

Major Changes In 1987 Fishing Guide

The 1987 fishing license guide, available from Department of Natural Resources (DNR) offices in February, will include three major changes this year, the DNR reported.

The changes include an earlier season opener in the Lower Peninsula for Walleye, Sauger, Northern Pike and Muskellunge; an increased catch limit on Atlantic Pink Salmon; and an increase in the minimum size limit on Muskellunge taken from Lake St. Clair and Chicago Lake in Iron County.

Anglers in the Lower Peninsula will enjoy a 20-day head start over last year for fishing Walleye, Sauger, Northern Pike and Muskellunge. The season will open April 25, and run through September 30.

"This will be a shot in the arm

for Southern Michigan Walleye anglers, particularly," commented John Scott, DNR Fisheries Division Chief. "Walleye are found in abundance in streams in April, just after spawning. We expect to see some really great Walleye fishing in rivers, including the Muskegon, Grand, St. Joseph, Clinton and the Saginaw River System and its tributaries, such as the Tittabawassee, especially," he added.

The popular early spring Walleye opener was changed to mid-May in the late 60's when Walleye populations in Michigan declined sharply, a result of degraded water quality. With the enforcement of tough water quality laws and the elimination of commercial harvest, followed by intensive Walleye rearing and planting by the DNR, the Walleye population has rebounded, with Michigan touted as one of the finest states to fish for Walleye today.

Another significant change this

year, allows anglers to take an additional five Pink Atlantic Salmon from streams during the April 25-September 30 season, in addition to the regular daily catch limit of five Pink Salmon.

"There is an abundance of Pink Salmon in Michigan waters, with good fishing particularly in our Great Lakes tributary streams," said Scott. "This increase in the Pink Salmon catch further enhances recreational fishing opportunities for our anglers," he added.

To allow for natural reproduction to occur and to provide for a better quality fishery, the Department took steps this year to increase the minimum size limit on Muskellunge taken from Lake St. Clair and Chicago Lake in Iron County. The size limit was raised from 38-40 inches on Lake St. Clair and from 30-36 inches on Chicago Lake.

"We've noticed reductions in both the number and average size of Muskies in Lake Chicago," said Scott. "Increasing the

minimum size limit will allow the fishery more favorable reproduction and provide a finer trophy fish in the end."

Continued Scott, "Research studies on Lake St. Clair have shown that continued harvest of Muskellunge by anglers here is enough to pose a potential risk to Muskie stocks. The province of Ontario in Canada concurs with us, and also has increased the previous 38-inch minimum size limit to 40 inches on Lake St. Clair," he added.

To obtain the free 1987 Michigan Fishing Guide, persons may contact the DNR's Information Services Center at 517-373-1220. Fishing guides should be available at all DNR Regional, District and Field Offices by mid-February and will be available from fishing license dealers when fishing licenses are mailed to dealers the first of March.

School Hot Lunch Menu

Monday, February 16, NO School Patriots Holiday.

Tuesday, February 17, Boneless Rib-B-Q, Escalloped Potatoes, Buttered Green Peas, Dinner Roll and Butter, Crushed Pineapple and Milk.

Wednesday, February 18, Tomato Soup with Crackers, Smoked Ham and Cheese on a Croissant, Vegetable Sticks, Molded Fruit Salad and Milk.

Thursday, February 19, Hot Turkey Sandwich with Gravy, Buttered Corn, Applesauce and Milk.

Friday, February 20, Cheese and Sausage Pizza, Tossed Salad with Dressing, Fresh Fruit, Lemon Pudding and Milk.

THURSDAY, FEBRUARY 26, 1987

MANCHESTER AREA

CHAMBER OF COMMERCE

Manchester Industrial Park

Mark VanBogelen opened the February 11, 1987, meeting of The Manchester Area Chamber of Commerce by the introduction of guests. Stan Gilbert introduced Alex and Josie Santiago, who recently opened A & J Travel Service. Other guests were John Vecchioni, who is in real estate; Cynthia Hudgins, from Carl Pursell's office; John Savage, Sharon Township Supervisor; and Tony Eichmuller, from Manchester Stamping.

Stan Gilbert reported for the Business Development Division. There are some prospective new businesses. He thinks '87 will be a good year for The Village and he is working to increase membership in the C of C. Neta Mills reported that there is the prospect of a new antique shop next to the Black Sheep Tavern.

David Little reported that he has formed a Blue Ribbon Task Force to make an assessment of the Double A situation. He sent out 22 letters to local business leaders, Village officials, local schools, and Washtenaw Community College. Dan Naimowicz said that he has been receiving 2 to 3 calls per week about the Double A buildings. The Task Force scheduled a tour for February 14th. They hope to come up with some good ideas on how to replace Double A but not compete with the Industrial Park. Washtenaw Community College would retrain local people.

Dan Naimowicz then discussed The Manchester Industrial Park. The Village has annexed the three parcels of land and now owns two of them. The next step is to bring utilities to the northern boundary of The Park site. It would be desirable to have someone construct a building on the southwest corner of the southern parcel; then utilities would be run down to it. The Village would like to acquire the central 10 acre parcel. It is estimated that six to

eight 25,000 sq. ft. buildings could be built in The Park.

Earlier Jim Hendley offered to match \$15,000 of Village funds to develop The Park. The Village accepted his offer. Dan invited Jim Hendley to speak. Jim introduced Alfred Strang, who was with Double A from 1936-78, and mentioned Robert Diferderfer, another long time Double A employee. Jim then presented a history of the formation of Double A Products and how the Manchester plant came into being. In 1939 Jim heard that Double A, which was in Tecumseh, was looking for a location for a new plant. He promoted the funding of a building. Members of the Manchester Chamber of Commerce chipped in money to put up the building. In 3-4 years, the local people got their money back in cash or in Double A stock. Since then the value of the stock has multiplied 40 times. Double A was incorporated in 1934 and has been in Manchester 47 years. To start new projects, local people must be enthusiastic and willing to put out effort. It was true when Double A started, when The Village raised \$60-70,000 to bring the railroad into Manchester, and it will be true for The Industrial Park. Jim said that the closing of Double A could signal the beginning of new activity in Manchester. Jim reminded everyone, "If you want to sell peanuts, popcorn, and candy, don't get at the end of the parade."

During the Question and Answer period, Dan reviewed next steps in The Industrial Park development. The running of utilities to the northern boundary will be done this spring. The Village will publish a quality brochure describing The Park. The permit for development will be arranged. Financing for the acquisition of the remaining 10 acre parcel could be accomplished by the selling of some Village owned land for senior housing. Since The Park is a little small to receive state certification, The Village may ask Johnson Controls for permission to include their plant in The Park boundary.

Ash Wednesday Joint Worship

Sharon United Methodist Church will host an interfaith service of repentance and forgiveness Wednesday, March 4, at 8:00 p.m. It will be a joint worship with St. Mary's, Emanuel United Church of Christ, and Manchester United Methodist. Each of the pastors from these churches will participate in the imposition of ashes.

The churches welcome all to join in this spiritually renewing experience. Ash Wednesday marks the beginning of the forty days of Lent.

100th Anniversary World Day of Prayer

COME AND REJOICE! Celebrate the 100th Anniversary of the World Day of Prayer. On March 6, 1987, Bethel United Church of Christ will be hosting the World Day of Prayer. All area women are invited to attend. The World Day of Prayer is a worldwide movement of Christian

Daverman Named Corporate VP

Bob Daverman has been named Corporate Vice-President of Fry Associates, an Ann Arbor architectural design firm. "He's helped lead the firm through the successful completion of over seven million dollars in design and construction projects in 1986," said President Dick Fry in making the announcement.

Some of Daverman's projects include the Great Lakes Environmental Research Lab and the recently-completed North Campus Plaza in Ann Arbor, and renovations of the Michigan League Buffet and the Beta Theta Pi house on the University of Michigan campus.

Daverman, a native of Grand Rapids, now resides with his wife, Kathleen, in Manchester, where he serves as Planning Commissioner. He is also assistant chairman of the Manchester Historic District Study Group. The group's goal, says Daverman, is to incorporate the city's central business district as a State Historic District of Michigan, thus helping to preserve its architectural character.

Recreation Task Force Meeting

Recreation Task Force Meeting reminder - Thursday, March 5th, 7 to 9 p.m., at the home of Bill and Dianne Schwab, 116 Beaufort.

Make Each Day An Eternity

Manchester Messenger
October 20, 1905

Young men and women sometimes start in life with good fortunes in their path. Early fortune is a bad thing for anyone. Better to meet a failure now and then and learn through experience than to grow ignorantly successful and lose without warning.

The person who gazes into the future and neglects the present would succeed if he became industrious and economical. Half the world leans. Less than half are burden bearers. The remainder are about capable of carrying their own loads.

All there is in life is happening now. Whether the future is previously formed or not we can not say. What the past has been is dead. We are concerned with neither extreme. Our life is being lived now. Live, therefore, in the present. Make each day an eternity. The opportunities that come in your path this day will never come again. The favorable

conditions that are formed about you now may never again be at your command. We are wont to look into the past and think it a pathway of roses because we know how each thing turned out. We look into the future and think of what may come to pass, and as we dream we walk and crush fragrant flowers under our feet.

Yesterday is a burial ground. Tomorrow is a new country. To-day, with its trials, its hardships and its successes, is worth living. If you learn no lessons before the sun sets at night, count a day against you-a debt that you can never pay. If you have done nothing toward your improvement you have wasted the most valuable gift of creation time. Each tick of the clock, each monotonous swing of the pendulum brings you so much nearer the day of your death. No matter how much alone you may be, some one has builded hopes on you. Succeed, therefore, even although it be little at a time.

Hit or Miss

by farley

The fastest growing metropolitan area in the United States is said to be Phoenix, Arizona.

From 150,000 during World War II to more than two million expected fairly soon. It is said that the average nightly temperature has gone up there by eight degrees since 1948. Because of more buildings and paved streets.

Did you know that a king died in the United States? Peter of Yugoslavia did in 1947. He came here and got a job as a public relations man, but lost more money than he made. At age 47, he failed to survive a liver transplant and is buried in Libertyville, Illinois.

Thule is in the northwest corner of Greenland. It is the home of the Polar Eskimo. Only in July, if the year is typical, does the temperature rise above freezing. The natives call it the "Beautiful Land".

The expression "An apple a day keeps the doctor away" is said to have originated in Devonshire, England where it was said "Ate an apiel avore gain to bed makes the doctor bed his bread." There is a word in the English language which contains all six vowels. Unquestionably.

Most of your childhood fears go away as you get older. But some get more intense. One such is

said to be the fear of ridicule and another the fear of failure. Another is the fear of talking in front of large audiences.

Next time you are in a supermarket with 52 customers remember that one of you is probably a shoplifter.

Not only are blonds easier to hypnotize, they are also easier to anesthetize claims many doctors.

Doctor you have certainly come a long way. The first doctors in Rome were slaves.

Manchester Family Service

Manchester Family Service, Inc. will hold the agency annual meeting on Friday, March 6, at 7:30 at the Manchester Township Hall. This is an open meeting to the public with special invitation to friends of the organization who have participated in its activities this past year. Refreshments will be served.

Three of the nine board members are elected each year. Anyone interested in being on the ballot for this election may contact either member of the nominating committee - Mrs. Willis Uphaus (428-8403) or Mrs. Jean Wheeler (428-8790). There will be a board meeting following the annual meeting, for election of officers and planning.

Banking Is One Of Life's Necessities. The Experience Should Be A Good One.

You flip a switch and the lights go on. Start your car and go your way. Day in and day out, so long as things work like they should, you never give them a second thought. It's the same with banking. You, along with the rest of us, fully expect your bank to work right. The first time. And every time. From our point of view, that isn't an unfair expectation. In fact, living up to that is the best explanation of how and why we run First of America Bank

the way we run it. So in nearly 200 communities across the Midwest, our bankers are reminded that, even though they're part of a major bank company, they should play a major role in the community. They're encouraged to make loan decisions locally. Which has made us one of the region's biggest lenders. They're given all the resources of a big bank company to draw on, so they can offer customers a more resourceful bank.

And, since our bankers are asked to handle customer matters on a local level, they're as accountable to you as they are to their bank. It's made us not only one of the Midwest's biggest bank companies. It's made us one of its most dependable companies. Something that's as good for you as it is for us.

FIRST OF AMERICA.
We're Community Banks First.

Area Obituaries

Coleman, Georgia L.
Detroit

Age 77, died suddenly, Saturday, February 21, 1987, in her home. She was born December 5, 1909, in Ionia, the daughter of Henry and Cora (Randall) Erickson. She married Paige L. Coleman in Detroit on March 15, 1933, he preceded her in death on June 30, 1982. She is survived by her daughter Mrs. Georgia Willson; 1 grandson Douglas Willson; a granddaughter Mrs. Tim (Lauren) Wacker all of Manchester; one sister Mrs. Thelma Jenks of Belding; Several nieces and nephews.

Funeral services were held Wednesday, February 25, 1987, at the Jenter Funeral Home. Rev. Robert B. Macfarlane officiated. Burial followed at Oak Grove Cemetery Manchester.

Paul, Erwin Carl
7250 Lamb Road
Manchester

Age 74, died Saturday, February 21, 1987, at St. Joseph Mercy Hospital, Ann Arbor following a short illness. He was born November 20, 1912, in Manchester the son of Herman and Martha (Huber) Paul. On May 29, 1940, he married Sophia J. Jurecki in Chelsea, she preceded him in death on October 19, 1976. He was a member of Emanuel United Church of Christ; Life Member and Past Master of Manchester Lodge #148 F & AM, member of the Iron Creek Farm Bureau and the Manchester Senior Citizen's.

He is survived by one son Robert Paul of East Moline, ILL; one daughter Mrs. Kaile (Mary

Ann) Bishop of Huntsville, AL; six grandchildren and several nieces and nephews. He was preceded in death by one sister Loretta Paul and two brothers LeRoy and Raymond.

Masonic Lodge Services were held in the funeral home Tuesday under the auspices of Manchester Lodge #148 F&AM. Funeral services were held Wednesday, February 25, 1987, at the Jenter Funeral Home with Rev. Robert Macfarlane officiating. Burial followed at St. Mary's Cemetery. Memorial contributions may be made to the Manchester Senior Citizen's or Historical Society.

County Historical Society
Roy Kiplinger of Clements Library staff will talk about the Toledo War and Michigan's statehood struggle at the Washtenaw County Historical Society meeting at 2:30 p.m. Sunday, March 8, at Clements Library, 909 South University, Ann Arbor.

Ohio gave Michigan a hard time long before they met on the football fields. Ohio held up Michigan's entrance into the union and they wrestled acres, not yards, from Michigan Territory when Michigan became a state 150 years ago.

The controversy which generated a lot of strong feelings in the 1830s was called the Toledo War.

The meeting is open to the public free of charge. Parking is free in U-M structures on Forest near South University and Hill Street near Tappan on Sundays. Refreshments will be served.

Senior Citizens News

Am I imagining things, or did I see a possible hyacinth peeking through the bare ground following this spring-like weather? It's watch and wait time again for all flower lovers, and wait we must. (There is definitely a new shoot there, hope it isn't a weed!) February is nearly gone with just one Thursday's activities on the 26th. Exercise at 11, cabbage rolls for noon lunch and bingo.

On to March - Tuesday, the 3rd will feature exercise at 11, Chinese Menu at noon (Jan's guessing games again, fun), with bingo to round it off. Sewing at the Center follows, come and join in.

Wednesday, March 4 - Leave at 11 a.m. for Stockbridge Convalescent Home and Cedar Knoll Home, stopping at the German Restaurant in Stockbridge to eat. Seniors have made and will be delivering slippers, lap robes, bibs and walker bags to the residents of the two homes. Call Rubena, 428-8655, if you can go along.

Thursday, March 5 - Exercise begins at 11 a.m. (fun and good for us). Swiss steak and birthday cake will be served to honor those who are 55 or over. We invite all seniors to this party and especially those with March birthdays. Call in your reservation to 428-8359 the day before and let's see how many area folks will be enjoying this turnout 'bash' together. The birthday for our first two was encouraging—please come, the welcome mat is out.

Manchester Kings Daughters
The Manchester Kings Daughters will meet Thursday, February 26, at 12:30 at the United Methodist Church.

Athletic Boosters
The Manchester Athletic Boosters monthly meeting will be held Tuesday, March 3, at 8:00 p.m. in the High School Library. Please note date change.

The Manchester Athletic Boosters monthly meeting will be held Tuesday, March 3, at 8:00 p.m. in the High School Library. Please note date change.

Save Your Vision Week March 1-7

"Jeepers, Creepers, Time to Check Your Peepers!" is the theme for the 1987 celebration of Save Your Vision Week, March 1-7, the Michigan Optometric Association has announced.

Proclaimed each year by the President of the United States and the Governor of Michigan, Save Your Vision Week reminds all Americans of the important role good vision plays in their daily lives and of the need to take care of their eyes with preventive eye care. This year marks the 60th anniversary of the event.

"Because, in our busy lives, it is so easy to put off getting an annual eye examination, we choose a theme that would grab your attention and also urge you to make that appointment today," said Dr. Paul K. Douglas, President of the Michigan Optometric Association. "We hope people pay attention to our 'peepers' message because it is an important one."

Property Tax Help

The Michigan Consumers Council has published its 1987 edition of its popular "How to Review and Appeal Your Property Tax Assessment" brochure. The one-page pamphlet has been updated to reflect changes in Michigan's property tax appeal procedures, including summer tax collections.

Another new portion of the brochure contains clarification on how an individual property tax bill is computed using the state equalized valuation (SEV) rate. There is also new information on how assessments are made and how property owners can determine if the assessor's appraisal of their property is correct.

The Michigan Consumers Council advises property owners who may feel that their appraisals are unfairly high to review the appraisal records in their assessor's office for accuracy. Common assessment errors include such false assumptions as a house having a finished basement or fireplace when it doesn't. Property owners should also review their assessments for missed defects that might tend to reduce the value of a house, such as the settling or shifting of the foundation, and even simple clerical errors in computing the tax.

If property owners find an error, the Consumers Council

recommends that the errors be discussed with the assessor first. Some assessors may be willing to adjust the appraisal on the spot, thus saving the property owner and the assessor the nuisance of a formal protest. If the property owner should find it necessary to proceed with a protest, the brochure provides tips on documenting a case before a local Board of Review.

The pamphlet emphasizes that timing is crucial in making an appeal. Each township and city has its own functioning Board of Review that meets periodically. It is crucial that property owners who plan to file a protest contact their local city or township office to obtain the deadline for filing.

"How to Review and Appeal Your Property Tax Assessment" is one of the most widely-requested brochures published by the Consumers Council. More than 12,600 copies were requested by Michigan property owners in 1986 alone.

Copies of "How to Review and Appeal Your Property Tax Assessment" are available free of charge by writing the Michigan Consumers Council, 106 W. Allegan St., 414 Hollister Building, Lansing, MI 48933; or by calling 517-373-0947. Hearing impaired property owners only may call the Council's TDD line at 517-373-0701.

Red Cross Bloodmobile

Monday, March 16

The regular spring Bloodmobile for the Manchester Area will be March 16th, at the Knights of Columbus Hall. The hall is located at 106 E. Madison (next to the Post Office). The hours of the clinic are from 12 noon to 6 p.m. The chairwoman-of-the-day will be Mrs. Marja Warner. Industries assist the program by signing up employee donors early in March. Mrs. Claire Reck has been busy contacting the industries in the Manchester area. The area churches have these recruiters ready to canvas their membership; Bethel United Church of Christ, Mrs. Jack Creech; Emanuel United Church of Christ, Mrs. Melvin Mahrie; Faith Community, Miss Lynn Gonyer; Iron Creek Community and Victory Baptist, Mrs. June Wellman; Sharon United Methodist, Mrs. Marie Pratt; St. Mary's Catholic Church, Mrs. Ella Landini; Manchester United Methodist, Mrs. Shirley Carpenter; Zion Lutheran Church, Rev. John Morris.

Other churches in the area that take part in the clinic are St. John's United Church of Christ; North Sharon Bible Church; St. John's Lutheran Church and St. Thomas Lutheran Church.

By March 1st, appointment cards will be available at the three banks, Comerica, First of America and Great Lakes out of your day.

Federal, as well as at the Manchester IGA and at Baker's Dozen. A sign with a file box and appointment cards beside it, make it easy to sign up. However, walk-ins are always welcome and will be worked into the schedule quickly. The best time to come without an appointment is in the middle of the afternoon.

Now's the time for people who have never donated blood before to do it, says the American Red Cross Blood Services. Red Cross also reminds previous blood donors that blood can be donated every eight weeks, up to five times a year. One blood donation can help as many as four people live, a good reason for making a commitment to donating blood on a regular basis.

Blood can be donated by anyone who is in good health, weighs a minimum of 110 pounds and is between 17 and 70 years old. Donating blood is relatively painless and takes less than 45 minutes from registration to post donation snack of juice, sandwiches and cookies. Appointments can be made with any church recruiter or up town in Manchester. Blood is given free to all hospital patients by the Red Cross; any cost is for hospital fees and administering the blood. Mark March 16th, on your calendar and come to the Knights of Columbus Hall and donate, it just takes 45 minutes out of your day.

LIFE — HEALTH Why Chiropractic Works

Did you know that the Nervous System is considered to be one of the most important systems of the body? Mainly because it coordinates the functions of all the other systems and has them work together harmoniously and efficiently twenty-four hours a day.

The Nervous System is composed of the Brain, Cranial Nerves, Spinal Cord, and Spinal Nerve Roots which relay messages into the peripheral nerve network. This system transmits and receives messages to and from the Brain for all the body.

Some of the Functions of this system are:

1. To rule the body by controlling all visible and invisible activities.
2. To control all human thought and conduct.
3. To give the power to see, hear, move, talk, feel, think, and remember.

The Chiropractor knows that all these systems and bodily processes are controlled by this intricate system. The doctor's therapies are based on the theory that dis-ease is caused by interference with this nerve functioning. A pinched, irritated, or damaged nerve renders the body less resistant in adapting to it's environment.

Since the nerve network exits from the spine and passes between the 24 vertebrae, it is certainly a matter of logic that a misplaced vertebra can pinch, irritate, or in some way disturb the normal function of the nerve that serves some part of the body. That part of the body will no longer receive its full quota of the nerve energy and is therefore rendered less than 100% and more subject to dis-harmony or dis-ease.

A doctor of chiropractic is accomplished in locating, analyzing, and correcting these vertebral subluxations using spinal adjustments. Returning the vertebra to its normal position and thus restoring the normal transmission of messages to the system.

See your doctor for regular spinal examinations to keep this life energy flowing to all the body. Try Chiropractic Naturally.

Family coffee hour follows all Sunday services.

News From Klager

Mike Black and Meranda Rose look on while Erin Binder constructs a log house from cardboard and rolled newspapers.

Parents Information Evening

On Monday, March 9th, from 7:00 - 9:00 p.m. the Klager PTO will sponsor a Parents Information Evening. The meeting will give parents an opportunity to learn more about all of the special services available to Klager students.

Did you know there was a Special Education services for four year olds? Have you ever wondered what a learning disability is? Did you know that help was available in math and reading for those students who qualify?

Mark your calendar and gather your questions. Attend the Parents Information Evening on March 9th.

Winners Named In Basketball Contest

Several local youth recently won trophies for their outstanding performances in the Tri-Star Basketball Contest held by the Optimist Club of Manchester, the winners include:

- Age 8 - 1st place - Michael Mann, 2nd place - Katrina Bihmeyer, 3rd place - No 3rd place contestant.
- Age 9 - 1st place - Troy Niehaus, 2nd place - Jeff Kemner, 3rd place - Jeff Steele.
- Age 10 - 1st place - Tony Weir, 2nd place - Tom Fielder, 3rd place - Rodney Macomber.
- Age 11 - 1st place - Shayne Ahrens, 2nd place - Brent Woods, 3rd place - Kurtis McDonald.
- Age 12 - 1st place - Mark Mann, 2nd place - Jamie Sloat, 3rd place - Jeff Hughes.
- Age 13 - 1st place - Patrick Clark, 2nd place - Tony Panches and 3rd place - Jay Gillow.

Dr. Bruce Bates demonstrates the proper way to brush your teeth to Jenny Nobsisch and Brent Hoefft.

Learning Good Dental Health

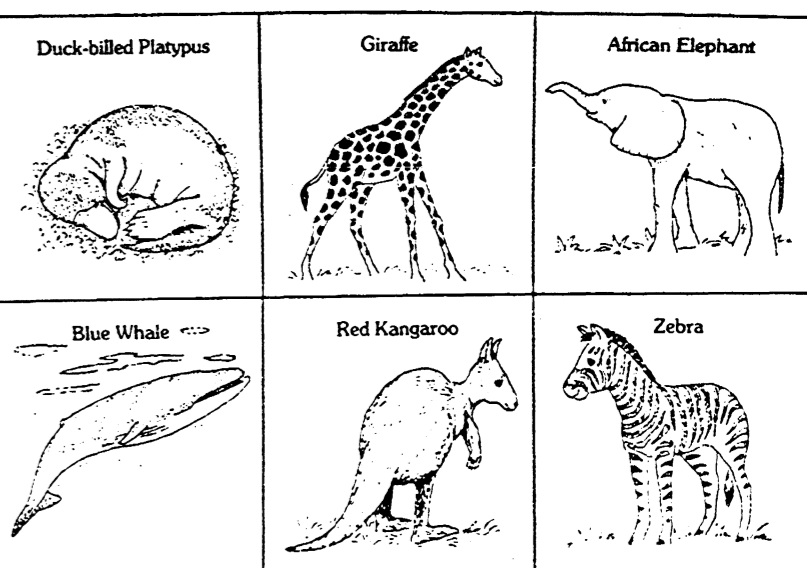

Dr. Bates came to Klager last week where he visited each children about "good" dental health. February is "National classroom and spoke to the Children's Dental Health Month".

SUPER BABIES!

We all have hair. And we all drink Mama's milk. Who are we? We're mammal babies, that's who! The "balloons" below describe neat feats some of us mammal babies do. Color and cut out our pictures and balloons. Then paste each of our pictures with its matching balloon on another piece of paper.

- I fall five feet to the ground when I'm born!
- I can run and play only an hour after I'm born!
- I did something most mammals can't do: I hatched from an egg!
- I weigh three tons at birth. And I'll gain about 200 pounds a day just by drinking my mother's milk!
- Before I'm born, I grow inside my mother for almost two years. That's a record!
- I'm no bigger than a penny when I'm born. But when I grow up I'll be as tall as a fully-grown person!

Drawings by Jack Shepherd

BOARD OF REVIEW MEETING

Notice is hereby given to all persons liable to assessment for taxes in the Township of Freedom, County of Washtenaw, State of Michigan.

That the assessment roll of said Township as prepared by the assessing officer will be reviewed by the Board of Review at:

**Freedom Township Hall
11508 Pleasant Lake Road**

Appeals and Conference With Taxpayers
will be heard on

MONDAY, MARCH 9, 1987

9:00 a.m. - 12 p.m. and 1:00 p.m. - 4:00 p.m.

and on

TUESDAY, MARCH 10, 1987

9:00 a.m. - 12 p.m. and 1:00 p.m. - 4:00 p.m.

Or Appropriate Letter

at which time the Board of Review will be in session. Upon request of any person who is assessed on said tax roll or of his or her agent and upon sufficient cause being shown, said Board of Review will correct the assessment as to such property in such manner as will in their judgment make the valuation just and equal.

Such assessment tax roll as reviewed and approved by said Board of Review will be the assessment roll of said Township of Freedom for the year 1987.

Volleyball Tournament

by jon

Our girls traveled to the special Ann Arbor News Tournament on Saturday. There were about thirty schools participating and in the pool with Manchester (Class C) was Belleville (Class B), Tecumseh (Class B) and Seaholm (Class AA). In the first set against Belleville we won 15-11 and 15-12 but then lost to Seaholm and tied Tecumseh. Manchester and Seaholm were the two teams that advanced from the pool. We then played St. Lutheran East and won the first game 15-13 but dropped the next two 1-15 and 13-15. This loss ended our day.

For the tournament Ami Bragg and Denise Spaulding had three out of four perfectly served matches. In spiking Renea Drouare led with forty-five and five kills. Ami Bragg followed closely with forty-four hits and four kills. Jennifer Barnard led the day in setting with 82 sets and five assists as Rockie Weber posted 63 with three assists.

Varsity Spikers Split

by jon

The first contest of the week was in Pirateland and unfortunately Grass Lake won in close games both 14-16. Erin Davis led in points with seven having served ten for ten. Other perfect servers were Renea Drouare and Denise Spaulding.

In East Jackson Thursday night our girls didn't look very sharp in the first game therefore losing 8-15. We got it together in the following two series to leave victorious, 15-4 and 15-5. Jennifer Barnard led the squad with ten for ten serving and six points. Other star earners were Sara Samonek and Erin Davis.

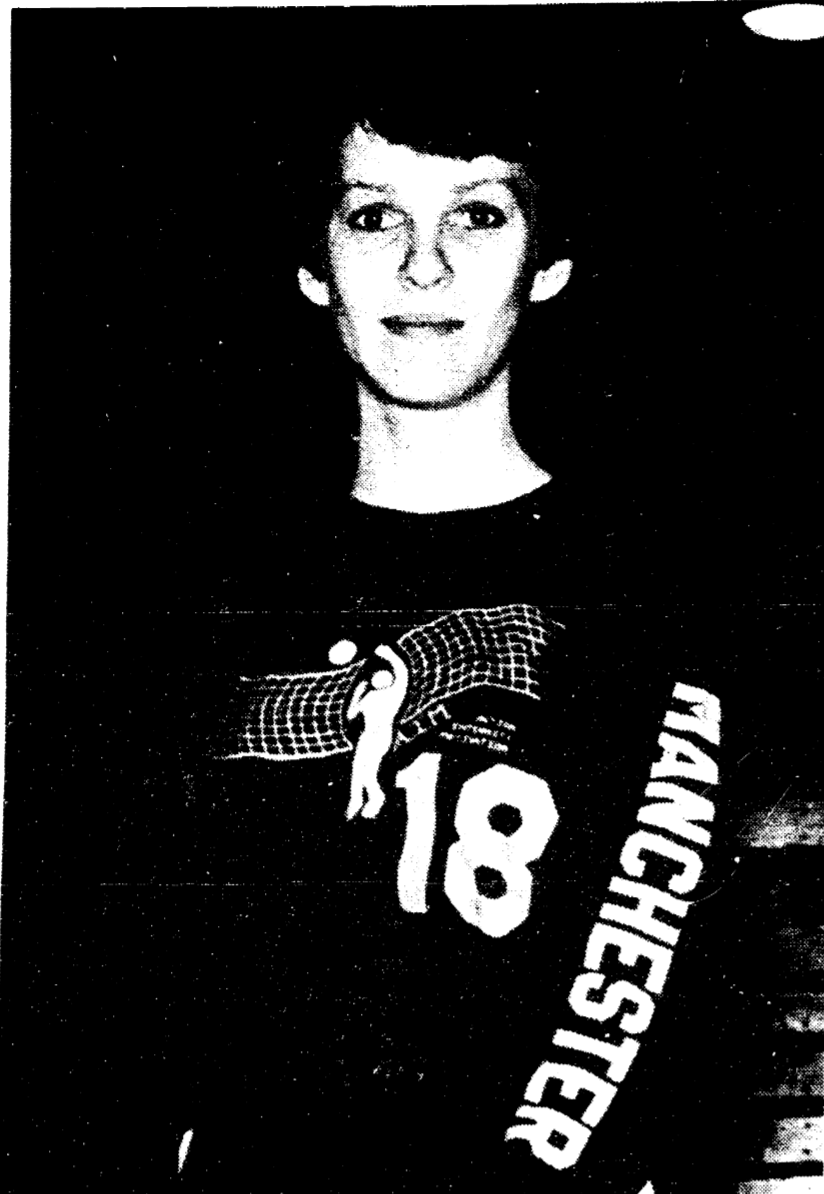

JV Volleyballers Victorious

by jon

Our girls traveled to Grass Lake last Monday, and came away winning 15-13 and 15-10. There were six perfect servers in this match with Heidi Beasley and Connie Zimmer being high with eight for eight. Kim Davis led in point scoring with eight.

On Thursday we visited East Jackson and left having captured the set 15-5 and 15-10. This was our final game of the season and with this victory we stand thirteen and four over all and eight and four in the conference good for second place. We started out slow this season but came on like gangbusters to win our last 12 of 13 contests. In this game against the Trojans five girls earned stars by serving perfectly. Tracey Stengel led the team with five for five. Amy Wagner had seven points as Sherry Ricklemann led in spiking.

Volleyball Team Shirt Designer - Vanessa Salyer

In the beginning of the Volleyball season, there was a contest for the girls to design a new uniform for the Volleyball Team. Vanessa Salyer, a member of the JV Volleyball Team, was the winning designer.

Hoopsters Win/Lose

by jon

On Tuesday we hosted the Cardinals from Michigan Center. In the first contest of the evening our little Dutch got buried. In the varsity game we had no problem in overpowering the Cardinals, 71-56 to win our third straight. Sophomore Tom Mann scorched the nets for 23 points as Brad Uphaus popped for 15.

Friday Napoleon came to town and snapped our winning streak 55-49. In the scoring department Brad led our scorers hitting seventeen points and Tom contributed eleven. Our JVers beat the Pirates in a real overtime nail bitter 64-59.

JV Basketball Steve Andrews

Varsity Basketball Tom Mann

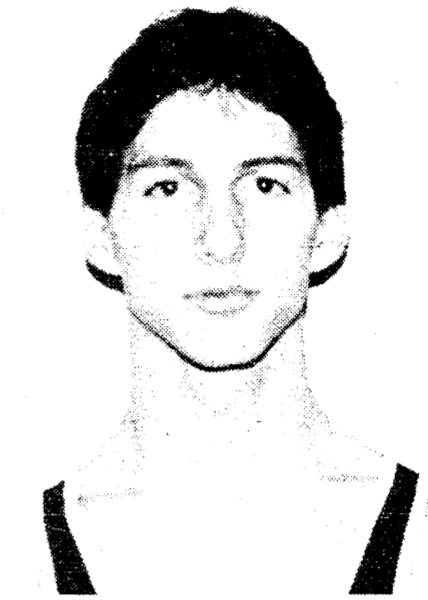

District Basketball Tournaments Begin March 9 Thru 14 at Hudson

Wrestling News

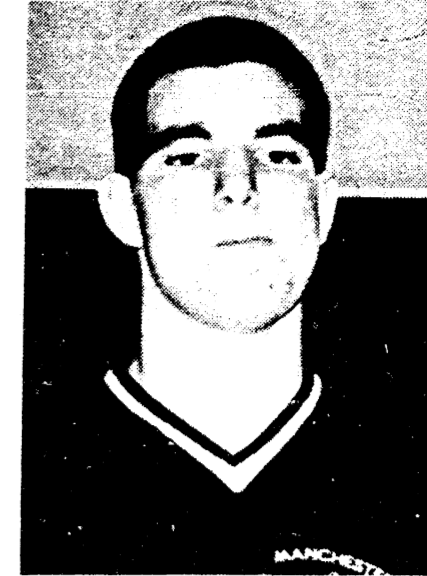

On February 14, the Cascade Conferences were held at Napoleon High School. Manchester placed 3rd in the conference.

We had 4 Dutchmen that won 2nd place medals. They are Rick Shear-126, Bud Ball-132, Tom Heath-185 and Mark Fenelon-198. Our 3rd place medal winners were: Shawn Ior-138, Brian Howell-155, Dan Rigg-167 and Mike Stidham-Heavyweight.

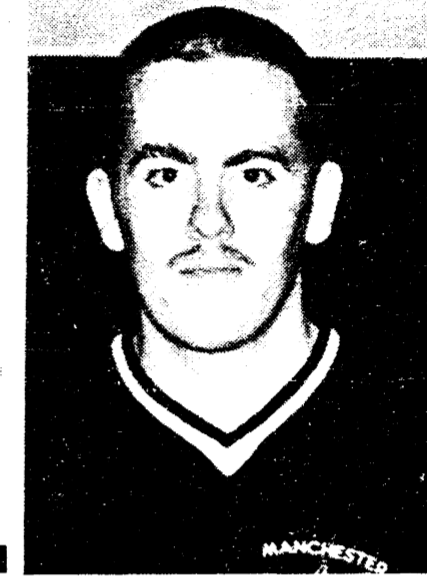

Congratulations Dutchmen on a job well done.

Rick Shear, Senior Co-Captain 126 - 2nd in Conference

Mark Fenelon, Junior 198 - 2nd in Conference

Tom Heath, Junior, Co-Captain 185 - 2nd in Conference

Bud Ball, Junior 132 - 2nd in Conference

Letter To The Editor

Dear Community:

It seems a shame that a very small minority of people have decided that they are going to establish the rules and morals for the majority of the residents of this community.

When a high school girl cannot have a party at her parents home without a small minority assuming that all the evil sins of the world are going on and that the school system has to be brought into the non-school activity then it seems that the civil rights of the family involved and the girl herself are being stepped on.

What business is it of the school administration whether a person has a party in their own home or not? Who is it that feels they have the right to tell this whole community that if they have a graduation party, a family reunion, a wedding reception or a funeral wake that they are going to be searched for any alcoholic beverage and given a sobriety test if there are teenage kids there in attendance. What father and mother will be able to honor their children with a graduation party this June, if the county sheriff's office and the school administration is going to be called and the civil rights of the individuals concerned violated.

Who are these hypocritical people? Why do they feel that their moral conscience should be the community's? What standards are their's for the school kids involved?

For Shame! Why drive the high school kids on to the back county roads for the claudesine pack of beer instead of in the parents home with their chosen friends under the supervision of an adult? It's happened in the past and it will certainly happen in the future at an alarming rate if the nosy busybodies don't stop being troublemakers. More kids will be killed driving from their chosen spots of hiding if they are not permitted to have fun in their own homes.

Ruth Platt
Concerned Parent

HOW TO BUILD HOME EQUITY 30% FASTER

PAY OFF YOUR HOME 8 YEARS SOONER AND SAVE \$31,121 WITH OUR BIWEEKLY MORTGAGE*

	5 YEARS	10 YEARS	21.8 YEARS	25 YEARS	30 YEARS
Loan Balance	\$45,409.24	\$38,170.12	\$0-		
BIWEEKLY MORTGAGE					
Loan Balance	\$47,986.50	\$44,814.39	\$28,034.87	\$19,540.56	\$0-
MONTHLY MORTGAGE					

See how much faster you can pay off your home when you choose a Great Lakes Federal Biweekly Mortgage instead of a typical fixed-rate, 30-year mortgage.

Instead of conventional monthly payments, you'll make half-payments every other week. The smaller, more frequent payments and the one extra annual payment make a big difference in the cost and length of your loan.

Find out how you can pay off your home sooner and save \$31,121 in interest. Ask your Realtor or call 1-800-DIAL-GLF for complete details about the Biweekly Mortgage.

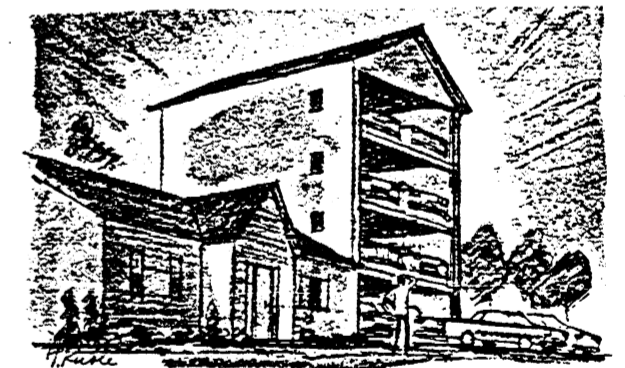

*NOTE: This example is based on a \$50,000 loan with 20% down and an interest rate of 9.125% (9.47% APR). Different loan amounts and interest rates will result in significant, though different, savings. The Biweekly Mortgage is offered in conjunction with a Great Lakes Federal automatic payment checking account.

Equal Housing Lender

The last thing you need now is a problem paying for more car insurance.

A family can have many drivers. And many drivers can mean many cars. There may be a problem with finding a full gas tank or the right keys. So you don't need a problem with car insurance. You deserve a discount. And, that's exactly what Auto-Owners gives families with two or more automobiles. A nice one too! Your independent Auto-Owners agent prides himself on the substantial savings he can give multiple car families. And with a name like Auto-Owners—he's won fame with his claims service. Find out from your "no problem" Auto-Owners agent just what the one advantage could be of having many cars and many drivers in your family. It's no problem!

How To Save For Your Children's Future

(Prepared by the Michigan Association of Certified Public Accountants).

It used to be that parents could save tax dollars and build a fund for their children at the same time by shifting income and assets into a separate account for them. The income generated from these accounts would be taxed at the child's lower tax rate. But now, according to the Michigan Association of CPAs, much of that will change under the tax reform act of 1986.

Beginning January 1, 1987, unearned income over \$1,000 in an account for a child under the age of 14 will be taxed at the parent's rate. For children 14 and older, the old rules still apply. This doesn't mean that you can no longer save for your children by shifting your income into accounts in their name. It just means that it will be more expensive to do so.

What are your options? There are any number of investments a parent can investigate as vehicles for shifting their income while saving for their child's future. The key to doing this under the tax reform law is to concentrate on either tax-deferred or tax-free investments.

Savings bonds are one of the oldest yet most versatile methods of saving for the future. Recently, the maturity on Series EE savings bonds has been extended to 12 years and can be totally tax-deferred. This makes savings bonds a perfect investment for children two years old and up since their maturity will fall at the age of 14 or older when the child is past the cut-off point for the new tax law on unearned income.

You can purchase savings bonds for as little as \$25 for a \$50 bond and for as much as \$5,000 for a \$10,000 bond. You are limited to a maximum investment of \$15,000 annually for \$30,000 in bonds. They can be purchased through payroll deduction plans, savings banks or from Federal Reserve Banks.

Recently, the Treasury Department reduced the minimum

universal life insurance, and save money, tax-deferred, for the future. By purchasing a policy for your child, you can establish a savings plan in his or her name. A policy such as this combines insurance with a high rate of return on earnings within the account. The insurance company may guarantee a return on the cash value portion based on the performance of the investment in which your money has been placed. While your premium is due at least annually, in some plans it is possible to skip a premium without losing the policy.

Another similar option for saving is an annuity. Compared to an insurance policy which saves money for your survivors when you pass away, an annuity saves money for a specific date in the future when you can collect the funds on a monthly basis or in a lump sum.

As an investment, it offers several benefits. The yield follows the current market rate which makes it competitive to other investments and the income is deferred until you begin the pay-out.

There are many other options that are available for parents who want to establish a savings plan for their children which provides tax savings. If you find all the options a bit overwhelming, contact your CPA. He or she will be able to explain all of the details for existing plans and will also be able to help you find the plan that is best for you and your child based on your goals.

Saving for your child's education, first car or other future expenses can be easy with the right savings plan.

There are also certain forms of insurance plans that will allow you to invest in a policy, such as

Manchester Planning Commission

Regular Meeting
January 13, 1987

CALL TO ORDER

The Regular Meeting of the Manchester Village Planning Commission for January was called to order at 7:30 p.m. by Chairman Kwolek in the ground-floor meeting room of the Village Hall. Commissioners present: Kwolek, Lowery, Smith, Davenport, Walton and Kallewaard, and ex-officio Commissioners Hinkley and Naimowicz. (Ex-officio Commissioner Marshall joined the meeting at 7:50 p.m.)

APPROVAL OF AGENDA

The agenda was approved as presented on a motion by Lowery, carried unanimously on a voice vote.

REQUESTS FROM PUBLIC TO ADDRESS THE MEETING

Glen Primrose was present to ask to discuss his plans for development at the southwest corner of West Main and Clinton Streets. This item was added to the agenda under "Other New Business".

MINUTES OF PREVIOUS MEETING

Minutes of the December 9, 1986, Regular Meeting were read aloud by the Secretary, and approved as read on a motion by Davenport, supported by Walton, carried unanimously on a voice vote.

NEW BUSINESS - RURAL HOUSING CORPORATION; SENIOR HOUSING

The Chairman announced that for the convenience of the applicant and presenters, some items of New Business would be heard at this time.

Jim Hovey, representing Rural Housing Corporation, of East Lansing, was present to discuss the interest of that company in building senior citizens housing in Manchester. He outlined preliminary studies which have convinced his company that there is demand in Manchester for 24 units of senior housing, which could be built in 1988, and that Farmers Home Administration funding would be available for such a project.

He submitted a list of housing complexes built by Rural Housing Corporation and an interior floor

plan and exterior drawing of the senior housing building which they are interested in constructing in Manchester. The plan showed 24 units, all on ground level; all one-bedroom units with access from interior corridors; all with extra-wide doors and emergency call buttons in bedrooms and bathrooms, as well as emergency lights above the doors to the corridors. A laundry room, meeting room and lobby are also in the plan. There would be a resident manager, with provision for someone to be on duty 24 hours a day.

A resident or spouse would have to be 62 years old or more to qualify; rents would be on a sliding scale according to a formula set by the Federal government. One apartment would be completely barrier-free.

Hovey said that the company was searching for a site for these apartments; he described several sites and asked if Commissioners had any suggestions. One site he had mentioned, the present site of the DPW yard, received some supportive comment because of previous discussion, in relation to revising the Master Plan, that the Village would be better served by having that site devoted to residential use, and because that is already the site of the Senior Center.

After discussion of possible pros and cons of various sites, Hovey said that Rural Housing would take a look at applying their plan to a couple of sites in the Village. Naimowicz said that if there was real interest in buying the DPW site, he would get some ballpark figures on what relocation would cost.

The Chairman told Hovey that Commissioners were definitely interested in the possibility of senior housing in the Village, but that it would be important to have senior citizens involved in looking at different proposals. He informed Hovey that other developers had already approached the Commission about senior housing, and that the Commission would be looking for what would best benefit the Village.

NEW BUSINESS - Johnson Controls Amendment to Site Plan

Bob Morris of Johnson Controls

was present to submit a modification of the September, 1986 site plan for an addition to the Parr Street manufacturing facility. The addition consists of approximately 8,000 square feet, essentially an extension of the existing building, using the same roof line. The Chairman outlined the procedure for an amendment to site plan; being a minor alteration, it would not proceed to the Council. A motion was made by Smith, and supported by Lowery, that the amended site plan be approved as presented. The motion was approved unanimously on a roll-call vote.

OTHER NEW BUSINESS - GLEN PRIMROSE, MAIN STREET DEVELOPMENT

Glen Primrose was present to explain that, although he had no specific site plan prepared, he wanted to review some code provisions pertaining to expansion of the former gas station building he had purchased at the southwest corner of West Main and Clinton Streets. Naimowicz advised him that many of his questions could be handled by staff or inspectors; Kwolek stated that the Commission could not rule on a plan without an actual application and drawings, nor guarantee what would happen in a hypothetical situation, but would explain procedures and advise where to find pertinent information in the Village Code.

Primrose explained the needs of his business and a future plan to add a second floor for apartments. Various Commissioner advised him of offstreet parking and setback requirements; explained the procedure for petitioning for a dimension variance; and suggested that he should talk with the Historic District Study Committee and with other CBD merchants, and that he might need to seek professional help with the plan.

Primrose showed a preliminary drawing of the outside of the building, and also some materials he had researched on 19th century and turn-of-the-century

architecture. After some further discussion, Primrose stated that he would prepare a site plan for presentation at the next Regular Meeting of the Commission.

MANAGER'S REPORT

Naimowicz raised discussion of whether or not to set a time limit on presentations from the audience. The conclusion was to set no time limit, but to recognize that the Chairman would exercise discretion to keep presentations to the point and the meeting moving along in an orderly manner.

Naimowicz advised that a general meeting for Double A employees had been scheduled for the morning of January 14th. There was discussion of the possible impact of the Village and the Master Plan if the facility should close.

Naimowicz deferred to Marshall for discussion of telecommunications problems in the Village. Marshall reported that the rotary switch serving the Village had been cleaned and repaired at the beginning of the year. He had also obtained information that, contrary to previous information supplied by some Michigan Bell employees, the new digital switch installed at Chelsea does not have sufficient capacity to serve Manchester. He also had confirmation that a new digital switch would have to be installed for Manchester if one or more of the local companies, or the schools, were to contract for Centrex service.

OLD BUSINESS - REGULATION OF SATELLITE DISH ANTENNAS

Davenport presented a draft of a proposed ordinance and discussed the basic regulations it contained. The item will be reviewed and placed on the agenda for the next Regular Meeting.

OLD BUSINESS - REVISIONS TO SIGN ORDINANCE
Marshall reported that the draft was not yet ready and asked that it be placed on the agenda for the next Regular Meeting.

OTHER OLD BUSINESS
Naimowicz and Marshall reported that the new ordinance regulating fences had not yet gone to Council. They will report on progress of the item at the next Regular Meeting.

Naimowicz reported on the following items:

The question of allocating funds for legal opinions on matters before the Planning Commission had not been settled; he suggested that two Commissioners work with them on a more detailed Planning Commission budget which could be presented to Council.

The advisory to persons offering property for sale, when special zoning designations apply to the property, had not been adopted by Council, but he believed that a letter had been used once.

Manchester Plastics had postponed further clearing or construction until Spring. Kwolek reported that the preliminary material on a revised Master Plan would not be ready until next Regular Meeting.

There was discussion of boundaries which could be recommended for the Downtown Development Authority. Possible boundaries were discussed in relation to present zoning and the existing Master Plan. The final consensus was that the DDA boundaries should correspond to the existing CBD.

It was announced that the next Training Session, scheduled for January 27, would begin at 7:00 p.m.

ADJOURNMENT
The meeting was adjourned at 9:52 p.m.

Mary Kallewaard
Secretary

While heavy rains virtually washed out the fall steelhead season, spring runs should be bolstered by a strong return to parent streams by 3- and 4-year-old steelhead, reports AAA Michigan.

The first push of spring steelhead runs started in early February in many Southern Michigan streams but slowed later when temperatures dropped.

Generally, steelhead runs peak when the water temperature reaches 45 to 60 degrees. Traditionally, best results are from late March to mid-April in Southern Michigan, from mid-April to early May in Central Michigan, mid-April to early May in Northern Lower Michigan and mid-April to mid-May in the Upper Peninsula.

The 1983 and 1984 steelhead plantings should be returning to the streams in good numbers this spring and weigh between 8 and 15 pounds. The 1985 plants, which now should weigh up to 5 pounds, will be entering the streams for the first time.

Most improved results are expected in Lake Huron tributaries from Au Gres to Rogers City and in Lake Michigan streams from Benton Harbor to Muskegon. Department of Natural Resources field officials said that runs in the rest of the 44 streams in AAA Michigan's 1987 Steelhead Guide should equal 1986.

In West Michigan, best runs are expected on the St. Joseph, Grand, Rogue, Muskegon, Little and Big Manistee, Betsie, Platte and Bear rivers.

The East Branch of the Au Gres River, the Pinebog River in the Thumb and the Au Sable River and its feeder creeks should be the top steelhead streams in East Michigan.

The Huron River is the best bet for Southeast Michigan steelhead runs.

Streams in the U.P. expected to provide above average springs runs include the Big Cedar, Manistee and Whitefish rivers off Lake Michigan; Huron and Big Two Hearted rivers off Lake Superior; and the Carp River off Lake Huron.

When in the streams, steelhead do not like direct light so they usually are found near deep holes; behind or next to submerged objects, such as rocks, stumps or submerged logs; or in dark areas under stream banks. Spawning steelhead generally stay in the main flow of the river, in a moderate to fast current over a pebbled river bottom in around 4 feet of water.

Snowfall has been less than usual in the northern two-thirds of the state, and river levels there may be lower this spring. Where spring stream water is high and

muddy, anglers should use brightly colored lures, including weighted spinners; bright silver, gold and fluorescent colored blades; and heavy spoons.

When steelhead are located, slowly drifted bait and flies often work best.

In the lower sections of tributaries, fresh steelhead and salmon spawn are favored baits. However, as the spawning fish move upstream and are not actively seeking food, fluorescent yarn can be added to the bait or artificial spawn may be used to attract the fish.

The minimum size for "keepers" remains the same as the last season. Steelhead must be at least 8 inches on Lower Peninsula streams and 7 inches in the U.P. The daily limit is five in any combination with salmon and other trout species.

The 1987-88 Michigan Fishing Guide contains the rules for specific waters and streams. Most are open year-round, but some open on April 1, or April 26. Because upstream limits sometimes change, anglers should

check the guide. The guide is available free when a new fishing license is purchased or it can be obtained directly from the DNR or one of its field offices.

The Michigan Department of Public Health says that contaminant levels in Great Lakes fish have dropped in recent years, but children and pregnant or nursing women should be discouraged from eating steelhead. Others should refrain from eating more than 26 pounds of steelhead from Lakes Huron or Michigan or Saginaw Bay in one year.

A Great Water Power

Two Good Water Powers To Be United To Enlarge The Storage Capacity And Increase The Power

To Make Manchester A Busy Town

Manchester Enterprise March 8, 1906

Way back in the early days, soon after the white man discovered this beautiful and romantic section, at the lower end of the "Great Bend of the Raisin," which was a land mark when Michigan was in her early infancy, the pioneer prospectors conceived the project of digging a canal from the east bank of the upper pond in this village to the bend in the river below the "Premium Mills" in Solesville. Had this scheme been carried out—and we have never been able to learn why it was not—there would have been developed one of the best water powers in the state. About would have been a fall of about 35 feet and sufficient power would have been obtained to carry on a large amount of business in the way of manufacturing.

The cost of digging the canal in the early days would have been nominal. There was practically a natural water course part of the way. The land would have cost nothing and there would have been no high banks along the whole course to be washed away by floods or undermined by water animals.

We could never learn whether the projectors were afraid of spoiling the natural beauty of the scenery along the historic Raisin or whether the frogs and water-snakes, muskrats and beavers frightened them away. Perhaps the Wild Cat bank took wings about that time and caused the projectors to exclaim like Col. Sellers: "Another speculation busted." Whatever the cause, the water of the Raisin goes rushing on only impeded in its course for a time, waiting seemingly for a plunge over the three dams, then goes rippling merrily along sweeping the luxuriant meadows and undermining the forest trees as it rushes on through the woods down past the old Norris mill site.

The plans of the pioneer will never be carried out but let us hope that the genius and brains of the man of the 20th century may devise a way and procure the capital to carry out another plan, one that seems feasible and if brought to a finish may supply power only second to that dreamed of by the pioneer.

Our townsman, J. H. Kingsley, who owns the lower power, has devised a scheme to raise his dam six or seven feet. He has an option on the middle power, owned by N. Schmid, and also has flowage rights on some of the adjoining farmlands so by taking away the Schmid dam he will have one immense lake as a reservoir to supply water power for any amount of machinery.

This plan will involve an outlay of perhaps \$30,000 but he thinks that capitalists will be willing to loan money on a scheme that has large money earning possibilities in view.

Should he carry out his project he would have power for sale and he thinks that manufacturers would be glad to come here and use it. We have good railroad facilities, both roads being in close proximity, and we are only 50 miles from Detroit or Toledo, two of the best markets and lake port shipping points in the middle west, as it has been called, but now really is the very center, east and west.

Cascades Conference Academic Games Begin

The Business Team
Front Row - Cheryl Hartmann, Julie Craft, Jon Arney, Amy Broucek, Becky Mason. Back Row - Sara Samonek, Kris Miller, Mrs. Puroil.

Several academic teams have been practicing with their coaches for the annual "Cascades Conference Academic Games" and Shorthand teams. Manchester was represented by Amy Broucek, Becky Mason, Cheryl Hartmann, Sara Samonek in the typing area and Jon Arney, Julie Craft, Kris Miller and Sara Samonek made up the accounting team. Both business teams were coached by Mrs. Sheryl Puroil. Amy Broucek won Individual Honors by placing 5th overall in the Typing Competition; the typing team placed fourth. The rest of the Academic games were held on Friday, February 27, at Jackson Lumen Christi High School. Manchester sent teams and coaches in the following areas: Science, Social Studies, Mathematics and English.

The Business Academic Games

Quiz Bowl Team Competes At Alma

Quiz Bowl Team
Front Row - Sean Sholtis, Alice Swanberg, Jackie Miller, Dan Dezarov. Back Row - Coach Richard Parsons, Matt Royle, Craig Houck.

Manchester High School's Quiz Bowl Team competed in the 9th annual Alma College High School Quiz Bowl Competition in February. Manchester's first round opponent was Orchard Lake St. Mary who defeated us by the score of 150-55. In spite of losing the teams was reported to have had a lot of fun competing and practicing according to coach Richard Parson. As part of their practices, each year the Quiz Bowl Team challenges the faculty to a series of matches. This year for the first time a group of parents have challenged the team to another competition.

Members of the Manchester team included captain Alice Swanberg, Jackie Miller, Dan Dezarov, Craig Houck, Matt Royle, and Sean Sholtis.

The Alma College Quiz Bowl is played just like the high school and college quiz bowls seen on television. It is based on quick recall of specific facts on a wide variety of topics. The competition is divided into 2 brackets which consist of Class A-B schools and class C-D schools. The school represented by the championship team in each bracket receives a \$2500 renewable scholarship for a high school senior interested in attending Alma College and a \$1500 scholarship goes to the runner-up. This year Detroit Catholic Central won the A-B championship and Perry defeated Vanercook Lake in the C-D finals.

Hit or Miss

This told the tale. The cat had worried the donuts out of the box and on to the floor where the dog took over.

.....

For some time we have been amazed by some of the TV commercials. For instance there is the one about the stupendous value of the genuine diamond ring obtainable for only \$19.95. "Just send check or credit card information at once and you will receive, in three to five weeks, a ring and as a bonus, a bracelet to match, made of "washed" gold and also a necklace of like construction.

The setting of the ring is said to be a genuine diamond and is guaranteed to be genuine gold in this manner as an advertising promotion and the buy of a lifetime. But you must furnish your own magnifying glass to be able to see the diamond. How many folks fall for this gimmick.
