A review of our financial condition in brief is as follows: The school year of 1956-57 ended with a cash balance for the children of state of 1956-57 ended with a cash balance for the condition in brief is as follows: The school year of 1956-57 ended with a cash balance for the condition in the condition of the financial picture of a special was \$23,41.85. This was a greater deficit than expected and partially accounted for by reduction in transportation reimbursement during the year and about ten thousand dollars less in state and than anticipated.

The financial picture for this coming year is not optimistic. The valuation of our district has been cut by \$55,900.00 and the
