## Chicken Broil Supports Library Fire Alarm System

Dave Little presenting a check to Nancy Sippel, President of the Manchester Township Library Board.

The trustees of the Manchester Township Library wish to announce that the Manchester Chicken Broil Committee has generously underwritten the Library's newly installed fire alarm system. The committee observed that it has been several years since proceeds from the annual Chicken Broil supported a Library project, and they were very pleased to be able to fund an up-to-date fire protection system for this valuable building and important community resource.

The alarm system, installed by Manchester Electric, has both smoke and heat sensors which activate exterior signals: an alarm buzzer is currently operating, and a warning light will soon be added. Mike Scully, Fire Chief, says that his Department will

periodically check the operation of the alarm system. At his suggestion, "No Smoking" signs will remind Library patrons of the state ordinance prohibiting smoking in public libraries.

On behalf of the entire community, the Library Board is extremely grateful for the Chicken Broil Committee's generosity, and takes comfort in knowing that our historic library building containing over \$200,000 in books and equipment is now better insured against loss.

In other news from the Library, the Board announces the appointment of Susan Gleason as Trustee to fill the unexpired term of Margaret Goodrich, who resigned to become our Librarian. Mrs. Gleason, a piano teacher and 11-year resident of Manchester.

## We Are The Champions

By Jon

On Friday we trekked to Cardinal land and proceeded to rip Michigan Center, 38-14. This victory kept us undefeated in Cascade play and because this was the last conference game—we are the Cascade Conference trophy holders for the second consecutive year. Also, this was our 15th Straight win.

We wasted little time lighting up the scoreboard, as Mike Agin rambled 45 yards for our first touchdown. Still in the opening quarter, Mike crossed the goal line from 7 yards out, so as we moved into the 2nd stanza of play it stood 12-0.

This quarter saw the pigskin in the air. As we upped our advantage, Pat Ridenour threw 2 passes to receiver Tom Lockridge; the first was a 4 yard slant in play and the second TD was a beautiful 43 yard bomb. Michigan Center did put a nice drive on before the half to tally. The intermission was here and the score board read 24 to 8.

The third period saw Pat race in for a 1 yard touchdown, along with Mike completing the extra point run, we sat atop 32-8. The Cardinals again marched to score making it 32-14. Once more it was Pat's turn to cross the goal and he did so scampering in from 2 yards out. This ended our regular season with a 38-14 victory, having won 8 of 8 games.

Offensively the 3 standouts were Mike Agin as he picked um up and laid um down for 126 yards; Pat threw 18 times completing 13 for 152 yards as

## Hit Or Miss

by farley

I have never thought that doing book reviews was one of my strong points but now and then I run across a book that I enjoy and wish to share with the rest of the world. Such a one is the Blunder Book by Hirsh Goldberg which was published only this year and which presents various errors that have changed the course of history or that have provided amusement for their beholders. We all make, too often, Blunders of various kinds and, to me at least, it is satisfying to find that a great many folks, both great and small, also do and I think that you one and all will take heart and enjoy many of these classic mishaps. They are all well edited and classified, from the colossal to the minor mishap. A few of those that I found amusing are listed below but everyone should have a copy of the book in their library. You will find it a great deal of comfort.

The chapters relating these blunders include those in history, medicine, science, government, business, sports, the library, and daily life. For instance it is proven that our history for the last 1500 years has been using the wrong dates. A gentleman named Dionysus in 753 B.C. advocated renumbering the years starting with the projected date of Jesus' birth as 1 A.D. But scholars now claim that this date was some six or seven years too early.

Then for some time, the Romans used the Julian calendar 365½ days, but some time later this calendar was found to be inaccurate, for according to a

survey of the seasons a year was slightly less than 365¼ days and so in 1582 it was decreed to shorten September by ten days and make every fourth year a leap year. This was eventually adopted by most of the world. This loused many things up. For instance George Washington was born on February 11 but on the new calendar this became February 22.

Columbus, as you remember set out to find a westward route to India and instead bumped into the new world which land became the West Indies. He didn't even get the new land named after him.

**Emanuel Church Celebrates Birthday Of Martin Luther**

On Sunday, November 4, 1984, Emanuel United Church of Christ will celebrate the 501st birthday of Martin Luther by presenting the chorale service of Holy Communion of 1524, by Martin Luther, and will be directed by Marijim Thoenne. The choir and congregation will sing the Ordinary of the Mass (the Kyrie, Gloria, Sanctus and Agnus Dei) as well as hymns by Martin Luther. As in the 1524 Mass the prayers and scripture readings will be intoned by the pastors Robert Macfarlane and Kenyon Edwards.

Emanuel's ties with Luther's Reformation are great. Emanuel was founded in 1862 and called Deutsche Evangelische Emanuel Gemeinde. To this day, some of the real "old-timers" still refer to Emanuel as the old "German Lutheran Church."

**Lambda Nu News**

The sisters of Lambda Nu Sorority are proud to welcome five new members to our sisterhood, Pam Alber, Sue Gialanella, Terri Jackson, Elaine Koch and Deneine Schaible. We are very glad to have them all! Winners of our convention drawing include Pat Stevens of Traverse City, winning the quilt and Helen Regent winning the lovely flower arrangement. We would also like to invite the community to the annual Beta Sigma Phi Talent Auction being held at the Emanuel Church in Manchester on November 15th. Watch for more details!

**Shakespeare Reading Club**

On behalf of the members of the Shakespeare Reading Club, on October 9, 1984, Mrs. Floyd Parr and Mrs. John Anderson arranged a club trip to Ella Sharp Museum in Jackson. The building is so-called, but it is part of what used to be known as Hillside Farm. The farm was willed by Mrs. Sharp to the city of Jackson, Michigan, to become a park and the house to be a museum. The house contains almost all of the furnishings used by Mr. and Mrs. Sharp. Mrs. Sharp was an attorney and also a State Senator and it was most educational to wander through the milieu of a well-to-do family of 1881-1912.

October Ninth proved to be a beautiful Michigan fall day. After lunch in Jackson, the drive home was enhanced by the colors of the trees and shrubs.

The first regular meeting of the Shakespeare Reading Club was held at the home of Mrs. Aaron Nathan on October 23, 1984, with fourteen members and one guest present.

Mrs. Marvin Kirk, historian, read the minutes of April 25, 1898 which included a report of the capture of Spanish ships by the United States in the Spanish-American war; discussed, was the History of Mythology as told by Nestor, a valorous Counsellor of Greece; someone narrated the story of the capture of Troy by the ruse of a large wooden horse; another subject on the agenda was of Poseidon, the Greek God of the sea, who became the Roman God, Neptune.

The topic for the day was "Fashion" and the report searched

for the meaning behind the craving for novelty and innovation in the clothing of men and women through the ages from primitive people to the present. It was noted that clothes of a certain period in time reflect the fixed morals and customs of a point in history. Starting about the 13th Century, first Milan in Italy, then the Duchy of Burgundy, followed by Madrid in Spain, Ghent and Bruges in Flanders and then London, due to their proximity to the textile manufacturers, became the style centers of the world. Then Paris, France, emerged as the leader of the Haut Couture, or high fashion. Paris has kept that title until the present time.

Although some think of fashion as frivolous and even foolish, and treat the whole subject with condescension, it is a fact that every new cut in a suit or dress is a means of expressing deep human longing for change. The clothes we wear mirrors the philosophy of the life of the current society, so fashion plays a part in the web of everyday existence.

Roll call asked the question, "What fashion would you like to see yourself in?" Replies concentrated on Hoop skirts, bustles and the large flower-bedecked hats of the turn of the century.

Mrs. Howard Parr read three poems and a lively discussion of current events followed.

The next meeting is scheduled for November 13th, at the home of Mrs. Norman Bucholtz. The topic for the day will be "A Biography of William Shakespeare."

Each individual team member contributed to the total team effort and was an integral part of the team. The team will be losing four valuable team members this year due to graduation; they are Jennifer England, Karla Raab, Sue Shear, and Kathy York. They will truly be missed.

## Library Book Review

THE COMPLETE TALES AND POEMS OF EDGAR ALLAN POE

New York: Modern Library, 1938. 1026 pages.

Oh, the delicious horror of it all! To spend Halloween curled up snug in the easy chair with a good book—by Edgar Allan Poe. Here

is all the creepy, spine-chilling, scary stuff of America's first great master of the macabre. Here are the ghosts and madmen, spectres and weirdos in full gruesome glory.

What Halloween would be complete without a "Black Cat"—or two—each with a missing eye? Or why not listen for the steady beating of the "Tell-Tale Heart" of

the old man whose body you have just cut up and concealed beneath the floorboards. Oh, how clever you thought you were! And what could be better than the horrors of the Inquisition which give you a nasty choice of dying in a loathsome pit or being sliced by a blade suspended on a pendulum slowly, slowly descending ever closer to your heart? And then there are the familiar Poe characters who refuse to die in any civilized manner—William Wilson, Ligeia, Madeline Usher, Valdemar, and untidy apparitions like the Red Death, King Pest and his ghastly crew and, of course, a mouthy raven. For a really cheap Halloween thrill, this book would be difficult to beat.

Many of us are, of course, already familiar with "The Pit and the Pendulum", "Fall of the House of Usher" and so on. This book, however, contains material that we usually don't see, that does not deal with the macabre. The "Philosophy of Furniture" is an attack on American interior decorating and somewhat dull. His satire on one of the leading British journals of his day, "How to Write a Blackwood Article" is downright tedious. Others like the "The Rationale of Verse", "The Poetic Principle" would only interest the scholar. The book does reveal, glaringly, Poe's limitations. He could not handle satire, his gloomy backgrounds eventually come to be expected and his characterization is enormously weak. His women all tend to be photocopies of Lenore and his men are either murderers or mad—or close to becoming so. I don't think one should attempt to read this from cover to cover—it simply gets depressing to stand so close to the brink between rationality and

brink between rationality and insanity very long. While Poe is limited, his great gifts are most fully revealed in his poetry. The artist who gave our language the beautiful "Annabel Lee" and the haunting "Ulalume" really deserves attention on days other than Halloween too.

horseback. They were attempting to establish a new, more methodical approach to the Protestant religion. In 1784, after countless sermons, most of which were successfully accepted, Methodism was born.

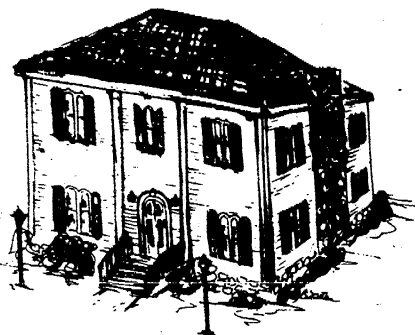

Two Hundred years later, Manchester's two Methodist Churches (Sharon and Manchester United Methodist) gathered to celebrate their birthday. The occasion was marked by a special combined church service which was led by our own 20th Century "Wesley Brothers", Rev. Evans Bentley and Rev. Hayden Carruth. They arrived at the church on horseback, of course, complete with clerical attire of the day.

Many members in attendance were also dressed in early American garb. The days festivities were concluded with a hayride and marshmallow roast.

# Veterans Day 1984

Veterans Day 1984 marks the seventh anniversary of the return of the observance to November 11 and the tradition of honoring the unknown soldier at Arlington on the 11th hour of the 11th day of the 11th month.

From 1971 to 1977, Veterans Day was observed on the fourth Monday in October in compliance with a 1968 law that changed most national holidays to Mondays.

Believing, however, that the November 11 date held great significance for this country, Congress passed a law in 1977 which returned the holiday to November 11. The law became effective in 1978, the sixtieth anniversary of the World War I armistice.

With the return of the observance to the armistice date of that "war to end all wars," this year's observance is an occasion to pay tribute to the 1,081,000 Americans who have died in the defense of their country in all American wars since 1776, and to more than 28 million living former servicemembers who served during both war and peace.

Of a total of 38,924,000 war participants—going back to the earliest days of the nation—more than half of the men and women who have worn their country's uniform in wartime are still alive. Another 4.4 million living veterans saw only peacetime service.

By far the most costly of America's wars was its Civil War in which 5 million persons participated. That conflict resulted in 364,000 Union deaths and more than 133,000 Confederate casualties.

In contrast, 290,000 Americans fought in the Revolution, and 4,000 died in service. Out of 287,000 American participants in the War of 1812, 2,000 lost their lives in service.

During the Mexican War only 79,000 Americans were in uniform, yet 13,000 died in

service.

In the Spanish-American War, 11,000 of the 392,000 U.S. participants died in service.

A total of 4,744,000 answered the country's call to arms in World War I, and 116,000 died.

World War II saw the greatest number of Americans ever in uniform—16,535,000 men and women. There were 406,000 deaths in service during that conflict.

During the Korean fighting, 6,807,000 saw service, and when it was over in 1955, 55,000 had died.

A total of 9,834,000 Americans were in service during the Vietnam Era. Of that number 47,000 deaths were due to action of hostile forces.

Today's population of living veterans—including those who served in more than one period—is made up as follows: World War II (39%), Vietnam (29%), Korea (19%), Peacetime (18%), and World War I (less than 1%). Only 22 veterans—America's oldest—remain from the Spanish American War.

Department of Social Services is in need of more family foster homes to provide care for these children and to work with the agency regarding their return home.

Children who come into care are all ages and come from all racial and ethnic groups. We especially need families who are willing to care for children ages 10-17, groups of brothers and sisters, emotionally impaired children, pregnant teens, sexually abused children, and black children of all ages.

Foster parents work with the Department as members of a team. They need to be able to provide love, security, and patient understanding for children who are suffering the traumatic effects of being separated from their families. Foster parents arrange for the child's medical and dental care, work with schools, and plan recreational activities. They also provide transportation for visits with biological families and, when appropriate, work directly with the child's family in the interest of reuniting the child with his or her family.

### "Electricity... The Best Bargain Is Right At Home"

Now that the days are getting shorter and the nights cooler, many of us like to dream of escaping the Michigan winter for sunny Florida. Or Texas. Maybe, even far-off California.

But whether you favor the South or West, have you considered the energy bargain you would be leaving behind in the Great Lakes State?

Even if, like most of us, you intend to move no farther than your favorite armchair this winter, you may be interested to know what folks in other parts of the country pay for the same amount of electric power.

"Bargain" may not be the description that comes first to mind when you think about utility bills. But all things are relative, and the cost of electricity in Michigan compares very favorably with the Sunbelt rates that lie at the end of I-75 or I-80.

Some comparisons will illustrate the point. They are based on an average consumption of 500 kilowatt-hours (kWh) a month, which excludes water and space heating but may allow for a little air conditioning.

Consumers Power Company's current rate for this level of consumption is \$31.66, as of the October 1984 bill. In the comparisons which follow, July 1984 rates—the latest available—will be quoted for other utilities. Incidentally, the Consumers Power rate at that time was \$29.96.

So let's switch on the air and head down to Florida...

Should you choose to spend the winter in Miami you become a customer of Florida Power and Light, whose 500 kWh rate was \$48.63. St. Petersburg (Florida Power Company) was a little cheaper at \$41.89. And so was Tampa (Tampa Electric Company) at \$43.49.

But don't forget that Consumers Power's rate is \$31.66!

Perhaps you prefer the wide open spaces of Texas. Houston Lighting and Power Company will welcome you at \$40.58.

Swinging northwest will bring you to Phoenix, where Arizona Public Service Company's rate was \$48.00.

Palm Springs (Southern California Edison Company) offers some relief from the desert dryness—and high electric rates—at \$39.06.

But if you want to siesta in San Diego, hold on to your wallet! San Diego Gas and Electric Company charged \$58.93—almost DOUBLE the current Consumers Power rate (\$31.66, remember) for the same amount of power.

In fact, the average rate Consumers Power residential electric customers paid last winter was 25 percent below the national average.

Michigan may not be able to offer burnished beaches in the dead of winter. But compared with many other states, it can let a little sunshine into your electric bill.

### Senior Citizens Meals And News

11:00 a.m. Afternoon begins with a discussion of "Self Medication" lead by Nancy Mason from the Chelsea Family Practice Center.

This is a topic everyone should know more about. At 2:00 all the fun of that fall trip to Washington, D.C. will be revealed when the candid camera shots from many will be shown. DON'T MISS IT!

Saturday, November 10, the travel buffs are going to Chelsea Kiwanis Lecture Series to visit "The Ozarks". Call Helen Braun about tickets and transportation for this and other trips coming up: Shopping in Jackson on November 12, visit to the Silverdome in Pontiac the 19th and if enough are interested in hearing the Rusty Goodman Gospel Singers in Adrian, November 24, let Helen know very soon as tickets are at a premium.

There is a telephone reassurance program being organized for the area in connection with the national trend among Senior Citizens groups for such a service. Anyone feeling that this service would be comforting and useful for a relative or friend, or anyone who would like to be involved as a caller or recipient should call Dorothy Hamilton, 428-9837, to learn about the program and its functions.

# Masonic Lodge Presents Donation

Richard Sands, G.S.W. with Walter Budnick, Harley Gilbert and Earl Alber Master of Manchester Lodge.

At a public party at the Masonic Lodge Hall recently, Manchester Lodge #148 presented the High School Varsity Choir with a donation. Roger Marrison received the check from Worshipful Master Earl Alber. This is a departure from past ways of helping people. Our Grand Master wants us to give to local people so the community knows what we are doing. In the past the Masonic Orders support the Masonic Old Peoples Home at Alma, Michigan, the Commandery gives generously to the Starr Commonwealth at Albion and to the National Eye Foundation. The Shrine Supports the Shriners Hospital in Detroit. The O.E.S. has their Estral Fund which helps schooling for pastoral students of which a couple have been from Manchester. This is a partial list of support.

We also presented Harley Gilbert, Walter Budnick and Earl Alber with forty year pins and life memberships, which means that they have been dues paying members for forty years and are

## Our New School

Manchester Enterprise  
October 24, 1876

The Union School will commence on Monday Nov. 4th, under the direction of Prof. Olney, assisted by Eugene C. Olney, Miss Mary Hitchcock and Miss Viola Gordon. Tuition and board the same as at Grass Lake and other high schools.

Those of our citizens who are not acquainted with the character of a Union School, will find some features in our new Institution that will need their consideration. 1st. "A Union School is a Graded school." Hence the classification of the pupils. Large boys will find themselves with little boys; older girls with younger ones. It will be a classification according to knowledge and proficiency; not according to size and age.

2d. "A Union School is a Systematic School." Punctuality and Faithfulness in attendance will be imperative. Neither parents nor children need be astonished if the pupils shall be put back in their lessons and classes. Uniformity in books, in lessons, and in progress will be a part of this system. Children cannot choose any books they please, or lessons they please. In a graded School there are no specialties, except in the higher grade. Hence children must take up all the studies presented.

They shall need to consider themselves true apprentices, needing a knowledge of all the tools of the mental workshop.

3d. "A Union School is an Orderly School." The children must obey. The Principal, for the time being is king.—Pupils must do as he dictates. Children do not go to school under the directions (much less whims) of parents; only in so far as their directions coincide with those of the Principal and his assistants.

4. "A Union School is a Disciplinary School." This is one of its chief advantages. Not only is knowledge imparted to the child, but also his mental faculties, tendencies, and passions are taught; are brought under the command of his own little, but imperious, will. Here is the rock on which parents and teachers, Principal especially, split. The moment parents begin to interfere with the discipline of the school, at that moment the educational ruin of the child begins; indeed, at that moment the mental and moral ruin of a child for all life has often began.

It is an incentive to rebelliousness, a defiance of law. Punishment is part, and a very unpleasant part, yet, a necessary part of discipline. Let the parents but insist most firmly on perfect obedience to teachers; these punishments will be a thing of the past. But should parents find due reasons to complain, they will always find hearers; those hearers are the School Board. Passion and hot-blood against school teachers will not answer; unless they will answer to ruin the child.

5th. "A Union School is a Superior School." An ordinary child will learn twice as much in it as at any mixed school. The reasons are obvious. Just as obvious as the superiority of a well drilled regimental platoon over a raw militia company.

## Junior Varsity Wins In Mud And Rain

The Manchester High School Junior Varsity Football team pulled off another win against a determined Michigan Center team on a very wet and muddy Thursday night.

The J.V. guys won again and the victory was sweet. Their ability was showing and their knowledge is much improved since the start of the season. Too bad that's the last game for 1984.

Shawn Nickerson rushed 45 yards and scored 6 points against Michigan Center in the first half. Dan Platt scored two on the conversion after Nickerson's touchdown in the first half and 6 points on a touchdown in the second half, while rushing for 137 yards.

John Kempher's toe punted for 155 yards while Scott Gross recovered two fumbles and was responsible for breaking up a pass attempt. Shawn Nickerson had eight solo tackles, Mike Stidham and Craig Scully each had seven solo tackles; Scott Gross had four solo tackles while

John Kempher was busy with three solo tackles. Platt, Rickelmann, Whiting, Fenelon and Bristle each had two solo tackles. Ron Clark, Buck Houghton, Karl Shook, John Arney and David Calvert accomplished one tackle a piece in the mud.

Paul Duvall gained nine yards rushing and David Calvert pushed forward for 6 yards. Although wet and muddy, the J.V.s showed themselves that they could win against a tough team and bad weather.

**WELL DONE GUYS**

## Deer-Car Crashes In Peak Season

Few people would spend more than \$8,000.00 to bag a deer, but that's what it likely would cost if you hit a deer while driving in Michigan.

Deer-vehicle accidents in the state reached a record high in 1983, with 21,509 accidents reported, the Michigan Department of Transportation (MDOT) said.

They cost a total of \$37.1 million, including \$24.7 million in property damage, averaging out to \$8,600.00 per accident.

The record also included two fatalities and 1,141 injuries. In 1982, there were 19,614 accidents including one fatality and 1,049 injuries.

Now that the deer mating season is in full gear, MDOT safety officials warn drivers to be especially alert for deer running across the road in front of their vehicles.

They advise drivers to slow down immediately if they spot a deer because others are probably nearby. Tooting the horn may help turn them away from the road.

The bulk of deer-vehicle accidents occur in October, November and December, and deer tend to be more active during the hours just before sunrise and sunset.

Drivers are also advised to use safety restraints and be sure to buckle their young children in legally-mandated child restraint devices.

The winners of the Fifth and Sixth Grade "Keep Our School Clean" poster contest are: 1st place-Jeff Hughes, 2nd place Dawn Schaffer and Michelle Gould, 3rd place-Donna Spiess. The winners received small prizes and the satisfaction of knowing that their posters will hang in the hallways to encourage all students to keep our school clean.

## Manchester Equestrian Exhibition

The Manchester Equestrian Team will be giving an exhibition for the students at Klager School on Friday, November 2nd, (weather permitting.) The team will demonstrate the various seats utilized at competitions and demonstrate some of the gaming classes. The exhibition times will be at 1:00 P.M. and at 2:00 P.M. just north of the school at the bottom of the hill. Interested parents or community members are invited to join the Klager students in watching the exhibition.

## Hit or Miss

Amerigo Vespiggo, a minor explorer, bragged about his trip and the new land was named for him.

Even the Pilgrims made errors. They sailed for the Atlantic coast near the mouth of the Hudson River but made a navigational error and ended up on Cape Cod.

Many other blunders are recorded in our early history which proved that our early heroes were also human and erred even as we have today. These classics include the sinking of the Titanic, the errors made during World War I and up through the years to the present and reading of them makes one wonder if the future of the world is not dependant on the prevention of stupid errors.

A mass of classic errors in the field of medicine, science and government are chronicled in this volume as well as those of the business world including, of course, the Edsel fiasco of 1957 by the Ford Motor Co.

In the chapters of medical history one writer said "Lucky indeed are the country folk too poor to afford the ministrations of the medical profession."

In the chapter on government it is revealed that the age of 65 for eligibility for Social Security was accidentally chosen. It was revealed that Otto Von Bismark, German Chancellor advocated in 1881 that a pension plan be adopted for the German people to combat the spread of Socialism, that was gripping the country and that 65 sounded like a good time because it had been said that very few German workers lived to be age 65.

The business experts have

proven time and again that they are not better than the economists in predicting. In 1981 Joseph Granville an economic expert said "Something is terribly wrong. Sell everything." This was on the eve of the biggest stock market advance in history.

However in many instances these recorded blunders had their humorous side as well as their sad side as witness the following:

The Allied Roofing and Siding Co. was engaged in cleaning snow from roofs in the area to prevent damage from the weight of the heavy snow—but guess whose roof collapsed from the weight of the snow—the roof of the Atlas Roofing and Siding Co.

In the sports category many wierd facts became evident when researched. For instance the Detroit Tigers of 1901 committed 425 errors, nearly three per game while the Baltimore Orioles of 1980 committed only 95 for the season.

In the first year of Reagan's presidency, the Republican National Committee sent out a computer generated letter over Reagan's signature asking for donations for the Republican cause. One recipient was Wilbur May and the address was R-1-8, Jackson, Georgia. This turned out to be a death cell in the prison. He was really Brandon Astor Jones who was awaiting execution when he received the letter. Mr. Reagan wrote "I only wish that I could call you as a witness to the great national debate over the future, wrote Mr. Reagan" but Jones had a previous engagement.

Many typographical errors, by merely putting in to them one letter become truthful. For instance:

Reading, Pa., Eagle: "The local Conrail office has announced a half fair policy for Senior Citizens."

The Flint Journal said: I have never turned a family away because they couldn't pay for a funeral said a local mortician.

The Vandegrift, Pa., Citizen said in a want ad: "Free to good home—part wire haired terrier."

The Dayton Ohio news said: Grass seed, produces a lawn for all-purpose use. Dies well in full sun or partial shade."

The St. Louis Post-Dispatch reports that a congressional subcommittee was "investigating charges that servicemen are used to perform mental tasks for officers."

The old New York Journal-American once reported that there was something about the title Old Incestors Trading Corporation, that inspired confidence."

And there are many more very informative and educational items in this book, thanks to the author Hirsh Goldberg and so may we recommend that you read this book—it will make you feel that not you alone are unusually stupid. Ask your librarian.

## WE ARE THE CHAMPIONS

Pat Ridenour breaks away from several tackles to score Manchester's first touchdown.

Tom grabbed 6 passes for 108 yards. It seemed everytime Center started moving well our defense stopped them. Bill Broucek covered the air ways as he had 3 interceptions. Linebacker Dirk Rodriguez led the squad in tackles with 10 as Todd Ricklemann was right behind.

As Cascade Champs we now play the winner of the Big-8

Conference in a special post season contest. The Big-8 winner with an identical 8-0 record, is Union City. The battle site is Jackson Vandercook Lake at 7:30 P.M. Saturday, November 3rd. We still have a shot at making the State Playoffs.

## DON'T DIE OF EMBARRASSMENT.

It starts quite innocently: you convince yourself the symptoms aren't serious. So if you sought medical help you'd just look foolish. And later it's too late.

Each year 350,000 Americans die from heart attacks before reaching the hospital. Often after a deadly, unnecessary delay. In fact, the average victim waits over three hours before consulting a doctor. Because he doesn't realize what his symptoms mean. And he doesn't want to seem silly.

Please, learn the warning signals of a heart attack. And, if you experience any of them, get help. Call a paramedic at once. Or, if you can get to an emergency room faster another way, do so. Without a second thought.

After all, saving face means nothing compared to saving your life.

### WARNING SIGNALS OF A HEART ATTACK

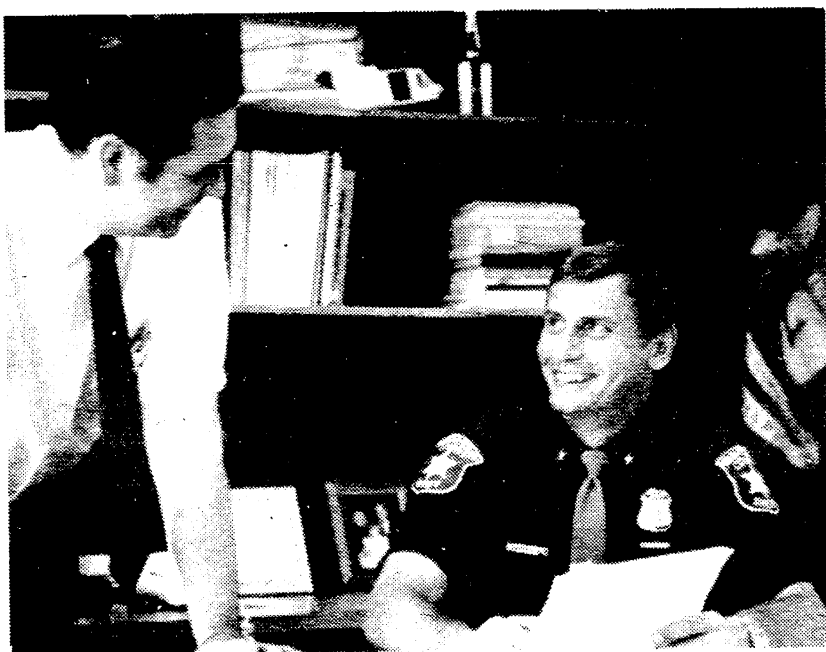

1. An uncomfortable pressure, fullness, squeezing or pain in the center of your chest behind the breastbone.
2. The sensation may spread to your shoulders, neck or arms. If it lasts for two minutes or more, you could be having a heart attack.
3. Severe pain, dizziness, fainting, sweating, nausea or shortness of breath may also occur, but are not always present.

WE'RE FIGHTING FOR YOUR LIFE
