AGRICULTURE IN ACTION

MICHIGAN FARM BUREAU
EDITORIAL

Once again a movement is surfacing to urge Americans to skip a meal in order to combat world hunger. Under a proposed plan, you are to give up one meal a week and donate the cost of the meal to programs to fight hunger. This program is better than those proposed in the past where you were urged to give up a meal in order to make additional grains available for shipment to the world's hungry. But that's the best you can say for it. The proposal still places the burden of sacrifice on farmers alone to feed the world's hungry. Giving up one meal per week out of 21 would theoretically reduce demand for food by about 5 percent. And with the present supply of food available such as beef and pork, any reduced demand would reduce the prices paid to farmers. In addition to the economic consequences to farmers, this would eventually reduce the food supplies available. Apparently, those who advocate this plan didn't consider the consequences.

Farmers agree that funds are needed to support such essential programs as research on high-yielding grains, education and extension efforts to help develop-

ing countries utilize new production techniques and to improve the food distribution system in these nations.

More funds—both private and governmental—are needed to provide the research, education and extension that are necessary to meet both the domestic and international food needs now and in the future. But must the burden of providing the financing be placed on farmers alone? Would those who propose skipping a meal support a plan which directly affected them economically?

Farmers believe that citizens who are genuinely concerned about meeting their responsibilities of feeding the hungry should financially support programs of private groups (which do not tell them what to "sacrifice" in order to obtain these funds), as well as urge the U.S. government to increase its funding for the long-neglected area of agricultural research.

The world needs more food. That's a problem we should all share in solving. But let's beware of programs which sound

good and make the "sacrificer" feel virtuous—but which, in the long run, are counter-productive and only serve to intensify the problem.

CONSUMER PROTECTION NEWS

It's Mother Nature's own seeding time and you may want to take the hint to re-seed your lawn or start a new one.

"Dewy mornings, sunny afternoons and cool nights create ideal growing conditions, and selecting lawn seed is easier than it looks if you read the label," says B. Dale Ball, director of the Michigan Department of Agriculture.

MDA's Plant Industry division enforces the state and federal seed acts which require specific, truthful information to be on all lawn seed sold interstate. If you know what to look for, you can rely on this information to help select the best seed for your lawn.

According to Dean Lovitt, Plant Industry chief, the information includes variety of seed, purity, percent of ger-

mination and date of germination testing. The name and address of the seller or shipper must also appear on the label. Lovitt said state inspectors make spot checks on all seeds marketed in Michigan. They take packaged seeds directly from retail outlets and send them to the MDA Laboratory division for testing to confirm the accuracy of the label. Where discrepancies are found, MDA has the power to take corrective action and this helps prevent any temptation to market mislabeled seeds.

"A key item to look for on the label is the germination date," Lovitt said. "To meet federal-state requirements, germination tests must be made within eleven months."

Reading the label when selecting your seed puts you over the first hurdle in growing your new lawn and if you're puzzled about the type and variety of lawn seed to buy, MDA suggests you talk with your county extension agent or your nurseryman.

Helping Hands

We are again reminding families about our program "HELPING HANDS". This program is designed to help us protect our children when they are not at home any time of the year.

Placards with blue hands are placed in many homes of our community as wordless signs which our children can read as symbols of help when they are in trouble of any kind. Volunteers are instructed to assist your child by contacting you and the proper emergency agency. They are NOT to give First Aid. As a reminder they are also instructed to remove the signs when they are not home.

Whether your child uses this program is entirely up to you. It is important that

you as the parent explain this program and help to locate HELPING HANDS in your area. Won't you please help us protect your child and talk the program over with him.

If you are interested in displaying one of these cards in your home, please complete the form below and return by October 25th.

ATTENDS CONVENTION

Irv Gill and Ted Taggley were delegates last week at the state convention of the Michigan District Optometrist International. The convention was held in Midland, with over 300 Optometrist members and wives in attendance.

Each year the State Convention is held in a different city around Michigan. The main item of business at the convention is the election of a Governor Elect for the upcoming administrative year that goes into effect on October first.

In addition to the election of the highest office in the Michigan District all members have an opportunity to participate in training programs for members and officers of the local clubs. There are currently over 118 Optometrist Clubs across the state of Michigan.

Training programs include chapter management, leadership skills, and a review of possible community programs. "We are pleased to have this oppor-

tunity to join together in this exchange of ideas and concepts. It allows us to be better prepared to work with the youth of our community. And after all, serving young people is what Optometrist is all about." Irv Gill stated. Mr. Gill is President-elect of the local Optometrist Club and will assume office on October 1st.

CASE NO. U-4717 TO THE GAS CUSTOMERS OF CONSUMERS POWER COMPANY:

NOTICE OF GAS RATE INCREASE HEARING and NOTICE OF HEARING ON REVISIONS TO RATES AND REGULATIONS PERTAINING TO CENTRALLY METERED AND RESALE GAS SERVICE

As part of the continued hearings in Case No. U-4717 being held on Consumers Power Company's November 27, 1974 application for a gas rate increase, the Michigan Public Service Commission on July 30, 1976 granted Consumers Power's motion to present for Commission consideration additional evidence concerning the cost of rendering gas service based on a test year ending December 31, 1975, adjusted for known changes in 1976. Prior testimony and exhibits in this proceeding had been limited to a test period of the 12 months ending June 30, 1974, adjusted for certain known changes in 1975. In addition to considering the current cost of rendering gas service, the Commission will also consider the issues of: (1) gas rate design and charges and (2) the appropriate treatment for ratemaking purposes of the Michigan Single Business Tax.

Consumers Power has indicated that its additional evidence concerning this later test period demonstrates a need for additional gas rate relief in the amount of \$18,948,000 over and above the interim rate relief previously authorized in Case No. U-4717 pursuant to orders of the Commission issued on June 2, 1975 and March 8, 1976. Moreover, the additional gas rate relief being requested by Consumers Power is exclusive of any additional revenue requirement which may result when a final determination is made by the Commission in Case No. U-4717 as to the proper amount of Marysville Synthetic Natural Gas Plant costs to be included in Consumers Power's gas rate base.

As a part of its consideration of the issues of rate design and charges in Case No. U-4717, the Commission has indicated that it will consider revisions to the rates, rules and regulations, service standards, and procedures pertaining to centrally metered and resale gas service now being provided by Consumers Power Company specifically including issues relating to rate design and classification as defined in Phase III of Case No. U-4985 which need to be resolved as they pertain to such gas business. Proceedings in Case No. U-4985 began in December 1975 on the Commission's own motion to inquire into the regulations and procedures of gas and electric utilities pertaining to centrally metered customers, including reselling customers, and to provide for appropriate standards and rates for centrally metered gas and electric utility service.

The Michigan Public Service Commission has scheduled hearings on the matters referred to herein as part of the continued proceedings in Case No. U-4717 and has ordered that notice be given of this expansion of Case No. U-4717 to include Consumers Power's request for the additional gas rate relief in the amount of \$18,948,000 and the Commission's decision to include the issues defined in Phase III of Case No. U-4985 as they pertain to Consumers Power Company's gas business.

Notice is hereby given that:

A. A public hearing in Case No. U-4717 shall be held at 9:30 AM on September 22, 1976 in the offices of the Commission, Law Building, Lansing, Michigan, which hearing shall be in the nature of a prehearing conference and shall be held for the purposes of exploring and, if possible, agreeing upon matters which will expedite this proceeding including, but not limited to, the following:

1. Determining the parties to the proceeding, the nature of their appearances and the positions they are taking in the proceeding, as well as the facts they intend to controvert or give evidence of, all in accordance with the provisions of Rule 11 of the Rules of Practice and Procedure Before the Commission.
2. Simplifying and defining the issues in this proceeding.
3. Obtaining admissions as to, and stipulations of, facts not remaining in dispute, the authenticity of documents, and matters of public record.
4. Determining the number and identity of witnesses.
5. Specifying the schedule for the exchange of proposed exhibits and written testimony, and the reduction of oral testimony to written form.
6. Establishing procedures for the hearing.
7. Specifying a further schedule of dates of hearing.

B. Considering any other matters that may aid in the orderly conduct of the hearing and the disposition of the proceeding.

B. Further public hearings in this matter shall begin at 9:30 AM on October 5, 1976 in the offices of the Commission, Mercantile Building, 8545 Mercantile Way, Lansing, Michigan, for the purpose of commencing cross-examination of the Company's witnesses and such further proceedings as may be necessary or appropriate. Public hearings shall continue thereafter from day to day or on such adjourned dates as the presiding officer may set until the matter has been fully heard.

C. ANY PERSON NOT NOW A PARTY TO CASE NO. U-4717 WHO SEEKS TO INTERVENE IN ACCORDANCE WITH RULE 11 OF THE RULES OF PRACTICE AND PROCEDURE BEFORE THE COMMISSION, SHALL FILE WITH THE COMMISSION AT LEAST FIVE (5) DAYS PRIOR TO THE INITIAL HEARING OF SEPTEMBER 22, 1976, AN ORIGINAL AND 12 COPIES OF A PETITION TO INTERVENE, TOGETHER WITH PROOF OF SERVICE UPON CONSUMERS POWER COMPANY, LEGAL DEPARTMENT, 212 WEST MICHIGAN AVENUE, JACKSON, MICHIGAN 49201.

Subparagraph (2) of Rule 11 of the Rules of Practice and Procedure Before the Commission (R 460.21) provides as follows:

"(2) A petition to intervene shall set out clearly and concisely the facts supporting the petitioner's alleged right or interest, the grounds of the proposed intervention, and the position of the petitioner in the proceeding, SO AS FULLY AND COMPLETELY TO ADVISE THE PARTIES AND THE COMMISSION OF THE SPECIFIC ISSUES OF FACT OR LAW TO BE RAISED OR CONTROVERTED."

The Commission will require strict compliance with the above-quoted rule.

D. Consumers Power Company, on or before September 22, 1976, shall serve upon each person seeking to intervene a copy of the proposed testimony and exhibits as filed with the Commission which serve as the basis for its request for additional gas rate relief of \$18,948,000. In addition, the Company shall serve upon each such person a copy of the Company's Motion for Expanded Hearing, as supplemented, and of the Commission's July 30, 1976 Order Granting Motion to Expand Hearing in Case No. U-4717. Proof of service shall be filed with the Commission on or before October 4, 1976.

E. THE GAS RATE INCREASES DESCRIBED IN THIS NOTICE HAVE BEEN REQUESTED BY CONSUMERS POWER COMPANY. THE MICHIGAN PUBLIC SERVICE COMMISSION MAY EITHER GRANT OR DENY THE REQUESTED INCREASE, IN WHOLE OR IN PART, AND MAY GRANT A LESSER OR GREATER INCREASE THAN THAT REQUESTED, MAY AUTHORIZE A LESSER OR GREATER RATE FOR ANY CLASS OR CLASSES OF SERVICE, OR PORTION THEREOF, OR MAY ORDER CHANGES IN EXISTING OR PROPOSED RATE STRUCTURES OR DESIGNS OR CUSTOMER CLASSIFICATIONS.

Jurisdiction in this matter is pursuant to 1909 PA 300, as amended, MCLA 462.2 et seq; Section 4 of 1919 PA 419, as amended, MCLA 460.54; Sections 4, 6, 6a and 6b of 1929 PA 3, as amended, MCLA 460.4, 460.6, 460.6a and 460.6b; Section 3 of 1923 PA 238, as amended, MCLA 486.253; Chapter 4 of 1969 PA 306, as amended, MCLA 24.271 et seq; and the Commission's Rules of Practice and Procedure, 1954 Administrative Code, Supplement No. 54, R 460.11 et seq.

LAMB DAY TRAFFY

Heavy road traffic. Lamb Day traffic is expected to set a record this year with an estimated 500 million motorists in four days on Michigan highways. The Department of State Highways and Transportation will be busy.

The predicted total for the four-day weekend is 2.5 per cent above the 1975

four-day total of 682 million motor vehicles and will affect the general travel environment.

To accommodate the anticipated traffic, all road and bridge construction on state highways will be suspended between 7 a.m. Friday and the sunset starting that Tuesday morning. Daily emergency work will be permitted over the weekend. In addition, State Highway and Transportation Director John P. Woodford ordered an inspection of all detectors, temporary barriers, signing and barricades affecting traffic over the holiday weekend.

Motorists will encounter several major detours and all areas of major construction which may restrict traffic on state highways over the weekend.

Detours are shown on the map.
