Library Lists By-Laws

For part of the "Know Your Library" campaign, the board asked for the printing of the by-laws regarding "Rules and Regulations" for the Manchester Township Library. Many residents of the area may not know that the library is supported almost entirely by the township of Manchester with assistance from Sharon Township and the village.

Article VII of the by-laws is as follows:

Section 1. Any resident of any township contributing to the support of the Manchester Township Library shall have full privileges.

Section 2. Every person desirous of drawing books must procure a library card for himself which shall be issued by the Librarian according to library procedure.

Section 3. Child readers may borrow two books of fiction at any one time. Adult readers may borrow four books of fiction at any one time. Library borrowers may withdraw two non-fiction books at any one time.

Section 4. Any book may be held for two weeks, and a renewal for two more weeks may be granted unless in the discretion of the Librarian the book should be returned sooner.

Section 5. A fine of 20¢ per day shall be charged for every book held over time, and when a volume has been held three days overtime, the holder shall be notified by the Librarian.

Section 6. No books shall be loaned to anyone holding overdue books.

Section 7. If any book is lost or destroyed the borrower shall be held responsible.

Section 8. A copy of these rules shall be posted in the library.

A. Kosakowski Buried Friday

Funeral services were held Friday at 1 p.m. for Anthony Kosakowski, 78 years, of Burmester road, Bridgewater who died Tuesday at University hospital, Ann Arbor, where he had been a patient for three weeks.

Born in Poland, March 22, 1880, he came to Detroit where he married Sophia Gorski May 31, 1911. The couple came to Bridgewater 25 years ago.

Surviving are his wife; four daughters, Mrs. Victoria Dickens at home, Mrs. Virginia Johnson, Mrs. Virginia Kully and Mrs. Helen Bohan all of Cleveland, Ohio; two grandchildren.

The presiding minister at the funeral services at the Lockwood Funeral Home in Saline was Kenneth Hall of Adrian at the Jehovah's Witness. Burial was at the Saline Cemetery.

Mrs. Arthur Williams of Kias Road is confined to bed because of illness.

Mrs. Arthur Wahl is a patient at St. Joseph hospital, Ann Arbor.

Methodist To Consecrate New Building

The Manchester Methodist Church is having an open house for the entire community beginning at 3 p.m. next Sunday, December 7. Members of the building committee, of which Tom Walton is the chairman will be present to show people through the new nursery and kindergarten rooms and hall for dining and youth activities. Refreshments will be served by the Woman's Society of Christian Service.

Dr. L. LaVerne Finch, superintendent of the Ann Arbor District, will consecrate the new building at the 11 o'clock service and afterwards preach on the subject, "Preparing for Christmas." At 12:15 there will be a fellowship potluck dinner for the families of the church school.

Jet Pilot Gets Wings

Wayne R. Lehr received the silver wings of an Air Force jet pilot and a commission as second lieutenant when the 38 members of flying training class 59-D graduated here.

Lieutenant Lehr is the son of Mr. and Mrs. Glenn Lehr of 10905 Pleasant Lake Manchester, Michigan.

A wing review in honor of the graduates preceded the formal graduation ceremony. This was followed by a "Commander's Coffee" at the Officers' Club for members of the class, their families and guests.

This graduation marked the successful completion of some 15 months' extensive pilot training.

Class 59-D first received pre-flight instructions at Lackland AFB, Texas, and then primary pilot training at one of the various Air Force primary training bases. After arrival at Greenville AFB the students received their single engine jet training in the Lockheed T-33.

Manchester Personals

Mr. and Mrs. Neil Brance of Tecumseh are planning to entertain Mr. and Mrs. Ernest Nogel and Mr. and Mrs. Donald Brance of Tecumseh and Mr. and Mrs. Edward Abbin at Centerline at Thanksgiving dinner.

SOUTHWESTERN DEANERY TO MEET SUNDAY

The southwestern deanery's third quarterly meeting will be held Sunday, December 7 at 2:30 p.m. at St. Mary's hall, Manchester. The program is under the direction of the organization and development committee with Mrs. Kenneth Helker, deanery chairman. A highlight of the afternoon will be the Deanery Institute and will include exhibits of the work of all the committees. The guest speaker will be the Archbishop, Organization and Development chairman, Mrs. Frank Ovellette of Dearborn. All the ladies of the parish are invited to attend.

This was a typical scene in Manchester following the first heavy snow fall of the season which measured 4 inches and hit this area on Friday, November 28, just ahead of blizzard winds which whipped the area Saturday and sent the mercury dropping to 2 degrees. The state was caught in the newest weekend of the winter. It started getting rough late Saturday morning. Blizzard like conditions made travel in the western section of the Upper Peninsula all but impossible. The stinging snow flurries driven by bone-chilling winds continued to pound Michigan through Sunday. Heavy snow and ice made road travel in the state and kept road crews in the county busy clearing roads.

Christmas Fantasy Open At Rotunda

The sixth annual Ford Rotunda Christmas Fantasy, with new displays and an entirely different "cast of characters" from the wonderland of fable and folklore, has opened at the Rotunda in Dearborn, and will be from 8:30 a.m. to 9 p.m. Monday through Saturday, and from 1 p.m. to 9 p.m. on Sundays. The Fantasy will close at 3 p.m. Christmas Eve.

The 1957 Rotunda Christmas show was seen by 735,296 visitors between November 20 and December 24.

Outstanding new attraction this year, for children and adults alike, is a 15,000 piece miniature animated circus, complete with animals, wagons, circus train and performers.

Central religious theme of the Fantasy—one of the nation's best known holiday presentations—will be the life-size Nativity scene in the Rotunda center court. Represented in the tableau will be figures of Mary and Joseph, the Christ child, Wise Men and their camels, shepherds and their sheep.

The background motif for the Nativity scene will be a full-size reproduction of a church organ with organ music to add a touch of realism. Detroit area choral groups will provide concerts periodically in the center court.

The outer court is filled with animated characters from the world of fantasy. In one section there are acres of animated dolls representing all nations. In another there is a shopping center with a doll beauty shop; in another, a large candy shop where animated work-men endlessly manufacture chocolate-covered delicacies.

There is a rustic barn dance and a scene showing woodland characters frolicking in the snow.

The largest single display is the miniature circus in which moving workers unload the train, set up the big top and sell tickets; the animals perform, the sideshow dancers dance and the "barbers" entice the crowd. There are performing elephants, bareback riders, animal trainers—every traditional facet of the well-observed, thrilling circus.

Santa Claus is in his element at the top of the outer court, ready to hear the whispered wishes of thousands of youngsters. A 10-foot high Christmas tree, with 18,000 individual lights, dominates the east end of the Rotunda entrance.

Cartoon movies for children—and adults run continuously in the Rotunda theatre.

Herbert Bradleys Observe Anniversary

Mr. and Mrs. Herbert Bradley of Milan, Mr. and Mrs. Julian Van Buren of Saline, also Mr. and Mrs. Dale Bradley and their families spent Sunday with Mr. and Mrs. William R. Porter and family at Delhi near Ann Arbor where a co-operative dinner was enjoyed by the group in observance of their wedding anniversary which all occurred on November 20, 1908.

Mr. and Mrs. Dale Bradley and their families who live on Pleasant Lake Road. They have been married the longest of the four couples.

Births

A boy, Kevin Carl Knorrp, weight eight pounds four ounces was born to Mr. and Mrs. Charles Knorrp on Monday, November 10, in Herrick Memorial hospital, Tecumseh. Mrs. Knorrp and baby have returned home. Kevin Carl has a sister, Charis 12 years also Mr. and Mrs. George Lyles of Plymouth. He is spending a few days this week at the Knorrp home.

Jon Charles, a 6 pound ounce boy was born to Mr. and Mrs. Charles Steele Friday, November 14 at Herrick Memorial hospital, Tecumseh. Mrs. Steele and baby returned home Thursday. The Steeles have two other boys, Donald 3.5 and Ronald 19 months. Mrs. Steele's mother, Mrs. Ray Johnson is assisting at the Steele home.

40th Anniversary Honored Sunday

Mr. and Mrs. Robert Heiber of 8225 Eureka Church road, were guests of honor Sunday afternoon at the home of their son and wife, Mr. and Mrs. Elton Heiber who entertained 125 relatives and friends at open house in observance of his parents' 40th wedding anniversary. Guests were present from Ann Arbor, Saline, and Manchester and the nearby area. Mr. and Mrs. Heiber were the recipients of many lovely gifts and cards in memory of the happy occasion.

RETURNS FROM HOSPITAL

Albert English who had been hospitalized for eight days at Herrick Memorial hospital, Tecumseh, returned home Sunday.

Coming Events

The Freedom Ideal Home-makers Extension club will entertain their families at the home of Mr. and Mrs. Harold Eisenman, Saturday evening, December 6 with a potluck supper at 6:30 p.m. There will be entertainment and a fifty-cent gift exchange.

The Arbiter Christmas party will be held Thursday, December 11 with a potluck supper at 6:30 p.m. and fifty-cent gift exchange. Committee will furnish coffee and rolls. The party will be held at the Arbiter hall.

The American Legion Auxiliary party will be Wednesday, December 10 at the Legion hall at 8 p.m. with a gift exchange.

Dr. LaVerne Finch, District Superintendent of the Ann Arbor District of the Methodist church will be the guest preacher at the 11 a.m. service at the Methodist church Sunday. There will be a family fellowship dinner at 12:45 p.m. Members are asked to bring table service and a fish to pass. Open house for community at 3 p.m. to see the new addition to the church.

The Church Council of Emmanuel Evangelical and Reformed Church will have its monthly meeting at 8 p.m. Monday, December 8 in the Emanuel parish hall.

The Young People's League of Emmanuel Evangelical and Reformed church will have its annual Christmas banquet on Thursday, December 11 at 6:30 p.m. in the Emanuel parish hall. Rev. Armin Bizer of St. James Church, Saline township, will be the speaker.

Rev. Karl H. A. Best will be the guest preacher at the 11 a.m. service at the Methodist church Sunday, December 9, and 10th to attend a meeting of the Board of Managers in the Department of Evangelism of the National Council of Churches of Christ.

Manchester high school junior class is presenting a three act comedy, "Cheaper by the Dozen" directed by John Galbreath will be held Thursday and Friday, December 4 and 5 starting at 8 p.m. in the Civic auditorium.

Milwaukee Briefs

Dinner guests Tuesday of Mrs. Helen Reum were Mrs. Mabel Kelly, Mrs. Freda McKinney, Mrs. Francis Schneider and Mrs. Nellie Waggoner of Toledo and Mrs. Nelson Lemmon. Mrs. Westcott returned to her home with several weeks visiting friends here and at Milan. Mr. and Mrs. Lee Reum of Dundee called on Mrs. Helen Reum Friday night.

Mrs. Joseph LaMonde of Britton and Mr. and Mrs. Edward Applegate and son returned home Monday from a hunting trip and spending the week end with Mrs. Applegate's aunt and uncle Mr. and Mrs. Clarence Rodger at Boon, Mich. Mrs. Applegate brought back a buck which she shot near Boon. Mrs. Norman Dye and two children of Leavenworth, Kansas are spending two weeks with Mr. and Mrs. Applegate and son.

Mr. and Mrs. Peter Summer of Dundee called on Mr. and Mrs. Kenneth Aring and family Monday night.

One of the many deer brought in to the Manchester Frozen Food Lockers for processing. This 9 point buck was shot near Escanaba. It was 6 years ago that this hunter got his last deer. Manchester hunters have been out in full force since the time the season opened.

Committees working on the annual band concert to be Wednesday, December 10 at 8 p.m. at the civic auditorium are: Front row (left to right) Sue Hassett, Donna Kenner, Martha Boutell, Gretchen Holstein, Darlene Ahrens, Fatsy Binkowski, Sandra Troli and Arthur Holstein. Standing (back row, left to right) Theodore Pasma (director of chorus), Anne Lohmann, Nancy Walkover, Sarah Reck, Barbara Kappler, R. C. Sottor (director of band), Joan Seckinger and Anne Buss.

VILLAGE OF MANCHESTER Ordinance No. 51

An Ordinance regulating the subdivision and plating of land in the Village of Manchester...

1. GENERAL. In their interpretation and application the provisions of this Ordinance shall be held to be the minimum requirements...

2. DEFINITIONS. For the purposes of this Ordinance, certain words used herein are defined as follows:

a. Block. An area of land within a subdivision that is entirely surrounded by streets, highways, or ways...

b. Collector streets are those which carry traffic from minor streets to the major streets...

c. A cul-de-sac is a minor street with only one outlet and having an appropriate terminal for the safe and convenient reversal of traffic movement.

d. Subdividing. Shall have the same definition as provided in the Plat Act of 1929 of the State of Michigan...

3. APPROVAL PROCEDURE. All proprietors, subdividers and persons planning and subdividing any land within the Village of Manchester...

(1) The location of existing property lines, streets, alleys, buildings, water courses, railroads, utilities, and other similar features.

(2) The approximate location in the adjoining streets or property of existing sewers and water mains, culverts and drain pipes...

(3) The title under which the proposed subdivision is to be recorded, the description of the land to be platted, and the names and addresses of the owners...

(4) The date, north point, scale and acreage.

(5) The relative ground elevation where the slope is greater than 10 per cent.

(6) The zoning classification requested for the plat.

(7) The Council shall, within 30 days after the preliminary plat is filed with the Village Clerk...

(8) The final plat shall be prepared and presented in accordance with the provisions of the Plat Act of 1929 of the State of Michigan...

(9) Proposed plats shall be prepared so as to be in harmony with adjoining platted areas and to provide for the subdivision for the platting of contiguous property.

(10) There shall be no reserve strips controlling access to streets. Each lot or parcel of land in the plat shall be provided with satisfactory means of access to an existing public highway.

(11) The plat shall be laid out so as to intersect as nearly as possible at right angles and no street shall intersect any other at an angle of less than 60 degrees.

(12) Street rights of way shall be at least 100 feet for arterial streets and at least 60 feet for all other streets.

(13) Cul-de-sac streets shall not be longer than 500 feet and shall be provided with a turn around at the closed end having a right of way of at least 100 feet diameter.

(14) Street names shall be subject to the approval of the Council and shall not duplicate or be similar to the names of existing streets unless they are an extension thereof.

(15) Blocks. No block shall be more than 1100 feet in length between the center lines of intersecting streets nor less than 500 feet in length. The optimum length of blocks shall be considered 800 feet.

(16) Alleys. Alleys not less than 20 feet in width shall be provided to serve the rear of all lots proposed for business use.

SOUP SAGA

First soup was probably mixture of grasses and herbs cooked in a gourd, first pottery? ... split gourd probably repaired with mud. Thus hard, crude crockery resulted.

Luxury loving Louis XIV ordered his chef to create a soup so clear it would reflect his kingly countenance—and consume was born! Today there are over 1,000 different soups throughout the world!

'ROUND THE CLOCK SOUP. Imaginative home-made soups serve as a beverage—for breakfast, mid-morning and afternoon pick-ups, lunch, pre-dinner snack... even a late evening drink before sleep.

...merely uses everyday coffee cups, goblets, beverage glasses of all sizes and mugs for serving.

School Children Will Get Dental Treatment

The Dental Health Committee of the Room Mothers Association is now offering the fifth clinic program for the application of Sodium Fluoride to the teeth of school children.

This year's program will be held during school hours in the present school term. The treatments were begun on Nov. 19 and will continue through December 18.

Eligible for the treatments are children now in kindergarten, and the second, fifth and eighth grades. It is at these general ages when new teeth come into the mouth.

However, inasmuch as it has been emphasized that it is important that fluoride be applied to new teeth after eruption, regardless of age, application can be made more often.

THE TREATMENT consists of a series of four applications of a solution of sodium fluoride to the dry surface of each tooth after a thorough cleaning by a dental hygienist.

This treatment has been found by Public Health studies to reduce on an average of 50 percent the number of new cavities in a child's mouth.

However, this has no effect on cavities already present and is not to be considered a substitute for regular visits to the dentist.

THE LOW FEE of only \$3 per child for the complete treatment series is made possible only through this clinic arrangement.

Further information regarding the treatments and clinics may be obtained from the local area health nurse, Mrs. Mary Dick, at NO. 3-7511, Ext. 31, Washburn county building in Ann Arbor.

For the first time in the 42-year history of Michigan Milk Producers' Assoc., it now has its own office headquarters. The association, one of the largest co-operatives of its kind in the country, is located at 24270 West Seven Mile Road in Detroit. It is just west of Telegraph Road.

While the organization, which is owned by 15,000 dairy farmers in Michigan, has operated considerable property over the years, such as receiving stations, processing plants and highway fleets, it has never rented office space until this fall when its new building was completed.

The new building, which is highly functional, is constructed of steel and concrete to compensate for expansion and contraction. It is a two-story building with a total floor space of 15,000 square feet.

Flexibility is the keynote of the building which has a steel structural frame with masonry facings. Partitions internally are flexible and can be removed if additional space requirements are needed.

Officials of the organization point out that a membership house is scheduled at the building on December 15, 1936.

The house plan at 11 is one of a number of these that were designed specifically for parts of the country. Costs of building and annual operation are estimated in three cities representing different climates: Dallas, South Indianpolis, Central, and Minneapolis, North.

The studies showed the specific savings for extra thick mineral wool insulation—8 inches in the ceiling and 6 inches in the walls—made it possible to cut the house with adequate equipment and to operate both systems on all three cities for less than the costs of equipment and operation that operates for less.

The thick mineral wool insulation used by the house, permitting the use of smaller, less expensive equipment that operates for less.

The house, a large, L-shaped ranch-style with 2,934 square feet of living space, has three bedrooms, a 24-foot living room, a separate dining room, and a 20 by 13-foot activities room, adjacent to kitchen with breakfast nook.

From outside, the house looks long and streamlined. This is because horizontal lines were stressed by the imaginative use of casement and double-hung windows of numerous sizes, the wide chimney, and the two-car garage.

Further information, blueprints, and specifications can be obtained from House Beautiful Department, House Beautiful Building, 472 Madison Ave., New York 17, N. Y. Refer to Plan R-220.

MMPA Moves Into Own Office Headquarters

For the first time in the 42-year history of Michigan Milk Producers' Assoc., it now has its own office headquarters. The association, one of the largest co-operatives of its kind in the country, is located at 24270 West Seven Mile Road in Detroit. It is just west of Telegraph Road.

While the organization, which is owned by 15,000 dairy farmers in Michigan, has operated considerable property over the years, such as receiving stations, processing plants and highway fleets, it has never rented office space until this fall when its new building was completed.

The new building, which is highly functional, is constructed of steel and concrete to compensate for expansion and contraction. It is a two-story building with a total floor space of 15,000 square feet.

Flexibility is the keynote of the building which has a steel structural frame with masonry facings. Partitions internally are flexible and can be removed if additional space requirements are needed.

Officials of the organization point out that a membership house is scheduled at the building on December 15, 1936.

The house plan at 11 is one of a number of these that were designed specifically for parts of the country. Costs of building and annual operation are estimated in three cities representing different climates: Dallas, South Indianpolis, Central, and Minneapolis, North.

The studies showed the specific savings for extra thick mineral wool insulation—8 inches in the ceiling and 6 inches in the walls—made it possible to cut the house with adequate equipment and to operate both systems on all three cities for less than the costs of equipment and operation that operates for less.

The thick mineral wool insulation used by the house, permitting the use of smaller, less expensive equipment that operates for less.

The house, a large, L-shaped ranch-style with 2,934 square feet of living space, has three bedrooms, a 24-foot living room, a separate dining room, and a 20 by 13-foot activities room, adjacent to kitchen with breakfast nook.

From outside, the house looks long and streamlined. This is because horizontal lines were stressed by the imaginative use of casement and double-hung windows of numerous sizes, the wide chimney, and the two-car garage.

Further information, blueprints, and specifications can be obtained from House Beautiful Department, House Beautiful Building, 472 Madison Ave., New York 17, N. Y. Refer to Plan R-220.

Swim Spectacle at EMC Thursday

A cast of 50 girls will be featured in the annual Catalina Club swim spectacle, "Catalina Island" which will open at 8 o'clock Thursday night, December 4 at the Eastern Michigan College pool.

The water show is sponsored by the Women's Recreation Association and the Women's Physical Education Department at EMC, with Virginia Johnson of the Department of Music at Eastern Michigan College as director of the Catalina Club.

Fourteen swim numbers will be featured, complete with costumes and scenery. The program includes Aqua Mist, Flowing Fog, Forest Fantasy, Stormy Skies, Flaming Fury, Sophisticated Sixteen, Canary Capers, Bounding Bunnies, Tamingo Fling, Stiletto Steps, Perky Penguins and Island Reflections.

Three additional performances will be given after opening night, a show at 7 and again at 9 on Friday, December 5, and an 8 o'clock show on Saturday, December 6. Admission is 75c for adults and 50c for children, with tickets available in Room 6 of the gymnasium and from MRA board members. Charlotte K. Wilcox, assistant professor of physical education at EMC, is faculty advisor to the group.

Funds raised at the show will be used to send club members to aquatic and synchronized swimming schools and to sponsor swimming, Flaming Flowers, Playful

Music Subject of EMC Conference

"Music in the Schools of Europe" will be discussed by Marguerite V. Hood, professor of music at the University of Michigan, at the annual alumni-student Music Education Conference December 6 at Eastern Michigan College.

Her talk will be given at the 10 o'clock session, Thursday morning in McKenney Hall. The second guest speaker at the conference will be William R. Sur, professor of music at Michigan State University who will address the conference session.

At 2 o'clock there will be a panel discussion of problems pertinent to vocal and instrumental education.

University who will address the 1 o'clock session on "The Contribution of Music Education to National Conference to Music Education in the Past, Present and Future." Haydn M. Morgan, Head of the Department of Music at EMC said that approximately 80 music teachers are expected to attend the conference sessions.

One Man Art Show At EMC On Dec. 19

The work of Vincent McPharlin, a 1922 graduate of Eastern Michigan College, are displayed in a one-man show which opened December 19 in the second room Art Gallery at the college.

McPharlin has taught in Flint and at Harbor Beach and is presently director of art activities in the public school system of Port Huron. On exhibition are 60 oil paintings, water colors and drawings, many with an emphasis on the landscape elements.

In the summer of 1937 several of the artists former students sent him to the UNESCO conference in Brussels and he spent the remainder of the summer painting in the Normandy section of France where he had been stationed during World War II.

The show will run through December 19 with the gallery open from 9 to 5 o'clock weekdays.

MSU Commencement To Be Held Dec. 9 Fall term commencement exercises at Michigan State University will take place at 8 p. m. Tuesday, Dec. 9, in the University Auditorium, 472 Madison Ave., New York 17, N. Y. Refer to Plan R-220.

Dr. Edgar L. Harden, president of Northern Michigan College, will address the graduates on the subject, "To Whom Much is Given."

Registration for winter term classes will be Jan. 5-7, with classes beginning again on Thursday, Jan. 8.

National figures showed that as of September 30 total incentive payments amounted to more than \$10-million and total payments to over three million dollars.

Miss Lillie Kuleskamp of Cincinnati, Ohio, spent from Wednesday in Tuesday with the Kuleskamp sisters here. Other Thanksgiving dinner guests were Mr. and Mrs. Herman Kuleskamp and her father, Dick Curtis of Grass Lake.

Mr. and Mrs. Robert Pratt and family and Mrs. Joseph Wenz spent Thanksgiving Day with Mr. and Mrs. John Pratt.

Mr. and Mrs. Claran Knauss and family of Adrian, Mr. and Mrs. Claran Knauss, Sr., also the Robert Armentrout family, of Manchester, Mr. and Mrs. John Hopkins and the Henry Hopkins family all of Toledo and Mr. and Mrs. Basil Schwab were Thanksgiving Day guests of Mr. and Mrs. Gaylord Knauss.

Mr. and Mrs. Robert Pratt and family and Mrs. Joseph Wenz spent Thanksgiving Day with Mr. and Mrs. John Pratt.

New Plan Urges Tests House Proves Its Comfort, Economy

A home without comfort and economy at all, regardless of size, cost, or beauty. This is one of the basic points in mind by the editors of House Beautiful's Building Manual, a new 30 new house plans for the winter edition.

The house plan at 11 is one of a number of these that were designed specifically for parts of the country. Costs of building and annual operation are estimated in three cities representing different climates: Dallas, South Indianpolis, Central, and Minneapolis, North.

The studies showed the specific savings for extra thick mineral wool insulation—8 inches in the ceiling and 6 inches in the walls—made it possible to cut the house with adequate equipment and to operate both systems on all three cities for less than the costs of equipment and operation that operates for less.

The thick mineral wool insulation used by the house, permitting the use of smaller, less expensive equipment that operates for less.

The house, a large, L-shaped ranch-style with 2,934 square feet of living space, has three bedrooms, a 24-foot living room, a separate dining room, and a 20 by 13-foot activities room, adjacent to kitchen with breakfast nook.

From outside, the house looks long and streamlined. This is because horizontal lines were stressed by the imaginative use of casement and double-hung windows of numerous sizes, the wide chimney, and the two-car garage.

Further information, blueprints, and specifications can be obtained from House Beautiful Department, House Beautiful Building, 472 Madison Ave., New York 17, N. Y. Refer to Plan R-220.
