112TH YEAR VOLUME NO.8

THURSDAY* DECEMBER 21, 1978

In Retrospect

Once upon a time there lived out north of town a family named Koebbe. There were the mother and two sons Paul and Earl. If I remember correctly the father was dead but the two boys carried on quite well in his place although they were in their teens at the time.

Both of the boys were quite mechanically inclined and Paul later became the shop foreman at the Hill Piston Service at Jackson. Earl, however, was always fixing something for himself and his neighbors and became a skilled mechanic and welder. Life on the farm wasn't appealing to him and he

found a lot more satisfaction in solving mechanical problems, and in improvising in various ways.

For example, his mother one day demanded that he whitewash the chicken coop and the story was often told that Earl had something else that he wanted to do but she demanded that he do this before he did anything else. So, after some thought he obtained an old dishpan which he filled with the whitewash solution then floated it in on a small board, a half stick of blasting powder, attached a length of fuse placed the pan in the middle of the coop, lit the fuse and retreated to a safe distance. When the fog cleared away after the explosion it was discovered that the interior of the coop was

thoroughly whitewashed and that, after several panes of glass in the window which had been shattered by the blast, were replaced, the operation might be called a success.

More and more of Earl's neighbors, as time went by, called on him for welding and machinery repairs and so it came to pass that he came to town and rented space or went in business with Stanley Jenkins, who ran a gas station and repair shop in the building beside the river across from the Knaus residence on City Road. After being there for several years he found he needed more room and moved to the building that then stood on the northwest corner of the alley south of the Manchester Electric store

on Adrian Street and then again some years later he moved to the present location of "Koebbe's on West Main Street, where he built a larger building.

Some time after he established his business here, he married Milda Eisenmann and they moved to the home where they lived for many years. He was well liked by everyone and the Koebbe's added a great deal to the social life of their age group in town.

But somehow Earl's sense of humor kept expressing itself in various ways and he was usually about one up on the other fellow.

Then came the day after several years, during which time Earl had worked very diligently, never taking a vacation, that he and his good wife decided to take a week or two off over the holidays and go to Florida to investigate the fishing there. So they asked friends to check their house now and then and see if all was well which, of course, they promised to do.

When a couple of their alleged friends found out about this absence they suddenly saw an opportunity to "get even" with Earl for his practical jokes which had been perpetrated on them and for which, up until that time, they had not been able to reciprocate. And so they journeyed to the store and bought a case-yes a case-of Jello.

Of course the hot water heater was on at the house and they took their Jello there and proceeded to fill the bath tub with the near boiling water and then dumped in the whole case of Jello and filled it to the very top. Then they joyously left the premises to return the next day with a pastry gun and artistically inscribed on top of the Jello a greeting worded as a greeting to a Happy New Year.

I have no record of what was said when the Koebbe's returned home but I heard that there was considerable labor involved in removing the stuff from the tub. I don't know whether or not Earl ever gained revenge for this dastardly deed nor whether or not Jello was afterwards a popular dessert in his home but I guess that the whole thing comes under the heading of a good "clean" joke. Perhaps Milda is busy making Jello desserts while Earl is depleting the fish population at Bradenton, Florida. Nowadays their son, however, has proven to be a worthy successor to his father.

One of our readers reminds us of the fact that during the egg buying era at the grocery stores there were two categories for eggs, white and brown and the browns were penalized a couple of cents a dozen, but we always thought that they were best. What's become of all those big plump Rhode Island chickens that graced the Sunday dinner table. The ones you buy from the stores nowadays are a pale substitute for them and for the Plymouth Rocks that were also large and well flavored.

Another former egg producer also reminds us of the time during the depth of the depression when one farmer came into the Smith store with a couple of cases of eggs and inquired, "how much are you paying for eggs today?"

When told fifteen cents a dozen he paused, looked up and smiled and said, "Don't pay for the wear and tear of the hen, does it?"

Christmas Greetings

There is no more significant time than now for all of us to count our blessings, to be thankful that hope springs eternally from the Christmas message and in the great example of the life and death of Christ.
Because God gave to the world His Only Son, there is for all men the promise of a greater and better tomorrow.
This is the season of peace. Christmas brings pause, never an end to the many ills, the many weaknesses of a human world. It will bring a total peace only when all men accept the Spirit of Christ and make Christmas a year-long observance.
For Christians, it is a time of true faith. Each in his own way can renew strength and courage in the quiet stillness of a church, in the darkness of a solitary room, in the hustle and bustle of the crowd. Let us reach out for the hope and joy that symbolizes the Christmas Spirit. There is no better time to find the peace and faith that can be ours because Christ lived and died for all mankind.

REGULATION: KILLING AMERICA'S "GOLDEN GOOSE"

In his annual address to delegates at the Michigan Farm Bureau's 50th annual meeting in Grand Rapids recently, President Elton R. Smith said that the overwhelming volume of government regulation is one of the biggest contributors to inflation. He used the illustration of a Texas slaughter plant which was having problems meeting the conflicting standards of government agencies. Occupational Safety and Health Administration (OSHA) officials said the floors of the slaughter plant had to be rough and dry so workers would not slip. The U.S. Department of Agriculture, however, said the floors had to be smooth for easy cleaning and washed frequently.

"If it wasn't so serious, the situation would be funny," Smith said. "But the tragic part is, farmers will probably bear the burden of any- or as many- changes the slaughter plant has to make to meet the conflicting regulations."

Smith is not alone in his concerns. The Agriculture Council of America recently sponsored a 3-day national telethon to give concerned citizens the opportunity to voice their opinions about the need for regulatory reform. The results, based on the 2,500 calls which were completed, indicated that Smith's concerns are shared throughout the nation.

In answer to the question: How would you rate the need for federal regulatory reform? 50% responded that it was "important." When asked a specific agency whose regulations could be improved, OSHA was cited most frequently, with the environmental Protection Agency also cited.

A whopping 79% of the callers agreed with Smith that the effect of federal regulations on inflation was significant, and they had some ideas on how to improve the federal regulatory process. They said there should be more citizen input, a cost-benefit analysis, simplified language, more self-regulation, and a "sunset" provision. Many of these same ideas were contained in a policy recommendation which voting delegates adopted at the Michigan Farm Bureau annual meeting.

A report of the telethon findings was sent to Congress and the federal regulatory agency officials. Hopefully, they will get the message before it's too late. As Smith warned in his address: "Government regulation, to the extent we are experiencing, is killing America's 'golden goose'—the small businesses and family farms that have made this nation great."

Total deposits for the year, of course, are limited to 15% of earned income.

or a maximum of \$1500 with IRA and \$7500 with KEOGH. IRA and KEOGH accounts can earn the high interest rate of 8% per annum. MANCHESTER JAYCETTES

The Manchester Jaycee Auxiliary held its December meeting at the home of Cheryl Dunn last Wednesday evening with Carol Kemmer visiting. The evening began with social time at 6:30 followed by a potluck dinner. Mrs. Barbara Dunsay was installed as a new member.

Christmas projects. Barb Dunsay volunteered to assist the Jaycees in their annual shopping spree for area children. Auxiliary members will also be assisting the Jaycees in their annual Christmas tree sale on Friday afternoon with Christmas tree ornaments made by Connie Pratt and Janice Statz, which will be presented to the Senior Citizens at their Thursday dinner.

Last Saturday morning Auxiliary members sold several pounds of various kinds of homemade candies to provide funds for the new magazine rack and the extra ramp for the handicapped for the church library. At noon names were drawn for the ham and turkey raffle.

Also on Saturday was Santa's annual visit to the children of Manchester. Celebrating with the Auxiliary's Lunch with Santa were the Jaycees who took pictures of kids with Santa and the Optimists who passed out boxes of candy. Over 100 children participated and thoroughly enjoyed the event. The Auxiliary thanks everyone who helped make this a real success.

Wednesday evening's meeting ended with the secret pal gift exchange and raffle of new secret pals. The next meeting will be held on January 10 at Sandy King's home and will feature a "blind" auction.

EMU Commencement

Eastern Michigan University conferred degrees upon more than 1,100 students December 17 at its Winter Commencement. The graduation exercises were held in Bowen Field House on the EMU campus.

Some 780 seniors were candidates for bachelor's degrees and approximately 375 graduate students were eligible to receive advanced degrees.

DUTCH GRAPPLERS BOW TO CLINTON REDSKINS

The Dutchmen squared off against the Redskins on home turf but it was Clinton cruising to the easy win. I'm not sure of the exact score but it's better forgotten anyway. Our new coach, Doyle Kessel, is trying his best to organize and teach a young squad the fine arts of overpowering another man. You probably recall the name Kessel as he was a top-notch wrestler for us in the past when we had championship teams. It takes time and know how and Doyle knows how and the squad has youth.

BIG AND LITTLE DUTCH FALL TO ONSTED

Friday was not our day as we trekked to Wildcat country after a week's rest. We have played 4 games so far on Tuesday, Friday, Tuesday and Friday, so by having this past Tuesday off I had hoped... The Little Dutch are still on the prowl for that elusive first win as their superiors opened with back to back losses but came up with dramatic victories to even the record, 2-2. Now we dip below 500 with a 2-3 over-all and 1-2 league.

I arrived at the halftime of the J.V. contest with the advantage to Onsted, 28-23. As the third period began I felt good with the height I witnessed on our side. Unfortunately the tally grew for the Cats but not us. As minute upon minute went by I thought this has to stop: 30-23, 36-23, 40-23 and even 44-23 briefly when at under 1:30 we connected on a free toss making it 44-24. We did fight closer before ending it on the low side.

In the varsity battle it was simply that all breaks went their way and that made us look so much worse than we are. I must say Onsted used their 6'5" center much more effectively than anyone else this season. We'd get 1 shot at our hoop while they worked inside for easy 2-pointers or popped

outside, missed, matched the rebound and put it in. Onsted blew it to an over 30 point lead but the final was 71-50.

SCORES IN TOP 5% OF MATHEMATICS COMPETITION

One Manchester High School student finished in the top five percent on Part I of the Twenty-Second Annual Michigan Mathematics Prize Competition and is among 1175 Michigan students to compete in the final examination on Tuesday, December 6. The Manchester student who qualified for the second test was Kurt Sauter, son of Mr. and Mrs. John Sauter, 17019 Pleasant Lake Road.

This competition is sponsored by the Michigan Section of the Mathematical Association of America and is designed to foster a wider interest in mathematics, to focus attention on the necessity for mathematical training in most professions and

trades, and to identify and provide scholarships for capable mathematics students in the State of Michigan.

The 100 winners of the competition will be honored at the Awards Program to be held at Eastern Michigan University on February 17, 1979, with half of the winners receiving college scholarships. These scholarships totaled \$12,250 in last year's competition. The scholarship fund includes contributions from the Burroughs Corporation, Michigan Bell, the Kuhlman Corporation, and the Michigan Council of Teachers of Mathematics.

As a teenager I really thought I would set the world on fire. Now as I have grown older, I'm not so sure someone didn't set the world on fire.

Times are changing. I'm not so sure in any time of recorded history, that same statement, "Times are changing," wouldn't have been true, but I guess it's more apparent to us in our time than it is to reflect on the experiences of others.

It has been only a few short years since our bookkeeping has been largely done by computer. Look how we've grown in size in just a few short years. Look how interest rates change, hours of going business change even our surroundings change continually.

One thing, though, I know hasn't changed at this bank, people. People on both sides of the teller line.

Our bank people are still helpful, friendly kind of folk and our customers are still helpful, friendly kind of folk.

May this never change.

Yes, Virginia, there is a Santa Claus

One of the most famous newspaper editorials of all time has to do with Christmas. It first appeared September 21, 1897, in the pages of a leading newspaper of the day, the New York Sun.

Virginia O'Hanlon, eight years old, was torn between the doubts placed in her mind by playmates and her own sincere belief that each Christmas a jolly old man came to help spread joy through the world. To settle the matter, she posed the question to the editor of the Sun.

Francis Pharcellus Church replied as follows:

"Is there a Santa Claus?"
"We take pleasure in answering at once and thus prominently the communication below, expressing at the same time our great gratification that its faithful author is numbered among the friends of the Sun:

"Dear editor:
"I am 8 years old.
Some of my little friends say there is no Santa Claus.
Papa says 'If you see it in the Sun it's so.'
Please tell me the truth, is there a Santa Claus?
Virginia O'Hanlon
115 West 95th Street

"Virginia, your little friends are wrong. They have been affected by the skepticism of a skeptical age. They do not believe except what they see. They think that nothing can be which is not comprehensible by their little minds. All minds, Virginia, whether they be men's or children's, are little. In this great universe of ours man is a mere insect, an ant, in his intellect, as compared with the boundless world about him, as measured by the intelligence capable of grasping the whole of truth and knowledge.

"Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exist, and you know that they abound and give to your life its highest beauty and joy. Alas! how dreary would be the world if there were no Santa Claus! It would be as dreary as if there were no Virginias. There would be no childlike faith then, no poetry, no romance to make tolerable their existence. We should have no enjoyment, except in sense and sight. The eternal light with which childhood fills the world would be extinguished.

Not believe in Santa Claus! You might as well not believe in fairies! You might get your Papa to hire men to watch in all the chimneys on Christmas Eve to catch Santa Claus, but even if they did not see Santa Claus coming down, what would that prove? Nobody sees Santa Claus, but that is no sign that there is no Santa Claus. The most real things in the world are those that neither children nor men can see. Did you ever see fairies dancing on the lawn? Of course not, but that's no proof that they are not there. Nobody can conceive or imagine all the wonders there are unseen and unseeable in the world.

"You tear apart the baby's rattle and see what makes the noise inside, but there is a veil covering the unseen world which not the strongest man, not even the united strength of all the strongest men that ever lived, could tear apart. Only faith, fancy, poetry, love, romance, can push aside the curtain and view and picture the supernatural beauty and glory beyond. Is it all real? Ah, Virginia, in all this world there is nothing else real and abiding.

"No Santa Claus! Thank God he lives, and he lives forever. A thousand years from now, Virginia, nay, ten times ten thousand years from now, he will continue to make glad the heart of childhood."

FROM MANY LANDS:

Christmas Around The Globe

People from all cultures give this greatest of Holy Days its meaning in rich traditions. Christmas around the world is similar in one respect — it is the celebration of the birth of Christ. One of the most beautiful celebrations of Christmas is offered in Poland. When the first star is sighted in the evening on December 24, the Fast Day is ended and the family gathers around the table for Christmas supper. Barn straw is placed under the table, dishes, and table cloth, and one chair is left for the Christ Child. A "Peace Wafer", received from a priest and given to the head of the family to break and share with the family, symbolizes peace on earth. While eating the wafer, the family and guests exchange wishes for the coming year.

A very old custom, called "The Five Piles of Grain", takes place at midnight in Russia. A sleeping hen is quickly taken from its roost and brought to the kitchen. On the floor are five separate piles of grain, each representing the five fates: Wealth, Poverty, Death, Marriage and a life of Single Blessedness. The hen is still sleepy when put on the floor in the five piles of grain, and its

drowsiness causes great laughter. The hen eventually awakens, and begins to eat, pecking at the pile one by one to determine the fate of the family. It has been difficult for Russia to keep many of its Christmas traditions, but the family reunions for the children still remain.

Christmas in Syria is spent in worship and prayer, in each church a bonfire of vine stems is made in memory of the Magi who were cold from their journey. The children, masked and dressed in costumes, sing from door to door in hopes of receiving coins, candy and eggs in return.

Philippine children deck themselves with wreaths and chains made from tropical flowers and partake in an after-mass parade led by a band. Following the parade there is a feast, with dancing and music provided for the remainder of the day. They do not have Christmas trees, but their homes are decorated lavishly with flags, bunting, palms and many flowers. A candle is also left burning all night, and on Christmas Day the celebrations are brought to a close with the last chime of the church bells.

Holiday Miracle

The miracle of the holidays is everywhere — in the faces of bedazzled children, in the flame of a candle, the beauty of a wreath and in the streets that glitter with festive light.

We are reminded again and again that this is the season of love and compassion, of good will and friendship and also a time to hope and to pray, to savor life and give thanks that we are living in it.

May the true spirit of this great holiday brighten your world.

Add apples; cover and cook 5 to 6 minutes over medium heat, stirring occasionally till crisp-tender. Remove from heat; add lemon juice. Spread hot apple mixture evenly in unbaked pastry shell.

Combine egg, pumpkin, granulated sugar, the remaining salt, the ginger, and cloves; blend in evaporated milk. Carefully pour over apple mix-

ture. Bake in 375 degrees oven for 40 to 45 minutes or till pumpkin mixture is just set. Cool. Serve with whipped cream, if desired.

Dissolve almond paste in milk over a low flame. Stir until the milk is hot and smooth. Stir the almond milk into the egg yolks and cook over boiling water until the custard coats a spoon.

Beat cream cheese, 1/3 cup of the sugar, 1 egg, 1 teaspoon of the vanilla and the salt until thoroughly blended.

In a separate bowl, beat the other 3 eggs, 1/4 cup sugar, dark and light corn syrups and the rest of the vanilla. This should also be thoroughly blended.

Spread the cream cheese mixture into the unbaked pie shell. Sprinkle in the pecans. Carefully pour in the corn syrup mixture. If it is poured in too fast, it will dislodge the nuts.

Try A Different Decorating Idea This Christmas

Some families like to try a new theme, to depart from the traditional Christmas tree decorating, or let the children make the ornaments.

For a victorian looking tree, miniature packages wrapped in velvet or brocade and tied with brightly colored ribbon can be a tree theme. Use traditional lights and other trimmings with it.

A tree made from wire or wooden dowels, with its branches flat against the wall and twined with artificial leaves, can have ornaments or lights in the shape of fruit. This is especially good for mantelpieces or sideboards. Regular shaped, larger trees also can be used, and fruit ornaments or lights used for decorations.

A toy tree — cutouts of animals, toy soldiers, dolls or sleds from foam rubber sheeting can be decorated by gluing sequins on them. Actual miniature toys can be decorated with sparkling particles.

Decorate a tree with birds and illuminated electric candle lights, a theme following the Nativity legend. Birds can be glass, metal, feather or paper. Children can cut birds from last year's Christmas cards or make cutouts from colored or metallic paper.

Don't Let Those Christmas Blues Ruin Holiday

A common seasonal syndrome is characterized by feelings of grumpiness, depression and unhappiness before, during and particularly after the holiday season. Psychologists say there can be many reasons for the "Christmas blues".

One simple explanation is that people are just busier at Christmastime and the increased activity causes stress. Another theory holds that Christmas is traditionally the major family gathering time.

We are together more and there are more opportunities for conflict as much as there are opportunities for relationships to improve. The family gathering reactivates not only old pleasant memories but old unpleasant memories as well.

There is also reactivation of griefs, losses and broken attachments. A recent divorce, for example, disturbs established rituals. Memories of deceased loved ones are rekindled. This can make Christmas a time of sadness.

People often unrealistically expect the holiday season to change things in their lives and when the expectations don't materialize there is disappointment and depression.

To combat the Christmas blues and let-down feelings we

basically have to recognize reality and realize that things don't change that much because of the season of the year.

Cranberry Chains, Popcorn Chains

To make these chains you need a good strong string, as long as you want the chain to be, and a darning needle. Remember that chains are prettier if they are long enough to make loops. For a very very long chain, make several short ones and tie them together. The kind of string the grocer uses is good. Besides the string and the darning needle, you will need cranberries and popped popcorn. Be sure you

don't put any butter on the popcorn.

Thread the darning needle with the string, and tie a big knot on the other end. Then poke the popcorn or a cranberry. Pull it to the end of the string, and poke it through the next piece of popcorn or cranberry. The popcorn or cranberry should be very close so the string won't show through. When the chain is long enough tie a big knot so that the chain cannot come apart.

A chain of just popcorn is pretty; so is a chain of just cranberries. Another nice chain is one with a piece of popcorn and then a cranberry, another piece of popcorn, and so on.

May the blessings of the Holy Family be yours each day and at Christmas.

Hanukkah Festive Jewish Celebration Of Victory

Hanukkah is the festive winter celebration of the Jewish religion. It is an eight day festival that celebrates a victory of a small group of Jewish men over 2,000 years ago.

In Palestine, one hundred and sixty five years before the birth of Christ, Antiochus, "the madman", was determined to make all the people in that land stick to the Greek idol worship. The Jews rebelled under the leadership of a priest, Mattathias. One of his sons, Judas Maccabeus, led a small group which was finally successful in driving out the soldiers of Antiochus and bringing peace. Judas and the Maccabees entered the temple and found they needed oil to light the holy candelabra, the menorah. They could find only a tiny container of oil, but it burned for eight days. For this reason, Hanukkah is called "The Festival of Lights".

In Jewish homes, Hanukkah is celebrated by lighting one of the eight candles of the menorah every night, along with a shamash, or "servant" candle. On the eighth night, all the candles will be burning. Games are played and gifts are exchanged each night. It is traditional for children to receive little gifts of money, called Hanukkah gelt, on each of the eight nights. Families recite blessings of thanks to God for the great miracle that happened so long ago.

The word Hanukkah means dedication. The celebrants rededicate themselves to the ethical and spiritual teachings of Judaism and to the resistance of tyranny and immorality. Hanukkah is a time for personal rededication, too.

The most traditional food during the eight day festival is LÄTKES, golden potato pancakes.

Natural Trim Adds Spirit

The spirit of the holidays can be enriched for you, your family and guests with sights and scents of nature's green, growing gifts all through the house.

In our world of too much plastic, glass and asphalt, the beauty and warmth that nature can add to the holiday season seems more enjoyable than ever. Sprigs of holly, boughs of evergreens, berries, fruits, nuts — arranged in different decorative ways around the home can help create a more natural festive air.

Start preparing for a "natural" holiday season early. Materials are easily at hand and a walk through the woods can reward you with many treasures.

A wreath of fir or spruce boughs or holly is a good beginning. You can mount the greenery on a styrofoam circle, using florists wire or tape to hold the pieces together. Attach a cluster of nuts, fruit or berries to add a bit of color — then a ribbon bow and your wreath is ready.

Centerpieces for the table are easy and the greenery is an effective addition. Evergreen around a candlestick or holly arranged in a bowl are perfect for the holidays.

By adding some growing things to your own garden you could have a source for future holiday decorations. With little planning now the living plants can be right outside your door to enjoy the year round.

Shopping Plan Cuts Hassle

If Christmas has become that time of year when it is more painful to give than receive, it's time to change your shopping habits. You could be frantic over what to give, frustrated by the crowded stores and traffic jams, and filled with indecision, panic and exhaustion.

Some ideas follow that may make your shopping more simplified, and keep you more relaxed.

—Shop on weekday mornings. Be there when the store opens and leave before the lunchtime crowd hordes in at noon. If you work, try and arrange to take an early lunch hour. Wednesday is supposed to be the least crowded day, and in general, all nights are very bad.

—Instead of torturing yourself by wondering whether the selection is better at another store, choose one good store and buy everything there.

—Take along your personal gift

cards when you go shopping and let the store do your mailing. The store is better equipped than you to mail out-of-town packages. The extra cost is a bargain considering wrapping paper, string, insurance and time. As well as, you escape standing in long lines at the post office.

—The quality of mail-order shopping is higher than previous years and it is time saving to shop by mail.

—How about giving something fresh and new? Something unexpected like tickets to a concert, tennis or bridge lessons or an artistic effort of your own?

First Christmas Card Subject of Controversy

Americans exchange billions of Christmas cards every year. There are conflicting reports on who sent the first one, however. According to one source, John Calcott Horsley designed the first card for Sir Henry Cole in 1843. It is a triptych, the center panel of which shows a well fed family at the table. They raise their glasses to toast, "A Merry Christmas and a Happy New Year To You." Flanking them in the end panels are the poor and the hungry.

According to another source, the origin of this custom is sometimes ascribed to the English Royal Academy artist, W.C.T. Dobson. In 1845 he sent friends lithographed copies of a sketch he had made to symbolize the Christmas spirit.

The first English printed cards were very simple: a robin, a sprig of holly or mistletoe, plus a conventional greeting. Pioneers of Christmas card printing in the United States were mostly Germans such as Louis Prang, who opened a shop in Roxbury, Mass. in 1874.

Norm Walz Construction

The Ultimate Christmas Gift

In our era of spiraling costs, we can easily buy gifts beyond our budgetary limits. Perhaps we all overspend at Christmas, unaware of the preciousness of gifts money cannot buy.

There are some things we would like to give but cannot afford. But all of us can give friendship to those who need it; loyalty to those who depend on us; courage to all those with whom we come in contact; kindness to those whose throats may cross ours; understanding to those whose views may not be exactly in accord with our own opinions.

A very special "thank you" for your patronage and friendship.

Turkey Crepes En Casserole

Pancakes: Beat 1 egg just enough to blend; add 1 cup milk, 1 tablespoon melted butter, and 1 cup sifted all-purpose flour; beat smooth. How About Giblet Gravy?

4 chicken bouillon cubes
 4 cups boiling water
 Giblets
 Turkey neck
 1 stalk celery, cut into chunks
 1 small whole onion
 About 3 tablespoons all-purpose flour

Dissolve bouillon cubes in boiling water; add giblets, neck, celery, and onion. Cover and simmer about 2 hours or until giblets are tender; strain, reserving giblets. (Do not add seasonings; the bouillon will have yielded enough.)

To thicken gravy, combine flour and a small amount of cold water; add to broth. Cook, stirring constantly, until slightly thickened. Dice giblets, and stir into gravy before serving. Yield: about 3 cups.

IT'S WONDERFUL... If you've been searching for a share in the Christmas spirit and have not found it, find Santa. Where Santa is, the children come. They bring hopes and dreams, smiles and laughter, and one can read their emotions like the pages of an open book. It's all there — the joy and happiness, the anticipation that comes so strongly once each year and, above it all, the evident atmosphere of peace and good will. Wonderful it must be, for all these same emotions are well known to those of any age who accept and share the true meaning of the Christmas celebration. Yes, there is a Santa; there is a spirit of Christmas. And, those who seek shall find.

In Retrospect

Somebody asked me the other day why, in this series, we didn't enumerate and at least casually mention some of the "characters" of the period about which we have been writing. Well, perhaps we should. There were quite a number who perhaps should be listed in this classification. Here are a few of them.

Carl "Sketchy" Wuerthner comes to mind as one. He was one of the Wuerthner Brothers of the clothing store which was later owned by Walt Schaible. Carl loved his home town and for many years took an active part in its affairs. He was Village President for several terms and worked diligently to make Manchester a better place in which to live.

Carl was always in a hurry with everything he did and sometimes this propensity caused him some problems. He had, over a period of years, developed a healthy wholesale business in various clothing accessories such as gloves, socks, belts and other sundries. He traveled most of the time but was in the clothing store weekends. His brother Gus and Walt Schaible tended the store the rest of the time and all were very well liked and did an excellent business and had an excellent stock.

Gus, however, was quite the opposite in temperament than Carl and this difference sometimes made for very amusing situations. We well remember one morning when Carl had made up a half dozen orders for his wholesale customers in his headquarters in the building next to the store where Lannom's now is located, staggered up to the door of the clothing store with his arms stacked high with packages and fumbled several times to open the store door and enter, but failed to unlatch the door. He gave one last effort and the door popped open and the packages scattered across the floor of the store. "Sketchy", of course became very upset by this and shouted to his brother Gus, who was sitting at a desk in the back of the store, very calmly reading the morning paper "Why'n'ell can't you get off your duff and help a fellow who is trying to do something useful."

Whereupon Gus looked over the top of his reading glasses and very calmly replied "If you weren't so damned lazy and would make two trips as any sane person would, you wouldn't be in trouble."

Whereupon they quit speaking to each other for a couple of hours after which all was forgotten.

But Carl always preached the gospel that there was no place like Manchester and he spent a lot of time and effort to do his bit to make it a better town. Sometimes he was laughed at for his impatience when he wanted to get things done but through his persistency while he was Village President, for example, he accomplished many beneficial things. We could use quite a few more "Sketchies".

I never could find out where this nickname originated, but I guess, in a way, it fitted him.

Shakespeare Club

The Shakespeare Club held their annual Christmas party at the home of Mrs. Aaron Nathan on Tuesday, December 19. A delicious luncheon was served at 1 P.M. by the hostess and her committee, Mrs. Jesse Walker and Mrs. Lowell Parr.

Games were played and gifts were exchanged during the afternoon.

The next regular meeting of the Club will be held on Tuesday, January 9 at 2 p.m. at the home of Mrs. Martin Kessel.

We open a new page in the book of life and may write our destiny day-to-day. We wish for all good health, good friends, only the best of times.
