UNITED FUND

This year's Manchester United Community Fund and Cross Drive is running and schedule with only 4 reported to the campaign chairman, Eugene Schneider, by Oct. 23. This time last year 50% had been reported. The total of \$8,982 is almost 90 higher than last year, there will have to be an increase in the number of reports in the area as well as a slight increase in the individual gifts in order to meet the minimum quota for human needs of the area. The Clinton portion of the drive (for Red Cross Funds) has also been slow in reporting and those teams still not reported at this time. The area of the Clinton school district is included in the Manchester area. The Cross Blood Club and before have their drive Red Cross membership this time. I am confident that this drive is only temporary and will be quickly overcome," states Chairman Bentschneider, "and the drive will soon gain momentum and that this year as always, Manchester will live up to its tradition of meeting its goal."

BOOKS AT LIBRARY

The following books are loan to the Manchester branch library from the Michigan State Library as part of its Library Development program. CAVALCADE OF COLLETS, edited by Kenneth Middle-Memorabilia articles, stories, cartoons and covers from seventy years of Great American magazine. REAMINED BRIDGE by Victor Mollo-Sub-titled "point-count Bidding Without Tears" it combines a thoroughly British humor with a systematic presentation of the whys and wherefores of bidding. FIRST AID FOR YOUR INFANT and Child - by Eric Northrup- An instant reference guide that tells and shows the parent how to provide safe and effective aid in all of the major and minor emergencies that can afflict children. THE BLACK OBELISK by Rich Maria Remarque-A novel rich in comedy and compassion. A romantic story veined with ironic insight into the condition of man.

HALLOWEEN PARTY K.C. HALL

OCTOBER 27th 9:00 'TIL ? MASQUERADE (Optional) PUBLIC INVITED FREE LUNCH Judging of Costumes at 10:00 BRING YOUR FRIENDS THE COMMITTEE

Well, GEORGE ROMNEY,

what are you going to do about the mess in Lansing?

First, let me say that only the people lose from all the bickering in Lansing. All the people.

Why all the bickering? The answer is that there is no leadership in Lansing. The legislature cannot lead. No committee can lead. Only the man in the governor's chair has the authority and the responsibility to lead the state government.

But no man, regardless of his authority and responsibility, can lead unless he has developed the ability to get people thinking and acting together. He certainly cannot get cooperation by blaming the

other fellow when things go wrong and taking all the credit when things go right.

We all lose when there is no leadership. We either get lop-sided legislation which suits no one, or we get deadlock. The people can't win when we have deadlock and division in Lansing.

LEADERSHIP is necessary to get all sides working together to provide a government that can get things done for all the people of Michigan. I'd like to put my experience in leading people with diverse ideas to work for you.

Will you give me a chance to PROVE what a new team in Lansing can do?

George Romney

features the hard way!

When we came to a river we got wet. This river bed was paved with rocks the size of melons. What a test for new light- and heavy-duty suspension systems this was!

Conventional light-duty units have coiled independent front suspension - easier on truck, load and driver.

New engines, suspensions, frames and narrower front ends show their stuff on Mexico's tough Baja Run!

With months of proving-ground tests under their belts, why did new Chevrolet trucks take on the rugged Baja bah'ah Peninsula? This is the toughest line of trucks Chevrolet has ever built. Sending them over the most punishing terrain in North America - a road totally unlike the fine highways on the Mexican mainland - was double proof of this fact. Frames, engines, suspension systems were subjected to stresses far greater than trucks normally encounter. You can be sure that trucks that can handle this kind of beating can handle any kind of work.

SENIOR THEME

From time to time we will try to show you some of the outstanding work which some of our classes are doing. This week we are giving you an example of Senior English themes.

THE SEAMAN'S TALE

Four years ago I lived in a small village near the sea which had a population of not more than 400 people. The times were hard and many people were starving. I owned my own fishing ship but I did not have enough money to pay the labor to help me fish.

For a week I hunted around finding men who were out of work and would like a job fishing. The only wages I could promise them was part of the money which they got in selling the fish they caught. The men agreed to that and the next day we were off. My ship was especially designed to hunt whale and that is exactly what we did.

We were hardly out to sea for more than two days when we spotted a medium size blue whale. For a half hour we maneuvered the ship around in position to try and get a good shot. The whale was not more than 200 yards away so we aimed the harpoon and shot. We got a direct hit and the whale started to fight desperately. The men were in the small boats and out to the fighting whale in a matter of minutes. Two hours later the whale was dead. It looked like a porcupine because it had so many harpoons stuck in it. The men were happy but did not want to turn home. They were not satisfied with one whale, they had to have two.

Four days went by without seeing a thing. However, on the fifth day our luck changed. We saw a white whale that was so big it would make the water in the cove around a castle rise four feet. It was at least 100 feet long and weighed about 5 tons. The whale was not moving about much and within 5 minutes we had the harpoon sticking deep into the surface of the whale. The whale fought violently for three hours until the men thought it was safe to get in their boats and finish him off. The whale was about 3000 feet from the ship and the water all around was red from the blood.

When the men from the boats came within 2000 feet of the whale they noticed it was still and was not moving. When they were about 1000 feet from the whale they saw thousands of sharks tearing at the whale's body. In less than an hour all that was left of the whale was its skeleton.

The men never witnessed anything like this before in their lives and had to go home with just one whale and a very fantastic story to tell.

Freshman

During the past week, the Sophomores have been conducting their Freshman Initiation week.

This week during which all Freshman have to honor the Sophomores. The Sophomores have set up certain rules which the Freshman have to follow. Some of these rules are:

Say the O.R.L.D., which is Honorable Sophomore, I bow down to your supreme superiority. You are handsome and beautiful, and I am but a measly worm. I am honored to do your bidding. Now I humbly crawl away.

Carry SOPHOMORE'S books, pens, pencils, etc., when asked, during noon hour, before school, and after school, only.

No books in your lockers; carry all your books in a paper sack or a burlap sack.

Continued next column

PARASITE

In a study hall the other day five students filled their fountain pens from a bottle of ink. One of the students had brought for his own use. In a math class the few students who brought tablets had to supply the rest of the class with paper on which to work their problems. Ink, paper, pencils—day by day a number of students call on somebody else to furnish supplies they should have brought themselves.

One sheet of paper on one pen will not be a hardship on a generous lender; but when next week's sheet is loaned day after day and never returned, the cost mounts real steadily. Many students coming from poor homes find it a hardship to supply their friends with supplies in addition to themselves. Those from wealthier homes begin to resent the habitual borrower. Is it fair for a few students to supply the rest?

stinginess and thoughtlessness are causes of borrowing.

Parasites live off other plants; borrowers live off other human beings. Are you a parasite?

COME TO HOMECOMING Roosevelt vs Manchester NOVEMBER 2

FRESHMAN VIEWS ON INITIATION

Well, it's almost over. When I say "almost over" I mean, of course, Freshman Initiation time. That is, during the past week, we have been treated like we just burned down the school. No, we weren't given medals. Mostly, the initiation consisted of taking part in saying the "creed" and other fun things. During wartime, fun games like these were called "atrocities".

Now the big test comes up. Whether or not the Freshmen can pass the famous initiation dance remains to be seen. But don't be surprised if next week you read "How I Escaped Brutal Injury From The Sophomore Class."

SEE all you lowly Freshmen at the dance, respectfully yours, the MOST lowly Freshman M. "phizzy" Koda

No make-up or hair torts can be worn, no smoking of hair before or during school; girls can't carry purses.

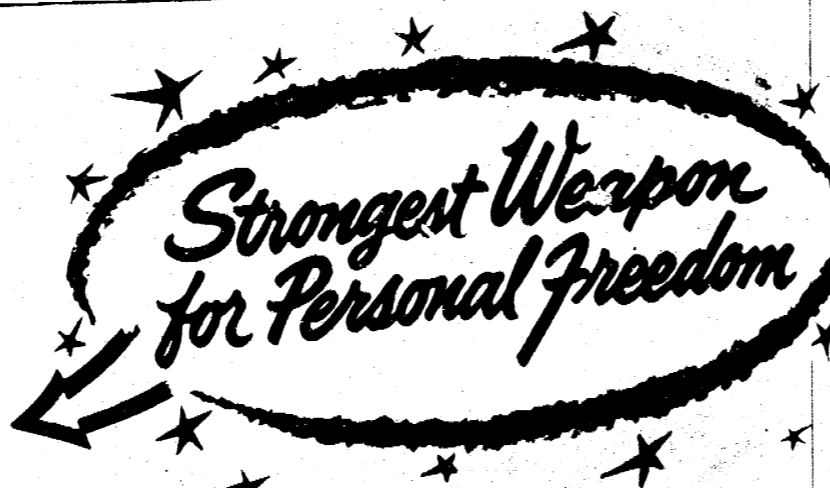

Can't go up town during noon hour, without a sophomore with you.

Rules apply from 8:00 A.M. until 1:00 P.M.

Certain odd combinations of clothes were required to be worn.

Saturday October 27, 1962 there will be a dance for the initiates.

The attire for the dance will be made out of sheets and burlap bags. They may wear vegetable soups, rubber boots, men's colored apron coats, and a nylon stocking over their head.

Fund Drive Hits 60 Per Cent

Forty per cent to finish this week! This is the aim of the 90 volunteers who are working on the Manchester Area United Community Fund and Red Cross Drive. The sixty per cent mark on the big red feather on the Davittor store was reached Monday afternoon.

Leading in the collections so far are Double A Products and the Manchester Public Schools. Double A has a payroll deduction plan for its employees for the first time this year. John Althouse, chairman, reports that pledges in to date total 90 per cent of the plant's goal, with two departments yet to hear from. He is confident Double A will exceed its goal by the end of the week.

Ted Tapping, chairman for the Manchester Public School Division, has heard from 98 per cent of the teachers and employees of the school system, with a total of \$440 collected. The student coin card collection amounts to \$125 additional with high school still to report. The Junior High School Student Council managed the unusually successful coin card drive among the student body again this year.

Campaign Chairman, Eugene Bentschneider is confident the \$8,982 goal will be reached shortly. Mr. Bentschneider is especially appreciative of the lift Double A's performance has given to the general drive.

Owners of the A & B Market, Jay and John Lantis

Groceries, groceries and more groceries! That is the word from A & B Market on East Main Street, as the owners, Jay and John Lantis list their store with IGA. IGA stands for Independent Grocers Alliance.

The local store will be serviced by the Lee and Cady Division of Detroit. In joining this international organization the local men hope to serve their customers even better. The combined selling power of this organization is second only to that of the world's largest corporate chain.

The local store will be serviced by individually-owned wholesale suppliers who operate giant modern warehouses in many cities, from which member stores procure all of their inventory requirements on a low "cost plus fee" basis.

"Every IGA retailer, regardless of the size of the store benefits from membership and whether he operates a country crossroad store doing \$5000 a week or a super market doing his \$50,000 a week he does his buying at the same low price basis as the proprietor of a giant urban supermarket," Jay said.

John and Jay are especially anxious to have their patrons know that the high grade quality meat will continue to be sold in their store. The meat is selected by trained packing plant personnel and again inspected when it arrives in Manchester. Any meat that does not meet their rigid inspection will, of course, be rejected.

The Lantis brothers have been in the grocery business a long time. Jay was in his father's Napoleon store for 13 1/2 years before coming to Manchester more than a year and a half ago. Jay graduated from Chelsea high school. He and his wife and their four children, Debra 6, Michael 5, Dawn 2 and Dianna 1 year, live on

Stoney Lake Road near Napoleon. John graduated from Napoleon high school after their parents, Agnes and Robert Lantis moved from Chelsea to open the Napoleon Grocery Store. That was how the grocery stores were named A & B, John and Jay remarked. A and B are the initials of their parents first names.

John is married and lives in Napoleon. The couple have a daughter, Dena, two years old. Most of the time John spends working with his father in the Napoleon store while Jay operates the Manchester store.

The local market size has been increased to accommodate a complete line of merchandise and now covers a total of about 5,000 square feet of floor space. There are 9 full time employees and 2 part time clerks at the store.

John and Jay say that by joining this grocery alliance they will be better able to serve the people of the Manchester area.
