IN MEMORIAM

In loving memory of George Pittman who passed away 3 years ago July 7, 1975.

In tears we saw you sinking,
We watched you fade away,
Our hearts were almost broken,
You fought so hard to stay,
But when we saw you sleeping,
So peaceful free from pain,
We could not wish you back,
To suffer that pain again.

Sadly missed by wife, Bessie; daughter, Evelyn; son, Dale and family; grandchildren and great grandchildren.

Almost everyone thought the Spur of the Moment Fun Day Show would be postponed, because of the downpour, but we went ahead and had the show, and the rains eased off. We congratulate all of those hearty souls.

We want to give a special thanks to Barb Davis, our judge, and Jerry Friday, her ringmaster, for plodding around in the mud and rain, to judge our show.

The clerk announced she has changed the boundaries for the election precincts to: Precinct 1-All of the Village with the exception of W. Main. Precinct 2-All of the country and W. Main. This should eliminate all waiting at the polls as they are evenly divided. The wage scale will remain the same for the election workers this year, which is \$3.00 per hr. for inspectors and \$3.50 for chairmen. \$2.65 per hr. will be paid for set-up. Enter 9:20 p.m. Mary Keith Ballantine

and Sarah Wykes. Mrs. Ballantine introduced herself as candidate running for the 23rd. District Michigan State House Seat.

With a meeting with the adjoining townships and Village the inspectors received a pay raise from \$8.00 per inspection to \$10.00 as of June 1, 1978, mileage remaining \$5.15 per ml. We will check at a later date to see if the permits cover the cost of the inspections.

It was moved by Burch and supported by Macomber to get the fire hall and fire trucks on the November ballot in two separate proposals. All years, carried. The clerk was instructed to call the insurance company and find out how old the equipment (fire) is when the insurance rates for the homeowners would rise in the area.

Exit Ballantine and Wykes 10:02 p.m. Information on the approval of the Garlick Subdivision was presented to the clerk to be put on file at office.

Lyle Moore requested that the township furnish him a car to do the police and zoning work. At this time the Board does not feel that we could afford a vehicle. He was told that possibly we could contribute a reasonable amount for the use of his car. He was told to figure out the expenses of his car for a three year period and see what he thinks the township is liable for and bring it back to the Board. The Boards feeling at this time, is that we can not properly run our own police department.

Moved by Burch and supported by Macomber to be adjourned at 10:25 p.m. Wilma E. Lentz, Clerk

TAX LIMITATION
FOR MICHIGAN
ELECT JERRY KLEIN

YOUR EAR IN THE 18TH DISTRICT...
YOUR VOICE IN LANSING
MORE JOBS... MORE BUSINESS
CONSTITUTIONAL LIMITATION ON TAXES

The lack of common sense in our government can be seen in our taxing and spending. They want to tax us 2 cents a gallon for gasoline to build a subway in Detroit. But they do not spend enough on our main roads to insure parents are not abused. We are paying the highest taxes in our history and for what? Terrible streets and roads. Sewage systems that are inadequate. A shared legal system. An exploding welfare burden. Our government isn't solving problems--it's causing problems.

We cannot hope to reduce the tax load overnight. We must move ahead on three fronts. First, we must establish a business climate that will attract new business to the state and which will encourage the growth of business here. Applied business means more jobs, higher incomes for all, and less of a tax burden. Second, we must reduce the cost of government and shift spending from unessential to essential activities. Lastly, we must impose limits on the amount of taxes that may be collected and the amount of borrowing by government. Only with limits on what can be collected will there be limits on spending.

ELECT JERRY KLEIN

There is something fundamentally wrong in the way our government and our society are being run. We are being eaten alive by rising taxes, rising prices, red tape, and regulation. Government is growing faster than the rest of society and its overspending pushes up taxes and causes inflation. Further, we the people are being forced to do the bidding of the bureaucrats and the politicians, instead of government serving the people.

We are being treated as if we are nothing or as numbers on some huge list. Politicians are trying to run our lives. For one, I am sick and tired of being shoved and manipulated, and this is why I am running for office. I intend to shove back for the people.

Summer Enrichment Program

Registration is now being accepted for the eighth annual Summer Enrichment program of the Ann Arbor Area Association for Gifted Children, which will be held at Tappan Junior High School, 2251 E. Stadium, Ann Arbor and at facilities on the University of Michigan and Eastern Michigan campuses. A class in Beginning Astronomy for six and seven year olds will begin July 10 at the U-M Exhibit Museum Planetarium; however, most classes will be held July 24 through August 11.

These classes are designed for children who are interested in a greater challenge and in exploring a variety of subjects in depth. A child need not be identified as gifted to participate though the classes are taught at an accelerated level. Class size is limited to 10 unless otherwise stated in the brochure to give students a maximum amount of instruction.

Courses being offered for beginners include "Animalmatics", "Dinosaurs", "Insects-Butterflies-Bugs and Families", "Experiments in Science" and "Math Games". Early elementary students might enjoy "Math Games and Activities".

A few days ago I was looking over some old ads. Some run by us, some run by other banks.

I was particularly drawn to those ads based on the need of a safe deposit box.

In nearly every instance the stress was on fire and theft. "Rent a safe deposit box from us and be free of fire and theft worries."

Really we don't seem to have that many fires or thefts around here to make a safe deposit box all that valuable.

Oh, there are fires and there are thefts. I won't quarrel with that, but I believe the main reason everyone should consider a safe deposit box is the habit we all have, forgetting.

You forget where you put this... where you put that. Carelessness, never intentional, of course, and a valuable paper is lost.

At least when you bring all that stuff down here and place it in your safe deposit box you just can't mislay it, ever.

So, be safe from fire and theft... and your own carelessness, rent a safe deposit box for your own good.

"Hocus-Pocus", "My Favorite Week Last Summer", "Hi-Performance Poetry" and "Astronomy". Later elementary youngsters can choose "Poetry", "Advanced Astronomy", "Advanced Geology", "The Private I", "Batk and Wax Designs", "Math Games and Activities", "Magic", "Bog Exploration" and "Nature Exploration". Students from ten years of age may select "Plaster Sculpture", "Printmaking", "Reactions to Elements", "Exploring Physical Science" and "Introduction to Computers". Tuition ranges vary from \$3.25 to \$15.00, but the average cost is \$12.00 for ten hours of instruction. All of the classes are taught by specialists in a particular area with several university professors lending their expertise to interested children.

EVERYBODY WINS!

(Guest Editorial by Mike Rogers)
Most people in the agricultural industry are familiar with the benefits of grain exports. Exporting grain and other farm products gives farmers better prices and helps cut down the country's balance of trade deficit.

But how do you justify grain exports to your city cousin? To him, it seems that selling our food to other countries just makes it more expensive to consumers in the U.S. If we kept all that production here, it would lower grocery store prices...right?

Wrong! If there were no grain exports, U.S. farmland would have to be taken out

of production. There is not enough demand in this country to use all that our efficient farmers can produce. If the acreage was cut back, farmers would have to be paid a higher price per bushel in order to stay in business...and the consumer is the one who would pay that higher price.

Henry Ford demonstrated the advantage of economy of scale. He made cars on an assembly line, and the sheer volume of cars produced made Model T's cheap enough for every family to afford one.

It's the same thing with grain production. When farmers have overseas markets, they can produce and sell huge volumes. The economies of scale means the price per bushel can be fairly low and farmers can still make a profit.

So you see, everyone wins with farm exports. The country benefits by having something to help pay for our numerous imports. The farmer gets a better chance to make a profit. And the consumer gets the cheapest, best quality food in the world.

PICKLE BRUSSELS SPROUTS FOR NEW TWIST ON ABUNDANT NUTRITIONAL VEGETABLE

The chief source of vitamin C and a rich source of other nutrients for ancient kings and commoners was cabbage. While the Belgians long ago discovered the idea of "preserving" this healthful vegetable by making sauerkraut, the home economists at the Ball Corporation have come up with a new way to savor the tiny cabbages we call Brussels sprouts. Take advantage of the current abundance of this crop by pickling some jars to enjoy now or later with cold cuts or to give as a small, thoughtful gift.

DILLED BRUSSELS SPROUTS
2 pounds Brussels sprouts
4 heads dill
4 cloves garlic
3 teaspoons salt
1 teaspoon cayenne pepper
2-1/2 cups vinegar
2-1/2 cups water

Cook the Brussels sprouts until just tender (be sure to leave them whole). In a separate pan, combine water and spices and boil for 5 minutes. Pack the hot Brussels sprouts into hot Ball jars which have been sterilized, leaving 1/4 inch head space. Place one clove of garlic and 1 head of dill into each jar. Pour hot vinegar solution over Brussels sprouts, again being sure to leave 1/4 inch head space. Adjust Ball dome lids and Ball bands. Process for 15 minutes in a boiling water bath canner. Yield: about 4 pints.

KITCHEN & GARDEN NOTEBOOK

HOME CAN BEAN SOUP NOW FOR FAST, NUTRITIOUS MEALS LATER

Soup makes the beginnings of a healthy, hearty meal for the family this time of the year, particularly if the soup is made with navy beans, a good source of protein.

The home economists at the Ball Corporation have come up with a nutritious way to make soup now and can it for a tasty, time-saving meal in the future.

BEAN SOUP
2 cups (1 lb.) dried navy beans
1 ham hock or 1/4 pound salt pork
1/2 cup chopped onion
1/2 hot red pepper
Salt to taste

Cover beans with cold water and soak 12 to 18 hours in a cool place. Add meat, onion and pepper; bring to boiling. Cover and simmer 2 to 3 hours or until beans are mushy. Remove meat and cut into small pieces. Press remaining ingredients through a sieve or food mill; add meat. Add boiling water, if necessary, for desired consistency. Salt to taste. Pour, hot, into hot jars, leaving 1 inch head space. Adjust caps. Process pints 50 minutes, quarts 1 hour, at 10 pounds pressure. Yield: about 5 pints.

Please keep in mind that beans are a low acid food and therefore must be canned in a pressure canner for safety. The processing time given for this recipe is for canning at altitude.

JAYCETTES MEETING

The monthly meeting of the Manchester Jaycee Auxiliary was held July 5 at the home of President Sandy King. Girls who helped the Jaycees with children's games at the Fourth of July picnic were thanked. The children who participated enjoyed the penny scramble, relays, and bubble gum contests.

Plans were finalized for the Art Show to be held on the Middle School lawn, the afternoon of July 20th. Interested artists and craftsmen will be asked to call Janice Stautz at 428-8827 to reserve a booth. Several new artists have expressed interest in displaying their talents this year.

Various fair projects were discussed, among them was the Jaycee Kid's Day games to be supervised. The fair booth this year will feature a paperback book sale or exchange along with various other items which will be for sale.

Socials for the summer include a Tupperware Party, a pot-luck picnic for district officers, a family picnic, and a raft party at Vineyard Lake. Refreshments served by Pat Berke concluded the evening.

Mary Keith Ballantine

Mary Keith Ballantine, Republican Candidate for the House of Representatives, has a "listening attitude" identified as a Counselor -- she listens to people and hears their concerns. Her eight years as a Jackson County Commissioner have helped her understand government's role.

Ballantine feels that we need to stop the growth of government. "Government's role should be to protect and serve. It should help people help themselves."

Legislation to strengthen families must be a priority. "The erosion of family life has become a major concern in this country. We need to help people take more responsibility as individuals and to expect less from government."

Mary Keith Ballantine has served eight years as a Jackson County Commissioner. She has worked on the Finance Commis-

sion, Region II Planning Commission, County Agencies Committee, Public Works Board and the Salary/Labor Committee. It elected, Ballantine will give full time to the people of the 23rd District. "I believe my responsibility as a Legislator is to re-establish the trust of the people in their elected officials. I will be responsive to citizens requests."

Mary Keith Ballantine is married and the mother of two grown children. Her husband's career is in banking. She serves as a Elder in the First Presbyterian Church and is active in the American Association of University Women. She is a member of the National Committee to Reduce Government Paper-work.

"My desire to serve in the House of Representatives comes from a lifetime interest in community government," says Ballantine. "One person CAN make a difference."

Jeff Price and Mike Wade scored three runs each while Mike Barnes and Drew Sprague each scored twice. The Orioles record is 1-1 after the first round of play.

At the other end of the league the Braves continue their undefeated march

with wins over the Royals and Dodgers. Strong pitching by Jeff Catanese and Tom Malcolm have paced the performances of the Astros. In addition to a good relief performance against the Royals, Jeff Catanese hit a three run homerun and scored three runs himself. In the winover the Dodgers, Doug VanDeven homered with two on base and scored four runs himself.

Coming on strong in the middle of the pack are the Yankees who have won their last three games. Ralph Finley pitched a fine one-hitter against the second place Athletics as the Yankees upset the Athletics handing them only their second loss at 8-2. The Yankees banged out a total of 12 hits. The Yankees also defeated the Pirates with Jeff Katapol and Ralph Finley teaming up to pitch the Yankees to a 10-7 victory.

Council Proceedings

June 26, 1978
Council met in regular session with the meeting called to order by President Schaffer at 7:00 p.m. Present were Althouse, Daniels, DuRussel, Fitzgerald, Koebbe, Rigg and Zsenyuk; absent Duncan. Minutes from the June 5, 1978 regular meeting were approved in a motion by Koebbe, supported by DuRussel. All years, carried.

Moved by Fitzgerald, supported by DuRussel that a resolution be drawn up to raise the fee schedule for inspector's fees to cover the new rate of \$10.00 per inspection. All years, carried.

For the moving of dirt within a certain distance of a river, lake, stream, etc. the DNR Act 347 has numerous requirements. Claran Knass, Sr. and Bruce Daniels are the only qualified inspectors for such projects in the Village. DuRussel questioned whether the Village was going to set up a rate schedule for such permitted work. Schaffer suggested that DuRussel and Daniels get together and work up a proposed rate schedule.

The rezoning of several parcels of property requested by R.E. Limpert had been set for July 13, 1978. However, due to the uncertainty of a quarant because of vacations, it was moved by Fitzgerald, supported by Althouse to set the hearing for August 7, 1978. The properties will be considered in the following order: 1) Thomas Morgan Addition, 2) alley, 3) property north and south of Duncan Street. All years, carried.

Schaffer advised Council that the Village had progressed to number 97 on the list for Federal Sewage Funding.

Koebbe presented Council with a copy of Acting Public Works Superintendent Don Smith's report of Public Works activities for the prior week. Streets were cleaned and roadsides mowed. Parks were mowed. The sewer and water ditch on Main and Adrian Streets was prepared for paving. Water valve tops were repaired. Koebbe remarked that he had had a number of complaints about fire crackers. Zsenyuk reported that 82 mailboxes had been destroyed in surrounding townships due to fireworks. Under present state law police cannot do anything unless a complaint is filed for disturbing the peace against individuals.

Zsenyuk presented the police report for

May, 1978. He commented that complaints have increased by about 100 over those received to date last year.

An ordinance to deal with coin operated centers was introduced. Moved by Althouse, supported by DuRussel to adopt Ordinance 106 COIN OPERATED CENTER ORDINANCE with the fee of \$100.00 to be inserted for an annual license. All years, carried. (Copy of ordinance attached)

Rigg questioned what had happened on the agreement of last Council meeting to leave the East gate at Carr Park open from 5:00 p.m. to 8:00 p.m. daily. Zsenyuk replied that the police had decided to keep it locked even during those hours, because after a trial period they had encountered the same problems as before.

It will be open all day on Sunday, however, Rigg indicated that he was setting up a meeting with the township supervisors from the surrounding townships. Mr. Masten, a representative of the Chicken Broll, a Manchester Athletic Boosters representative to discuss a recreation complex which would service the community as a whole. The meeting will take place the later part of July. He had had a meeting with Clarence Fielder and Bart Barrels about the summer recreation program. They were working under the same budget as last year. They did request several loads of dirt for the baseball fields. The posts which are to be reset by the youth from the WORC program will be painted brown this year.

DuRussel reported that Samonek can be reached for plumbing inspections from 4:30-6:00 p.m. daily and 1:00-3:00 p.m. on Saturdays. DuRussel brought up the point that presently the Village is not charging a fee for zoning changes, as is common practice in other communities as well as the townships. The Village must pay for the notice publications, legal fees, certified mail and clerical work. It was recommended that DuRussel see about having a resolution drawn up, or whatever is necessary to implement a fee for zoning changes. Between \$150 and \$200 were the figures discussed.

Zsenyuk reported on a meeting of the Manchester Village Association which he had attended in conjunction with the proposed Art Fair scheduled for August 12, 1978.

Rigg asked Althouse and Zsenyuk to consider revising parking fines prior to the winter months.

Koebbe commented about the north of Main Street parking proposed by the Manchester Village Association members. He said the plans sound excellent thus far and had committed the Village to lining the completed parking lot, as well as upgrading the Village portion of it.

Schaffer advised Council that McNamee, Porter and Seeley are being employed by Emory Garlick on Deutschgrat Subdivision to inspect plans and make certain that proposed sewer and water plans would be suitable for annexation to the Village should that ever come about.

Schaffer offered the name of Dealoris Richardson for appointment to the vacancy of clerk, effective July 1, 1978. Moved by Fitzgerald, supported by Koebbe to

approve the appointment of Dealoris Richardson as Clerk from July 1, 1978 until the annual election in March of 1979. All years, carried. Mrs. Richardson was then sworn in.

Limpert stated that he had received a copy of the Village attorney's opinion of June 19, 1978 (copy attached) indicating that Clinton, Washington and Macomb Streets are closed. He asked for Council's statement in that regard. Moved by Fitzgerald, supported by Koebbe that Council accept Roesch's opinion as presented in a letter of June 19, 1978. All years, carried.

Moved by DuRussel, supported by Rigg to adjourn at 9:17 p.m. All years, carried. Mary H. Wheeler, Clerk

MATURITY: Six Months
MINIMUM DEPOSIT: \$10,000

The interest rate on the date of issue of this new Money Market Certificate is equal to the average yield on six-month U.S. Treasury bills (on a discount basis) in the latest weekly auction. The rate on Treasury bills varies from time to time. But the rate at the date of the purchase of your certificate determines the rate paid by the bank at maturity - six months later.

Here's new flexibility for investors who want to earn a high rate of interest in a short period of time.

LONG TERM SAVINGS CERTIFICATES

Per Annum
Quarterly Compounded

MATURITY: 8 Years
MINIMUM DEPOSIT: \$1,000

Here's the highest bank rate permitted by law for the serious investor/savor interested in building an estate or in providing funds for retirement.

Interest can be paid one of two convenient ways:
Growth Option. Have the interest earned reinvested in your savings certificate, adding to the principal. That way, you earn interest on your interest.
Income Option. The interest you earn can be credited directly to your Central checking or savings account. Or mailed to your home.

NEW: 8% QUARTERLY COMPOUNDED INTEREST PAID ON IRA'S!

20¢ A COPY

THE GROWTH OF A COMPANY

By J.A.W.
Many years ago it happened that I walked into the barn which was then located on my property to discover inside a man reading through copies of old discarded "Time" magazines. I had always been more or less of a peep rat for keeping old magazines and many of the copies were 15 and 20 years old. "Good Lord, Harry" I said to the man, "what interest do you find in those old copies?" "Well I'll tell you" he said, "it is interesting to read what all the Great men thought ten and fifteen years ago and how wrong they actually were. It is too bad that they are all dead now and can't tell us just what mistakes they made."
This thought was again brought home to me the other day when NBC announced that a recent study showed that if you add all the ages of all the people living in the U.S. today and divide that total by the total population your answer would be 30. This means that over one half of the population today was not even born at the time of World War II. It also means that there were even less people alive at the time that a company which is now an integral part of Manchester was formed. In fact to the best of our knowledge there are only two still alive of all of those who were with the company at its infancy. And so I feel that at least one of us should record all the happenings and aspirations which started a small company and helped it grow into what is now known as Double A Products Co., a wholly owned subsidiary of Brown & Sharpe Mfg. Co. Double A, to shorten its name, was started in Ann Arbor, Michigan, during 1934. At that time the world was in the depth of its greatest depression when the unemployment rate was at least twice as high as during the most recent depression. Almost one-fourth of the entire work force was out of work with companies and banks.

Mr. and Mrs. Curtis Day of Manchester have announced the engagement of their daughter, Faye Lynn, to Terry Lee Walter, the son of Mr. and Mrs. Eugene Walter of Manchester.
The couple plans a September 30th wedding.
Miss Day and her fiance are both 1976 graduates from Manchester High School. She is employed at Double A Products and her fiance is employed by Associated Springs in Ann Arbor.

MANCHESTER COMMUNITY FAIR AUGUST 15-19

The dates for the Manchester Community Fair are getting nearer. The Fair Board Members have heard many good comments about the 1977 Fair, that is very pleasing to our ears. The Board has been working all year to put together a Fair that is even better than the last. School has been closed for almost 6 weeks and many people have enjoyed vacations. Now is the time to think about what you can contribute to the Fair. Many of our exhibits are projects which children have learned about in school, 4-H or Scout programs. Now, also we can say many of our exhibits are a product of our Adult Education program. How about sharing your hobbies, collections, and all forms of art with the people who enjoy the Manchester Community Fair?
We on the Manchester Fair Board want to put together the best Fair ever, but it can't be accomplished without the help of everyone. Many people are needed to make a business run smoothly and so it is with the Fair. Call your Fair Board President, Elmen Kopka 517-456-4984 or any other board member, and volunteer your help.

Mr. and Mrs. Kenneth Finrock, Jr., of Manchester, have announced the engagement of their daughter, Barbara Ann to John Frank Kwiatkowski, Jr., son of Mr. and Mrs. John Frank Kwiatkowski of Milan.
The couple plans a July 29 wedding. Miss Finrock attended Manchester High School and is employed at Ann Arbor Terminals. Her fiance is a graduate of Lincoln High School and is employed at Ford Motor Company, in Rawsonville.
