

Baha'i Convention

On Sunday, October 4, 1981, the Baha'is of Jackson, Michigan hosted the 1981 annual District Convention for the Baha'is of Mainland, Michigan. Approximately 400 adults and children attended the convention which was held at Jackson Community College. Attending from Manchester were Tom and Nancy Rykwalder, and their daughter Emily. On the same day, members of the Baha'i Faith throughout the United States attended their State or District Convention.

The purpose of the convention was to elect delegates who would attend the National Baha'i Convention in April 1982 in Chicago, Illinois to represent Mainland, Michigan in the election of the nine member National Spiritual Assembly, the governing body of the Baha'is of the United States. One of the unique features of the state and national elections is that they bar nominations and prohibit any form of campaigning or electioneering. Instead, the Baha'is prayerfully consider the spiritual and professional qualities necessary for those people designated to represent them and to administer the affairs of the American Baha'i Community and make their selection by secret ballot.

Another unique feature of the annual convention is the practice of "consultation", which Baha'is consider the centerpiece of their administrative system and community affairs. Consultation accords respect and worthiness to every point of

view and encourages every member of the Baha'i community, in whatever forum they operate, to make an open, forthright and dispassionate contribution to the matter under consideration. At their convention, the Baha'is, through consultation, collectively seek the best result, rather than express personal attachment to any program, ideology, or point of view.

Adherents of the Baha'i Faith are located in over 7,000 localities across the United States. The Faith was founded in Iran during the mid-nineteenth century by Baha'u'llah, whose name means "Glory of God". Baha'u'llah taught the oneness of God, the oneness of religion, and the oneness of humankind. In His writings, Baha'u'llah promulgates the equality of men and women, the essential harmony of science and religion, economic justice based upon spiritual principles, the independent investigation of truth, the urgent need for the elimination of all forms of prejudice, universal compulsory education, an international auxiliary language, and a world government for the maintenance of a lasting peace.

the clinic. Volunteer parents were: Jane Barbour, Cynthia Seale, Mary Sue Moore, Nancy Feldkamp, Marley Pagel, Harold Settles, and Sallie Anderson. High school students Becky Broeck, and Kelly Gotts also helped.

Christina Opal, eleventh grade daughter of Mr. and Mrs. Richard Opal, 11670 Bemis Road, has been named the Optimist Club Outstanding Citizen for the month of October.

Chris has participated in the High School Varsity Choir for three years and has also been active in the Christian Youth Ministries Choir at the Milan Free Methodist Church. She has also served as the Church's youth group reporter for the conference newsletter.

Among her hobbies, Chris is partial to musical activities such as playing the piano and singing, reading, writing and drawing.

Historical Societies "Old Time Apple Fest And Tasting"

Every country boy and girl over the age of fifty has a favorite old time apple. The orchard was an important part of every farm and homestead. And our ancestors cared for the apple trees as carefully as their vegetable gardens or chicken flocks. They relied on those bushels of apples and barrels of cider to help them through the tough winters. What has happened to those old time apples with their romantic - sounding names?

Come to the October meeting of the Manchester Area Historical Society at Emanuel Church Hall, Monday, October 19 at 8 p.m. for an "Apple Fest and Tasting". Mrs. Nathan A. Alber will give the history of Manchester's oldest Orchard and Cider Mill. There will also be a sketch of the Johnny Appleseed story.

The longest listing of old and new apple varieties brought to the meeting, will earn the winner a basket of Jonathons. Members and guests will also be in line for door prizes.

For the "Tasting", refreshments will feature an assortment of apple recipes.

The membership will also be given information on possible purchase of the John Schneider Blacksmith Shop as our headquarters and museum. Come and help by registering your opinion on this project.

Don't miss this special evening with the Manchester Historical Society.

She is uncertain of her plans after high school graduation but hopes to attend college. In college Chris will likely make music part of her course of study.

Hit Or Miss by farley

Once in a while I hear or see printed a short tale that I think is rather humorous or clever so I cut them out or write them down and toss them into a large envelope and then when the envelope starts to bulge we get it out and look over our collection and so we would like to share with you what seems to be the best of the mess, so here goes:

Ran across Ben Creason the other day when we went to deliver to him a batch of cards which we had carefully wrapped with a generous quantity of string. When he saw it he smiled broadly and said "Oh goody, now I can save the string. You know I once had an aunt who was a chronic string saver. She had boxes of string that she had saved. One was labeled 'white string', 'one red string', 'one other color's and even one labeled 'string too short to save'".

LETTERS TO THE EDITOR

To The Editor

I must confess to some bewilderment at the manner in which Proposals II and III are presented on the November 9 ballot. Since funding for the athletic program has generated such passionate debate—a debate, incidentally, in which both sides have valid arguments—it appears that the coupling of that proposal with one to fund transportation is, to say the least, ill-advised. Transportation and athletics are two entirely different, unrelated categories of activity, are they not? And surely, they are not of equivalent value to the children of this school district. Yet they appear together as Proposal III while Proposal II which is generically related to an athletic program appears as an entirely separate item. Now one really hates to think that the Board of Education would stoop so low as to try to railroad through the athletic issue by tying it to the transportation proposal. Regardless of the position one takes on either issue, one is forced to conclude that while such a tactic may be legal, it is a clear violation of the spirit of popular self-government in which Thomas Jefferson, for one, placed his trust. Such a maneuver must clearly be below even the

peculiar variety of Christianity to which Mr. Broucek subscribes. Since a similar maneuver last spring had nearly catastrophic consequences, one would expect a responsible Board to avoid such a pitfall again—less than six months later. Yet one shuns the conclusion that the Board is, as a body, stupid.

Could there perhaps have been a temporary lapse of consciousness somewhere? Could there be perhaps a secretarial or printing error? Am I naive in expecting better than this from the "Good Friends of Our Youth?"

C.J. Auldhauser

The Positive Action in Community Education (PACE) committee is pleased at the show of support for the school bonding and millage on the November 9 ballot. Contributions from Xi Epsilon Iota and the Athletic Boosters are sincerely appreciated and will help us promote passage of the proposals.

The resolution of support for the Board of Education recently passed by the Optimist Club is another example of many persons' desire to stop the negative thinking that has been so damaging to our schools and community.

We have a unique opportunity to fix up our buildings, furnish and equip them properly, restore bus stops and athletics—please join us in urging your friends and neighbors to vote yes on November 9.

MIDDLE SCHOOL MICRO-COMPUTER UPDATE

Mr. Boyce and a group of sixth graders are ready to use the computers for spelling.

Faculty and students at the middle school have witnessed tremendous growth in our program over the last two years. It has really been a classic case of supply versus demand. The demand has taken the form of teacher/student interest and enthusiasm and has been so great that it has been necessary to purchase additional equipment.

Two years ago our program began with one computer and a very limited program. Today we have ten machines and one printer at our disposal. This has allowed the administration to schedule computer

time for all grades at the middle school. It is hoped that during the course of the school year all students will have the opportunity to come in contact with our micro-computers.

Student demand can also be demonstrated outside the regular school day. It is not unusual to find students huddles around the computers before and after school or during their lunch period. Such interest and enthusiasm is very refreshing to observe and support.

Members of Mr. Symon's computer group prepare for class.

Hidden Lake Gardens Trip Enjoyed

On Tuesday, October 6th, Anita Kirk of Hawaii, daughter of Mr. and Mrs. Marvin Kirk, who is visiting her family in Manchester, joined sixteen members of the Shakespeare Club for a trip to Hidden Lake Gardens in Tipton, Michigan.

At the Garden Center Building, donated by the Herrick Family, the group was welcomed by Jack Wikle of the staff, and taken for a short tour of the building, ending in the auditorium. Excellent color slides of the gardens, at all four seasons of the year, were shown, along with a most enlightening talk on the background and origins of the gardens.

In 1926, Harry Fee, a prominent Adrian

businessman, bought and developed Hidden Lake and 200 acres surrounding it. He planted rare and valuable trees and shrubs, dug a pond and persevered with his aim and aspiration to create a "living picture of scenic land formations". In 1945 he donated Hidden Lake Gardens to Michigan State University, along with a trust fund to insure the gardens future maintenance and progress. Today it consists of more than 600 acres with six miles of beautifully landscaped roadways and walking trails. It is particularly striking in October with many of the trees radiant in their autumnal hues. After a visit to the Hidden Lake Gardens Conservatory, notable for its three domes, housing, in profusion, arid, temperate and tropical plants, the group drove to Tecumseh for lunch.

Xi Epsilon Iota

The Xi Epsilon Iota chapter of Beta Sigma Phi met Tuesday, October 6, at the home of Betty Herschelman. A very interesting synopsis of activities was given by some of the girls who had returned home from a weekend convention held in Grand Rapids. They all had a fantastic time and we are now looking ahead to next year at the Grand Hotel on Mackinac Island.

We received a delightful letter from our sister Carol Walter who now resides in Modesto, California. We wish she and her family much happiness and success there. We extend "hellos" to her from all of us!

Contributions were made to the United Fund and also to the newly formed organization PACE (Positive Action in Community Education).

Discussion was held concerning our upcoming Talent Sale. It will be November 12. The public will be invited. We are busy preparing for this event. We will also be selling Christmas Wreaths. This project will begin very soon. Call any member to place your orders.

Our program for the evening was presented by School Board Member Bill Bunney. He explained to the group the 2 Bonding Issues and the Operating Millage issue. We urge ALL voters to become FAMILIAR with the issues and vote November 9. We thank Bill for his informative presentation.

Our next meeting will be held Tuesday, October 20 at the home of Kay Martin.

Manchester Resident Completes Marathon

Bob Miller, a Manchester area resident, Sunday completed his first Marathon, running the 26.2 miles in the Detroit Free Press International Marathon. Miller reports the race from Windsor to Belle Isle was replete with cheering on-lookers and even a high school band. Although Miller placed 1933, he says that position out of 5000 runners was respectable. Simply completing the race of that length makes a runner a winner.

Why does Miller run? "I started a year and a half ago when a son and daughter ran across country and track at Manchester High School. Despite back surgery and a broken leg in recent years, I bought a pair of cheap running shoes and gave it a try. Running also rekindled thoughts of thirty years ago when I ran track and cross country in high school. Without that and the inspiration provided by my kids, Manchester High School with its new track and recent excellent running teams, I'm sure I would not be running and feeling so great about it."

Do you have any problems with running? "The evening meal often gets delayed or I eat less and feel better for it. My main problem is a deep regret that present Manchester students may not have the motivation to take up the challenge of a sport, because they may not have the high school experience. Running has done much

for me and I know all athletics have similar significance for many others who participated or who in some way were involved. I only hope the Manchester voters see it my way in the up-coming millage election.

Hit Or Miss

And then in reading a biography of William Howard Taft we noted a tale about that gentleman when he was asked to deliver the commencement address at a boys' school. He elected to speak on "How To Succeed."

As he entered the auditorium he noticed the word PUSH printed in bold letters on the door. Here was the theme for his talk. At the conclusion of his talk he said, "Boys, my advice to you can be summed up in one word. The word to which I refer is..."

Without turning around he pointed to the door. There was a moment of silence, then laughter from the graduates. Puzzled, Taft took another look at the door. Printed on the inside was the word PULL.

Manchester's United Way

Pictured: front row, l to r: Helen Rigg, Kim Smith, Faye Walter, Judy Schneider. Back row: Vince Horning, Irene Wurster, Judy Steele, Carol Lareck, Deb Serafin, Clarence Fielder and Russ Copman.

Double A Products Co., Manchester's largest industry and employees have been strong supporters of the United Way over the years.

Clyde Nixon, President said "As a member of the community, we have always encouraged our employees to participate in the United Way and have been very pleased over the years with the extent of their participation. Double A has always believed it has a responsibility to the communities in which we are located and the United Way is perhaps the most significant single vehicle for showing our involvement."

Mrs. Victor C. (Irene) Wurster, Secretary to Double A's President, is heading this year's employee payroll deduction campaign team. Irene is a long time United Way campaigner and says "Our employees support the United Way and they are again responding generously to this year's appeal."

Total contributions and pledges are not yet available. Last year the corporation's gift was \$3,200.00 and employees pledged \$8,895.00, a total of \$12,095.00.

This year the company also sponsored the campaign kick off dinner meeting for volunteers as a plus contribution.

This reporter had the privilege of interviewing several Double A officers and employees and came away with a better understanding of the size and vast scope of the company's operations as well as the concern and interest the management team and employees have in our community and the company's impact on our local economy.

Double A's officers are: Clyde Nixon - President, Ron Loup - Vice President, Engineering, Richard Lewis - Vice President, Manufacturing, Vince Horning - Vice President, Fluid Power Systems, Carl Crankshaw - Controller, Charles Mattoff is Industrial Relations Manager.

Double A was established in 1934, and during the 1930's and 1940's, manufactured a wide range of machine products and machine tools. In 1940, the company moved from its original location in Ann Arbor to Manchester, the present headquarters.

Speed, a Detroit manufacturer of industrial hydraulic valves and moved the company to Manchester. During the late 40's and early 50's, hydraulic valves designed for ordnance applications enabled the company to develop superior design capabilities which in turn, were focused on the industrial solenoid valve market. When Brown and Sharpe acquired Double A in 1957, hydraulics capabilities were expanded again and in the late 50's, developed the first plug-in solenoid valve, a key product to increase productivity in automotive and other large manufacturing plants.

The company has recently opened a second plant in Statesville, North Carolina.

Double A is a subsidiary of Brown & Sharpe Mfg. Co., a world wide 150 year old multi plant organization with headquarters in North Kingston, Rhode Island. Brown & Sharpe has six plants in the United States and ten in Western Europe. They specialize in the manufacture of machine tools, industrial products and industrial hydraulic equipment.

During the past 5 years sales of locally manufactured components have increased from 15 million to 28 million dollars, the annual payroll has gone from 3.9 million to 7.3 million dollars and 2.8 million dollars have been expended for new machinery and equipment. Currently 393 people are employed.

Clarence L. Fielder, Chairman of the Industrial Division of this year's United Way campaign, is expecting to meet his assigned quota of \$15,772.00 which is 60% of the \$26,286.00 campaign goal.

Fielder, President of Manchester Tool & Die, Inc. and a director and past President of Manchester's United Way says the employee campaigns at Blowmolding Machinery Div., Hoover Universal, Double A Products Co., Chrysler Proving Grounds, Manchester Plastics, Inc., Michigan Gas Storage Co. and Pinnacle Engineering Co. are well underway and off to a good start.

Campaign Chairman, Dr. Glenn C. Lehr, Jr. announced that as of October 17 contributions and pledges total \$1,433.00.

Records Broken At Bloodmobile

Pictured: Henry Notten, Five-gallon donor and J.P. Rorsbacker, Four-gallon donor at the Bloodmobile in Manchester, Monday, October 19. Both are employees of Manchester Tool and Die.

The past record was 218. It was a fantastic day according to the professional staff that finds coming to Manchester is always most rewarding. Congratulations to all donors and the many volunteers who worked hours for this success.

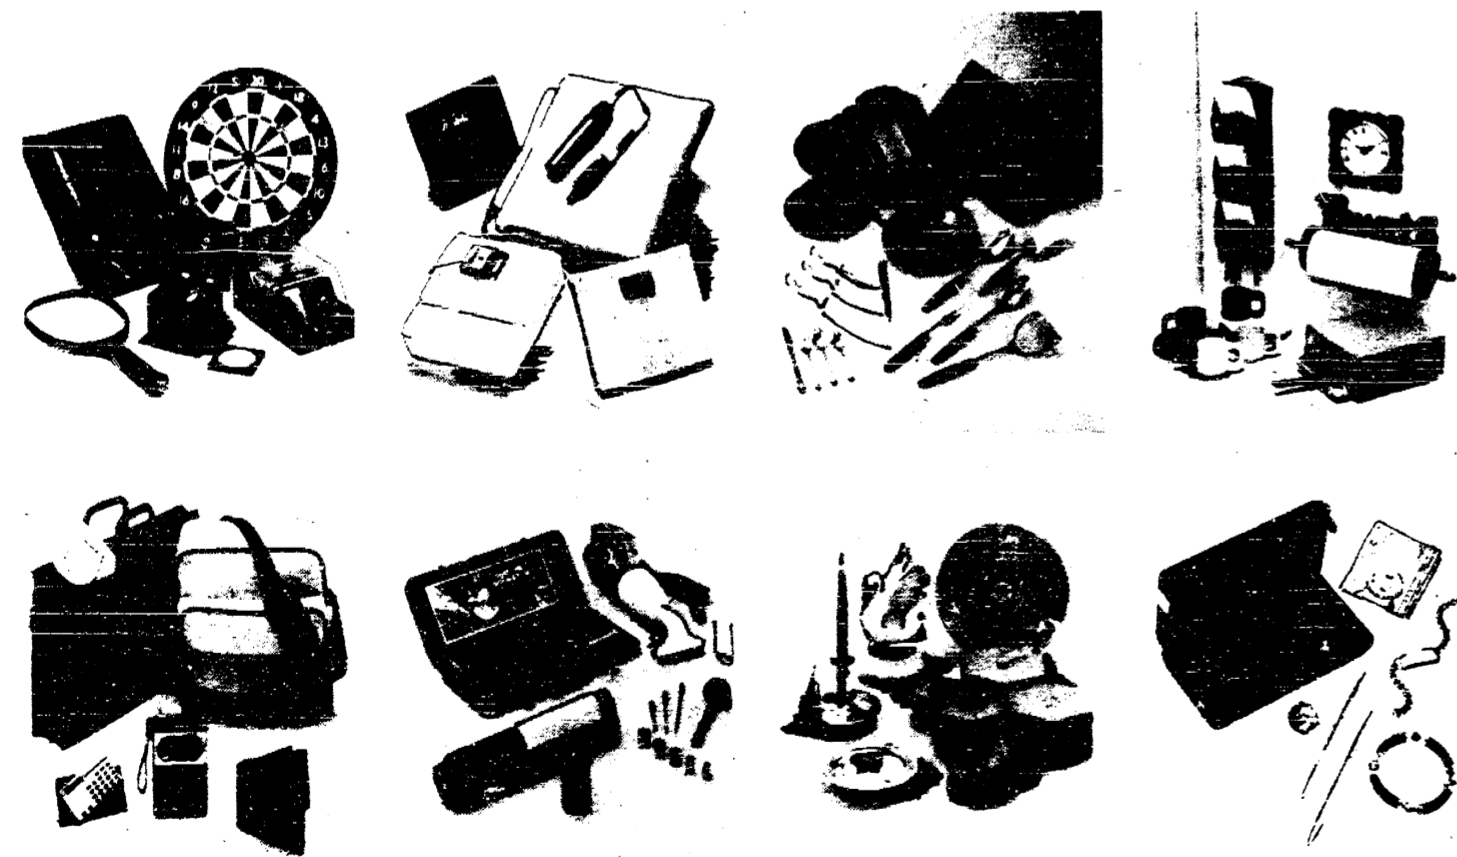

The Gallon donors are becoming outstanding in the area and there were 23 this time in the following categories: 1 Five-gallon donor, Henry Notten and 1 Four-gallon donor, J.P. Rorsbacker, 60

3 Three-gallon donors, Larry Becktel, William Panches and Edward P. Steele. The 3 Two-gallon donors were Tom Lounsbury, William Schwab and Larry Wright, all from Double A Products. Then, 15 One-gallon pints were given to Michael Berry, Walter Bird, Rick Brocht, Arthur Feldkamp, Susan Fielder, Douglas Flint, Dennis Hatt, Lester Janish, Dulce Kappler, Robert Novess, Virginia Novess, Donald Pitock, Merlin Reichert, Jeff Schaffer and Joseph Voytas.

All of the industries in the area and the Churches are to be congratulated for their recruiting efforts, and the four drop-boxes for donor cards were unusually effective. It was a great contribution to the community.
