Bank Director Resigns

Mr. Raynor B. Haeussler

Regional Finance Chairman

Dan J. Boutell of Manchester will serve as regional finance chairman for the 1962 Michigan Week to be observed next May 20-26.

The appointment was announced by John R. Meadows, regional chairman for Livingston, Washtenaw, Monroe and Lenawee counties.
Boutell, who resides at 507 East Main St., is executive vice president and cashier of the Union Savings Bank of Manchester. He is treasurer of the Manchester School Board, a past president of Manchester Optimist Club and a member of Emanuel Evangelical and Reformed Church.

Communion Service at Iron Creek Church

The first Communion of the New Year will be held at the 10 a.m. Worship Service at the Iron Creek Church Sunday, Jan. 14th, at which time the recently purchased communion service will be in use. The service will be conducted by the Rev. Leonard Solden.

The Board of Directors of the Union Savings Bank of Manchester announced this week that they had regretfully accepted the resignation of Raynor B. Haeussler as a Director.
Mr. Haeussler has been confined by illness to the Tecumseh hospital and later at his home for some time.

He joined the Union Savings Bank of Manchester Board of Directors in 1937. He has seen the bank grow from a \$750,000 institution employing four people to the present six million dollar bank with eleven officers and employees. During Mr. Haeussler's Bank Board terms, the bank building has expanded from the original small quarters surrounded by the Gus Breitenwischer store to its present spacious building, including the former Joe Seckinger restaurant building, and the property now includes the former Heimerdinger property which has been converted to a parking lot for building and bank employees.

Mr. Haeussler's "Main Street" affiliation started in 1904 when he graduated from University of Michigan and joined his father, George J. Haeussler, in the Drug Store. The drug store had been operated by George J. Haeussler since 1876. Raynor Haeussler continued in the operation of the drug store until February of 1952, at which time he sold his interest to Millard Uphaus who continues at the same location under the name of Uphaus Drug.

The bank's Board of Directors at their January 8th meeting adopted a resolution commending Mr. Haeussler for his many years of service to the Bank and community area.

SCHOOL CLOSED DUE TO SEVERE ICE STORMS

Severe icing conditions closed the local schools this last Friday and Monday. Some confusion took place Friday morning as local school officials could not complete a call to station W. J. R. in Detroit.

Local residents must realize that the decision to close school is not an easy one to make. If school is to be called the school will do their best to have it on the 7:00 a.m. news broadcast. Generally this decision will not be made until early on the morning of the day in question.
As of Monday, school officials definitely decided to postpone kindergarten classes Tuesday and Wednesday. At this time bus routes were being planned for Tuesday on non-hazardous roads.

Red Cross To Make Decisions

Washtenaw County's Red Cross governing board will be called upon to make some far-reaching policy decisions when it convenes Thursday, Jan. 11th, at the call of Chapter Chairman James M. Davis.

Key leaders from among the 1500-strong corps of volunteer workers in this county-wide service organization will be special guests to present background information on the current service demand problems for which solutions are being sought.

Because of the urgency of the increasing service demands which will take the Board members full attention, no program or special event is scheduled for this "working session" of the governing unit.

Representing the Manchester area on the Board of Directors of the Red Cross are: Mr. and Mrs. Frank Reck, Mrs. Louis D. Vogel, Mrs. Laurel Breitenwischer, and Mrs. Norman Randall. Local members of the County Red Cross are urged to contact their delegate to voice their suggestions.

Youth Fair To Substitute For 4-H Event

A Washtenaw county Youth Fair will be substituted for the County 4-H Club Fair held in the summer and contest entries will be open to members of clubs other than 4-H.

Administration of the County Youth Fair by a single agency, the County Farm Council, was approved yesterday by the

Board of Supervisors.

By making these changes, the annual event will qualify for up to \$1,600 in state matching funds for fair premiums or operating expenses.

The board established an appropriation of \$6,500 in the county budget for this year with which to conduct the Youth Fair.

It continued an appropriation of \$1,500 for the County 4-H Club Spring Achievement Program, which is held in Ann Arbor High School.

HERE ARE 2 OF THE NEW JET-SMOOTH CHEVROLETS

WHICH ONE IS THE CONVERTIBLE AND WHICH THE HARDTOP?

Top one's our new Impala Sport Coupe whose steel roof line is a dead ringer for the Impala Convertible's below. But after rich new styling, what? In glamor and go, comfort and craftsmanship, here's all you'd reasonably expect of an expensive car. Except the expense.

Slip inside a Jet-smooth Chevrolet, relax and just notice how good you feel. Ready for action? Just flick the key and let'er purr (your choice of two standard engines—a 135-hp 6 or 170-hp V8—or optional-at-extra-cost V8's way up to a 409-hp mile-shrinker). That gentle cradling motion you enjoy is Jet-smooth ride at work. And the rich interior and neat craftsmanship are Body by Fisher at the work. Have your dealer give you the whole story. That's the work he loves best.

Farm News
The Holstein-Friesian Association of America has announced a new lactation average for the registered Holstein herd of Thomas W. Curllon, of Clinton, has 23 completed production records averaging 14,250 lbs. of milk and 521 lbs. of butterfat.
Lactation averages are calculated on the commonly-employed two-milkings a day, 305 day, mature equivalent basis. This provides a uniform basis for comparison and selection in registered Holstein breeding programs.
Michigan State University supervised the weighing and testing of production as part of the official herd testing programs of the national Holstein organization.

Household Hints
Every day may be a holiday for some people but every holiday is Labor Day for the homemaker who has to clean-up after.
As the New Year begins, here's a clean-up calendar with emphasis on holidays but useable on any day.
January: If the New Year dawn with souvenirs of last night's celebration still around, remember that such party postscripts as grease spots, spilled food and beverages can be eased away with the aid of a little pine cleaner.
February: If any of the Valentine candy gets mashed on the floor or rug, keep in mind that pine cleaner is a magician at making sticky goodies like candy, cake and cookies disappear.
March: If the Ideas of March bring coughs and sneezes, remember to kill many of the germs with a high-percentage pine oil disinfectant.
April: The joke's on you if you still start spring house-cleaning by tearing the house apart. Assemble a small portable kit of cleaning aids and do your housecleaning a room at a time. Easier on you, easier on the house, easier on your family.
May: Mothers who long to return to the days of feeling like Queen of the May might hint for a bottle of glamorous pine bath oil.
June: Every day is Father's Day for doing man-size chores. Pine cleaner, sponge and water are dad's best friend for basement clean-up, car and white-wall tire washing, dog shampooing and patio-prettyfying.
July: Outdoor cookery for the Fourth of July? Keep a bottle of pine cleaner handy for a quick clean-up of grill and utensils used over the charcoal fire.
August: Vacation days need not turn into dog days if the whole family lends a hand at cottage clean-up or summer spruce-up. Remember that a good pine oil cleaner is a great banisher of sticky salt-water residue, tar tracked in from the beach and even "general" dirt such as mud, sand and mustard from hot dogs.
September: Make Labor Day a take-it-easy time by preparing for fall clean-up. Check on your cleaning supplies — three basic aids should be a 2-sided sponge, a sponge cloth, a triple duty pine oil cleaner-disinfectant.
October: Trick the holiday treaters out of marking up windows with soap. Smears and ghosts will vanish in a whisk with pine cleaner.
November: The turkey and trimmings will taste better if you know you can short-cut the after-dinner kitchen chores. While you're sitting at the groaning board, let your pots and pans sit in a pine cleaner solution. Then just a good rinsing — and little or no scrubbing will be needed at clean-up time.
December: Add gaiety to your own outlook of the festive holiday season by providing some little household elves to help with holiday clean-up: two shopping bags to hold wrapping paper (before and after use); extra sponges for quick mop-ups during parties and, of course, an extra bottle of pine cleaner might be a gift you can give yourself to help make the holiday season more fun and less work.

Casserole
LAMB & BROWN RICE
1 1/2 lbs. shoulder of lamb, without bones
1/2 cup flour
1/2 cup salad oil
1/2 cup uncooked brown rice
1 small onion, sliced
1 qt. water
1 tsp. L&P Worcestershire Sauce
1 tsp. salt
1/2 tsp. thyme
1/2 tsp. pepper
Cut lamb in one-inch squares and dredge with flour. Heat oil in a large skillet and brown the lamb well on all sides. Place rice in the bottom of a casserole. Cover with the meat and onion. Put water in skillet in which meat was browned. Add seasonings and any flour left over after dredging the meat. Blend well and pour over the meat in the casserole. Cover and bake in moderate-hot oven (375° F.) for 2 hours. Add a little more water, if necessary, during the baking.

Light Dessert Brightens Winter Menu

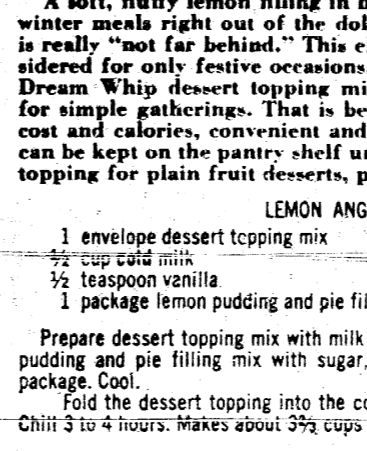

A soft, fluffy lemon filling in baked meringues will pull your mid-winter meals right out of the doldrums and remind you that Spring is really "not far behind." This elegant dessert is the kind often considered for only festive occasions, but since the base of this filling is Dream Whip dessert topping mix, you'll find it can be made often for simple gatherings. That is because dessert topping mix is low in cost and calories, convenient and easy to prepare. And best of all, it can be kept on the pantry shelf until ready to use as the perfect quick topping for plain fruit desserts, puddings or pies.

LEMON ANGEL MERINGUES

1 envelope dessert topping mix	1/2 cup sugar
1/2 cup cold milk	2 cups water
1/2 teaspoon vanilla	2 egg yolks
1 package lemon pudding and pie filling mix	6 baked meringues, cooled

Prepare dessert topping mix with milk and vanilla as directed on package. Prepare pudding and pie filling mix with sugar, water, and egg yolks as directed on the package. Cool.
Fold the dessert topping into the cooled pudding. Spoon filling into meringues. Chill 3 to 4 hours. Makes about 3 1/2 cups filling.

DOLLAR and SENSE FARMING.

PLAN YOUR CREDIT NEEDS for the season ahead and start getting your records and financial affairs in order. This will be important for getting the loans you'll need. It's especially important in securing a loan for fertilizer, insecticides or similar purchases. These items offer no collateral such as machinery. Your collateral is the faith your lender puts in you as a capable farm operator. Your records and general success as an operator are a basis for furnishing proof of this.

A HEAT EXCHANGER ATTACHED TO A BULK MILK COOLER can make use of the heat given off by the cooler. It preheats water before this enters your water heater. Result—lower cost for heating water and operating the milk cooler. A bulk cooler to which a heat exchanger is attached actually operates more efficiently. Savings you'll realize will depend upon how much milk you cool, the amount of hot water you use and the size of your compressor and heat exchange tank.

IN THE MARKET FOR NEW EQUIPMENT? If you are, you may be able to save tax dollars by selling your old equipment outright rather than trading it in on the new. This is normally the case when the value of your old equipment is worth more than its depreciated cost. Here's why. Taxes on the difference between the depreciated and sale value of your old equipment will amount to less than if you reduced the depreciation base on your new equipment with a trade-in.

DON'T CUT PREGNANT BEEF COWS SHORT ON FEED. Underfed beef cows that, they sometimes fail to come into heat after they calve. However, where feed is short, beef cows can be wintered on 75% of normally recommended rations for a season, without seriously affecting herd production.
