300,000 was dispersed by the Committee, the report announces. A total of \$122,700 was used for training 12,500 adult 4-H leaders. College fellowships and scholarships totaling around \$20,000, plus over a thousand expense-paid trips to the annual 4-H Club Congress in Chicago were awarded to state and national champions.

Keystone Drilling Rig

Due to the ever increasing popularity of our wells we are now operating three of these drilling rigs.

Our standards are high on workmanship and materials. We give five year warranty in writing on our wells. Any well that makes sand or muddy water, we consider this poor workmanship.

Also with a Cook Well Strainer and the experience to choose the proper slot openings and length there is no such thing as quick sand or sand to find to make a good producing well.

We offer advantages in prices because we buy in quantity and offer superior pump service because we have four full time drillers.
