The Big Feed

On July 18, Manchester will put on its 32nd Chicken Broil and invite the whole world to dinner. Although not everyone can come, in past years our town has hosted up to 14,000 people from all over the state, the country, and from many far-away foreign lands. All those who have attended have tasted chicken unmatched anywhere else.

When you expect 14,000 people for dinner, what do you put on your shopping list?

You start with about 15,000 pounds of chicken. The chicken has always, since the very first broil, come from Morren Poultry in Galesburg, and it arrives fresh, packed on ice, just hours before it goes on the grills. Manchester's intrepid volunteers, men who may cook no other meal all year long, carefully tend the birds as they cook, turning them often and basting them liberally with butter. Manchester chicken is as good as it is mainly because the recipe is so simple. No fancy spices or sauces are used; nothing goes on the meat but butter and salt. The slow roasting and charcoal smoke do the rest. To cook all these chickens, the shopping list will have to include 5 tons of charcoal, 3 cases of PAM to coat the grids, and 250 pounds of butter for basting.

For the rest of the dinner, add 14,000 dinner rolls, 1100 pounds of radishes, 14,000 bags of potato chips, 9,000 cartons of milk, and 2 cases of coffee.

For the special, secret recipe coleslaw, the salad committee will shred 68 crates-worth of cabbage on their special sauerkraut cutters. They will add in unknown, closely-guarded proportions. 40 gallons of

All-Village Yard Sale

Village to Village - Manchester is planning an all-village yard sale as a fund raising event. The date has been set for Saturday, July 13, from 9 a.m. until 5 p.m. The sale will be held on the high school front lawn, moving inside the study auditorium in the event of rain.

We need those odds-and-ends, knick knacks and seldom-used items that are cluttering your attic, basement and garage. We also need volunteers willing to spend a little time helping to advertise the sale, coordinate donations, or help set up and sell the day of the yard sale.

An all-village yard sale should bring in browsers from Ann Arbor, Saline, Chelsea, Grass Lake and other surrounding communities. If you would like to donate items for the yard sale or can give us a hand, please call either Jacqueline Davis (428-7874) or Mark Meister (428-7876).

vegetable oil, 100 pounds of sugar, 24 cans of salt, 50 pounds of onions, 18 gallons of vinegar, and odd handfuls of pepper, celery seed and mustard. If you can reproduce from this part of the shopping list the famous secret recipe, Doc Jones, who originated it in 1954, will no doubt tip his chicken broil cap to you.

The 500-600 broil volunteers will need 600 of those paper caps, 600-700 pairs of gloves, and 500 rented aprons. The table service for the diners will consist of 7,800 paper boxes for take-outs, 6,000 paper plates, and enough napkins and plastic dinnerware for everyone.

This all adds up to quite a grocery bill, but the broil has made enough of a profit over the years to donate well above \$100,000 to public projects like Char-Bro Park, to the Historical Society, and to the Manchester School System. The broil is a dinner on a royal scale. The first chicken will be served up at 4:00 p.m., Thursday, July 18, and tickets are \$4.00 in advance or \$4.50 at the gate.

Record Set In Toothpick Bridge Contest

Bart Rickelmann with his toothpick bridge supporting 191 3/4 lbs.

The Mechanical Drawing classes at Manchester High School are building bridges. Having just finished their yearly "Toothpick Bridge Contest", students designed and built toothpick bridges that meet the following requirements: 1. the bridge must have a span of 14". 2. only wooden toothpicks may be used. 3. no more than 750 toothpicks are to be used per bridge. 4. glue may be

applied only at the joints. The purpose of this contest is to acquaint students with the principles of trussed construction. This year's winner was Bart Rickelmann. Bart's bridge held an amazing 191 3/4 pounds, a new record. (The previous record holder was Bob Dettling whose bridge held 165 pounds.) Runner up this year was John Kempher with a weight tolerance of 172 pounds.

Please use the following schedule:
7:30-8:00 a.m. Middle School A-L

Remember, physicals are required for all athletes who wish to participate in any sport during the 1985-86 school year. If you have any questions, please call Rod Morrison, Athletic Director at 428-7333.

R. McMahon made Chief of Police Kipley gasp in astonishment when she called at his office yesterday to complain that she had been robbed of a special Pullman car valued at many thousands of dollars. She said F. Guth, a St. Louis showman, is skipping blithely from water tanks to one-night stands in the far south with his troupe of world wonders, in her stolen car.

Car tracers, sleuths and lawyers are scouring the land from Tallahassee, Fla., to the former home of the Aztecs in Central America, but all they have been able to discover up to date has been the trail of the car and its mighty aggregation, which go merrily on gathering all the shekels in sight.

In the interim Miss McMahon grieves the loss of her property while tourists, prominent citizens and others to whom she expected to let the traveling home, wring continued on page 3

Letter To The Editor

Dear Simon and all of Manchester,

What a Party!!!

We apologize for being late with this Thank you, but we have been very busy.

We want to thank one and all for the fantastic party for us before we left Manchester. A sincere thank you to the committee, Bob Ross, Dan Boutel, Simon Steele and Gene Bentschneider and who ever else helped these guys. We sure had a wonderful time and will never forget that evening. Thank you to all the people who attended our special night and everyone for all the well wishes.

A special thank you to the committee for the beautiful painting of our store, one of the first pictures put up in our new house in a spot everyone who visits us can see it. Thank you to the Village of Manchester, The Chamber of Commerce, The Mens Club, The Manchester Schools, The Optimist Club, The Girl Scouts, Double A and the Hardenbergs for all the plaques and mementoes given to us. We really can't thank the good people of Manchester enough for a fabulous send-off.

Our last week in Manchester was extremely busy for us trying to tie up all the loose ends, finish packing the house, finish the store and pack the trucks to leave. On Saturday, the 27th of April, we had a great crew to help us load, fix lunch and help with all the details of cleaning, etc. A big thank you to Ray and Wanda Tirb for all they did that day.

ended up with 2 U-Haul trucks and a trailer plus our Suburban and a trailer and our LTD. Still could not get everything in. Thanks Kathy for your help and for the storage. We had two great volunteers to help drive the second U-Haul on Saturday afternoon. We left Manchester Sunday morning, April 28th, at 9:45 a.m. We stayed in a caravan in case of any trouble and stayed in St. Louis, Mo., that night. Monday took us through Missouri and on to Oklahoma City where we stayed Monday night. No problems, we had CB radios so we could talk to each other.

Tuesday we crossed the rest of Oklahoma and the Pan Handle of Texas into New Mexico, we stayed in Albuquerque that night. Beautiful country. Having lots of fun, what a great crew. Wednesday we finished crossing New Mexico, the mountains were gorgeous and into Arizona, around Flagstaff, no snow, and across the desert. It was pretty warm but lots of country to see, beautiful. We stayed in Needles, CA., Wednesday night. Thursday we came across the desert and into the mountains east of San Bernardino and arrived in Placentia around 1:30 p.m. My brother, Gale and his family met us and we had the 2 trucks and trailer unloaded in 2 1/2 hours. Really worked! By the way, Pepper rode all the way in the Suburban and was a great traveler, we never knew we had a dog with us.

Our caravan consisted of Gary and Sandy Gill, Harry and Mary Ann Sturdevant, Margie and Rosemary Bentschneider and of course Irv and I and Pepper. What a great bunch of people, we had a super time. Our California weather has been super, sunshine everyday. We have a beautiful home and our area is super. We can see the

By the way, we have planted 2 grapefruit trees, 2 orange trees and 1 tangerine tree. Should have fruit in a couple years.

Thought most of you would be interested in hearing about our trip and so on. We are setting our den up as our Manchester room, will send some pictures to Simon when it is done. Class Of 1965 Reunion

On Saturday, June 22, 1985, the Manchester High School graduating class of 1965 will commemorate their 20th year with a reunion party. This will take place at the K of C Hall in Manchester. Cocktails will start the evening at 6:00, followed by dinner at 7:30 with lots of reminiscing and dancing until 2:00. Sammy Misuraca will be the DJ for the evening with tunes from the 50's and 60's which will be a familiar backdrop for this class gathering.

In 1965 this class held the distinction of being the largest class ever to have graduated from MHS, being one of the first of the Baby Boomer generation. There were 87 graduates which topped

previous classes by 25 to 30 students. Graduation exercises were held for the first time on the Athletic Field. Forty-seven percent of this class participated in some kind of continuing education following graduation, which was, at the time, the largest class percentage to do so. Today the class is spread across North and South America. Members will be coming from Oregon, Virginia, Georgia, Illinois, Indiana, Hawaii, British Columbia and South America, as well as many who have become productive citizens of the Manchester area.

their hands in anguish. Miss McMahon enjoys the distinction of being the owner of an extensive line of cars - the home of many an opera, minstrel company, prominent star and wealthy citizens fond of travel, among them it is said, Richard Mansfield.

She had made her home for many years at the Wellington hotel, where alone and single-handed she has managed her extensive interests, with no office save her sumptuous living apartments. Eight years ago her brother, one of the best known circus men in America, died, leaving her an immense estate and a big circus intact. Of a retiring disposition, and not caring for the glare of the arena, she sold the show. The rolling stock she kept, gradually adding to it as she found it a good investment. Since that time she has furnished large numbers of traveling organizations with homes and conducted a business of such magnitude that it would stagger most men.

Miss McMahon was a blithesome Sharon lass who lived with her parents on the farm now owned by Henry Renau, one mile north of this village. She was well known here and is a sister of Pat, who has but recently left for the great west. Much of the above will be news to readers of the Enterprise, and it will cause some to smile.

Ripe red berry: America's favorite

Biting into a plump, juicy sweet/tart strawberry evokes two images.

One calls to mind a romantic picnic in a grassy meadow on a warm and sunny afternoon. The two present take turns tasting the small delectable, staining lips and fingertips a transparent shade of red.

The other recalls memories of sitting in mother's kitchen with a bowl of strawberries selected from a local fruit market and topped with several heaping dollops of sour cream.

Strawberries are rich in vitamins B₁, B₂ and C, but Mom would have been more health-conscious if she left off the heavy, fatty cream and served the berries a la carte.

"Doubtless God could have made a better berry, but doubtless God never did," William Butler wrote at the turn of the 17th century.

It seems that no matter how

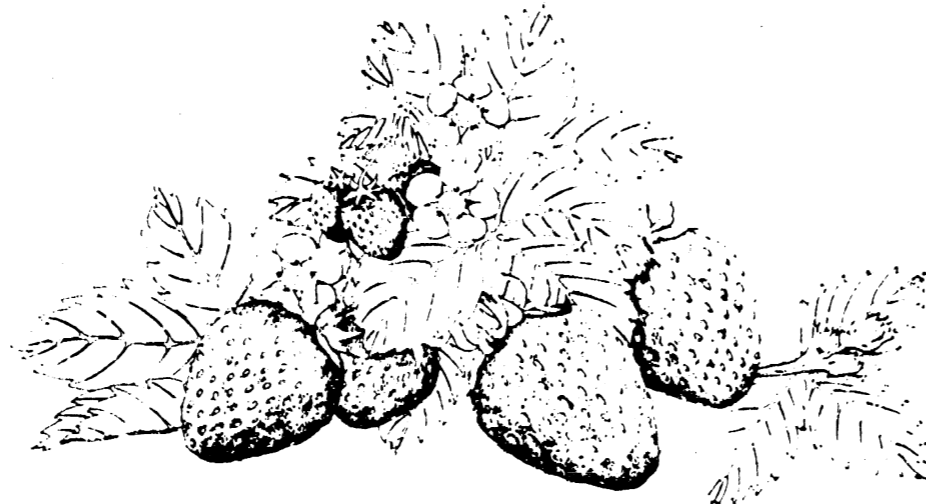

Massachusetts and Chile.

Another strawberry variety was discovered by a French naval engineer, Andre Francois Frezier, whose name coincidentally means "strawberry plant," when he was dispatched to the west coast of South America.

Frezier said the Chilean strawberry was larger than all the other varieties, "as big as a walnut and sometimes as large as a hen's egg." This fruit tastes somewhat like a pineapple and grows along the Pacific coast from Alaska to Patagonia.

The predecessor to all strawberry derivations is probably the wood strawberry, also known as the mountain strawberry, the Alpine strawberry and the perpetual strawberry, as it is one of two known species which breeds true from seed.

The other true-breed is nicknamed the "haughtboy" as the plant grows fairly erect in contrast

Strawberry shortcake, pie, tart, jelly and preserve are some of the most popular ways of enjoying the fruit. For new twists on how to enjoy strawberries, try the following recipes.

STRAWBERRY SOUP

- 1 quart strawberries, hulled, rinsed, and drained
 - 1 cup sour cream
 - 1 cup dry white wine
 - 1/2 cup sugar
 - Pinch of salt
 - 4 cups cold water
- Sugar, if desired

In the container of a food processor or blender, whirl first five ingredients until the mixture is smooth. Transfer the mixture to a large saucepan.

To the puree, add the water and, using a rotary beater, blend the mixture well. Adjust the seasoning to taste with additional sugar.

Over gentle heat, bring the soup to serving temperature; do not allow to boil. Can also be served chilled.

Makes about 8 cups.

FRESH STRAWBERRY MOUSSE

Separate the eggs earlier, so they can come to room temperature.

4 hours to prepare, including chilling.

- 3 large eggs
- 1 quart fresh strawberries
- 4 Tbsp. light honey
- 2 Tbsp. Kirsch (or a similar fruity liqueur)
- 1/4 tsp. salt
- 3 Tbsp. cornstarch
- 1/2 pint heavy cream (cold)

Separate the eggs. Cover each container tightly; allow to come to room temperature.

Wash and hull the strawberries. Pick out the three largest and most gorgeous, and save these for the decoration. Place the runners-up in a saucepan with the honey, the Kirsch, and the salt. Cover and cook 10 to 15 minutes over low heat.

Strain out some of the hot liquid from the cooked mixture, and add it to the cornstarch in a small bowl. Mix until smooth, and return this paste to the strawberry mixture. Mix thoroughly.

Beat a spoonful of the hot strawberries into the egg yolks, then return the yolks to the strawberries. Beat with a wooden spoon for about two minutes. Cool to room temperature.

Beat the egg whites until stiff. Fold into the strawberry mixture. Chill for about an hour and a half.

Whip the cream until it is fair-

ly firm. Fold this into the chilled mousse. Refrigerate until completely set (2 hours or so). Garnish with slices of those above-reserved select strawberries.

SURPRISE CAKE

- 1 angel food cake
- 1 qt. strawberry ice cream, softened
- 1 pint lime sherbet, softened
- 1 1/2 cups whipping cream
- 3 Tbsp. confectioners sugar
- 1/2 tsp. vanilla extract
- Whole fresh strawberries, if desired
- Lime slices, if desired

Place cake on foil-covered cardboard square. Cut down in to cake with a serrated knife. 1/2-inch from inner and outer edges. Carefully remove cake, forming a hollow center; leave 1-inch-thick base. Freeze cake about 1 hour.

Carefully fill hollow portion with strawberry ice cream, being sure to pack ice cream firmly to avoid any air spaces from forming. Return to freezer until firm, about 3 hours. Fill center portion of cake with lime sherbet. Freeze several hours or overnight.

About 1 hour before serving, place cake on serving plate. Combine whipping cream, sugar and vanilla in small chilled mixing bowl. Whip until stiff peaks form. Frost sides and entire top of cake. Return to freezer

until ready to serve.

For ease in slicing, remove cake and let stand at room temperature about 15 minutes before serving. Garnish with strawberries and lime slices.

Strawberry Crepes

- 1 cup prepared baking mix
- 3/4 cup milk
- 2 eggs
- 1 cup dairy sour cream
- 1/2 cup packed brown sugar
- 2 cups sweetened fresh strawberries

Grease 6- or 7-inch skillet lightly; heat until hot.

Beat baking mix, milk and eggs with hand beater until smooth. For each crepe, pour 2 tablespoons batter into skillet; rotate skillet until batter covers bottom. Cook until golden brown. Gently loosen edge with metal spatula; turn and cook other side until golden brown.

Stack crepes, placing waxed paper between each; keep covered to prevent them from drying out. Mix sour cream and brown sugar. Place about 1 tablespoon on each crepe; roll up. Serve with strawberries and any remaining sour cream mixture.

Makes 12 crepes.

hard people have tried to improve upon the taste of the strawberry, little more has been done than to maintain the best characteristics of the wild fruit.

Wild strawberries cover large patches of land leaving no space for anything else. There is tremendous variation in the size, flavor and appearance of the berries.

Among the various types of strawberries is America's most popular and plentiful, the Virginia strawberry, which is also known as the American strawberry.

Found primarily along the east coast of North America, the Virginia strawberry got its name from the place where it was first discovered. It has also been found by the St. Lawrence River and even the Pacific coast.

The Indians were avid fans of the Virginia strawberry. Roger Williams said, "The Indians bruise them in a mortar, and mix them with meal and make strawberry bread." The Natchez Indians designated Strawberry Moon as one of the thirteen months of their calendar year.

Strawberries grow in a variety of colors including green and white. Green strawberries are uncommon nowadays; they originated in Europe and northern Asia and had a pineapple flavor.

Creamy white strawberries have a wonderful scent and have been found in such diverse places as Hawaii, New York,

with most other strains which creep over the ground.

Although Roman writers mention the consumption of wild strawberries, the fruit did not become available to the general populace until the 15th century when it was sold in the streets of London and did not become popular in Paris until a century later.

The first drawing of the strawberry appeared in the *Latin Herbal of Mainz*. Following this lead, other herbal discussed the strawberry, mostly for its medicinal effects.

In the late 16th century, strawberries were noted as a dessert to be eaten with wine or cream, and cultivation proceeded. Sir Hugh Plat of England published a book discussing methods for lengthening the fruiting season and increasing the size of the strawberries.

Widespread cultivation of American strawberries for market distribution did not occur until the mid-18th century. When the Erie Railroad began to operate in 1847, 80,000 baskets of strawberries were delivered to New York one night in June setting a precedent by which New York is reputed to be the largest market for strawberries in the world.

Today, strawberries are grown in every state across the nation. California alone is responsible for one quarter of the world production of the fruit.

Bridgewater Township Board

May 20, 1985

The meeting of the Bridgewater Township Board was called to order by Supervisor Parr at 8:00 p.m. at the township hall. All Board members present except Andy Poet who is recovering at home from surgery. Six electors were also present.

The clerk read the April Board minutes. The minutes were approved as read.

The Treasurer, Harold Bersuder, gave his monthly report. Marvin Breitenwischer made the motion that we pay Voucher #1385 thru 1407, seconded by Karen Weidmayer, the Board passed.

OLD BUSINESS

April 12, a letter was received from the Clinton Schools concerning summer tax collection. Letter stating that they would collect summer taxes with no charge. The township responded with a letter stating that our collection was set by the Treasurers of this county and was county-wide. The letter stating the no-charge collection was fine if they wanted to provide this service. The Board had no objection. The Lenawee County Treasurer became involved and when the Board of Commissioners from there approved this, they stated they would also add a plus 1 percent collection fee. This states they really aren't giving a free service, they are passing

the expense on to the township taxpayers for collecting this summer tax. The area townships involved are trying to arrive at a reasonable resolution. The settlement should be made by June 1st. A special meeting may be called to vote on this agreement. The date will be posted at the township hall on the outside front entrance, as soon as it is set.

The Clerk and Supervisor signed the Tax System Agreement with the county. The motion was made last meeting to sign this agreement, in signing an error from the county was found and one copy was signed only. It was then signed by both officials.

The new Fire Ordinance was discussed. After much discussion it was decided that the Clerk will collect the payments for the fire runs. Cooperation between both fire departments will be needed to make this Fire Ordinance run smoothly.

NEW BUSINESS

Detroit Edison Company extended a letter invitation for dinner and tour of their storm center facilities. Board members

were encouraged to attend this May 29th meeting.

The township is now taking bids for mowing the lawn at the hall and the two cemeteries. Discussion was held. The Board agreed to wait for more bids before a decision was made. As of now one bid has been given.

Supervisor Parr read a letter from the Washtenaw County Sheriffs Department concerning data on Law Enforcement activities in the township. A total of 2,522 requests for law enforcement service were handled within Bridgewater Township.

The Board accepted this report. Discussion was given about the Building Inspector of the township. On April 23, Joe Alexander was suspended from his duties. The Deputy Inspector, Robert Lowery, can be arranged by the same procedures as before, through the village office. The Zoning Inspector, Harlin Frauman, gave his report. Discussion was held on the Dewey Turner and his land abstraction. Scott Nelson and trailer. The concern of Nelson report was turned over to the township Board. The Board was in agreement to give him a last chance to apply for an application with the time limit set by June 1, 1985. Orin Stader on 8233 Eiseman Road is completing a pole barn started by the past land owners. A permit was not needed for this building. The Hack Road complaint was reviewed. An effort is being made to clean-up the residences. The owner will be returning in June and will be contacted at that time. Mr. Frauman will be reporting back on this next month. The floor was recognized at this time. The floor had pleasing comments on the work the new Clerk has done with

her duties these past months. Gabe Dull of the Planning Commission asked several questions regarding ordinances adoption. Supervisor Parr said he would have to check for answers and report back at the June meeting. Being no further business to come before the Township Board, Harold Bersuder made the motion and seconded by Marvin Breitenwischer that the meeting be adjourned. The Board passed.

The next regular meeting will be June 17, 1985, at the Bridgewater Township Hall, 8:00 p.m. Subject to Board approval. Karen Weidmayer, Clerk

"Operation Hemp"

The Michigan State Police have announced plans for a unified effort with law enforcement agencies statewide to eliminate marijuana planting in Michigan. Col. Gerald L. Hough, department director, said the department has received a \$35,000 grant from the federal Drug Enforcement Agency (DEA) to continue the Operation HEMP (Help Eliminate Marijuana Planting) program introduced last year.

Only 13 other states seized more cultivated marijuana than Michigan in 1984 according to Robert DeFauw, DEA Special Agent in Charge. Statistics reported show that 86,710 marijuana plants in 228 plots with a cash value of nearly \$87 million were burned or plowed under in Michigan last year.

D/F/Lt. Roy Vernier, program coordinator, explained that all police agencies in the state are being notified of the 1985 implementation of Operation HEMP and are being encouraged to work with State Police in a cooperative effort to combat the cultivation of marijuana.

The program has a threefold purpose—to offset a growing criminal enterprise in the state, remove the profit from such activity thereby discouraging others from becoming involved, and to alert an apathetic public to the dangers of marijuana use.

The public is being asked to assist in this all-out effort by reporting any suspected marijuana planting. A toll-free hotline (1-800-235 HEMP) is provided for this purpose.

Hough explained that Michigan has become increasingly popular for the growing and harvesting of this crop. Not only is this activity illegal, but research has shown that marijuana usage can have serious effects on perception and skilled performance and can interfere with many aspect of mental and physical functions.

Volunteers Needed For Prostate Research

St. Joseph Mercy Hospital is searching for men over the age of 60 to participate in a screening program for the early detection of diseases of the prostate.

The research project will involve the examination of 200 Washtenaw County men currently not under the care of a physician for the treatment of prostate disease.

The screening will consist of a rectal examination done by a physician from the SJMH Department of Urology and a transrectal ultrasound examination done by a Department of Radiology physician.

To participate in the study, patients must agree to a biopsy if any abnormality is found. If a suspicious lesion is found by either of the examinations, the patient will be informed, and a biopsy will be performed under local anesthesia. A detailed pathology report would be completed and sent to the patient's physician.

Anyone who has had prior prostate surgery, such as a TUR (transurethral resection of the prostate) has any known prostate disease, is on anticoagulants (blood thinners), has serious cardiac disease or is allergic to local anesthesia, will not be eligible to participate.

For information, or to register for the screening program call 572-3072.

Book Review

Peter Mayle, *Divorce Can Happen to the Nicest People*. New York: Macmillan Publishing Company, 1979. 27 pages.

I don't like this book and the reason is contained in the title and again in the text itself. If divorce can "happen" so does marriage. Marriage, however, is a full-time willed commitment between two rational adults. It is hardly mere feelings that "happen". Thus, I'm not sure that divorce should be reduced to simply those same feelings no longer "happening".

Mayle does not of course recommend divorce as the social activity of this year's season but in pointing out how prevalent it is, he takes the sting out of it somewhat. His object is to reassure the child that divorce is nothing to be ashamed of, that it doesn't happen to freaks. The other side of the coin, however, is that divorce, precisely because of its prevalence and because it can "happen to the nicest people" has contributed to a very serious modern problem - the disintegration of traditional family life and values and the undermining of marriage itself.

The book is directed to the child who is going through the ordeal. Mayle, himself a divorced parent, points out in simple, sympathetic language that no one - neither parent, nor least of all the child - is to blame. And the last little section stressing to the child that both his parents now need all the help from him that they can get obviates against the child's normal tendency to self-pity.

The book is delightfully, often humorously illustrated by Arthur Robbins. Divorce is a shattering event for a child and this book could perhaps help to weather the ordeal. If used with a great deal of caution, it could be very useful. If it is not used carefully, I think it might do more harm than good.

Hit Or Miss

by Farley

The most dangerous liars in the world, I have found, are not the people who lie to other people, but the people who lie to themselves.

I know a prominent politician who has never told a lie to the populace that he did not first believe himself. This is why he can convey it with such an air of total sincerity.

Of course, it depends upon how one defines a "lie." Objectively, it is a misstatement of fact. If the speaker believes it to be true, is he uttering a "lie" or simply a misstatement?

Out of kindness, we may decline to call it a lie - but what if the utterer has closed his mind and refuses to re-examine the fact? Is not the willingness to believe a lie as much a spiritual and intellectual sin as consciously perpetrating a falsehood?

I believe it is, because the truly evil leaders of mankind have not been the hypocrites and manipulators of public opinion, but the impassioned zealots who are absolutely convinced that what they are saying is the Gospel truth.

This is why, and how, they exercise such hypnotic influence upon their followers. Many of Adolf Hitler's lieutenants may have been (and were) cynical about his rantings but he himself never doubted for a moment that his paranoid delusions reflected reality in the outside world.

Most people seem to value "sincerity" as a virtue more than I do. But sincerity is not an

independent virtue, like truth. If you are wrong, the more sincere you are, the more damage you can do, and the more wrong-minded followers you are able to attract.

What we call "Charismatic" influence is generated by absolute sincerity, combined with singleness of purpose; and far more evil has been wrought by such fanatics than by any number of cunning hypocrites.

The golden-tongued charmer eventually trips on his own duplicity; the "true believer" goes straight to his doom - as Hitler did - taking millions of gullible followers with him. Absolute and unshakeable conviction has a hypnotic power that goes beyond rhetoric and far beyond reason.

Sly and devious leaders may do some damage to the commonwealth, but their influence is rarely fatal. It is when sincerity is divorced from rationality that we are led into the terrible wars and revolutions that destroy more than they preserve or reform.

All of us lie to ourselves, about one thing or another, far more than we lie to others. And it is when we are inextricably bound to these lies that we do the most harm, to ourselves and all around us. Sincerity that thinks it is the sole possessor of the truth is a deadlier sin than hypocrisy, which knows better.

High paid athletes, entertainers, and business executives should be pitied instead of envied in Ohio, according to a Wilmington College psychologist who believes wealth doesn't bring satisfaction.

"Such people seldom ever are truly happy, because they are constantly seeking to reach and then to surpass new goals," said Dr. Robert Halliday. "They are a driven group, and being driven doesn't generally lead to happiness."

Many Americans are fascinated by the wealthy and famous, and dream of changing places with them.

"In a sense, many of us are like them," he said. "We, too, feel a need to constantly strive, to reach for some goal and, hopefully, to succeed."

He said that is why most Americans don't seem to object to the money those people make.

"Rather, they are envious and wish they could do the same. But if they did, they, too, would still be unhappy," he said.

The "secret" to happiness is for each person to decide what's important for him in life and set goals along those lines, he said.

"Too often, we accept goals that society or peer-pressure groups foist upon us, and then we wind up chasing a will-of-the-wisp, a goal that we really don't want to reach anyway."

A donkey can swallow five gallons of water in two minutes.

If that fur coat is labeled "chinchillette," you can figure it's rabbit.

What's the annual rainfall around your place? If 32 inches sounds about right, you get the worldwide average.

The word "monkey" comes from a set of Italian syllables meaning "old woman."

"Zen" means "meditation," that's all.

A writer of lyrics named Henry C. Work in 1886 penned the words to a song about a timepiece he much admired, a type that had been known for 200 years as a "long case" or "tall floor" clock. Because the object of Mr. Work's admiration had belonged to his grandfather, he named the song "Grandfather's Clock." The song

was a hit, and such clocks have been so called ever since.

Q. Says here the John Wayne Airport in California's Orange County is the fourth busiest in the nation. Where are the first three?
A. Chicago, Long Beach and Atlanta.

Q. Isn't Finland's Helsinki the world's most northerly capital?
A. Next to Iceland's Reykjavik, it is. Speaking of Helsinki, might mention a traffic ticket fine there is based on the income of the finee.

The Dutch downed Morenci in a qualifying District Game so they met Onsted next. We trekked into Wildcat land and buried Onsted 10-0. Pat Ridenour was our winning pitcher as he gave up only 4 hits. We had 4 batters post two hits: Mike Agin, Tom Lockridge, Rob Smith and Brian Pieske. It was now on to Blissfield for round 1 of the Class C Districts. Hudson was our opponent and we eliminated them 7-4. Pat went the distance on the mound as coach Gall stated "He pitched one of his best games this season." Mike and Bruce Rhees set the tempo as they blasted first inning homers. Blissfield crushed Napoleon for the right to meet us in the District Final. We jumped to the early lead as Todd Rickelman almost hit it out but got a double then scored. In about the fifth, they knotted it 1-1 then continued to tally three more to win 4-1. This ends our season with a fine 15-9 record.

America's best: strawberries

- 2 cups boiling water
- 3/4 cup cold water
- 3/4 cup sliced strawberries
- 1 envelope whipped topping mix

Dissolve 1 package gelatin in 1 cup of the boiling water; stir in cold water. Chill until slightly thickened. Add strawberries and pour into 4-cup mold. Chill until set but not firm. Dissolve remaining gelatin in remaining boiling water. Chill until slightly thickened.

Meanwhile, prepare whipped topping; mix as directed on package. Set aside 1/4 cup for garnish, and fold remaining whipped topping into thickened gelatin. Spoon into mold. Chill until firm, about 3 hours. Unmold; garnish with reserved whipped topping.

Makes about 4 cups or 8 servings.

STRAWBERRY TUNNEL CREAM CAKE

- (10-inch) prepared round angel food cake
- (3-ounce) packages cream cheese, softened

- (14-ounce) can sweetened condensed milk (not evaporated milk)
- 1/2 cup lemon juice from concentrate
- 1 tsp. almond extract
- 2 to 4 drops red food coloring, optional
- 1 cup chopped fresh strawberries
- (12-ounce) container frozen non-dairy whipped topping, thawed (5 1/2 cups)
- Additional fresh strawberries, optional

Invert cake onto serving plate. Cut 1/2-inch slice crosswise from top of cake; set aside. With sharp knife, cut around cake 1 inch from center hole and 1 inch from outer edge, leaving cake walls 1-inch thick. Remove cake from center, leaving 1-inch thick base on bottom of cake. Reserve cake pieces.

In large mixer bowl, beat cheese until fluffy. Gradually beat in sweetened condensed milk until smooth. Stir in lemon extract and food coloring if desired. Stir in reserved torn cake pieces and chopped strawberries. Fold in 1 cup whipped topping. Fill cavity of cake with strawberry mixture; replace top slice of cake.

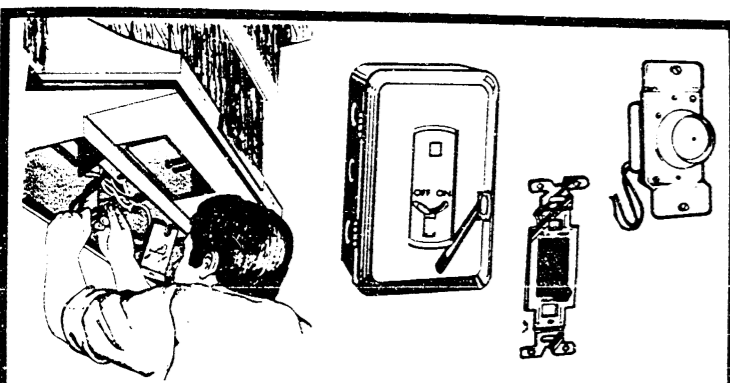

Frost with remaining whipped topping. Chill 3 hours or freeze 4 hours. Garnish with strawberries if desired. Return leftovers to refrigerator or freezer.

STRAWBERRY SQUARES

- 1/2 cup margarine, melted
- 1 3-oz. pkg. strawberry flavored gelatin
- 1 1/2 cups boiling water
- 2 cups strawberry slices
- 2 cups miniature marshmallows
- 1 container (3 cups) whipped topping with real creme, thawed

Combine crumbs and mar-

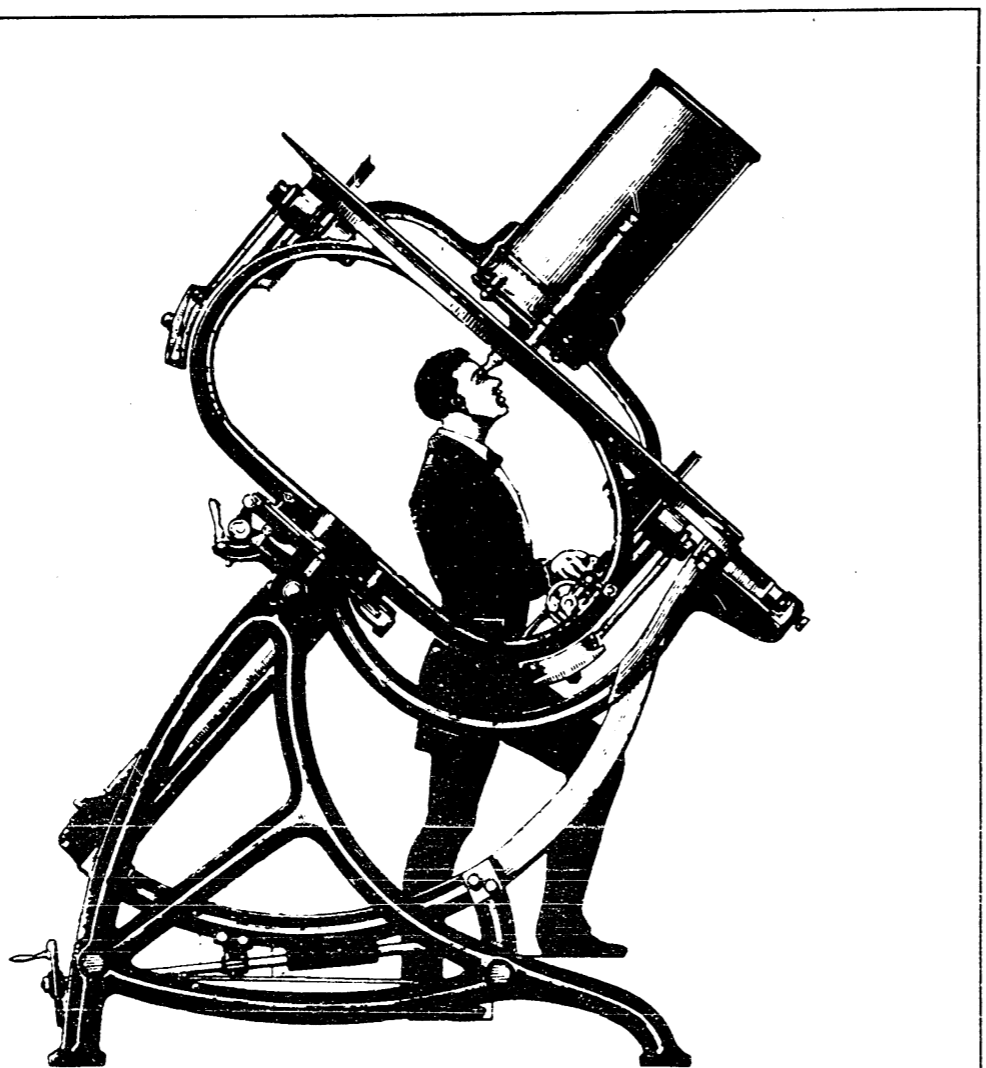

garine; press onto bottom of 9-inch square pan. Chill. Dissolve gelatin in water. Chill until thickened but not set. Fold in strawberries, marshmallows and 1 cup whipped topping. Pour over crust, chill until firm. Top with remaining whipped topping before serving. Makes 10 to 12 servings.

Card Of Thanks

I wish to thank all of my wonderful friends, neighbors and relatives for all of their visits, cards, letters, flowers and gifts I received during my recent stay in Saline Hospital and also since returning home. Dr. Hwang, nurses, aids and attendants, plus the daily visits by the Amicare nurses to my home for all of the care and attention given me. My loving son and his family have also had a great part in my quick recovery. Thanks again to one and all, I couldn't have made it without you. God Bless each and everyone.

Sincerely,
Elizabeth Patterson

I wish to thank my friends, relatives for their cards, food, fruit baskets, flowers, messages and prayers I received while in

the hospital and since my return home. Special thanks to Rev. Macfarlane and Rev. Edwards for their visits and prayers. These things were certainly encouraging and very much appreciated by myself and family.
