OPEN LETTER TO CITIZENS OF MANCHESTER

Con gressman Melvin Laird has introduced in the House of representatives a resolution which expresses the following: The sense of Congress that in the interest of peace in Vietnam the Government of the United States should only consider further expansions of trade, educational and cultural exchanges, and other related agreements with the Soviet Union and its East European satellites when there is demonstrable evidence that their actions and policies with regard to Vietnam have been redirected toward peace and an honorable settlement and when there is demonstrable evidence that they have abandoned their policy of support for so-called wars of national liberation.

Local Girl Hurt in Accident

A Manchester girl was injured in a two car accident on E. Austin Road one tenth of a mile east of Kaiser Road about 8:45 a.m. Friday.

Centennial Parade Needs Entries

The Centennial committee is all accepting entries for the big July 4 parade. Bill Hainstock, parade chairman says he cannot be too emphatic about the necessity of knowing early just what and how many plan to be in the parade.

Community Chest Annual Meeting

Thirty people attended the annual Community Chest meeting for the Manchester area. The treasurer Louis Vogel reported a balance on hand of \$3,394.79.

Pictured with Wilfred de St. Aubin, director of the County Chapter of the Red Cross (center) are (left to right) Michael Scully and William Schwab, both two-gallon donors.

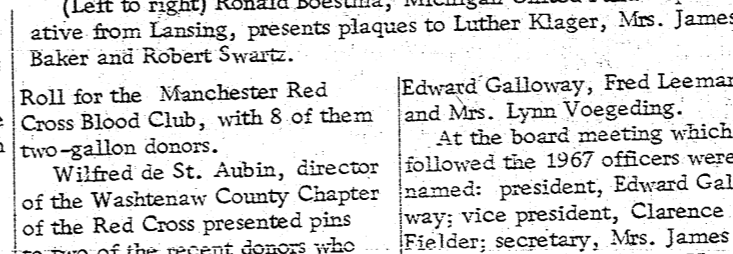

Reports from participating agencies brought out such bits of news as: The United Fund expects a new grant which will increase their budget, but will be of definite aid to the public. The Red Cross, carrying a peak load with their office of Assistance to the military and many volunteers are based at the Washtenaw County American Red Cross headquarters.

Manchester Recreation is looking forward to a record summer with a great deal of emphasis on waterfront activities and new planning for safety.

The Clovers are desperately in need of volunteer group leaders to be ready for the fall program which was hampered this year by lack of such leadership.

The Year Book is an account that could be much more self sufficient if only the sale of year books in the community would increase. Every child in the Manchester School System is pictured in the yearbook. It is strictly a school endeavor without a load of advertising that effects the quality of many such books and they are invaluable in the years to come.

Luther Klager, 1966 Campaign Chairman, gave plaques for outstanding service to John Altohus, representing Double A and Clarence Fielder of Manchester Tool and Die.

(Left to right) Ronald Boestma, Michigan United Fund Representative from Lansing, presents plaques to Luther Klager, Mrs. James Baker and Robert Swartz.

Roll for the Manchester Red Cross Blood Club, with \$ of them two-gallon donors.

Edward Galloway, Fred Leeman and Mrs. Lynn Voegeding. At the board meeting which followed the 1967 officers were named: president, Edward Galloway; vice president, Clarence Fielder; secretary, Mrs. James Baker and treasurer, Louis Vogel.

RIVER RACE SUCCESSFUL

Some are planning to make the centennial boat race down the Raisin River an annual event after Saturday's successful first running.

High winds discouraged several entrants, but 31 canoes and row boats each manned by two oarsmen battled the wind and current for the winding miles from Fellows Bridge to the Main Street bridge.

Winners in the father-son canoe event were Alton Grau and his son Michael, with a time of 40 minutes, 28 seconds.

In the choose your-own-partner or open canoe race, Hal Foucher of Brooklyn and Sherman Green of Manchester were victorious in 37 minutes, 31 seconds.

Centennial officials indicate they will wait until warmer weather before staging a repeat performance.

Making a trial run down the river on Friday Dr. D. M. Petersen and Lauren Huber were paddling their canoe at top speed because they were aware of the tornado alert.

Camp So Bar, one of the Brothers of the Brush Chapters, headed by Allan Alter and I. Dean Sott is challenging any other chapter to a tug-of-war across the River.

A Centennial Queen contest is being planned for June 17 to be climaxed by a Centennial Ball. The contest is open to all Manchester area single girls between 17 and 21 years.

The new Ford Motor Co. plant in Saline, building programs in the county and equalization studies in some areas brought the valuation up.

In Washtenaw, the construction boom has increased the county valuation by a record \$85 million or a new high of \$866,720,254.

State Tax Commission Chairman Robert Pummell indicated that his unit will accept the supervisor's statistics.

The new Ford Motor Co. plant in Saline, building programs in the county and equalization studies in some areas brought the valuation up. This year's equalized valuation is up 11 per cent.

Last year's percentage increase was 6.48 per cent and the year before there was a 6.1 per cent increase.

In Manchester Township, which had the greatest increase in the township, the amount of gain was \$4,946,152.

The rate increase will finance a planned revamping of the village water system that will hope fully reduce rust and low pressure in the municipal water system.

The minimum water rate will be generally increased from \$5 to \$8 per quarter, with the new rates charged for 8,900 gallons of the present 10,900 gallons.

Revamping plans include a new water pump already on order, new water mains, a building to house the village water filtering system and moving the present filters and eventually a new water tower.

The Village Council Monday also gave the go-ahead to seek permission from the state to issue \$275,000 in water revenue bonds to pay for the changes.

The state equalized valuation will be used by school districts, the county and some townships against which to levy their regular and extra voted millage rates in the winter of 1967.

The new rates will pretty much affect everyone in the village.

SPRING BAND CONCERT TUESDAY

The Manchester bands will present their annual Spring Concert at 8 p.m. Tuesday, May 2, in the High School gym.

An interesting group of four ensembles from four different countries including German, French, British and one by our own John Phillip Sousa will be played by the High School Band.

Each year the bands are at their best at the time of the Spring Concert. According to band director, R. C. Swain, if you enjoy band music at the best, the Spring concert is one not to miss.

Band to Have Blazers

The High School Band has ordered new dark green blazers which will be worn for the first time at the Spring Band Concert on May 2.

The old uniforms will still be used for parades and marching occasions but the blazer will be comfortable and practical for inside of concert type functions.

The Band Boosters are assuming the responsibility for the expense of the new coats. The High School Band is selling candy during the noon hour at the High School, the proceeds to be turned over to the Band Boosters.

There are several money making projects in the planning stages for the summer.

If all goes well they hope to be able to dress up the old uniforms in the near future, or perhaps eventually replace them with new ones. If this is to be accomplished it will require the support of the entire community.

The program for the Spring Concert Tuesday, May 2 will include:

Junior Band—Field General March, Fitzwilliam Suite, Prelude and March and Delancey, Spanish Waltz.

Senior Band—Overture and Fugue by Bach, Apollo—a German March, Prelude to Tchaikovsky by Verdi, Beethoven Overture, French National DeMille Baller, the Young Americans, Themes from Dr. Zhivago, Call Bogey, Sampler Finale.

"We're already looking forward to a return visit to your charming city and its gracious people. Thank you for a marvelous weekend. You make strangers feel at home."

The Washtenaw County Auxiliary Police force is on a recruiting drive.

Sheriff Douglas J. Harvey said his undersheriff, Harold J. Owings Jr. has been placed in charge of the training and reorganization of the county unit, which started as a Civil Defense group in 1956.

The ranks of the auxiliary force has recently been depleted because of job transfers and personal obligations which forced several members to resign. Currently there are about 12 members in the force but Harvey is in hopes of increasing the number to 20.

The auxiliary officers are civilian volunteers who are put through a 10-week training course under the direction of the Sheriff's Department. When training is completed the men are issued uniforms and necessary equipment, and are used when the need arises in conjunction with the full-time sheriff's deputies.

They are assigned to ride road patrol with deputies on weekends and during emergency situations.

Since 1958 the county Auxiliary Police force has worked more than 15,000 man hours on patrol with sheriff's officers.

Applications for auxiliary appointments must be 21 or over, be a resident of Washtenaw

Those accepted must be willing to attend monthly meetings and agree to work when sheriff's officers are in need of extra help. That requirement normally means about one duty shift each month.

Men who are interested in applying for auxiliary appointments may obtain application forms by contacting Owings at the County jail 662-2504 during business hours each week day.

Airmail Rates Go Up Monday

An increase in international postage and airmail rates will go to effect Monday, May 1, postmaster Marvin Kirk announced today.

The new international rates, said will not apply to mailings for members of the Armed Forces, overseas. Domestic postages are applicable to mail addressed through APO's and FPO's.

The rate increases for both surface and airmail—averaging 13%—were first proposed on January 14 and publicly confirmed on March 1. The Department explained at that time that they were needed to offset a deficit of about \$16 million in international mail operations.

Specific information on the new international rates can be obtained from the service window at the post office, Postmaster Kirk said.

This was the first general increase in international rates since July, 1961.

The increases are:
1. Airmail letters to Central America and Caribbean area from 3¢ a half ounce to 15¢.

2. Airmail to the rest of the Western Hemisphere remains 15¢ a half ounce, except for Canada and Mexico.

3. Airmail to Europe and Mediterranean Africa from 15¢ a half ounce to 20¢.

4. Airmail letter rates to the rest of the world remain unchanged at 25¢ a half ounce.

5. Aerogrammes and air post cards increased 2¢ each from 11¢ to 13¢.

Grandma had no trouble with "Milk Rebels"

What happened to all of the half dollars?
There aren't many turning up in your pocket change — even though the government is minting enormous quantities.
The obvious answer is that people are hoarding them. A survey conducted by Richard S. Yeoman of Whitman Publishing Company, Racine, Wis., one of the nation's top numismatic authorities, reveals four mistakes taken by collectors responsible for widespread hoarding:
1) People think the price of silver is going up; 2) there are so few halves in circulation they must be rare; 3) the half dollar will go the way of the vanishing silver dollar; and 4) some day Kennedy halves will be valuable.
Yeoman, who is editor of Whitman's well-known Guide Book of United States Coins, or Red Book, discounts all of these reasons.
He points out that the price of silver has been fixed by the government at \$1.29 per ounce until 1970. And unless the price rises to well beyond this figure, the silver value in a half dollar will stay considerably below its face value.
As for scarcity, there are plenty of half dollars around, and the government intends to keep making them in huge quantities until the demand is satisfied.
"Kennedy halves probably never will be rare in the eyes of coin collectors," says Yeoman, "so people who hoard them in the hopes of turning a profit are wasting their time."
Our disappearing silver dollar has no relationship to the scarcity of halves, he continues. The dollar does contain exactly one dollar's worth of silver. Halves, especially the new composition Kennedy issues, contain far less silver than their face value indicates.

Down on the farm the children really liked to drink milk. But then, it wasn't just ordinary milk. Grandma kept a Jersey gave the best-tasting milk ever! Folks didn't know then we know now -- that the extra-good flavor meant that Jersey milk was chuck-full of nutrition.

The Voice. Anybody's voice. Your voice. It has a special quality and timbre all its own. But...

It should become hoarse or if a cough should persist. Promptly. It could be a warning signal of cancer. And cancer is easier to cure when it's detected early.

Frank Sinatra knows the seven warning signals of cancer. Do you?

1. Unusual bleeding or discharge. 2. A lump or thickening in the breast or elsewhere. 3. A sore that does not heal. 4. Change in bowel or bladder habits. 5. Hoarseness or cough. 6. Indigestion or difficulty in swallowing. 7. Change in a wart or mole.

If a signal lasts longer than two weeks, see your doctor without delay.

It makes sense to know the seven warning signals of cancer. It makes sense to give to the American Cancer Society.

SWIMMING POOL STUDY PROGRESS

The Manchester Area Swimming Pool Committee is moving ahead with the gathering and processing of facts and figures involved in obtaining a swimming facility for the Manchester area.

In a meeting Tuesday an opinion survey and facts presentation programs were implemented aimed at better informing those most concerned with the community's need for a year-round swimming area.

At this time, the pool committee is still evaluating information pertinent to the establishment and maintenance of all three types of swimming facilities including artificial lake or pond, outdoor part-year pool; and indoor year around pool.

It is the feeling of the committee that information must be made generally available to the people of the Manchester area in the near future, as facts will have to be evaluated by the citizens in order to consider the questions involved.

SCHOOLS TO GET QUESTIONNAIRES

During the week of May 1, all high schools in Washtenaw and Livingston Counties will be administering questionnaires to 10th and 12th grade students.

The questionnaires, part of the two-county vocational education study, seek the interest of high school students in occupational programs, if a wider choice of such programs could be provided.

Other questionnaires are being directed to high school teachers, counselors, and principals, and to school district superintendents.

Later in May, business and industry representatives will be involved in a study of local labor market training needs, according to Earl W. Schaeffer, study director.

SCHOOL BOARD TO ASK CONTINUATION OF 5 MILLS

Approximately 50 school district citizens turned out Monday evening to hear the Manchester Board of Education outline both financial and building needs for the school year 1967-68.

Luther Klager, Board President in his opening remarked that the past year was certainly a year of decisions for the board. Pressing building needs plus increased operating expenses were cited as the main concerns at a number of special and regular meetings.

Prior to the presentation of school needs the members of the board gave an overview of the past year's program and accomplishments. Trustee Clarence Fielder discussed the new high school addition and indicated to the group that the completion date of June 1, 1967 would be met.

He called attention to each area and indicated that the Board was extremely pleased with the overall construction and the construction cost. Fielder expressed confidence that the building would adequately handle a high school enrollment of 600 students with the exception of the gymnasium which was not enlarged in the current building program.

Trustee Allen Alber gave a detailed report on the maintenance and care of the existing building and grounds. He cited the improvements done in each building over the past year and indicated what projects would be necessary for the coming year.

Trustee Willis Uphaus discussed the transportation service of the local school district. Mr. Uphaus pointed out that the operational expense of the bus fleet was borne by the state and not directly by the local taxpayer.

Village Assessment All Time High

The assessment roll as submitted by the Board of Assessors has been accepted and certified by the Village Council. This is an increase of \$306,570 over 1966 and was attributed mostly to new building in the village. Largest was the new addition to the Double A Plant. The total real estate for the current year is \$1,787,330 and personal property \$660,075.

The new sanitary landfill will be open Thursday afternoons and from 9 a. m. to 4 p. m. Saturdays. Until such time as someone can be hired for the landfill it will be operated by the public works department, according to Lyle Widmayer, village clerk. Only those people who present permit cards will be allowed to use the landfill open to people in the four townships Manchester, Bridgewater, Sharon and Freedom. For villagers the permit cards are free for the asking at the Manchester Treatment Plant from Bruce Daniels.
