Kindergarten Parents

Parents of children who will be starting kindergarten this fall are reminded that it is necessary for all children entering school for the first time to have a health examination which includes a test for tuberculosis. This is required by Michigan State Law along with presentation of the child's birth certificate. It is important that parents understand that these two requirements must be met before a child may enter kindergarten. Forms for the health exam are available at the superintendent's office and at Klager and Pleasant Lake Schools.

Here & There....

By C. Chapin

Travel time! Itchy feet, and sand in our shoes and away we go. Everyone needs recreation and pleasure styles vary with the needs and desires of the folks participating.

Family traveling is chosen by Janice and Dave Little of 499 Furnace, Manchester who, with the two children drove into Canada and stopped at Niagara Falls, then on to Toronto, Montreal, and back down into Vermont, New York and home.

A small town at the bottom of one of the finger lakes, not much larger than Manchester named Skeneateles (Skinny Atlas) N.Y., contains a world famous restaurant called Krebs. Janice, having visited this place when a child has always remembered it and wished her children to have the experience of dining here. The building is white frame, simply an enlarged house and the dinner consisted of twelve courses, each brought by a different waitress, no menu is offered, the patrons simply accepting whatever the host offers for the day. Ninety years in business and the first course was Lobster Newburg, and to make the day, the price is only \$7.50 for a meal that takes two hours to eat.

Family traveling absorbs the Daniels family. Bruce, Dacia, and the three boys Greg, Mark, and Gary of 235 Adrian, Manchester. Experienced campers, the Daniels have for many years trained the boys in outdoor living, often spending week-ends sleeping in a tent and cooking meals outdoors. The gas shortage prompted a new look at the concepts of leisure time activity, so the training began for a walking vacation. For five months they walked, beginning at three miles and building up to five miles a day.

Driving south they traveled the Scioto trail, in Far Hollow, which is near Athens, Ohio. Backpacking for five days, the

supplies were divided evenly and in addition to sleeping gear, meals for the entire period had to be carried. Fifteen meals, carefully weighed and distributed as well as water, each back-pack was from 32-40 lbs, the total 31 lbs, of food of course became lighter with each meal. Tramping through unknown country, clad in heavy boots, and growing boys developed an appetite. Typical breakfast was Start-Orange Juice, Dry Oatmeal with Raisins or perhaps the powdered eggs and canned bacon. Lunch drink - Kool-aid with potted meat on Rye Crisps (dried breads and crackers weigh less and keep better than bread) or alternatively, a light lunch which can be eaten while walking, is M&M candies and peanuts (dried roasted for weight) with Kool-aid to drink. Supper time, Cuppa soup with oyster crackers (they don't crush) Hamburger helper cooked with a small can of Vienna sausages, light weight Melba toast or Rusk, dessert of dried fruit, apples, apricots or prunes, with instant coffee or Hot Chocolate to drink. The boys once or twice looked longingly at a cow in a field, wondering what cooked beef would be like. Longest single day of walking was 15 miles. Hard ground makes a good mattress after that kind of exercise.

Maxine and Lyle Widmayer, of 427 Territorial, Manchester, without the children took a few days to fly to New Orleans. Staying at Leffichellon Hotel in the French Quarter, they explored the antique shops, took a garden and Lake tour, and of course dined at Antoine's. Sampling the restaurants, Pat O'Brien's, Alibi's place and Andrew Jackson's, where the food is superlative, the country beautiful and very romantic.

Leaving the country, Vera Schable, of 291 Ann Arbor, and Dorothy Scully of 214 Ann Arbor, flew to Copenhagen, Denmark, Helsinki, Finland and on to Leningrad, to view the Summer Palace on the Baltic Gulf. The museums in Russia were formerly churches and are simply beautiful, filled with paintings and treasures.

**LETTERS TO THE EDITOR**

I am a veteran ashamed. I received a state bonus following World War II. I received the maximum of \$500.00, which was based on \$15.00 for each month overseas and \$10.00 for each month in the States - not to exceed \$500.00. And you know how much more \$500.00 was worth in 1947 than it's worth today. There was no distinction between combat veteran and non-combat veteran.

I received the bonus, thanks to the generosity of the people of Michigan who

approved paying a state bonus, not only to veterans of World War II, but also to World War I and Korean veterans. I am ashamed because I dread the possibility that the voters may, as they did two years ago, again turn down the state bonus for Michigan's Vietnam veterans when they vote on the proposal in November.

I don't know why, but every time I talk with a Vietnam veteran, or see them at some meeting, I feel uncomfortable when the discussion turns to state bonuses. If you are one of the 153,839 World War I veterans, or one of the 618,232 World War II veterans, or one of the 209,234 Korean war veterans who received a Michigan state bonus - you don't know how the Vietnam veteran feels.

You don't know what it's like to return home from the most frustrating and unpopular war in our history and have your fellow-citizens and neighbors deny you and your comrades the same respect and the same recognition they enthusiastically granted the veterans of World War I, World War II and Korea.

If you think it's just the money we're talking about - God help you.

The 50,000 who died in Vietnam, the thousands who came home ill or disabled, and the thousands who just came home - are just as dead, just as ill and disabled, and just as "just came home" as were their comrades of those previous wars.

I am a veteran ashamed, ashamed that the Vietnam veteran has to be voted on like a bonding issue at a school election... if the people say "no" - well - let's wait two years until the next general election - and give it another try - maybe if we "eliminate the swimming pool" (cut out the educational provisions of the bonus proposal), or maybe if we omit the new gym (pay the maximum bonus only to Vietnam combat veterans) - the voters might buy it - if not, let's give it another

whirl two years later at the next general election - maybe if we just pay it to those who were casualties? or prisoners-of-war? or missing in action?

In the meantime fella's "if there's anything I can do, let me know because I know how you feel".

The hell you do.

**FIRST KIDS SOFTBALL SEASON A SUCCESS**

Softball season at Pleasant Lake is over but the many happy memories will linger on thanks to our great coach Mr. Henry Menefee. He unselfishly gave up his every Tuesday and Thursday to be us at the Pleasant Lake School ball field. Because of him some forty kids were able to participate in organized competition. There were times he really naced us work, but because of his insistence to play proper ball we all noticeably improved. Without a doubt we think Mr. Menefee is the greatest and we're all hoping that we can look forward to another season next summer.

Ask **Senator GRIFFIN**

By cutting through red tape, members of Congress can often lend a hand to those with problems involving the federal government. Through the columns of this newspaper, Senator Griffin answers questions of general interest. He will respond personally to all communications addressed to: Senator Robert P. Griffin, Senate Office Building, Washington, D.C. 20510.

My husband will kill me for writing this, but he is OUT OF SHAPE! About the only exercise he gets is jogging from the T.V. to the icebox. I know you have more important problems to tackle than his waistline, but could you just encourage him to shape up a bit—before I ship out!

—F. C. Jackson

Research has demonstrated that sedentary people have more heart attacks and a lesser chance of recovering from such attacks than those who exercise regularly.

If your husband doesn't want to be the one to "ship out," he should check with his doctor and get started on a regular schedule of daily exercise. That doesn't mean he should try to run the mile in four minutes. But he would help himself by running farther than the icebox!

Why don't you write for him to the President's Council on Physical Fitness & Sports, Washington, D.C. 20201, and ask for available free information on how to select a good exercise program.

Recently we visited Mackinac Island and learned that Fort Mackinac has been added to the National Register of Historic Places. What is this historical register, and what does it mean to be added to the list?

—R. T., Kalamazoo

The National Register of Historic Places lists properties throughout the United States that are worth saving for their historic and cultural importance. The Register is a protective inventory of sites and structures which the Federal Government desires to safeguard because of their unique historical value. A State may receive Federal grant assistance to help preserve properties listed in the Register.

How does a property get added to the list? First, it should be called to the attention of the appropriate State agency for consideration and review. The State then nominates the site or structure for approval by the National Park Service.

If you know of a building or site that should be preserved, write to Dr. Martha Bigelow, History Division, Michigan Department of State, Lansing, Michigan 48919.

Your letter could be the first step in preserving a valuable, irreplaceable link between America's past and present.

# Agriculture in Action

Michigan Farm Bureau

## HOW TO KEEP THEM DOWN ON THE FARM

The old refrain, "How're you gonna keep 'em down on the farm?" is as outdated as the horse-drawn plow. Enrollments in colleges of agriculture have doubled in the last 10 years, indicating that young people are choosing, rather than just inheriting, the farming profession. Where a college education used to be a means of escape from the farm—now it provides the knowledge needed for a challenging, fulfilling career in a dynamic industry.

The recent sharp increase in agricultural college enrollment reflects the need for higher education in this "new era" of agriculture. In the past, if you could drive a tractor, you could farm. Not so today. The business of producing and marketing food and fiber has become a complex, highly technical, constantly-changing, demanding vocation. To be successful in his chosen profession, today's young farmer needs sharp management skills and scientific knowledge, and

a broad understanding of how he relates to the world's socio-economic structure. Pride in the agricultural profession is another important reason why young men and women have decided to stay on the farm. The fact that the public is more aware of the value of agriculture than ever before has given the farmer new status and a positive image. Recognized as one of the most efficient and productive of all industries, American agriculture produces enough food and fiber to meet the demands here in this nation, plus enough for exports. The farmer is aware that farm production has become an essential part of our foreign policy, and he's proud of the vital role it plays in trade negotiations.

It takes more incentive, however, than an exciting vocation and professional pride to make young men and women invest in a college education. That investment, plus huge amounts of capital and operating money involved in farm enterprises, must also pay off in dividends of dignity and a good living. Young people will not stay on the land unless they can realize these goals. After years of government involvement in farming, with farmers relegated to peasant status, dependent on federal subsidies, now a market-oriented agriculture provides them with new opportunities and freedom to grow. It's important to all of us to keep it that way.

That's how we're gonna keep 'em down on the farm....

**MACKINAC BRIDGE WALK**

The 17th annual Labor Day morning Mackinac Bridge Walk is scheduled to begin at 7:30 a.m. on September 2, 1974. Some 20,000 to 25,000 persons are expected to participate in this once a year opportunity to walk across the beautiful Mackinac Bridge over the historic Straits of Mackinac.

Since this is an election year, the event will be made more colorful by the presence of state and local candidates for office and their retinues of boosters, pom pom girls and distributors of a variety of promotional materials, all adding to the festivity of the event.

Governor Milliken who has participated in the walk annually since his elevation to that office, and now the Republican candidate for reelection will be on hand to lead the general walk at 7:30 a.m. as will his Democratic opponent, Sander Levin.

Once again the Michigan National Guard, 146th Military Police Battalion, Lansing, under the command of Lieutenant Col. Phillip LaChance, will provide traffic control and coordination as they did for the past two years. This assignment is a command post exercise calling for the movement of the Battalion 235 miles, policing the bridge walkers and directing vehicular traffic. It provides valuable training for the National Guard and at the same time assures the safety of bridge walkers and the smooth movement of Bridge traffic which is maintained without interruption throughout the walk both north and south.

Proceeding the general Bridge Walk will be novice races conducted by the Inter-

national Walkers Association which sponsored the first Bridge Walk in 1958. These races commence at 7:15 a.m. Trophies will be awarded to four classifications: men and women, boys and girls. Registration is necessary to participate in this event. Persons interested may sign up at the Bridge Plaza (north side) prior to the commencement of these races; or they may write to the International Walkers Association, 569 Cornell Ave., East Lansing, Michigan 48823. Registration fee is 50¢.

The DALMAC bicyclists who preceded the Bridge Walk last year will come across the Bridge on Sunday evening September 1st on their bicycles about 500 strong. They will then return south by walking (no bikes) on Monday morning.

Persons interested in joining this bicycle group may write to: DALMAC '74, COMMUNICATIONS, Post Office Box 2, Petoskey, Michigan 49770.

Bridge Walkers are strongly advised to provide their own transportation to the starting point on the fare plaza on the St. Ignace side of the Bridge. However, some 65 buses will be transporting Bridge Walkers commencing at 5:45 a.m. in Mackinaw City. The deadline for starting the Bridge Walk is 10:00 a.m. The buses are also available for participants requiring northbound transportation after the Bridge Walk. The bus fare is 50¢.

All walkers completing the trek are given numbered certificates attesting to same. Prizes valued at more than \$1,500, 00 are keyed to the numbers on each certificate and awarded to lucky winners by the merchants and Chamber of Commerce in Mackinaw City.

**Egg-Painted Raisin Cookies**

Baking raisin cookies is one thing. Painting them is another. That makes two great summer activities for youngsters. Saucer-size cookies are cut out with a two-pound empty coffee can which definitely adds to the drama.

The big plump California raisins are inspirational, artistically as well as gastronomically. They make an eye here, a nose there, and maybe the sly grin or scary scowl. Simply mix egg yolk with food colors for the paints and set them on the half-shell in the egg carton. You'll probably need some shaggy and sparkly cake decorations, too.

**RAISIN EGG-PAINTED COOKIES**

- 1 cup butter
- 2 cups sugar
- 2 eggs
- 4 cups sifted flour
- 2 teaspoons baking powder
- 1/2 teaspoon salt
- 1 1/2 cups California raisins
- 2 teaspoons vanilla extract

Cream butter and sugar; add eggs one at a time. Sift flour, baking powder, and salt into butter mixture and blend. Stir in raisins and vanilla. Chill dough. Roll dough about 1/4-inch thick. Cut out cookies with an empty 2-pound coffee can. Bake at 375 degrees for 15 minutes. Makes 10 cookies.

**Engagement  
Announced**

Mr. and Mrs. John Brelish of 718 Joseph Kies Street, Clinton, proudly announce the engagement of their daughter, Kathleen Ann, to Mark J. Lentz, son of Mr. and Mrs. Ambrose Lentz of Grossman Road, Manchester.

Miss Brelish is a graduate of Clinton High School and of Eastern Michigan University where she has a degree in Elementary Education. She is presently employed by DST Industries, Clinton.

Mr. Lentz is a graduate of Manchester High School and will graduate from Michigan State University in June 1975 with a degree in accounting.

**School Board To  
Meet September 9**

The Manchester Board of Education at its regular meeting on September 9, 1974 will determine the 1974-75 tax levy.

Because of action by the State Legislature in July State Aid forfeitures for 1972-73 and 1973-74 in the amount of \$68,000 will not be deducted from the 1974-75 State Aid payments due the school district. Inasmuch as the millage request was based on this need, a millage reduction will now be considered by the board. Anyone in the district interested in this meeting is invited to attend.

Open House To Honor 50 Anniversary Of Mr. and Mrs. Leslie Chavey

The children of Mr. and Mrs. Leslie Chavey are hosting an Open House in honor of their parents 50th Wedding Anniversary. The event will be held on Sunday, September 8 at the Duane Roller residence 20351 Schwab Road at 3 p.m. Mr. and Mrs. Chavey were married on September 6, 1924 in Redford, Michigan. The Rev. McWilliams of the Presbyterian Church officiated. Mrs. Rudey (Evelyn Chavey) Bowen of Brighton, sister of the groom and Mr. Russell Hawkins of Orlando,

Florida, cousin of the bride attended. The Chavey's have four children, Mrs. Duane (Shirley) Roller of Manchester, Mrs. John (Lorraine) Dunny of Detroit, Grant and Gary both of Manchester, eight grandchildren and one great-grandchild. They are members of the Manchester United Methodist Church and semi-retired farmers. Friends and relatives are cordially invited to join in the celebration. They request that gifts please be omitted.

Compact Tractor Pull Contest

The compact tractor pull got underway with 26 tractors entered in the three classes. We seem to be growing each year, with many returnees and some new drivers. For this we are very grateful. The lightweight class had nine entrants. Our young champion of last year, Carol Diuble, returned, and brought brother Steve. We had another young lady, Barbara Jedele of Saline, join us. Sure glad to see the ladies. Barbara pulled well, but was unable to place. Hope she will try again next year. After we got them started, these 950 pound tractors just did not want to stop. They pulled all the way up to 2450 pounds, before we could find a winner; more than 2 1/2 times their own weight. As it ended, for her own sake, Carol should have left Steve home. Steve Diuble took first place, Mike Eaton of Tecumseh, took second, Carol Diuble got third, and David Jedele of Saline, went home with fourth. The medium class had ten tractors entered. These are up to 1100 pound tractors (tractors are weighed with the drivers), and it took almost 3 times their weight to stop them-3250 pounds. This class had some breakdowns such as broken axels, lost wheel, and our fourth place winner, Brian Leisinger of Grass Lake, broke a gear. He might have gone farther up the ladder had it not been for that. Third place went to James Hayden of Chelsea, second to Willard Girbach of Saline, and top place to Doug Lesser of Dexter. Marvin Brightwell of Grass Lake, and Robert Ball Jr. of Dexter, gave the four top men a run for the money; hope

Janet Denhoff Visits Pen Pal

By C. Chapin

Five glorious weeks in Switzerland. That was the trip of the summer for Janet Denhoff, daughter of Judy and Don Denhoff of 400 E. Main, Manchester. Janet, who is thirteen years old this year has been corresponding with pen pal Barbara Steinmetz, of Schaffhausen Switzerland near Zurich, for four years and this year the family invited her for a visit. Schaffhausen is a city, located in hiking and camping country; so the girls did a good deal of walking and looking at the countryside. A smaller one week trip into Germany to visit Barbara's grandmother near Dusseldorf was a pleasure and with a chance to see much more of the continent, for on the return trip they drove through France, Austria, and Liechtenstein. Included in the special memories are those of a one day trip to the Black Forest, during which they climbed to the highest point in the forest and this view Janet says was "Neat". Climbing over a glacier, driving through a tunnel under a glacier, the trip gave Janet experiences to remember a lifetime. The Steinmetz family helped Janet take photographs, and at each place they visited they bought postcards and maps and then organized all of these in chronological order in two albums as a memento. The country was beautiful, the people charming and friendly, making Janet very happy. But she is happy to be home too!
