US-12 CRASH INJURES FOUR

Four persons were injured last night, one seriously, in a two-car collision on US-12 near Staebler Rd. in Seco township. The injured are Ralph H. and Leo P. Guenther, aged 17 and 12 respectively...

Ralph H. Guenther was reported in "good" condition at the hospital and Leo P. Guenther's condition was reported as "satisfactory."

Rivers, driver of the car in which Harper was riding, was treated and released yesterday. The nature of the injuries were undisclosed.

Sheriff's deputies reported the accident occurred when the Rivers vehicle was attempting to make a left turn off US-12 into Farmer Grant's Market and was struck head-on by a car driven by Ralph Guenther...

Harper was aided after the crash by a passerby, William R. Reid, 28, of Detroit, who applied mouth-to-mouth respiration before officials arrived at the scene.

Michigan Bell Telephone Co. has announced a "built-in" wiring service for new homes. Under the new program, which goes into effect here Monday, concealed telephone wiring will be installed in all rooms of new houses.

The free service also is being offered by Michigan Bell for new one and two-story apartment buildings.

The wiring will be placed inside the walls during the period of construction, leaving no exposed wiring when the building is completed.

Telephone installers are now equipped with a special electronic detecting device they pass along the surface of a wall to locate the hidden wiring.

The detecting device, especially developed by Michigan Bell, utilizes a transistorized amplifier to "hear" a humming tone transmitted throughout the circuit.

An installer then will cut a circular 2-inch hole in the wall, pull out the telephone wires, and fasten them to a wall fixture, also especially designed by Michigan Bell for pre-wired homes.

The fixture and wall opening are covered by an attractive face plate about 3 inches in diameter and available in ivory, beige, or brown.

Customers will pay the regular installation charge when obtaining service.

To take advantage of the new service a builder must give the telephone company advance notice as to when the electrical wiring will be completed. This is necessary because the telephone wiring must be installed before insulation, lath, or plaster is placed.

Extension telephones, or jacks for portable phones, may be located anywhere a customer wishes under this plan. When a telephone is moved from one location to another, the old wall openings may be covered with 2-inch face plates.

MICHIGAN STATE POLICE

An opportunity to become a trooper in the Michigan State Police, one of the finest police organizations in existence, is again open to qualified young men, according to Sgt. Carl Anderson, commander of the Clinton Post.

"Every young man should investigate this opportunity right now because it doesn't come very often," he emphasized. "The pay is good, the work interesting, there is job security and a liberal pension plan."

Complete information and application blanks can be obtained at any State Police Post or from the State Civil Service Commission. Applications must be turned in or mailed to any post of the Civil Service Commission not later than Wednesday, September 7. Applications postmarked up to midnight that day will be accepted.

Eligible are men 21 to 29 years of age, married or single, at least 5 feet 10 inches tall, in good health and of good character, and with a high school education or its equivalent.

Trooper pay begins at \$4,656 and goes to a maximum of \$6,744 plus longevity pay after six years. Promotion in rank brings substantial pay increases. There are paid vacations, paid sick leave, a subsistence allowance of \$3 a day, and, in addition, uniforms and equipment are furnished. Officers are eligible for pensions at half-pay after 25 years of service, with the same provision also for the widow in event of death of the retired officer.

RED CROSS BLOOD CLUB

Manchester Red Cross Blood Club will concentrate on taking registrations, for the Bloodmobile Clinic on Wednesday, August 24th, during the four days of the Manchester Fair. Two hundred registrations are needed to meet the requirements for the coming year and for our present debt to the Red Cross Regional Bank. The Rexall Drug Store is furnishing the booth for the Red Cross and Community Chest where anyone in the area may receive information about the two organizations and their vital places in the community.

The Blood Club which services the Manchester School Area, the southern portion of Manchester Township and that part of Bridgewater Township which is not in the Saline area is one of the oldest clubs of its type in the state. It is part of the Washtenaw County Chapter of the American Red Cross. Every citizen in the area is a member of this club with its definite responsibilities and privileges.

The responsibilities include keeping the bank in operating order—to keep a balance on hand. That is the special responsibility of the people between the ages of 18 and 59 (those under 21 must have a parent release card signed unless they are married or in the armed services.)

At least once during the year the Red Cross Bloodmobile comes to the area accepting donors of blood for Cont on pg. seven

"DON'T SIDE WITH THE WRONG PEOPLE"

(BY PAUL L. ADAMS STATE ATTORNEY GENERAL)

"Your home has been selected as a model in this neighborhood for an aluminum siding job." These words spoken by unscrupulous salesmen have cost Michigan residents hard-earned dollars yearly.

My investigations as Attorney General indicate that the application of siding stands out as one of the most fruitful sources of exorbitant profits by those who prey upon the desire of home owners to improve their property. And the fraudulent gimmicks used keep pace with the huge profits to be made by the unprincipled organizations using door-to-door salesmen in this business.

You may be told that your house has been selected as a neighborhood model to be photographed and advertised and you will be paid \$100 for each new siding job acquired as a result of this advertising. Thus, your siding job will cost you next-to-nothing. Actually it will probably cost you twice as much as a legitimate businessman would charge. And don't depend on referral money. The chances are you will never get a penny.

Another gimmick is that your home is being considered by the board of directors for a siding job which, if you are picked, will be used as a model for national advertising. If you win the company will send you a check every month for a number of years to pay you for the cost of the siding. Don't worry! Next morning you will be informed that you have not won. Of course to be eligible for the job, you will be asked to sign a work order authorizing the work. What you are signing is a promissory note. If you refuse to pay, you will be threatened with court action. Don't wait on the checks from the company. They will never come.

Don't fall for these gimmicks. If you want a siding job, compare estimates from legitimate businessmen in your area. The something-for-nothing you may think you are getting now will cost you headaches, heartaches and paychecks for years to come.

MANCHESTER LIBRARY

Manchester Township Library will be closed from 12:30 p.m. August 13th until 12:00 noon September 6th. Beck fines will not be imposed during the time that the library is closed. All books should be returned by September 8th or they will be considered overdue, and 2¢ per day will be charged to the borrower.

HOME FROM POLAND

Mr. and Mrs. Joseph Czaplara arrived home this Wednesday morning at 3 o'clock following a 2 months tour of England, Denmark, and Poland where they visited Mr. Czaplara's relatives, whom he had not seen since leaving Poland in 1914. They went and returned on the Polish ship, Dotary.

COMMUNITY FUND DRIVE

Dates and quota for the Manchester Area Community Fund Drive were set at the August meeting of the board. The quota of \$8,500 will be solicited in October. The final dates for the drive will coincide with the state and national campaign dates—October 11 through the 27th.

Mrs. Louis Vogel, chairman for the 1960-61 drive announced that campaign organization will start this month. The final solicitors meeting was set for October 6th at the Manchester Methodist Church at 6:30 p.m. Every solicitor is expected to attend this meeting to receive supplies and instructions.

The \$8,500 quota was presented by the Budget Committee after several months of study and hearings with the participating agencies. Stanley White is chairman of this committee which includes Louis Vogel, treasurer of the fund, Mrs. Ray Tibr, secretary, Walter Schaible and Clayton Parr.

The United Fund and Red Cross were granted their requests of \$1,830 and \$2,520 respectively. There has been a new agency added to the United Fund group of worthwhile agencies desiring "One Drive for All," making their request \$149.00 more than last year's. Additional funds are needed by the Blood Services Division of the Red Cross (Manchester is well aware of this need) adding \$210.00 to last year's request.

Pleasant Lake School (\$125), Michigan-Crippled Children (\$175), Manchester High School Student Council Assembly (\$200), M.H.S. Student Council Year Book (\$200), M.H.S. Band (\$200), were all allowed their requests which were the same as they have been for several years.

The Salvation Army requested \$500 and were allowed \$400 which is \$50 more than last year. The Volunteers of America requested \$200 and were allocated \$75, the same as in 1960.

Carr Park Association and Optimist Christmas Party requests were cut in half allowing \$50 and \$75 respectively. Peritage Trails Council (Boy Scouts and Cubs) requested \$850. Due to the small number of boys involved at the present time in this area, they were granted \$450, an increase of \$175 over last year.

The Recreation Department requested \$2,300 and were granted \$2,000 for their 1961 budget. The total receipts for the 1959-60 Community Fund Drive were reported at the August meeting as \$8,787.39.

TO OPEN ON SEPT. 6th

All grades will be back in school here Sept. 6. Schools Administrative Assistant Ted Tapping announced.

Tapping reported that registration for an expected enrollment of 1,020 students will be held on the first day of school in Manchester, starting at 1:30 p.m.

There will be a series of faculty meetings during the morning of Sept. 6. Tapping urged people new to the school district, however, to register their students as soon as possible at the offices of Supt. Robert Masten in Ackerman Elementary School.

He said the paper work for new residents is more complicated than that for returning students, and each new student must also be placed in his proper grade prior to the start of the term.

Tapping announced three new teacher appointments for the coming year. Mrs. Dolores Case, of Ann Arbor, will work with both the Manchester and Saline school systems as a speech correctionist. Manchester will share the services of special education teacher Mrs. Theodore A. Groeb, Saline, with the Chelsea school district. Mrs. Robert Hamilton of Manchester, will teach social studies and English in the junior high school.

Appointments have not yet been made, he said, for the positions of combined fourth and fifth-grade teacher at the Pleasant Lake school and for a high school physics and mathematics teacher.

FASCINATING FACTS ABOUT NATURAL GAS

Birth of an Industry
In 1821, mysterious flames burst from a creek. Mr. Bill Hart, a villager, decided to put them to practical use. Thus Natural GAS was used as a fuel to light an Inn in Freedomia, New York. A "burning creek" and the ingenuity of man resulted in the birth of a new industry!

Versatile Giant
Today there is no accidental discovery of Natural GAS - scientific methods and equipment, as well as trained men, are required to locate it. Though you can neither see, smell, taste or feel it, today Natural GAS has skyrocketed into our fifth largest industry! *

*Natural GAS is harnessed energy that produces both heat and cold. Call or write Consumers Power Company to learn how Natural GAS can serve you better in industry and in the home.
