PAULINE BUSS CHOSEN FOR I.F.Y.E.

Pauline Buss, daughter of Mr. and Mrs. John Buss of Austin Road, Manchester is one of six from Michigan chosen in the I.F.Y.E. program. The purpose of this exchange is to further international understanding in the basis people to people exchange with our foreign friends and neighbors. In its 13 years the program has done much to contribute to world understanding and has encircled the globe. All countries except for those countries under communist rule presently are participating.

In representing America, Pauline will be an example of America to her host family. She will tell of our history, culture, and way of life, to people in the Philippines. A part of Washtenaw County will go with her in the form of pictures which she will take when she leaves in June. The exchange will bring back to Washtenaw County a knowledge of culture and ways of life of the Island people.

The National 4-H Foundation, the 4-H Foundation of Michigan and 4-H Foundation and the county will share the expenses. Washtenaw county will pay \$500 the state matches this amount and the national foundation provides the remaining \$700. There are six from Michigan and 115 from 40 states going. Six will be going to Communist countries. These young people live on farms with the host families as a family member. Most exchange periods are from four to six months. Pauline plans to be gone six months. Service organizations, club groups such as 4-H church groups, and individuals are invited to participate financially in the program.

Pauline is a junior at Michigan State University and a graduate of Manchester High School in the class of '58, where she was salutatorian. Two years ago she attended 4-H Congress in Washington D.C. She was one of the top 4-Hers in Michigan and served from Washtenaw county on the 4-H Congress in Washington D.C. She was one of the top 4-Hers in Michigan.

BLOOD CLUE IN DEBT

Manchester Blood Club is in debt to the Regional Blood Bank fourteen pints to date! The Red Cross Bloodmobile is scheduled to be in Manchester, March 10 at the Methodist Church Hall from 2:00 to 5:00 and 6:00 to 8:00 p.m.

The last visit of the Bloodmobile was August 24, when 133 donors gave a record of 99 pints of blood for the local bank, one for the Saline bank, and two for the American Legion bank. After 10% or 10 pints, were deducted for Civil Defense (this is the U.S. Government's part of the contract with the Red Cross and all blood banks). Manchester was credited with 89 pints. At that time, however, the local bank was 17 pints in debt, so our actual credit was only 72 pints. Since then twenty-one different people covered by the Manchester Blood Club have used 86 pints of blood and we are in debt 14 pints once more.

This is the accounting of the local blood bank for approximately six months. Those families who have needed the most necessary "medicine" that can be given in so many cases to save a life can not express their thankfulness enough to their neighbors. Many notes of appreciation to the Blood Club releasing committee are witnesses to this fact. The support that these families give the Bloodmobile when it is in the area is an even greater acknowledgement.

A blood bank is the most efficient and logical way for the families of industry to be protected. It means that their needs are taken care of, without loss of time when it is not convenient for the company, for employees to store up the life giving fluid needed in time of stress. No one ever expects to use another person's blood, but often, as the record shows, the necessity for it is increasing. Age is no criterion for the need, as the tiny baby born tomorrow may need a complete change of blood to save its life, or the teenager in an automobile accident may be the next victim, or the adult suddenly stricken with disease or accident may be helped back to health.

A blood donor is anyone between the ages of 18 and 60. The doctor and the nurses at the Bloodmobile check the person's health to be sure that he is able to give at the time of the clinic. A donor may give blood every eight weeks or up to five times a year. During the war years many donors did give that often if a donor is between 18 and 21 years of age he must have his parents consent release signed by one of his parents, unless he is married or in the armed services.

SCHOOL BOARD CONSIDERS ADDITION TO PLEASANT LAKE

Together with the county board of education the local school board has been considering the addition of two rooms to Pleasant Lake School.

The financial aid for the construction of these rooms would be appropriated from county special education funds, as would the necessary money for the equipment. The program would be administered by the Manchester School District with extra financial help from the state and county for the program's operation.

The board of education must sign a contract with the county board to use these rooms or equivalent rooms for this program during the next 15 years.

The tentative plans are to use these rooms until they are needed at Pleasant Lake and then incorporate equivalent special education rooms into some future building project.

Carl C. Kressbach and John H. Dabbert, architects from Jackson, were contracted at last night's meeting to draw preliminary plans for this project.

If all goes well the building will be ready for occupancy next fall.

The county's annual immunization clinics to provide booster shots for diphtheria, tetanus and smallpox begin this week and are offered to over 6,000 county children.
Clinics will be held for children in the kindergarten or first grade and the sixth grade in 17 schools in the Ann Arbor school district.
If their parents request the booster injections, children in other grades may receive the shots. All children who receive the shots must return slips signed by their parents to schools.
Dr. Otto K. Engelke, director of the County Health Department said parents should take note of the fact that there are two different request slips. He said parents should be certain they are signing the right slip if they request immunization against diphtheria and tetanus or only a smallpox vaccination. The slips will be sent home from school with the children.

Held in 36 elementary schools in the county, the clinics are conducted by the Washtenaw County Medical Society and the Health Department in conjunction with the schools. Local physicians donate their time so the children can be immunized without charge. Polio shots will not be offered at the clinics.

"Neither Snow, Nor Rain..."
Herodotus, the Greek historian, said it in the 5th century, B.C., and you'll find it today inscribed on the main post office in New York City: "Neither snow, nor rain, nor heat, nor gloom of night stays these couriers from the swift completion of their appointed rounds." With the Christmas rush not far behind us, it's a good time to pay tribute to those who, day in, day out, in fair weather or foul, see that the mail gets through. Your postman deserves a pat on the back, but he'll settle for a smile. . . . Incidentally, the motor truck plays a vital part in the distribution of the mail, serving the length and breadth of Michigan, from the most densely populated cities to the most remote rural areas.

BLOOD BANK REPORT

August 24, 1960 one hundred and thirty-three people reported at the Bloodmobile in Manchester as donors for the Manchester Red Cross Blood Club. It was an excellent response for an area Blood Club which serves all of the Manchester School District, south-west Washtenaw County and Double A employees and their families. Out of this number only thirty one were unable to give blood at that clinic for medical reasons. (Persons who may not be able to give at one or two or even more clinics may be accepted at the next one. Among those who gave in August there were four who had given a gallon or more to the Manchester Club since its beginning in October 1954. Roland Grossman, Mrs. Claran Knauss, Sr., Lauren Leeson and Clarence Pfau are the recipients of "Gallon Pins" for their consistent aid to the community. There are others in the area who have given as much to the local club and ours, but were not at this clinic.

Each donor is given a Blood Donors' Card the first time he gives to a Red Cross Bloodmobile and each succeeding donation is added to his card. The Blood Donors' Card is a necessary part of every donor's wallet as it can be very helpful in time of emergency. The following list includes all of those present at the August 1960 clinic. Robert Ahrens; Clare E. Arnold, Hilda Arnold, John Below, Duane Berry, Herbert Berusder, Core Blaisdell, Roy Blaser, Grant Boswell, Dan J. Boutell, Howard Breitenwischer, Gary Brokaw, Thomas Burch, Carlton Burkhardt, Ellen Buss, Pauline Buss, Eva Carlton, Frank Carson, Beatrice Clark, Richard Cox, Edith Creech, Homer Dennis, Charles Dettling, Minard V. Diver, and Robert Duhan.

The nominating committee appointed by the president was Mrs. Franklin Reck, Mrs. Ray Tirb, Clarence Fielder and Ted Tapping. Recommendations for the board may be made to the committee or from the floor at the Annual Meeting in April.

FORMER RESIDENT SUCCEUMS

Word has been received here of the death of a former Manchester resident Mrs. Dana Davison, 71, who died last week Monday in Lansing. She and her husband, Dr. Lee Davison, moved to Okemos from Manchester 10 years ago. Mrs. Davison was born June 13, 1889 at Caledonia. She was a former member of the Michigan State Veterinary's Auxiliary. Surviving besides her husband is a sister, Mrs. Herbert J. Cook of Middleville. Funeral services were held at 1 p.m. Thursday at the Gorsline Runcos Funeral Home in Lansing. Burial was made at Middleville.

WOMEN OF BPW CLUB AND GUEST ENJOY SPEAKER FROM SOUTH AFRICA

Pictured above from left to right: Rose Hirschson speaker, Manchester's Business and Professional Women's Club president, Mrs. Gertrude Fielder and Jan Taylor, Saline's BPW Club president.

The February Meeting of the Manchester Business and Professional Women's Club was held Monday evening February 13 in the Science Room of the Intermediate School with Mrs. Ethel Griffin as Hostess.

After a short Business meeting, Rose Hirschson of the University of Michigan, formerly of Johannesburg, South Africa was introduced by Mrs. Griffin. Her talk was entitled "Women of South Africa", but her opening remarks were of the value of membership in BPW. The word membership being very significant as it begins with "ME". She told the group of how being a member of BPW opened doors for her here in America and what a wonderful time she has had meeting BPW's. Mrs. Hirschson, who was born and educated in South Africa, was a member there of what would compare with a State Committee BPW Member here. She told many interesting and amusing incidents of what situations could arise among English speaking peoples because of the different meanings of the same words and expressions, and of the many that happened to her. At the close of her talk, discussion became increasingly interesting because she joined the group and answered their many questions. One thing she stressed was that all people in Africa are not jungle dwellers or savages but are just as civilized as we are, "or I hope I am". During the social hour that followed, refreshments were served and a silent auction held. Guests were present from Ann Arbor, Saline, Grass Lake and Manchester.

KNOW THESE FACTS

- 1 IF YOUR CHILD HAS A BAD SORE THROAT... call your doctor, especially if there is difficulty in swallowing, swollen neck glands, high fever, nausea or vomiting. Adequate Treatment of "Strep" Throat Can Usually Prevent Rheumatic Fever and Rheumatic Heart Disease.
- 2 IF YOU THINK YOU HAVE HIGH BLOOD PRESSURE... see your doctor. Only he can tell. He can usually control it and decrease the chances of heart damage or "stroke".
- 3 STROKES ARE NOT HOPELESS... Many patients can be treated effectively. Invalidism can be prevented or reduced. Your contributions to your local community fund have helped to produce these advances. But heart disease is still our #1 health enemy. Further progress depends on your continued support of medical research.

There's Something About The HOME TEAM!

When the home team wins a victory, everyone is happy because everyone shares in the glory. It's the same with our town itself. When MANCHESTER, your home community, prospers you feel good because you know that some of that prosperity will rub right off on you!

That's one big reason why more and more folks are buying in MANCHESTER stores these days. Not only are these stores up-to-date in every way, with merchandise as modern as tomorrow — but people hereabouts also know that their MANCHESTER merchants are neighbors who help pay taxes that build and maintain schools, roads and other improvements. They know that MANCHESTER stores employ local people... and that these same people spend their earnings locally... in part, on the very things that you or your employer makes or sells.

When you buy in MANCHESTER you are starting a chain reaction that helps make MANCHESTER — and you — more prosperous. That's why you will find it mighty good sense to buy in MANCHESTER — and boost the home team!

BLOOD CLUB

necessary in order to know how large a Bloodmobile Unit will be needed at the clinic. (It is the money saving feature of the program and it does take Red Cross money to run a Blood Bank. In order to get advance registrations for the coming clinic, the clubs and organizations in the area and all churches will be contacted by a member who represents the local Blood Club. This will be done by March 6, when the advance registration should be fairly well set. Mrs. Rolland Grossman is in charge of this part of the program and if anyone is missed in the drive he may call her by the 6th of March and make his appointment for the Bloodmobile. If a donor has not made an appointment but can come to the clinic, he will be accepted. When advance registrations are taken the donor is asked to pick a time that will be convenient for him to come. This is for his own protection as the time pattern will allow the registration committee to contact people in order to spread the flow of traffic and avoid long waiting periods for busy people. Those who are regular givers at the Bloodmobile understand the procedure and appreciate its advantages. Mark March 10 on your calendar now and note the clinic is at a new place this year, the Methodist Church Hall. The Blood Club is very grateful to the three churches in town for their assistance with this part of the program. The Emanuel Church Hall was the only one large enough to hold the clinic for years, but now the Catholic and Methodist churches are also suitable equipped.

RED CROSS TREASURER NAMED FOR COUNTY

Roy E. Weber, treasurer of the Ann Arbor Federal Savings and Loan Association, has been appointed treasurer of the Washtenaw County Chapter of the American Red Cross. He succeeds the late Douglas Williams who had served as treasurer from 1957 to the time of his death last October. Mr. Weber is an Ann Arbor high school and Michigan State University graduate, he is a council member of the Zion Lutheran Church, a member of the board of directors of the Optimist Club and a treasurer of the Christian Rural Overseas Program (CROP) and of the Detroit Chapter of the Society of Savings and Loan Controllers.

Chairman of the central committee for the annual Red Cross out-county area drive to be held March 1-15 were announced by Ronald R. Gauch, general chairman of the campaign. The drive will be held in Whitmore Lake, Northfield and Salem townships. These are the only areas in Washtenaw County in which the Red Cross holds a separate fund campaign. In other communities in the county the Red Cross participates in the United Fund Campaign.

Chairman of the central committee are Howard Macmillan, assistant chairman; Roger Westland, publicity; Robert Crabson, education; Mrs. John Swerens, arrangements; Mrs. Margaret Miller, a Red Cross volunteer, will be materials chairman.

POPULATION GAIN FOR COUNTY TOLD

Washtenaw county's present population is 172,440. By 1970 it is likely to be in the neighborhood of 214,000, according to commission research analyst, Claude Coates, jr. Mr. Coates told the County planning commission that "working estimates" used by the commission assume that the county's population will grow at a rate of 24.1 percent in each of the two decades ahead, compared with the county's 28.1 percent growth rate in the past ten years.

Washtenaw county has 2.2 percent of the state's present population. While the county's rate of growth in the past 10 years was slightly higher than for the rest of Southeastern Michigan and for the state as a whole, the gain in the county's share of the state total was less between 1950 and 1960 than in previous decades. Almost 80 percent of the county's growth in the past ten years was due to what the planners call "natural increase," which is the excess of births over deaths in the area. In Washtenaw there were 40,270 births and 10,130 deaths in the decade of the 1950's.

It is estimated that the county's population increased by 7,590 persons owing to the fact that more people came to the county to live than left. Sixty per cent of the county's population growth took place in unincorporated areas of the county, Coates said.
