Over the last few years, we've voted in two forms of revenue raising for the state on the grounds they would help pay for education and lower property taxes. These were the State Income Tax and the State Lottery. Instead, we find state aid to schools decreasing. It was reported in last week's Enterprise that 51% of the total school operating cost in Manchester came from the state in 1966-67 while 28% of it came from the state in

In addition, INFORM will sponsor several meetings at which the PREP staff will explain the program to community and to other school perconnel in the county who may be interested in initiating PREP in their districts.
