# PLANS ARE NOW COMPLETE

MARK AUGUST 26th!

Important Day

San Diego, Chile Welcoming

### Librarian

Mrs. Grace Moore, Manchester Township Librarian, having finished her work in Library Science at the University of Michigan, will be leaving the local library at the end of August. The library board announces that the vacancy has been filled by Mrs. Audrey Smith who has been assistant librarian at Adrian College for the past four years. Mrs. Smith has also been branch and children's librarian at Cambridge, Massachusetts and has lived in Washington, D.C., and Florida. The late Professor Audrey Smith was head of Romance Languages at George Washington University. Library hours will be announced next week.

### Crippled Children

The Washtenaw County Crippled Children's Society is still looking for two male camp counselors for the Crippled Children's Camp to be held August 17th-26th near Lake Peterson. Fran Wawrzaszek announced today, "The boys should be at least juniors or seniors in High School and interested in camp activities." Anyone interested should contact Mr. Wawrzaszek at 955 Sherman Avenue, Ypsilanti, Michigan. This year 41 campers have enrolled compared to 31 campers last year, and 16 campers in 1957 the first year of the camp. The camp is sponsored by the Washtenaw County and is supported by donations to the Easter Seal Drive.

### Band Rehearsal

An important rehearsal of the Manchester-Chelsea Band will be held Tuesday night, August 18th, at 7:00 at the Civic Auditorium in the Intermediate School. Everyone playing in the band is urged to come as the concert will be given at the Manchester Fair the following night. There will be a short marching band rehearsal at 7:00 sharp and a full band rehearsal at 7:30. Refreshments will be served by the Band Boosters Club to the participating members of the band. The Manchester-Chelsea combined bands have been particularly successful this summer according to the conductors Robert Sator of Manchester, and have given two concerts at Chiles and one at the Cascades in Jackson and one in Manchester. The project is one which will be continued next summer if all goes as planned.

Mark August 26 on your calendar NOW. It is a very important day to every man, woman and child in the area. You are a member of the Manchester Red Cross Blood Club no matter what your age or occupation because you are a resident of the Manchester area. There are no specific dues or requirements for this club other than you help your neighbors whenever you are able.

Within the last year 24 of your neighbors have needed 57 pints of blood. The balance in the Manchester Blood Bank at present is 31 pints. Beginning with the fall months the request mount rapidly, so it is necessary at this time to build up the supply. August 26, Wednesday, is the day the Bloodmobile will be in Manchester from the Red Cross Regional Center in Detroit. August 26th from 1:30 to 5:00 and 5:45 to 7:30 is the time.

There will be numerous opportunities for you to register to give blood at the Bloodmobile. For instance, the United Community Fund and Red Cross Booth at the Manchester Fair will have a registration desk where you may sign up to give your pint of blood. The Red Cross Booth will be manned during Fair hours to take care of your offer and questions.

If it is possible to find enough nurses in the area to schedule hours at a Red Cross First Aid Booth there will be one in connection with the registration area. The booth will be located at the main door to the Merchants tent just opposite the Fair Board Office (near the phone). Nurses in the area are urged to contact Mrs. Stanton Roesch (Ga. 8-9711) if they have not already been called and if they have a few hours they can give to the project.

Almost everyone between the ages of 18 through 59 can give blood. Blood which was not considered usable years ago is now in demand for various devices used constantly in hospitals. There is a doctor in charge at every Bloodmobile and if the tests show it is not advisable for a donor to give blood at the time it is usually possible to give at the next clinic. Young people who are unmarried and between the ages of 18 and 21 must have their parents consent to give blood.

### Manchester Community Fair Officially Opens Next Wed

Plans are now complete for the Manchester Community Fair which officially opens next week Wednesday, August 19, with the Carpenter Brothers Amusement Company furnishing the rides and entertainment for children. Fair board president, Wendel Reinhart and other fair board members have been working on the final arrangements. The Junior Class of the Manchester Schools will have charge of the concessions and hot lunches will be served by the Senior Class with Paul Menzel, class president in charge. Jerry Crech heads the Junior Class. Jesse Walker, Vice President of the Fair Board is arranging contests for children, and secretary Willis Uphaus will be busy in the livestock tent. Herbert Jacob, Treasurer, picks out premium winners, and their premium money not later than Saturday afternoon. Carl Settie is helping Mr. Jacob with publicity. The fair book will be off the press later this week, according to chairman, Marie Schneider who has been assisted by Madeline Rolland Grossman, Alwin Seurle, Leslie Chavey, Donald Mackintosh, Margaret Schneider, Dan Boutell, Tom Walton, Al Vogel, and Carl Settie.

Willis Uphaus has charge of the tents and Roland Grossman is the person to contact for space in the Merchant's tent. The Rowes Corners Extension Club with Mrs. Laurel Brettenwische and Mrs. Willis Uphaus will take care of the Home Economics Department. Mrs. C.K. Knauss has announced that she will have more categories in the hobby and antique displays and the prize money has been increased. She points out that money displays will not be accepted.

Alwin Kullenkamp will have charge of the poultry display, and Lawrence Kemner will have the dairy cattle. Mrs. Roy Widmayer and Mrs. Clarence Schlichter are replacing Mrs. Victor Grossman on the flower display because Mrs. Grossman will be unable to attend. They will be assisted by members of the River Raisin Farm Bureau. Everyone is asked to enter exhibits in the various classifications of the fair to make this the largest fair in Manchester history. All entries close at 12 P.M. Wednesday, August 19th, except pets. Only one entry may be made in any one class by an exhibitor and all entries must be made by, owned by, or selected by the exhibitor. The fair management reserves the right to refuse any entry because of poor quality or above mentioned limitations. The entries are to be on the fair grounds until 8 p.m. Saturday evening. After Thursday noon premium money can be picked up at the office in the merchant tent.

Herbert Jacob, treasurer announces that there are ribbons for first, second and third place winners. All baked goods become the property of the fair and entries in the Home Economics Department will be accepted between the hours of 9:30 and 12 noon, Wednesday. 4-H entries are limited to entire clubs. Individuals must show in the open class. All money not collected by 6 P.M. Saturday will become the property of the fair board. Some of the highlights of the fair will be the big parade arranged by Lyle Widmayer which officially starts the fair at 6:45 Wednesday. This will be followed by a concert by the Manchester Band at 8. On Thursday afternoon, there will be a tug of war between the North side Merchants and South Side Merchants. Then the farmers from the North end of town will face the farmers from the South end of town. The winners of both will play each other. There's also a pie eating contest for the children in the afternoon Thursday, sponsored by the Manchester Bakery and a cracker eating contest for the girls. In the evening there will be the steer judging. New in events Friday will be a laundry school at the civic auditorium at which time Marilyn Bryer of the Consumers Power Company will show the women the very latest in laundry equipment which she will demonstrate. There's a tractor balancing contest on Friday, and a talent show is slated for 7:30. This will be followed by a fire works display at 9:30. Saturday there is the sheep shearing demonstration, the steer auction, and a dance in the automobile tent. All this will be part of the Manchester Community Fair.

In the antique and hobby display, Mrs. C.W. Knauss and Mrs. Roger Hardenbergh are co-chairmen. They ask that both adults and children contact them to find out classification lists.

Gretchen Holstein

Three Manchester girls are in Europe this summer with the Youth for Understanding Teen-age Exchange Program which is sponsored by the Michigan Council of Churches and the U.S. State Department. Gretchen Holstein was the first of the group to leave with the International Educational Exchange Program. She left June 22nd by plane for Balingen, West Germany where she has been living with Eric Seubert family this summer. She has attended school in Germany as a visitor and has traveled with the family to Switzerland and other parts of Germany. She is expected home August 28th. Ellen Foltz left for Germany along with Anne Lohmann who had been in Manchester with the Rev. Orton Foltz family this past year as an exchange student. Ellen is living with the Pastor Martin Lohmann family in Germany for two months before returning to her new home at 341 Riley Street, Dundee. Sarah Reck is a member of the Michigan Chorale - a group of one hundred teenage singers

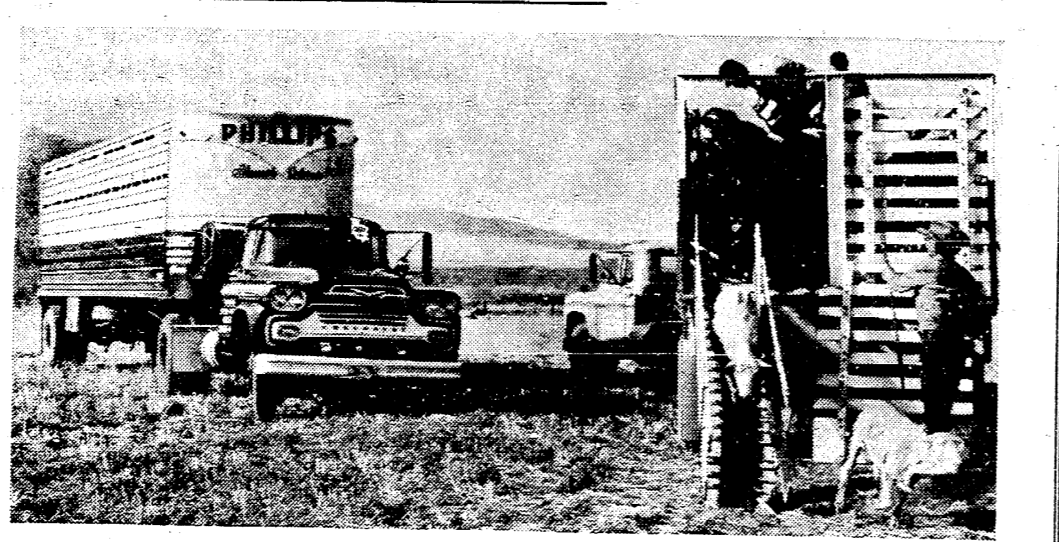

now on a European goodwill concert tour. The group, conducted by Lester McCoy of the University Musical Society began their overseas itinerary on June 24th, with a ten day stay in Northern Ireland where they gave concerts at Belfast, Bangor, Ballymena, and Caltraise. This was followed by a tour of England where they sang at Keswick and Royal Tunbridge Wells, and visited London. Concerts followed at Stolberg, Germany; Paris; and Amsterdam. Now half way through their tour they continue interpreting world understanding through music by giving concerts throughout Germany, Denmark, Sweden, and Finland. They will return from Helsinki, Finland about September 1st.

Two Chevy middleweights prove their rawhide stamina!

Top hands on high-country hauls!

Ask any trucker who's been over Wolf Creek Pass, 10,850 feet up in the San Juans a 9-mile pull to the summit and low gear all the way down. Mr. C. H. Phillips of Alamosa, Colorado, has a 6403 and a 6508 Chevrolet truck that are up over this route the year round, taking sheep and beef to pasture, later marketing the stock in Denver. In less than a year, his Chevy middleweights have averaged about 50,000 miles of this kind of treatment—and they're going stronger than ever! Watch Chevy trucks at work out in range country. It's a sight to see the way they pack into high-up mountain pastures and handle through brush and rock like a cowboy's favorite cutting horse. Take any truck work for that matter. Chevy middleweights probably handle a bigger variety of jobs than any trucks alive. About anything you name, including work that used to be reserved strictly for bigger rigs. When a truck's built the way a Chevy is, lean-muscle and rawhide-tough, it takes to ugly trails the same way most trucks roll over the highway. It just keeps going, without a big to-do, but looking good every mile of the way. How they do it is your Chevrolet dealer's department. He'll be glad to supply details and specifications on the type of models you need.

No job's too tough for a Chevrolet truck!

Please them all with **MEAT**  
Good Eating - Good Nutrition

Everyone loves a thick, succulent, tender steak... and you'll love to serve such steaks especially when you can get them at the cost of "boiling beef."

Impossible, you say? Not when you buy your meat at wholesale from us and have it stored in a frozen food locker! You can pick out just the kind of meat you want and save from 20% to 25%. We'll cut it just as you say - thick steaks or thin... fine roasts for special occasions... less tender cuts that make wonderful stew. You'll enjoy the convenience of having a locker filled with meat that will mean good eating for many months to come.

### 227 HORSEPOWER HORSE SENSE

by DUDLEY WILKENS

You are about to read the words of a thinking man—modesty, Wilkins, modestly!

A little while back I read about a new gasoline filter that fits into the fuel line without taking up space under the hood. Only three and a-half inches long and less than one inch in diameter, this device filters out all harmful foreign matter than can cause clogging, flooding and stalling which, naturally, reduce power and mileage, too.

The filter combines the use of a 40-micron fine-meshure or amine element with a magnetic trap. The ceramic element filters out any non-metallic dirt, such as road dust, that finds its way into the gas tank.

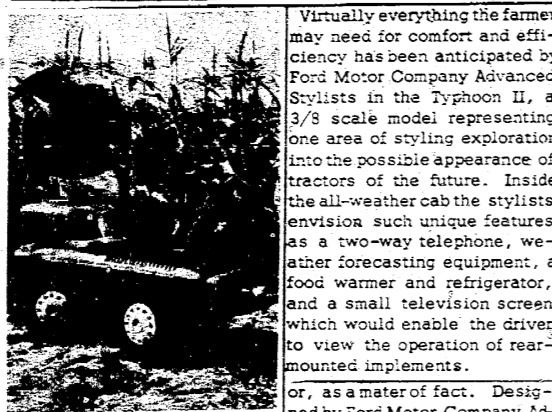

The magnetic trap on the other hand, catches and holds all iron oxide particles such as tiny flakes of metal that occasionally break away from the inside of the gas tank.

Should the filter become clogged by foreign material, a built-in bypass pressure relief valve permits sufficient fuel through to run the engine until you can replace the disposable filter.

This filter was held off the market until it was given two years of extensive field testing. The Consumer Service people learned, through long association with car-buretors and fuel systems equipment, that dirt and iron particles in the gasoline were literally robbing the motoring public of many extra miles of trouble-free driving.

That's why you, too, can be a thinking man, at least in the mind of your auto mechanic, when you ask him about gasoline filters.

Now it's gaining rapid acceptance by the motoring public.

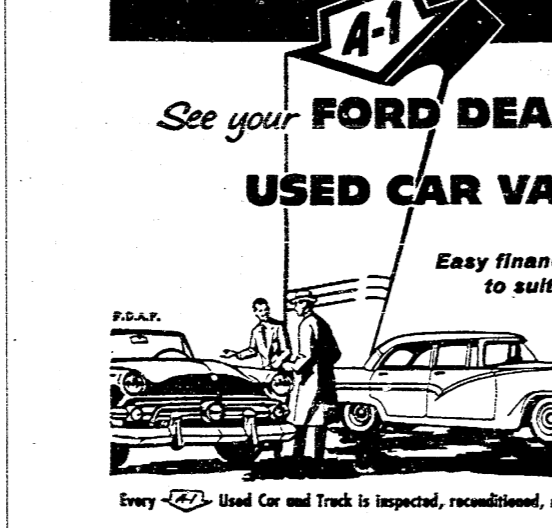

Virtually everything the farmer may need for comfort and efficiency has been anticipated by Ford Motor Company Advanced Stylists in the Typhoon II, a 3/8 scale model, representing one area of styling exploration into the possible appearance of tractors of the future.

Inside the all-weather cab the stylists envision such unique features as a two-way telephone, weather forecasting equipment, a food warmer and refrigerator, and a small television screen which would enable the driver to view the operation of rear-mounted implements.

or, as a matter of fact, designed by Ford Motor Company Advanced stylists, it represents only styling exploration into the possible appearance of tractors of the future at the moment, but suggests some novel features.

You would puzzle over this Lilliputian object, too, if you found it in your cornfield. Typhoon II is its name and it's a tractor—a 3/8 scale model tractor.

The Manchester Directory will go to press and we want to be sure you are listed properly and completely. Listings for all members of your household will assure completion of calls. Special listings for night, Sunday, and holiday calls are also available in connection with business service. A call to our business office will arrange it.

### Yellow Pages

HUNTING FOR THAT SPECIAL ITEM? Here's a shopping tip that will help you find your quarry and save you mileage and frayed nerves, too. Let the Yellow Pages be your guide. This handy telephone directory can help you find just who has what you want—in the right size and color and at the right price—before you even leave your house. The Yellow Pages steer you in the right direction. So keep them handy and consult them often.

### THE 1960 WINTER OLYMPICS

don't open until February but telephone men have been on the job at Squaw Valley, Calif., since July of last year. More than 1,200 telephones will be in service there to accommodate some 35,000 visitors a day. There's also the complex job of providing communications for press and TV coverage. Whether it's a special event like the Olympics, your everyday service or our defense needs, the telephone company works constantly to bring you the best in modern communications.
