TO OUR READERS

We are determined to do our best to make the ENTERPRISE THE BEST WEEKLY IN THE COUNTY. And we can do it if we can have a little assistance. We shall double the circulation of our paper if we take our pay in old iron. We want every merchant to lend a helping hand, we want every business man to put forth his energies for us, we want every mechanic, farmer, professional and laboring man to assist us. All can do something. We want every cent that is due us, and we want everybody to carry an ENTERPRISE in their pocket. It is for the INTEREST of the TOWN, and for the INTEREST of the County. We shall go in with our sleeves rolled up, and if we fail it will not be from lack of energy or enterprise. SUBSCRIBE NOW-Now you have a little money to spare, why don't you subscribe for your home paper. Don't think of taking one printed out of town until you have subscribed and paid for your home paper. Assist your home industry by taking the local paper. You can't expect to get as much reading matter from a country paper as you can from a city paper, when they have the columns of daily to select their matter from, but you can get you news at home. You would not think of going to the city for accommodations, if you were in trouble, but to your friends at home. Therefore support and encourage home industry. Will you help us? Now is the time to do your duty. Will you be among the first to subscribe?

HELP US-We wish that the Pastors of the several churches in and about our village would furnish us with marriage and death notices, as they occur. We have so much to do that we often neglect them, and we can scarcely ever ascertain the particulars as well. We should also be obliged to them, and other persons who will furnish us with items of interest as they may see or hear of them.

THE BEST WAY TO ADVERTISE - The best and cheapest way of advertising in the world is that in the newspapers. Every successful advertiser will say this. Seed sown there if this seed is good for anything always brings up a crop of some value, most general a hundred fold. Placarding the dead walls, and showering hand-bills among the people, are auxiliaries in advertising, but it is doubtful whether, as a rule they more than pay the expense, while there is no doubt that they are a nuisance. The blanket of dead walls is only disfigured by posters, provoking in the well-regulated mind a sense of aversion to the man who so advertises, and the articles upon whose excellences he expatiates; while as to hand-bills, nothing so prejudices a citizen against going to see any show, or buying any goods, as the ugly slips of paper thrust at him from all quarters, eloquently recommending him to do those things.

683 times "around the world", they pounded the pavements and proved that concrete outperforms asphalt these ways...

Sponsored by the American Association of State Highway Officials (AASHO), the 27 million dollar National Road Test was set up to establish basic facts of design and construction for concrete and asphalt pavements.

Test pavements were built on the same soil to carry the same vehicle loads to design capacity used in various states. 85 loaded trucks - 40 trucks in semi-trailers - rounded them off hours a day for 10 years. Millions of scientific measurements were made.

The test has demonstrated concrete's superiority for streets, roads and interstate highways.

PORTLAND CEMENT ASSOCIATION, 124 Michigan National Tower, Lansing 1, Michigan. A national organization to promote and protect the use of portland cement.

1 Concrete is more durable! A recent after 10-year test showed concrete outlasted asphalt 3 to 1. Concrete gives you more for your tax money.

2 Concrete rides easier! In rideability measurements, concrete won decisively over asphalt. Only concrete can give you lasting driving comfort.

Your state helped finance this test to bring you better roads. Full value from tax dollars.

CRASH FATAL TO TECUMSEH MAN

The car in which a 51 year old Tecumseh man lost his life in a one car crash on east City Road in Manchester Saturday night. The victim was Waynard Hagadorn. Three others were seriously injured.

MANCHESTER AREA BLOOD CLUB

Manchester's most successful Bloodmobile took in 145 pints of blood on Friday March 10, at the Methodist Church Hall. Out of 167 who attended only 22 were postponed - unable to give for medical reasons at this time. According to the Medical Unit Chairman, Miss Hazel Kuzwa, this is an exceptionally good record.

The only flaw in an otherwise perfect day was the unpredictable motor difficulty encountered by the Red Cross Regional Unit on their way from Detroit. Due to this unfortunate circumstance, the clinic was delayed from a half hour to an hour and a half before getting into full production. Patient donors waited for their turns, let industrial employees go first or returned after the 5 o'clock break whenever it was possible. Mrs. Roland Grossman, chairman of registration, commended the high moral and good spirits of the waiting group. "They were simply magnificent!" Dr. William Purfield was the volunteer doctor in charge of the clinic.

Those registering donors were Mrs. Finn Olsen, Mrs. Erwin Huber, Mrs. Tom Walton and Mrs. Dan Boutwell. Nurses' aids for the day were Mrs. Marie Scheurer, Miss Edna Dietle, Mrs. Luther Klagen, Mrs. Thomas Lockridge, Mrs. Earl Koebe, Miss Leona Cooper and Mrs. James Pratt. Volunteer local registered nurses who helped were Mrs. Laurel Brattenwischer, Mrs. Stanton Roesch, Mrs.

William Purfield and Mrs. Carl Pedersen. The Canteen under the chairmanship of Mrs. Ray Kerr was Mrs. William Palmer, Mrs. Glenn Robinson, Elias Dennis, Mrs. Anna Schill, Mrs. Arthur Blanchard, Mrs. Robert Little and Mrs. Ray Hasselschwerdt assisted by Mrs. Harry Sutton.

Special thanks go to the Methodist Church and the W.S.C.S. for furnishing the location and the refreshments for the donors; to Double A for fruit juice for the donors and their fine registration under the leadership of Mrs. James Baker and Irwin Gill; to Wurster's Greenhouse for flowers; to Sutton's for Polaroid pictures and the Enterprise for continuous free advertising; to all the churches in the area for their special interest and help and to every organization and individual who backed the Manchester Blood Club in its urgent need.

Complete records for the number of pints credited to Manchester as well as the other Red Cross Clubs in the area, the names of donors, etc. will be available in the near future.

Manchester Area Blood Club sincerely wishes for the good health of everyone in the area, but in case of need, it is now ready to help with the "medication" an interested community can give. For blood requests contact: Mrs. Franklin M. Reck, Mrs. Robert Huber, or Mrs. Stanton Roesch.

A Tecumseh man was killed and three other persons were hurt Saturday at about 8 p.m. in a one-car crash on City Road on the east side of Manchester. Waynard Hagadorn of Tecumseh was pronounced dead on arrival at St. Joseph Hospital in Ann Arbor. Sheriff's deputies said he suffered a skull fracture and a dislocated spine.

His wife Mary, 50, and Mr. and Mrs. Ervine Armstrong of US-112 Clinton were injured. Officer Robert Hambley of the Manchester Police Department said Armstrong was driving the car and the others were passengers.

The car went out of control and slammed into a utility pole and then into a tree fifty feet away. Mr. Hagadorn was thrown from the car.

Mrs. Hagadorn suffered a fractured left arm and a hip injury while Armstrong had a broken neck, face lacerations and rib injuries. Mrs. Armstrong suffered a broken arm and possible internal injuries.

After the accident Armstrong denied he was the driver of the 1957 model car. However, officers said he was pinned behind the wheel of the wrecked vehicle and also said Mrs. Armstrong told them her husband had taken over the wheel only minutes before the fatal crash.

HOMEMAKING HINTS

If women read instruction books, many services for appliances could be eliminated. Home economists at Michigan State University state commercial companies spend considerable time and money developing good direction booklets to accompany their products, but many homemakers skim or completely skip this helpful information.

Skip the chlorine bleach if there is much iron in the laundry water supply. Home economists say chlorine bleach helps precipitate rust and intensify stains rather than remove them.

COUNTY DISABLES AND "REHABS" HAVE PAYING JOBS

Corty-Nine Washtenaw County People were rehabilitation into paying jobs during the last fiscal year. John C. Walton "Rehab" coordinator in this county for the Division of Vocational Rehabilitation, Department of Public Instruction, just released the information.

Walton reported that 131 disabled persons here received service aimed at preparing them to hold jobs. These services cost, \$20,360.00 in Washtenaw County during the year. D.V.R. expenditures in Washtenaw County, Mr. Walton explained, were for the following services:

- 1. Medical examinations and diagnosis... \$1,330.00
2. Treatments, including medical & surgical services... \$1,330.00
3. Appliances such as artificial limbs, braces and hearing aids... \$3,775.00
4. Hospitalization, for correction of defects \$3,600.
5. Training, in school or on the job... \$7,800.00
6. Other services, such as tools and transportation... \$2,720.00

The Washtenaw County area received benefits far greater than the amount of "Rehab" funds spent. Walton pointed out that the average weekly earnings of people rehabilitated in Michigan last year were \$57.15. Before rehabilitation they earned \$15.33. Applied to this county, it indicates an estimated annual increase of \$107,800 in wages earned by the 49 persons here. The average cost per rehabilitation in Michigan was \$671.00.

According to Dr. Lynn Bartlett, State Superintendent of Public Instruction, it is estimated that the Department's Division of Vocational Rehabilitation actually rehabilitates about 30 per cent of those who need the services each year.

Dr. Bartlett stated, "Michigan is 50th among the states in the per capita amount appropriated for rehabilitation. The national average is 40.4¢ per person. Michigan spends 24.8¢.

"The federal government is encouraging every state to rehabilitate more of their disabled citizens into employment," Dr. Bartlett added, "it offers federal money to the extent it is matched with state funds. This year, close to \$900,000 of the federal funds allotted to Michigan were not claimed.

GENTLEMEN OF MANCHESTER VILLAGE COUNCIL:

I sincerely greet you tonight as a sincere, qualified and efficient council, dedicated and devoted to the office which you now hold and I am sure that with your cooperation and mine, we will continue to make Manchester, a place proud to live in and one of the best, if not the best in the State of Michigan. We no doubt will have a few vexing problems arise during the year. We shall try to solve them to the best interest of all the citizens of Manchester. I am indeed fortunate in knowing you gentlemen for a long time, one in particular, I knew some time before he knew me - namely Bob Clark. Ask him why?

Now with the help of God, may we have a very successful year for our beautiful village of Manchester. I thank you.

The Sparton Bellringers are a musical group led by Wendell Wescott. They play classical, folk and popular music, using a total of 49 English handbells. It is an English tradition dating back over three centuries.

Professional hand bellringing is no longer in existence, only about a dozen college hand bellringing groups are active in the country.
