PHYSICAL STANDARDS LOWERED FOR ARMY SPECIALIST ENLISTMENTS

Physical qualifications for entrance into the U. S. Army Graduate Specialist Program and Vocational Training Field have been lowered. This announcement was made today by M. Sgt. Dan Colasanti, U. S. Army Recruiting Station, 223 East Ann St., Ann Arbor. The change will primarily effect those persons wearing glasses. Up to now, many persons with eye defects have been unable to qualify for guaranteed enlistment for technical school or vocational field training. A survey within recruiting facilities showed that the Army was refusing guaranteed enlistment to highly qualified individuals with minor physical defects in vision and other areas.

In addition, mental qualifications in certain "special" categories have also been lowered. Persons who may have been rejected or told they could not qualify for guaranteed enlistment, and those who may have been in doubt about meeting physical or mental qualifications are urged to contact the U. S. Army Recruiting Station, 223 East Ann St., Ann Arbor.

Easy Does It With New Macaroni-Cheese Recipe

Did you ever hear of making Macaroni and Cheese without the usual basic cream sauce? Well maybe it's just never been thought of... until now. Here then is a top notch recipe for making a basic white sauce wrapped in a single wonderful casserole. And it's wonderful because there's no extra bother of making a basic white sauce. Then for added glamour and taste, there are plump, fresh mushrooms and even more novel, the substitution of Edam cheese for the usual Cheddar. This Easy-Do Macaroni and Cheese is excellent with either Cheddar or Edam, but for Pot Luck purposes, Edam makes it just a "wee bit" different and delicious. How is it done? It's as simple as this: First cook, rinse and drain the macaroni. Then mix it thoroughly with undiluted cream of chicken soup, onions for zip, pimiento for color, eggs and of course, Edam for a pleasingly milk and nutlike flavor. Finally, crown it with a garnish of mushrooms, freshly sauteed in butter, and bake! Such fun... so little time to prepare it... sooooo good. Comments? At the next Pot Luck, just try this novel cooking switch on one of America's old favorites, and see. EASY-DO MACARONI AND CHEESE 6-8 servings Preheated 350° oven 1 8-oz. package elbow macaroni 2 cans cream of chicken soup 1/2 cup chopped onion 2 tablespoons chopped pimiento 4 hard cooked eggs, diced 1/2 pound Edam or Cheddar cheese, diced 1/2 pound fresh mushrooms 2 tablespoons butter Cook macaroni according to package directions except reduce salt to 1 teaspoon. HEPATITIS INCREASES IN COUNTY

Dr. Otto Engelke, County Health Department Director says that the county probably will experience a record number of cases of infectious hepatitis this year. It is a disease of the liver. There have been reports of over 20 cases in the county so far this year, compared to 29 cases during the entire year of 1959. The number of cases has been increasing since the fall of 1958 throughout the state and nation. Infectious hepatitis is a communicable disease which can cause serious liver damage and sometimes death. State Health Department officials say that the increase during the first part of this year can be associated with contaminated wells in suburban areas.

This is caused by the overflow of septic tanks from the excessive moisture this spring. Dr. Engelke said most of the cases are in Manchester, Whitmore Lake and Ypsilanti areas, and from Hamburg district in Livingston County. The health officer expects 1960 to be the worst year for infectious hepatitis, a jaundice-type virus infection, since 1953, when the county had 129 cases between May 1st and August 31st. Engelke said he is concerned about residents living in areas not serviced by municipal type sewer and water facilities. It is recommended that suburban residents take the following actions to help prevent the spread of this disease: 1. Keep an eye on septic tanks and wells and if they become flooded and overflow, don't drink the water. 2. Obtain water from a neighborhood municipal water supply. Use the neighbor's water only if his well has not overflowed with the possibility of being contaminated. 3. After the well water recedes, clean the well and disinfect it after you have pumped it long enough to flow clear water. Health officers will be glad to show how this is done properly. 4. If you are unable to obtain water from a neighbor or a municipal source, and it is necessary for you to use your well, be sure to boil the water for at least 15 minutes before using. In the meantime have the well water tested.

Manchesters received little damage from one of the season's most damaging storms last week Thursday evening. Most of its punch was centered in a line from Kalamazoo to Detroit. This was the second storm of the day and residents were still jittery from unconfirmed tornado reports. High winds and torrential rains turned the village into a scene of disorder as tree branches and power lines tumbled. A large limb fell on a transformer in the west end of town and electric power was curtailed for about four hours. Consumers power men worked to restore the power by 11:30 p.m. Only homes in the western part of town were effected by lack of electric power. Many basements in the area were flooded. FIRE HITS AREA TAVERN Fire damaged the exterior of the Pleasant Lake tavern about 8 miles northeast of Manchester shortly before 3 a.m. Friday. It started outside the building on the northeast corner and was discovered almost immediately by a resident of a nearby trailer camp who summoned the Manchester fire department. Firemen said they were able to confine the blaze to the exterior, but that in 10 to 15 minutes they would not have been able to save the structure. Sheriff's department and insurance representatives were investigating. There is no wiring on the side of the building where the blaze began, according to the owner, Louis Brow, and one was known to have been in the building at the time.

STATE JAYCEES ROAD-E-O On June 18th at Lenawee County Fairgrounds in Adrian, the Michigan Junior Chamber of Commerce sponsored a teen-age safe driving road-e-o. Fifty-six contestants from all parts of Michigan participated. These teen-agers were selected as a result of local road-e-o's. Each contestant took a written test (100 pts.), a skill driving test (250 pts.), and a road test (225 pts.). First place was won by Mike Clancy of Roseville with 519 points (90%). Second place was Charles Ferguson of Traverse City with 513 points, and third place was won by Carl Pickles of Adrian with 508 points. The boys received plaques and \$50 saving bonds. In addition, the first place winner received a \$500 scholarship from Pure Oil Co. and will compete in a national road-e-o in Washington D.C. Tom McNutt represented Manchester in the state finals. Tom received 221 points (225) on the road test, 130 points (250) on skill driving test, and 72 points (100) on the written test for a total of 423 points of a possible 575, or 73%.

STATE DOESN'T REDUCE VALUATION The State Board of Equalization set \$650,802,500 as the state equalized valuation of property in Washtenaw County for taxing purposes although the county had requested that the valuation be reduced to \$612,000,000. This will allow the county, schools, and townships to raise more taxes for each mill of taxing power given them by the county Tax Allocation Board and will reduce state aid to most school districts in the county. The equalization committee of the County Board of Supervisors had asked the State Board of Equalization to reduce the equalized valuation on real property in the county to the level set by the supervisors when it adopted a county equalized figure. Washtenaw County's equalized valuation was raised by 9.7 per cent on the recommendation of the State Tax Commission, which reported earlier in the year on a three-year field study it had conducted in the county. "The action of the State Board of Equalization was anticipated. Unless the door is poned to some revision, we can't expect any further assistance," Supr. Robert H. Marsh, chairman of the supervisors' equalization said. He added that Washtenaw's protest to the state was on a different basis than other counties. "We believe there was an error in cont. on pg. 2

STATE JAYCEES ROAD-E-O

Of the 323,995 trailers registered in Michigan, 5,320 are listed as being in Washtenaw County, according to records of the Michigan Department of State. James M. Hare, Secretary of State, pointed out that registrations of both light and heavy trailers are increasing at a much greater rate than are passenger vehicles. "There are a good deal more than twice as many trailers on the road today as there were 20 years ago," Hare said. "In the case of heavy trailers this may be an indication of the increased use of motor transport over rail by many shippers and in the growing popularity among many motorists of using light trailers for hauling camping, cottage, and suburban supplies. Trailer registration fees collected through the first four months of 1960 were almost a half million dollars above those of the same period in 1959. Hare predicted that the use of personal trailers would continue to rise during the next decade. "Many of Michigan's hundreds of thousands of new watercraft owners are going to tire of exploring their own lake and get the urge to put their boats on trailers in search of new adventure in other Michigan waters," Hare said. "The growing number of boat launching sites on our Great Lakes and on our smaller lakes seems to make this trend inevitable."

EARMARKING COUNTY FUNDS FOR ROADS A proposal that \$65,000 be taken from the county general fund to aid townships and cities in repairing damage to local roads and streets caused by the severe spring breakup was referred by the Board of Supervisors back to its roads and bridges committee. The proposal was referred to the committee with instructions for it to determine whether it would be legal to give part of the funds to cities. The committee proposed that the money be taken from non-tax revenues of the county and that \$42,000 be given to the County Road Commission and \$23,000 be divided among cities in the county. Several supervisors from the cities said they thought that giving county funds to the cities is illegal and that the proposal was designed "to get their vote." Prosecutor William F. Ager said he had checked the law and found that the county could not legally take money from tax monies for this purpose but had not determined whether it was legal to give county collected revenues to cities.

PLANNING ISSUE STUDY CONTINUES

A new proposal that Washnaw County join the Detroit Metropolitan Area Regional Planning Commission was referred to its planning committee for more study by the Board of Supervisors.

The committee said that the county rapidly is becoming more concerned with social, economic and governmental and other problems of a rapidly growing metropolitan area and that membership in the regional commission would provide an avenue through which the interests of the county could become meshed with those of the Detroit Metropolitan community.

Curt Will of Ann Arbor, however, pointed out to the board that the annual membership fee for belonging to the regional commission if based on a formula which provides that 20 per cent of the fee be determined by the area of the county, 40 per cent by the county's equalization valuation and 40 per cent according to population.

Scheel said that representatives of the regional commission had said they would support a proposal that if Washnaw County joined the regional commission, it would not be asked to pay an additional sum of money to operate the county into the existing operating program of the regional commission.

SENIOR RECREATION NEWS

Despite some unfavorable weather last Wednesday and Thursday, senior playground attendance during the morning and afternoon of the first week was good. A high of 84 were in attendance Tuesday morning while on Thursday afternoon a total of 71 went swimming at the State Park beach.

The playground softball league for boys and girls was organized on Monday, and play got underway Tuesday morning with 4 boys' teams and 3 girls' teams. Ron Panches' "Whiz Kids", Bob Bunney's "Wazoos" and Denny Hamilton's "Buildogs" all notched victories last week with Denny Steele's "Flips" still looking for their first victory. In the girls' league Linda Silveus' team took 2 games, Jeannine Swank's team won 1, and Debby Steele's team is still looking for their first win.

The first trip of the playground season will be taken on Wednesday. Both junior and senior playgrounders will visit the Toledo Zoo, leaving around 9:00 A.M., eating lunch at the zoo, and returning around 4:00 P.M. It was decided to make the trip on Wednesday instead on Friday because there is no admission charge to the zoo on that day.

Swimming lessons for beginners will begin on Thursday with Bob Foile of the County Red Cross providing the instruction each Thursday during summer playground. While this is an excellent opportunity to learn how to swim it is important that attendance is regular at each instruction period.

The Arts and Crafts program got underway with Ron McNally showing the group how to work with molding plaster and material for making lanterns and bracelets. Monday and Wednesday afternoons are the days for this program for anyone interested.

The winners of the first ping pong tournament last week were Dickie Fielder in the boys' and girls' 9-11 years division and Denny Steele in the 12-15 division. Dickie defeated Betty Cox and Denny won 2 out of 3 from Jim Fielder.

KEEP CHILDREN AWAY FROM STRANGE DOGS

A flurry of dog bites in the County in recent weeks has prompted Sheriff George A. Petersen to urge parents to keep their children away from strange dogs during the summer months.

The Sheriff noted that many of the cases of dogs biting children involve the child approaching a strange dog in an attempt to pet it. He pointed out that his officers are pushing the search for a mongrel dog which attacked a small Lodi Township girl.

Parents actually are gambling when they permit a child to walk up to a strange dog he said. "Rabies, traditionally appear in animals in the hot days of July and August and unless children are kept away from dogs, we almost certainly will have some hydrophic cases in the County this year."

COUNTY SANITATION REGULATIONS STUDIED

Proposed new sanitation regulations for Washtenaw County have been referred back to the Board of Supervisors' Health Committee and the County Prosecutor, although Dr. Otto K. Engelke, County Health Department Director urged they be adopted immediately.

The controversial rules and regulations provide the homes in areas not served by municipal facilities must be on one acre lots to use septic tanks and that the tanks must be installed farther than before from well water supplies and basement walls.

Pleading for the supervisors to take action on the proposed regulations, Dr. Engelke said, "This ordinance has been reviewed by one committee, by the full board, a copy of it has been sent to every supervisor and the Prosecutor has looked it over."

"I think it's time we stood up and were counted on this matter."

Dr. Engelke's pleas, however, were turned down by voice vote of the Board.

Supr. Carl Mast of Webster said he objected to the section of the proposed regulations which provide that no new septic tank and disposal field installation shall be made on a parcel of land less than one acre in size and isolated from adjoining properties. He noted that this is contrary to zoning of at least half the Townships in Washtenaw County.

Supr. John Ree of Ann Arbor said that he objected to the proposed regulations because they did not make exceptions for property with buildings which are not used for "human habitation."

Rae said he was concerned about the Department's refusal to grant a permit to the Ann Arbor Civic Theatre for a scene storage building it plans to erect on S. State Street.

Dr. Engelke said "We never know for how long a piece of property is going to be used under the conditions which the permits are issued. In the past we have had buildings sold within six months for purposes other than what they were when we issued the permit. I don't think every chicken coop has to have a permit or every storage building. If the Prosecutor or this Board says give them a permit we will give them one."

Dr. Engelke said that the problems of a beginning subdivision in Ann Arbor Township was an example of "pressure to build now with little thought given to the protection of future citizens and residents who purchase these homes," but that Ann Arbor Township Officials have always cooperated and never gone contrary to recommendations of the Health Dept.

When the Health Officer said his department would need no new employees to enforce the proposed regulations, Supr. Emory Mulholland said he thought there would be need for less. "I think you are going to cut the number of people who are going to build. What is the potential of those Townships which have municipal facilities for several years and can build only this year."

More tables and chairs will be provided and they assure everyone that there will be no waiting in a line to be served.
