Cost of Public Works equipment, particularly pickups, was discussed. Scully recommended that anything that is unsafe be taken off the road. Fitzgerald agreed to look into cost factors and bids.

THUREDAY, SEPTEMBER 23, 1976 Jim Mann inquired about the replacement of the water fountain and was ad-

vised that it is on order. Moved by Fitzgerald, supported by Scully that the firm of the extension of Duncan Street from Macomb to Union Street be brought off the table. All year, carried. Padley requested that the interested citizens present be advised of the full situation and as to why it was tabled. After Little's explanation Schaffer asked if Mann's property would be landlocked by the closing. Ron Mann stated that Union Street touches his property. Duncan expressed the Village Planning Commission's overwhelming concern about the way in which the action was taken to close the roadway. Al Holmes questioned if the Village would be setting a precedent in allowing a roadway to be closed in such a manner. Maynard Blossom wished to see the document which states the right of proscription after 15 years. The question was brought up as to whether a street was actually needed at that point, or if people couldn't just as well become accustomed to a different route over a period of time, just as they had once become accustomed to using the roadway joining Macomb Street and Union Street. Larry Leeson felt that the closure created a hazard, as well as congestion on Main Street. He suggested having a one-way street headed west. It was noted that Mr. Lantis owns the old railroad property in that area and could open up an entry to the IGA off Macomb at point further south. It would be immediately across from where the new fire hall

point that there might still not be egress

land in between.

THE MANCHESTER ENTERPRISE PAGE 9 Mrs. Gistinger explained Fielder's

position on the roadway. She suggested that if Council would state that a petition of closure is not an admission of public street so that it could not be used evidence against Fielder, they would willing to submit such a petition. Little suggested that Council accept a petition from Clarence Fielder for Council perusal and legal advice from Attorney Roesch, Moved by Padley, supported Scully to table the issue with anticle pation of receiving a petition from Fielder to close the property in question and to close the dedicated portion of Duncan yeas, carried.

Council wished to check further on maps, tax descriptions, legal liability, and boundaries of adjacent properties. Moved by Scully, supported by Padley to adjourn at 10:55 p.m. All yeas, carried.

Basically, they are made by surrounding a core of egg yolk (obtained from fresh eggs) with a coating of egg white, and
