It's Spring now you can forget about Insulation RIGHT?

WRONG!

Don't wait for the next heating season before you insulate. Do it now and enjoy the benefits of insulation all summer. Insulation not only keeps cool air in and warm air out, but it holds the key to conserving scarce energy. It will lower your summer cooling costs and, next winter, save on your heating costs. To learn more about insulation and other ways to save on energy costs, write, call or pick up a copy of our free booklet, "It Makes Sense to Save Energy."

TRACKMEN COMPLETE BEST WEEK EVER

If the first week of meets was any indication, then track has really arrived as a big sport in Manchester. The Flying Dutchmen jumped out to a quick 3-0 record as they swamped both Sand Creek (77.5-50.5) and Britton-Macon (88-64), while just edging a strong Whitmore Lake team, in a thrilling meet Friday. A score of 67.5 to 63.5. Saturday the team had its best showing ever in a major Invitational Track Meet, as they took a strong 3rd in a fine 13 team class 'C' field, at the 23rd Annual Albion College Track & Field Carnival.

POOR LITTLE PIG VICTIM AGAIN

The poor little pig, it seems, needs a full-time press agent just to protect his public image. He so soon recovers from the ridiculous "bacon causes cancer" scare when someone coins the phrase: "Swine flu."

When the concerned consumer was assured he'd have to eat \$6,000 pound of bacon per day for the rest of his life to run any risk, the pig retained his high rating as one of America's favorite foods. But he really had to work at keeping that high rating with misnomers such as "swine flu". This year, need to describe a major health concern in this country, naturally

provoked suspicions on the part of consumers about the safety of eating pork. It also brought concern to farmers about the possibility of their pigs being the carriers.

The National Live Stock and Meat Bd. is working, on behalf of the much-maligned little pig and the pork industry, to dispel the fears of both consumers and farmers. In their efforts to clarify any public misunderstanding regarding the term, "swine flu," the Board has come up with some assurances from authorities in the fields of human medicine and veterinary science:

- (1) Medical concern center on human-to-human airborne transmission of the influenza virus — not swine to human.
- (2) There is no known probability of contracting the disease from eating pork.
- (3) Transmission of influenza from swine to humans is regarded by scientists as a rarity to the point of being a medical phenomenon!

The Center for Disease Control of the U.S. Public Health Service calls the virus a "swine-like" influenza, and the Journal of the American Medical Association refers to it as an influenza "resembling" swine influenza virus. But by the time the public got the word, it had been abbreviated to "swine flu" — a grossly unfair identification tag.

If pigs could picket, they'd probably be waving signs to that effect in an attempt to assure the American public that swine are not the cause of "swine flu".

WHAT'S COOKING IN MICHIGAN

Plan a colorful array of bedding plants to follow your bulbs this spring and you'll have a heart-warming sight all summer long. Plant experts say you shouldn't cut off foliage of any of the bulbs while they are still green. Leaves should be allowed to ripen or turn color first. Meanwhile, bedding plants can hide unsightly foliage with continuous blooms until frost.

Marketing officials of the Michigan Department of Agriculture say Michigan is a leader in bedding plant production. Three major areas of production within the state are the Kalamazoo-Calhoun county area; Detroit's tri-county area, and the Ottawa-Muskegon county area.

You can choose a multitude of flowering annuals, from ageratum to zinnias. There are varieties suitable for shade and sunny spots; low-growing types for borders and window boxes, and taller ones for background accents and cut flowers. Use them to add color to patios, balconies, planters, garden beds or most anywhere.

Annuals will bloom from early summer

until frost with minimum care. Growth is rapid and continuous until cold temperatures in the fall, when the plant's life cycle ends.

Michigan-grown bedding plants are shipped to various parts of the country, many as far south as Florida. May is peak season for sales within the state, and the season continues through June. Petunias remain the most popular annual of them all.

PROMENADE THE PAST

"Promenade the Past: A Designers' Restoration of an Historic Home" will be open to the public every day May 8-24 at the former residence of day May 8-24 at the former residence of the late Allan Seager (1906 - 1968), Michigan novelist and critic, 309 W. Chicago Blvd., Tecumseh, Michigan, now the private home of Rita Blake.

The century old home was built by a Tecumseh grocer-hardware dealer, Jerome R. Weller between 1872-1875, an age in Tecumseh when prosperous small town business inspired residents to build handsome homes on spacious lawns. The Weller home is the city's only example of French Second Empire styling with mansard roof and dormer windows. The dwelling has recently been decorated and refurbished in a style reminiscent of its earlier years through the gracious co-operation of Tecumseh area designers. The home was also the residence of two Tecumseh doctors and reflects the grac-

iousness of its period with beautiful marble fireplaces and mantels, a fine stairway, original shutters, refurbished summer kitchen and nursery.

A donation of \$2 will be accepted for advance tickets and \$2.50 at the house for public tour. At the conclusion of the open house, the furnishings will be removed, but the restoration will remain.

The stately home is located in Tecumseh's historic district, recently designated on Michigan's State Register of Historic Sites.

Tours of the historic district, which preserves the 19th century charm of West Chicago Boulevard, will be given during the open house. A flower show by the Little Garden Club will be May 16-17, 1-5 p.m.

Visitors may enjoy refreshments and historical displays at the United Presbyterian Church, a block east of the home. The Irish Hills Bicentennial Wa-

gon Train Encampment Festival will be at nearby Cambridge Junction on May 22 and 23. The National Bicentennial Wagon Train will camp in Tecumseh May 24, when the open house is expected to close.

Volunteers will guide visitors through the historic home which is open to the public 1-5 p.m. weekdays and 10 a.m. to 7 p.m. Saturdays and 1-7 p.m. Sundays.

Visitors may park in downtown Tecumseh at the Presbyterian Church parking lot, or on street parking or in the city lots.

The Bicentennial event is a festival project co-sponsored by the Tecumseh Area Historical Society, The Little Garden Club and Rotary, which have undertaken the project to promote the thriving downtown historic district and the restoration of older homes.

Proceeds from the event will be used by the groups for community development projects.

describe in detail the dangers and hardships in making the trip so you might know better what to expect. Only the strong and stout of heart should plan to make this journey, though all men, women and children are invited to learn about this new western territory.

Mrs. Lundberg will also be demonstrating the various skills needed to survive in this new land, for there will be no stores from which to purchase supplies as is your custom. Various equipment will be on hand that you may see what is necessary to take along. There will be books, articles and pamphlets which may be examined if you are still undecided about whether or not to make the trip.

We encourage all who are dissatisfied with their present life and those with even the slightest curiosity to come and hear what awaits them in this great new land of Michigan.

This educational meeting is sponsored by the Waterloo Historical Society.

As an independent agent we answer to one boss - our hometown people

We represent several firms, but we work for only one boss - you. That way we can always place you with a company which we think is best for each line of insurance you need. Naturally, we prefer companies like Auto-Owners who look at a loss and take care of it right away, without nagging or delays. That's one of the reasons we're part of the Altogether Family. Like us, they're always there when you need them.

Cochran-Eckles Exchange Vows

THURSDAY, APRIL 29, 1976 THE MANCHESTER ENTERPRISE PAGE 11

On April 24 in St. Mary's Catholic Church of Manchester, Catherine Ann Eckles and Kenneth Cochran were united in marriage.

Father Lewis officiated at the ceremony for the daughter of Mr. and Mrs. Clark Eckles of Marion, Ohio, formerly of Manchester and the son of Mr. and Mrs. Kenneth Cochran of Trenton, Michigan.

Organist was Mrs. Minard Diver, soloist Mrs. George Daubner, Aunt of the bride.

For her wedding the bride chose a white organza gown by Bianchi, featuring a sheer yoke and alcon lace neck band. Alcon lace appliques trimmed the A-line skirt. The cathedral length veil of organza and alcon lace completed her ensemble. She carried a nosegay bouquet of white roses, stephanotis and baby's breath.

Mrs. John Seefeld of An Arbor, sister of the bride, attended as matron of honor. She was attired in a sleeveless gown of soft pink chiffon with caplet ruffle, scoop neck, high rise waist, cascade ruffle down the side and flounced hem. Her nosegay was of pink roses, stephanotis and baby's breath.

Mr. John Seefeld served as best man

while the Mistess Gaylord and Gary Knauss seated the guests.

A dinner and dance followed the ceremony at Leuthausers in Saline.

After a honeymoon in the Bahamas the bride and groom will reside in Dearborn.
