LIBRARY

Books from this week's Detroit News Best Seller list now available at the Manchester Township Library include "Exodus" by Leon Uris and "The Thirteenth Apostle" by Eugene Vale.

Exodus has been a best seller in this area for fifty-eight weeks and is soon to be in production as a movie. For some reason, books are often not in demand until the movie has been shown. For those who wish to be "in the know", it is available locally, now.

Eugene Vale's unusual novel of moral and physical adventure, "The Thirteenth Apostle", is in its sixth printing and has been on the Detroit News Best Seller list for twelve weeks. According to Ben R. Redman, reviewer for the Saturday Review magazine, this book, "Towers above most current fiction."

The new schedule presented by the board is as follows for the twenty-four-hour-week that the library is open to the public:

Sunday & Monday Closed All Day

CONFIDENCE MEN IN AREA

Rural residents in Washtenaw County are siding with the county sheriff against two confidence men who are operating in the area.

The sheriff said at least two householders and several contractors who placed siding on houses and barns have been duped by the two men in the past week.

The sheriff said the men appear at homes, usually in rural areas, and tell residents they are representatives of either the Aluminum Company of America (ALCOA), or the Reynolds Aluminum Corporation.

They then explain that as a "publicity project" their companies will have aluminum siding put on a house or barn at a nominal cost. Prospective customers are told that after the siding is placed on the building a television film of the work will be made and shown through the company's advertising agency.

If the householder agrees to have the work done, the men have him sign a contract, usually without requiring a down payment. The next step in the swindle takes place when the men go to a local siding contractor and sell him the contract for the house or barn at a "bargain" price.

Later the contractor finds it is impossible to complete the job at the low figure quoted by the householder. The contractor then tells the householder that unless he absorbs a major loss, the householder may have already given down payment to the original contact men and the contractor has paid them the "bargain" price for the contract.

Sheriff Petersen said both ALCOA and Reynolds Corp. have stated they have no representatives in the field offering "publicity projects."

The sheriff has asked county residents to call the county jail at Normandy 2-2955 if the two confidence men appear at area homes.

TURKEY SHOOT SUNDAY

Jaycees here say that you don't have to be a Daniel Boone or an Annie Oakley to have fun at the Jaycees' Thanksgiving "Turkey Shoot."

The Village Council and the Washtenaw County Sheriff's office have given the Jaycees permission to hold the Turkey Shoot and have offered to give whatever assistance is needed to insure the safety of the public.

Bob Loucks is general chairman of the affair. The club plans to arrange the shooters in relays of ten shooters each, with a turkey being awarded to the best in each relay. The turkey will weigh approximately 12 pounds and are dressed.

The "Turkey Shoot" will be held at the Schaffer's sand pit near the airfield and the time 1 to 4 p.m. All weapons and ammunition are to be furnished by the Jaycees. The club requests that none of the contestants bring either guns or ammunition. Three shots are allowed to each contestant in each relay and there is no limit as to the number of relays a person can complete in. In order to give each shooter an opportunity to win a turkey no more than one turkey will be awarded to each contestant, according to William Baker, club president. Lyle Widmayer is in charge of safety; Bill Furgason, publicity; Joe Fitzgerald, treasurer and Ray Tirk is in charge of tickets.

The latest community project of the Jaycees was the annual Halloween party for some 750 children in the area. Some of their projects include the purchasing of the electric score board on the athletic field and the rest rooms at Carr Park.

"At last he's where we want him!" Paul Eisele said as he checked the pulley that held the nine point buck which he and his companion, Evan Leddy, bagged Sunday.

SAVINGS BONDS INTEREST RATES RAISED

Series E and Series H Savings Bonds have been improved in the last few months. Among other features, they now carry a higher interest rate.

New Series E Bonds with an issue date of June 1, 1959 and after earn 3 1/4 percent interest, if held to maturity, compared to the old rate of 3 1/4 percent. Series E bonds are the familiar bonds that get their start in World War II.

If you have bonds outstanding that were purchased before June 1, 1959, they can earn more interest too, according to Savings Bonds Division of the Treasury Department. Both Series E and Series H Bonds earn at least 1/2 percent more than before now to next maturity.

There is no retroactive increase in interest rates for periods prior to June 1, 1959.

New Series H bonds with issue dates of June 1, 1959 and after earn 3 3/4 percent interest if held to maturity. The new H Bond, like its predecessor, is a cur-in-income bond, issued at par, redeemable at par and maturing at the end of its 10 year life.

In addition to interest rate increase, the Treasury Department has also made it possible to extend Series E bonds for both old and new issues.

METHODIST YOUTH SPONSOR FILM

The Manchester Methodist Youth Fellowship are sponsoring a color film—"One Love—Conflicting Faiths"—on November 22 at 7:00 p.m. at the church to better acquaint the public, and especially the youth, with the problems that are involved in interfaith marriages.

The story has to do with two youth much in love who elope and get married by a justice of the peace. On their return both families are upset by the fact that each set of parents wanted the couple married in their own faith. After this is finally settled, other problems begin to develop. Marilyn, a Protestant girl, wants to wait until they are better established to start their family. Herb, a Catholic, does not believe in planned parenthood. A problem evolves between these young lovers, but this is not the only one. There were others.

The general public is invited to see this film. It is believed by the youth that interfaith marriages is as big a problem for the Catholic as it is for the Protestant. It is hoped that Catholic youth and parents may come to see the film.

There will be a panel of community ministers who will hold question-answer session following the film.

WASHTENAW MAY JOIN IN COMMISSION

The Washtenaw County Board of Supervisors has been told that the county will be required to pay a \$12,000 initial fee and \$11,269 a year if it chooses to join the Detroit Metropolitan Regional Planning Commission. Washtenaw County would receive several benefits from joining the Detroit Metropolitan Regional Planning Commission, the commission's executive director, Paul Reed said.

"It would receive a body of information on planning, extension of our field services, general information and educational materials." It would be integrated into a regional whole instead of leaving Washtenaw as a county alone in planning. At present the commission is studying transportation needs in metropolitan area.

Mayor of Monroe, Milton Knebusch, also a member of the commission said that if Washtenaw county joins the commission it will cost \$25,000 to bring it up to the planning level done by the commission in other counties but that because of the information which the County Planning Commission has, the cost could be reduced.

There's nothing like a new car—and no new car like a Chevrolet. This is the 1960 Chevrolet Bel Air Sport Coupe!

PEOPLE SAY THESE ARE THE THINGS THEY WANT IN A CAR...and CHEVROLET '60 comes closest to meeting every need!

Interviews with thousands of car owners across the country show clearly what they like or dislike about their present cars... and what they want most in their 1960 cars. Here's what the people tell us they want... and here's how Chevrolet meets their needs.

"Price, that's what's uppermost in my mind." All Impalas and Bel Airs with V8 engines are lower in price, as are automatic transmissions and many other popular options. Also Biscaynes now include as standard equipment conveniences formerly optional at extra cost.

"And how about operating economy? And resale value?" You keep right on saving after you buy your favorite Chevrolet, too. And Chevrolet's traditionally higher resale value means you'll get more back when you trade.

"Give me plenty of good old-fashioned comfort." Chevrolet's comfort and ease come in this one. Chevy's long on space, for one thing. Once you're under way you'll know just how comfortable Full Coil suspension makes your ride.

"Safety—don't forget safety!" You're surrounded by safety features in a new

Chevrolet. You've got big, sturdy brakes underfoot, for example, that last longer. As it has been for years, safety is standard equipment in Chevy.

"Let's keep upkeep down, too." More than ever, Chevrolet for 1960 is built to stay on the road and out of the repair shop. You can tell that from its hushed, unruffled way of going, from the solid thump of Chevy's big doors. Of course, if you should need service, you're always near efficient, economical attention to your needs.

"I want a car that will stand up to the driving I do." For proof of Chevy's staying power, just spend a minute watching the nearest road. You'll see more Chevrolets traveling on it than any other car—evidence on wheels of Chevrolet durability. (And that higher resale value attests to it, too.)

"Me for a sweet-handling car." Handling's always been Chevy's forte, and

1960 is no exception. But really, this kind of lightness and precision you've simply got to enjoy for yourself.

"... a car you can look at and be snug about buying it." Chevrolet for 1960 leaves the low-price field far behind when it comes to fashion. But you're the best judge of styling, so take a good close look at Chevrolet. We warn you: you're about to fall in love.

"And performance. Let's have a hot one!" Chevy's spirited V8's have set the standard for ultra-efficient power in American-built passenger car engines. You've got a long list of performance-minded transmissions to pick from, too.

So that, friends, is what you told us you want. We think it can be summed up rather well in just one word: value. Get the full story of Chevy's brand of value soon at your Chevrolet dealer.

Data Sought On Deer Shot In Farmlands

Biologists Puzzled By Herd's Failure To Increase Rapidly

Why isn't the Southern Michigan deer herd increasing at a faster rate?

That question is going to get some intensive study beginning this fall, and the first phase of it involves information on bucks killed during the hunting season which begins tomorrow.

Ralph E. Bailey of Jackson, district game supervisor, today asked all hunters who kill deer in Southern Michigan to call his office, State 4-188 in Jackson, collect, to report the fact.

A game biologist will be sent to inspect the deer, determine its age, measure its antlers and record its weight. Even if only the head remains, an adequate record can be made, Bailey said.

The Conservation Department hopes to examine at least 500 Southern Michigan bucks this fall, to determine how many deer of each age class are being shot during the fall seasons.

Along with the check on the buck kill, biologists intend to study such factors as dogs, cars, fences, farm machinery and disease in Southern Michigan deer mortality.

"This information is vital to management of the Southern Michigan deer herd," Bailey said. "With the high productivity of two fawns from each doe, the herd should be increasing at a faster rate. We want to find out what's holding it down."

Bailey added he is "guessing" that dogs kill a higher percentage of young fawns than is generally realized, and that this may be a reason for the slow rate of increase.

Christmas Seal Sale Starts

Washtenaw county's 1959 Christmas Seal Sale to raise money for activities of the County Tuberculosis Association during the coming year started today with the mailing of 15,000,000 seals to every address in the county.

Paul F. Roeder, executive secretary of the association, said that the local organization will need to raise about \$20,000 from the sale of the seals to meet the program it has planned for next year.

Funds are used by the association to provide health education, casefinding and rehabilitation for victims of tuberculosis.

The association provides a film service, printed materials, campus-wide health education and essay projects among high school students, monthly TB abstracts to physicians and other professional groups, bulletin board posters to approximately 100 industries and exhibits at conferences, community fairs and public meetings.

2ND HUNTER DIES OF RIFLE WOUND

BY THE ASSOCIATED PRESS

A western Michigan hunter whose chest was pierced by a bullet as he stalked a deer in thick brush Monday was the second person to die by gunshot in Michigan's two-day-old deer hunting season.

Louis Baker, 31, of Lowell, was shot in the left chest while hunting with five other men on the Stonington peninsula in Upper Michigan's Delta county.

A hunting partner, Lester Sherman, also of Lowell, told state police he had fired at a deer as it jumped across a trail. He said he heard someone groan, ran about 150 feet and found Baker lying on the ground.
