## SCHOOL ELECTION Millage Explained

Names which will appear on this year's school election ballot will be incumbents Clarence Fielder and Willis Uphaus and new candidates Richard Way and Carl Pedersen. School election will be Monday, June 8 in the High School Music Room with the polls open from 7 A. M. to 8 P.M.

It was decided several years ago to request millage every year to balance the current school budget. The budget is to be prepared ahead of time to be studied by all interested school district residents. The detailed school budgets are available for inspection. The Board faces many conflicting problems in the areas of tax structures, educational needs, increased enrollment, raising costs and a necessity more than ever before to make the best education available.

Next year's budget has been planned to hold the extra millage request at the same level as last year. Basically, the budget covers the bare necessities, the school board points out.

Costs did rise again. The salary schedule was revised to place Manchester in a more competitive situation to employ and hold well qualified staff, but more upgrading is needed.

Maintenance, operation and capital outlay costs are held to a minimum level and represent a small percentage of the total budget.

The change in instructional cost can be attributed to supplies and changes in teacher's salaries. Beginning salaries were increased \$100 and a maximum salary was increased from \$5,650 to \$6,000 for a Bachelor's Degree and from \$6,050 to \$6,350 for a Master's Degree. Two years is required to put all staff members on schedule.

The 1964-65 budget can be balanced with 9.2 mills allocated and 4 mills extra operating for a total of 13.2 mills.

A defeat of the four mill request will mean a \$70,000 deficit for the 1965-66 school year. This deficit would make it impossible to operate a full time accredited school after this year.

There are two valuations placed on property. The assessed valuation is the figure arrived at by the Township Supervisor.

The State equalized valuation is the figure placed on each township by the State Equalization Board. It is supposed to equalize valuations between townships within a county and counties within the state. It is supposed to increase the valuation of property in terms of the current financial level.

In reality \$1000 in assessed valuation becomes more in each township within the district. \$1,000 in assessed valuation in Manchester

township is \$2,570 on the state equalized valuation.

\$1,000 assessed valuation in Freedom Township is \$2,445 on state equalized valuation. \$1,000 assessed valuation in Sharon township is \$3,355 on state equalized valuation and \$1,000 assessed valuation in Bridgewater Township is \$1,528 on state equalized valuation. This means that the spreading of one mill on state equalized valuation results in spreading from 1.5 to 3.3 mills on assessed valuation depending upon the state equalized factor for the respective township.

## SURVEY RESULTS Part Three

While the first part of the Manchester attitude survey conducted in February of last year was enlightening as to the thinking of the town's people on general topics, the write-in answers gave people the opportunity to express themselves as to specific items.

Questions: No 53 of the survey asked, "Is there anything that you particularly like about this community?" The adults supplied 28 different likes for the community while the high school students listed 30.

Listed are the likes given by the adults:

  2. The quiet pleasantness of town.
  3. General appearance of town.
  4. No
  5. The Churches
  6. Close proximity to shopping centers.
  7. Manchester Schools
- In order that any item be listed in the following categories, that item had to receive ten or more votes. All lists are in order of their importance.
- Question 54 asked, "Is there anything that you particularly dislike about this community?"
- Of the fifty subjects listed by the adults, the following were the biggest vote getters:

1. No
  2. Lack of Progress
  3. No restaurant
  4. No hotels, motels or taxi
  5. Nothing for teenagers

**TIME SAVERS**  
BY MARTHA BRANDT

Sometimes it takes time to save time.

This is particularly true of a job which is too often postponed or never done at all - cleaning the medicine chest. Taking time for a good clean-up which includes a thorough throw-out will result in a well organized storage place for essentials for good health and good grooming when you can find things right away you save needless searching time.

To simplify the whole process here are a few suggestions with some cautions for boarders which will put you in quicker (and safer) touch with the items in your medicine chest:

1. Remove everything from the medicine chest, including shelves. While glass shelves are soaking in a detergent bath clean interior with a good disinfectant and mop with one of the new aerosol glass and metal cleaners.
2. Sort. Look at every label on every prescription. If it's more than six months old throw it out unless your doctor has specifically advised that it can be kept.
3. Adjust top shelf for small bottles, particularly prescription drugs which should be kept further from reach of children.
4. Rearrange group containers on one shelf and medicinals in another.
5. List: after cleaning make a list of needed replacements. Incidentally, keep in mind that you will need many more medicines than you think in aerosol containers. These are both safety and money-saving investments. Products such as spray-on handgels, spray room deodorizers, useful for children's bedrooms, and analgesic keep long.

Investigate at your drugstore when restocking the medicine chest to make the most of the many pharmaceutical aerosols.

If your house has more than one medicine chest (which is very likely) don't forget that duplicates of such essentials as bandages and antiseptics in both aerosol and other forms are wise precautions. For instance, the downstairs medicine chest is often the driveway to be reached after a stained knee or burned finger and to mention more serious accidents and in this connection a special "kitchen medicine" chest is also helpful. Here the new aerosols for burns and bandages are particularly useful. Keep them as well as all medicines on a high shelf away from high heat and small children.

**OPEN HOUSE THURSDAY MAY 21**

Open house will be held Thursday May 21 from 9 to 11 A.M. at the Emanuel Church Hall to acquaint mothers with nursery school age children with the program which started this year in Manchester. Children are now being enrolled for next year.

Manchester Cooperative Nursery is licensed by the Michigan State Department of Social Welfare. There are 120 Coops in the state, 15 in the Huron Valley Council, this is the Ann Arbor area.

The object is to provide a play-center for children between the ages of three and five years inclusive to promote social, emotional, mental and physical growth consistent with the principles of good nursery education.

Membership is open to children whose third birthday occurs by December first of the enrolling year and until they reach kindergarten age. Parents must belong to the parent-teacher organization which is responsible for organizing and running the nursery.

A Coop Nursery is a non-profit organization. Money taken in is only that amount necessary to the operation of the nursery. In order to reduce costs and fulfill the Michigan law requiring one adult for every five children, the mothers act as assistants to the teacher in the classroom, thereby they need to hire only one teacher. Additional funds are added through several funds are added through donations and money-making projects.

The young child needs his parents, but when he reaches nursery school age he is also ready to broaden his experiences, to transfer some of his dependence to other adults and to learn to be a part of a group of children his own age.

Further information can be obtained by contacting Mrs. Richard Kuntz at GA8-8170, Mrs. Donald Duff at GA8-8249, Mrs. Roger Morrison at GA8-8218, Mrs. Fitis Schneider at GA8-8150, Mrs. James Scott at 475-5666 or Mrs. Russell Wolff, the teacher at GA8-4402.

Nursery School means different things to different children. It is an aid in the emancipation of the child from his complete dependence on the mother, the home and the other members of his home society. It is a supplement TO and NOT a SUBSTITUTE for the home.

The young child needs his parents but when he reaches nursery school age, he is again ready to broaden his experience and is ready to learn to be a part of a group of

children his own age. He needs to be respected as an individual and to respect others in a group of children other than his brothers and sisters. He needs to share experiences and material with children as he will do increasingly throughout life. Nursery School affords these opportunities to the child with teachers who like and understand him, encourage and respect him, and limit and love him.

One of the mothers said it is best expressed like this: "You will be disappointed in nursery school if you expect your child to say his ABC's, say his 123's, recite poeities, perform and please. Bring home daily art projects."

"You will be pleased with nursery school when you see that your child has improved attitudes in the ability to:  
Explore and run  
Share his fun  
Finish what's done  
Demand less "all or none"  
Restrict his "no"  
Let Mother go  
Accept what's so."

**WATER SUPPLY CAUSES CONCERN**  
Manchester Village Council is concerned with the operation of the number one pump for the village water supply.

According to village president Eugene Benschneider, there is a definite problem.

"This well is pumping less than half the supply needed for the village, which is about 200 gallons a minute. At the present time the pump is pumping 95 gallons a minute. This is inadequate and we are having to rely on our stand-by well," Benschneider said.

Experts studying the situation told the council that apparently there is a formation of sand blocking the supply-line in the well. The reserve well has no filter and this is causing some difficulty with housewives in the area complaining because of iron in the water.

Mr. Benschneider assumes the local consensus that everything is being done to correct the situation as soon as possible, but further study is necessary before definite steps can be taken.

**COMMUNITY COLLEGE PROGRAM**  
Those who are interested in the Community College will be pleased to know that Sunday, May 24 at 8:30 a.m. Channel 7, Dr. Raymond Young, will appear on AFTER HIGH SCHOOL.

Walter B. Roller, 54, of 9975 W. Ellsworth Road, Freedom township, died Friday at University Hospital after a brief illness.

He was born May 5, 1910, in Freedom Township, the son of Emanuel and Barbara Koenigter Miller. He never married.

Mr. Roller lived in Washtenaw County all of his life and was an auto mechanic.

He was a member of St. Thomas Church of Freedom Township. Survivors are two aunts, Mrs. Norman Scheve of Ann Arbor and Mrs. Anna Reichert of Chelsea, and several cousins.

Funeral services were held Sunday at the St. Thomas Church of Freedom township, where the body was in state from 1:30 p.m. to the hour of the service on Sunday.

MANCHESTER telephone lines By NICK PRAKKEN, Manager

THIS WEEK isn't too early to be making plans for your summer vacation. To be sure you'll be expected when you arrive, phone ahead by Long Distance—and have a happy trip!

NEXT WEEK: "MICHIGAN WEEK." Michigan Bell joins other organizations and individuals in saluting our great state. Your telephone company plays a substantial part in the growing prosperity of Michigan. In addition to providing communications so necessary to business, Michigan Bell is a customer of many other companies in Michigan. Last year, for example, Michigan Bell and Western Electric Company, the Bell System's manufacturing and supply unit, bought more than \$57,000,000 worth of products and services from firms located throughout the state.

COMING UP SOON: Graduations... weddings... Father's Day—and gift-giving problems—ahead. Whatever the occasion, your Michigan Bell business office can help with suggestions. For example, a Princess® phone for the bride's new home. Or an extension phone for Dad in his workshop. And for that June graduate, a bedroom extension phone would be a welcome surprise. Why not call our business office and let us help you with your list?

DOLLAR and SENSE FARMING.

SHARP CHOPPER KNIVES and a square shear bar as shown on the left are important for making direct cut silage or green chopping. The dull knives and shear bar as illustrated in the right-hand drawing beat rather than cut the stalks, resulting in long, frayed pieces that are hard to pack. Like a rusty lawnmower, dull knives and shear bar take much more power, gas, and there is excessive wear on bearings, pins and gears. Regrowth is also slower when stalk ends are shredded.

KEEP BUTTERFAT TEST AT A HIGH LEVEL when cows are on spring pasture. Early season pastures are low in fiber which tends to lower the butterfat test. Also, finely chopped hay will reduce fat content. If your tests start running low, increase amount of silage or long hay for awhile.

FEEDING GESTATING SOWS with the high-low-high system has worked well. A ration containing a high energy level fed 14 to 21 days before breeding increases ovulation rate. Then a low-level feeding for the first two-thirds or 75 days during gestation reduces embryonic mortality. Finally, during the last third of gestation resume a high level ration to help assure strong pigs at birth. Flushing helps girls more than sows.

GRAIN FEEDING CATTLE ON PASTURE this summer will help avoid low profits or losses on cattle. Gains are faster than for pasture alone and cheaper than grain alone. You can feed more cattle per acre, and cattle not finished can be moved quickly through a feedlot.

Dinner was served by the men of the parish.

Special entertainment was furnished at the banquet by the "Castro Singers". They are three brothers, Ruben, Miguel and Oscar and Rita (who decided to join in and married the eldest brother). The brothers are in their early twenties and their home is in Montevideo, Uruguay. They came to the United States last Christmas time.

The name Castro is a Spanish family name and is as common in Latin America as Smith in the U.S. Uruguay is a country where singing is not a national habit. So the boys sang as a result of a family tradition. They sang popular tunes as children in a family get-together. Then they developed an interest in serious studies of South American folklore.

Ruben plays the guitar, Miguel plays the flute and studied bassoon. He is second bassoonist in Montevideo's Council Band and occasionally plays the bassoon in the official symphonic orchestra under the direction of Howard Mitchell and Aaron Copland.

Oscar plays in drums, some that he made himself by peeling the fresh skin by hand. Rita is the wife of Ruben and studied dancing and is now a professor of gymnastics and dances in Montevideoan Schools.

Children Pictures Taken Free And Published In The ENTERPRISE

It is an undisputed fact that the responsibilities of tomorrow's world, our Nation, and Community will rest upon the shoulders of the children of today. Since this is true, the publishers of this newspaper would like to give you a good look at these future "World Builders".

The only way we can do this is by publishing pictures of them in a feature series. To assure the latest and best reproductions, they must all be uniform size and quality. An expert children's photographer with all the necessary equipment for this specialized work, will be here Tuesday, May 19. Pictures will be taken at the K. of C. Hall and will be open from 10 a. m. to 5 p. m.

No Charge To Parents There is no charge to the parents. There are absolutely no strings to this invitation. It is bonafide in every sense of the word. Parents do not have to be subscribers, nor even readers of this newspaper to take advantage of this feature. Neither are they obligated to purchase pictures after they are taken. Those who want some additional prints may obtain them by arrangement with the studio representative when they select the pose they want printed in the paper. It is entirely up to them. The More PICTURES, the Better The Enterprise simply wants pictures of all the youngsters and the more, the better. So the Mothers and Fathers of the community in which this paper circulates should remember the date MAY 19 at the Knights of Columbus Hall and not fail to bring their children to the photographer. You will be mighty glad, afterwards, if you did, and very, very sorry if you do not permit your children to participate in this event. The kiddies will have much fun and both Mother and Dad-and the youngsters, too-will be very proud to see their pictures in print later. Appointments may be made by calling Mrs. John Schneider, Phone GA8-3041, Manchester.

WEAR A POPPY SILENT TRIBUTE TO AMERICAN HEROES

Each year at Poppy Time, we take the opportunity to retell our Poppy Story. During World War 1 the battlefields of Europe were trampled by the boots of millions of fighting men. American Troops advanced through France and Flanders and the only touch of life and beauty they saw were the poppies that bloomed amid the rubble of war. Along the trenches, around the shell craters and among the barbed wire and wreckage the little poppies grew and bloomed. The tiny blossoms also covered the graves of the American fighting men who had fallen on the battlefield.

American fighting men have been called upon to make the ultimate sacrifice for freedom, and the poppy has become the symbol of our dead of the past three wars. This is why we pin on a poppy as a tribute both to the dead and living American servicemen.

The poppies still cover the fields of France beneath which many of them lie. On Poppy Day we all have an opportunity to place this memorial flower over our hearts in tribute to the sacrifice which they made.

SCHOOL STUDY MEETING MONDAY Equalizing Factors Explained

A meeting of citizens interested in working on a study to provide additional school facilities will be held Monday, May 25 in the Multi-purpose room of the Nellie Ackerson Elementary Building. Dr. Ray Kehoe will be on hand to explain the services of the University of Michigan in conducting the study. All interested residents are urged to attend.

The 1964 equalizing factors for the townships in the Manchester School District have changed over the 1963 factors. The equalizing factors in each township are:

Table with 2 columns: Township Name and Equalizing Factor. Rows include Bridgewater (1.880183), Freedom (2.184101), Manchester (2.196939), and Sharon (3.405206).

To arrive at state equalized valuation the assessed valuation in each township is multiplied by the equalized factor for that township. Property in Manchester township assessed at \$5,000 would be equalized to \$10,984.70 (\$5,000 x 2.196939). To arrive at your own state equalized valuation, multiply the assessed valuation by the equalizing factor in the township, Supt. Harold Springsteen pointed out.

Electors at the annual school election June 8 will be asked to vote on three general questions. One ballot will ask for a continuation of 4 mills for general operation. This millage is needed to maintain the program at its current level. A defeat of the request would curtail the present program making it impossible to operate an accredited program, school officials said.

A second ballot will ask one mill enrichment factor to be earmarked for purchase of additional library materials, science and math equipment and educational television. This is a continuation of the one mill earmarked this current year.

In a break-down the millage amounts to about \$15,500. Of this Supt. Springsteen noted that 90 per cent will be collected the first year. If approved, this request will permit the continued improvement in library services. Shelving space and cataloguing of the junior high school library will be major issues. About \$1,500 will be used for this.

An additional \$3,000 will be used for reference materials. Educational television is proved as a useful classroom aid. Through its use, additional courses can be offered as well as enriching present course offerings. The one mill would permit using it on a limited basis to determine how best to use it in this system.

Science and Math equipment on a much larger scale will be provided and microscopes, tuning forks and other special equipment will be added with the \$6,000 to \$8,000 which will be available if the one mill request is voted.

Much of the science and math equipment can be purchased through the National Defense Education Act whereby the Federal Government will nearly match the local expenditures. This would make the amount nearly double the \$6,000 to \$8,000 available of the one mill is approved.

Educational television is proven as a useful classroom aid. Through its use, additional courses can be offered as well as enriching present course offerings. The third ballot will request a decision on who will fill the two vacancies on the Board of Education. Four citizens have been nominated: incumbents, Clarence Fielder and Willis Uphaus and Carl Pedersen and Richard Way. Both terms are for four years.

If both the four mill and one mill request are approved, the total school tax will be slightly less than this year's taxes. The Pleasant Lake School debt has been paid off reducing the debt millage by .48 mills. A breakdown of the current and proposed school taxes show the following:

Table with 3 columns: Operation, Allocated, Voted. Rows include 1963 and 1964 Proposed values for various categories like Debt, Pleasant Lake, High School, Nellie Ackerson, Total Operation, and Debt.
