GIVE THE UNITED WAY

Fifty percent of the \$8,500 goal has been collected or pledged to the Manchester Area United Community Fund and Red Cross Drive, Clarence Fielder, campaign chairman, announced Monday, the drive is supposed to be completed one more week, --by the 30th. "For once," says Fielder, "I'd like to see us make it ON TIME. Everyone in the area knows the score. We didn't quite make it last year so, logically, it means each one will have to give a mite more or we'll have to find new givers. We've been working both angles and the campaign is rolling." **GIVE ENOUGH FOR ALL! NOW!!**

Injured in Accident

A 53 year old Manchester man lay five hours in his damaged pick-up truck Saturday before a farmer found him on a Washtenaw county road. State Police from Clinton said Alvin Kappler told them he apparently went to sleep while driving his truck north on Clinton-Manchester road about five miles north of Clinton. Troopers said the truck careened off the highway and smashed into a tree. Kappler lay in the front seat of his truck in a semi-conscious condition until a farmer passing the accident scene found him about 7 a.m. The injured man was taken to Herrick Memorial hospital and later moved to St. Joseph hospital. He has a broken right ankle, badly bruised left leg and fractured right wrist and chest injuries. His condition was reported as serious Tuesday.

Hastings Announces New Plan

A new form of Farnowner's insurance is now available through Hastings Mutual Insurance Co. agents, announced Robert Stanley, executive vice-president of the insurance firm. Don and Hugh Sutton are the local agents. For the first time, we are able to reduce insurance rates by combining virtually every insurance peril into one Farnowners package policy. Mr. Sutton said in making public the availability of this type of insurance. He further explained that reduced rates may be obtained when farmers meet certain qualifications in the care and maintenance of property, or when specific deductibilities and exclusions are agreed to by farmers and Hastings Mutual. "Since many auto insurance companies are reducing rates as an incentive reward for continued safe driving, we felt we, in the farm and home insurance business, could offer our policyholders the same cash savings for the same general reasons," Mr. Sutton said.

ROOM 19 BY ANN ESS MORROW

Halloween at school is colorful as autumn leaves. White bulletin boards go orange and black regardless of school colors. And there's a midday color cat for every little milk carton. Witches, too, are everywhere and do not always carry classbooks.

We tell the boys and girls that Halloween's the night before All Saints' Day. Then we know the evening must go on and in magic fashion, for never have I found in school a room of saints on any day.

There is in class no human bag of bones, for children thin and under-nourished are given special attention. There's always milk for boys and girls who need it, and the school nurse stands ready to recommend nutritional needs, with these provided through school and through community.

Education is not merely memory exercise; nor is it simply training boys and girls for life. Our great concern is training them for life TODAY, and in that final word there rests a world of scientific facts and current problems.

We do not ask for masquerade of feelings beyond the confines of good judgement, yet I always feel that someone tells me to take off my mask when I'm not wearing one.

Yes, I look at boys and girls whose mothers or dads I once taught, too, and see their smaller counterparts and laughing ghosts that impishly return to haunt me. But Johnny must not be too readily catalogued because I know parental ways and background. Every child must have his chance. That thought challenges like "Trick or Treat!"

Are You Employed Outside The Manchester Area?

Industrial employees from the Manchester Area are reminded again this year to designate MANCHESTER on their United or Torch Fund payroll deduction pledge cards wherever they work.

Manchester's Red Feather Drive is the local portion of a nation-wide endeavor to meet the needs of all community assisting agencies. Industrial groups are in general the most ardent supporters of "One Drive for ALL" since it is the only practical way to handle solicitations within a plant employing hundreds or thousands of people.

Industrial leaders are also aware of the needs of the many welfare, recreational and health agencies making up the United Drive. They are also aware that local needs are an important part of every United Campaign.

From where I sit... by Joe Marsh

Friendly "Enemies"

Just about my closest friend in town is old Colonel Harmon, our banker. Yet, when I was a lot younger and had just started the Clarion, I actually thought he was my enemy!

Whenever I wrote an editorial, there was sure to be an angry letter from the Colonel, taking the opposite side. Seemed pretty clear he'd just as soon I was out of business.

But in the Depression, when it looked like the Clarion would have to shut down, it was Colonel Harmon who offered the loan that kept me going. Startled, I asked him why. "Well," he growled, "just because I don't agree with a man, doesn't mean I don't value his opinion. Besides—if you'd closed up, who'd I have to argue with?"

From where I sit, one of the wonderful things about America is the way people respect each other's opinions. For example, the Colonel doesn't happen to share my preference for a glass of beer, but he understands I have a right to feel the way I do. It's tolerance like this that keeps our friendship "in business."

DOLLAR and SENSE FARMING.

HANDLE FEEDER CATTLE WITH CARE for 1 to 3 weeks after they arrive in your feedlot. This can mean a big difference in shrink and how efficiently they'll go on feed. Move newly shipped feeders to restraining pens away from other cattle to force them to rest. Watch them closely for any outbreak of shipping fever or other disease, and treat immediately. After cattle appear to be fully rested, they can be put on pasture. Stalk fields or a full feed in the feedlot.

BALANCE FIELD LOSSES WITH DRYING COSTS in deciding at what moisture you should begin harvesting corn that you plan to dry. Granted, losses are normally lowest when corn is harvested at around 30 per cent moisture. But this adds to the cost of drying corn to the safe storage level, compared with when corn is harvested after it dries a little more in the field. This will depend upon your particular costs. But normally it is within the 25 per cent to 27 per cent moisture range.

GET THE MOST FROM YOUR FEED DOLLAR. Feed cows individually according to their production ability. There may well be some cows in your herd that would do better if more concentrates were included in their ration. You're money ahead so long as the increase in milk produced by a particular cow will more than offset the extra cost of the feed. Better look over production records and see what cows appear to have a potential of more milk.

RATS CAN COST YOU MONEY. Over a year's time, one rat alone can consume, waste and damage \$20 worth of grain. Cover areas where rats may gain entrance to grain bins with screens. Place some of the many types of bait stations about the farmstead. Put about 5 to 8 ounces of bait such as warfarin in each station.

'62 CORVAIR MONZA NEW FACE, SAME SPORTING HEART

We might as well tell you straight off: Corvair's the car for the driving enthusiast. Think that lets you own? Maybe. Maybe not. Until you've driven one, you really can't say for sure, because Corvair's kind of driving is like no other in the land. The air-cooled rear engine sees to that. You swing around curves flat as you please. You whip through the sticky spots other cars should keep out of in the first place. Especially this year, now that you can get Posttraction as an extra-cost option! You stop smoothly, levelly with Corvair's beautifully balanced, bigger brakes. Corvair's found other new ways to please you this year. A forced-air heater and defroster are standard equipment on all coupes, sedans and both Monza and 700 Station Wagons. So are dual sunshades and front-door armrests and some other goodies. You'll note some new styling, inside and out. Nice. And safety-belt installation is easier, too, and cheaper. So you can see we haven't really done much to Corvair this year. Why on earth should we? If this car, just as she is, can't make a driving enthusiast out of you, better take a cab.

And here's America's only thoroughbred sports car, the '62 CORVETTE. We warn you: If you drive a Corvette after your first sampling of a Corvair, you may well end up a two-car man. And who could blame you?

AGRICULTURE in ACTION

by M. L. Woell

Under Michigan's Horton Tresspass Law, it is unlawful to hunt on private lands without the owner's permission. Failure to secure the farm owner's permission to hunt has caused more strained farmer-sportsman relations than any other cause. Here are some hunting suggestions by Dan Reed, of the Public Affairs division of the Michigan Farm Bureau: Don't gang up on the farmer. After getting permission to hunt, park your car in the farmer's yard, where it will be out of the way.

Learn the exact boundaries of the farmer's lands to prevent trespassing on adjoining property. Keep your dog under control at all times and on a leash when not actually hunting. Always close gates. If you do cause property or livestock damage, report it to the farmer and take full responsibility.

As a final admonition, Reed suggests that sportsmen thank their farm "host" after the hunt, and that they make an effort to maintain friendship throughout the year, not just during the fall hunting season.

Witches, ghosts and "trick-or-treaters" aren't the only ones who will be shattering nerves come Hallowe'en.

The mailman will be getting into the act when he delivers this year's crop of Hallowe'en studio greeting cards. "Let's rob a bank," says one spine-tingler from Rust Craft, showing a vampire. The inside caption reads: "A blood bank, that is!"

Another, with a witch cooking up a deadly potion in a cauldron says: "I had a luscious Hallowe'en gift for you... but it was condemned by the Board of Health."

If an insult, rather than a scare, seems to be more in order on Hallowe'en, then there is: "With you... it's Hallowe'en all year long!"

Or, borrowing from an old tune, there is one showing a vulture sitting on a grave stone: "I'll be seeing you... in all the old familiar places."

Golden Wedding Anniversary

Mr. and Mrs. Benjamin F. Evilsizer, Sr.

Mr. and Mrs. Benjamin F. Evilsizer, Sr., of 20546 Logan Road, Manchester, were married fifty years ago, October 31, 1911. A surprise party was held in their honor Sunday at the American Legion club here. They were married at the Presbyterian parsonage by the Rev. Edward A. Krapp. Mrs. Evilsizer is the former Josephine Murphy. For the past 31 years they have farmed in the Manchester area and prior to that time near Tecumseh. They are members of the Methodist church.

They have eight children. There are three daughters; Mrs. William (Ione) Schoolmaster of Tecumseh, Mrs. Don (Erma) Taddy of Ypsilanti and Mrs. Carl (Betty) Bristle of Bridgewater; five sons, Benjamin, Jr., James, Raymond and Faye all of Manchester and Jack of Pleasant Lake; 19 grandchildren; and seven great-grandchildren.

Mr. Evilsizer was a farmer and trucker until his retirement two years ago. He was born May 10, 1890, in Ithica, Michigan and his wife, August 4, 1894, in Tecumseh. They both enjoy good health and have spent the past two winters in Tucson, Arizona. He drove on both trips and took their house trailer with them. His eyesight is exceptional and he does not wear glasses. Mrs. Evilsizer does when she sews. She enjoys making clothes for her grandchildren, pieces quilts and does embroidery work, along with her own housework which includes canning.

Decorated anniversary cakes centered the reception table at the party and Mrs. B. Evilsizer, Jr., cut the cakes. The couple received many useful gifts. Among the guests were Mrs. Evilsizer's mother, Mrs. John G. Murphy of Tecumseh, who is 87 years old. Five generations were represented in two different groups. Included were Mrs. Murphy, her daughter, Mrs. Evilsizer, granddaughter, Mrs. Taddy and great-granddaughter, Mrs. Bill Sprague and son Jeff of Ypsilanti and also Ben Evilsizer, Jr., daughter, Mrs. Grant Smith and her daughter, Kathy of Manchester.

Guests were present from Tecumseh, Clinton, Ypsilanti, Maybee and Manchester.

GIVE THE UNITED WAY

Sixty eight percent or \$5,780 of the \$8,500 goal was reached by "deadline" time for this week's Enterprise. It was too early to have a final report from any one Division. All Divisions, however, reported only a few outstanding contacts to be made.

If you have not been solicited by a Manchester Area Community Fund and Red Cross Volunteer and you live in the Manchester school district, please contact Clarence Fielder, campaign chairman, (GA 8-4371), or Mrs. James Baker, (GA 8-9361), or Mrs. Jesse Walker, (GA 8-2656). Or if you live outside the Manchester school district but do live in southwest Washtenaw County and have not made your contribution to the Red Cross and Your Blood Bank for the year, contact Mrs. Jacob Bauer, (Clinton, GL 6-4642), or Mrs. Ernest Church, (Brooklyn, LY 2-2815), or Mr. Fielder.

Only \$2,700 to go! Be sure you have given your share!

Manchester Youth Receives Scholarship

Jack Thompson (right), president of the Ann Arbor Western Kiwanis Club, presents scholarship awards to Lavern Leach (left) and Richard Wheeler (center). The youths will use the scholarships to attend the second year of an agricultural short course at Michigan State University.

Two Washtenaw county farm youths will attend the second year of an agricultural short course at Michigan State University with scholarships provided by the Ann Arbor Western Kiwanis Club.

The scholarship winners are Lavern Leach of Manchester and Richard Wheeler of Webster. Both attended the MSU short course last year and will be completing the curriculum this year.

Leach, son of Mr. and Mrs. Maynard Leach, farms with his father on a 200-acre dairy and general farm on Sharon Hollow Road.

Wheeler, son of Mr. and Mrs. Ralph Wheeler, farms with his father on a 160-acre dairy farm on North Territorial road. They milk 40 cows.

Both youths were awarded the Kiwanis scholarships on the basis of scholarship and leadership activities while at MSU last year.

These are first such awards made in the county. There have been no scholarships available for second-year youths in the past.

County Agricultural Extension Agent W. A. Dexter says Ann Arbor Western Kiwanis is pioneering a program which can contribute much to agriculture in Washtenaw county.

Manchester School Notes

The addition to the Pleasant Lake school is nearly completed. The building includes two special education rooms, two lavatories two storage rooms and a main lobby. Eighty percent of the cost of this building, plus all of the equipment, is financed by the Washtenaw County Board of Education. The remainder of the cost will be covered by the moneys accumulated in the building and site fund from the Pleasant Lake school and the first Nellie Ackerson school. Together with the addition the Pleasant Lake school is being brought up to state fire and electrical standards. The addition is planned in such a way that it can be converted into regular class rooms when the need arises.
