PREP PROGRAM AVAILABLE AGAIN

P-R-E-P are the first four letters of the word "preparation". Preparation is what a program for Chelsea and Manchester pre-schoolers and their parents is all about. The letters stand for Parent Readiness Education Project, because parents must be as much involved as their preschoolers in the learning experiences that will be going on again this year at Chelsea North and Pleasant Lake Schools in the PREP program.

The program, entails one morning per week of classroom activities and individually assigned home activities for the remainder of the week. It is designed to make a smoother and more rewarding kindergarten year for the child in the future. PREP began last January under a federal grant. There were two preschool classes, one in Chelsea and one in Manchester. The program is due to start this school year by October 1, 1976, funded by local, county and state funds.

Last spring each school district undertook a general preschool registration. From that information during the week of September 13, 1976, PREP will be contacting parents of children born between December 2, 1971 and December 1, 1972. Parents who are not contacted by September 20, 1976 are invited to call

the PREP teachers, Mrs. Linda Hiett and Mrs. Pat Pasick at 475-9131 ext. 60. The screening will be held at Pleasant Lake School at which time the PREP staff will meet individually with each child to assess the child's learning strengths and weaknesses. This free service is offered to parents to learn more about their child's readiness for school activities. Results will be available to the families upon their request.

To all my Dear Friends back home. My thoughts are with you every week as I receive my favorite newspaper, The Enterprise. WELCOME TO THE STUDENTS OF MANCHESTER

As your parents elected representatives for the provision of a high standard of education for you, our children and students, we extend to you a cordial welcome as you return to school, and we wish you a year full of wonderful educational experiences that will help you to become all you are capable of becoming.

THE ART OF ACHIEVEMENT

You hold in your hand the camel's-hair brush of a painter of Life. You stand before the vast white canvas of Time. The paints are your thoughts, emotions, and acts.

You select the colors of your thoughts, drab or bright, weak or strong, good or bad.

You select the colors of your emotions, discordant or harmonious, harsh or quiet, weak or strong.

You select the colors of your acts; cold or warm, fearful or daring, small or big.

Through the power of your creative Imagination you catch a vision...you dream a dream.

You visualize yourself as the man or woman you want to be.

You see yourself as a triumphant personality striding toward far horizons of constructive accomplishment.

You see yourself as a master servant of the race, ministering to human needs, radiating happiness.

You see yourself as a builder, making a creative contribution to the evolution of modern civilization.

You strive to make the ideal in your mind become a reality on the canvas of Time.

You select and mix the positive colors of heart, mind and spirit into the qualities of effective living: patience, determination, endurance, self-discipline, work, love, and faith.

Each moment of your life is a brush stroke in the painting of your growing career.

There are bold, sweeping strokes of one increasing, dynamic purpose.

There are the lights and shadows that make your life deep and strong.

There are the little touches that add the stamp of character and worth.

The art of achievement is the art of making life--YOUR LIFE--truly a masterpiece.

GOD BLESS EACH OF YOU!!

SAFE—BUT HUNGRY?

Farming is a unique occupation in many ways. Few other industries are as closely governed by Mother Nature, the biological process, market fluctuations, and the whims of those who have little or no knowledge of the profession.

It is also unique in the fact that those involved in the occupation of farming live, work and play in the same area. This has some distinct advantages, to be sure—it's nice to have a snowmobile trail and a field full of pheasants outside your back door. But it doesn't do much for safety records. Whether a farmer is in the process of living, working or playing when he has an accident—if it happens on the farm, he becomes a farm accident statistic.

Consequently, farming has gained the reputation as the third most hazardous occupation in the country, ranking just behind construction and manufacturing. This could be one of the reasons the Occupational Safety and Health Administration has decided to turn its regulatory talents to farming.

According to Undersecretary of Agriculture, John A. Knebel, if accurate statistics were available, they would show that the farmer is a safety-conscious individual. He pointed out that, for years, farmers have been installing rollovers on their machines and buying ones with reinforced frames—long before OSHA started pushing for new mandatory changes, changes that could limit food production.

The automobile kills and injures more people each year than most job-related accidents. If stringent safety standards were applied against the potential hazards of the automobile, only a restricted few would be allowed to drive a car—a car that would be so expensive that private citizens would be unable to purchase one. This hasn't happened yet because the cost benefit ratio is not justifiable.

Farmers are saying that the cost benefit ratio of some of OSHA's farm safety

regulations is not justifiable, either. How can anyone expect a farmer to spend hundreds—even thousands—of dollars overnight on protective equipment OSHA says he must have, when his profits per bushel, pound and gallon are measured in pennies? If OSHA succeeds in its edict: "Ye shall be safe and ye shall pay for it," we could, in the process, also become poor and hungry. And the "H" in OSHA stands for Health. In the pursuit of Safety, let's hope Health doesn't get priced out of the market.

It is the intention of all of us to see that your child's educational, intellectual, and social development is not hindered by the absence of your child from school.

There is to attendance every day and period unless illness or some other very important factor requires that attendance be excused. It is essential that, if it is known that your child will be absent from school, you call the school office as early as possible and we are not tracking the attendance.

Consistent with our classic campus philosophy grades K-12 which means that students at these grade levels are not to be off campus ever without the written permission of their parents and a pass slip from the office of the principal or attendance officer. It follows that the school is not going to tolerate truancy. Even class in the school. This rule is true also for 11th and 12th graders and while they are permitted more freedom, truancy will be the grounds for suspension of these students.

Students absent from their classes (and attendance will be taken each period) and arrived late to the attendance office will be disciplined within the school and assigned to extra duty or removal from the class.

importance of school while helping to make our schools cleaner and more attractive. Naturally, discipline of this nature must be authorized by you, the parents, and the appropriate forms should be in your hands and returned to the school by the time you read this column. Truancy, discipline will be consistent with the discipline of the above and consistent with the Child's Rights Act and an approach of pragmatic humanism. For reasons that are obvious, suspension and/or suspension will not be used as a form of corrective discipline.

In cases of chronic truancy, parents will meet with the Superintendent and the student and if this is not sufficient to keep the student in school, a formal hearing will be held with a committee of the Board of Education to determine whether or not the student will remain in the class he is truanting, be dropped for a semester, or removed from school entirely.

Parents will be informed each time a truancy occurs. If you have not or will not give the school the authority to implement this policy or feel it is unfair to the student, you need not sign the form authorizing it. In such cases, the school authorities will continue to the local education office by the time and make a direct referral of the student, chronically truant, to the Probation Court for disposition and assignment of responsibility.

The implementation of this policy will insure both parents and the school as to the whereabouts of their students at all times and will insure greater safety for the students and a security that school attendance is, at this time, their most important job-ensuring them of a brighter future. Conversely, then it will be our responsibility to see to it that what we teach, how we teach, and how the student learns is as relevant to THESE times as it possibly can be.

This is not a new policy of the Board of Education. It has been on the books for years and years. It is now time to renew its implementation consistently and immediately to all of our students.

Tempt Dessert Lovers with Plum Pandowdy

Here's a special old-fashioned dessert to please everyone. It's a simple deep-dish pie made with fresh California plums.

Covered by a thickly rolled, cold, pandowdy is a perfect way to enjoy plums—now and later. This refreshing plum latticework is especially recommended by a recent sugar contest and fragrance show in the filling.

When choosing the plum, select the blue fresh California plums which have a firm and full-colored. A slightly soft tip on the stem is a good indication of ripeness. It is best to leave plums at room temperature for a day or two. But, which variety? Fresh plums ripen quickly. Refrigerate ripe plums to keep them fresh and juicy for several days.

With the colorful parade of fresh plums now in our markets, now's the time to enjoy them in all our favorite ways—and to preserve some of their plump goodness to enjoy all winter long.

CALIFORNIA PLUM PANDOWDY

- 1 1/2 cups flour plus 2 tablespoons
- 1/2 cup powdered sugar
- 1 teaspoon salt
- 1 teaspoon grated brown peel
- 1 cup butter at temperature
- 2 tablespoons milk
- 1 1/2 pounds fresh California plums, pitted and quartered (about 2 plums or 4 1/2 cups quartered plums)
- 1 cup firmly packed brown sugar
- 1/2 cup firmly packed brown sugar
- 1/2 cup raisins
- 1 1/2 cups natural cereal
- 1/2 cup sweetened condensed milk

Preparation: Preheat oven to 350 degrees. In a large bowl, mix flour, sugar and salt. Add butter, with hands, blend until mixture resembles coarse meal. With fork, lightly mix in milk. Set aside. Turn plums into 8-inch square cake pan. Combine remaining 1 1/2 tablespoons flour with brown sugar, cinnamon and nutmeg; sprinkle over plums. On light buttered board, roll pastry into 1/8-inch square. Place over plums, using rollers. Slash steam vents in top, sprinkle with sugar. Bake in 325 degree oven 30 minutes or until golden brown; and bubble. Serve warm with heavy cream, if desired. Makes 8 servings.

Raisins... An Ideal Snack For Olympians

For the athlete in training or competition, snack foods are important providers of nutrients and energy. A balance of nutrients and an adequate intake of calories is essential to maintaining strength and endurance.

This summer Olympic athletes in Montreal were boosting their energy levels with California raisins, the official snack food of the 1976 Games.

Raisins are an ideal snack for athletes because they're lightweight, portable and easy to handle, as well as being high in energy and taste.

For your own snacking enjoyment, eat raisins by the handful or in these delicious Jogger's Gems. They're a snack to make and eat, like raisins, these cookies are portable, packable and lightweight—perfect for lunch boxes, picnics and outdoor activities.

Olympic GORP, a combination of raisins, peanut butter and high protein cereal is also a convenient, portable and fun snack food.

JOGGER'S GEMS

- 1/2 cup butter or margarine
- 1/2 cup Graham cracker crumbs
- 1/2 cup natural cereal
- 1 cup natural cereal
- 1/2 cup sweetened condensed milk

Mix butter in 8-inch square pan. Sprinkle graham cracker crumbs evenly over melted butter. Add, in layers, the chocolate marshmallows, raisins, natural cereal and sweetened condensed milk. Bake in preheated 325 degree oven 30 to 35 minutes. Cool completely before cutting. Makes 24 2-inch cookies.

CLINTON FALL FESTIVAL

One of the most popular features of last year's Fall Festival was the 5th Regiment Band and this year they will present a concert at the bank parking lot on W. Michigan Avenue at 4:00 pm on Sunday, September 26. This will be preceded by a parade which forms at the high school at 2:30 pm.

The affair opens Friday, Sept. 24 at 10:00 am when the various booths will open for inspection. Friday afternoon there will be a fish fry from 5:00 to 7:00 pm at the United Church of Christ, a presentation by the "kitchen band" at the stage on W. Michigan Avenue at 3:00 pm. Sidewalk sales will be held all day.

Friday's featured event will, of course, be the Homecoming football game with Hudson. There will be a parade at 2:00 pm with the various school floats. The game will begin at 8:00 pm with the crowning of the queen scheduled for half-time.

On Saturday, besides the various booths, that will be open all day, the merchants will offer sidewalk specials, bingo will be in session all day and evening, the pig roast and a beef barbecue will provide excellent food.

Afternoon attractions will include the Sally Corvill dancers, and the belly dancers plus a Tahitian dance troupe at 4:00 pm following a balloon ascension which is scheduled at 3:00 pm at the high school. At 7:00 pm the bicentennial choir will present a program on the stage on W. Michigan Avenue.

On Sunday the chicken barbecue and the ice cream social will form at the school and proceed down Michigan Avenue. This event will be followed by the 5th Regiment Band Concert on the stage on W.

School Board

Michigan Avenue.

A much larger number of booths and other attractions have been scheduled for this year's festival and to say that there'll be something doing Every Minute is no exaggeration.

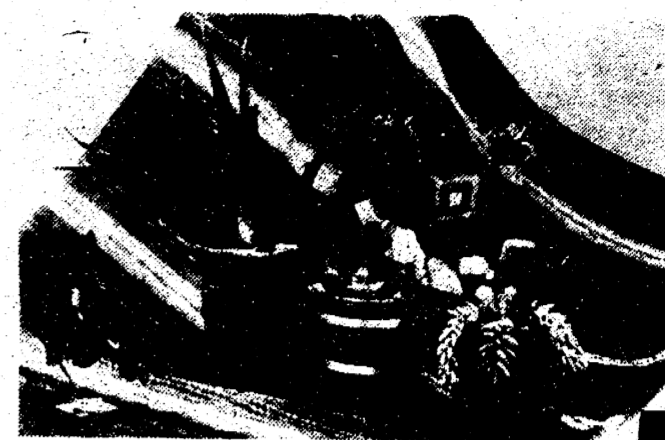

ated unless filled by the 4th Friday of September.

The Board has also approved a resolution to rename the Manchester Public Schools to the Manchester Community Schools. Final approval is pending upon action of the Intermediate District. This action will enable the district to qualify for further state and national funding as well as foundation funding that will broaden the educational base of the district to include all citizens of all ages.

The Superintendent reported that while 20 and 1/3 teaching positions had been eliminated by reduction of some areas of program including study halls, only 8 teachers had to be actually cut from the budget. Green further explained that as a result of 6 vacancies in the district and 4 funded positions being procured, the actual result was a reduction of 8 teachers, 1 of whom was transferred in special education to the Chelsea District. He also stated that as enrollment figures began to develop in the high school program, a large enough number of students enabled the district to retain the foreign language program. Final enrollment figures will determine the solidarity of cuts and further reductions and/or additions may be necessary to carry out the program.

Got a Purple Thumb? ...

Try Cacti and Succulents!

When it comes to gardening, if you have a purple thumb instead of a green one, you may find cacti and succulents your answer to growing plants easily. Especially if you have little time or patience to care for plants.

Cacti and succulents thrive under what are normally adverse conditions—dry, overheated apartments, for instance. Requirements are few—sunlight, low humidity, infrequent watering and sandy soil.

When a succulent and when a cactus? Actually all cacti are succulents, but not all succulents are cacti. The cactus plant family is only one variety of numerous succulents. All succulents have the special capacity to store water in their stems or leaves. And that means you can leave these plants unwatered for as long as a month, and they will probably be thankful for the "neglect."

Cacti and other succulents offer a multitude of intriguing sizes, shapes and textures. Plant several in one container for an instant garden in a pot. Cacti and succulents like to be pot-bound, and their roots require little room. Several pots planted with cacti and succulents make a beautiful desert-like scene.

Weathered wood design planters from Rubbermaid help create a "south of the border" effect for a cactus garden. The holes in the bottom of the pots and their removable saucers prevent overwatering.

and insure proper drainage essential to all succulents. A simple rule of thumb is to water them well when they are growing—April to October—but otherwise not at all unless they begin to shrivel. And let the soil dry out completely between waterings. Blooming varieties require a definite dry period in winter if the flowers are to form.

To make your cactus garden, begin with the right potting medium—a combination of perlite, peat moss, and coarse sand or vermiculite works well. A teaspoon of bone meal will help plants flourish.

Place the potting medium directly into the planter and arrange your selection of cacti and succulents. A variety of shapes, textures and sizes make the most attractive garden.

Grafted cacti, achieved by taking two different plants and cutting them so the fleshy parts join to make a single plant, make interesting additions to a cactus garden too.

Try your own cactus garden. And see how much fun indoor gardening can be—even for the purple-thumb people!

Attendance at three annual two-week sessions on the Madison campus and the satisfactory completion of extension problems between the resident sessions is required for graduation.
The school is sponsored by the Central States Conference of Bankers Associations from 16 Midwestern states. About 1,450 bankers were enrolled this year from 41 states and Puerto Rico.
The faculty of over 140 instructors included bankers who are specialists in their respective fields, practicing attorneys, business executives, economists, and members of over a dozen university and college faculties.

Girl Scout Leaders Needed

Summer vacations are over and school is in full swing. Many girls are asking when their troop meetings are going to start. Diane Schwab, Troop Services Director said she was also concerned with getting those troops started. She said it is her job to organize troops and find interested adults to guide the girls who are eager to be Girl Scouts.

People unfamiliar with scouting may wonder "Why Girl Scouting? What does the Girl Scout movement offer that other clubs do not? The Girl Scout program is an informal educational program designed to help girls put into practice the fundamental principles of the Girl Scout movement as set forth in the Preamble of the Constitution of G.S. U.S.A.

It is carried out in small groups with adult guidance and provides a wide range of activities developed around needs and interests of girls.

Our purpose is to inspire girls with the highest ideals of character, conduct, patriotism and service, that they may become happy and resourceful citizens.

We know we have girls interested in all age levels of Girl Scouts. Now we need to know the names of adults interested in working and playing with girls, but not telling them. If you are a person who likes to see girls grow from learning by doing; including making and admitting to mistakes, please call Diane Schwab, Troop Services Director, 428-8576 for further information.

To be that volunteer person doesn't mean you need to have experience. You can learn while being a friend to girls. The basic requirement for a good leader, assistant leader or troop committee member is that you live by the Girl Scout Promise and Law. You need not be a parent to be an adult volunteer and Fathers are always welcome. There is training for all adults locally as well as thru the Huron Valley council office in Ypsilanti.

Camping, hiking, Pet Rocks, stringing games, pizza parties, visiting McDonalds, sewing, skits, talking, laughing, and many other things the girls want to do while we make new friends. Volunteer to join Girl Scouts and have fun!

Card of Thanks

The Pleasant Lake Softball Gang and I would like to thank the area merchants who sponsored us. Namely, Hank's Hardware, Faky's Superette, Union Savings Bank, Webers Bar, and Lockhart Electric.

Also, I would like to thank the Mothers who helped out at the games.

And to all who were so thoughtful at the final game.

Henry Mansfield

To the customers of the Beauty Shop, I would like to thank everyone for their patience the past few weeks during Alma's absence.

A special thanks to Barb for the clean ceiling and for Peggy for being my favorite Hostess Twinkie.

Sandy

Many thanks to the Manchester Fire Dept. for their prompt service in putting out the hot-pot and grass fire at our farm; without their help the fire would have soon been out of control. Thanks to all the volunteers and our good neighbors.

Jim and Virginia Hendley

The Girl Scouts would like to thank Grossman-Huber Service for sponsoring their fair float.

We would also like to thank Mann's Feed Mill for sponsoring our booth at the Fair.

Middle School Musical Instrument Exchange

This year's 5th graders will soon be getting started on band instruments. 4th graders will also be starting on string instruments. There will be a number of Manchester parents in the market for flutes, clarinets, cornets, violins, violas, and cellos, etc.

In order that we may offer to these parents the option to purchase used instruments we are compiling a list of individuals with instruments to sell.

If in your back closet you have a dusty band or string instrument which you would like to sell, please call Manchester Middle School at 428-7442 and ask that your name and instrument be put on the list. Thank you.

Senior Citizens Workday

They were told the vehicle was headed toward this area. The vehicle was spotted on City Road and stopped on W.
