

Senior Jason Van Deven pops for 2 of his 11 in Blissfield

Hoopsters & Spikers Conclude Seasons

On Tuesday, our basketball squad had the unenviable task of playing Blissfield in the first round of the Districts hosted by Blissfield. It's extremely tough to defeat a team on its own turf and this was no exception. We played well, but our shots just would not fall as the Royals won 78-65. Tom Mann was high scorer as he blistered the nets for 33 points while Jason Van Deven hit for 11.

Our Volleyball team finished the regularly scheduled season by defeating Adrian Madison on Monday and falling to Western on Tuesday.

On Saturday, we trekked all the way to Concord to meet Napoleon

in the first round of the State Playoffs. The Pirates were victorious, ending our season.

Remember the date for the winter sports recognition night has been changed to March 21.

Special thanks to the people who helped me get to ball games to photograph and write the articles about the games. Thanks to my mother, Lewann Van Deven, and Rick Ridenour.

Centerview Golf League Meeting

Centerview Thursday Night Men's Golf League will hold a meeting March 19, 1989 at 1:00 p.m. at Centerview Golf Course. Anyone interested please attend or call Bob Holbrook 517-263-8081.

Hearing Loss Support Group

A hearing loss support group will be offered by the Turner Geriatric Clinic of the University of Michigan Medical Center at 1010 Wall Street, Ann Arbor. Hearing impaired adults over the age of 60 are invited to the five weekly meetings beginning Tuesday, March 14 from 10:00 a.m. to 12:00 noon. Sessions will include information on hearing aids and other assistive devices, communication skills, and the opportunity to meet new friends. To register and for more information, call 764-2556 or write Turner Geriatric Services, Social Work Department, 1010 Wall Street, Ann Arbor, MI 48109.

Kudos To The MHS Players

Janet LaBeau Shurtliff

If you didn't get there early on opening night, chances are you couldn't get a seat when the MHS Players premiered their musical **WORKING** last week-end. And what a shameto miss this splendid endeavor!

As ambitious in scope as any high school play one could imagine, **WORKING** involved a cast of more than 43, a five-piece orchestra (worth many times its

size), and a production staff and stage crews who admirably met the challenges of this demanding production.

The play is based on the Studs Terkel story of the same title and was an impressionistic, personal look at work, described using the actual words of the workers, and set to music. We heard from grocery clerks and firemen, steel workers and housewives. And more.

The student cast sang, danced,

and acted the complicated script with admirable skill. Although each part, no matter how small, provided the necessary puzzle piece which made it all fit together into a complete pattern and unified whole, one cannot help but comment on the particularly strong stage presence of Hans Van Aistine as Lovin' Al, the parking lot attendant; of Cheryl Blumenauer as Grace Clements, the millworker; of Tim Fenelon the steelworker; and of Wendy Waldron as Maggie Holmes, the cleaning woman.

One also has to admire the songs and scenes such as "Just a Housewife," "Neat to be a Newsboy" (with the little ones helping the high schoolers), and "Father and Sons." And marvel at a stage crew who made scenes magically change with the wink of a spot light!

And finally one has to wonder at the strange unreality of these high school kids - just about to embark on a path which will lead to jobs and careers, to accomplishing to a great degree or maybe hardly at all their dreams - one has to wonder at the bitterness of these youngsters singing "If I Could've Been," a song of reflection on the compromises we adults all find it necessary to make. The concluding number, however, "Something to Point To," was equally wonderful as it expressed the uncompromising idealism of the characters in spite of their positions as well as of the students/actors perhaps because of their positions. An excellent completion of the circle.

Kudos to Nancy Kruse, Carol Palms, Ann Stevenson, Jim Brunberg, and the nearly three score young people who touched the hearts of last week-end's audiences with a production of exceptional merit.

When The Hippos Crashed The Dance

The "rabbits" practice their song and dance routines for the play **When the Hippos Crashed the Dance** to be presented to parents on March 21st.

The Klager 4th grade play club will be presenting their play "When the Hippos Crashed the Dance" March 21st at 7:00 p.m. in

the Klager gym. The musical comedy is directed by Mrs. Kay Miller.

Mr. Baker's Body Found

Manchester Enterprise
March 10, 1887

On Friday afternoon the welcome news was brought here that the body of our old friend F. M. Baker, had been found in the river, just below the dam at Sharon mills, by his sons.

It was carried to his late home where it was prepared for burial. There was no mark upon the body to indicate that foul play had caused his death. One hand was thrust underneath his coat while the other, on which was a mitten, covered it as was his custom when walking. His cap and muffler were gone.

There was no inquest called as the evidence seemed plain that he either walked or was blown off the end of the bridge into the river, while on his way to visit his brother-in-law, J. W. Rice, as was his custom, even though it was in the night.

As was stated last week he was a great sufferer from neuralgia in the head, and being unable to sleep he would walk over to Mr. Rice's, and on that fearful night, when the roar of the tempest and blinding snow would have shaken the nerves of the strongest man, he no doubt started for the home of his friend and brother to seek consolation in his sufferings, and plunging into the foaming torrent met his death without a struggle.

Mr. Kirkwood claims that he himself came near being blown into the street, so strong was the wind.

Mr. Baker was 53 years of age. When a young man he learned the printer's trade and worked in Seneca Falls, N.Y., at one time having charge of that somewhat notorious paper, the "Lilley," published by Mrs. Bloomer, whose taste and style of dress were

quite masculine. He was a great lover of music, and was a member of a band and sang in a church choir for many years. He composed the words and music to "Furrows," and the "Old Fashioned Farmer," both of which pieces had quite an extensive sale and were popular. He was also a writer of considerable ability and the Harpers and other leading publishers paid him liberally for his choice bits of prose or poetry. The Enterprise has thus been often favored by rich pieces from his gifted pen.

Mr. Baker was a member of the old Washington society and was

Wins Math Scholarship

Each year the Michigan Mathematics Prize Competition (MMPC) offers high school students the opportunity to compete for math scholarships by taking a very difficult math test in October. This year 19,900 students entered the competition. Students who do well on the first part of the test are invited to take Part II of the test which is longer and even more difficult. After the tabulations from both tests are completed the MMPC offers 50 scholarships to the top finishers.

Tootsie Rolls Roll Again

The 14th annual Knights of Columbus fund drive to assist the mentally retarded will be conducted by the Father Fisher Council on March 17, 18 and 19, Grand Knight Larry Benedict announced.

Last year, the K. of C. collected 1.15 million dollars statewide, exceeding the million dollar figure for the third straight year. The goal this year is 1.25 million.

St. Louis School in Chelsea and the Milton Porter School in Tecumseh have benefitted from the local drive, which has raised over \$3,200 each of the last two years. The local Knights select directly the recipients of 80% of the proceeds and the state Council distributes the remainder.

Manchester High School is pleased to announce that Linda Hansen, a senior at Manchester has won one of these scholarships. Linda is the daughter of Lois and Robert Hansen of 11495 Parr Road. At an awards presentation at Eastern Michigan University on February 23, Linda received a \$300 scholarship to be used at the college of her choice. Linda was one of only five girls from across the state to receive a scholarship in this competition. She is also the first Manchester High School student to ever receive this award.

Dial-A-Garden

The "snowbirds", as we are called down south, are returning home, and I am also watching each day for the first robin. Purple martin scouts come to look around about this time of the year and maybe spring is nearly here. St. Patrick's Day is upon us and on Thursday, March 16, Jan will help us celebrate with corned beef and cabbage following much needed exercise at 11:00. Reserve your dinner by calling 428-8359 beforehand or 428-7630 before 9:45 a.m. on the day of the meal - all of you who are 55 or older.

Vogel To Chair Presentation

Elvira Vogel, Trustee of the Washtenaw Intermediate School District (WISD) Board of Education and Manchester resident, will chair a panel presentation on "How Boards of Education Evaluate Themselves" at the annual National School Boards Association (NSBA) conference in Anaheim, California, April 1-4.

Vogel said "the convention is a once-a-year opportunity for public school officials throughout the nation to meet face-to-face, share mutual concerns, and gain a better perspective on current local, state and national education issues. By comparing our school district with others, we can benefit from the many constructive ideas and gain invaluable insights that will help us further improve the quality of education through more informed policy."

Federal Foods

The Federal Surplus Food Distribution will be on Friday, March 24, 1989. Because of its being Good Friday, we have set an earlier time of 9:30 a.m. until 11:30 a.m. The place of distribution will be at the Manchester United Methodist Church, 501 Ann Arbor St. Please make note of the earlier time.

Foods for distribution in March will be honey, raisins, butter and flour.

er timely tip is that Easter has not fallen earlier than it does this year since March 25, 1951, nor will it again until March 23, 2002. Suppose the Easter bunny will have to don his snowmobile suit?

The following is a monthly schedule of Dial-A-Garden, the system of pre-recorded daily gardening tips sponsored by the Washtenaw County Cooperative Extension Service. The system is in operation 24 hours a day, 7 days a week. Interested persons are invited to call 971-1129 at their convenience to listen to timely, up-to-date gardening information.

Potter's Work In State Exhibition

A piece of ceramic art by Manchester potter, Bonnie Greenwald, was one of ninety-two pieces out of a field of three hundred and twenty-four selected in a state-wide competition sponsored by the Michigan Potter's Association.

Her shallow square dish, swirling with colors of coral, gray and beige, shows a unique aspect of clay with its edges torn and rough. This piece, as well as the others, were chosen by Seattle ceramicist, Robert Sperry, who traveled to Michigan especially to jury the exhibition.

The work is exhibited in "Michigan Ceramics '89", March 8-30, 1989 at the Jean Paul Slusser Gallery located in the University of Michigan School of Art, 2000 Bonisteel Boulevard, Ann Arbor. Hours for the show are Monday through Friday from 10:00 a.m. to 5:00 p.m. and Saturday and Sunday from 1:00 to 5:00 p.m.

Spring Bloodmobile

Don't forget the Spring Bloodmobile - Monday, March 20, at Emanuel Church from 12:00 - 6:00 p.m. Help us reach our goal of 120 pints. Give the Gift of Life!

Diabetes Alert Day

About 11 million Americans have diabetes, but almost half of them don't know it. Diabetes is a chronic disease whereby the body does not produce or properly use insulin, a hormone that is needed to convert sugar, starches and other food into the energy necessary for life. The resulting high blood sugar can severely damage the heart, blood vessels, kidneys, eyes, and nerves. If left untreated, diabetes can lead to death.

Tuesday, March 21, 1989 has been proclaimed by the American Diabetes Association as the second annual observance of the American Diabetes Alert. On this date Americans will be asked to "Take Charge of Their Health" by taking a simple health quiz, which is available at participating businesses and Chelsea Community Hospital. The awareness campaign is aimed at alerting Americans who may already have the disease and are unaware of it, which, alarmingly, is estimated at 200,000 persons. Test scores will help people determine if they are at a high or low risk for developing diabetes. The American Diabetes Association urges all those considered "high risk" to see their doctor annually for checkups which include: over-weight persons, a family history of diabetes and mothers who have given birth to babies over nine pounds.

Furthermore, Americans should be aware of the diabetes warning signs: unusual thirst, frequency of urination, hunger and weight loss.

American Legion Auxiliary

The American Legion Auxiliary, Unit 117, met at the Legion Home on March 8, 1989, with 19 members present. Membership Chairman, Phyllis Baker reported that our membership quota is 98; to date we have 96 paid members. Phyllis also brought to our attention that Department of Michigan has been sending second notices for 1989 dues renewal. If you have your 1989 membership card, your dues have been paid and transmitted to Department. Please disregard the second notice. It DOES NOT have to be returned. Committee reports were given. Kay DuRussell encouraged us to contact our Legislators, asking them to support bills appropriating monies for Veterans Health Care.

Plans were completed for hosting an afternoon party at the Ann Arbor V.A. Hospital on March 11th. A donation to be used toward the expense of the party was received from the newly organized Manchester group of VFW. Also, on the day of the party, we will deliver 43 pair of crocheted slippers, made by area citizens, Alma Arnet and Josephine Masano.

Della Widmayer reminded us of the Blood Bank to be held at the Emanuel Church on March 20.

Mary Smith has ordered the poppies for "Poppy Day" to be held in May. The refreshment committee for April will be Mary Smith, Della Widmayer and Ethel Weir.

Board Of Education

AGENDA Regular Meeting March 21, 1989

1. Pledge of Allegiance

A good night's sleep isn't an impossible dream.

After a full day of activities, sleep is vital. But many people of all ages suffer from sleep disorders which deny them a good night's sleep.

In some cases, sleep disorders can be signs of more serious medical problems. Sleep apnea, a serious sleep disorder, can even cause life threatening oxygen loss and heart irregularities.

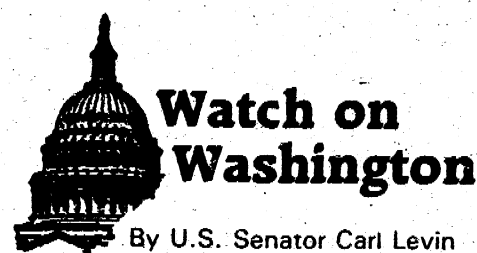

If you often have difficulty falling asleep, staying asleep, or staying awake, you are probably suffering from a sleep disorder.

The two most common symptoms of sleep disorders: Daytime sleepiness - Heavy snoring - Other symptoms of sleep disorders include: Morning headaches

Excessive use of sleeping pills Breathing irregularities during sleep Leg movements during sleep Personality changes Irritability

If you are struggling with any type of sleep disorder, contact Chelsea Sleep Disorders Program at (313) 475-3963 for more information or to schedule an evaluation.

Watch on Washington

By U.S. Senator Carl Levin

SHARING THE DEFENSE BURDEN

The world has changed dramatically since World War II ended. The United States is no longer the unchallenged economic powerhouse we were 45 years ago. On the other hand, Japan and Germany—then in ruins—are now among the most prosperous nations in the world.

But one thing hasn't changed. Back in 1945, the free world looked to the United States to defend it against the threat posed by Stalin's Soviet Union. And, today, the United States continues to bear a disproportionate percentage of the West's defense burden.

As a member of the Senate Armed Services Committee, I'm concerned that American taxpayers are paying the bill and our budget deficit is growing as our allies look to us—rather than to their own people—to bear the costs of our mutual defense. We treat some of our allies as though their economies are still ravaged by war.

Because we're carrying a large part of their defense burden, Japan, West Germany and South Korea (and other allies) are able to devote a greater proportion of their national wealth to building up their civilian industries—industries which often compete directly with ours.

Take a look at the numbers. On a per person basis, Japan spends \$200 per citizen on defense.

France spends \$626. West Germany spends \$558.

We spend \$1,151 per person... more for the defense of the Atlantic and Europe than all 15 other NATO nations combined! We spend over six percent of our Gross National Product (GNP) on defense; Japan spends one percent.

It isn't fair. We ought to insist that our allies make as much of an effort for our common defense as we do. The Administration has to stop making excuses for those allies who aren't carrying their share of the load, and start finding ways to make carefully selected and coordinated partial reductions in U.S. forces overseas.

If our allies are reluctant to push up their own defense spending, then they ought to pay more of the costs of supporting U.S. forces in places like the Philippines and the Persian Gulf. Both Japan and Western Europe get about half of their oil from the Gulf. We pay the cost—in military, economic and political terms. And they get the oil.

I believe that our allies would respond to a forceful request by our President. After all, they are aware of our growing budget deficits and claim to be alarmed by them—as they should be. A weaker U.S. means a weaker Western alliance. That's why it's time for our allies to ease the unfair load that has been placed on us and assume a fair share of the cost of the common defense.

Girl Scout Potluck

Monday evening, March 6th, the Manchester Girl Scouts and their families enjoyed a celebration potluck and program in honor of Girl Scout Week and the 77th birthday of the Girl Scouts of the U.S.A.

Special table decorations were made by the girls of each troop. For the program, each troop prepared and sang a special song or two. Manchester has 116 Girl Scouts and 31 registered adults in eight troops, led by our Troop Service Director, Lucile Bruner.

Troop 596 led in giving grace, and Pat Sahakian was the Mistress of Ceremonies for the evening. The Flag Ceremony and Girl Scout Promise were led by Troop 729.

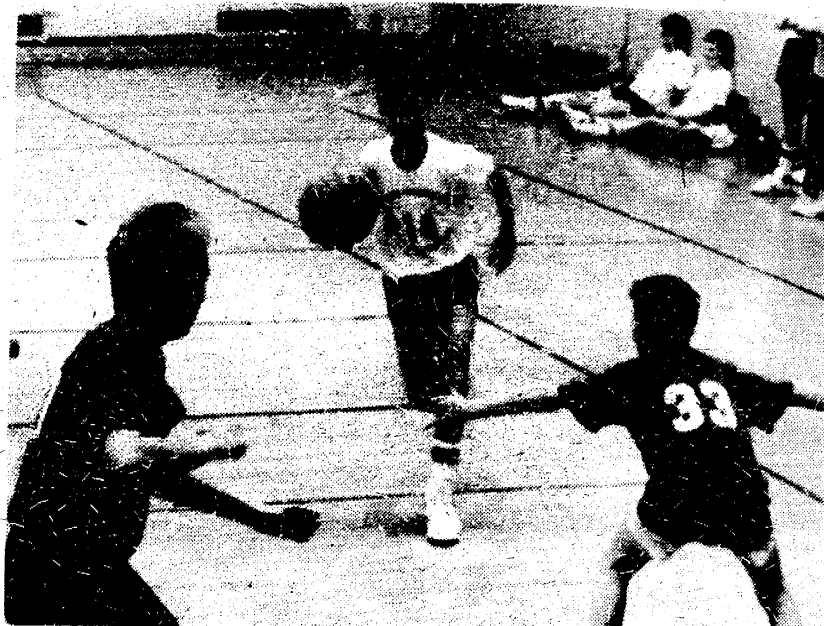

Then, after the delicious dinner, came the songs: "The Yodeler" was sung by second grade Brownie Troop 274, led by Sherry Barker and Marikay Kennedy. Third grade Brownie Troop 729, led by Debbie Branch and Mary Kallewaard, sang "This Little Froggie." First grade Brownie Troop 675, led by Sue Stafford and Barb Eversole, sang "The Bear Went Over the Mountain." Johnny Appiesee was the choice of the kindergarten Daisy Troops 587 and 729. Junior Troop 596, composed of 5th and 6th-grade girls, sang two songs: "Music Shall Live" and "Stay on the Happy Side." Sally Abbott and Monica Heinz led their first grade Brownie Troop 706 in singing "Make New Friends, But Keep the Old" and "America the Beautiful." Last, but not least, Fourth grade Junior Troop 660, led by Chris Brown and Jan Wizzgird, sang "Singing in the Rain" and "Jumbo, Jumbo."

In closing, everyone in the Legion Hall formed a huge circle around the inside of the hall, held hands and sang "Taps." This was an impressive end to a very satisfying evening.

6th Grade Basketball

Mark Kueffner eyes the basket for a shot.

Jeff Kemner starts his push through the defense toward the basket.

Hazardous Materials Collection

Area residents again this year will be able to rid their homes of unwanted and potentially hazardous household chemicals at collections scheduled throughout the year. These collections are on an appointment basis only and are sponsored by the Washtenaw County Household Hazardous Waste Coalition (HHWC). Member agencies of the Coalition include the Washtenaw County Environmental Health Bureau, Cooperative Extension Service, Department of Public Works, Drain Commission, the City of Ann Arbor's Solid Waste and Waste Water Treatment Plant, League of Women Voters, American Association of University of Women, Ecology Center of Ann Arbor, and the EPA Motor Vehicle Emissions Laboratory.

The first four collections will be held March 18, April 19, May 17 and June 21. Appointments can be made by calling Cooperative Extension Service at 971-0079.

Material such as pesticides, automotive products, caustic cleaners, oil-based paint, and paint products are typically accepted at the collections.

A recycling referral service is also available to recycle items not accepted at the collection such as used oil, latex paint, cleaning products, automotive batteries, and fertilizer. People interested in using this service are asked to contact the Environmental Health Bureau at 994-2457 or one of the HHWC member agencies.

Shakespeare Reading Club

The club has been very busy the last two Tuesdays at our meetings. On February 28 we met at Emanuel Church to enjoy Annette Van der Schalie's slides and her topic on "Amazing Zimbabwe". This meeting was postponed from February 21 due to the snow storm we had on that day.

On March 7, we went to the home of Patty Swaney to hear her well presented topic on "Mary Todd Lincoln."

There is a correction on our February 7 meeting. Sallie Anderson's topic was "Vacation is an Education", not given by Sally Marshall as it was reported. Sorry about that.

Our next meeting will be held on Tuesday, March 21. We will leave the Emanuel Church parking lot at 12:30 p.m. to go to the "Michigan Historical Museum" in Lansing. If you wish to eat at Emanuel Church's Senior Citizen Dinner at 12:00 noon, please call Lenora Parr to make your reservation. Thank you.

Dean's List

Ferris State University has named Charles P. Kripas to the Dean's list for the Winter Semester of 1989. To qualify a student must maintain a 3.50 grade point average or above on a scale of 4.0. Charles is a 1986 graduate of Manchester High School.

Notice

Change of Board Meeting

Due to a schedule conflict, the regular meeting of the Manchester Community Schools Board of Education has been changed to Tuesday, March 21, 1989 at 8:00 p.m. in the High School Library.

Discussion of Development

Janet LaBeau Shurtliff

What's the plan for future development in Manchester? Have you heard about the proposed annexation of Township property to the Village? And about this "Master Plan" for the Village: What is it? Who's drawing it up? How does it affect business? How does it affect our way of life?

Bob Daverman, Chairman of the Village of Manchester Planning Commission, is the scheduled speaker for the Manchester Area Chamber of Commerce monthly luncheon meeting, to be held next Wednesday, March 22, at 12:00 noon at the K. of C. Hall next to the Post Office. All Chamber members plus those interested in Chamber functions - or those simply interested in this topic - are invited to attend.

Please call Ann Pat Wolf at 428-8389 for luncheon reservations. If you can't make it until 12:15 - come as well, either for

late lunch or for the speaker-only portion of the program.

Bob Daverman will present his perspective of the Planning Commission's role and responsibilities in matters of annexation, the Master Plan, and other issues before Planning. By all accounts, these are changing times, and Manchester is not exempt from change! Although Planning Commission meetings are always open to the public, this luncheon presentation by Mr. Daverman will be an opportunity to hear about the "big picture" - and to ask about the details.

The Manchester Area Chamber of Commerce serves both businesses and individuals in the community by contributing in various ways to efforts to improve the general quality of life in the Manchester area. Sponsoring monthly forums for speakers is one of those ways. The opportunity to focus on and question "planning" for the Village of Manchester through the person of Chairman Bob Daverman is available to Chamber members and to the public on Wednesday, March 22, at noon at the K. of C. Hall. Welcome.

Body Found

strictly temperate in his meats and drinks, and diligent in his various callings; honest and upright, ready to do good, and had his hearing been good he would have made a valuable member of society.

The funeral services were held at the M.E. church on Sunday at 2 o'clock P.M., Rev. D.R. Shier officiating, and the remains were interred in the Gillett burying ground.

The people of Sharon were very kind to Mrs. Baker and family during the search and rendered her valuable assistance and uttered words of sympathy, for which the family are very thankful.

Joint Meeting Scheduled

There will be a joint meeting with Mike Anderson of the County Road Commission and Janis Bobrin of the County Drain Commission on March 29, 1989 at 7:00 p.m. in the basement of the Farm Bureau building at the corner of Pleasant Lake Road and Saline-Arbor Road. This will be an opportunity to personally discuss current or potential concerns.

"Birds Of Prey" Nature Program

"Predators control over population in nature and in nature every animal benefits from the other" said Matt Heumann at a recent nature program sponsored by the Washtenaw County Parks and Recreation Commission.

Matt Heumann, a Parks Naturalist from the Washtenaw County Parks and Recreation Commission visited the classrooms of all Klager students last week. He presented a slide show on "Birds of Prey: Hawks, Owls and Eagles." He shared with students what the local birds of prey are, why they

are important, what some of the birds' problems are and how they live. Students learned that some of these birds are disappearing because they are being accidentally poisoned and their habitats and nesting sites are being destroyed.

School Tornado Procedures

As tornado season approaches, the Manchester Community Schools would like to remind parents and students of the procedures which will be followed in the event of tornado danger.

The United States Weather Bureau has divided tornado signals into two classifications. The first is called a tornado WATCH. This watch is issued where a tornado may occur during the next several hours. The size of the average tornado watch area is approximately 100 miles wide and 300 miles long. The second signal is defined as a tornado WARNING. This means that a tornado has actually been sighted in the area or that its presence has been detected by radar.

If a tornado WATCH is broadcast before 1:30 p.m. all children will be sent home. If the tornado WATCH is broadcast after 1:30 p.m. the children will be dismissed at their regular time.

If a tornado WARNING is issued, students will not be dismissed from school. If the tornado WARNING remains in effect at the normal end of the school day, students will not be dismissed but will remain at their emergency stations. Parents may personally pick up their children during a tornado warning. Parents must check with school officials before removing students from school. Neighbors will not be permitted to pick up other children unless a written statement giving permission to release the students to a neighbor has been filed in the school office.

In the event of a tornado WATCH, all extra-curricular activities, meetings, and adult community education classes, scheduled within the time range of the WATCH will be cancelled. If a WATCH is announced during an activity, the activity will be cancelled immediately and students sent home.

If a tornado WARNING is issued during an extra-curricular activity, all students will be taken to the nearest appropriate shelter and retained until the WARNING has ended or released to the care of their parents or legal guardians.

Engagement Announced

A wedding date of April 15 has been chosen by Cheryl Lynn Hazen and Richard Allen Collins, both of Jackson.

Larry Hazen of Onsted and Judith Kuntz of Manchester are the parents of the bride-to-be and the prospective groom is the son of Marcellin Sawicki of Tarmarac, Fl.

She graduated from Manchester High School in 1982 and from Jackson Community College in 1985 with an associate's degree in applied arts and sciences, business management. She is now employed at Xact Products in Brooklyn.

Her fiancé graduated in 1969 from Jackson High School and is self-employed in real estate.

Chelsea Breather's Club

"The American Lung Association of Michigan: Breather's Clubs and Bike Rides" will be the topic presented to the March 18 meeting of the Chelsea Breather's Club. Speakers will be Ellen Kerans, Regional Director, Huron Valley Region of the American Lung Association of Michigan, and Shireen Merrill, Regional Program Associate. The group will meet on Saturday, March 18 from 11:00 a.m. to 1:00 p.m. in the Dining Room A of Chelsea Community Hospital, 775 S. Main St., Chelsea, Michigan.

The Breather's Club is a social and educational organization for persons with breathing problems caused by chronic lung disease, such as asthma, allergies, and emphysema. The program is free and no pre-registration is required. Family members are especially encouraged to attend.

For more information, please call the American Lung Association of Michigan at 313-995-1090.

Local History Retold

- Janet LaBeau Shurtliff

Herbert Widmayer, Esther Smith and Mahlon Smith have witnessed a total of over 270 years of history! And most of that history has taken place in Manchester.

Sit at the knee, so to speak, of these charming and eloquent people through the marvels of video technology. Listen to them describe the taste of milk fresh from the cow; encountering the original and irascible Henry Ford; moving a house down Main Street pulled by horses; plowing a field with only human and horse power; and dyeing wool for weaving.

The Manchester Area Historical Society will present its 1988 Video History on Monday, March 20, at 7:30 p.m. at the Blacksmith Shop, 324 E. Main. The video, "Manchester Remembered," produced by Bill Shurtliff, is composed of interviews - one with Herbert Widmayer and the other with Mahlon and Esther Smith.

Oral histories are interviews with people who experienced

events and times now past. Experts now generally recognize oral histories as a most valuable key to discovering and recording the quality of these events and times. Of course we non-experts knew this already from having listened to the captivating stories our parents and grandparents had to tell!

The Manchester Area Historical Society has for several years commissioned video histories of our area. These tapes had various themes and subject matter, but in each the purpose was to provide a record of our times for future generations. Oral histories extend that record back as far as the recollections of the speaker.

Last year's video tape included a delightful interview with Cora Jenter. This year the video will focus exclusively on "Manchester Remembered" through talks with three folks who have been a part of its history for a long time.

An excellent program for anyone new to Manchester, for children, for folks who want to know more about Manchester history, and for those who may have missed a story or two that their grandparents had to tell. Come to the Blacksmith Shop Monday evening, the 22nd, at 7:30 and hear described how cool the spring-fed waters of the River Raisin were for swimming there so many years ago.

THE LOW RANGER RIDES AGAIN.

GET A RANGER XLT FOR UNDER \$8700.

Right now your Greater Michigan Ford Dealers are offering incredible deals on hundreds of 1989 Ranger XLT 4x2 trucks. These Rangers come loaded with plenty of options, like power steering, stereo cassette, special XLT trim, and more.

For eight days only choose from over 400 select new Rangers in stock — all for under \$8700 when you apply \$750 cash back.* Or, if you prefer, take advantage of 4.9% financing**

So check out the Low Rangers at your Greater Michigan Ford Dealer. With deals like these, you'll be sitting on a lot more than silver.

*Based on MSRP less cash back. Tax, license, freight and other options extra. Take retail delivery from dealers stock by 5/2/89. **4.9 Annual Percentage Rate financing through Ford Credit for qualified buyers. Length of contract limited. See dealer for details.

STEELHEAD STEAL SHOW AT 50 STATE STREAMS

Due to Michigan's long-term development program of fish planting along with natural reproduction, the upcoming steelhead runs could be better than last year, AAA Michigan reports.

The quality of planting stock is outstanding and should challenge Michigan's big trout anglers, Department of Natural Resources (DNR) biologists predict.

In 1987, the DNR increased the size of fish being planted from 4-5 inches to 7-8 inches in an effort to increase the survival rate at least 40 percent.

The only factor that might cause steelhead runs to be small or sporadic is the comparatively light precipitation in the Lower Peninsula so far this winter. Snow and rain raise water levels, creating favorable spawning conditions for the frisky migrators. Lower Peninsula precipitation is much lower than last year. For example, Alpena-area snowfall was 31.1 inches through January, compared to 84 inches for a normal winter total. And Grand Rapids had only 29 inches of snow, compared to 72 over a full winter.

Upper Peninsula streams, however, had plenty of snow this season.

Michigan's best fishing is normally anticipated from mid-March to mid-April in Southwest Michi-

gan, early to mid-April in Southeast Michigan, mid-April to early May in Central Michigan and Northern Lower Michigan, and late April to mid-May in the U.P.

Anglers should note sporadic runs are already reported on the Pentwater River near Pentwater and the St. Joseph River near Benton Harbor at the Berrien Springs Dam.

Last year's runs began relatively early. During the last week of March, migrants from the big lakes were landed in good to very good numbers in West Michigan's Betsie, Platte, Pentwater, Muskegon and Grand Rivers. Northeast Michigan anglers saw steelies early in April.

Anglers should find steelies ready to strike this season in fairly heavy numbers on the 50 rivers listed in AAA Michigan's 1989 Steelhead Guide.

Anglers stream-fishing for steelhead often use salmon eggs or the roe from a captured fish as bait, tucking eggs into a piece of nylon to make a half-inch sack. The bag should bump along the bottom through deep holes usually found near rocks, stumps or submerged logs.

Artificial spawn—which smells and looks like the real thing—can also be used. Yarn balls in colorful shades are sometimes successful. Other methods include spinners, flies and plugs.

No Freeze-Out For CMA in 1989

Legislation which would have paved the way for use of a corn-based deicer, calcium magnesium acetate (CMA), as an alternative to using salt on roads was frozen out in 1988. However, early action in this year's session is giving the proposal another chance, according to Robert E. Smith, senior legislative counsel for the Michigan Farm Bureau.

Rep. William Van Regenmorter, R-Jenison, reintroduced the legislative proposal which would prohibit the use of salt on the state's roadways and highways under certain circumstances, Smith reported.

"CMA is certainly a viable alternative to using salt. Research tests have shown it to be an excellent deicer. It does not damage automobiles, and road surfaces as salt does," Smith said.

"In addition, the corn-based product does not harm the environment as salt does when it washes away into the soil and into our waterways. When you consider that salt costs motorists an estimated \$3 billion each year, the widespread use of CMA would be a money-saver for everyone."

Petition Needed To Initiate Commodity Insurance Act

Grain producers will soon have the opportunity to establish an insurance fund to protect their commodity in the event of grain dealer bankruptcy. The Commodity Insurance Act, passed last year by the Michigan Legislature provides for an assessment of one-tenth of a cent on the value of grain sold to a grain dealer. The assessment monies will be paid to eligible claimants by the fund administrator in the Michigan Department of Agriculture. Anyone who sells grain to a grain dealer is entitled to the protection; farmer to farmer sales are not protected.

"This law offers inexpensive 'insurance' for a producer's harvest of dry edible beans, soybeans, wheat, oats, barley, corn and their seeds. What businessperson would not spend 20 cents to protect \$200?" said Ron Nelson, Michigan Farm Bureau legislative counsel.

For the provision to take effect, however, a producer referendum must be called and supported by 50 percent of the state's producers representing 50 percent of the statewide production. Producers must take the first step toward securing the commodity insurance protection by petitioning the MDA to conduct the referendum. A referendum will be called when 10 percent or 2,000 commodity producers, whichever is less, present a petition to the MDA director.

Producers can take the initiative by circulating or signing a soon to be released petition which will speed the implementation of the statewide Commodity Insurance Act. The Michigan Department of Agriculture and the Michigan Farm Bureau are cooperating in the development of the petition form.

To receive a copy of the petition form as soon as it becomes available, producers should write to the Michigan Farm Bureau Commodity Activities and Research Department, P.O. Box 30960, Lansing, Michigan 48909.

Dairy News Piano Students Participate In Achievement Day

By next year farmers could be using a natural hormone that could boost milk production up to 25 percent per cow, according to Kevin Kirk, dairy specialist with Michigan Farm Bureau.

Scientists have found a way to add more bovine somatotropin, or BST, into a cow's body to improve production. BST is a protein in the pituitary gland of cattle that can now be made from genetically engineered bacteria.

"The recent controversy over use of hormones in beef cattle could make some farmers shy about using BST," Kirk says. "However, there is no risk to drinking milk produced from cows receiving BST since it is naturally in the cow's body anyway and not in the milk."

There would be little if any increase of BST in the milk, and even if there is, humans would break it down just like any other protein, he says. "Also, BST is specific to bovine animals and doesn't have any effect on other animals, including humans."

In other dairy news, Kirk says that based on a recent drop in wholesale cheese prices, the price of a gallon of milk could drop as much as 9 cents a gallon before May. "Whether or not retail milk and cheese prices respond to the drop in producer prices remains to be seen," he says. "Some processors and retailers may choose to increase their margin instead of dropping prices. That doesn't necessarily mean more profit for retailers, since increased margin may mean reducing losses on milk, which is often sold at a reduced price to draw customers into the store."

Five piano students of Mary Sue Moore took part in the Student Achievement Testing Day held at Eastern Michigan University's Alexander Music Department Building on Saturday, March 11. They were Katrina Bihlmeyer, Ceara Brown, Jenny Sahakian, Lea Taddonio and Emily Thornton.

The students were tested in performance, theory, technique, aural awareness and sight reading. They each received excellent ratings in all five areas.

A total of 299 Ann Arbor area students registered for this event which was sponsored by the Michigan Music Teachers Association. At this time of year over 2000 piano students from the entire state have participated or will participate at other testing centers.

Congratulations to Katrina, Ceara, Jenny, Lea and Emily for their achievements!

"Working"

by Jon

Thursday I went to the dress rehearsal of our first musical of the eighties. I was impressed and surprised by the general competence of the cast. The players, directors, stage crew and musicians can be justly proud of their performance.

**Notice Of Public Hearing
 Bridgewater Township
 Planning Commission**

A PUBLIC HEARING WILL BE HELD ON MONDAY, APRIL 10, 1989 at the Bridgewater Township Hall, 10990 Clinton Road, at 7:30 P.M. (A Planning Commission Meeting will follow.)

Amendments to the Bridgewater Township Zoning Ordinance of September 12, 1981 will be considered at the Public Hearing as follows:

- ADDITIONS TO THE Bridgewater Township Zoning Ordinance ARTICLE 9, Site Plan Review.
 - Preliminary review by the Subdivision and Condominium Advisory Committee (WCMPCC).
 - All developers are required to obtain all necessary State, County, and local approvals prior to recording a master deed.
- To be considered also is the adoption of the Model Subdivision Regulation Ordinance, as proposed by the Washtenaw County Metropolitan Planning Commission. (Dated Dec. 1970, and Revised 1971). (With the deletion of Paragraph 300.3, Subdivision Advisory Committee, and 301.3, Review Procedures, and the deletion under Paragraph 303.1 of the words "County Planning Commission".)

Also the addition and substitution of the 301.31 as follows:
 "If the Planning Commission determines that there is substantial conformance, it shall transmit, after tentative preliminary plat approval, eleven (11) copies to the Subdivision Condominium Advisory Committee for technical review, and information about the preliminary plat to the Superintendent of Schools of the school district in which the proposed subdivision is to be located."

Written comments may be sent to Gabriel Dull, Chair, Bridgewater Township Planning Commission, at 12650 Clinton Road, Clinton, MI 49238, prior to the Hearing.

L. Fraumann, Secretary
 Bridgewater Township Planning Commission

HOW MUCH DID YOU LOSE LAST YEAR ON NON-DEDUCTIBLE INTEREST?

UNLESS YOU ACT QUICKLY, THIS YEAR COULD BE WORSE.

As you know, Congress is steadily phasing out interest deductions on most consumer loans. An exception is a loan secured by your home.* Which makes it a great time to apply for a home equity line of credit at First of America Bank.

Put The Deduction Back In Your Interest.

The Federal tax laws allow you to use your home equity line of credit for any purpose you want. And in most cases, on loans all the way up to \$100,000, you still get to take a 100 percent tax deduction.

You also may pay a lower interest rate along with those lower taxes.

Take Advantage Of Your Tax Break.

Get your tax break with our home equity line of credit. You can use this line instead of other

loans that are no longer fully tax deductible.

You can also access your credit line simply by writing a check. And the payment schedule is flexible, too.

However, using the equity in your home is not something you should do without careful consideration. Furthermore, there are some items—like normal living expenses, for example—for which a home equity line of credit is definitely not appropriate.

So stop by your nearest First of America office, or call 1-800-544-6155 for more information. We'll provide you with a free information brochure and an application. We'll also help you determine if a home equity line of credit is right for you.

In no time, we can have your good credit working in your favor.

FIRST OF AMERICA Bank

Member FDIC. An Equal Housing Lender.

*Information is based on current federal tax laws. Consult your tax advisor regarding your personal tax situation.

Bridgewater Township Planning Commission

March 13, 1989

The meeting of the Bridgewater Township Hall was called to order at 8:00 p.m. on Monday, March 13, 1989.

Present: Gabe Dull, Chairman, Mark Iwanicki, Leonard Dayss, Louise Fraumann, Vic Mann.

Absent: Gerald Marion, Jim Fish.

Attending: 7 electors, Zoning Inspector, Sally Sheer.

The Minutes of the Public Hearing and the Planning Commission meeting of February 18, 201 1989 were read and approved as read.

It was moved and seconded to have a Public Hearing on the Model Subdivision Regulation Ordinance (WCMP/L). Moved: Vic Mann, Second: Mark Iwanicki. Vote was unan.

It was moved and seconded that the Public Hearing be held on April 10, 1989 at 7:30 p.m. at the Bridgewater Township Hall. The Planning Commission Meeting will follow the Public Hearing.

Moved: Leonard Dayss, Second: Mark Iwanicki. Vote was unan.

The Zoning Inspector, Sally Sheer, gave her report.

The Meeting was adjourned at 8:55. Moved: Fraumann, Second: Vic Mann.

Respectfully submitted,
Louise Fraumann, Secretary

Kindergartners Pre Registration

In an effort to identify all 1989-90 potential Kindergartners we need your assistance.

If you have a child, or know of a child, who will be 5 years old on OR before December 1, 1989, please contact Klager Elementary School at 428-8321 between the hours of 7:30 a.m. and 3:30 p.m.

Our Kindergarten Round-up is tentatively scheduled for the first week in May and information will be mailed to those families who have pre-registered their student.

PTO Raffle Winners

Pictured are the students that sold the winning tickets (l-r) Melody Liebeck (2nd) Mikey Meranuck (1st) and Kari Binder (3rd).

The winners of the recent place, Greg Kuhl 2nd place, and PTO-sponsored raffle at Klager Janet Binder 3rd place. Congrat-School are Phyllis Meranuck 1st ulations!

Wrestling Report

As the middle of the season approached, we stood at 4-1. Jonesville was the team we had to deal with next. They were very tough and won a hard-fought battle by the score of 38-24. Some of our top performers were Brent and Brandon Woods, Chris Carson and Matt Wheithoff.

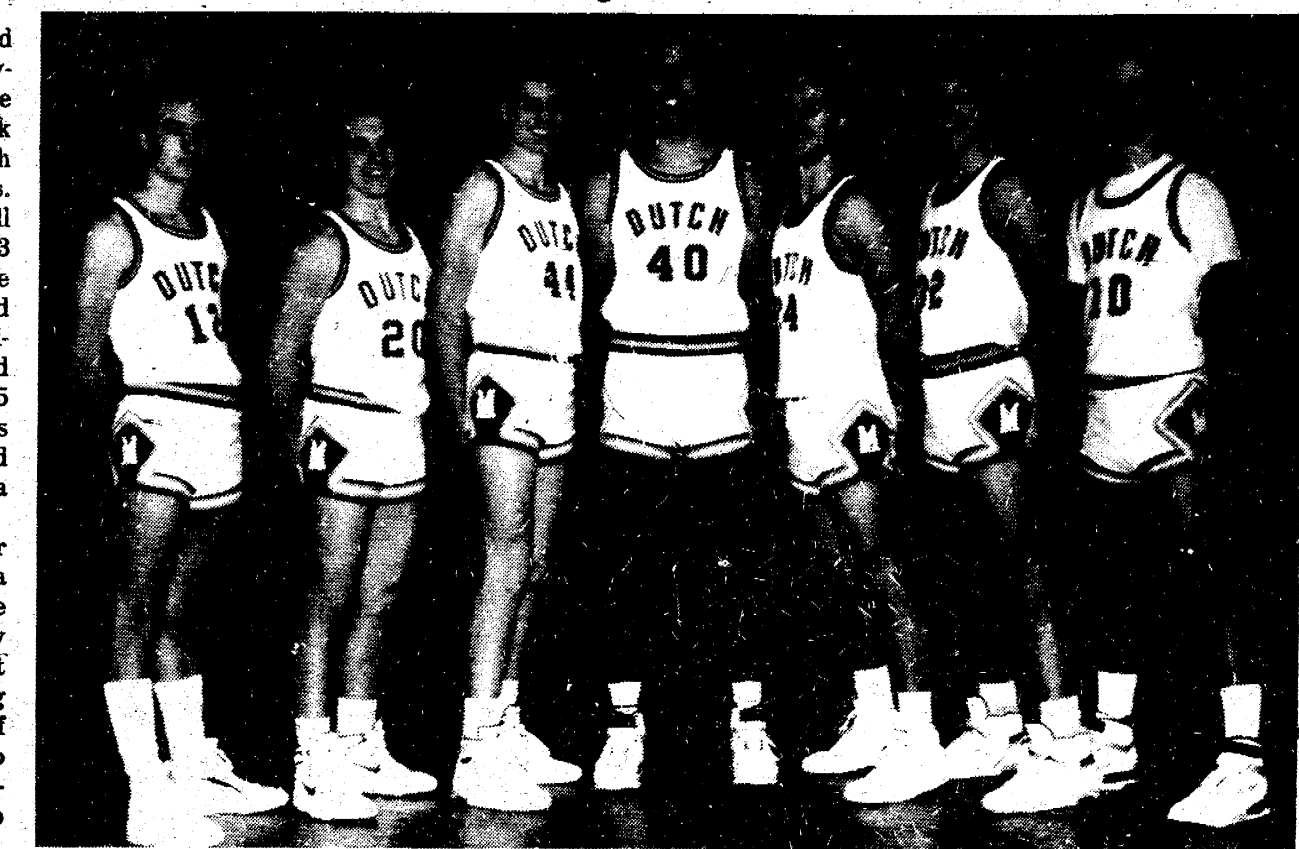

Our next trip took us to Vandercook Lake where we really wrestled well, taking another victory by the score of 54-30 with not only our lower weights but our upper weights, wrestling very well. Some top performers were Ken Lane, Jeremy Davis, Brian Schneider and Todd Meeks.

Addison was our next stop where we ran into trouble and got trounced 42-18. This was by far our worst performance of the year. Some of the kids did a good job. They were Stacey Clouse, Ken Lane and Jeremy Davis, but the kids came back and worked harder in practice trying to improve before the big tournament in Napoleon. Jackson NW came in next only bringing 7 wrestlers but they were very strong with those 7 and came away with the win by a score of 22-18. Some of the matches were very close with Brent, Chris Carson, Chris Weir, and Brad Davis all wrestling well. Our record was now at 5-3.

Tournament time was here and our kids were ready with everyone performing well. There were 14 schools there and we stuck with all of them placing 5th overall with 10 medal winners. Brent, Matt and Chris Carson all took runner-ups; Branson took 3 in a real nail-biter, winning in the last seconds; Stacey and Brad took 4ths against tough competition. In the other classes for 5 and 6 we had Steven Duvall take a 5 while a much improved Jim Suggs took a 6. Also taking 6 were Todd Meeks and Ken Lane - overall a super tournament for the kids.

The last meet of the year brought in a tough Columbia Central team who placed 3 at the tourny. Our kids were really pumped for this one. We came out and were very aggressive taking it to them winning by the score of 34-22, this bringing our record to 6-3. While the whole team wrestled well, there were some top performers: Mike Bunn, Brandon, Matt, Steven, Brad and Chris Carson all winning. Overall we had a good season with a good group of kids. It's a lot easier to enjoy it. I would like to thank David Rodriguez for his help and Jon for taking pictures.

Senior Hoopsters' Stats

Varsity Basketball Seniors 1988-89
l-r Jim Hakes, Mike Brokaw, Tim McGinn, Tom Mann, Jason Van Deven, John Korican, Brian Barnard.

We played 20 games this year and ended up with a 13 and 7 win-loss record. We outscored our opponents 1347 points to 1168, enroute to a 67-58 game point

average. The following individual statistics were compiled by Ron Mann:

Jim Hakes played 13 games and made no 3-point shots. From the field, he shot six times, making two baskets for a total of four points for the season.

Mike Brokaw saw action in one game early in the season. He scored three points and had four steals.

Tom McGinn was on the floor for all 20 games this season. He hit for 90 points total, had 30 steals, and committed 83 fouls.

Tom Mann also played 20 games, and was our top scorer with 448 points. He also led our team in defensive rebounding with 158 and offensive rebounding

with 93. Tom had 58 steals and committed 56 fouls.

Jason Van Deven saw action in 19 games and was second from 3-point land, popping 10. His total points were 152. He was also second on the team with 42 assists and 37 steals.

John Korican was sidelined for part of the season with a knee injury, therefore played in only 11 contests. He hit eight 3-point baskets and had 42 out of a hundred field goals, hitting 23 of 37 freebies for a total of 115 points.

Brian Barnard participated in 19 games this season and led in 3-point shots made with 31. He was number two in point production with 230 points. He again led the way in assists with 91.

NOTICE OF PUBLIC HEARING

on
Amendment to the Freedom Township Zoning Ordinance

The Freedom Township Planning Commission will hold a public hearing on "Site Condominium" to be included in Article 11, Supplemental District Regulation Section 11.13 and revision to section 22.02 to include "j. any condominium development." The public hearing will be held at 8:00 p.m., Monday, March 20, 1989 at the Freedom Township Hall.

Following the public hearing a discussion of the "sliding scale zoning district" will be held. The public is invited.

SCHOOL BOARD ELECTION
The annual school election for the purpose of electing School Board members will be held on June 12, 1989.
Two positions will be available on the Board of Education: One four year term expiring June 1993, and a one year term ending June 1990 to fill a vacancy. Board member Gary Davis is completing the last year of his term. The vacancy is due to the resignation of William Kemner.
Nominating petitions for these Board of Education positions may be obtained from the Manchester Community Schools, Central Administration Office at 710 East Main Street.
Completed petitions are due no later than Monday, April 10, 1989 at 4:00 p.m.

Food Prices Increase In January

Consumer food prices increased 4% in January over the previous month, according to a retail food price survey conducted by the American Farm Bureau Federation in 22 states, including Michigan. The Farm Bureau report was based on a survey of 16 frequently-purchased food items. Michigan Farm Bureau economist Bob Craig said the average market basket price totaled \$28.36 in January, compared with \$27.22 in December, and a high of \$28.37 in September. "The jump in prices came largely as a result of smaller supplies of fresh produce and higher prices for meats, dairy products and eggs. Consumer prices for processed foods such as cereals, mayonnaise and breads, which jumped the most following last summer's drought, remained relatively changed," Craig said. Foods going up in price in January included ground chuck, sirloin tip roast, pork chops, bacon, eggs, milk, cheese, apples, potatoes, and flour. Chicken, bread, and cooking oil prices dropped modestly compared with the previous month. "We're beginning to see some of the longer term effects of the drought in the form of smaller meat supplies. Furthermore, drought conditions persist in some areas of the country, particularly the midwest, which could influence food prices in the months ahead," Craig said. The Farm Bureau economist said food prices make up only about 20% of the consumer price index for inflation. "While certainly food is important, one needs to remember that housing, transportation, and a number of other areas also make up that overall consumer price index," he said. Craig said the food price increase reflects not only the impact of last year's drought, but also increases in other costs associated with getting food from the farm into the grocery store.

There are higher costs, not only as far as transportation goes, but also labor costs are starting to inch up and that had an effect on these consumer food prices, too. Part of the increase, no question about it, is due to the drought, but it is also due to other factors that all show up at the supermarket checkout counter," he said.

Craig said that while U.S. farm programs are largely supported through government payments, the subsidies in Japan and the European Community are paid largely through higher consumer prices. "Budget constraints in the U.S. make reduced farm expenditures a high priority, but debates on farm subsidies in the European Community and Japan are less focused," he said. "Direct consumer subsidies in the form of higher food prices are a much more subtle method of supporting farm subsidies. "Nearly 90% of EC's farm subsidies are the result of higher prices paid by consumers. Similarly, higher food prices in Japan account for over 70% of that country's farm subsidies. In contrast, direct consumer support of subsidies in the U.S., Canada and Australia represents approximately 30% of the total farm subsidies. In Japan, tariffs and restrictions on imports keeps the price of products such as beef and rice higher to the consumer. In Europe, consumers pay higher prices for wheat products and oil-based products. In addition, higher prices for animal feeds result in higher prices for red meats, milk and poultry products," he said. Craig said that during the period of 1982-86, the average annual cost of all subsidies in the EC totaled \$50 billion, while subsidies costs in Japan amounted to \$36 billion annually. During the same period, all forms of subsidies in the U.S. averaged \$34 billion. U.S. farm subsidies costs have fallen since 1986 by approximately \$14 billion.

Variance In Farm Subsidies

The way in which countries subsidize their farm commodities varies widely and those differences are reflected in the current round of world trade talks, according to Michigan Farm Bureau agricultural economist Robert Craig.

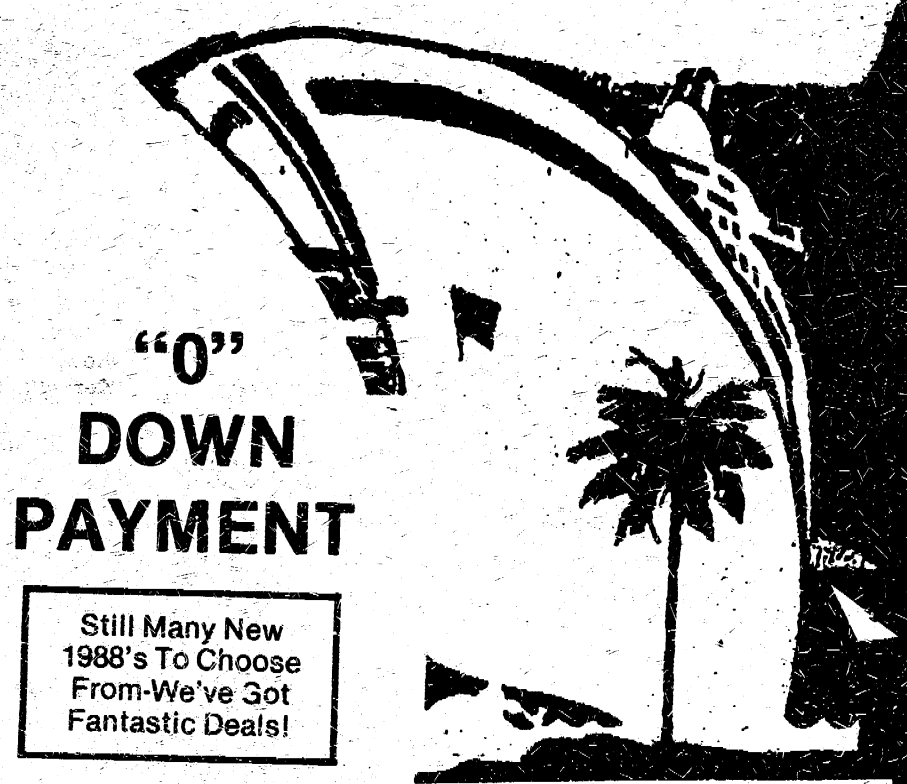

"Budget constraints in the U.S. make reduced farm expenditures a high priority, but debates on farm subsidies in the European Community and Japan are less focused," he said. "Direct consumer subsidies in the form of higher food prices are a much more subtle method of supporting farm subsidies. "Nearly 90% of EC's farm subsidies are the result of higher prices paid by consumers. Similarly, higher food prices in Japan account for over 70% of that country's farm subsidies. In contrast, direct consumer support of subsidies in the U.S., Canada and Australia represents approximately 30% of the total farm subsidies. In Japan, tariffs and restrictions on imports keeps the price of products such as beef and rice higher to the consumer. In Europe, consumers pay higher prices for wheat products and oil-based products. In addition, higher prices for animal feeds result in higher prices for red meats, milk and poultry products," he said. Craig said that during the period of 1982-86, the average annual cost of all subsidies in the EC totaled \$50 billion, while subsidies costs in Japan amounted to \$36 billion annually. During the same period, all forms of subsidies in the U.S. averaged \$34 billion. U.S. farm subsidies costs have fallen since 1986 by approximately \$14 billion.

TAX TALES YOU WON'T BELIEVE

Guess which deduction the federal Tax Court has allowed: fees paid to an Indian medicine man or the meal costs incurred at a local hospital by two doctors who owned a professional corporation? If you guessed the doctors' dinner expenses, you may know less about taxes than you think. Tax law can be quite surprising — as demonstrated by this April Fools' collection of true tax tales gathered by the Michigan Association of CPAs.

What a Difference a Comma Makes

If you ever thought a misplaced comma was unimportant, this story may change your mind. Alice received a refund check for \$49,000 rather than \$4,900 due to a mistake made by an IRS computer. Alice notified the IRS of the error several times, but was told that the money was hers. Over two years later, the IRS realized that it had blundered and tried to collect the inflated refund. However, the deadline for correcting mistakes on refund checks had elapsed, making it impossible for the IRS to get the money back. Alice kept the \$49,000.

At the age of 40, a high school teacher decided to seriously pursue his dream of becoming a professional golfer. Not only did he take on an after-work job as an unpaid assistant to the pro at a local golf course, but he also practiced almost every day. Over three years, he reported \$3,000 in tournament winnings and \$21,000 in expenses. The IRS disallowed the losses, arguing that golf was just the taxpayer's hobby. But the Tax Court disagreed. Since the aspiring golfer clearly intended to make a profit, the Court deemed the losses legitimate.

Another Side to Medical Deductions

A homeowner who was severely allergic to mold sneezed her

way to an unusual deduction. The siding on her house had grown moldy, aggravating her allergies to an unbearable level. Her doctor recommended that she change her siding to alleviate her condition. The ruling? The cost of the siding (minus any increase in the home's value attributable to the new siding) was deductible as a medical expense.

In the Dog House

A woman set a stack of bills in front of her certified public accountant. "These are my kennel bills," she explained. Since the woman had to put her dog in a kennel whenever she traveled on business, she intended to deduct the bills as unreimbursed business expenses. "I wouldn't have the kennel expenses if I didn't have to travel for my job," she reasoned. "Sorry," explained her CPA. According to tax law, she wouldn't have the expenses if she didn't have the dog. The kennel bills would not be deductible as a business expense.

A Cheating Spouse

For a number of years, Ralph hid money from his wife in various bank accounts. As a consequence, he underpaid his taxes during that time. When the IRS discovered the hidden accounts, it accused Ralph of tax fraud. But the Tax Court interpreted events differently. According to the Court, Ralph intended to hide the money from his wife and not the IRS. Since the IRS couldn't prove that tax evasion was Ralph's primary motivation, the Court held that the IRS couldn't collect the tax for those years for which the statute of limitations had run out.

A Costly Boast

A drug dealer's boast resulted in a hefty tax bill. In a conversation with undercover IRS agents, the drug dealer bragged about the amount of money he earned as a result of his activities. Although

the IRS found only \$870,000 in the dealer's possession, it hit him with a \$84 million tax bill based on the information he gave the undercover agents. In Tax Court, the multi-million dollar tax bill was upheld.

Diving For a Deduction

A staggered work schedule enabled Randy to earn additional income as a rescue diver and as an instructor of searching for underwater treasurers. After three of his students found their fortunes in sunken shipwrecks, Randy decided it was time to do a little treasure hunting on his own. He bought a specially-equipped boat and began searching for sunken treasure. Although he located a

few shipwrecks and recovered several artifacts, he findings were essentially worthless. However, the costs incurred during his treasure hunting dives came to \$11,851.

When Randy deducted his losses, the IRS objected since his activities had not resulted in a profit. But the Tax Court argued that Randy's treasure hunting was not just a recreational activity. Randy had conducted his activities in a business-like manner and had proof that successful discoveries could result in millions. The end result: Randy was entitled to a small fortune in tax deductions.

The Case of the Missing "John Hancock"

If you think that forgetting to sign your tax return is just a small mistake, you should talk to

Gloria. The IRS treated her unsigned return as if it had never been filed. As a result, Gloria had to pay penalties for failure to file a timely return.

If you want to make sure that you don't get caught by some unpleasant tax law surprise, the Michigan Association of CPAs suggests that you consult with a tax-expert before filing your return.

Oratorical Contest Winners

Pictured with oratorical contest chairman Rod Morrison are this year's winners John Butler & Michelle Mann. More pictures are on page 3.

Michelle Mann and John Butler have won their division of the Optimist International Oratorical contest sponsored by the Optimist Club of Manchester. The club contest was held on Monday evening, March 13th, with ten young people participating.

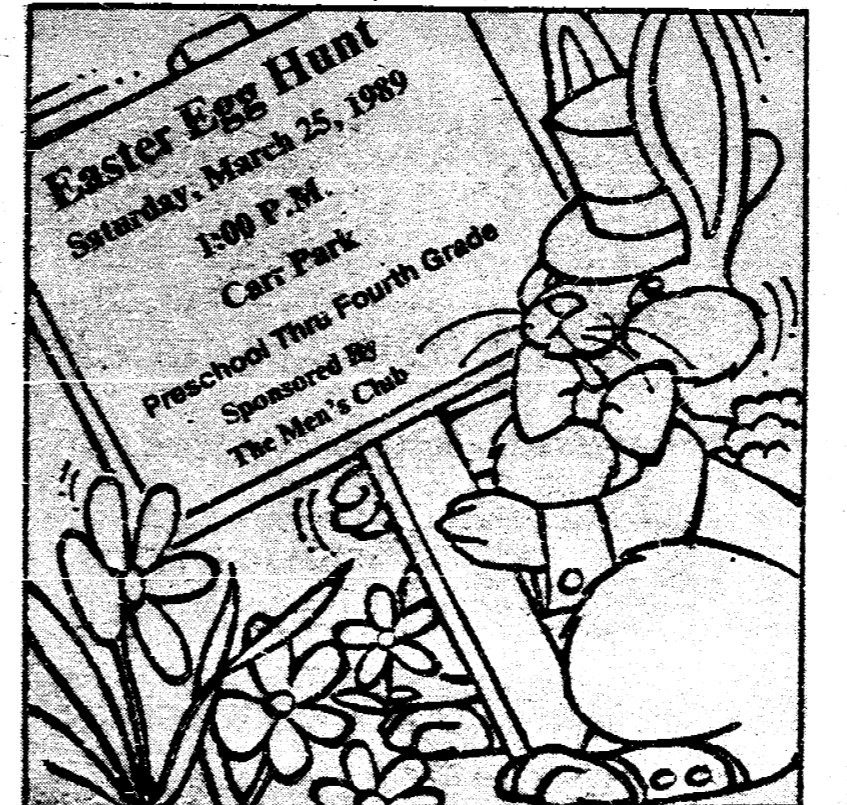

Each winner will now progress to the zone competition on the campus of Eastern Michigan University in Ypsilanti on Saturday, April 15th. Winners from the zone competition advance to the District Finals where winners receive a \$1500 scholarship. Both Michelle and John delivered outstanding orations on the subject "Challenge the Summit". Michelle is the daughter of Ron and Judy Mann of Manchester and John is the grandson of Barbara Waters also of Manchester.

Second place and runner-up medallions were won by Kathy Nusbisch (2nd) and Emily Gordon (runner up) in the girls' division and by Kurtiss McDonald (2nd) and Daniel Bihlmeyer (runner up) in the boys' division. All participants received certificates and the top three winners in each division were awarded medallions with neck ribbons. Also participating were Meghan Hakes, Carla Campbell, Maggie Eviltzer and Jennifer Williams.

"All of the contestants should be proud of their efforts," said contest chairman Rod Morrison. "It takes a great deal of preparation and energy to not only write it, but to practice and deliver the oration." Morrison encourages each student to continue their interest in public speaking.

On behalf of the club, Mr. Morrison expresses thanks to several people: Dan Boutell, Bill Kwolek and Ted Tapping for being run-off judges; and Mrs. Dacia Daniels for promoting the contest and providing technical assistance. Special commendations go to the contest judges: Mr. Alan Burg, Mrs. Anne Gordon and Ms. Geraldine Powell.

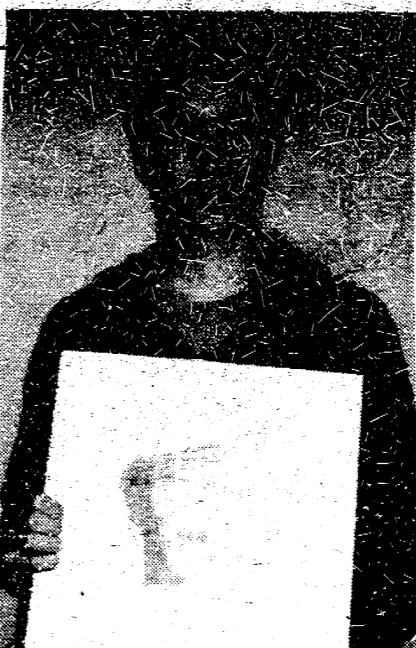

This is the 22nd year the Optimist Club has sponsored the oratorical contest in Manchester. A total of \$150,000.00 in scholarship prize money is awarded annually to oratorical contest winners by Optimist International.

Good Friday SERVICES

Manchester Area Churches Union Good Friday Service will take place at Bethel United Church of Christ, at 1:30 p.m. Rev. Mr. Paul Kuntzman, pastor of Emanuel United Church of Christ will preach the sermon titled "T.G.L.F.?" Reverends Alsgaard, Carruth, Doty and Reineck will also participate in the service. The Bethel Church Senior Choir will sing an anthem titled "Within the Shadow of the Cross." The public is invited to come and worship this Good Friday. Bethel Church is located on the corner of Schneider and Bethel Church Road.

Hakes Wins Art Scholarship

Selected art works by Wash-tenaw County High School students were on display at the Ann Arbor Art Association Gallery through February 27th. Student works were juried by local artist B. J. Bennet, based on originality, composition and technique.

Manchester senior, Jim Hakes, became the first Manchester High School student to be awarded a scholarship for his outstanding work at this prestigious event. Other winners were Laressa Sims and Rachel Charson of Community High School.

A total of 222 entries were submitted and 91 of these pieces were selected from 9 area schools for display in this annual event. Besides Jim, fellow Manchester senior, Jeremy Lenski, was honored by having his work on display. Jeremy is the son of Robert and Roberta Lenski of Manchester, and plans on making a career in art.

Jim will use his scholarship toward a degree in architecture as he has a strong interest in this area. He has drawn and painted many local buildings and homes. Jim is the son of Daniel and Kathleen Hakes of Manchester.

FROTH

Manchester Enterprise January 17, 1989
Written by Webster Martin
Manchester High School

Froth may be defined as the bubbles caused in fluids or liquors by fermentation or agitation; the froth of liquors is caused by fermentation and that of milk by agitation. The foam of the wave is nothing more than froth caused by the waters being disturbed. We may also define froth as an empty, senseless show of wit or eloquence, or as light unsubstantial matter. There is scarcely a day passes in which we do not encounter more or less froth; it is as abundant as anything with which we have to deal.

All humanity must belong to one of four classes: First, those who are all froth; second, those who appear well, but need very little stirring up to bring the froth to the surface; third, those who appear frothy, but contain real good beneath the surface; and fourth, those who do not deal in the article at all. There is but one way in which the first kind of a person can appear frothy, and all ways are embodied in that one. But there are many ways in which the second and third classes may appear so.

A good example of the second class is the uneducated person who has made a considerable fortune and has everything that money can buy. If a community uses him well, which they are sure to do as long as he is rich, he

is apt to feel a little better than any one else and at times appears extremely ignorant to the amusement of a good many.

The third class consists of those who made fun of Mr. and Mrs. Shoddy; as they call them; for they used Mr. and Mrs. Shoddy well when they met and then made fun of them in their absence; of course it was done thoughtlessly, for they have a very kindly feeling towards Mr. and Mrs. Shoddy.

Take the dude, with his high-heeled shoes, coat and pants of the latest style, eyeglasses, hair parted in the middle, and a cane to twirl in his fingers; and turn him about, survey him from head to foot, allow him to pass down the street under your scrutinizing gaze, and you will find him to be an exquisite portrait of froth. He can tell the names of all the latest dime novels, but for the life of him he cannot think of who Talmadge is; he don't remember seeing his name in connection with his literature.

Then the girl who knows the best kind of powder to use, the latest style of wrap and hat, and can afford to chew gum 16 hours out of a 24 hour day, may serve as another example of froth; the very evidence that her jaws are always wabbling will convict her.

Do the political parties contain any froth? It is all froth when they talk of the abilities and rare qualifications of their nominees. What does the party care for that

Early Morning Fire

An early morning fire caused extensive damage to the Van Dop residence at 515 Furnace Street on Saturday.

Responding to the 4:45 a.m. alarm, the firemen were on the scene in less than ten minutes. At that time the garage was fully

involved and the blaze, helped by a strong northeast wind, spread to the back area of the home.

The nine-year old daughter is credited with waking the family who then escaped to the neighbors.

The cause of the fire is still under investigation.

Here's the pitch: Your local Auto-Owners independent agent will always go to bat for you.
