It's Luminaria Time Again

For the past four years now you may recall the tiny bags with candles that illuminated many of the streets in Manchester on Christmas Eve. This year the Manchester Womens League and Ann Arbor Bank & Trust are sponsoring the fifth annual Luminaria.

The price is only \$2.50 per house, which includes the bags, the sand, and the candles. Everyone is invited to participate in this Christmas Eve event.

If you are willing to work on the Luminaria please contact Karen at 428-9115 on Monday, Wednesday or Friday. We need one job captain for each side of each street. Please call as soon as possible. Christmas Eve will be here before you know it!

The Luminaria is said to have its origin in the sixteenth century, when Mexican Indians set many Luminarias (bonfires) on the patios of their churches and on the flat roofs of their adobe homes on Christmas Eve to light the way for the Holy Couple. In the cities, these bonfires came to be replaced by an ingenious arrangement in which a paper bag was weighted down with sand and a small candle placed inside. The American version known as the Luminaria is said to have begun in the Southwest when the first wagon trains arrived from St. Louis in the early 1820's.

Today in the Southwest, homeowners put out thousands of paper bag lights in front of their homes. Visitors to this area have been so impressed with the Luminaria displays, that the custom has spread to many sections of the United States and Canada. For the fifth year Manchester residents will join together in lining their streets with candles.

"On Christmas Eve a candle light to shine abroad through Christmas night. That those who pass may see its glow and strangers may each other know."

Tri-Church Christmas Bazaar December 4th

The 13th Annual Tri-Church Christmas Bazaar will be held this year on Saturday, December 4th from 9 a.m. to 3 p.m. at the K of C Hall, East Madison St., Manchester. The churches who sponsor this event are St. Mary's Catholic Church, who is the host church this year, Emanuel United Church of Christ and Manchester United Methodist Church.

Items for sale will be baked goods (featuring stollen pizze, snitz brod, German pretzels, mincemeat and candy) handcrafted items. Holiday decorations, and handcrafted items made by St. Louis School for Exceptional Boys.

This year's Raffle items are: handhooked rug, 20 piece ceramic hand painted nativity set, 2 afghans, Paddington Bear, homemade quilt, quilted pillow, doll with wardrobe, 7 piece needlepoint train, and a hand painted china plate.

A brunch will be served from 10 a.m. to 1 p.m. a la carte with sausage souffle, homemade coffee cakes, fruit salad and beverages.

A nursery will be available at St. Mary's Church.

Sarah Platt, the eleventh grade daughter of Mr. and Mrs. Henry Platt, 13960 Logan Road, has been honored as the Outstanding Citizen for October by the Manchester Optimist Club. Sarah is currently Vice President of her class and a member of the Student Council. As a Council member she was actively involved in planning and preparing this fall's Homecoming.

Sarah has already participated in the basketball program two years, the volleyball program two years and an

additional two years as a member of the track team. Her hobbies include playing the piano, athletics, reading, poetry, and drawing. In addition to her extra-curricular activities at school, she is participating in a Bible study group and has been a member of a teen drama group in Ann Arbor for the last two years.

While her plans for the future are not yet complete, she hopes to attend college after high school graduation to major in the field of communications.

United Way Campaign Reaches 91.6% of Goal

Manchester's United Way Campaign Chairman, Dr. Glenn C. Lehr, Jr., announced that as of last Saturday the United Way annual campaign had reached 91.6% of the \$30,359.00 goal. Contributions and pledges total \$27,823.00.

Janice Little's Organizations Division reported contributions are 30.5% over goal. David Little's Outside Business Division is 29.8% over goal and the Schools Division, chaired by Dr. Eugene Thompson, has exceeded their goal by 12%. The other Divisions have not finalized their solicitations.

United Way's Board of Directors will meet on Monday, November 22 to consolidate final campaign results.

Persons having authentic short stories and interesting tales from the area's past are welcome to contact Howard Parr or Claire Reck to arrange for presenting their material for the Society's column. Mrs. Lewis Kellum "kicked-off" the feature in last week's Enterprise with her history of Wellwood Road. Has anyone found any clues to her questions?

Continued on page 5

The meteorologists have now joined the economists in making predictions for the coming months. The economists claim that, after many scholarly efforts, the tomes for the future months will be either better or worse, depending on whose predictions you read last and this too is true of the meteorologists, who are predicting that the coming winter months will be either cold or not so cold.

According to one so called top flight chap in the weather field, the winter of 1982-83 will be worse than terrible. Blizzards will pile snow higher than the house and we will be afflicted with sleet, hail and numbing rain. Don't just button up your overcoat, he sez, sew it up tight.

These predictions are said to have been arrived at with the assistance of scientific means we are told but one doubter sez that these predictions are just about like predicting the winning football teams before the season opens, even if you haven't seen them in action. It's gonna be cold because we are told that it is gonna be cold. Just that thought is supposed to be chilling. The greatest invention since that of the thermometer is the wind chill factor. This is a figure that tells a person how cold the wind makes him feel. For example when the thermometer sez it is 20F and the wind is blowing at 10 miles an hour the wind-chill temperature is 3F., so you are supposed to feel cold even if you aren't.

The National Weather Service was founded in 1870 as a part of the Signal Corps and up to that time we had no one to tell us about the coming hard winters except the fuzzy bugs and caterpillars and arthritics but now they are using computers for this purpose and there are weather men staring out at us from every TV screen and threatening us with their dire predictions.

We notice that these weather computers state, for example, the average temperature in both San Francisco and St. Louis is 55F., but the two cities have vastly different climates. St. Louis has rather cold winters and hot summers while San Francisco has a temperature of 55 generally.

The amount of carbon dioxide that burning things puts into the air and such catastrophes as volcanic eruptions that put quantities of ash into the air, all contribute to blocking the sun's rays and so there has been a cooling of the climate. Perhaps the forecasts are right, so get out your long johns and get ready to suffer. Don Shoemaker sez that he saw some advertised by a New York store at \$65.00 each. How many suits will you want? By the way these \$65.00 ones are "pure silk".

Mr. Shoemaker quotes for us a poem by a 17th century poet which should chill you to your marrow. It goes as follows:

"The ravish dank of clumsy winter ramps
The fluent summer's vein and drizzling sleet
Chilleth the wan bleak cheek of the numbed earth
While snarling gusts nibble the juiceless leaves
From the naked shuddering branch."

If that didn't make you cold, you're subnormal.

 The members of the 7th and 8th grade band are looking for white pants to complete their band uniforms. If any of you have had a son or daughter in this band in the past and have white pants in your home that are no longer used, there is a way you can put them to good use. Put your name, phone number and price on the pants and take them to Mrs. Wanlass at either the High School or the Middle School. Hopefully they will find a new owner.

Ask The Governor
Question: I'm a senior citizen and a renter and I've heard that a new tax rebate could increase my state income tax rebate this year. I hope so.
Governor: Several property tax changes have been adopted recently. The one you refer to provides that a senior citizen whose rent exceeds 50 percent of total household income in the 1982 tax year will receive a credit equal to the amount by which the rent exceeds 50 percent of income. For 1983, the credit is based on 45

percent of household income and for 1984 and thereafter, 40 percent. This year, at 50 percent, the new provision will provide \$2 million in property tax rebates returned as state income tax credits; at 45 percent, and additional \$3.4 million will be returned, and at 40 percent, there will be an additional \$5.5 million.
Another change for the 1982 tax year involves high income taxpayers. Property tax credits will be reduced by 10 percent for every \$1,000 of household income in excess of \$65,000.
Extended to the 1982 and 1983 tax years is the provision which reduces property tax credits by an amount proportionate to the percentage of household income made up of Aid to Families with Dependent Children (AFDC) or General Assistance (GA) payments.
Question: The teachers at my daughter's school system seem very young to me. Are most teachers in Michigan younger than they used to be?
Governor: No, they are older on the average. In the 1981-82 school year, the average age of Michigan schoolteachers was 41 years, while in the 1974-75 school year, the average was 37 years. Because of declining enrollment, fewer new teachers are being hired every year, resulting in a steady increase in the average age of all teachers. Most classroom teachers who have been laid off in recent years because of declining enrollments have been younger teachers who have less seniority. Only 899 new teachers were hired in Michigan last year compared to 5,557 new teachers hired for the 1974-75 school year.
Public school enrollment in Michigan dropped from 2.2 million students in 1971-72, to about 1.8 million last year.

NBJ Presents
Who's Not Who and What's Not What,

Part III.

The Answer.

For those faithful readers of our hints and seekers of trivia truth, we're pleased to provide you with the answer: a name change.

Because along with several famous persons, places and things, the National Bank of Jackson is changing its name. We are now Comerica Bank-Jackson.

Why have we changed our name? Quite simply, we've joined Detroit Bank and Trust and its family of banks in Ann Arbor, Muskegon, Midland, Battle Creek, Kalamazoo, Kentwood, Shepherd and West Branch, and its bank-related companies in Florida, Canada, Mexico and England. And we decided, as most wise families do, to be united under a common surname. Thus, Comerica.

And why have we joined this family? Well, there is strength in numbers, after all, and our new family gives us more financial "clout" throughout Michigan, the nation and even the world!

But our name change doesn't mean vast changes in style, service or people.

In fact, it doesn't even mean a little tiny change. Because all the things our customers have liked about us for almost 50 years will always be the same.

No matter what our name.

★ WHO DID WHAT? ★

What bank in Jackson:

1. Was first to open a consumer loan department?

2. First to introduce drive-in-windows?

3. First with bank credit cards?

4. First with Saturday hours?

5. First to offer 24-hour banking?

6. First to offer both Visa® and MasterCard®?

7. First to offer a debit card?

8. First with a "Personal Banker" system—allowing office managers to approve loans, adding convenience for customers?

9. Introduced the new Comerica Money Market Account?

10. Joined Comerica—becoming bigger and better?

If you answered NBJ to 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10 you are absolutely correct. Our name is different now, but our commitment to innovation—to make life a little easier for you—is the same.

WHAT'S NOT WHAT

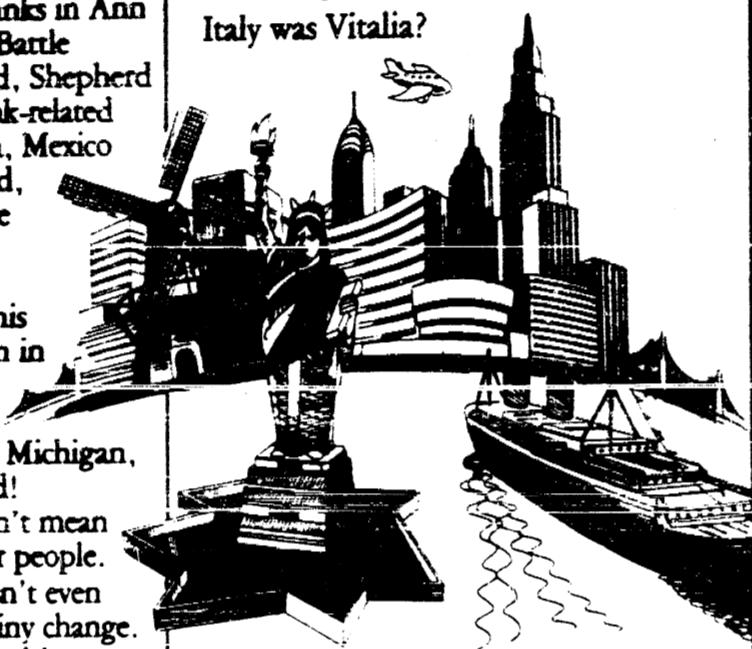

Did you know . . .

Montreal was first called Marytown?

New York City was founded as New Amsterdam?

Cincinnati was named Losantiville (meaning "town opposite the mouth of Licking Creek")?

Italy was Vitalia?

MIS-NAMED

A firefly isn't. It's a beetle.

India Ink doesn't come from India. It's from China and Egypt.

Turkish Baths aren't Turkish. They're Roman.

A bald eagle isn't bald. It has flat white feathers on the top of its head when it's mature; dark feathers when it's young.

YOUR FUNNY FACE

We hope you enjoy our name changes. And just to make the event of our name change a bit more fun for our customers, we've invited a caricature artist to visit some of our offices and draw some "funny faces" for you. What's your pet superstition? Will Rogers always knocked on wood before every performance. Winston Churchill always scheduled his affairs so that he would not have to travel on Fridays. Babe Ruth always made a point of stepping on first base whenever he came in from the outfield.

An old fashioned marriage is when both people have only been married once.

It's a matter of fact that the people who built the Roman Circus Maximus 1600 years ago, wore hard hats.

Manchester Community Schools Education Week A Success

Mrs. Yvonne Henry coordinated the efforts of the many Manchester staff members who worked to make the project successful.

You can't miss the brightly colored windows proclaiming American Education week on Main Street this week. The highlight of the week was a school display last Saturday morning. A good crowd of folks dropped in to enjoy the students' projects, a warm cup of coffee and apple cookies made by the Home Economics Department. Many persons remarked on what an excellent idea it was to bring the schools to Main Street and how much they enjoyed it. Many older residents good naturedly commented, "It wasn't like this when I went to school!" With such a great response the teachers and administrators were encouraged to make this an annual event.

Sixth National Honor Society Induction Set

Manchester High School's chapter of the National Honor Society will be having their sixth annual induction ceremony on Tuesday, November 30, 1982 at 7:30 p.m. in the high school library. Mr. Fred Munson will be the guest speaker. This week the Honor Society faculty committee is in the process of choosing eligible juniors and seniors for admittance. The announcement of new members will be made later this week.

Membership in the National Honor Society is one of the most prestigious

awards a high school student can receive. It is based on four characteristics, all taken into consideration equally. These are character, leadership, scholarship, and service. To be considered, a student must be a junior or senior and have at least a 3.25 career grade point average. Interested community members are invited to attend the induction ceremony.

Historical Society Meeting

Manchester Area Historical Society members were greeted by another fine step in the progress of the building fund drive at the November meeting, Monday night. The bank note was paid off in full this month due to the response of Manchesterites and friends all over the United States with dues and donations. The enthusiasm is high for the beginning of a new fiscal year, for which memberships are now due.

Mrs. Gary Mitchell of Ellsworth Road won the twin doll raffle which was conducted during the Toy Exhibit. Over 450 people viewed the exhibit, coming from New York to California and north to south. It was a favorite place to bring guests and many families with children came back a second time.

December Christmas meeting for the Society will be a week earlier than the regular meeting date, on December 13. The Mill will be the setting for an 1882-type Christmas Party, tree trimming, and sing-a-long. Put the date on your calendar and plan to bring children and grandchildren to the celebration.

Dr. Charles Lindquist, director of the Lenawee County Historical Museum, instructed and entertained the gathering with information regarding the growth of a Historical Society and the building of a museum. His valuable advice for contacts

improvements 99 years ago. (The excerpts were originally from The Manchester Enterprise.)

November 11, 1886. The street sprinkler is working. Strawberry and raspberry bushes are in bloom. Fifty citizens went to council to see what to do about the new bridge. Mr. Burtless talked with the state agent of the bridge company at Charlotte and he plans to come Friday to set up the bridge.

November 18, 1886. The citizens "Who peeked away" and asked questions have brought to light some valuable secrets which had been hidden. The town board had borrowed of B.G. English \$2,400. The note was for 3 years. They intended to use some of the money to pay for the iron bridge but the committee made it so warm that they returned the money to English and now it is likely that our taxpayers will have the great satisfaction and pleasure of paying the whole sum by way of taxes this year. The Board acted unwisely but they intended to make it easier for the taxpayers.

November 25, 1886. The Bridge was thrown open to the public Monday and it was a great relief. Some people complained because it should have been wider - others said it was just right. All in all, we think the bridge is sufficient for our needs and will be a joy forever.

Manchester Township Library

MANCHESTER, MICHIGAN 48158

The section of the Manchester Township Library devoted to classics (something noteworthy of its kind and worth remembering) is located on the back wall to the left of the back door. Patrons may wish to browse there for ideas for gifts as well as to renew acquaintance with the library treasures worthy to be called "classic". Our library has the complete works of some authors (Mark Twain, Charles Dickens, etc.). Others are represented by well-known titles from Alcott's *An Old Fashioned Girl*, to Emile Zola's *Best Known Works*. Young adults might be interested in Kipling's *Captains Courageous*, Jules Verne's *Around the World in 80 Days*, Swift's *Gulliver's Travels*, or Stevenson's *Kidnapped*. *War and Peace* by Tolstoy, *The Picture of Dorian Gray* by Oscar Wilde, and many of

James Fenimore Cooper's great novels would be suitable for adult gifts as well as for rereading for personal satisfaction. Though not separated out on special shelves, the children's section of the library also contains a number of children's "classics" which parents, aunts, and friends may look over at leisure to determine their suitability for young people.

REYES SYNDROME

Along with snow and ice, the late fall and winter in Michigan is the season for influenza and other respiratory illnesses. Influenza is an acute viral disease characterized by fever, headache, muscle aches, weakness, runny nose, sore throat and/or cough of several days duration. The illness is usually self-limited but can produce severe complications or death in the elderly or those with chronic illnesses that reduce the body's resistance to disease.

Reyes Syndrome is a serious complication of influenza or chickenpox that occurs in about one of every five thousand children who get these viral infections. Last year 24 Michigan children contracted Reyes Syndrome and eight of these children died. Reyes Syndrome is characterized by sudden onset of repeated vomiting and behavioral changes (e.g. extreme lethargy, combative or unusual actions) in a child who has, or who has recently recovered from, a viral illness. Children with symptoms of Reyes Syndrome should be seen by a physician as soon as possible because early treatment is important.

Children who receive aspirin or salicylate-containing medication for influenza or chickenpox seem to be at increased risk for getting Reyes Syndrome. Because of this, the Centers for Disease Control, the Food and Drug Administration, and the Michigan

Department of Public Health have issued cautionary statements regarding the use of medications containing aspirin and/or salicylate for the treatment of influenza and/or chickenpox.

Finally, I want to assure you that the vast majority of children recover nicely from flu or chickenpox. Still, as a parent you want to do all you can to avoid serious illness in your children.

What's Cooking in Michigan?

by Margaret G. McCall
Michigan Department of Agriculture

Although our celebration of Thanksgiving is still ahead, it's not too early to begin thinking about your holiday baking. You may already have plum puddings and fruitcakes aging for Christmas, but there are other advance preparations which can help to ease the cooking load during the busy holidays. And homemade food gifts, especially those made with the good things growing in Michigan, are welcome gifts for neighbors and friends.

First step in this process is to inventory the contents of the freezer - which generally produces some surprises - and always makes room for additional storage.

Next, prepare a list of the "goodies" you want to have on hand for holiday entertaining and to give as gifts. Along with this, develop a production timetable, since some items will retain quality in the freezer longer than others. Some, of course, like the plum puddings and fruitcakes, require cold storage rather than freezing.

The timetable is important because, for

Thanksgiving Open House At Blacksmith Shop

When you bring the children to see Santa, Sunday the 28th, come down to the Old Blacksmith Shop, 324 E. Main, so they can see the blacksmiths working at the forge and anvil and get a miniature candy cane. The sparks will be flying from 1 to 4 that afternoon. Too bad Santa didn't come with his reindeer so he could have had them shod for the long Christmas haul while he was in town!

Speaking of Christmas, the blacksmiths will be forging iron items of all sorts for Yule gifts. Old fashioned hard candy and the Manchester Blacksmith Shop T shirts will also be for sale during the Thanksgiving Open House.

Mrs. Dorothy Stockbridge, a portrait painter from Ann Arbor, will be at the shop from 1 to 4 with her easel ready to do quick charcoal sketches. This is one of the oldest and much loved techniques used by talented portrait artists. Mrs. Stockbridge has been commissioned to do portraits, oil and charcoal, for many Michigan legislators, judges, and well known persons - President Ford, Teddy Kennedy, Governor Milliken and many others. Her portrait of "Bud" Wendell hangs in "The Grand 'Ol Opera House". Finished quick sketches are under \$20 in price.

A piano is still listed among the needs of the Historical Society. A donor need not worry about the moving as the Society will take on that problem. Call John Swainson 428-8009 with your offer.

Christmas Coast To Coast

The Black Sheep Theatre will present *Christmas Coast to Coast* for seven performances December 10 through 12, and 16 through 19 at the theatre, located at 138 E. Main, Manchester, Michigan. Performances will be at 8:15 Thursday, Friday, and Saturday, and Sunday at 4 p.m.

The play follows writer John Lannon through a hectic and fantasy filled Christmas Eve: hectic because a local television station has made plans to film a "normal" Christmas with Lannon's family at their apartment in New York city that evening.

The light humour is excellent family entertainment featuring traditional and not-so-traditional music and humour. Be sure to bring the whole family to the Black Sheep's *Christmas Coast to Coast*.

The play, adapted and arranged by Mathew Thornton, will be directed by Manchester's Robert Mann, and will feature some veteran Black Sheep actors in Alene Blomquist, Mathew Thornton, Leslie Duncan, Jennifer Okey, Michelle Gould, and many more.

Let's Count Our Blessings

FOR FAMILY AND FRIENDS, BOUNTIFUL FOOD ON THE TABLE, LOVE AND LAUGHTER IN OUR HEARTS, WE ARE TRULY THANKFUL. LET'S CHERISH OUR GOOD FORTUNE IN LIFE ALL THE YEAR THROUGH, AS WE EXPRESS OUR THOUGHTS OF THANKSGIVING TODAY.

HIT or MISS

I've heard for many years about "night people" - folks who didn't want to go to bed at night nor get up in the morning. I guess I'm one of them. I always said that was so because there were so many interesting things that happened after dark that I didn't want to miss all of them but frankly I have always despised those bright eyed, bushy tailed folks that you meet early in the morning - the ones I met when I had to get up and go to work. But now science has proven that there are legitimate night people who come alive only when the sun does down.

Some people make their living during those hours when the stars are seen in their glory and who sparkle majestically against the velvet of the heavens. (Now how's that for a descriptive sentence?) But some nights people just don't seem to be able to be alone after dark so they aren't really night people. Many of them seek the bright lights and music. A friend of ours recently came back from Pasadena, Texas, where they have a night club that can seat

3,000 people and dance 500, and she says that's a lot of night life for a town of 110,000. The kind of night devoted to night people is the kind reported in Gray's *Elegy*:
 The curfew tolls the knell of parting day
 The lowing herd winds slowly o'er the lea,
 The ploughman homeward plods his weary way
 And leaves the world to darkness and to me.

The poets were most of them, fascinated with nighttime - remember? There was Keats, Longfellow, Moore, Southey, Shelly, Byron Tennyson, and Whitman among them.

And a lot of the animals are nocturnal too and many nights this fall we had as guests during the witching hours of two or three A.M. a pair of what turned out to be barn owls who insisted in sitting, in the moonlight in a rather loud tone of voice, a conversation that awakened me, about a great many things. They always sat and hooted for quite some time, and then bade each other, it seemed, a farewell until the next night. (They always hooted, in various pitches three times and then paused for a reply from the other).

One night a fox came out into the moonlight, stood for a few minutes and then disappeared into the blackness like the *Cheshire cat*, sez Don Shoemaker in a recent essay about night folks.

Most children are scared of the night but in later years the night is a friend says Shoemaker, and he quotes Byron who described it by saying, "Most glorious night, Thou were not meant for slumber!", but, Byron, 'tis said, had a lot to hide.

But it's true that night people glory in the silence that comes with the dead of night. They hear the breeze move the leaves and the tree branches softly rubbing

New Gift Shop Opens In Manchester

Manchester has a gift shop again. Joann Wait has opened "Down By The Old Mill Stream" in part of what used to be Mann's Feed Mill. The shop will offer hand-made craft items of all kinds.

These items include pottery, dolls, needlework, and woodworking. The shop will also carry counted crossstitch kits and wildlife prints from Dexter's Wildlife Art Gallery. There will be a variety of Christmas items for sale, in particular egg shell tree ornaments, which Waits makes herself. She plans to hold several craft classes, including one on making these same eggshell ornaments, and coming in March, one on Easter bunnies. For information on classes, call Waits at the shop at 428-9480. Store hours are 10:00-5:30 Monday through Saturday.

Waits, who lives between Manchester and Chelsea, decided to open her new business in Manchester because she likes the town and especially the old mill. The windows on the back wall of her shop have a good view of the Raisin cascading over the Main Street dam. Waits has hung a selection of stained glass sun-catchers in these windows. She has never operated a business of her own before, though she was a partner in an antique and reproduction operation in Plymouth some years ago. When she decided to start this venture, she ran ads in several local newspapers requesting "quality crafts". Waits says she was impressed with what people offered in response, and many of these items are now in the shop. Waits is still looking for more, and will be glad to handle any fine crafts on consignment. She is also interested in handling antiques. Anyone with an appropriate item he or she would like her
