An Old Washtenaw County Map

There recently came into the possession of the writer a map of Washtenaw County gotten up 50 years ago by a Philadelphia firm. It gives, what appears to be, an accurate outline of the 20 townships of the county, and defines the boundary lines of the different farms and prints the names of the owners. In our own township of Manchester, Richard Green is the only person living on the same farm now, who was owner in 1856.

Not very many are left of all those many land owners. Wm. Johnson then had the farm now owned by Henry Herman. A New York man, Judge Clark had 500 acres surrounding Iron lake. He once platted out a village east of where is now the mill. In many other ways he exhibited a spirit of enterprise in which other residents did not apparently take much interest.

There are several instances where farms remain in the same family and are owned or occupied by people of the same name as those of earlier time. We notice among the number the names: Spafard, Merriman, Valentine, Palmer, McMahon, Brower, Clark, English, VanWinkle, Hall, Holmes, VanTuyle, Smith, Smalley, Sanborn, Kirk, Chase.

A Reminder From The Athletic Boosters

There will be a meeting at the high school on 4-17-66 for all those who can help with the food tent this year at the fair.

The Boosters are operating the food tent at the fair this year to raise money for completion of the Athletic Complex beside the Klager School. If you can volunteer some time please attend this meeting.

Manchester Alumni Association To Hold 108th Reunion

The Manchester Alumni Association will hold its 108th Annual Reunion at the Manchester K of C Hall on June 8, 1966. Dinner will be served at 6:30. The cost is \$8.00 per person. Entertainment will be the Jackson Chapter of The Sweet Adelines.

Manchester is one of the very few schools that still has the annual alumni meeting. It can be lots of fun to reminisce with those you have not seen in a long time. Remember the "good old days" with former classmates, those upper classmen and the under classmen.

Loucks, Gilbert and Alvord. Nearly all the old residents, who had a part in the work of the pioneer times and whose personality stamped its impress upon the history of the township, have now passed from these scenes of human action.

"The Knights are dust,
Their swords are rust,
Their souls are with
The saints we trust."

The map also contains views of prominent public buildings, town residences and farm buildings. The old court house was in dimensions and appearance about

like a modern rural school house. The university buildings had not yet attained their present ample proportions. The old Franklin house, the union school building and other Ann Arbor structures were then of very modest style and size. Some Ypsilanti places of residence would not now be considered very palatial. The normal school would seat just about 100 students.

There is a view of the barns on the farm of Gen. Asa Williams, near Lima Center. The buildings were destroyed by fire some time in the early seventies. There was a large insurance upon them. We continued on page 9

The following letter to the editor appeared in an area newspaper and we thought it entertaining, interesting and well worth reading so we present it herewith. We blacked out the name of the bank in the letter and also the name of the store as we didn't think that they probably needed or wanted any great amount of publicity but we did sympathize with the gal who signed it and think you will too.

To the Editor:

I lost my temper today! OK, I've been known to blow off steam occasionally before. But as a rule, it's usually in the privacy of my own home. Today was different!

I arrived home from work late this morning and found that my 14 month old had run out of diapers. No biggie! Just get her continued on page 16

Iron Creek Church Celebrates 130th Anniversary

In April of 1855 a small group of Christians met in the old Iron Creek school to organize a Baptist Church for the area. At that time the church was on a circuit with several other churches including Macon, Norvell, and Fairfield.

A series of revival services were held by the church in 1867 resulting in a movement on the part of the young congregation to erect a house of worship. Construction was begun in 1868 and in December of that year the present building, located at the corner of Sharon Hollow and English roads, was dedicated.

The Iron Creek Community Church has continued to faithfully preach the Christian message now for 130 years without interruption. During its long history the church has rejoiced in good times and survived bad times. It stands as a testimony in the Iron Creek area of each generation's determination to make sure that the next generation receive the Word of God.

This Sunday, April 21, the

congregation will be celebrating their 130th Anniversary. The special guest for the day will be Mr. Ezra Daniels of the Fairfield Baptist Church. Mr. Daniels will be present to commemorate the historical relationship between the two churches. He will also be presenting several musical numbers on his saxophone during the 10:00 a.m. service.

Members of the church will be dressed in the fashions of the 1900's and early 1900's. There will be a special pot-luck dinner at 11:15 a.m. Afterwards, there will be a time of recreation on the church grounds including sack races, rope pulls, and horse shoes. Another special event of the day will be an antique display presented by the Church Historical Society.

Pastor Bill Mason and members of the church invite all those who either grew up in the Iron Creek area or who attended the church in times past to consider this special day as a homecoming. The public is welcome to come and enjoy a taste of what it must have been like to go to church in 1855.

"Big Apple" Supports Dutch Athletics

Wes Gall presenting check to Athletic Booster President Willard Cleland.

The Manchester Athletic Boosters received support for the Athletic Complex at Klager School from an unexpected source at their April meeting.

Wes Gall, on behalf of his brother-in-law, Bruce Crouch, presented Athletic Booster President Willard Cleland with a check in the amount of \$1,000 from Hotel Copy Centers of New York City.

The Committee for the Athletic Complex at Klager School has been working diligently since January formulating plans for the

complex. They have contacted various community organizations, explored possible foundation grants, and planned a number of fund-raising projects.

The recently run lift-a-thon was very successful and helped to generate community support.

The Committee is very appreciative of the support thus far from the community and would like to encourage any interested group or individual to contact one of the following: Gary Acree, 428-7836; Bill Kemner, 428-8067; or Jim Fielder, 428-7150.

Council Proceedings

April 1, 1985

The regular meeting of the Manchester Village Council was held April 1, 1985, at the Village Hall.

President Hinkley called the meeting to order at 7:04 p.m. Present: Becketl, Kallewaard, Koebbe, Niehaus, Tapping, Zaborowski, Zsenyuk, Smith.

Kallewaard moved to approve minutes as corrected, supported by Becketl. Motion approved.

The Clerk stated that she administered the Oath of Office to Trustee Lawrence Becketl on March 25, 1985.

President Hinkley asked if there was any Citizen Participation.

Louis Keefe said he had a sewer problem at his home at 317 E. Vernon. Everytime it rains he has sewage in his basement and the yard. Mr. Keefe said the D.P.W. have tried to alleviate the problem, but nothing has succeeded. Zsenyuk said the D.P.W. intends to run a sewer line from Mr. Keefe's house to the sewer on City Road to take care of the problem.

Tapping moved to pay the Village Payables of \$42,000.80, supported by Becketl. Roll Call Vote: Ayes - all. Motion approved.

Niehaus moved to approve Herbert Mahony's step raise from \$17,500 to \$18,900, supported by Koebbe. Roll Call Vote: Ayes - all. Motion approved.

Koebbe presented the D.P.W. and Mechanic's reports. Reports on file.

Zsenyuk asked for Council's approval to obtain bids on a street sweeper (pull along trailer type). Council approved.

Tapping moved to take the next step to find out about changing

the Village Fiscal Year, supported by Becketl. Roll Call Vote: Ayes - all. Motion approved.

Zsenyuk asked permission for the Metro Grand Spring Tour (Bicycle Ride) to use Carr Park for a rest stop. Council granted permission.

The Clerk read the following letter from the Manchester Optimist Club - Re: Mayor's Exchange Day:

Dear John:
At our Manchester Optimist Club Board Meeting held on March 25, 1985, Mr. Ted Tapping related that the Village Council would possibly be interested in our club selecting a Citizen of the Year in conjunction with the annual Mayor's Exchange Day. After some discussion we did agree that this is a worthwhile concept, however, it is not within the constitutional purposes of our club which are as follows:
To aid and encourage the positive development of youth
To develop optimism as a philosophy of life
To inspire respect for law
To promote patriotism
To work for international accord and friendship among all people
To do all of these things in the belief that the giving of one's self in service to others will advance the wellbeing of man, his country and the world.

If you feel that your concept could be redefined to fit within one of the listed purposes please let me know your thoughts, otherwise it may be more within the purposes of one of the other civic groups in our community, such as the Chamber of Commerce.

Very truly yours,
James R. Datsko
President

Council will look into this matter more thoroughly.

The Clerk read the following letter from the Chamber of Commerce - RE: Turn of the Century Motif:

Dear John:
On behalf of the Manchester Area Chamber of Commerce, I wish to advise you that we have unanimously agreed that our community's central business district should be developed and improved using a "Turn of the Century" motif.

It is important that our community develop an image that will set us apart from the surrounding area. It is our belief that this common theme will help us in developing that image in an economical way.

We are respectfully requesting that the village authorities take the necessary steps to adopt enforceable language in the applicable ordinances to see that any future improvements follow this theme.

The Manchester Area Chamber of Commerce looks forward to working with everyone interested in our community's future.

Very truly yours,
Susan L. Hamilton
President

Becketl moved to go into closed session for a legal matter at 7:45 p.m., supported by Tapping. Roll Call Vote: Ayes - all. Motion approved.

Council meeting reconvened at 9:10 p.m. Hinkley stated that a few weeks ago the Village Council received an opinion from Gistingers' on Rural Housing Site Plan Approval, that they didn't agree with and because it was an important issue, they requested a second opinion.

A second opinion was received from Robert Travis of Baukham, Reed, Land, Schaeffer and Travis, P.C., which basically agreed with the first opinion.

Niehaus moved to bring the Rural Housing Site Plan from the table, supported by Zaborowski. All - ayes. Motion approved.

Kallewaard moved that the Village grant Rural Housing Corporation, a conditional site plan approval relative to the property located in the Village of Manchester, which is described in its original application. Said

approval is conditioned upon the consent of the Michigan Department of Natural Resources, relative to the additional effluent that the project will cause and the capacity of the Village Sewage Treatment Plant to handle it, and the D.N.R.'s determination is made, supported by Zaborowski. Discussion followed.

James Hovey stated that it is his understanding that when the D.N.R. says it is alright for Rural Housing to tap into the sewer, regardless of problems in other areas of the Village, whether the Treatment Plant is overloaded or not, Rural Housing would be able to tap in and start construction.

Mark Gistingier said that it is

his understanding that the consent of the D.N.R. relates to the Rural Housing Project and the additional effluent that would be in the system and only to that concern. Mr. Hovey said - fine. Kallewaard said - and if the D.N.R. would not take action against the Village.

Robert Renel said that Park Land Company is dealing with a contractual situation with Rural Housing and if they agree to the wording of the resolution, then Parkland Company agrees. Roll Call Vote: Ayes - all. Motion approved.

Mayor's Exchange Day was discussed.

Tapping moved to adjourn the meeting, supported by Becketl.

Meeting adjourned at 9:24 p.m.

Checklist For Spring Cleaning Your Recordkeeping

Are you one of those people who saves everything and stuffs it into a drawer where it'll sit for years? Or are you just the opposite, the kind of person who throws out everything, even the documents you may need. Keeping the right records can be an onerous task. According to the Michigan Association of CPAs, this checklist can help put your recordkeeping on the right track.

Separate Wheat from Chaff - Most of the records that people must store are kept for tax reasons, to support claims in case of an IRS audit. Spring cleaning of your records should begin by separating tax-related papers from those which won't be missed in the event of an audit, such as credit card receipts or non-business related telephone bills. On the other hand, items such as business entertainment receipts, tax-related bank statements and investment-related documents should be retained.

Tax Returns and Supporting Documents - There is no set time

limit on how long you need to keep a federal income tax return and supporting documents that are proof of deductions. It depends on your personal circumstances and how complicated your return is. If you file a 1040EZ every year, you probably don't have to keep your return and other tax-related records more than three years after the due date of the return. If the IRS audits you and finds an error on a return that's been filed more than three years ago, they cannot assess a penalty or ask you to make good on any accidental understatements.

But people who file more complicated returns by taking credits, averaging income or depreciating property have longer record retention schedules. CPAs say. Someone who depreciates a building using the 15-year accelerated depreciation schedule would want to keep all the returns filed during the depreciation period. They'd also retain all documentation relating to property, such as contracts, bank statements and receipts for improvements. Three years after

you have filed the last return using the depreciation schedule, you can safely discard much of the supporting tax documentation.

Keep in mind that the three-year statute of limitations applies only to inadvertent mistakes in filing. Someone who understates his gross income by more than 25 percent could be assessed with back taxes and fines for up to six years. A waitress, who is more likely to be challenged for grossly understating her income, may want to keep pay stubs and tip records to satisfy the six-year requirement. There is no statute of limitations for someone who files a fraudulent return or fails to file any return.

Since this can be complicated, many CPAs tell clients to hang on to all of their tax returns. If you require an old return, the IRS will send you a copy for \$5. Usually this takes no less than six weeks.

Wills should be reviewed annually. Only one signed will should be kept and it's best to leave it in a safe deposit box.

Veterans Discharge Papers should always be retained, preferably in a safe deposit box or a fire-resistant strongbox. Veterans discharge papers can be useful when applying for a mortgage, bank loan or insurance policy and in making burial arrangements at federal cemeteries.

Insurance Policies should be kept in a fire-resistant strongbox. You wouldn't want a homeowners policy to be destroyed by fire when you need it the most. With your insurance policies you may want to file photographs of your possessions, including cars, stereos, furniture and jewelry.

They can be useful in substantiating an insurance claim. **Stock and Bond Certificates and Deeds** should be stored in a safe deposit box.

Contracts and Personal Financial Statements should be permanently retained. Financial statements should be updated annually or even more often if you apply for a mortgage or bank loan.

The Final Touch would be to jot down the location of your safe deposit box, its contents, and the names of your insurance agent,

attorney and CPA. If you or your spouse become disabled or suddenly die, this information ensures that the mortgage gets paid and other routine chores are carried out. You may want to ask a CPA to help you draw up a personal financial statement to be stored along with this financial summary.

"GOOD MANAGEMENT DOES NOT COST - IT PAYS"

As a unique break from the routine, 7th and 8th grade students and teachers participated in a Middle School first-Mind Games Day on Wednesday, April 3rd. Students were organized into 20 teams of 8 and competed against other teams in flexing their brain muscles. Competitions included such activities as Science Trivia, Logic and Reasoning Puzzles, Dictionary Relays and Social

Studies Review Game. Students learned about co-operating with each other while spouting and using their academic learning and teachers watched applied talents in action and unexpected leaders emerge.

At the end of the day, one could overhear comments such as "Hey, this was a fun day," "Are we doing this again?", and "I'll bet next time our team could even be first."

Traffic Advisory

Traffic on US-23 north of Ann Arbor may be slowed by intermittent lane closures beginning Monday (April 15), the Michigan Department of Transportation (MDOT) said. The lane closures from M-14 north to Territorial Road will be in effect during daytime hours only for resurfacing and concrete patching work. The project is expected to be completed by mid-July.

21 Locals Make Callbacks For Feature Film

Swan Productions would like to thank all the local talent that showed up for the film company's auditions on March 23rd at the Black Sheep Theater. Of the over 650 actors and actresses that showed, 21 Manchesterites were called back by the producers for further readings. The following is a list of the local talent that was called back:

April Adas, Michelle Buono, Israel Clouse, Leslie Duncan, John Dwyer, Robin Fleck, Kevin Krzyzanski, Darrel Lee, Kimberly Lee, Tracy May, Jackie Miller, Noah Nietz, Ryan Owen, Coralie Parkins, Kye Potter, Maya Fuscas, Oakie Fuscas, Angie Schable, David Stueck, Angela Valliencourt, Marlene Vassoff.

Over 650 people patiently waited in the 40 degree cold and steady rain for a chance to audition for a part in Swan Production's first feature film, "The Carrier". Producers of the low budget horror feature, to be shot this summer in and around Manchester, held mass auditions Saturday, March 23rd, in the village's Black Sheep Theater. There, acting hopefuls from as far away as Florida read for one of nine interviewers on hand from Swan. Nathan White, founder of Swan Productions and director of "The Carrier", says there is a "good likelihood" that he will be able to cast his film from the talent that showed Saturday.

White, who has been working on this project for over two years, says "The Carrier" is currently 70% financed, and anticipates completing financing by this summer. "Camera's will be rolling in Manchester by July 8th, but we hope to move that up a couple of weeks into mid June," explains White.

The month of April will largely be spent in casting the film. The auditions in Manchester Saturday were the first step in a three tier process in selecting actors and actresses for the 15 principal roles in the film.

Special Law Day Program Offers Free Legal Counsel

Free legal counsel will be available to Washtenaw County residents on **NO BILLS DAY**, April 26, 1985.

As a public service in conjunction with Law Day U.S.A., members of the Washtenaw County Bar Association will give 30 minute consultations to anyone who phones for an appointment.

According to Manuel James J. Lentine, "No legal documents will be drawn up during the 30 minute consultations, nor will time permit the solving of specific legal problems. "However", he added, "many persons have questions about what to do about their legal problems that we can address during the sessions."

"NO BILLS DAY" was conceived by the State Bar of Michigan in 1974. Since then, it has attracted the participation of most of the state's local bar associations and won the Award of Merit of the American Bar Association.

To make an appointment for a free consultation, call 994-4309 between April 17th and April 24th. Walk-ins welcome, also.

Law Day U.S.A. became a national holiday during the Eisenhower Administration, reminding citizens of their legal rights and obligations under the American system of justice.

Locations: Ann Arbor - 200 Hutchins Hall, U-M Law School, 9:30-7:30; Chelsea - Great Lakes Federal Savings, 1135 S. Main, 9:30 - 1:30; Ypsilanti - Old Ypsilanti High School, 210 W. Cross, 9:30 - 7:30.

A Feast Of Flavor In A Salad Bowl

Salads have come into their own recently. Restaurants specializing in salad bars report their business is booming. The "composed" salad (as opposed to a tossed salad) is now considered very chic, and the ingredients found in the fanciful versions of the latest "in" places to dine are often as exotic as goose breast with apricots. The popularity of salad reflects the fact that it's a delightful dish, healthful, nutritious and filled with tasty foods.

Sunburst Salmon Seashell Salad is a superb example. Fresh grapefruit from Florida lend juicy succulence to shell pasta and salmon, which are mixed with a medley of vegetables — celery, carrots, peas and green onions. The result is a beautiful-to-look-at salad brimming with flavor. The contrasts in taste and texture it offers are another bonus. Add a dash of drama to your own salad bar with this recipe, and listen to the applause.

- Sunburst Salmon Seashell Salad
- 4 cups cooked shell macaroni
 - 3 Florida pink grapefruit, peeled and sectioned (reserve any juice for dressing)
 - 1 cup sliced celery
 - 1/2 cup sliced carrot
 - 1/2 cup cooked peas
 - 1/2 cup chopped parsley
 - 1/4 cup chopped green onion
 - 1/2 cup salad oil
 - 1/3 cup Florida grapefruit juice
 - 2 tablespoons distilled white vinegar
 - 1 teaspoon dried dill weed, crumbled
 - 1 teaspoon celery seed
 - 1/2 teaspoon salt
 - 1 can (15 ounces) pink salmon, drained
 - Lettuce

In large bowl combine macaroni, grapefruit sections, celery, carrot, peas, parsley and green onion. In

Grapefruit from Florida lends its magic to the well-dressed salad bowl.

screw-top jar combine oil, grapefruit juice, vinegar, dill, celery seed and salt. Shake well. Pour dressing over macaroni mixture. Toss well. Cover. Chill 30 minutes. Break salmon into large pieces, fold into macaroni mixture. To serve, spoon salad onto lettuce lined plates. Yield: 8 servings.

California Achievement Tests

During the next two weeks Klager Elementary students will be taking California Achievement Tests to assess their academic progress. Administered each year, these norm referenced tests provide scores which compare individual achievement levels with the national average. They also give more specific information about which skill areas a student has mastered and what skills need to be re-taught. Teachers use this information to plan instruction for each child.

On the school-wide level test information is used to identify instructional areas that need to be improved and areas of excellence.

Hit Or Miss

dressed, hop in the car and buy some more! Oops! No cash on hand! Bills all paid, checking account at an all-time low. What now?

Search the house! Rob the piggy bank. Put the baby in her snowsuit. Pile into the car and we're off to the store for some diapers and a few odds and ends, pockets bulging with change, everything's still cool!

Fifteen minutes later we're at the store! We picked up our merchandise and headed for the cashier. Business being slow, I got right in line. I told the girl behind the counter not to ring up anything yet and flashed the coins. We started counting, prepared to ring other customers through rather than make them wait. Halfway through our counting, a voice interrupted us, saying to the cashier, "You can't take that! It won't even fit in your drawer!" "Besides," she now admonished me, "that should be in rolls! Don't you have any rolls?"

Looking around the store for a sign that says "Change should be in rolls," and not finding one, I replied "No, this just came out of our piggy bank."

"Well! You'll just have to take that to the bank! We can't accept it!"

Walking out of the store, baby in arms, wind blasting, I was amazed - not angry yet. Just amazed! No one ever told me that American currency was no longer accepted as legal tender in the marketplace. I must be living in the dark ages not to know that cold hard cash could no longer buy diapers for my baby, where a piece of plastic from American Express would have me halfway home by now!

Into the car. Buckle up the baby. Drive two blocks to the bank. Still gusting fiercely outside I (knowing it was a mistake from the onset) opted for the drive-thru to spare the baby

the cold wind. Pressing the button for service, I noticed no one was in the booth. After a minute or two I backed out of the lane to make sure I was in an open one. I was, but seeing no other cars around, I moved over to the next lane and tried again. This time a teller appeared, but immediately waved me off to take a deposit from a man who had just walked up to another "drive-thru" lane.

Waiting for him to complete his transaction I was looking for a "walk-thru" sign. Not finding one, I asked the teller if she could convert my change for me through the "drive-thru".

"How much?" was the reply. "About fifteen dollars," I answered.

"No, you'll have to come inside."

Once inside, baby, change and all, I observed three people behind the counter. From where I stood I could see there were no other customers in the bank. Nor were there cars at the drive-thru. Propping the fast-getting-wetter baby on the counter I reached into my pocket and pulled out the little zip-locks I had put the change in. One for silver, one for pennies.

One of the tellers looked down at the change, then at me and said, "You'll have to leave this and come back later."

OK, NOW! Now I'm getting mad! We're talking five dollars in pennies and maybe eight in silver (mostly quarters). Three people are doing absolutely nothing! I now know the true meaning of "Go ahead, make my day!"

With a little calculation I come up with a total of 170 coins for each to count - a task that would involve all of three minutes to perform, and I must drive halfway to Adrian and back in order for them to tackle this phenomenal feat! At that, I offered to count it myself for them and again I was rebuffed. "We're short handed. Some of the staff are at lunch. You'll just have to come back later."

"And will you be so patient as to 'come back later' if I asked you to wait on a mortgage or car payment?" I wondered to myself.

"Do you have an account we can put this in?" she asked.

What I thought was "Yes, I do. But why at this bank I'll never know."

"John Doe" I said, and left.

As for the baby, she is still out of diapers and it's now three hours later with no phone call from the bank as was indicated when I left. Time is growing short. We're running out of towels.

When she's ready to make a deposit, I'll have to accept it, regardless.

Take heed, merchants! Without your customers where would you be? Try a little harder, won't you? We'd all appreciate it.

Sincerely,
C.L.

River Raisin Watershed Council Annual Meeting

The River Raisin Watershed Council is requesting all members from eligible governmental units to attend the annual meeting to be held at 1:30 p.m. on Wednesday, April 24, 1985, at the Lenawee County Drain Commissioner's office, 113 W. Front Street, Adrian.

The Council must hold at least an annual meeting to continue its legal status. Although two (2) additional meetings were held in 1984, in an attempt to find a way to hire a full-time person on a temporary basis, nothing concrete has developed in this area. Hopefully, this meeting may provide the means to carry out this plan.

Agenda items will include renewed DNR interest in working with several Watershed Councils in the state. Also, membership dues and election of officers.

Members as well as any interested persons are welcome to attend this meeting.
