CRASH DIET? don't try it!

Food fads can be harmful. Why? Because each of the four basic food groups . . . (1) fruits and vegetables, (2) breads and cereals, (3) meat, (4) milk . . . provides you with certain nutrients the others lack. If you eliminate one food group from your diet, you may rob your body of some essential nutrients. A balanced diet, after all, is the first rule of good nutrition. And what you eat affects your weight far less than how much. So, if you must watch your weight, cut down on the quantity, not the quality of your meals. And remember: you never outgrow your need for the 86 essential nutrients in milk—fresh milk.

CHICKEN BROIL SET FOR NEXT THURS.

Manchester's annual chicken broil, now famous throughout the Midwest, will be held next Thursday, July 19, on the high school athletic field, beginning about four o'clock and continuing until everyone is served. The town is ready to serve 5500 dinners, and if last year is any indication, the affair will be a sell-out.

Officials sponsoring are the Optimist Club and the Jaycees, but so many non-members loyally help out on the big day, that the chicken broil can be truly called an all-community event. Proceeds this year will—as always—go to youth activities for the Manchester area. The specific projects, this year, are bleachers at Carr Park for Little Leaguers, and on the Athletic Field, for summer softball and school athletic contests.

The fame of Manchester's Chicken Broil has spread to a half dozen states because it is well planned and well executed. Months before the big day, committees are appointed to plan the event. Large-size Michigan chickens, more plump and flavorful than the most southern broilers, are ordered. Arrangements are made for other food supplies, for dinnerware, for the ton of charcoal required to heat the three long pits.

Many outside agencies come to the aid of the Manchester team of 175 men. Howard Zindell of the Michigan State Poultry Department acts as supervisor of the cooking, which is done on equipment designed by Michigan State. The Sheriff's Department under George A. Peterson at Ann Arbor provides a special patrol to facilitate traffic. The Ford Motor Company delivers enough extra chairs to assure a seating capacity of 2,000 people. Softball and Little League officials arrange special games.

On the big day, gas station proprietors, store owners, farmers drop their plows and turn over their establishments to someone else, and go to work on the

athletic field, setting up the pits, pre-heating the charcoal, putting up tables and chairs. Early in the afternoon, hosts, chefs, cashiers, servers, and take-out men and a half dozen other staffs go into action.

Many visitors come early just to watch the phenomenon of fifty chefs in white hats, tending to 1800 chicken halves on 150 feet of charcoal pits. They are fascinated by the sight of the old-fashioned Dutch cabbage slicers turning a ton of cabbage into delicious slaw. This year, they will see the seven-foot Paul Bunyon skillet, used to deep-fat fry a few hundred chickens, just for variety, plus a display of backyard barbecue equipment.

A special treat is in store for visitors in the Oakland County Police work display. This is a large light trailer into which is built a panorama of highways, lakes and rivers. It is animated with small figures showing police at work controlling traffic, making arrests, caring for ambulance cases, and even skin diving for bodies. This popular display is in great demand throughout the state.

In addition, there will be a Little League game in the afternoon, and a softball game under the lights in the evening.

Prices for the dinner remain the same as always: \$1.50 for adults and \$1.00 for children. Tickets may be obtained in advance from any Optimist or Jaycee, from the bank, from most Manchester stores, or they may be bought at the gate.

In all, 175 people organized into 21 committees will run the show under the general direction of Luther Klager, Rollie Grossman, Dan Boutell and Jim Cannon. The committees and their chairmen are listed:

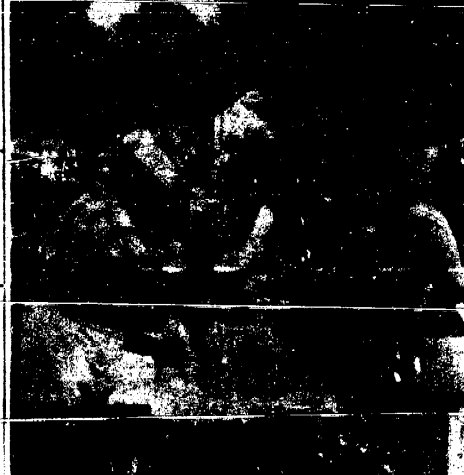

Cashiers and ticket takers, Ed Kirk. Serving tables, Willard Mann and Geo. Johnston. Chicken to serving table, Ed Galloway, Junior Jacob. Chicken hot storage, Russ Smith, Larry England. Equipment and dessert, Junior Class. General supplies, Charlie Eisenhauer. Tickets, Dan Boutell.

Publicity, Frank Reck. Chicken take out, Tom Walton and Ron McNally. Hosts, Herm Kuebler and Tom Marshall. Trouble Shooters, Dan Boutell. Potato Chips and Cabbage, Tom Walton. Ice cream, Harry Johnson and Paul Guehrer. Electricity and Fans, Chick Kirk and Basil McGuire.

Chicken on Grids, Earl Mann. Salad, Lyle Widmayer and Keith Doelker. Special Equipment, Howard Zindell. Soft drinks, Coffee, Milk, Clarence Fielder and Ray Tibr. Audio Equipment, Robert Masten. Coffee Makers, Ronnie Jenter and Harry Johnson. Charcoal Pit Rollie Grossman, chairman, and pit foremen, Don Sutton, Bob Welch and Clarence Schaible.

Twenty-two chicken halves turned at one time—slow broiling—butter basted and turned at the right time for more juicy chicken.

Completing the delicious meal serving of coffee, milk and ice cream by the junior class.

original famous charcoal chicken broil

How it Grew

Manchester's first Charcoal Chicken was held on Thursday, July 26, 1954, sponsored by the Exchange Club under the general direction—then, as now—of Luther Klager.

Nobody knew, then, how well the event would draw, but the club was inspired by success achieved in Indiana at large chicken broils supervised by Howard Zindell of the Michigan State Poultry Department. Zindell and his associates had developed the method of slow-broiling chicken halves over a low charcoal heat, brushing the meat now and then with butter, and lightly salting. The objective was to cook the chicken to a turn but never burn or blister the skin. Special turning equipment was designed by the men.

The first Manchester broil, put on with Zindell's help, was a great success. An astounding 2,000 guests were served—almost twice the population of the town—and a nice profit was made to help pay for the athletic field fence.

Happy people—taking dinners to the seating area on the tennis courts—where 2000 people can be seated at one time.

By 1955 Manchester's service club had changed its name to Civic club and the Jaycees had come in as co-sponsors. This time, publicity was stepped up, and 2800 were served.

Each year the fame of the event spread and the crowds increased: 1956, 3000; 1957, 3500; 1958, for the first time over 4,000, then by slow increases to 5,000-plus, which for the past two years has remained the same. The 5000-5500 figure seems to represent a capacity crowd for the event.

Money earned by the chicken broil averages around \$2,000, all of which is devoted to serving the recreational needs of the young people of the community. Profits from the broil have improved the athletic field, provided equipment for the township library, and helped build a handsome shelter for Carr Park. Profits for the coming Broil will be devoted primarily to building bleachers, both at the Little League diamond at Carr Park, and at the athletic field.

Marriage Unites Couple

The Immanuel Lutheran Church of Jackson was the scene of the June wedding of Marlis Brigitte H. Rughtz, daughter of Mr. and Mrs. Wilhelm Karl Rughtz of Jackson and John Norman Cargo of Elmhurst, Illinois, son of Mr. and Mrs. Francis Cargo of Jackson.

The Rev. J. William Wahl performed the marriage. Miss Regina Rughtz, sister of the bride, was the maid of honor and the bride maids were Donaline Hayes and Mrs. John Arft. A bouquet of white feathered carnations on a white leather Bible complemented the silk organza gown styled with a chapel train and seed pearl trim at the scoop neckline worn by the bride. Her fingertip veil of silk illusion was attached to a crown of crystals and rhinestones.

The duties of the best man were performed by Dr. Gerald Cargo, brother of the bridegroom, and the ushers were the bridesgroom's cousins, James and Donald Kirby. The bride is a graduate of Jackson high and Foote Memorial School of Nursing. Mr. Cargo graduated from Manchester high school at the time his parents owned and operated the Higgin's Orchard and lived in Manchester.

He served in the Marines before entering Michigan State University. Since his graduation from the University in Business Administration, he has been employed by the Campbell Soup Co. in Chicago.

The newlyweds will make their home at Elmhurst after July 6.

The Board named the Union Savings Bank depository for the school year.

Don Sutton was named as agent of record for insurance purposes. The regular monthly meetings were set the second Monday of each month at 8:00 p.m. in the Superintendents Office.

Other items of discussion were the final budget for the 62-63 year. Expenses totaled four hundred and nineteen thousand dollars. The anticipated income is four hundred and twenty thousand.

The board decided to take sealed bids on the two rural schools at their September meeting.

Attic Rooms Need

Families planning to remodel an attic will be happier with the new space if they install sufficient insulation and a room air conditioner to guard against excessive summer heat and humidity. Batts or blankets of mineral wool can be installed easily by the home owner and do double-duty by helping to keep the attic warmer in winter.

Recreation News

The Senior Recreation Play-ground took their second trip of the season to Bob-Lo Island on July 12. A total of 118 children and 11 adults left the Athletic Field at 7:45 a.m. for the Bob-Lo docks in Detroit. The boat left for the island at 10 a.m. During the 1 1/2 hour trip, dancing and sightseeing was enjoyed aboard the boat. At the island, the children enjoyed the many rides which the amusement park offers. The group boarded the boat at 1 p.m. for the return trip to Detroit. The group arrived back in Manchester at 4:30 p.m., tired but happy.

Next week starting Monday, July 23, the Senior Recreation Group will be having Bicycle Safety Week. We encourage all parents to have their children attend. A bicycle rodeo will be enjoyed. Ending the week will be an extensive safety program.

Retires After 50 Years

Pictured here with Mr. Kuebler are: Lewis Kemner, Therman Green, Russell Green and Leon Green in the shop on East Main.

Herman Kuebler has completed more than fifty years in the plumbing and heating business. When he retires this month the name of Kuebler's Plumbing and Heating goes with him.

The business was started by Herman's father, Louis A. Kuebler who came here from Germany where he learned the trade. He was known to the people in the area as "Tinner" Kuebler.

Herman went to work for his father in 1910. Their first store was in the building now occupied by the L.V. Kirk Electric. They moved to the present location at 211 E. Main St. in 1910.

The type of work done in the early days of the business and today differ completely. When the Kueblers first started one of their principal occupations was the making of milk pails and milk pans by hand. Mr. Kuebler learned the work in Germany.

There was a big demand for flat metal porch roofs. Mr. Kuebler and his father put the metal roofs on most of the business houses in town. Much of their time in the early days was used in making stove pipes because it wasn't until about 1908 that furnaces became very popular in Manchester.

When the village put in city water in 1912 the demand to cope with this new type of enterprise caused Mr. Kuebler to hire a plumber from Detroit to help out in this new field.

In 1920 Herman took over his father's business. At that time plumbers were getting 75 cents an hour. Mr. Kuebler has seen many changes in the business from soldering a new copper bottom on a tea kettle and making milk pails and stove pipes to installing the plumbing in a new home, putting in an air filtering system and hooking up a gas furnace. In 1928 all of the pipe railing for the Main St. bridge was built by Kuebler.

"When I first went to work for my father, many times we would get jobs that required a considerable amount of time to complete. There were no cars and when our work called us out in

the country to a farm home, we traveled by horse and wagon-and went prepared to stay until the job was done.

"Farmers planned on giving us board and room-it was part of the bargain. The day began early in the morning and we quit work at dark. Believe me, no one had ever heard of an 8 hour day.

"It was no hardship either to board at a farm home because the farm women really out-did themselves to serve wonderful home cooked meals. People were very sociable.

"I said we would go prepared to stay until the job was done. You've heard how people are always needing the plumber about going on a job and then having to go back to the shop for tools to do the work. This was known to happen in 'the good old days' too. One time my father and I were going to Norvell to begin a job. We were going by horse and wagon and were nearly there when we discovered we had forgotten the soldering iron. Today that wouldn't be so serious but in those days-well, we had to turn the horse and wagon around and come back to Manchester for the soldering iron.

"Then too, whenever we had a job to do in the country, it wasn't uncommon for farmers to ask us to bring out different supplies for them-as long as we would be making the trip anyway. I've seen many changes in the last 50 years. One of my employees, Leon Green has been with me over 20 years and his brother, Russell began working for me a short time later. Lewis Kemner has been with me over 15 years. They will continue to work for the new owners, LaVern Eversole and Therman Green. By the way, Therman, has worked for me for several years now. They are changing the name to G. and E. Plumbing and Heating.

Besides being a successful business man, Therman is a community and church affairs. He was a charter member of the Exchange
