HOPE TO CONNECT - Quarterback Bob Rigg tests his passing arm which he hopes will be on target Friday night in Manchester High School's bid for the Lakeland C Conference title. End Rich Pniowski, a top pass catcher, was absent when the picture was taken.

Manchester Sights Set on Real Thing Friday

BY BOB FREY Clinton Patriot Sports Writer Rekindling title memories is nice but the real thing is even nicer. Manchester High School's football team, which this season has been reviving memories of 1958 and '57 Flying Dutchmen championship outfits, hopes to bring back a title of its own Friday night from Clinton.

Clinton has an edge in overall records, 6-0-1 to the Flying Dutchmen's 4-2-1. And the Redskins have all the better of it in offensive and defensive statistics. Clinton has scored 178 points to Manchester's 78. Clinton's defense has allowed 50 to Manchester's 82.

So, it is obvious that coach Jack Raffaelli's Dutchmen have an uphill battle on their hands to come away with the crown. But they could have a decided edge when it comes to incentive.

Manchester hasn't won a football title since the glory days of 1954-'57. It won back-to-back crowns those two years in the League of the Lakes and lost only once in 16 games.

A Dutch victory would also assure them of their first winning season since a 5-3 record in 1959. A year ago Manchester broke even in eight games. This is Raffaelli's first year as head coach. He was an assistant for the Dutch last season.

Boosting Manchester's hopes Friday is a 13-0 victory over Whitmore Lake, the latter's only league loss this season. Clinton could do no better than Whitmore Lake, 6-6. However, Manchester was held to a 6-6 tie last Friday by Ann Arbor University High, a team Clinton beat 20-7.

Quarterback Bob Rigg has been the sparkplug in Manchester's attack. He has thrown five touchdown passes -- three to end Rich Pniowski -- and has scampered for two others himself. Fullback Mike Nickerson has scored once on each a run and a pass as has halfback Jim Sloat, who is the team's leading runner.

But the Flying Dutchmen's strength figures to be in their defense. Steve Bentschneider has picked off three passes, turning two of them into touchdown runs of 65 and 40 yards.

Pniowski, linebacker Jim Fielder and 230-pound tackle Denny Hamilton are other outstanding performers on offense. Don Kirk, 225-pound center, and 210-pound tackle Ron Panches give the Dutch good size on the line with Hamilton. Eugene Huber and Jim Samonek handle the guard chores. Jim Mann takes over at a defensive end spot while Cleo Marshall and Sloat are defensive backs.

The Dutch defense faces a stiff test from the likes of coach Phil Baresil's fullback Wayne Poore and quarterback Dennis Draicz. Poore's running has

SECOND STAGE TAX CUT DUE

The second stage of the 1964 tax cut which will become effective January 1, 1965, should end the underwithholding problem for many taxpayers it was pointed out by R. I. Nixon, Detroit District Director of Internal Revenue.

Personal income tax rates will range from 14 to 70 per cent for 1965 compared to the 16 to 77 per cent range of 1964.

Director Nixon said that the 14 per cent withholding rate on wage and salary payments adopted in 1964 will remain the same in 1965.

Some taxpayers will be underwithheld on 1964 tax payments because the lower withholding rate went into effect earlier than the final tax rate reduction. Mr. Nixon indicated that for many lower income taxpayers this underwithholding problem should be eliminated in 1965.

Withholding on wages and salaries is designed to put the majority of taxpayers on the "pay-as-you-go" tax basis. For middle and upper income taxpayers, increased withholding, or quarterly payments of estimated tax, are generally necessary to keep them on a current tax basis.

BOARD RATES UP FOR FOSTER HOMES

An increase in board rates for Juvenile Court wards placed in foster homes licensed by the Court has been announced by Judge John W. Conlin. The new rate which will become effective January 1, 1965 will be \$20 per week per child.

The decision to increase the board rate followed a study of increased living costs since the present rate was established many years ago, according to Mr. Helen B. Rutledge, Director of the Foster Home Development Project for Washtenaw County Juvenile Court.

This increase also represents some recognition of the tremendous service foster parents contribute to the children they care for and to the community which has ultimate responsibility for the welfare of those children.

In making the announcement, Judge Conlin stressed the service and devotion which foster parents give to children, who, through no fault of their own, must live with substitute parents.

Foster families are still critically needed by the Court and interested families are encouraged to call the Court to discuss this. The Court meanwhile, endeavors to work with the child's parents to improve the conditions which made it necessary to place the child away from his own family.

The work of the Court is directed toward prevention and rehabilitation.

"One of the most vital links in the process of rehabilitation is the Court Foster Home," said Mrs. Helen Rutledge, Director of the Foster Home Development Project at the Court.

"No amount of money could fully compensate for the far-reaching influence a foster home may have at a critical time in the child's life," she pointed out.

"The increase in board rates," Mrs. Rutledge said, "should offer a realistic and tangible recognition of the service these dedicated foster parents give."

New foster homes, especially for teenagers are still very much in demand in Washtenaw and anyone who is interested or who would like to have additional information may get in touch with Mrs. Helen Rutledge, Director, Foster Home Development Project, Washtenaw County Juvenile Court or phone 683-7811 extension 277.

CITIZENS COMMITTEE COMPLETES STUDY

The Manchester Board of Education is in the process of visiting schools in Michigan and has set aside Thursdays for this project.

This is the result of the Citizen's Advisory Committee findings. The committee was organized last May at the request of the Board of Education to study the school population increase in the Manchester School District and decide what steps to take. The Citizen's Advisory Committee divided into three working and fact finding committees.

The committees concerned themselves with the areas of: Population and Finance, Elementary Curriculum and Building, and Secondary Curriculum and Buildings.

Each group explored the statistics involved, current practices, trends and future possibilities relative to their area of study. Assisting the committees was Dr. Ray Kehoe from the Bureau of School Services University of Michigan and other resource people.

Upon completion of study, each committee submitted recommendations to the committees at large and to Dr. Kehoe, who consolidated their individual group findings into a tentative final report. At this stage the Population and Finance Committee requested the services of an architectural firm in order that more information could be secured.

This is the job of the Board of Education to make preliminary studies of architectural firms and after interviews will make a selection. Supt. Robert Swartz predicts that an architectural firm will be selected by December 1. A final report and recommendation to the school district from the Board of Education will be forthcoming sometime around the first of the year.

The School Board is grateful to the Citizens Committee for taking the time for the twelve meetings which involved hundreds of man hours of work in doing the ground work on this school study which, when completed will be brought to the citizenry of the community in suggesting the best course to pursue.

The study has been necessary because of crowded conditions at the High School and how to best expand the facilities.

## BOARD OF SUPERVISORS TAKE TOUR OF ROAD PROJECTS

Washtenaw County Road Commission took the Board of Supervisors on a tour of the 1964 road projects in the county. The 1964 budget totals \$2,620,000 with \$2,246,876.77 available to the county at this time. From his observations, Manchester Township Supervisor, Clayton Parr, said the county roads appear to be in good condition.

The budget calls for primary construction at \$320,000 and Primary Maintenance \$550,000, new equipment at \$130,000 and equipment maintenance at \$60,000. To date primary construction has cost \$241,246.97, primary maintenance \$468,019.45 and \$79,119.79 has been spent on new equipment and \$293,841.53 on equipment maintenance.

In an overall picture 82 per cent of the budget for 1964 has been spent.

The income for 1963 amounted to \$2,046,085.79 with expenses set at \$1,994,486.47 for the same period of time or 79 per cent of the budget.

Included in this improvement program was the Austin Road bridge over the River Raisin just east of Manchester. The existing 66 foot long timber deck had deteriorated to the point that further patching was impossible and the old deck was removed, the existing stringers cleaned and painted and a new laminated timber deck was installed. A new flex beam guard rail was also built to complete the rehabilitation by the Commission bridge crew. The cost was \$9,200.

A 5.15 mile stretch of Austin Road, between Kaiser and Clinton was a major project. This was a heavy maintenance project and was done by pulverizing the old blacktop, cutting down some hills, extensive fills in some areas, placing of 2000 feet of 6 inch underdrains in the village of Bridgewater, and placing 8 inches of gravel the full length of the job which is just being completed with a tar prime and 1 1/4 inch blacktop surface this fall. Cost to date is \$58,549.

This year's county bridge painting program was hampered by the loss of an experienced man from last year's crew but the total of six bridges were painted. Three were complete re-construction jobs—Tuttle Hill Road, Austin Road and Bell Road; while three were routine maintenance jobs. Cost of the program was \$1,381.53.

Another twin multiple installation on Saline Waterworks Road just west of Ann Arbor-Saline Road cost \$7,000. The existing hazardous narrow 13 foot wide 26 foot span structure was posted for a load limit of 12 tons.

Two multi-plates 10' by 8' by 6'11" by 46 feet long were installed, sandbag headwalls constructed and flex-beam guard rail erected. This project was part of the special local road bridge re-construction program.

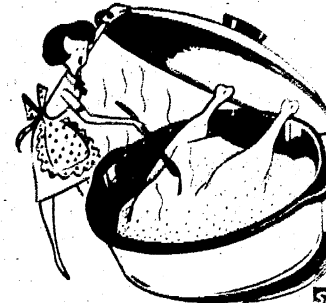

Other big projects in the county included Willow Road from Whitaker to Carpenter (4.12 miles) at a cost of \$80,393; Platt road Stony Creek Road to Judd Road (1.25 miles) at a cost of \$27,602.26 Michigan State highway project-I-94 shoulder recapping from Jackson Road to US-23 (7.934 miles) cost \$186,130. ## Time-Saving Tips For Holiday Cooks

by LOUISE ALLEN

Do all those holiday dinners, starting with Thanksgiving, turn you into a Cinderella—working overtime in the kitchen while the rest of the family has a ball? You can cook your feast and enjoy it, too, with just a little before-dinner planning.

You're off to a head start when all the right tools (utensils) are at hand. Deciding in advance how you'll cook each "selection" in the menu also will speed up work—and assure more tender results.

Colorful holiday vegetables become tasty morsels if cooked in Club Aluminum's "waterless" pans, thus preserving all their natural flavor. The slow, even heat provided by heavy aluminum cookware eliminates "pot-watching" and keeps you and the room temperature cool.

Don't hesitate to reserve a place on the "festive board" for the favorite candied yams or squash—when cooked to new perfection in a pan coated with "Black Magic" Teflon. Truly magical is the way the specially coated bottom refuses to stick to even the most syrupy foods—and cooks them without fat.

The non-stick nature of this cookware cuts clean-up time in half—so you can escape from the kitchen early enough to enjoy after-the-feast relaxing.

## Button Up Your Home For Winter

Now's the time to winterize your home. Here's a handy checklist of the things to do for increased comfort and impressive fuel savings:

1. Keep furniture from blocking radiators, registers, and other heat sources.

2. Have a fireplace? When not in use, make sure damper is closed, otherwise heat will be siphoned up the chimney.

3. Have furnace checked periodically. A clean, adjusted furnace with new filters will operate safely with more economy. Oil motor frequently.

4. Since 60 per cent of all fuel is wasted through the attic, go to your attic and measure the insulation. If it's less than four inches thick, pour a lightweight insulation such as the mineral vermiculite right over the old insulation and level off at least height.

5. Weatherstrip or caulk doors and windows.

6. At night, close bedroom doors before opening windows, so there is no heat loss from other rooms.

7. Have a kitchen fan? Open a kitchen window slightly when exhaust cooking fumes.

According to County Road officials the 1964 seal coat program totaled \$35,000. This year they attempted to reduce the bleeding of sealcoats by reducing the amount of asphalt used. This produced a better "non-skid" surface. In this was 35 miles of two lane roadway.

Howard G. Minter, Engineer Director for the Washtenaw County Road Commission said that during the 1964 construction season, the Washtenaw County Road Commission completed 13.9 miles of new blacktop surface, prepared 4.38 miles of bases for blacktopping surface in 1965, rebuilt 4 local bridges, replaced 4 jack arch culverts, completed 18.6 miles of asphalt concrete widening and applied 35 miles of maintenance sealcoat. Michigan State Highway department has under construction 8.26 miles of new 4-lane limited access highways in the county which will be completed within a year, Minter said.

**Long Live Coffee Cans**

Refuse collectors report there have been fewer coffee cans in trash barrels of late. Can it be that Americans are consuming less coffee? Quite the contrary. It's just that housewives are no longer light-heartedly tossing a way empty coffee containers.

Ever since coffee started being packed in new, slim cans with plastic and sanitary plastic over-lids, creative homemakers have been putting these coffee cans to a variety of uses in the home.

One housewife designed her own canister set by covering different sized coffee cans with adhesive-backed paper to match her kitchen color scheme. Although the set is pretty enough to sit out on the counter and hold the conventional flour, sugar, coffee and tea, this inventive lady uses it on her pantry shelf to hold products like split peas, beans, raisins, spaghetti, macaroni, rice, breakfast cereal, etc.

She finds that foods like raisins are fresher this way. And, the opaque clear plastic over-lids allow her to see what is inside a can at a glance.

Expanding this idea, the large three-pound coffee cans with plastic over-lids make perfect containers for potato chips, corn chips or popcorn.

In children's rooms, coffee cans with new safe over-lids hold everything from clay, crayons and rock collections to marbles and checkers.

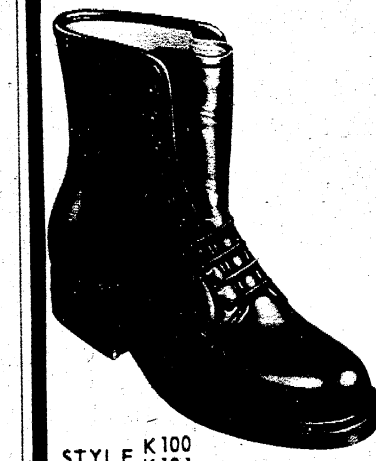

The small one-half pound cans are ideal children's banks.
