Law enforcement agencies of the city: county and state will combine efforts on a strong campaign to save Michigan's good traffic record for 1958, according to Ted Roberts, Police Commissioner. "A recent shock wave of multiple death and "ran-offgovernment and safety officials roadtway" crashes have alarmed from the Governor's Office on down," Roberts said.

Increased celebrating and social drinking prevalent at this time of year may be at the root of the recent alarming trend, according to national and state safety experts. The State Liquor Control Commission reports that only 25 per cent of the liquor is sold in licensed taverns and resorts. The balance is consumed in homes or at private parties.

Now is the time to ask yourself the question, "Which car should I buy? Which car will give me the most value, the most satisfaction for my money?"

A hat do you

want in a car?

We don't expect to sell everyone in 1959. We know that some people will end up buying small cars, and some, foreign imports. We accept the fact that a few will buy high-performance sports cars, and that others, because of their position, cars that cost far more than any Dodge. That's fine. We don't expect to sell them all.

But if you're in the market for a smart-looking, solidly built, full-sized car that's reason-

imitation is the sincerest

form of flattery

Let's start with studing. How a car looks is an important consideration; no one buys a car they don't like. But styling, like beauty, is relative. What is hot stuff to one person is cold potatoes to another. So we will only say this about Dodge styling: Our competitors obviously like it. We think that's quite a tribute.

Rumor: Some '59 cars are

hard to get into

You'd think all cars would be about as easy to get into and out of, and as comfortable to sit in. After all, they all have doors and they all have seats. The fact is, there's a big difference—particularly this year.

A special message for people who

Frankly, some '59 cars are known to be a little difficult to get into, as well as out of. This wasn't intentional, of course. In trying to designa e car that was as low and modern as our Swept-Wing Dodge, it just worked out that way.

This is not true of Dodge, because Dodge is designed around you. You get in easily and naturally, without banging your knee on the door post or the steering wheel. You sit on seats that give you wonderful support. There are no high door sills to trip over.

Of course, we won't even mention the fact that the other '55 cars don't offer Swing-Out Swivel Seats. Oops!

Which do you want:

Push Buttons or a shift stick?

We know that a number of people like a lever-type automatic transmission. They've used them for years and they're satisfied. We have no quarrel with them. But there's a lot of wisdom in what Alexander Pope says in his Essay on Criticism: "Be not the first by whom the new are tried, nor yet the last to lay the old aside."

Push-button driving isn't new. This is the fourth year that Dodge has had it. We would guess that, conservatively, over two million owners have used it—and loved it. So we're not going to try to sell you on the ease of push-button driving; we do hope you'll just give it a try.

You want a modern

ride, don't you?

You can divide all the 59 cars into two groups. Those (like Dodge) that have Torsion-Aire and those that have coil springs. Now don't get us wrong. Coil springs are okay. They've been used on cars for years.

But that's just the trouble. When you buy

There's almost no end to the wonderful convenience features you can get in a '59 Dodge. Swing-Out Swival Seats. (They're great!) Push-Button TorqueFlite transmission. Full-Time Power Steering. Outside mirrors that adjust from the inside. Inside mirrors that adjust themselves electronically to banish glare. They're all available at extra cost—and well worth it.

A few words about quality.

performance and price

These are things that are hard to measure. What do you mean by quality? What constitutes good performance? What is a good buy? We would sum up our case for Dodge in this manner: It is a car that is well engineered and well built to give you years of driving satisfaction. It will more than metch any other connective car in the

match any other competitive car in the performance department. It is, we non-estly believe, an extremely good buy for the money.

Are we prejudiced?

You bet we are!

We'll admit we're prejudiced about our 59 Dodge. We think it's a great car. And if a new car is in your plans for 1959, we'd like the opportunity to convince you of this. How about giving us a chance, to show you this Dodge, to point out its many exclusive advances, to hand over the keys that your advances, it had draw your

The Christmas season is once again upon us and we see that everywere the signs of Christare appearing. Merry Christmas buy that, but all in all we must admit that everyone seems different as the joyous occasion draws near. People rushing through the streets have time to say excuse me when they bump into you, their arms loaded with packages, and you picking yourself up, find that instead of muttering something else, you call Merry Christmas after them as they dash off.

I don't know what it is that causes this change in us but it
