

# Community Fund Drive next month

Manchester, like Ann Arbor, Jackson, Detroit and two thousand other communities in the United States, will be conducting its annual United Community Fund and Red Cross Drive next month. The dates for the Manchester area are October 13 through November 5, with the solicitors meeting for instructions and distribution of supplies on Thursday night, October 9, at the St. Mary's Church hall.

At the name indicates this is three large drives combined in one—the Community Chest, the Red Cross and the United Health and Welfare Fund. The quota set by the local budget committee for 1959-1959 is the same as it has been for the past two years—\$7000. The budget committee included Walter Schable, Louis Vogel, treasurer of the Community Chest and Richard Sutton. Their recommendations were discussed by the twelve members of the Community Chest board before being established as the quota for this year's drive.

This year's budget includes all of the approved national health and welfare groups that are interested in working with the public in "One Drive for All" organizations that can budget their yearly work and rest assured that the public will remember when it is going to give enough for all. It also includes the local groups outside of the city supported brackets where civic interest and general helpfulness is needed.

Norman Wallace is the campaign chairman for this year's drive. He is assisted by Roland Grossman. Working with them are the village house to house chairman, Mrs. James Baker and rural chairman, Mrs. Jesse Walker.

# Manchester improvements underway

Village president, Eugene Bentschneider points to some of the improvements taking place in the village. At present ground work is underway for extending a couple of water mains to eliminate dead ends. This he says will serve a dual purpose, first it will serve more people and secondly, the circulation of water will give the public better fresher tasting water at these points.

The village number one pump filters have been repaired and the supply of water is again coming from this pump on Union Street.

A building inspector from Ann Arbor has been working here inspecting all commercial buildings in the village. There are several in need of repair. The council will contact owners in the near future with the hopes that they will see the danger and give full cooperation in correcting the conditions.

Mr. Bentschneider noted that the work of the Kelleys of Columbus in tearing down the "Waltan Barn" is progressing satisfactorily, to make way for the village parking lot which will be located south of the new post office site.

Reports coming back to the village from Lansing indicate that at least some of the elm trees believed to be infected with Dutch elm disease are not and will not have to be cut down.

Mr. Bentschneider also said that the people of Manchester can be proud of the way Grossman-Huber softball team conducted themselves while competing for the State Championship at Iron Mountain. To prove the point he noted that after Grossman-Huber lost the home game of Iron Mountain and eliminated them from the competition, the people of Iron Mountain chose to support Grossman-Huber practically one hundred per cent.

Evacuees Report: Cars and passengers are counted at Manchester High School in Sunday's Civil Defense evacuation exercise. John V. Althouse of Manchester (left) hands out letters of thanks while Bill Schaffer, president of Manchester Jaycees, records figures. Officials said 800 took part in the evacuation.

# Participation In CD Called Low Drill

Washenaw County Civil Defense Director Gerald G. Miller has announced that he is disappointed with the number of persons who took part in the county's first actual evacuation of the city of Ypsilanti and township and Superior townships, Sunday.

It was generally believed that the test went smoothly and it turned out to be a good exercise. Evacuation workers counted 802 persons from the eastern townships who took part of seven evacuation routes to Manchester, Chelsea and Freedom townships.

There were 405 who registered at Manchester, and Freedom, and 377 at the Chelsea center. The evacuees arrived at Chelsea in 97 cars and at Manchester in 101 vehicles. This figures four persons to a vehicle.

This is only a little more than 1 per cent of the 45,853 residents in Ypsilanti and Superior townships. Miller said he expected between 1,000 and 2,000 people would participate. The people who took part know what to expect, how they will be treated when they get to the centers, how to find information about clothing, food and shelter and how long it will take them to get in their autos and get underway.

# School enrollment hits all-time high

School enrollment at Manchester is 925 as compared to 839 in 1957 to begin the fall classes. This number is just five less than anticipated in last year's enrollment survey.

School authorities point out that the largest enrollment increase is in the kindergarten which has 107 five-year-olds, an increase of 26 children over last year's first week of school. Other classes averaged as anticipated with about ten more students than expected entering the high school.

Superintendent Robert Masten reports that school is running smoothly considering the over-crowded conditions which exist. Classes are running in sections of 20 children per room with the exception of the Pleasant Lake school where the enrollment is less than last year.

Breakdowns of class enrollment is as follows: Kindergarten 107; First-80; Second-73; Third-88; Fourth-74; Fifth-67; Sixth-83; Seventh-74; Eighth-57; Missions and 10 in the parish hall.

In the high school there are 69 enrolled in the freshmen class; 78 in the sophomore; 63 in the junior and 51 in the senior classes. Robert Duhan is high school principal and Gladys Feldkamp is principal at the Pleasant Lake school.

# Blood Mobil Unit to arrive here Friday, Sept. 26

Manchester's Red Cross Blood Club reports at the end of eight months, a balance of 39 pints in store for the area with the Red Cross Regional Center in Detroit. Twenty pints were used in the last three months. The club and twenty one the past five months.

The next Blood Collection Clinic is scheduled for Sept. 26, three weeks from this Friday, at the Emanuel Church Hall. The hours for the clinic will be 11:30 a.m. to 2:30 p.m. and 5:30 p.m. to 8:30 p.m. unless word is received by Mrs. Franklin Reek or Mrs. Roland Grossman, local chairman for the Blood Club before Sept. 15 indicating a more suitable time of day for the area.

Booking the Collection Unit from the Detroit Regional Center to replenish the local supply is a bit difficult. The local club had been scheduled for a date during Thanksgiving week until the September date was available. With in the present balance it was not practical to postpone the clinic until January.

Mr. St. Aubin, director of Washenaw County Red Cross. The local blood club is one of the oldest rural and village community clubs in the area. It is also the official blood club for Double A Company. Everyone residing in the Manchester township or employed by Double A (and their families) are members of the Manchester Blood Club. Being a member of such a club involves giving as well as receiving. That is, anyone living in the prescribed area and employing a Double A and their families who are physically able are urged to give blood at a clinic while the opportunity is convenient and available. In this way they are ready for that sudden request for blood from someone in the family, a neighbor or on a regular basis.

This is what makes a community blood club in most cases hospitals would rather get their blood from the Red Cross Regional Centers whenever possible.

It is not practical for the Unit to be present for less than 100 pints. Adults between the ages of 18 and 40 may normally give blood. There is always a doctor in charge of every clinic and each individual is carefully checked before being allowed to become a donor.

Young people between the ages of 18 and 21 must present a signed parental consent card unless they are married or in the armed services.

Requests for blood are made by calling Mrs. Franklyn M. Reek, Ga. 8-4451, Mrs. Robert Huber, Ga. 8-8361 or Mrs. Herman Roesch, Ga. 8-9711. Since Sept. 1st the transportation cost and postage on delivery of blood to certain hospitals will be absorbed by the Red Cross. Frozen plasma is also now obtainable by hospitals for patients on the same basis as whole blood.

# Mrs. G. Bowers Heads Moms Club

The Manchester Moms installed their new officers at the regular meeting in September at the Emanuel Church Hall. Mrs. G. Bowers is the new president, the installing officer. They are: Mrs. Gordon Bowers, president; Mrs. Walter Silvers, vice president; Mrs. Merle Schick, secretary; Mrs. Robert Kuhl, secretary; Mrs. George L. Eulen, History and National Catholic Community Services; Chairman will present a most interesting paper, "This is Our Life."

All the ladies of the parish are invited to attend the meeting. The next quarterly meeting will be held at St. Mary's in Manchester in December. Anyone wishing a ride to Monroe is asked to contact Mrs. Marvin Kirk, Phone 6-8218.

Next Spring Repeated: Another such exercise will be carried out next spring and in the meantime there will be repeated drills of various kinds between now and then.

From the county building Miller put Civil Defense zone directors in all parts of the county through various paper drills, while residents were evacuating the two townships in Zone 2. It was assumed that an enemy bomber missed Willow Run Airport which is the reason for evacuating Superior and Ypsilanti townships and dropped a 50-kiloton bomb on Lima Center. Traffic was hypothetically diverted two miles around the area.

A derailed train at an intersection also was hypothetically blown up so that traffic could get through at the rates of 1,000 vehicles an hour.

RADIO SETUP HERE: Messages went out over the Civil Defense Zone Seven radio from Manchester as hypothetical problems in the evacuation of Ypsilanti and Superior townships. The situations were not real, but were set up to give CD center an experience in handling such situations should an attack take place.

In the radio center set up here in Manchester over the fire station, messages came in from the reception center at the high school by phone, and were sent out to mobile units and the county CD center in Ann Arbor. Local ham radio operators make up the mobile units.

Here in Manchester's reception center, cars and passengers were counted and a letter of thanks was handed to each driver.

CHELSEA TAKES PART: In Chelsea, another reception center for the evacuees, two nurses stood by as registrations were made in the gym of the old high school. Here the driver gave his name, number of passengers, point of origin and the time it took to get to Chelsea.

# Area Farmers Committee Study Loans

To raise the values of their farms and increase their incomes, a number of Washenaw county farmers are thinking in terms of better soil conservation practices, permanent pasture improvement, full development and use of farm water supplies, and good drainage, reports Carl L. Robinson, Farmers Home Administration County Supervisor.

The Farmers Home Administration has a loan program to help eligible farmers carry out needed soil and water conservation measures, he said, and added that the practices most needed and most likely to be carried out through the agency's loans in this area include improving pastures, developing farmstead water facilities, irrigation, and tiling.

The making of soil and water conservation loans to farmer who are eligible is one of the functions of the agency's county office located at Ann Arbor and Monroe, the county supervisor pointed out. Each county has a 3-member county committee, and one of its duties is to determine whether or not an applicant is eligible for a loan. To be eligible, the applicant must be a farm owner or operator, with necessary experience, whose credit requirements for soil and water conservation improvements cannot be supplied through private sources.

# Area Farmers Committee Study Loans
