Record Apple Harvest To Fuel Cider Sipping

A rising tree inventory and excellent weather have produced the state's largest apple crop ever — 64 percent above last year's level — and that means plenty of cider sipping this fall, reports AAA Michigan.

"Thousands of visitors are traditionally beckoned each fall by the memorable sights, scents and sounds of operating cider mills," stated AAA Michigan Travel Services Manager James Drury.

"With an abundant supply of apples and cider and doughnut prices up only slightly from 1986, this should be an especially good year for savoring fall's gold and russet finery and enjoying outdoor family fun at a Michigan cider mill," he added.

Michigan's total apple crop this year exceeds 1.15 billion pounds, up from last year's 700 million pounds. The harvest is the largest since the Michigan Agriculture Department began keeping records in 1898.

This year, Michigan is expected to become the second largest producer of apples nationwide, growing 70 million pounds more than last year's second-ranked New York State. Washington continues to lead in apple production nationwide.

Drury attributed the upswing in apple production to a 24 percent increase in apple trees between 1982 and 1986, favorable pollination conditions in the early spring and the right combination of heat and rainfall this summer.

Fruit-bearing trees now account for 4.4 million of the state's total record 5.8 million apple trees.

Historically, the most abundant Michigan apples are Red Delicious and Jonathan. Other popular varieties include Ida Red, Golden Delicious, McIntosh, Rome and Northern Spy.

Cider mill visitors will find that cider averages \$2.45 per gallon, 5 cents more than last year, with prices ranging from \$1.50 to \$3.90. A dozen doughnuts averages \$2.37, 7 cents more than last year, and costs from \$1.55 to \$3.

AAA Michigan's 1987 Cider Mill Guide lists 101 mills. Many mills offer such family fare as hay wagon and train rides, animal petting farms, pony rides and pick-your-own apples.

Most mills permit visitors to watch pressing operations and provide special tours. Visitors should call ahead for pressing dates and times and a schedule of activities.

Manchester High School Merit Semifinalist

Jackie Miller

Alice Swanberg

The names of some 15,000 young men and women across the country who are Semifinalists in the 33rd annual Merit Program have been released by National Merit Scholarship Corporation (NMSC). These academically talented high school seniors in all 50 states will have an opportunity to continue in the 1988 competition for about 6,000 Merit Scholarships worth over \$23 million.

Manchester High School is pleased to announce that Jackie Miller, daughter of Mr. and Mrs. Robert Miller of 10955 Hieber Road and Alice Swanberg, daughter of Mr. and Mrs. Neal Swanberg of 14108 East Austin Road have been awarded Semifinalist status.

More than one million students in some 19,000 U.S. secondary schools entered the current Merit Program by taking a qualifying test, the PSAT/NMSQT, in 1986 when they were juniors. The top scorers in every state, representing about one half of one percent of the state's high school graduating class, are included in the nationwide Semifinalist pool.

By publicly honoring Semifinalists, NMSC hopes to broaden their higher education opportunities and to focus a spotlight on academic excellence throughout the nation.

To be considered for Merit Scholarships, Semifinalists must first become Finalists by meeting high academic standards, being fully endorsed and recommended by their high schools, taking the SAT and confirming their qualifying test performance, and submitting information about their school and community activities, personal interests, and goals. Approximately 13,500 (90 percent) of the Semifinalists are expected to advance to Finalist standing and to compete for Merit Scholarships in 1988. About 44 percent of the distinguished finalists will receive a Merit

Scholarship, and all winners, regardless of the type of award offered, will be chosen from the Finalist group.

Jackie has been actively involved in a wide variety of activities at Manchester High School. She has been a member of the band for four years and the National Honor Society for two. She has participated in drama at school and church and is also an officer in her church youth group. Since ninth grade she has been a member of the quiz bowl team, math academic games team, and English essay academic games team. Last summer, she worked as an intern for the University of Michigan's Women in Science Program. Jackie's tentative career plans are in the field of international journalism. At present, she is interested in a number of liberal arts colleges throughout the country.

Alice's accomplishments in high school are also numerous. One of her great loves is drama. She has performed in every school play since her freshman year, including being the student director for "The Miracle Worker". She is captain of the high school quiz bowl team and is also a member of the band and academic games social studies team. Alice has competed in band festivals, 4-H steer shows, art fairs, essay competitions and horse shows. The summer before last Alice was Manchester's representative to the Summer Institute for the Arts and Sciences. Alice's college major is undefined but it will be in some area of the sciences. She is considering a number of different colleges in Michigan.

Optimist Tri-Star Over The Irish Hills

The Manchester Optimist Club will hold a Tri-Star Football Contest on September 26, at 1:00 on the new football field. The program tests the skills of contestants in three of the basic skills of the game - place-kicking, passing and punting.

Kids will compete in six age groups, 8 through 13, against youth only of their own age. All that is needed to compete is a pair of gym shoes. Football spikes and boots are not allowed.

There will be trophies awarded to the first three winners in each age group. Every contestant will also receive a momento scorecard and a Tri-Star Patch.

Entry blanks are available at the Middle School office and Klager office or at the contest site on the day of the competition.

A Fascinating Section of Michigan Attractive To City People Who Make Many Auto Trips

Every auto driver showing visitors the beauties of this section of Michigan will miss a rare sight if he does not take the trip over the Irish Hills.

Drive south and west, up the Chicago turnpike, or if at Wampler lake, west a mile, then south to Siam school house, where you hit the pike, then turn to the left. Soon you will pass the farm of Herbert Watkins on the north shore of a beautiful lake. Across a twin lake called Little Wolf will be seen the Kerr resort which is well worth a visit, though reached by a round-about drive.

Continuing eastward from Mr. Watkins' up, over the hills you go, past substantial farm houses and the catholic church built of field stone in the pioneer days, stopping now and then to get a longer look of the many lakes nestling between the hills, until you reach, at an abrupt bend in the road, the E. Brighton farm.

Here we advise you to dismount and walk through the orchard to the top of the hill from which a view rivaling some famed mountain view, will fascinate and astonish you.

Looking towards the north, at our very feet, but far below us we see Stony Lake and farther on Wampler Lake, whose waters cover an area of three miles in length and one and a fourth

in width. Beyond, through the trees, we catch a glimpse of Mud Lake and far, far to the north and east can be seen farm buildings in Norvell and Manchester townships. Turning to the westward we trace the windings of the Chicago turnpike to its junction with the Monroe turnpike, flanked on either side by innumerable lakes whose surfaces are gleaming in the sunlight.

There, a little to the south is the old mill, so long run by the late Tom Moshier, then by Joe. Marsh and later by Mr. Marr. That tall hill on past is the wellknown Prospect hill, said to be the highest point in southern Michigan, but really only eight feet higher than the one on which we are standing. It looks like a mountain.

That smoke you see just a little north is from the chimney of the Cement plant at Cement City; Brooklyn, farther north is hidden behind the intervening trees. The dense cloud of smoke farther to the north is from the factories and railroads at Jackson.

What you have already seen will perhaps be satisfying, but turn towards the south and see the broad stretch of fertile farm lands in Cambridge and Franklin. We can not fittingly describe the beauties of this marvelous landscape, our pencil is to dull; go and see it for yourself. But take your Kodak along so you can show your friends what charming views may be obtained from "The Irish Hills".

Wedding Bells Ring

Michelle Ann Ball, daughter of Mr. and Mrs. Leon Ball of Manchester and Bruce Michael Dettling, son of Mr. and Mrs. Charles Dettling of Ann Arbor, were united in marriage on August 8, 1987. The nuptial mass took place at St. Mary's Catholic Church in Manchester with the Rev. Fr. Raymond Schlinkert officiating.

The bride wore an Alfred Angelo creation of white taffeta with an English net yoke. The

bodice was beautifully adorned with handsewn sequins, beads and Venise lace. The lace was also used to trim the Renaissance sleeves and the skirt front. Taffeta and lace ruffles cascaded from the center back. A wide flounce border edged the Castillon Cameo cathedral train. Her veil was secured by a crown of white silk flowers and beads.

The bride carried a colonial bouquet of bridal white roses, white mini carnations, baby's

breath, fresh ivy and ribbon streamers. The groom was attired in a white tuxedo with a white rose boutoniere.

Marie Ball, sister of the bride was the maid of honor. The bridesmaids were Melanie Ball, sister of the bride, Brenda Ball, sister-in-law of the bride, Kari Riley and Michelle Schook, friends of the bride and groom.

The attendants were all attired in tea length gowns of royal blue taffeta with a scalloped neckline, puff sleeves and a drop waist. Their nosegays consisted of white button mums, pink mini carnations, yellow freesia, blue silk flowers, baby's breath and white ribbon streamers.

The best man was Rob Huber, friend of the bride and groom. Groomsmen were Joseph and Kurt Dettling, brothers of the groom, Mark Ball, brother of the bride and James Lenhart, friend of the bride and groom. Michael Ball, brother of the bride, served as an usher. They each wore a white tuxedo with a royal blue cummerbund and bow tie.

The flower girl and ring bearer were just precious as they strolled down the aisle dressed all in white. Ashley Ball, niece of the bride, was the flower girl and Donald Dettling, nephew of the groom, was the ring bearer.

A reception followed at the K of C Hall in Dexter where approximately 330 guests were served a buffet luncheon and later danced to the music of Brad Frey.

Cutting the cake were Cheryl Bauer and Debbie Barth, sisters of the groom. The guest book was attended by Jill Bondy, sister of the groom and white satin roses containing bird seed were passed out by Cathy Dettling, sister of the groom.

The couple departed for a two week honeymoon in Maine after which they will reside in Manchester.

Manchester United Methodist Church was the setting for the September 12, marriage of Linda C. Furlong and Randy E. Uhr.

The Rev. Hayden Carruth performed the ceremony for the daughter of Mr. and Mrs. James Furlong of Royal Oak and the son of Mr. and Mrs. Earl Uhr of Manchester.

Sue Dean of Warren and Jacques LaRock of Manchester were honor attendants. Bridesmaids included Becky Laconis of Royal Oak, Joan Furlong, sister-in-law of the bride, of Sterling Heights, Nancy Willemin of Alpena and Marcia Marion, niece of the groom, of Saline.

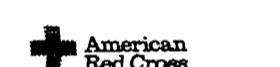

Bill Furlong, brother of the bride of Sterling Heights, Keith Alber of Manchester, Mike Marion and Marvin Feldkamp, both of Saline, Jack Wheeler of

Manchester and Roger Dean of Warren served as groomsmen. Melissa and Matthew Marion, niece and nephew of the groom, were the flower girl and ringbearer.

After a reception at Weber's Inn in Ann Arbor, the bride and groom honeymooned at Lake Tahoe in Nevada. They will reside in Manchester.

Also Present: Judy Steele, Gary Wiedmayer, Barb Bertke, Richard Bertke, Becky Doyle, Chris Spork, Brad Roberts, Norm Walz, G.R. Mann, Helen Kensler, Clifford Tracy, Garnett Johnson and Paul Hendrickson.

The minutes of the August 17th regular meeting and the August 24th Special Meeting were presented to Council for approval. Motion by Becktel, supported by Tapping to approve the August 17, 1987, minutes as written. Motion by Becktel, supported by Reinhart, to approve the August 24, 1987, meeting as presented.

APPROVAL OF THE AGENDA
After a short discussion Harris offered a motion, supported by Marshall, to include the Sheriff's Report and DPW Report on the Agenda. Ayes - all.

Motion by Marshall, supported by Harris, to omit the closed session - DPW contract. Ayes - all.

CORRESPONDENCE
The Clerk presented Council with several pieces of correspondence. Motion by Limpert, supported by Becktel, to send the letter from Manchester Tool & Die, Inc. to Planning Commission for an early recommendation. Ayes - all.

PUBLIC PARTICIPATION
Barb Bertke approached Council with questions about building a pole barn. Council

referred her to the Zoning Inspector.
Judy Steele and Gerry Mann were both present in regards to the flooding of August 22, 1987. Mayor Hinkley informed them of the work session that would be held on September 14, 1987, regarding the storm water and sewer separation.

Clifford Tracy approached Council with questions regarding the \$200,000.00 that was going to be spent on utilities at the Industrial Park. Limpert made the statement that there was a resolution to that effect but it had been rescinded.

ACCOUNTS PAYABLE.
The Council reviewed each bill, purchase order and authorization with the Clerk. After a lengthy discussion Limpert offered a motion, supported by Marshall to pay all the bills except the following: Robert Daverman, Fund Balance, Robert Hotaling, Insituform North, Inc., Louie Decorating, McNamee, Porter & Seelye, Post, Smythe, Lutz & Ziel, Rent-A-Byte, and Keusch and Flintoft. Birth Announced

Born to Mr. and Mrs. John Pratt of West Chester, Ohio, a daughter, Amanda Lynn, on Friday, September 18.

Maternal grandparents are Mr. and Mrs. Elton Heiber and paternal grandparents are Mr. and Mrs. James Pratt.

Amanda has a sister, Michelle, 10 years old.

Manchester Area Historical Society

The Manchester Area Historical Society met on Monday, September 21, at the Blacksmith Shop. The following officers were elected for the coming year:

President - Howard E. Parr, First Vice-President - Jan Shurtliff, Second Vice-President - Karen Carter, Secretary - Betty Cummings, Treasurer - Loring Ebersole, Directors - Gail Kellum Curtis and Tom Walton.

The immediate Past President, John Swainson, is also a Board member.

The speaker for the evening was Jim Hurd, curator of the antique and classic Bicycle Museum of America located in Ann Arbor. He brought several bicycles for us to see, showed a videotape of antique and classic bicycles, and told us many interesting things about bicycles. For the first time in history, more

adults are riding bicycles than children. Presently, 42 million adults and 40 million children are riders.

Most of the bicycles were made in the Great Lakes states. Rack and pinion steering, roller bearings, and many other ideas that were used first on bicycles were later used on automobiles. Woodward Boulevard in Detroit was constructed of wood for bicyclists. The high-wheeled bicycles, also called bone shakers, were ridden by men. When the wheels were made the same size, women started riding. Amelia Bloomer was the first woman to ride a bicycle.

Many different and interesting bicycles were shown in the videotape. One was called a sociable. Two people rode it sitting side by side rather than one in front of the other as we usually see.

Recreation Task Force To Meet

The Recreation Task Force will meet Thursday, October 1, at 7 p.m. at the Schwab's, 116 Beaufort, 428-8976.

The meeting is open to the public and you are invited to attend or call with your suggestions.

Thursday night we welcomed the Panthers to our basketball arena. We had solid team play as four girls scored well. Kim Lockridge, Renea Drouare, and Nikole Reinhart scored ten points apiece, and Sarah Scully contributed 8 points.

New head coach Lewis has his squad 2 and 2 in this young season.

Our Little Dutch lost in a close battle, 35-33. In scoring, Stacey Wilde had 12 points as Jackie Ahrens posted 9 points. So far this year co-captain Stacey has gathered in 15 rebounds each game.

Dutchmen Crush Trojans

by jon

We opened our Cascades Conference play in great style by cruising over East Jackson, 27-0. Jason VanDeven played well on both offense and defense, as he ran for 2 TD's and set up a third with an interception. We now stand 3 and 0 for the season. Be sure to be here when we host Hanover-Horton on Friday.

In the opening quarter at East Jackson, we tallied twice on 2 six-yard passes by Jason. Early in the second half of the contest, we added to the scoreboard with a 39-yard pass from Tom Mann to Denny Steele. Jason followed up with a 47-yard interception return which put the ball on the one-yard line. Steve Samonek plowed over the goal line for the touchdown. Statistically speaking, we concluded with 153 yards on the ground and 96 in the air.

Money Management

Charity Still Pays

(Prepared by the Michigan Association of Certified Public Accountants)

Americans are a generous bunch. The average American household contributes \$650 a year to charities. Individuals give about 80 percent of all private contributions that philanthropic organizations receive. In fact, in 1985, individuals gave \$66 billion to charities. Eighty-one percent of all Americans believe it is the responsibility of individuals to contribute what they can to charitable organizations. Fifty-one percent of all women and 45 percent of men volunteer work and, on the average, contribute three to five hours per week. Impressive statistics by any standard.

Although the 1986 Tax Reform Act includes a number of changes governing charitable donations, charities nationwide are hopeful that their efforts will continue to receive the support of Americans. The Michigan Association of Certified Public Accountants offers the following advice concerning charitable contributions.

Beginning in 1987, charitable contributions will only be deductible if you itemize your deductions. It is likely that fewer taxpayers will be itemizing as a result of the larger standard deductions, making fewer people eligible to deduct their charitable contributions. If you find that you occasionally itemize your deductions, you might consider grouping your charitable deductions in a year when you will be itemizing.

As tax rates begin to drop this year, charitable gifts will, in effect, cost more because the tax benefit of your contribution is reduced by the lower tax rates. But taxpayers should keep in mind that it may be advantageous to accelerate contributions before the tax rates drop further in 1988. As an example, if a person in the 35 percent tax bracket chooses to donate \$500 to his or her church or synagogue in 1987, a tax

savings of \$175 will be generated. If this person makes the same donations in 1988 while in the 28 percent tax bracket, his or her taxes will be reduced by only \$140. Those taxpayers in high tax brackets in both years stand to gain the most from making donations in 1987, rather than in 1988.

With tax reform lowering the value of charitable donations, you'll want to be sure you are claiming all the charitable deductions you are entitled to. The law allows you to deduct gifts made to most religious, educational, social welfare and health groups. But watch out. Some groups, which are tax-exempt themselves, do not qualify for tax-deductible gifts. An organization can tell you if it is qualified or you may contact your local IRS office which has a book that lists organizations that are qualified to receive tax-deductible contributions.

If you contribute to a charity and you receive a benefit from it, you may deduct only the amount that is above and beyond the value of the benefit you receive. In other words, if you buy goods or services from an organization and pay more than the fair-market value, the amount you pay that is more than the value of the item you receive may be treated as a deductible contribution. For example, if you buy a ticket for a benefit concert for \$50 and the regular price for the ticket would be \$20, you may deduct \$30 as a charitable contribution.

If you do volunteer work, you may deduct your unreimbursed expenses. Auto expenses, either your actual costs or a flat rate of 12 cents a mile plus tolls and parking fees, are deductible, as are other out-of-pocket expenses such as postage, telephone calls, uniforms and supplies. But you may not deduct babysitting costs or the value of your time.

CONTRIBUTING PROPERTY
The tax benefit of donating property that has appreciated in value is almost always greater than contributing cash. You may contribute stock, real estate, art or other assets. Generally, the

law allows you to claim a deduction for the full fair-market value of the property you donate to a qualified organization. The fair-market value is the price that the property would sell for on the open market. (If you're not sure how to determine the fair-market value, consult a tax expert or refer to IRS Publication 561, DETERMINING THE VALUE OF DONATED PROPERTY.) In order to deduct the fair-market value, you must have held the appreciated property for over six months.

By donating a long-term asset in 1987, you get to take a tax deduction for the fair-market value and you avoid the capital gains tax you would have to pay if you sold it. But your timing is important. If you donate an asset you have held for six months or less, your deduction is limited to your "basis" - usually the amount paid for it.

One caution regarding donations of appreciated property: The appreciation on donated property is considered a "preference" item and, as such, may subject a taxpayer to the Alternative Minimum Tax (AMT). The AMT generally applies to wealthy taxpayers who have greatly reduced their tax liability by using certain deductible expenses and special tax preferences. There is no rule of thumb as to who is affected by the AMT because there are many variables involved.

In general, the tax may affect upper-income donors who make an especially large non-cash gift or who claim substantial amounts of other deductions. Most people don't have enough tax preference items to be subject to the AMT. But if you are considering making an exceptionally large donation, you should discuss your plans with a knowledgeable tax professional prior to making the donation.

If the value of your non-cash gifts is more than \$500 but does not exceed \$5,000, you must complete Section A of IRS Form 8283. Gifts of publicly-traded stock worth more than \$500 should also be listed in this

section. If you donate a non-cash item or a group of similar items that have a claimed value of more than \$5,000, a written appraisal from a "qualified appraiser" is required to be attached to the return. (This rule does not apply to publicly-traded securities.) In addition, Section B of IRS Form 8283 must be completed by you, the organization that received the gift and the qualified appraiser you select.

Because the impact of charitable contributions varies from donor to donor, CPAs suggest that you consult with a tax expert to determine the best strategy for making your contributions.

Michigan's Bear Population

How is Michigan's Bear population doing? Are we using the population wisely? How should we manage our forests for bears?

The DNR is searching for clues to these questions (and others) by conducting research on Drummond Island. The 130 square mile "Gem of the Huron" is ideal for doing studies on bears because, even though they swim, the water is somewhat of a deterrent to bears leaving. The knowledge gained is applicable to the mainland and easier to interpret. On the mainland bears can move great distances, and complicate research. One bear moved more than 100 miles during a previous study in the

northern Lower Peninsula. Result, to answer the same questions somewhere else in the state would take longer and cost much more.

In 1987, bear trapping was continued for the second year on the island. Forty-five different bears have been ear tagged and 27 are sporting new collars with radio transmitters. Every trapped bear, other than cubs, was measured, weighed, checked for diseases and parasites, and had a small tooth extracted for calculating age. Twenty-three bears were tagged last year. One was seen swimming the channel and was later shot by a bear hunter near Cedarville.

This year, 33 bears were trapped, 12 repeats from last year, and 21 new. Some cubs of the year were also caught, but are not included in the totals.

The collared bears will have a biologist as a constant companion until early spring of 1989, when collars will be removed from the remaining bears while denning. The study will be completed next June.

The DNR has been helped in conducting this research financially and physically by the Safari Club International, Michigan Black Bear Research Foundation, Michigan Bear Hunter's Association, Wexford-Missaukee Vocational School, Upper Peninsula Sportsmen's Alliance, and residents of Drummond Island.

WHEN THE SNOW FLIES WILL YOUR CAR BE WINTERIZED?

Inspections of the Cooling System are Crucial to the Engines Health

How To Prevent Car Heart Attacks.

Unfortunately, most car owners don't realize that cooling system parts should be replaced before they fail. Like heart attacks in people, car heart attacks can often be prevented with regular inspections of the cooling system.

Today's cars operate at higher engine speeds with more equipment under the hood, smaller engine compartments, and reduced radiator size. So the cooling system - particularly the thermostat, which constantly opens and closes to regulate coolant flow - is under a lot of stress. In fact, the cooling system removes twice as much engine heat as the exhaust system.

FOR ONLY \$29.90

COMPLETE INSPECTION INCLUDES:

1. Flush Cooling System
2. Check Operation of Thermostat.
3. Test Battery and Charging System.
4. Clean Battery Cables.
5. Inspect Radiator Cap, Belts and Hoses.
6. Fill System With Up to 2 Gallons of New Antifreeze.

No one understands...like Jesus

No one understands! At least it seems that way sometimes. You have hurts, needs, longings, and no one seems to know or care. How could they? People may be all around you, but they can't look inside to see what you really are, how you feel, or why you do what you do. No one understands? That's not really true. The happy truth is "No one understands like Jesus!" For your sake, He faced life and death and overcame, and He's alive to hear and help you now. If you would like to know more about this Jesus who understands, visit your local Assemblies of God church or write: Pastor Richard Coury Clinton Assembly of God 13300 Clinton - Manchester Rd. Fall Stages Color Show

Nature's paintbrush will drench the state in gold, crimson, copper and russet from mid-September until October, but the intensity of those colors depends on the weather, reports AAA Michigan. Michigan usually has good displays of yellow and orange, but the weather must be just right for the deep reds. Bright, dry fall days and very cool nights produce

Extremes in fall temperatures and light - such as clouds one day and sunshine the next - can affect the intensity of the colors and produce lackluster hues in leaves. An unseasonably hot, dry summer in some areas, especially south of Jackson, indicates that some leaves did not have the chance to "ripen", and fell off the tree before they could change color. If the leaf is green by early September, then the chances for a good color display are improved. Leaves contain chlorophyll, a pigment that makes them green when combined with the right amount of light. Many leaves also have the pigments carotene and xanthophyll which color the leaves yellow and orange when the chlorophyll breaks down. The dazzling reds are caused by high concentrations of sugar which produce anthocyanin. Colorful displays of leaves begin in the north with mid-September to early October the best time to view brightly hued leaves in the Upper Peninsula and the tip of the Lower Peninsula. From late September to mid-October, leaves are at their colorful best south of Alpena and north of Standish. The mid-section of the state from Ludington to Holland is drenched in color from early to mid-October. And the sector south of Holland, and including Southeast Michigan, is at its peak from mid- to late October. Fall, with its cooler weather and lack of crowds at tourist areas, is popular with many travelers. A variety of tours have been arranged by the Michigan Travel Bureau that center around the dazzling displays of color. A packet of fall color tour information is available free from the Michigan Travel Bureau by calling toll-free 1-800-5432-YES. The AAA Travel Agency also offers fall color tours, including an October 4, trip to Mackinac Island that features a horse-drawn carriage ride and two nights at the Island House Hotel for \$230 per person. Bicycle enthusiasts can ride for miles through brilliant displays of fall color on a two-day trip that includes a wine tasting and accommodations at Saugatuck's Kirby House. Cost is \$239 per person. For reservations, contact Bicycle Cruises of Ann Arbor at 1-800-222-2031. Hear the autumn leaves crunch under a horse's hooves during a ride through acres of glorious color at any of the state's many riding stables, or glide silently along a river in a canoe while being surrounded by a kaleidoscope of changing fall hues. A list of canoe liveries is available at any AAA Michigan office.

Fall Tree Sale Closes Soon

October 2nd is the last day orders for tree seedlings will be accepted by the Washtenaw County Soil Conservation District, for its Fall Tree Seedling Sale. Interested persons are encouraged to get their orders in prior to this date. Seven tree species are being offered for conservation and reforestation purposes. They include: Austrian Pine, Red Pine, White Pine, Norway Spruce, White Spruce, Colorado Blue Spruce, and Douglas Fir. Also available will be tree planting bars, a sturdy tool for planting seedlings. All tree species are still available with a good supply of each. The trees are bundled in lots of 50, so minimum orders of any specie will be 50 trees. Trees will be available for pickup on either Wednesday, October 7, or Thursday, October 8, at the Soil Conservation District Office, 6101 Jackson Road, Ann Arbor, 1/2 mile west of Zeeb Road. Time for pickup will be between 8:00 a.m. and 4:30 p.m. For more information, contact the Washtenaw County Soil Conservation District Office, 6101 Jackson Road, Ann Arbor; telephone: (313) 761-6721.

WCC Seeks New Trustee

The Wastenaw Community College Board of Trustees is seeking applicants interested in filling an opening on the board.

The vacancy was created when Trustee John Corey resigned earlier this month. Corey, who has served on the board since 1983, moved from Ann Arbor to Ludington, MI, to accept a job as president of the Ludington Federal Savings and Loan.

The Board of Trustees expects to fill the vacancy in October. The new appointee will serve as trustee until December 31, 1988. County voters will then elect a trustee for a two-year term at the November 1988 general election, and the person elected at that time will be sworn in at the January 1989 board meeting. That term expires in December 1990.

WCC trustees serve as community volunteers and receive no compensation. Applicants must be registered voters of the Wastenaw Community College district. This district is in Wastenaw County and includes ten public school districts: Ann Arbor, Chelsea, Dexter, Lincoln Consolidated, Manchester, Milan, Saline, Whitmore Lake, Willow Run and Ypsilanti.

Interested applicants should submit a cover letter and complete a Background Information Sheet (available in the President's Office) to: Wastenaw Community College, Office of the President, 4800 E. Huron River Drive, P.O. Box D-1, Ann Arbor, 48106. Materials must be received by 5:00 p.m. on Wednesday, September 30, 1987. The Board will review these materials and select persons to interview.

For more information call the President's office at 973-3491.

Henry Ford Remodeled Building At Tecumseh And Will Maintain It

Some months ago Henry Ford was given permission to restore one of the three district school buildings in Tecumseh and to equip and maintain it for school purposes as in years gone by.

The building of red brick, stands back from the main north and south highway of that village and was in "Brownsville," the original settlement of the village in 1824.

On a corner, one block north of the school building was built in pioneer days, a tavern, by Gen. Brown, which was a great aid to the early settlers.

It was in the first settlement of

Tecumseh as in Manchester. When the settlers built homes, the center of the village was located about a mile from the first settlement, and the name Tecumseh given it, after the celebrated Indian chief.

There were three more taverns erected and on the principal four corners called Snell's Tavern, one three blocks east called "The Michigan Exchange," and one on the west side of Military square that was called the Hoag House.

The three school districts in Tecumseh were located, one in the western, one in the eastern part of the village and in the second block from Main street, and the third was in Brownsville. This latter was deemed to Henry Ford last fall and he has completely restored it as it was years ago with oil lamps, box stove—wood burning, and old fashioned desks and benches.

The school under Mr. Ford's direction will be operated as a 12 grade school with all books, supplies and a teacher furnished free of charge. Only pupils residing north of Evans creek will be admitted and so far 33 have enrolled.

Glenn Driscoll, of Adrian, who formerly taught at Tipton, and the first semester at Raisin Center, has been engaged as teacher.

On the opening day the children of Mr. Ford's school at Macon were present and furnished a program. Mrs. Sedecor, who lives opposite the school house, owns the little old hand bell formerly used to call the pupils together. She was asked by Mr. Ford to be present and ring the bell on the opening day.

United Way Slogan Winner

"Go Dutch! Let's Give Much!" was selected from approximately 30 entries submitted at the Manchester Community Fair. Mr. Reno Feldkamp submitted the winning slogan for this fall's United Way campaign. United Way Board President Leonard Bruner presented Reno with a check for \$25. Mr. Feldkamp resides on Smythe Road in Manchester.

Watch your mail for your letter from United Way. We hope for the same generosity that was shown last year.

Bloodmobile October 12th

The regular fall Bloodmobile for this area will be held at the Emanuel Church Hall on Monday, October 12. The hours of the clinic are from 12 noon to 6 p.m. The local churches will be contacting donors while Mrs. Claire Reck has been contacting the industries in the Manchester area. The Emanuel Women's Fellowship will host the canteen and have a nursery for children of donors. The Chairperson of the day is Mrs. Evangeline Ludwick. Appointment cards are now available at the three banks - Comerica, First of America, and Great Lakes, as well as at the Manchester IGA and at the Bakers Dozen. A sign with a file box and appointment cards beside it make it easy to sign up.

Your blood helps patients who require surgery, lose blood in accidents or have anemia, hemophilia, liver disease, leukemia, kidney disease, or are undergoing chemotherapy for malignant disease or in the treatment of shock. Thanks to modern technology, your blood donation can help as many as four patients. Please plan to donate every eight weeks and up to five times every 12 months.

Leonard Bruner, President of Manchester United Way Board of Directors, is pleased to announce that Mr. James Datsko will serve as General Chairman of the Manchester United Way 1987 campaign.

Mr. Datsko grew up in Ann Arbor and now resides in Manchester. He is a graduate of the University of Michigan School of Business Administration and the University of Detroit School of Law. He was admitted to the practice of law in 1974 and began gaining extensive trial experience as an Assistant Prosecuting Attorney in the "thumb area" of Michigan; and later became Assistant City Attorney for Ann Arbor in charge of handling all ordinance cases. He clerked for James C. Hendley during the summers of 1972 and 1973, and put himself through law school using this income, his earnings during the school year as law clerk for the Wayne County Organized Crime Task Force and the savings from his U.S. Army pay.

Jim returned to Manchester in 1976, and purchased the law practice from James C. Hendley in January of 1977. He has served on various community organizations including the Manchester Chamber of Commerce and as President of the Manchester

amount of \$4,400.00 to be used for new shelving in the Library. This money was a part of the 1987 Chicken Broil profits and together with \$2,500 for additional "Life Line" units was in accordance with the commitment made by the chairmen of the various Chicken Broil committees.

The Co-Chairmen stated that after all bills are paid and all monies turned in, there will be published a report on the year's profits.

A few ticket returns are still out and the Co-Chairmen urge that anyone still holding the Chicken Broil money to turn it in to Connie at Sutton's Agency.

The Rogers Corners Farm Bureau Group will meet Friday, October 9, at 8 p.m., at the home of Mr. and Mrs. Neil Stierle.

Middle School Open House

All parents/guardians of fifth, sixth, seventh and eighth graders are cordially invited to attend an Open House at the Middle School on Tuesday, October 6, from 7:30 p.m. to 9:00 p.m.

Due to the lack of classroom space, the Open House will be for parents/guardians only. Fifth and sixth grade parents will report to their child's homeroom teacher when arriving for the Open House. Seventh and eighth grade parents will report to their first period class. First period will last ten minutes. Parents will have three minutes between classes.

All Middle School students will be receiving maps of the room locations and a copy of their daily schedule prior to October 6, so that they can explain them to their parents. This should help avoid any confusion Tuesday night. Parents should bring this information with them.

The Middle School staff is looking forward to meeting with you.
