America's most talked-about spreader has a new BIG BROTHER

FIRST FLAIL SPREADER
A year ago, NEW IDEA introduced the first flail spreader. Capacity: 130 bushels. Today, farmers everywhere are talking about this new kind of spreader.

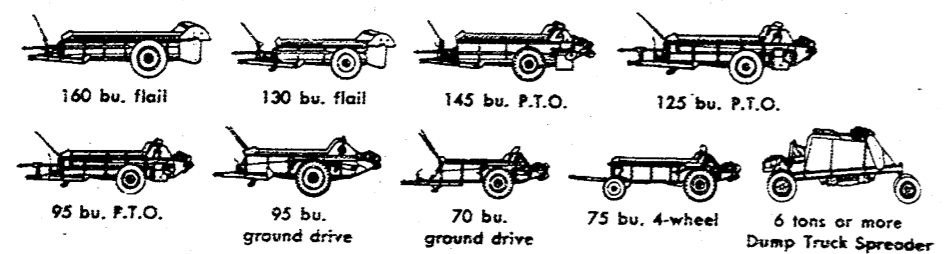

NEW IDEA NOW OFFERS A FLAIL SPREADER — 160 BUSHELS BIG!

Only NEW IDEA offers a choice of flail or paddle spreader — so only NEW IDEA can give you the type you want in the size you need.

It didn't take farmers long to make up their minds about the flail spreader, even though it is a dramatic new concept in spreading. Now the new 160-bushel model offers the ideal spreader to owners of large livestock operations and big dairy herds. Both sizes let you spread in any weather.

Size is important, too. Picking the right spreader is as important as getting the right tractor. Buy a spreader that's too big, and you're over-invested. Too small, and you spend extra hours getting the job done. To help you make the right choice, NEW IDEA offers the world's most complete line of spreaders.

NEW IDEA gives you a choice of 9 models and 2 types—the famous NEW IDEA paddle type or new flail type. So, only your NEW IDEA dealer can give you the type you want in the size you need. Visit him today. Look over his fine selection of the world's most complete line of spreaders—each backed by a full year written guarantee.

Manchester Gives Thanks to its Fund Raisers

Thanksgiving season finds Manchester a community thankful for its many blessings, its fine citizens and its community spirit. In spite of the title "The town that time forgot," that is sometimes used with the intent of belittling the community, Manchester does not forget time or people.

Ours is the first community in the Washtenaw area to go over the top in this year's drive. It also succeeded in doing so before the mass exodus of local citizens for the deer hunting season—usually this sport has interrupted the drive a week or more.

Methodist Church Scene of Ceremony

The Methodist Church in Manchester was the scene of a lovely wedding Saturday, November 18th, of Miss Mary Margaret Schiel of Manchester and Mr. Robert James Richmond of Brighton. The Rev. Ralph Kueher performed the double ring ceremony at 8:00 p.m., before an altar decorated with candelabras and an arrangement of Fuji mums, Pom Pom mums and red and white carnations. Mrs. R. C. Davidter, organist, accompanied Mr. Ralph Kueher as he sang "Wedding Prayer," and "The Lord's Prayer".

The parents of the couple are Mr. and Mrs. Floyd Schiel of Manchester and Mrs. Florence Richmond of Brighton and the late Fred Richmond.

The bride, given in marriage by her father, wore a floor length gown of white chantille lace over tafteta, with long pointed sleeves, fitted bodice and a chapel train. Her fingertip veil was of silk illusion. She carried a white Bible with a white orchid on top.

The maid of honor was Miss Donna Kuhl of Manchester and her gown was a scarlet sheath with matching overskirt. Her nose-tip veil was attached by a halo ring. She carried a cascade of white carnations with red roses.

The bridesmaids were Miss Ruth Schiel, sister of the bride, and Miss Sallie Schiel, cousin of the bride, both of Manchester. Their gowns were of the same color and style as the maid of honor. They carried cascades of red and white carnations. The gowns of the bridal party were all made by Mrs. Floyd Schiel, mother of the bride.

From where I sit... by Joe Marsh Clock Watcher Nothing in the world is more discouraging than a guest who doesn't know when to go home... especially if you have to get up as early as Chub Jackson, our local milkman. Last week, poor Chub and his missus were entertaining a distant cousin from Center City who just wouldn't call it a night. The later it got, the more he talked, and the more unhappy Chub got. But Chub finally found a way to shut him up. Just as his cousin started another long tale with, "And that reminds me of the time..." Chub jumped right up and said, "Gosh, you're right! It is getting late!" From where I sit people who have respect and consideration for other folks' feelings never outstay their welcome. One of my neighbors, for example, prefers other beverages to beer, yet when he drops over he never objects if I have a glass of beer while he enjoys his coffee. It's thoughtfulness like this that keeps friendships from "tiring out." Joe Marsh Copyright, 1961, United States Brewers Association, Inc.

Something NEW... Something DIFFERENT in your directory

Area Codes

The "something new" is a list of Area Codes in the front of your new directory.

Each Area Code consists of three numerals and identifies a particular geographical area—either part of a state or an entire state.

You can use Area Codes to help speed those Long Distance calls you make to other parts of Michigan and to other states.

When you call Long Distance, just look up—in the directory—the Area Code of the place you're calling and give it to the operator along with the telephone number. It's as simple as that.

You give the operator the Area Code only when it's different than your own Area Code. That's easy to remember.

You can help your friends—those who live in other parts of Michigan and other states—speed their calls to you by giving them your own Area Code.

MICHIGAN BELL TELEPHONE COMPANY

Seven-Numeral Numbers

The "something different" is the first appearance of new-style phone numbers. Each consists entirely of numerals—seven of them. (No alphabet letters.) They're being given to new phone customers and to people who move or need a different number for any reason.

This is necessary to meet the ever-growing demand for more phone service throughout the U.S. There just aren't enough usable easily-understood letter-numeral combinations to go around. On the other hand, there are far more all-numeral combinations available.

You'll get accustomed to the new numbers as more and more people have them. Eventually everyone will have seven-numeral numbers. You'll find, too, that they will eliminate frequent misunderstandings of letters and numerals that sound or look somewhat alike. And they'll lead to marvelous improvements in your telephone service in the future.

Heavy Eaters To Get Thanksgiving Help

It seems almost un-American not to overeat on Thanksgiving, but how can you do it and still keep your weight under control? That's a question many Americans are asking themselves as the holiday nears. Weight-watching has become serious business, particularly since national attention has been called to the health hazards of obesity by the President's physical fitness program.

Yet, Thanksgiving is unique among American holidays in that it is centered around food—an abundant meal that recreates the Pilgrim's first feast of celebration for a good harvest. The aromas of the traditional turkey dinner whet appetites and spark determinations to celebrate by doing full justice to the meal. But overeating, even if reserved for special occasions, produces unhealthy excess pounds. According to Dr. Thomas McGavack of the Veterans Administration Center at Martinsburg, W. Va., who has made a study of overweight, even the few pounds an average person puts on during holiday festivities

are detrimental to his general health. Fortunately for those of us who like to eat well on Thanksgiving Day, science has developed a way to let us enjoy the traditional dinner and still avoid adding those extra pounds. By substituting a measured-calorie dietary such as Metrecal for other meals, we can eat our holiday dinner, yet keep our total caloric intake for the holiday down to a relatively reasonable level.

The use of a scientifically-compounded dietary like Metrecal for other meals on Thanksgiving Day, or for the total diet on one or two days during the holiday week, can help compensate for the extra helpings we are prone to take at the traditional dinner, without sacrificing well-balanced nourishment. Perhaps it is un-American not to eat heartily on Thanksgiving but it's a dangerous practice to let excess weight become a life-shortening personal health problem. Moral: Eat your turkey but go easy on calories during other meals on Thanksgiving and throughout the holiday season.

From the Philippines

DEAR FRIENDS, Would you women like a new dress? Maybe you men also need some new clothes. This problem is easily solved by going to the store and choosing the ready made clothes we want. If we have a size problem this means alterations and a lot of fuss.

Here in the Philippines ready made clothes are unheard of. One of the best friends of the family is the dressmaker. When a girl wants a new party dress, she buys her material and then goes to the dressmaker. She selects her design and then waits for her new dress.

The dressmaker takes girls' measurements and then proceeds to cut. Yes, proceeds to cut. There are no patterns, just from measurements alone the dressmaker makes a beautiful garment.

The cost of this service is very reasonable and the Filipino people are dressed in the latest Western styles. The style setter is none other than our first lady-Jacqueline Kennedy. The girls all try to imitate this look and they succeed very well. Fashions and clothes are discussed almost as much as politics.

Manchester Receives New Telephone Directories

Michigan Bell Telephone Company began delivery in Manchester of its new Ann Arbor-Ypsilanti area directory—with its new look in some telephone listings—on Saturday, Nov. 18, announced Nicholas J. Prakken, manager for the company.

"In the new directories," Prakken said, "local telephone users find for the first time the new look in telephone listings called All-Number Calling (ANC). These ANC listings are explained on the back covers. A glance will show how numerals are the same as letters—for example, the numerals 4-2 are in the same finger holes as the 'GA' on your dial. While the transition will be made over a period of several years, eventually all telephone numbers will be of the ANC type," Prakken said.

"Just seven digits are dialed—no letters at all," he said. Distribution of the 67,000 directories is taking a few days to complete. When the new directory is delivered, the old one is picked up. Prakken added that the new directories might be checked to learn if friends, relatives, or business associates have the new-style numbers. "That will assure calls going through correctly and promptly," he said.

If you wish a more moist dressing, add a little warm water. Stuff hens with mixture. Fasten with wooden picks or skewers. Lace closed with string.
- Brush hens with the 1/4 cup of soft butter or margarine. Wrap each hen in single piece of aluminum foil; place in a shallow pan and roast at 425 degrees for 35 minutes. Open foil and brush hens with drippings. Roast 25 minutes longer or until hens are goldenbrown. Prepare and serve extra dressing if desired. 4 servings.
- For a delicious vegetable to serve with Rock Cornish Game Hens, here's a recipe for Creamed Onions, easily made with small whole boiled onions, available in convenient 1-pound jars.

CREAMED ONIONS

- 2 jars O & C Small Boiled Onions
 - 1/2 cup salad oil
 - 3 tablespoons flour
 - 2 cups milk
 - 1 cup shredded process cheese
 - 1/2 teaspoon salt
 - Chopped peanuts
- Blend salad oil and flour. Stir in milk and cook, stirring constantly until mixture thickens. Add cheese and stir until cheese is melted. Add salt. Add salt, pepper, onions and heat through. Pour into vegetable bowl and sprinkle with chopped peanuts. If sauce becomes too thick, add a little additional milk to make sauce of desired consistency. Note: You may keep onions hot in double boiler until ready to serve, or if you wish, pour cream sauce over at 350 degrees for 20 minutes or until bubbly and lightly browned. Be sure to sprinkle peanuts on the onions just before serving. This way they'll be crispy and crunchy.

Student Teachers Learn Methods in Classroom Experience

One of the most essential phases in preparing new teachers is now in progress for the fall semester at Western Michigan University, with more than 200 students from the School of Education being placed in Southwestern Michigan classrooms.

Dr. A. L. Sebaly, director of student teaching, states that this experience is most helpful, and permits some students to find out if they really want to teach before they actually sign a contract. As they take college classes at the same time, students have an opportunity daily to evaluate their experiences and to apply educational theories to practical situations.

Among those practice teaching are two from Manchester:

Nancy Johnston, daughter of Mr. George D. Johnston, 226 S. Washington St., is teaching English and social studies at Harper Creek High School. She was a 1956 graduate of Manchester.

Dennis Adams is teaching physical education and social studies at Comstock, Michigan. He was a 1957 graduate of Manchester.

She is survived by her daughter, Mrs. Moore, three grandchildren, one sister, Mrs. Harriet Weber of Gibraltar, Mich.

Funeral services will be held Friday at 2 p.m. at the Jenter Funeral Home. Rev. Ralph Kuehler will officiate. Burial will be in Oak Grove Cemetery.

For the fourth consecutive year there has been a Manchester senior in this internationally famous singing group. This year the Chorus will tour Europe again, instead of South America which has been the itinerary for the past two years. They will leave the States as soon after June 20th as possible for an eight weeks tour, beginning with 2 weeks in Ireland, then England and Germany. Definite plans and dates will be released early in 1962.

New Changes Party-line Telephones

Michigan Bell Telephone Company announced it will institute a change in the "reverting call" system in Manchester for a party-line subscriber to call another party on his same line.

Nicholas J. Prakken, manager here for Michigan Bell, said the new procedure, to be in effect Monday, December 4, requires a change in the code number that people on party lines use to telephone others on the same party line.

"If you've been calling someone on your party line," Prakken explained, "you will need to dial 670, then the same two numbers you've been using. For example, if you've been dialing 11-12 to reach someone on your party line, you will dial-beginning December 4-670-12."

"This change in the code number," he said, "is necessary to provide for future telephone growth here by rearranging the equipment that switches calls between telephones."

Party-line subscribers are receiving notice of the new procedure, Prakken said. It will go into effect at 8 A.M. Monday.
