## "Sax" Smith To Address Area Historical Society

Francis "Sax" Smith will discuss his years as a player and arranger for popular bands at the meeting of the Manchester Area Historical Society, Monday, April 16, at 7:30 p.m. at the Blacksmith Shop. Smith, a saxophone player, started his career in Manchester, playing with local bands during high school year, studied at the University of Michigan and the Eastman School, and joined popular bands. He performed with many "big" bands, including, among others, the University of Michigan Dance Band, Harry This Orchestra in Detroit, Vincent Lopez and Paul Specht Orchestras in New York, the Rochester (New York) Symphony, and the Georgian Jazz Band. Based on engagements in large and small communities in the United States and England, for dances, parades, radio broadcasts, English royalty, American Presidents, and high school friends, "Sax" will present musical history from the

performer's viewpoint.

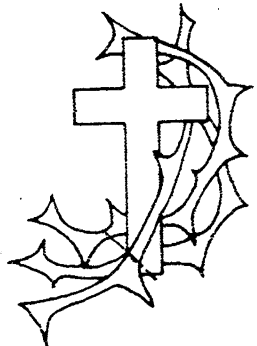

He completed his musical career by joining the Detroit based Grinnell Brothers as their merchandising manager in 1941. In that capacity he was responsible for the annual music festivals where as many as 1900 piano and organ students performed, under the auspices of the company.

Our community is honored that he chose to return to Manchester for retirement.

## Klager Students Recognized By State Department Of Education

The fourth grade students at Klager Elementary have been recognized by the Michigan Department of Education for outstanding achievement. State Superintendent of Schools Phillip E. Runkel in a letter to Manchester Superintendent Gene Thompson extended his congratulations to the students and staff at Klager as well as to the families and residents of the community. Runkel noted that, "It is always welcome to hear of schools such as Klager where students and teachers are working to attain high achievement."

Included with Runkel's letter was a certificate of recognition. This certificate was awarded to the fourth grade students of Klager for their performance on the 1983-84 Michigan Educational Assessment Program Tests of Reading and Mathematics. Klager students scored far above the state average on these tests indicating high levels of achievement in reading and math.

Sixty-six Klager students participated in the tests and received scores of 93.9 percent in mathematics and 86.4 percent in reading.

## HIT OR MISS by farley

"Trivia" is a word that has become commonly used by writers in newspapers and magazines lately and my dictionary says that it is a short item about a subject or happening about a minor incident that is humorous or informative and so may we head this column as TRIVIA.

State Police the other day were reported as noting a traffic jam on the freeway and set out to see what the cause was. They worked their way to the head of the parade and found that it was led by a car driven by a little old lady who was proceeding down the right hand lane of the highway at a constant speed of 15 miles per hour. They pulled her over to the side of the road and proceeded to give her a ticket for obstructing the roadway and insisted that she appear in court the following day. This she did and when she appeared before the judge she protested that she had been driving for 42 years without ever having received a traffic ticket. The judge then asked her for her driver's license and when she produced it he gazed at it for some minutes and then said, "No, this can't be." She asked, "What can't be?" "It says here" he said, "It says here that you are 102 years old—you just can't be." "But I am" she replied. He thoughtfully studied the situation for some

## The Easter Egg

This is a reprint of The Manchester Enterprise dated March 27, 1902.

The Easter egg has always been one of the most popular features of the Eastertide. It owes its origin, as many of the popular Easter observances do, to pagan tradition. It was held as symbolic of renewed life, and in the Christian church is an old emblem of the resurrection. In Germany, instead of the Easter egg, is presented an emblematic print, in which three hens are holding a basket, wherein are three eggs; whereas in Vienna the Easter egg is composed of silver, mother of pearl, or bronze, and filled with knickknacks of some kind.

Formerly in England the Easter egg was solemnly blessed by the priest, and, being elaborately colored, was often kept as an amulet. Easter eggs, or pace or pask eggs as they used to be called, have from time immemorial been prepared much as they are today, being boiled hard in water colored with red, blue, or violet dyes, with inscriptions, devices, or landscapes traced upon them. Some of the designs are very beautiful.

### OF NOVEL DESIGN

Perhaps the most curious Easter egg ever made was one ordered by a South African millionaire for his bride. It was made in London, and was nine feet long and eighteen feet in circumference at the widest part. The shell of this wonderful egg was made of chocolate, most elaborately adorned. It was

intended as a wedding present, and held the whole of an expensive trousseau for the girl he was to marry. It also had in it an enormous quantity of superfine confectionery.

It is said that the most costly Easter egg ever made in the country was ordered by a railway magnate for his little son. It was a miniature carriage, most exquisitely appointed, in the shape of an egg. The exterior was of the finest white enamel, and the interior of white, quilted satin. This dainty little vehicle was drawn by two tiny ponies in gold harness. A boy would be hard indeed to please if such a beautiful present did not fill his heart with gladness. But the boys of the present day are luxurious.

### GIFTS OF THE CZAR

Probably the most valuable Easter eggs in the world are those given by the Czars of Russia to their wives. Last Easter an egg was given to the Czarina which was, perhaps, the most beautiful and costly ever made. The egg incloses a magnificent jeweled heart set in rare, many-colored gems and surrounded by twenty-five tiny miniatures, portraits of the members of the Russian royal family. An egg which she received on another occasion contained a miniature ship. It was made of pure gold and accurate in every detail, down to the smallest cable. This was mounted in a beryl, and it certainly would be hard to conceive anything lovelier. The amount of work this represented can be imagined when it is learned that it took a famous goldsmith ten months to make it.

**Schools Advise Parents Regarding Tornado Procedures**

As the tornado season approaches in Michigan, the Manchester Community Schools are again advising parents regarding school procedures and policies for dealing with these weather conditions.

**TORNADO WATCH:** A tornado watch is for an area where a tornado MAY OCCUR during the next several hours. The size of the average tornado watch area is approximately 100 miles wide and 300 miles long.

in the event that a tornado WATCH is broadcast BEFORE 1:30 P.M. all students will be sent home and all school activities cancelled. If the tornado WATCH is broadcast AFTER 1:30 P.M. students will be dismissed at their regular time.

**TORNADO WARNING:** A tornado warning means that a tornado has ACTUALLY BEEN SIGHTED in the area or that its presence has been detected by radar.

In the event that a tornado is detected students WILL NOT be dismissed from school. In school safety measures will be taken. If a tornado warning is in effect at the normal end of the school day, children WILL NOT be dismissed, but will remain at their emergency stations.

Parents may PERSONALLY pick up their children during a tornado warning. Parents MUST CHECK with school offices before taking students from the school.

Neighbors WILL NOT be permitted to pick up other children unless a written statement giving permission to release the youngsters to a neighbor has been filed in the school office.

Superintendent of Schools Gene Thompson commented, "Tornadoes pose frightening conditions for school personnel. We have high concentrations of young children and must deal with their fears and the anxieties of their parents when tornadoes are nearby. It is absolutely critical that we be able to communicate between buildings during these emergency periods. For this reason we ask that citizens refrain from calling school offices. When phone lines are jammed, communication between administrators becomes impossible, making it all the more difficult to provide for the safety of our students."

Tuesday, April 17: Baked chicken, dressing with gravy, tossed salad with dressing, dinner roll/butter, pear half, milk.

Ann Arbor Sweet Adelines

The Ann Arbor Sweet Adelines barbershop harmony chorus, on Saturday, March 31, won their second Regional Chorus Competition after competing with twenty-two other choruses. The

ninth Annual Region 17 contest was held in Cleveland, Ohio, where the Ann Arbor chapter was also hostess chapter for the convention.

Directed by Jack Herr, of Warren, the chorus won their first medals in 1982 at Lansing, which then entitled them to compete in their first International Sweet Adelines Chorus and Quartet contest in October, 1983 in Detroit where they placed 15th of 27 choruses.

The chorus must now prepare to compete again on the International stage in Kansas City in the fall of 1985, and the ultimate goal is to become an International Championship chorus.

Two members of the Ann Arbor chorus sing in the outgoing 1983 Region 17 championship quartet "Top Priority" who also became 5th place International Medalists in Detroit. Sharon Hoover, who sings bass, is from Manchester, and Sue Snow of Ypsilanti, is the baritone.

Millie Gillis, of Manchester, is also a chorus member.

Visitors are welcome at chorus rehearsals each Tuesday, 7:30 p.m. at the Glacier Way Church on Green Road (off of Plymouth Road) in Ann Arbor.

For membership information, call 453-8538 in the evening.

### Written Overdue Policy Adopted

The Manchester Township Library Board adopted a written overdue materials and fines policy at their meeting April 3. It will become effective April 16.

The policy includes several steps in the potification of patrons who may have overdue materials or fines. The first step is simply to remind the patron with a phone call which also offers the opportunity to renew items.

The second step is a post card to the patron when materials are two weeks overdue. This is followed by a letter when fines or materials are two months overdue. The final letter is sent to patrons who have outstanding fines or materials for six months.

This step in the policy suspends check-out service to patrons who

have over \$5.00 in materials on fines until restitution is made.

"This policy merely gives an organized method to the handling of overdue. Our Library does not have an unusual problem in this area. Failure to return materials

## Ardell Swanberg Demonstration

Demonstrating this Saturday in Manchester Outlet will be Ardella Swanberg. "Jo" to her friends, she is a familiar watercolorist to the Manchester area. Her bright and lively paintings have been exhibited in numerous Manchester Art Guild shows and fairs.

Ardella's unique style is exemplified by bold contrasts not usually seen in the media, yet sensitive modulation of variegated washes. Nothing is beyond subject matter: farms and buildings in the area are popular choices, but she includes animals, flowers, and people as well.

On Saturday, April 14th, she will bring along palette and paper, and answer questions while demonstrating those variegated watercolor washes; adding interesting textural effects through the techniques of spattering, crystalization, and

coarse salt applied to a wet wash.

Her long history of creativity began with several art awards while attending high school in Garden Grove, California. She received a Bachelor of Science degree in art education from the University of Minnesota. Ardella and husband, Neil, and children Michael and Alice moved to an old Manchester farm after returning from two years in Bilbao, Spain. While in Bilbao, she taught art in the American School and studied Spanish art and literature. This time spent abroad has emerged as lively color in her painting style.

Visit Ardella Saturday at the Manchester Outlet, State Farm Building, 146 East Main, Manchester, from 9:00 a.m. to 12:00 noon. Her demonstration is part of a continuing program by the Manchester Art Guild to bring in an artist each Saturday.

In addition, look for her at upcoming fairs in Plymouth on May 11 and 12, Chelsea Hospital on June 9 and 10, and in the Ann Arbor Street Fair in July.

# THE CALLING SERVICE THAT'S BEST FOR YOU? JUST PUT YOUR FINGER ON IT.

That's right. You can still put your finger on the calling service you need or want just as easily as before, even though many changes have taken place in the communications industry. Michigan Bell continues to make a wide range of calling services and plans available to you.

A glance at the service options listed below will help you determine if you now have the service and calling plans that best fit your individual needs and budget. As always, reliable Michigan Bell telephone service comes with whatever option you select.

### Local Service Options:

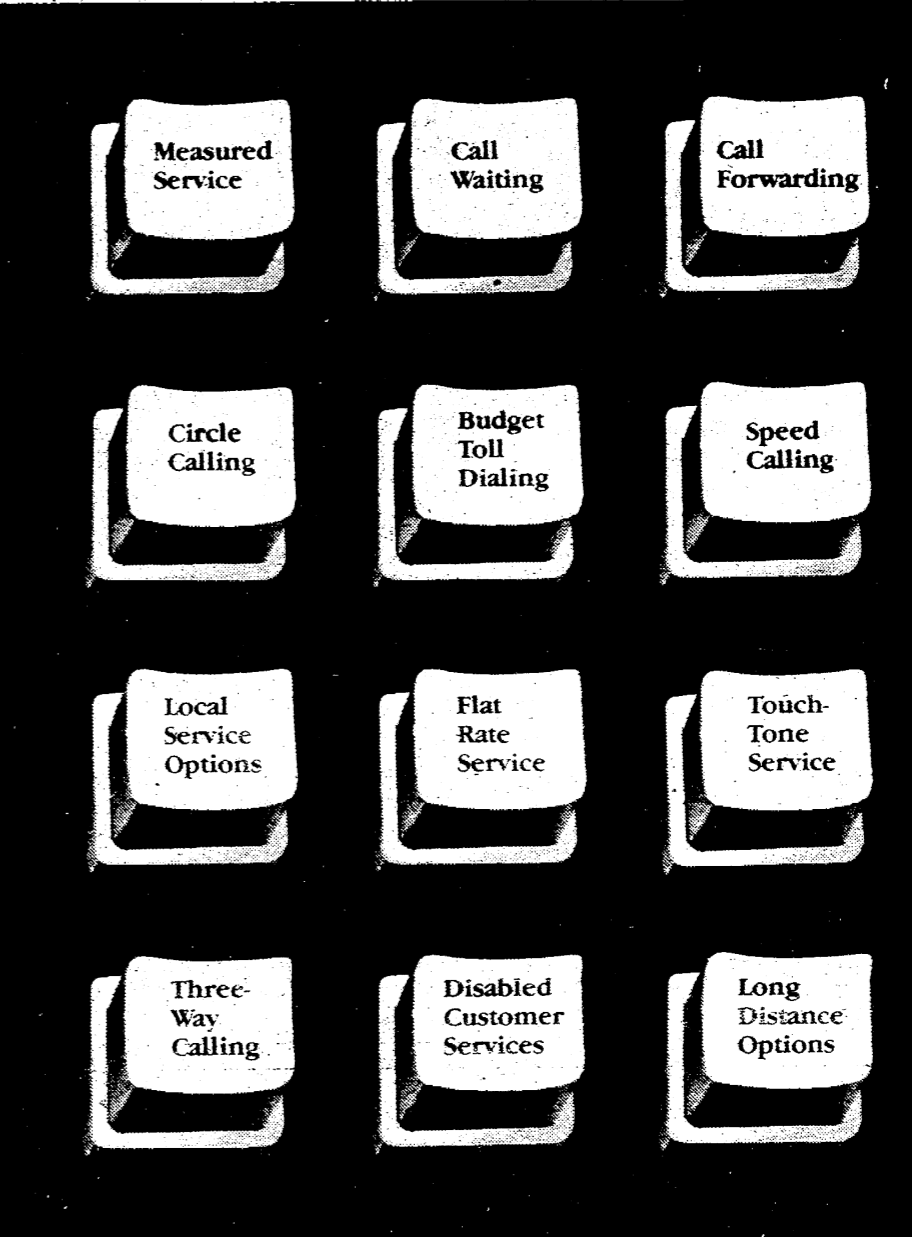

**Measured Service\*** — allows up to 50 local calls per month for a small monthly charge. Calls above that limit would be billed to you on a per call basis. If you place few local calls per day, Measured Service could be the most economical choice for you.

**Flat Rate Service** — gives you unlimited local calls for a single monthly charge. Frequent telephone users may benefit from this service.

### Long Distance Options:

**Circle Calling** — gives you a 30% discount on direct-dialed long distance calls placed within a 30-mile radius within your LATA\* except calls placed from 8 a.m. to noon Monday through Friday. The discount applies even when regular long distance discounts are in effect.

**Budget Toll Dialing** — provides a 30% discount on long distance calls anywhere within your LATA between 10 p.m. and 8 a.m. Sunday

evening through Friday morning and from 5 p.m. Friday through 5 p.m. Sunday. Like Circle Calling, the Budget Toll Dialing discount applies even when regular long distance discounts are in effect.

\*LATA is a new term that describes a Michigan Bell calling service area. It stands for Local Access and Transport Area.

### Custom Calling Services:

**Call Waiting** — when you're on the phone, the Call Waiting signal

alerts you someone else is calling. You can alternate conversation between both parties.

**Call Forwarding** — lets you program your phone so that incoming calls are automatically forwarded to any other telephone you desire.

**Speed Calling** — allows you to program your phone to dial up to eight or 30 frequently called numbers with simple one- or two-digit entries.

**Three-Way Calling** — lets you add a third party to a two-party conversation, instead of making separate calls.

(Custom Calling Services are not currently available in all calling areas.)

### Dialing Options:

Through Michigan Bell, you have a choice of Rotary Service or Touch-Tone Service.

**Rotary Service is pulse dialing.** With this service, you need a pulse dialing phone with either a rotary dial or a push-button dial.

**Touch-Tone Service is tone dialing.** It is the most modern form of dialing. With Touch-Tone Service, you can use either tone dialing or pulse dialing telephones. However, to get the benefits of Touch-Tone Service (such as fast, accurate dialing), be sure to use a push-button phone made for tone dialing, which you can also use to access certain long distance and at-home banking services.

(Touch-Tone Service is not available in all areas.)

### Disabled Customer Services:

**Special Services and Equipment** for disabled customers are available through the Michigan Bell Telecommunications Center for Disabled Customers. Voice customers call 1 800 482-8254. Telecommunications Devices for the Deaf (TDD) customers call 1 800 482-3141. Customers are welcome to visit the Center at 26200 Greenfield, Room 45, Oak Park, Michigan 48237.

## HIT OR MISS

time and then told her that, according to the law he must confiscate her license that nobody over the age of 80 could be issued a driver's license. And thus it ended.

And then there was the legislator down in Maryland who helped enact a bill requiring drivers to get an eye examination. He failed his first vision test. But he still insists he still supports the new law, but he has taken a bit of ribbing from his fellow legislators. The law requires that Maryland motorists pass an eye exam every four years when their license comes up for renewal. Now they had to pass an eye test when first applying for a license. The legislator was given a temporary license good until he could get his eye problem corrected.

A sign was noted the other day by a motorist from this area who was driving through Provo, Utah. On a meat market was a large sign which read "Here is the Beef."

And then there is the flower shop in Dallas, Texas which had a window display of a large rose on a white satin background with the sign below it which read "This Bud's For You." Now the Budweiser brewery is suing the flower shop for using their slogan.
