New Books at Library

The following books have been acquired recently by the Manchester Township Library.

OCCUPATIONAL OUTLOOK HANDBOOK-The latest edition of this government publication gives employment information on major and minor occupations. Presents a job picture of the U.S. as a whole with references for further information. Quarterly supplements will also be received by the library.

THE BASS FISHERMAN'S BIBLE by Bauer- A gift from the author and just in time for the opening of the Bass season.

PAINTING MADE EASY, by Mills- A helpful guide for the self taught artist.

BASIC JUDAISM, by Milton Steinberg- A brief outline of Judaism for those who wish to become familiar with the basic beliefs of this ancient religion.

SCIENCE FICTION STORIES by H.G. Wells- The "Classics" of modern science fiction including "War of the Worlds" and "The Time Machine".

COMPTON'S PICTURE ENCYCLOPEDIA- A 15 volume edition with presentations graded to the interest levels of Junior and Senior High students. Each volume has its own Fact-Index for quick reference as well as the more complete coverage given each topic; and there is no alphabetical overlap between volumes.

TEENAGE HALL OF FAME, by J.A. Rhodes-Thumbnail sketches of famous people who rose to fame in their early years. Includes such notables as The Wright Brothers, Edison, Joe E. Brown, and Milton Caniff.

The Arbeiters meeting will be held Monday, June 4th at 8 p.m. at the K of C Hall.

Red Cross Feature Aqua Safety Show

The Washtenaw County Red Cross annual meeting June 7th is sure to make a big splash--as it will feature an Aqua Safety Show at the Ann Arbor High School, according to Chapter Chairman James M. Davis.

Serving on the County Red Cross Board of Directors from the Manchester area are: Mrs. Louis Vogel, Mrs. Laurel Breitenwischer, Mrs. Norman Randall, and branch chairmen Mr. and Mrs. Franklin Reck.

At 6:30 p.m. buffet style dinner is planned at the business session where one-third of the Board of Directors will be elected. The brief meeting will also feature a Salute to Volunteers, reports on the National Red Cross Convention in Seattle and on the local Red Cross Building Drive.

After the business meeting, the group will adjourn to poolside where they will view the Aqua Safety Show. Highlighting the show will be a swimming display under the supervision of Paul Clifford, a Life Saving demonstration by a team under Mrs. Leonard Walts; a special Water Ballet segment by the Ann Arbor High Aquaneers directed by Mrs. James Damm; and a diving exhibition coordinated by Dick Kimball. Gerald Greenlick, long time Red Cross Water Safety volunteer, will be the Master of Ceremony for the show.

Mrs. Richard Mann, Annual Meeting Committee Chairman, noted that the meeting is open to the public and anyone contributing a \$1.00 or more to Red Cross the United Way is entitled to vote. Helping on the committee are Mrs. Edward Baughn, Jack A. Keller, Jr., Gerald Greenlick, and Mrs. Leonard Walts.

Reservations for the dinner can be made at the Red Cross office before the June 1st deadline.

LETTERS TO THE EDITOR

To the Editor:

Women have been legally taking a firm stand playing a part in public affairs since the days of Women's Suffrage, and I'm sure most men would argue that verbally this has been the case since the beginning of time. In recent years we have only been able to "put in our 2-cents worth" as far as our local school system is concerned, and I feel that this is not enough. Since we have the right to vote we should also be entitled to representation. Schools in our area have had women serving on their boards for years with much success. We have a school-board election coming up very soon and with it an opportunity to be heard and listened to, an opportunity to vote for a woman and mother for this most important post.

Sincerely, Mrs. Robert (Yvonne) Huber

Letter to the Editor

I, as a mother, believe that out of seven members on our School Board, one should be a woman with children in school. Class visitations, consultations with faculty, and room mother and school activities obviously bring her in closer contact with children, the school and its teachers.

I have worked with Kay Roesch on various committees in the PTA and Citizen's Committee.

Through these associations, I find that she is extremely interested in the education of children in general and, particularly, in our school curriculum.

Therefore, I believe this nominee would serve as an excellent member of the School Board in the best interests of all children, parents and faculty.

Bell Announces Handset

The Michigan Bell Telephone Company announced that a new telephone handset is available for persons with impaired hearing.

The new handset, developed by the Bell Telephone Laboratories and the Western Electric Company, research and manufacturing arms of the Bell System, can be used with most types of telephones found in homes and offices.

The handset contains a volume control wheel in the underside of the handset midway between the mouthpiece and receiver. The control wheel, operated by a flick of the thumb, raises or lowers the volume of sound reaching the listener's ear.

The new amplifier handset is the latest improvement in telephony for persons with impaired hearing. Previously, a special telephone for those with impaired hearing was available. This feature was only offered in desk sets.

Now the amplifying unit, through the magic of miniaturization, is in the handset itself. The new device will work with most telephones, including the Princess set, a Call Director phone for busy secretaries and executives, and walltype phones as well as desk sets.

Almost the exact duplication of a regular telephone handset, the new device is the same size as the ordinary one. The only visible differences in the two is the small, inconspicuous volume control.

The charge for the new amplifier handset, available in an array of colors to match phones, is \$1.25 a month.

It is estimated that eight per cent of the population has a "demonstrable hearing loss." The new amplifier handset will be joined later this year by a company's product which will amplify conversation to aid those with impaired speech. Like the amplifier handset, it will be offered in matching colors.

Clarification and Revision of Feed Grain Provisions

(Questions have arisen regarding to the planting of sweet corn for silage on farms participating in the Feed Grain Program for 1962. Program regulations determine "Corn Acreage" as follows: For 1959 and 1960 any acreage of sweet corn harvested in 1959 and 1960 primarily for silage. It does not include close sown corn used for pasture or green manure, or sweet corn harvested primarily for market even though the forage is used for silage. Clarification of this statement has recently been received and states: For various reasons, some acreages of sweet corn

produced for processing, not be utilized in processors. In such cases, any acreage of sweet corn harvested for silage will still be classified as corn acreage under the program in determining compliance. This determination should be carefully studied by sweet corn producers that have filed an intention to participate in the 1962 Feed Grain Program.

There's no limit to the height a man can attain by remaining on the level.

IN PERFECT ORDER!

Perhaps you're one of those folks who take great pride in their property. You keep your house painted, screens repaired, yard neatly trimmed . . . you love your home.

But have you neglected the one thing that could rob you of everything overnight, your insurance?

If you haven't given this some attention within recent months, you would be wise to do so before another week goes by. We can help.

It happened 100 YEARS ago

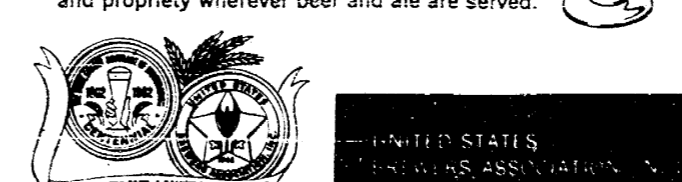

The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862 . . . the same year that

IN MICHIGAN, the new mines in the southwest corner of the state were supplying the Union with desperately needed iron ore. And, all over Michigan, beer was supplying folks with sparkling refreshment.

For then as now, beer was the traditional beverage of moderation—light, sparkling refreshment that adds a touch of hospitality to any occasion. Folks in Michigan have always enjoyed the good fellowship that goes with every glass.

TODAY, in its Centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.

Are Farm Problems Entirely Farmers' Problems?

Let's look at the facts. Farmers make up only 9% of our population yet they feed 180 million Americans. You and me. In other countries up to 90% of the population works the land; yet food shortage—even famine—is an ever present threat. Russia and Red China are only two examples. Our farmers do more than feed us, however. For example, 40% of all jobs in private industry are related to agriculture—either on the farm, supplying the farm, or processing farm products. But that's not all. "Industrial" Michigan alone produced \$740 million in farm products last year—to rank in the top 13 among farm states in the nation.

What do these facts mean? Our national and state economy, our jobs, our daily nourishment—all are inseparably tied to agriculture.

Are farm problems entirely farmers' problems? We think you'll agree that a sound and stable farm economy is important to every one of us.

Bloodmobile Coming to Manchester

Mark your calendar now for June 22, the day that you can "bank" a pint of blood for your Manchester Area Blood Club for your future use or the use of your neighbor. June is the month the Red Cross Bloodmobile will be in Manchester this year instead of August as it has been for the past three or four years.

The Emanuel Church Hall will be the headquarters for the unit this time. The hours are from 2:00 to 5:00 and 6:00 to 8:00. Donors may be between the ages of 18 and 60 and parent release slips must be brought by unmarrieds between the ages of 18 and 21.

Your club is going into the month of June, two pints in debt to the Red Cross Regional Bank. The last Bloodmobile was in August 1961 with a very small attendance.

POLLS TO BE OPEN 7:00 A. M. to 8:00 P. M.

The polls for the annual school election will be open from 7:00 A.M. to 8:00 P.M. in the high school music room. Manchester is a one precinct registered school district. Qualified voters who will be absent from the district on election day may make arrangements to cast absentee ballots by contacting Laurin Leeson, board secretary.

SCHOOLS REQUEST RENEWAL OF 4 MILLS

The Board of Education is requesting the renewal of the four mill operating tax approved this last year. The request is based upon the expectancy that State Aid is not reduced again this year and that the allocation from Jackson County will again be nine mills. The Board will again be in a position to reduce the amount of the four mills spread on property if more money than expected is pledged from some other source. Last year the voters approved four mills and 3.75 was spread as the allocation was one quarter mill more than expected. The four mills is expected to support the same educational program provided in Manchester this past year. Maintenance and capital outlay will be drastically cut to provide the extra monies needed for instructional costs.

MR. BOUTELL PAINTS ROSY DEBT PICTURE

When compared to state averages the Manchester Public School Debt hits a new low according to school district treasurer, Dan Boutell. A summary of his report indicates the following information on outstanding debts:

Pleasant Lake School

Outstanding obligations of 20,000.00 which will be collected in the next two years with a tax levy of less than one mill.

High School

Outstanding obligations of 181,000.00 which will be collected in the next five years with a levy of less than three mills annually.

Nettie Ackerson School

Outstanding obligations of 200,000.00 which will be collected in the next nine years with a levy of less than two mills annually.

The total debt is approximately 400,000.00 which is 2.3% of the equalized valuation. This is approximately seventy five dollars per capita debt. A person only has to compare this picture with that of other districts to see the pleasant position occupied by Manchester residents as they look forward to their future tax bills. The position is further enhanced by the future needs as predicted by the Bureau of School Services. They predict a minimum growth in the foreseeable future with only a need for one or two classrooms as the enrollment necessitates. There is a recommendation from this years report and Citizen Committee Meetings to raise some minimum amounts in the near future to remodel our Junior High School facilities and better equip the libraries. Mr. Boutell has further reported that the addition to the Pl. Lake School is fully paid for by the release of County funds of \$45,000. and the using of approximately 10,000. of building and site reserves.

MANCHESTER SCHOOLS TO STRESS CURRICULUM

Manchester's school system is in the fortunate position of having well equipped buildings large enough to satisfy the needs of the present enrollment with something to spare. Therefore, in the opinion of Luther Klager, head of the school board, the emphasis during the next few years will be in providing the kind of teaching that will fit students for the modern scientific age.

Manchester's physical plant is in excellent shape. Recent repairs to the old high school building have improved both lighting and ventilation. State inspectors have given high ratings to the electrical system and the boilers and the general safety of the buildings, with the result that the state insurance commission has reduced rates by thirty per cent. The Health Department has given their okay to the school busses.

"It is important to have our plant in good condition," says Klager, "and we're happy to have these fine reports from the state. But the fact remains that a school is no better than the quality of its instruction, and with us that means that we must give serious thought to our curriculum and our teaching methods and materials. Modern technology, the complex competitive world we live in demands that our high school students be well trained."

The school board took steps to insure the quality of its instruction last year, when it asked the Bureau of School Services of the University of Michigan to inspect the school, then appointed a local committee of fourteen citizens, teachers and board members to work with the Bureau.

The Bureau made seven visits to the school in company with the committee and as a result of this series of inspections, a set of recommendations was drawn up. These recommendations suggested certain changes in courses, the trying of new teaching aids, the amplification of school library services, and similar improvements.

"Our job now," says Klager, "is to match our fine buildings with equally fine teaching. We have the blueprint and we have our committee. We also have our public, which has consistently supported our school system. Given these advantages, I see no reason why we shouldn't be able to give our students the kind of education they are certainly going to need, and to face the modern world with confidence."

SUMMER MUSIC PROGRAM PLANNED

The Manchester School Board will again sponsor a summer instrumental program for students of the district. The tuition charge for this program will be the usual three dollars per student. This will be primarily group instruction with specific help for individuals that indicate the need. This program will begin Tuesday, June 12th, in the high school music room. Classes will meet Monday through Thursday in the A. M. and Monday and Wednesday P. M. There will be for the first time this year a two week break during the middle of the program. The weeks scheduled are June 12th through July 7th and July 24th through August 18th. There will be a combination Saline-Manchester Concert Band for older music students scheduled the same as last year. All students that have indicated an interest in participating will receive a schedule of music classes prior to June 12th.

NEXT YEARS TEACHERS

Employment of teachers for next year is now in full swing. There are ten positions throughout the system to be filled. These teaching vacancies are equally spread throughout the elementary and secondary schools. This turnover is about the same as averaged during the past years. Manchester continues to be a training ground for larger systems. Several key men have found it possible to move into administrative positions recently and more of this is predicted for the future. Having people of this calibre on the staff is good for children even though they are missed when they advance in the educational profession.

Teachers returning are as follows:

Pleasant Lake

Mrs. Gladys Feldkamp, 1st grade
Mrs. Margaret Dresselhouse, 2nd gr.
Mrs. Grace Grostic, Kindergarten
Mrs. Theodora Groeb, Int. A Room
Miss Pat Glaza, El. A Room
There are two vacancies in 3rd, 4th and 5th grades.

Mr. Ira Jump, Vocational Agriculture
Mr. Philip Mains, Counselor and Social Studies.
Mrs. Philip Mains, German & English
Mrs. Keith Doelker, Home Economics
Mrs. James Jordan, English
At the present time there are four vacancies in the high school staff yet to be filled.

PRINCIPALS AND SUPERVISORS UNCHANGED FOR COMING YEAR

Chester Koceski has been issued a three year contract for the next school years as High School Principal. Ted Tapping will continue as Supervising Principal of the Junior High School, the Nettie Ackerson Elementary School and the Pleasant Lake Elementary School.

Teaching Principals, Gladys Feldkamp and Celestia Ingraham will continue to take care of routine matters in the Pleasant Lake School and the Junior High School respectively. They both will have regular teaching assignments along with their administrative duties.

LOCAL TEACHER RECEIVES EDUCATIONAL GRANT

Mr. Marvin Camburn, math teacher at the Manchester High School, has received a National Science Foundation Scholarship from the Federal Government.

Mr. Camburn will attend Montana State University at Missoula and will be engaged in the study of higher mathematics. At the end of four years he will be granted a Masters Degree in this field. The Grant provides for all educational expenses and living expenses for the Camburn family.

Mr. Camburn, his wife Joyce and son Eric will leave for Montana this next week. Classes will begin June 11th and will end August 17th. Mr. Camburn is a graduate of Albion College and has done graduate work at the University of Michigan in mathematics. He taught one year at Roscommon before coming to Manchester. He and his family will return to Manchester at the end of the summer. He will teach higher mathematics at the local high school and will also be Director of Athletics and coach baseball.

Mr. Ted Tapping, Supervising Principal of the three buildings housing kindergarten through eighth grade, will be a key figure as the citizens and staff members study the curriculum of our schools. Much work will be done in the areas of Science, Arithmetic, Social Studies and English.

NEW PARENT CONFERENCE SCHEDULE

Supervising Principal, Ted Tapping, has announced that parent conferences will be scheduled for all parents of children in grades Kdg. thru sixth grade next year. This will be a rotating schedule with one grade scheduled for each day. Mr. Tapping reports that the board favors this type of reporting and that there will be more parent-teacher visits during the following years. He states that the parent-teacher conference will not replace the report card but will supplement the information received by the parent about his individual child. The school is looking into the possibility of such conferences for higher grades. The scheduling of such conferences poses a problem as each child has several teachers and the teachers are teaching in more than one grade classification.

OUR SENIOR TRIP by Pat Burkhardt

The trip originated on May 18th from the High School. We took a school bus to Toledo and boarded a train. The trip was a rough but enjoyable one, especially for those who had never been on a train.

In Washington, we boarded our air-conditioned bus and met our driver "Dick" who was to acquaint us with Washington.

Our first tour was of the Capitol and then on to our hotel. Everyone was excited about the hotel and the rooms. We ate at Schoil's and everyone thought the food was grand. After a free afternoon, we toured the city by night. The most thrilling point was the Lincoln Memorial which gave chills to everyone upon entering. We then visited the Jefferson Memorial, the Washington Monument and the Wax Museum, with its startling life like figures.

The next day we visited the Shrine of the Immaculate Conception, the Zoo and the Warner Theatre. Our Teen Tours Guide, "Dave" was wonderful and very helpful to all of us.

Other points of interest were the Archives Building, Supreme Court, Congressional Library and the Smithsonian Institute. We rode through Arlington Cemetery and were thrilled at the changing of the Guards and the story of the Unknown Soldier. Mt. Vernon was a good example of how the pioneers of our country lived. A short tour of the White House was taken and afterward we saw the President and First Lady in a parade honoring foreign dignitaries. Everyone was impressed to be able to view these great persons.

The F.B.I. Building, Bureau of Printing and Engraving and the Washington National Cathedral were all interesting tours. The Russian Embassy was also toured by some of the class members. A boat trip up the Potomac and a visit to the Casino Royal were other events which kept us busy at night. Many were thrilled at being able to attend a night club.

The real reward of the trip was "Dick" our bus driver, telling us of his plans to have a flag, which had been flown over the Capitol, sent to our school. This, he explained, was a reward for our excellent conduct, while visiting Washington.

The trip was very successful and we gained much knowledge in seeing the famous sights which we have been learning about during past years.

NEW BUSES PURCHASED FOR LESS

Two new school busses were recently purchased from Trib Chevrolet for the total delivery price of 5,740.00 each. These busses will be Blue Bird bodies mounted on Chevrolet chassis. Mr. Clarence Fielder, board transportation chairman, reported that this figure is well below the average paid for busses. In comparing prior purchases in Manchester the price was the lowest yet recorded. An investigation indicated the following:

1956 price 6,700.00

1957 price 7,100.00

1960 price 6,800.00

1961 price 6,200.00

1962 price 5,740.00

Mr. Fielder pointed out two other items of interest, one being that the specifications have not been reduced, but rather improved. It was also pointed out that by accepting a bid seventeen dollars above low bid it made it possible to secure busses with more power and larger clutches than specified in minimum specifications.

P. T. A. OFFICERS INSTALLED

The May P. T. A. Meetings in both Manchester and Pleasant Lake were the scenes of installation of officers for the coming year.

Mrs. Leon Heimerdinger was installed as President of the Pleasant Lake P. T. A. She will replace Paul Boehler who has been President of the Association for the past two years. Mr. Paul Kappler was elected President of the Manchester P. T. A. He replaces Mr. Wendell Reinhart who has been President this last year. (A picture of Mr. Reinhart was not available).

Obituary

Mrs. Hester Ann Bowers, 83, died Saturday morning at Thom Hospital in Hudson after a few days illness, although she had been in poor health for several years. Mrs. Bowers, a practical nurse in the Hudson vicinity for many years, was born at VanWert, Ohio August 28, 1878, the eldest child of ten born to Darius and Susan Alice (Hoghe) Cooper. She was married March 16, 1904 to William Henry Bowers and lived at VanWert until coming to Hudson about fifty years ago. Mr. Bowers preceded her in death March 16, 1926, on their twenty second wedding anniversary. She was a member of the South Pittsford Union Church and of the W.S.C.S. there.

Cut Elm Trees
Foresters
Advise

It may pay Michigan woodlot
owners to gradually speed up
harvest and sale of elm trees
before dutch elm disease
strikes and causes further
damage.
That's the opinion of Michi-
gan State University Extension
forester Lester Bell and forest
products specialist Richard
Jorgensen.
"Elm represents the second
largest timber supply in south-
ern Michigan," Bell states.
"The approximately 4.9 million
cords of elm growing stock rank
it second only to oak.
"Often considered of little
use, the elm timber has an im-
portant place in the paper,
veneer and furniture industries,"
adds Jorgensen. "It's also
ideal for an important Michigan
industry-producing pallets and
skids for materials handling in
factories and warehouses."

Jorgensen and Bell note that
elm virtually disappeared as a
timber product in several east-
ern states after dutch elm in-
vasions. However, they cau-
tion that a "crash" harvesting
program might depress prices
unduly.

MSU forest pathologist Forrest
rest Strong emphasizes that
dutch elm is also taking an in-
creasing toll in commercial
forests. Spraying with chemi-
cals is practical on elm shade
trees. But in woodlots, cutting
and burning infected trees is
still the only answer.

Back Yard Barbecue

Now that summer is here, the favorite place to eat is out
doors, so why not cook outside, too? Chicken is a "natural" for a
barbecue, especially when marinated in this lemon sauce. Make
up the sauce in advance, marinate the chicken, then relax while
someone else sees to the cooking of the corn on the cob and the
chicken—it can't be basted too much!

Barbecued Chicken
Rinse and thoroughly dry three broiler-fryer chickens. Pre-
pare Lemon Barbecue Sauce, and pour over the chickens. Cover
and place in refrigerator for at least 1 hour, preferably longer,
basting occasionally with sauce, and turning chicken.
Place the chickens on the spit, and cook until tender, basting
frequently with the lemon sauce. This should take from 1 1/2 to
2 hours. Serve with hot rolls and roasted corn on the cob.

Lemon Barbecue Sauce
1/2 cup Mazola corn oil 1/4 teaspoon pepper
1/2 cup lemon juice 2 tablespoons brown sugar
1/2 cup water 1/2 teaspoon paprika
1 1/4 teaspoons salt 1 tablespoon chopped onion

Combine all ingredients in a heavy saucepan. Heat to boiling
point, then simmer for about 1/4 hour to blend flavors. Mix thor-
oughly before each basting.

Dill Veal Balls

Whichever way you eat them—in a bun or with a fork
come a flavor favorite.
Teenagers love these light and tender meatballs with their
crimson tomato sauce served in frankfurter or submarine buns.
No extra relish is needed, for the meatballs are seasoned with
chopped dill pickle and grated Parmesan cheese; and the sauce
is rich with the flavor of tomato touched with parsley, oregano
and garlic. Base of the sauce is condensed tomato soup, so it is
easy to prepare.

The same recipe can be used with ground beef or lamb;
however, we're partial to veal because of the delicate flavor
and texture.

Dill Veal Balls
1 pound ground veal
1 can (10 1/2 ounces) Heinz
Condensed Tomato Soup,
undiluted
1/2 cup water
1/4 cup chopped Heinz
Genuine or Processed
Dill Pickles
3 tablespoons grated
Parmesan cheese
1 egg, slightly beaten
1/2 teaspoon salt
Dash pepper
2 tablespoons shortening
Combine first 6 ingredients; shape into 1 inch balls; brown in
shortening in skillet. Add soup and next 4 ingredients; cover;
simmer 25-30 minutes. Serve with sauce in buns using about 6
meat balls on submarine buns and 4 on frankfurter buns. Makes
4-6 servings.

Michigan to Participate in World's Fair

Michigan will take center stage at the Seattle World's Fair Tuesday, June 19, it was announced by Fred A. Kaiser, chairman of Governor John B. Swainson's Committee for Michigan Participation in Seattle World's Fair. The day will point up Michigan's industrial strength, recreational advantages, labor skills, and opportunities for pleasant living. Thirty nations are participating in the fair designated by the Bureau of International Expositions as the approved American World Fair of the 1960s. The United States Government has appropriated an unprecedented nine million dollars to help dramatize recent American scientific achievements and Man-in-the-Space-Age goals. More than 70 American companies, some of them Michigan-based, are exhibiting items at the fair that they will be merchandising in the year 2000. Advertising in Seattle will help draw public attention to past and potential contributions of Michigan business and industry. The ads are being paid for through voluntary contributions of Michigan firms. Governor Swainson will visit the fair on Michigan Day accompanied by a delegation of Michigan dignitaries. They will participate in the raising of the Michigan State flag at the fair's Plaza of States and the unveiling of Michigan's plaque on the fair grounds. The Governor and his party will attend the luncheon guests of Seattle Mayor G.S. Clinton. That afternoon, they will attend a program saluting Michigan. A reception and dinner by Washington's Governor Albert Rosellini for Michigan's honored guests will conclude Michigan Day at the Seattle World's Fair.

County Bar BeQue

Washtenaw County Farm Council purchased their chicken by the tons for their annual BBQ June 17, according to Mrs. Ralph McCalla of Chelsea, Supplies Chairman. It will require three fourths of a ton of cabbage and 21 gallons of dressing to prepare the cold slaw. 334 dozen rolls, 80 pounds of potato chips, 50 pounds of coffee, 3,000 1/2 pints of milk and 30 quarts of coffee cream will make out the balance of the dinner. It will require 110 pounds of butter to baste the chicken as they are cooking. Mrs. Leonard Burmeister of Ann Arbor, Barbecuing Chairman, states pure butter brings out the best flavor in charcoal broiled chicken. Farm Council plans the BBQ for Father's Day so the family can enjoy the day eating out. Farm Council will also provide take-out service.

ATTENTION Little League Farm teams. All boys who have signed on the Little League Farm teams are to meet at the Athletic Field Monday, June 11, 6:00 p.m.

Clark Lake Players Open

Billed as a "musical revue for non-singer," "A Thurber Carnival" is a series of skits collected from the most uproarious writing of the great humorist, James Thurber, who assembled his own material for stage presentation. The music by Don Elliott is written for a jazz combo and forms the background and continuity. Returning for the seventh year as director of the Players is William McAnallen. Technical director is Bob Armstrong, assisted by Bob Tolan. Box office manager is Sally Haynes.

"A Thurber Carnival" opens Thursday, June 7 at the Clark Lake Playhouse, on the north shore of Clark Lake, near Jackson. The play will continue through Friday and Saturday and will also be presented on Thursday, Friday and Saturday of June 14, 15, 16 and 21, 22, 23. Curtain time is 8:30 p.m. and reservations may be made by calling the box office, Lakeside 9-9141, during the hours of 4-8:00 p.m. daily except Sunday.

The cast of five men and five women will be seen in such hilarious skits as "The Macbeth Murder Mystery," three of the famous Thurber Fables, the familiar "Secret Life of Walter Mitty," and many others. Members of the cast are William Sneden, Richard Cheatham, Bill Sanford, Jim Adams, J.D. Whaley, Carolyn Russell, Bertha Vellelunga, Claudia Cairns, Betty Berry and Virginia Murray. Future plays scheduled are "Under the Yum Yum Tree," "Send Me No Flowers," "Marriage-Go-Round," "The Third Best Sport," and "Annie Get Your Gun."

Open House

Mr. and Mrs. Paul Feldkamp will be guests of honor at an open house in celebration of their 40th wedding anniversary. It will be held on Sunday, June 10th at Emanuel's Church hall from 3:00 to 5:00 p.m. Hosting the affair will be their children: Mr. Lauren Feldkamp of Upper Saddle River, New Jersey, Mrs. Alex McKeen of Dearborn and Mrs. Norman Fielder of Manchester. Friends are cordially invited.

Rose Garden

The rose garden of Chester Keizer, 202 Wilkinson St., Chelsea, will be open to the public starting June 10. We extend an invitation to the residence of Manchester. It is open any day or any time. There are 11 rose trees, 143 varieties, and 175 roses in all.

Blood Bank

Your Blood Bank is a community project, it is your project. It is the one way that everyone in the area can be helpful to a neighbor needing assistance. All a person in the Manchester area needs to do to get blood replaced at the hospital is for that person or a member of his family to call on one of the four members of the releasing committee and make the request. (Committee: Mrs. Franklin Reck, Mrs. Rolland Huber and Mrs. Stanton Roesch.)

Once a year everyone has the opportunity of helping the Blood Bank build up its account so that it can serve the area. No one ever expects to need blood, but the amount that is used in this area each year is between 100 and 150 pints.

Your Blood Club is in debt now to the Regional Bank for two units of blood and any more that the area may need between now and June 22. This is part of the customary Red Cross service--to carry the Blood Club's debts until the Bloodmobile visit can reactivate the account.

A donor, an individual between the ages of 18 and 60, may give five times a year--approximately every eight weeks. Some people are unable to give blood, but they can assist with the program through publicity, pre-registration for the Bloodmobile or at the clinic and be helpful in many ways to their club.

Manchester's Bloodmobile visit June 22, 1962, is your most important date for the summer. CUB SCOUTS. Final Pack meeting 2 p.m. June 9, Carr Park; bring kites, balloons with self addressed postcards; box lunch and baseball bats.

The distinctive name planter that now stands in front of the Manchester High School was a project which was undertaken by the whole Class of 62. Tom McNutt was one

of the students who was instrumental in starting the project and with others it began. Marilyn Huber's idea was accepted and from there the Hotzel Sign Company, was able to design the planter. After the design, George Grossman did the masonry work. The class of 1962 expresses their appreciation to all the people of Manchester who helped with the project. It was only through their help, friendship and cooperation that the name planter became a reality.
