BLOOD CLUB

necessary in order to know how large a Bloodmobile Unit will be needed at the clinic. (It is the money saving feature of the program and it does take Red Cross money to run a Blood Bank. In order to get advance registrations for the coming clinic, the clubs and organizations in the area and all churches will be contacted by a member who represents the local Blood Club. This will be done by March 6, when the advance registration should be fairly well set. Mrs. Rolland Grossman is in charge of this part of the program and if anyone is missed in the drive he may call her by the 6th of March and make his appointment for the Bloodmobile. If a donor has not made an appointment but can come to the clinic, he will be accepted. When advance registrations are taken the donor is asked to pick a time that will be convenient for him to come. This is for his own protection as the time pattern will allow the registration committee to contact people in order to spread the flow of traffic and avoid long waiting periods for busy people. Those who are regular givers at the Bloodmobile understand the procedure and appreciate its advantages. Mark March 10 on your calendar now and note the clinic is at a new place this year, the Methodist Church Hall. The Blood Club is very grateful to the three churches in town for their assistance with this part of the program. The Emanuel Church Hall was the only one large enough to hold the clinic for years, but now the Catholic and Methodist churches are also suitable equipped.

RED CROSS TREASURER NAMED FOR COUNTY

GIRL'S BARBER SHOP QUARTET

Roy E. Weber, treasurer of the Ann Arbor Federal Savings and Loan Association, has been appointed treasurer of the Washtenaw County Chapter of the American Red Cross. He succeeds the late Douglas Williams who had served as treasurer from 1957 to the time of his death last October. Mr. Weber is an Ann Arbor high school and Michigan State University graduate, he is a council member of the Zion Lutheran Church, a member of the board of directors of the Optimist Club and a treasurer of the Christian Rural Overseas Program (CROP) and of the Detroit Chapter of the Society of Savings and Loan Controllers. Chairman of the central committee for the annual Red Cross out-county area drive to be held March 1-15 were announced by Ronald R. Gauch, general chairman of the campaign. The drive will be held in Whitmore Lake, Northfield and Salem townships. These are the only areas in Washtenaw County in which the Red Cross holds a separate fund campaign. In other communities in the county the Red Cross participates in the United Fund Campaign. Chairman of the central committee are Howard Macmillan, assistant chairman; Roger Westland, publicity; Robert Crabson, education; Mrs. John Swerens, arrangements; Mrs. Margaret Miller, a Red Cross volunteer, will be materials chairman.

POPULATION GAIN FOR COUNTY TOLD

Washtenaw county's present population is 172,440. By 1970 it is likely to be in the neighborhood of 214,000, according to commission research analyst, Claude Coates, jr. Mr. Coates told the County planning commission that "working estimates" used by the commission assume that the county's population will grow at a rate of 24.1 percent in each of the two decades ahead, compared with the county's 28.1 percent growth rate in the past ten years. Washtenaw county has 2.2 percent of the state's present population. While the county's rate of growth in the past 10 years was slightly higher than for the rest of Southeastern Michigan and for the state as a whole, the gain in the county's share of the state total was less between 1950 and 1960 than in previous decades. Almost 80 percent of the county's growth in the past ten years was due to what the planners call "natural increase," which is the excess of births over deaths in the area. In Washtenaw there were 40,270 births and 10,130 deaths in the decade of the 1950's. It is estimated that the county's population increased by 7,590 persons owing to the fact that more people came to the county to live than left. Sixty per cent of the county's population growth took place in unincorporated areas of the county, Coates said.

FIRE DESTROYS DEAN HOME

Firemen were unable to find the cause of a fire that swept through a two-apartment house Friday night, completely destroying it. The house, at 604 City Road, was owned by Mr. and Mrs. William Dean. Both the couple and their children, as well as the occupants of the other apartment, Mr. and Mrs. Lawrence Dean were away when the fire started. The blaze was termed the "worst in the village in the last 12 years" by Fire Chief Lawrence Scheid.

The smoke was spotted by a neighbor, George Grossman, jr. who phoned the firemen. But by the time the fire fighters arrived, flames were shooting high in the air. Soon after their arrival, sections of the roof caved in.

Mr. and Mrs. Bill Dean had taken their two children to the movies in Clinton just after supper. Mr. and Mrs. Lawrence Dean were in West Virginia visiting relatives, where they were called by the serious illness of her mother. Firemen battled the blaze until 5 a.m. Saturday morning.

MANCHESTER'S LITTLE MAN IS "MR. BIG"

Jerry Creech continues to be the big little man for the Manchester High Dutchmen.

The 5-9 senior fired in 26 points Tuesday night as the Dutchmen defeated Clinton, 55-44. Creech was hitting well on jump shots and driving in for other points. It was fortunate that Creech was not because the Manchester forwards scored only two points. Creech's running mate at guard, Ken Brokaw, had 14. Center Gary Pniowski netted 11. Howard Colhurst hit 11 points for Clinton.

It was Manchester's eighth triumph in 12 games and Clinton's 10th loss in 12. Clinton's Little Redskins turned the tables on the Dutchmen in the preliminary contest, 42-30.

COMING EVENT

Thursday, March 10, the Iron Creek Farm Bureau will be host to the Town and Country Farm Bureau and the West Manchester Farm Bureau at a joint meeting at the Iron Creek church hall where pictures on Communism will be shown.

SOLUTION TO OFFICIAL DETECTIVE MYSTERY QUICKIE

When the checker produced the license number—even though incomplete, cleverly to indicate authenticity—the officer knew he was lying. From the rest of his story it was obvious the robber had parked with the front of his car toward the rear. Since Pennsylvania cars have a license plate only on the rear, it would have been impossible for the checker to see the license. The checker's recent arrival from Alabama where, he remembered, two plates are used, caused his downfall.

STYLE SHOW SET, F.H.A. GIRLS NAMED FOR CONVENTION

The Future Homemakers of America style show "Dazzling Duds of 1961" is slated for Monday, March 6. All F.H.A. and Home Economics girls who have made clothing this year will model them at the style show. Requirements are that a student must have a total of 6 points without a D on her report card for the semester averages or the first marking period of this semester. She must not have any 4's in attitude. The local chapter pays one-half the expenses for the trip and the girls pay the remainder.

A popular birthday card asks the question: "What is a Husband?"

It contains a witty description of the typical American husband and reads in part: "A husband is the handiest thing invented. How else could a wife get furniture moved, the phone company bawled out, the dresser drawer unstuck, the finance company reasoned with, the zipper fixed, her back rubbed, her supper praised or the tip of her nose kissed?"

This is one of a dozen word-portraits from a collection by Rust Craft entitled "Candid," dealing with the whole family, plus "friend" and "sweetheart." "What is a Girl?" According to the verse editors she "is innocence playing in the mud, beauty standing on its head, and motherhood dragging a doll by the foot." And her little boy friend, portrayed on another card, "is truth with dirt on his face, beauty with a cut on his finger, wisdom with bubble gum in his hair, and the hope of the future with a frog in his pocket."

Mr. and Mrs. Dale Randall and little son Tim of Grand Rapids spent from Friday to Sunday with his parents, Mr. and Mrs. Roy Randall and family. Other Sunday dinner guests at the Randall home were Mr. and Mrs. Gerald Manchester and family of Clinton.

OFFICIAL DETECTIVE STORIES

"One man did it!" the young checker exclaimed. "It was just before nine o'clock—quitting time. I happened to see him drive up and park right outside the front windows. I didn't think he was coming in, but he did—with a gun!"

"What'll I tell the boss? He'll be back any minute to take the cash to the night deposit vault, and now there isn't any cash! Almost four hundred dollars gone. I'll be fired sure."

"Maybe not. It's not your fault if you got held up."

"I know it wasn't my fault. But I've only been here about two weeks. I just came up from Alabama. I—Gee, the boss may think—there's no telling what he'll think."

"Where is the owner anyway?"

"He had to go into Pittsburgh for something. Left about seven-thirty. He said he'd be back by quitting time."

"All right. Let's get straight just what happened. You say the man came in here with a gun?"

"Yes. Well, no—I mean, he had it in his pocket, I guess. He wasn't waving it around when he came through the door. I just thought he was a last-minute shopper."

The officer looked back through the small self-service store. "There were no other customers?"

"No, sir, I was all alone in here."

"What did he do then, pull the gun?"

"No, he walked around the store first. I guess he wanted to be sure there was no one else here. Then he picked up a magazine and came over. When I said it was thirty-five cents he laughed. That's when he pulled the gun and made me give him all the money."

"You got a good look at him then?"

"Pretty good, I guess. I looked mostly at the gun though."

"Can you describe him?"

"He was tall and thin. I think there was a scar on his chin. His eyes were brown."

"How about the car? Do you know the make—?"

AN ENCOURAGING WORD for parents whose teenagers seem to talk on the phone for hours: child psychologists say they're only trying to banish moods of dejection and raise their spirits. Adolescents, it seems, are particularly vulnerable to depression. And telephoning is one way they avoid feeling "down." Perhaps the best psychology for parents is to get their teenagers an extension phone of their own—it costs just a few cents a day. Or, better yet, a separate line. It can raise the spirits of the whole household!

A VERSATILE LITTLE INVENTION called the thermistor (short for thermal resistor) has proved a boon to your telephone service.

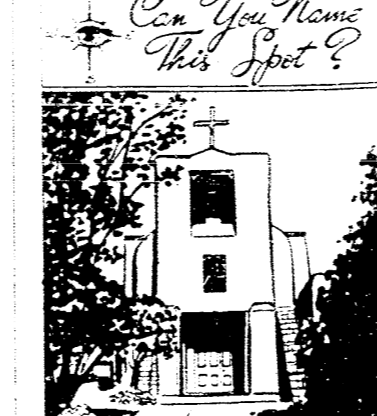

This supersensitive device—no bigger than a tiny bead—keeps telephone voice transmission at uniform volume. Volume can vary with temperature, and thermistors, reacting to heat and cold, keep the voice level constant. Developed by Bell Telephone Laboratories, millions of them today are hard at work in your nation-wide telephone network. Tiny and efficient, thermistors are another example of how your Telephone Company is constantly working to help keep down the cost of your ever-improving telephone service.

A NEW HOME TELEPHONE service is now available from Michigan Bell. It's called Home Interphone. Here are some of the wonderful things you can do with it:

- talk by phone from room to room; the person you call can answer "hands free"
- answer the door from any phone via a microphone-speaker by the door
- "hold" and transfer incoming calls to another telephone in the house by using the telephone to page the person being called. Home Interphone is a new Bell Telephone product that makes your telephone service more useful and convenient than ever.

WASHTENAW CIVIL DEFENSE FOR DETROIT EVACUEES

Civil Defense Director, Gerald G. Miller has announced that the state's plan for sending evacuees in an emergency from Detroit to very public building and school is outdated. He said the state Civil Defense plan estimates that bombs dropped on Detroit would inflict serious damage on the eastern part of the county.

Although Washtenaw county has plans to evacuate residents from the four eastern townships in the county, the plan for evacuation of Detroit school districts to schools in Ypsilanti.

Miller said the state lists such places as the Barton Hills Country Club, fire station, University Observatory and Food Service Buildings. Under the plan some would be sent to the Washtenaw Airport on Jackson Road, the Ann Arbor Golf Club and the National Guard Armory.

Miller said "Newspapers in Detroit have plates which they can put on their presses on short notice giving these sites as points for residents of Detroit to evacuate to. It could result in a terrible mess here."

Miller said this plan was worked out in 1956 by Civil Defense failed to co-ordinate the plan with other counties. Miller said they simply inserted it in the state plan for Civil Defense and presented it to all counties.

Miller said the plan he has developed calls for the use of the buildings in the state plan for medical sorting centers and for registration for Washtenaw county residents.

He said the Washtenaw county plan calls for sending all evacuees from Detroit who can move through Washtenaw county and into Jackson county and other surrounding counties. Injured persons who arrive here would be sent to medical centers.

Miller said the Detroit officials are aware of the situation but there isn't much they can do about it until the plans of the various counties are co-ordinated.

New Antenna Brings Better TV Reception to "Fringe" Areas

The newest and most powerful television antenna ever to reach the consumer market is being introduced by Channel Master Corporation, Ellenville, New York. The new antenna, called the "Super 10 T-W," is an advanced version of the company's famous series of antennas which operate on the patented "Traveling Wave" principle to bring better TV reception to "fringe" areas.

According to Harold Harris, Channel Master vice president in charge of sales and engineering, the new "Super 10 T-W" gives 25% more power than previous models, and performs better on all TV channels, 2 through 13. "With this new antenna," said Harris, "thousands of set owners in outlying areas will be able to get the kind of quality reception never believed possible before."

"This new antenna will extend the range of TV reception considerably beyond what is now possible with existing antennas," said Harris. "Moreover, viewers in these new areas will be able to view brighter, clearer pictures without snow, ghosts and other antenna-related reception difficulties."

Other features of the "Super 10 T-W" include strong construction so that it can stand up to high winds, along with heavy-duty weather-proofing to prevent rain and salt air from impeding reception.

The new Channel Master "Super 10 T-W" antenna has a list price of \$59.95.

BROADCAST SOIL INSECTICIDES, within the next few weeks, on your level fields to save you time when the spring rush begins. Since this is a new practice, you may want to try it on only a part of your acreage to compare results with spring application. North Central Illinois tests with winter planters have been as effective as band or row treatment using planter attachments. Application can be made with granule applications or applied in combination with fertilizer.

CREEP FEEDING Spring Lambs. Many times the early push of creep feeding can get lambs to market by early summer before markets normally start to slide off. Still further advantage to creep feeding can be obtained by pellet-feeding the ration. Pellets containing 75% finely chopped high quality alfalfa, 15% ground grain and 10% molasses make it possible to have lambs ready for market in 90 to 110 days.

MIX SECOND CUTTING ALFALFA AND RED CLOVER with first or third cuttings if you have had problems with "slobber hay". For reasons unknown, second cutting alfalfa and red clover sometimes cause excess starvation among cattle. Generally when this occurs, cattle will refuse to eat the hay. You can save this hay by mixing it with other cuttings at the rate of about one-third slobber hay to two-thirds good hay.
