SCUTTLEBUTT

Mr. & Mrs. Francis Curley of Cranston, Rhode Island, spent four days with their son and family, Mr. & Mrs. James Curley over the July 4th weekend.

The visit served a double purpose. The Curley's saw their new granddaughter, Kathleen. Also this was the first time Mrs. Curley has celebrated her birthday with her grandsons, Robert and John. John was just two on June 3 and Robert the Curley's first grandson was born on Mrs. Curley's birthday four years ago July 3.

Others present at the party were the maternal grandparents, Mr. & Mrs. Duffield Ball and Mr. & Mrs. John Ball and Mr. and Mrs. Leon Ball, Michael, Mark and Michelle.

HIGH SCHOOL STUDENTS ATTEND EMU ORIENTATION

Some 750 high school students who expect to enroll as freshmen at Eastern Michigan University in September attended a one-day orientation program on their campus recently.

During their visit, they received individual and small group counseling and registered for the fall semester. A campus tour, an opportunity to meet other freshmen in residence hall surroundings and 24 hours to become acquainted with campus routines were other parts of the program.

A special parents' orientation was held twice daily. The parents heard talks by University personnel and had a chance to ask questions.

Attending from Manchester were Gaylord W. Knauss II, son of Mr. & Mrs. Gaylord W. Knauss, 601 Spring St. and Charlene Versham, daughter of Mr. & Mrs. James Versham, 10870 Burmeister Rd.

Lake America.
In a sense, that's what you're doing when you buy U.S. Savings Bonds. Investing in the traditions that made America great.
And, realizing the economic strength it takes to keep the nation going, to build highways, to improve schools, to complete the things that seem doing to keep America great.

Does the investment pay off? You bet it does.
You and millions of other Americans own the benefits of your Bond investment... and you personally reap a monetary benefit when you cash Bonds.

All you need to do is make a few simple steps to get started.

BANK ANNOUNCES NEW APPOINTMENT

James C. Hendley, Chairman of the Board of the Union Savings Bank of Manchester, announces the appointment of Ed R. Kirk as Vice President of the Bank effective immediately. Mr. Hendley says the continued growth of the Bank has made it possible to add another senior officer to the staff and that the Bank is fortunate in having a man of Mr. Kirk's ability and experience available to assume added duties and responsibilities.

Mr. Kirk started his banking career with the Union Savings Bank in Feb., 1927 and became Assistant Cashier in 1935, a position he has held continuously since that time. Mr. Kirk has also served the Village of Manchester for almost as many years as Treasurer, an office he has held continuously since 1935.

Mr. Kirk is past president of the Optimist Club and now serves as secretary-treasurer. In 1962 he served as Washtenaw County Finance Chairman of the Greater Michigan Week Foundation. He is a member of the Knights of Columbus, the Holy Name Society and serves his church by acting as secretary-treasurer of the Ushers Club of St. Mary's, secretary of St. Mary's Cemetery Association, and as chairman of the Archdiocesan Development Campaign for St. Mary's Church.

When the Manchester Public Schools started the use of school buses in 1949, Ed was the first driver and now is the senior driver in years of service for the system.

Mr. Kirk and his wife Dorothy are life-long residents of the community and have five children, Joseph of Shafter, California; Jerry, a mechanic for Tom Marshall, Inc.; Judith, Mrs. Edwin Walz of Manchester; Patricia of Ann Arbor and John, at home.

Mr. Kirk's attitude towards his job and the community was well expressed by him when he was informed of his appointment as vice president. Ed says that regardless of title, he wants to remain at his present desk where he can greet all of his friends as they come into the bank.

BOARD LOSES SECOND KEY MAN

Though no official word has been received from Union Savings Bank, Ken Wolf, Head Cashier, has resigned his position effective July 27.

Though a special news release was drawn up by Board Chairman James C. Hendley at the time of Dan Boutell's resignation, apparently the Bank Board did not feel compelled when Mr. Wolf left to announce the fact to the local paper. Apparently the community is expected to listen to the many rumors about both men's resignations in so short a time and come to the conclusion that the Bank Board was right in accepting the resignations of these two key men.

The paper also understands that a man from Ann Arbor Bank is temporarily taking Ken's place.

Hopefully, after the many hard feelings created by the recent resignations have died down, the bank will share with its customers the facts of what has happened and why.

TOWNSHIP ELECTION FINALLY HAS SOME ACTION

The primary election shows some life this year as not just the incumbents are running. Long-time supervisor Clayton Parr is not seeking re-election. All other members of the Township Board whose terms expire are running. They include Waldo Marx for Clerk, Mike Wolfe for Treasurer and Malcolm Billings as Trustee.

Running for supervisor on the Republican ticket is Clarence Fielder. Opposing him on the Democratic ticket is Ralph (Bud) England. No one is opposing incumbent Clerk Waldo Marx. For Treasurer is Mike Wolfe and opposing him on the Democratic ticket is Lehman Wahl.

For Trustee, all on the Republican ticket, are incumbent Malcolm Billings, Lyle Widmayer, George Macomber, Don Limpert and Harold Kessal. Only one Trustee position is open. Voters should note that contrary to an ad in this paper by "Citizens for Better Local Government", the Republican Party does not support any candidate among the running. The title Republican Party above the ad could be misleading as some people might think those candidates listed had official party sanction. Neither party supports any particular candidate in a primary and ads of this kind are unfair to the other men running on the Republican ticket. This slate of men is supported only by friends of the candidates and not by the Republican Party.

The Primary Election is next Tuesday, August 4.

FOR SUPERVISOR

Ralph (Bud) England was born and has lived in Manchester for 29 years. He is a graduate of Jackson Junior College and has been a member of the Jaycees and is now a member of the Chamber of Commerce. He owns his own painting company and is married and has two children.

"There should be more local government. That is one of our society's big problems today - we depend too much on State aid. Too much money is being lost when you send money to the state and they in turn return it to you."

Clarence L. Fielder son of the late Fred and Cecilia Fielder, has been a life-long resident of the Manchester area. He graduated from Manchester High School in 1941 and completed a four year Tool & Die Apprenticeship with Ford Motor Co. Mr. Fielder served 27 months in the Armed Services, serving in the states and the European Theater. He was employed by the Ford Motor Co. for 11 years and Ratel Radio Television for 2 years. In 1954, he together with Eugene Bentschneider organized Manchester Tool & Die and were joined in partnership by Ted Stautz in 1955. They later bought Manchester Stamping, then located in Brooklyn and moved the operation to the present location at 17951 Austin Rd. Besides his post as President of Manchester Tool & Die and Vice-President of Manchester Stamping, he has been active in many fraternal and civic organizations being a charter member of the Knights of Columbus and a Past Grand Knight. He is a member of St. Mary's Church where he is presently serving on the Church Council as chairman of the Education Dept. and also is a member of the Ushers' Club. He has been on the Board of Education for over eight years and presently is Treasurer of the School Board he was on the Review Board of Manchester Township. He is a member of the Optimist Club and a Past President, trustee on the Family Service, Past President of the Community Chest and currently a trustee, also a member of the Recreation Committee. He has been active in athletics in the area for many years having played softball for a local

team for 20 consecutive years. He was instrumental in the organization of the Little League Program in Manchester having coached the Yankee team since its formation 13 years ago. Mr. Fielder also is a member of Tecumseh Country Club.

He is married to the former Margaret Feldkamp and the father of six sons, Ron, Jim, Dick, Pat, Craig and Curt, two of whom are serving the U.S. Army in Vietnam and Korea and three daughters, Mary Frances, Cecilia and Bernadette.

"I believe in a strong and vigorous government at the local level. A government concerned with local people, local issues and willing to solve local problems at that level. The first lesson of civics is that efficient government should begin at home."

Invariably when one sees a healthy, progressive and dynamic community it is evident that the people who make up that community are responsive to their local needs and are willing to devote interest, work, energy and their vote to satisfy those needs. Active participation by all citizens is vital to the well being of a healthy community. Government is a cooperative effort in which all citizens must take part to the full extent of their ability. If it is otherwise, the citizens will one day discover they are being ruled.

Healthy and progressive organizations, whether they are civic, fraternal, political or religious do not just happen. They become that way through the active involvement and participation of all who make up their membership. The lack of this involvement and participation on the part of the individual citizen makes for a weak and ineffective organization or community. Apathy or disinterest in governmental matters is the surest and quickest way to lose those freedoms we hold sacred in our democratic way of life. And yet today apathy on the part of the citizenry is evident in all levels of our government. For this reason I subscribe to the concept of active participation and involvement by all citizens. I believe if our local government is strong the higher levels will be that much stronger.

I do not believe that local governmental bodies should relinquish their control to the state or federal levels. I remember reading a statement by Samuel Johnson once which said, "Those who cannot govern themselves must be governed."

This frightens me, and I would like to check the eroding possibilities of our own right to govern. Any government that is big enough to give you everything you want is big enough to take everything you've got."

FOR TREASURER

Mike Wolfe, incumbent made the following comment to our reporter: "There should be more local government with someone who is willing and able to perform the duties of that office if elected." He also pointed out that in 1945 there were 125,000 on the tax roll and in 1969 it had reached 450,000.

Lehman Wahl was born in Chelsea and has been a Manchester Township resident, where he owns and operates a dairy farm, since August, 1948. He is 49 years old, married and has one daughter. He is a member of St. Mary's Church, has served on the parish steering committee and is presently serving on the Worship Committee. Mr. Wahl has been a member of the Manchester Community Fair Board for the past 11 years serving as President for 3 years and in the capacity of Treasurer for 8 years. He also serves as its Resident Agent.

A charter member of the Father Fisher Council of the Knights of Columbus, he is presently Grand Knight. He has served as District Deputy of the organization for 6 years and during that period organized the local council.

The Manchester Jaycees will hold their first annual Country & Western Show on Sunday, August 2, 1970 at the Manchester Speedway. First show will be at 1:00 p.m. Second show at 5:00 p.m.

JAMES C. TURNER CANDIDATE FOR GOVERNOR

The last week of the primary campaign will find James C. Turner, Republican candidate for Governor, running hard to get his positions known to all Michigan voters. He will cover the entire state in the last week, making at least five personal appearances daily and as many other stops as possible in his marathon-like-bid to upset the Republican machine.

Turner believes the Republican party under the leadership of "milk-toast" Milliken has broken faith with the people. In fact neither party establishment offers the needed leadership and now is the time for members of all political parties to nominate a man who can bring a fresh approach to the political process. Turner is saying that there is a serious crisis in our society today and now is not the time for an apologetic sympathetic milk-toast leader, but a time for leadership of strong convictions and an even stronger courage to face up to the challenges of the seventies.

Turner believes that among many other things, Milliken will destroy our Public Schools if he is not stopped on August 4. He has strongly criticized his opponent for the recent signing of the school aid bill which includes aid to parochial schools.

Turner has promised again and again to use the full power of the executive branch of State government to return government to the local level if he is nominated on August 4 and elected in November.

Turner has fought for two and a half years to expose the corruption in the Judicial branch of State government and feels that our boy governor has turned his back on the problems of both organized and street crime. Justice will come to all when the laws of this state are enforced with fairness, firmness and honor and if this does not come, we are rapidly approaching a time when no laws will be obeyed.

Turner also believes that the runaway cost of our state and local government must be stopped and reduced or there will be a tax rebellion that will make the "Boston Tea Party" look like child's play.

We have far too long tried to legislate our individual responsibility to some state agency, and they have failed to solve any problem and now Turner believes the people must do for themselves by becoming again a meaningful part of the political process. The Republican Party WILL become the people's party and the political bosses of both parties will lose control. Turner promises if elected. He pledges to return the government to the people where it belongs.

"It is not too late, the people have all power if they will only vote August 4th," he said.

Gentlemen:
We, the undersigned, members of the Manchester High School Band would like to express our opinion of the speech given at the conclusion of the Memorial Day Parade. We were disturbed by some of the language used by the speaker and some of the inferences which could be drawn from what he said. We feel he stereotyped (sic) all students as dirty, long-haired, cowards. If this is not what he meant we feel his statements need clarification.

Men fought and died for the right to express their opinion in public and the speaker had every right to express his. However, we believe a Memorial Day Service could be better used to honor the memory of the thousands who died for freedom's sake, and remember their deeds for future generations, than to criticize the living.

MANCHESTER SPEEDWAY RACING RESULTS

Due to all the rain this week, the track here tonight was pretty slippery, holding down the times and making the driving a little bit tricky. The fastest, over 63 cars qualified in were Dick Theide in Sportsman Modified and Bill Younkin in the Stockers.

In the Sportsman Mod. class: The caution flag was out once, in the first heat, when Theide lost a wheel on the sixth lap. Marv Carmen led from start to finish for the checker over Chuck Roumell, Sam Henson and Dick Slade. The second heat win went to Bud Elting followed by Jim Drumhillier, Jerry Murphy, and Jr. Gary.

There were several spin-outs in the third heat, but Butch Moull avoided them all to take the win over Rex Kreig, Duane Valentine and Howard Woodman. The cars in the fourth had a little trouble, but after two or three re-starts, Fred Wordon started on the pole and stayed there. He was chased across

the line by Leonard Hale, Cal Byrd and Jerry Lippert.
The Pursuit was a little hairy as on the fourth lap, Jerry Trvon lost a wheel and flipped between the third and fourth turns. Jerry, whose Birthday was today, what a way to celebrate!! was taken to the hospital for a check-up. He will be held overnight for observation, but nothing serious. Anyway "Best wishes, Jerry!" Carmen again, took the win over Ken McLaughlin, Don Macy and Curt Kelly.
There were several caution flags in the

came on strong to make it three wins in three starts tonight. Don Macey took a close second over Murphy, Gary and Drumhillier.
In the Stockers class, Bill Younkin and Louie Jay had quite a night, topping it off with a dead heat in the feature, as it was declared a tie and both had a checkered flag for their victory lap together. In the heat race, Younkin took the lead on the eighth lap for the win

over Louie Jay, Ray Skinner and Jerry Pelkey.

The Destruction Derby had the most cars that have ever entered one here before, and when they finished it looked like one big junk yard on the front stretch. TWO VOICES FOR MICHIGAN

Guiding the State of Michigan through these perilous times is a difficult chore, and what Governor Milliken needs more than anything else are fresh-thinking, forward-moving Legislators. He needs men and women who will serve the interests of all of the people in their district. He needs people who are in touch with what is happening in the nation, the state and the district.

Richard E. Fay is the man who can meet these requirements. A life-long resident of the district, he will continue to live here after his election. He will not appear just at election time. He will live in his district and he will keep in touch with what his people are thinking.

Governor Milliken knows what he needs to get the job done. Dick Fay is the man for the job.

STATE REPRESENTATIVE

Your Man In Lansing

I want to continue serving you as your State Representative. Your continued support will be deeply appreciated.

"Yes, I definitely feel that the local government should have more control over local issues rather than the State government."

If we rely on the State government to take care of local issues, we will be losing power in our own local government. The needs and issues are better known by the local people, who have more interest in local issues than representatives in the State Capital.

If local issues are turned over to the State, we are apt to lose all our freedom to govern our own local needs. Also the cost of operation will be greater and at the same time action on vital local issues would be delayed.

TRUSTEE

Incumbent Malcolm Billings has served 14 years on the Board as a Trustee. He was originally appointed to fill a vacancy and later was elected on his own. He has lived in Manchester for 22 years and lives at 9155 Grossman Road.

He and his wife have three children, a son in Venezuela for Ford Motor Co., another son in England who has his own business and a daughter in Monroe.

On the issue of local government vs. State control, Mr. Billings feels we should

still have local government and he especially feels we should still have Justices of the Peace. He felt we had more justice under the J.P. system.

Lyle A. Widmayer has been a life-time resident of Manchester. A Veteran of World War II, with 3 years in the Navy 30 months of which were served in the South Pacific. A charter member of the Manchester Jaycees and Optimist Club, member of the American Legion and Manchester Sportsman Club. President of the Manchester Development Club, a member and now assistant chief of the Manchester Township Fire Department and a member of the Emanuel United Church of Christ. He is the General Manager of Tom Marshall, Inc. Ford Agency and has been associated with business of Manchester since discharge from the Navy, served as clerk for the

Village of Manchester for six years.

As to the question "Do you feel there should be more local government or more state control of local issues?"

There is no question we should have more local control than State or County. We are the people that see our needs and care about them, when control is put into the hands of local people who are taxpayers and not ones who just have an ax to grind.

Manchester being in the far corner of our county seems to be missed by other governments. What do you think could happen if we didn't have a township government looking after our fire department? The same that happened to our ambulance service? Would you get the dust control on our roads that is now paid from Manchester Township Funds?

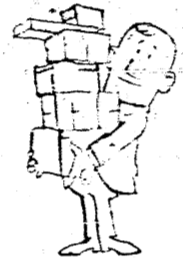

These are a few of the things that must be handled by local government.

Harold Keasal has been a farmer in the Manchester area for 20 years and has four children. He has been interested in our town and surrounding area and believes it is time more people took a step forward and became actively involved. He also believes our local government should be a representation from people of all walks of life.

"I feel there should be more local government as only we know the needs and wants of our local people. Everytime the state takes control of something, it costs us more of our freedom plus more taxes. In time, we could be run by big cities. We know our own needs first hand, and would like to act on them when the needs arise. We take pride in our area and

"I believe all local issues can best be resolved by non-partisan objective local governing bodies. Only the people directly involved in any issue can or should intelligently weigh all the problems, customs, etc. which go to make up the ever-changing society we live in.

Because of my many local and business contacts, I have become aware of the problems due to growth and the changing economics of our local area and I am most interested that impartial and objective local government shall prevail and set policies that are in the best interests of all the people who live here."

George Macomber is married and has six children, Mrs. Del (Shirley) Sparks of Manchester, Mrs. Charles (Barbara) Gilboe, Whitmore Lake, Harry, Carl, George, Jr. and Linda, all of Manchester. He is 60 years old and has been a farmer all his life. He sold his farm in Scio Township and bought 358 acres in Manchester in 1967 and farms in partnership with two of his sons, Carl and George, Jr.

He was treasurer of Washtenaw Farm Council for 3 years, leader of Scio Lodi Junior Farmers 4-H Club for 16 years, secretary-treasurer of Washtenaw-Wayne Holstein Association, served on 4-H Council for 3 years, Superintendent of Dairy at 4-H Fair for four years, was appointed to Scio Township Planning Commission when it was first started as a seven member board and has served on the Maple Grove Community Center Committee for 9 years and on the Church Council at Salem Lutheran Church.

"We should definitely have more local government. The reason more and more control is being lost is because many local governments are not doing their job. Not enough interest is shown in local politics so state legislators feel compelled to take

over more control. In Manchester Township for instance, little or no opposition has been given to the existing board for many years, and because we have lacked aggressive leadership in this and other rural townships, most decisions are now battled on a County-wide or State-wide basis. I think we can reverse this trend in our government by electing men who care about their community and aren't afraid to stand up to state officials who want more control.

I think we can reverse this trend in our government by electing men who care about their community and aren't afraid to stand up to state officials who want more control.

CONSTABLE

Earl Alber comments as follows on our question:

"As per your request about local government, I think that nobody knows local problems like local people. As per example look at all the problems our local village and school board have because of state requirements. We should have a very minimum of state guidelines and local government could or should go from there. The bigger County and State government gets the more wasteful they become. As per our County Road Commission or the requirements for ambulances in the County. Government should stick to a middle of the road, common sense approach. Another thing local voters should study County and State candidates carefully. (They usually know local ones) and vote for the man and what he stands for and what he has done for himself and his local community and not just vote a straight party ticket. We have good men on both sides. Unless local people get involved we are going to lose all our local say and it will be twice as hard to get it back if at all."

Incumbent Lyle L. Moore has lived at 12894 Sharon Hollow Rd., Manchester Township for over 24 years.

He married Gertrude Walkower and they have four sons, three daughters and one daughter-in-law.

He has attended schools and classes taught by Detroit P.D., Michigan State Police, Washtenaw Sheriff Department Michigan Constables Association, East Lansing P.D., and many others, and received a certificate of qualification from the M.C.A. for passing an examination

"I definitely feel that the local govern-

ing body should have absolute control over local issues, and that the state should set up proper guidelines ONLY.

In my opinion, if a person considers running for any public office, they should plan on being active and doing their best to improve that office or not run! If they are already in office -- and not doing proper justice to that office -- they should get out!!

Local government is the most important one bit of government we have in America because it is the only branch that is in direct contact with the tax paying public, and should know what the needs and desires are in their neighborhood. This is where your civil rights should start.

If run properly, township government is not only important, but it still has tremendous power and responsibilities under both the constitution and statutes.

VOTING RIGHTS OF NON-PROPERTY OWNERS

by Carolyn Ahrens

Recently the U. S. Supreme Court reversed the voting rights of non-property owners concerning bonding issues. Previously non-property owners could not vote on bonding issues but in a 5-3 decision involving an Arizona case the Court said, "The difference between the interests of property owners and non-property owners are not sufficiently substantial to justify excluding the latter from the franchise."

Since many area people expressed concern over this decision and how it would affect Michigan residents, four questions were submitted to State Representative Roy Smith. He acknowledged the letter and felt that since State Rep. Thomas G. Sharpe represented Manchester via the 51st District his opinions would be of more value to the residents in this area.

State Rep. Thomas G. Sharpe sent the following answers:

Q: Why should non-property owners be allowed to vote on bonding issues when property owners must be taxed and pay for it?

A: I personally am very strongly opposed to permitting non-property owners to vote on bonding issues when only property owners are taxed to pay for them. However, the best we were able to do in drafting the Michigan Constitution was to limit voting to property owners on bonding issues of more than three years duration. It would take a two-thirds vote of both houses of the Legislature to change this provision, and the votes simply are not there. The rationale for permitting non-property owners to vote is contained in the Supreme Court decision you quote in your article. I personally disagree with that rationale.

Q: What would the State of Michigan do to provide for or in what way would property owners be protected from over-taxation?

A: Limitations are placed on the total amount of millage that can be assessed in the Michigan Constitution. However, these limitations do not apply to debt retirement and are far too high to be meaningful. I am hopeful that the legislature in its brief August session will pass House Resolution WWW and place before the voters this November the question of limiting school operating millage to somewhere between 12 and 16 mills as compared to a present state-wide average of about 26 mills.

Q: What do some of these other states who have non-restricted voting on bonding issues do to protect property owners or provide a more fair share tax base?

A: In states that presently have non-restricted voting on bonding issues, there are no safeguards other than the action of the legislature from year to year. Most states, however, now have income taxes and find this an easier form of tax to increase than the property tax.

Q: Would Michigan stipulate a special tax for non-property owners to carry more of the tax burden than they do through rent since most of these individuals have family members using the facilities provided for in bonding issues?

A: Michigan could not stipulate a special tax for non-property owners as such since the constitution requires any type of tax be levied equally upon those to whom it applies. In other words, we could tax property owners, we could put a tax on rents if enough members would support such a tax, or we could tax any number of specific items; but we could not place a special tax on non-property owners. I personally feel that the answer lies in greatly reducing our dependence upon the property tax and shifting the burden to the income tax concept.
