LIBRARY

Weather permitting, the flag will fly at the Manchester Township Library during the hours the library is open. Mrs. Roger Hardenbergh, librarian, feels that the American flag should be shown by all public institutions. Since it is practical to do so only during the hours she is at the library, the custom can serve the public to good advantage as well.

Believe it or not, the most popular adult book at the library this month, has been "Gone With the Wind." Due to this bit of research, Mrs. Hardenbergh has decided to mark one display of books "Old but Good" to assist adults in selecting reading material.

At this week's Elementary and Intermediate Teacher's Meeting, Mr. Tapping introduced Mrs. Hardenbergh as the new librarian at the library. She welcomed the teaching staff to use the library to fullest advantage. She also asked them to remind their pupils of the hours and the need of coming to the library for their research material at the time their projects are assigned.

The Library Board feels that cooperation with the Public School System is a prerequisite of the local library and it is pleased to have this recent opportunity to be presented to the staff.

FROM THE PHILIPPINES

By Pauline Buss

Could you imagine the state of Michigan if we spoke 87 different languages? I could not, but that is the situation that exists here in the Philippines. People from one province can't understand people from a different area if they each speak their own dialect.

Let's look at some of the problems that this causes. First of all, the population in the Manila area is heavy. The people don't have enough land to support themselves. People could move to Mindinow, a sparsely populated area, but since the language is so different people are reluctant to move. I would be, wouldn't you?

The Philippines are a group of islands, which limits travel among people, and also is the main reason for so many languages.

During the American occupation English was taught throughout the Philippines. Therefore most educated people speak English. Since before World War 2 there was a move to introduce a national language called Tagalog or Filipino. A child is required to learn English, Tagalog and their local dialect.

This practice has many advantages. It is aiding to the unity of this country and if this country is to prosper it must be united.

That's all for now, as I must close my letter.

Sincerely, Pauline Buss

FRENCH ARRIVE IN MANCHESTER

The French have arrived in Manchester. French cattle, that is, The Frank Leonards of Ridge-wood Farm are now the owners of a bull and six heifers.

These Purebred Charolais are the oldest and the largest of beef breeds. The herd registry for this breed was established in France over 150 years ago. Enormous size, fast gaining ability and beef conformation is a product of strict selection by the frugal French farmer. These Charolais that we know today were imported from Mexico during the 1930's. Since there were so few of these excellent purebred Charolais, a program of cross-breeding with the beef breeds and beef type Brahman was begun. The result has been hybrid breeding stock that in turn produces record breaking weight, grade and yield. Pure Charolais bulls range from 2,000 to 3,000 pounds; cows 1,500 to 2,200 pounds. There are only about 3,000 registered Charolais in the United States.

When crossing Charolais or Charbray with Angus, the noteworthy result is a larger, faster gaining calf which is almost always cream color or white. This cross will increase the weight of calves from Angus cows from 100 pounds to 150 pounds at weaning time, transmitting the top qualities of the Charolais breed.

When Charolais is crossed with Hereford, the result is a calf that will out weigh straight bred calves by 100 pounds or more at weaning age. On grade and yield tests they have outdressed straight bred feed lot mates by three percent, outweighted them by 250 pounds at only fifteen months of age.

A COMMUNITY FUND ACTIVITY

COMMUNITY FUND HELPS ALL MANCHESTER AREA STUDENTS

The Manchester Community Fund board decided some years ago to support such school activities as the Yearbook, the band, and the Student Council. This support amounts to a total of \$600 per year. Before this policy was set, student solicitations of merchants and townspeople were frequent. To avoid this constant door-to-door barrage and at the same time to give the best possible service at the lowest cost to every student, the Community Fund makes an annual appropriation.

When you support the Community Fund you help the band, the Yearbook and school assemblies for over a thousand local youngsters.

CLOVERS ORGANIZED FOR 1961-62
If you see a dozen second, third, or fourth-grade girls trooping toward a Manchester residence, or the township library, shortly after school closes, they're probably members of Manchester's original organization known as "The Clovers".

The Clovers were organized in 1957. There are three clubs, a second-grade club led by Mrs. L. V. Kirk, a third-grade club under the direction of Mrs. Robert Masten, and a fourth-grade group under Mrs. Robert Pratt. A fourth is in process of being organized at Pleasant Lake.

These young people are engaged in handicraft projects suitable to their age groups, and are working toward eventual membership in 4-H clubs. These children are becoming skilled at projects in sewing, painting, toy-making, making home decorations and nature identifications. Any child in the second, third and fourth grades may join the Clovers by telephoning Mrs. LeRoy Knickerbocker, GA 8-8455 by the end of this week. The Clovers are supported by the Manchester Community Fund.

BOY SCOUTS ENJOY BUSY YEAR

The twenty-three members of Manchester Boy Scout Troop 26, under the leadership of Robert Armentrout and Jerry Aiken, have had a busy year.

Two Courts of Honor have been held--the first at Carr Park to advance members to second class rating, and the second at the Leo Letz farm to give first class awards to Lynn and Larry Alber and Tim Armentrout. During the summer, four overnight camps were held for the entire troop.

To help the community, Scouts have cleaned up the Athletic Field after the Fair and delivered Civil Defense material for the Washtenaw area. Seven Scouts spent a week at the Bruin Lake Huron Trails Scout Camp.

Two Scouts have attended junior leader training courses. Four Scouts attended the Order of the Arrow course at Bruin Lake.

Fourteen Scouts attended the Sierra Rendezvous at Sugar Loaf Lake in the Waterloo Recreation area this weekend. On Oct. 12th, Robert Riggs will go before the Board of Review in Ann Arbor, for the Eagle Scout Award. Manchester dollars support the work of Boy Scouts.

KEEP SOYBEAN FIELD LOSSES DOWN. Using proper harvest procedure, it's possible to cut normal harvest losses in half. Adjust the reel speed about 1 1/2 faster than your rate of travel and lower the cutter bar to about four inches from the ground whenever possible. Travel at a reasonable rate of speed - about 2 1/2 m.p.h. You can keep shatter losses down by combining white dew in still on the beans, particularly if you have drying facilities.

ADD AN ANTIMIOTIC TO LAYING MASH for a week to ten days after you move pullets into the laying house. Following this practice, you reduce young disease problems considerably during the laying period. Moving pullets from the range puts considerable stress on them for a time. Consequently they're likely to be more susceptible to disease during this period. The antibiotic will help pullets ward off disease until they become adjusted.

RAISE DAIRY CALVES AS ECONOMICALLY AS POSSIBLE. Some dairy men are reducing the cost of growing calves by substituting milk replacer for whole milk, particularly in areas where the price of fluid milk is favorable. Do a little figuring to see how much compare. Calves do just about as well on replacers as long as they're fed the proper amount. Whole milk can be substituted when the calf is about two weeks old.

FALL'S A GOOD TIME TO LIKE. Fields are usually drier now than in normally the case during the spring. Besides, putting lime on now will allow it to dissolve and improve the soil's acidity more for next year's crops than if you wait until spring. Apply according to soil tests.

MANCHESTER RECREATION PROGRAM SETS RECORD

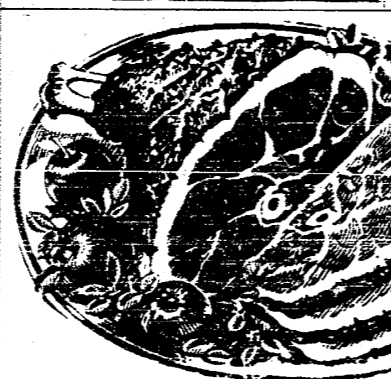

A total attendance of 4,725 Manchester children was recorded for the eight summer weeks of the local recreation program. This is by far the most children ever served by the summer program. In previous year, the swimming program has been poorly attended—this year, the average was 55 youngsters per day. In addition to the regular junior and senior playground activities of games, arts and crafts, field trips and the swimming program, a total of 130 boys took part in the baseball schedule, consisting of six Little League teams and two Junior League teams. The summer program is financed by the Community Fund and run under the supervision of the Manchester Recreation Committee, consisting of Ted Tapping, chairman, Norma Stauff, treasurer, Eugene Bentschneider, Robert Clark, Charles Mellor and Joe Fitzgerald. Personnel are hired by the committee to direct the day-to-day activities of the program. During the past four years, Curt Prediger has been the director, and the committee attributes much of the success of the program to his work. The committee is in process of determining his replacement.

A COMMUNITY FUND ACTIVITY

MANCHESTER BLOOD CLUB REPORTS

Manchester people have saved themselves \$6,800 during the past three years by providing blood for their fellow citizens. The people of Manchester have earned an outstanding record in their support of the Red Cross Cross Bank. In three years, the farmers, clerks, business men and housewives of the area have given 369 pints of blood. Of this precious plasma, 275 pints have been used for local people, and the balance is on hand for future emergencies. The Manchester blood program under the supervision of a local committee is well organized. When the Red Cross Bloodmobile is scheduled to arrive at a church local committee are ready to register donors, help nurses, provide refreshments, and make the affair run smoothly. The Red Cross, for its parts, gives without charge the services of the Bloodmobile and its technicians, the processing and storing of the blood, and its distribution when needed. Your Community Fund Dollars support this precious service.

United Fund Opens with Kick Off Dinner

Seventy-five volunteer workers for the Manchester United Community Fund and Red Cross Campaign received their materials and instructions for the 1961-62 Drive, Wednesday night, from Campaign Chairman, Clarence Fielder at the Knights of Columbus hall.

The brief program included introduction of campaign personnel and the aims of the drive by Chairman Fielder. Manchester's number one dance team "Braun and Burkhardt" demonstrated their talent show winning ability. The worth of a United Drive to the Community was pointed out by Mr. Charles H. Chaskes, of Lansing, Public relations director for the Michigan United Fund. Mrs. Louis Vogel cheered the solicitors into starting their work with gay hearts as she explained the intricacies of a Solicitor's Kit and the technique of meeting the public. Rev. Price presided at the meeting and Franklin Reck was master of ceremonies. Mrs. Glen Lehr was the Community Fund Board member in charge of program planning.

As the meeting concluded the church bells in the town welcomed the beginning of the annual campaign to raise funds for the local youth and recreational services, care of the ill, and unfortunate, disaster relief and research on disease—the humanitarian needs of the locality as well as people elsewhere.

The campaign goal set by the local Community Fund board this year is the same as last, \$8,500, for 46 agencies. This voluntary civic project has already used many hours of time and effort. The Jaycees have put up the banners on Main Street—the banners were originally given without charge to the local Fund by the Ann Arbor United Fund when they changed their campaign insignia. Mr. and Mrs. Edward Bauer readied the banners with paint and repair since their last appearance in the 1960 campaign.

This year's Industry Chairman, Eugene Bentschneider, reports the following committees from the local industry. Double A will be represented by Herbert Upton, Jr., Donald Ross, George Johnston, Mrs. Charles Steele, Mrs. James Baker and Mrs. Robert Schneider. Chrysler Proving Grounds, by E. P. Anderson and Al Simmons. Michigan Gas Storage, Carl Settle, John Navrock and William Minor. Wolverine Pipeline Company will be represented by R. L. Ayers.

Individual Chairman are Manchester Schools, T'd H. Tapping; Organizations and Clubs, Mrs. John Bunney; and Outside Business, Mrs. Ray Tibr. Village Business division chairman, Mrs. Eugene Bentschneider has Mrs. Rolland Grossman and Mrs. Ted Stautz on her team to contact the 85 businessmen in the area. Individual chairmen in the Businessmen's Division are Dan Boutell for the Union Savings Bank, Joe Fitzgerald for Schaffer Industries and Tom Marshall for Marshall-Schaible. Cont'd. on Page 2,

Remodeling at Emanuel

Last Sunday services were held in the Emanuel Evangelical and Reformed Church hall instead of the church. Volunteer help moved the pews, altar and pulpit from the church this week as work begins on a complete remodeling and refurbishing job. This is all a part of a \$125,000 to \$130,000 project now underway at Emanuel.

This includes a new educational unit between the church and church hall, which is about half completed. Contractor for the entire project is Reuben Finkbeiner of the Bridgewater Lumber Company.

The church will have a completely new sanctuary, new altar, high reredos with a hanging cross, new pews and pulpit. Church officials say that it has been at least thirty years since any extensive work has been done on the church.

The Rev. Ralph Kuether, pastor of the church, says that plans are underway to have Thanksgiving services in the church and until that time it will be necessary to have all church activities in the church hall. Sunday school is at 9:45 and worship service at 11 a.m.
