Manchester United Way Campaign Is Underway

The Manchester United Way Board of Directors is pleased to announce the 1991 campaign is officially underway and will run the entire month of October.

The slogan for this year's campaign is "Open your heart today, and give the United Way".

Dr. Bradley Taylor is this year's campaign chairperson. He has been a member of the Manchester community professionally for three years and has resided here with his wife and three children for the past two years. Dr. Taylor's participation in the campaign stems from his belief that individuals should give back to the community that which the community has given to them. United Way is the perfect example of that philosophy.

The Manchester United Way contributions are used directly in the Manchester community. The donations fund programs that provide services that are available to the entire Manchester community. For this reason it is so important for those of you who donate to the United Way through your employees to designate that your contribution be sent directly to the Manchester United Way.

This year's campaign goal is \$60,000. Those funds will be distributed to the following agencies: Manchester Township Library, Manchester Area Recreation, Manchester Family Service, Manchester Area Senior Citizens Council, Manchester Cooperative Pre-school, Community Resource Center, Interfaith Counseling Service, American Red Cross, Catholic Social Services of Washtenaw County, Child & Family Services of Washtenaw County, Cystic Fibrosis Foundation, Hospice of Washtenaw, Inc., Huron Valley Child Guidance Clinic, Huron Valley Girl Scout Council, The Salvation Army, United Way of Michigan and the Wolverine Council Boy Scouts.

As you can see from this list, the agencies represented include programs which provide services to everyone in our community from the small children to the senior citizens, and all those in between.

Fire Destroys Black Sheep Tavern

Photo by Alice Rossette

On Sunday, September 29, fire raged upward through the Black Sheep Tavern and burst through the roof. Five fire departments worked to control the fire that threatened to consume five buildings on Main Street.

Present were Manchester Township Fire Department with

tower trucks from Chelsea and Pittsfield Township, also backed up by Sand Lake and Saline who provided air support for the life support systems. Together, they fought the blaze to a stand still within one hour.

Chris Hoover, building owner

and chef, said he had just finished broiling steaks for some customers and when he turned the fires off he noticed some flames reach up into the fan of the hood over the broiler. A fire started immediately in the vent system. Three extinguishers were used to try and put out the

Please see FIRE on page 9.

Police warn citizens to be on guard

Two Hispanic males involved in the fraud and larceny of area citizens are being sought by local police.

These men attempt to convince usually an older person or someone easily confused that there is an urgent need to have repairs done on their house or property.

The older male, between 40 and 50 years of age, is described as a heavy set, dark complexioned Hispanic with a round face, wearing an old white dress shirt. He will explain that he has just done work on another local person's house, and give either someone's name or a nearby road

in the attempt to appear legitimate. He claims he needs money to feed his son, who is about 14 years old. If he is questioned further, as in one of the cases reported, the man will become annoyed and leave abruptly.

In the other case reported to Sgt. Werner that happened on September 16, the woman allowed the man to do the work on her house for a \$15 fee. When he was finished he went into the house with the woman and his son. After observing where she keeps her money the young boy distracted the woman by asking for a glass of water. When the woman went to get the water it is believed the

older man went to the spot where she keeps her money and took the remaining amount. She didn't discover the money was missing until a few days later.

The vehicle they travel in is a full size, new pickup truck, described as an odd creamy colored dark blue with Michigan license plates.

If you have been a victim or have any information, please contact Sgt. Werner at 971-9036, the information tip-line, 973-7711, or you can call 911. It is recommended that citizens call as soon as these people show up on your property.

Comerica Clock Chimes and Charms Once Again

Many will remember that Rollie Grossman used to maintain this clock until his death in November 1989. In fact, Rollie used to do a lot for the Manchester community, but he is best remembered by Gerrie Davis, senior retail sales representative in the Jackson region for Comerica, as the person who took it upon himself to take care of a small piece of Manchester and who taught her how to do the same.

But when the clock decided not to chime another note, who knows how long ago, a search revealed that this particular clock wasn't so easy to repair. At last, on September 25, an electrician from Detroit and a certified master watch maker and clock maker from Minnesota, were seen by all, on Main Street, making it so the music could be heard again. From 7 a.m. until 7 p.m., on the quarter hour, the beautiful chimes charm our community once again.

A quick fact: Did you know the Comerica clock used to be across the street when People's Saving Bank was located where Sutton Agency is now. The clock is actually brass, but was painted when the building was remodeled in the mid-60's.

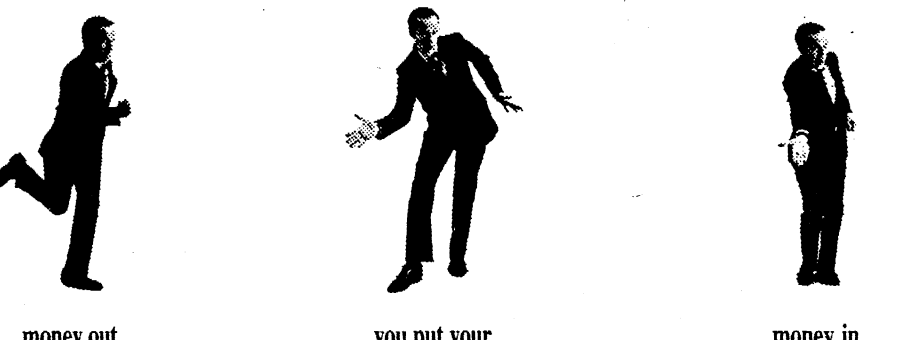

Pictured above is Tom Darish of Industrial Electric Company of Detroit Inc., on a scaffold after removing the inside of the Comerica clock.

THE OPTIONS CD. It's NOT THE SAME OLD SONG AND DANCE.

"You put your money in, you take your

money out, you put your money in

and you shake it all about..."

Our new 3-Month Options CD lets you put your money in and take your money out anytime. You can make as many additions to a 3-Month Options CD as you like. And if you run into unforeseen expenses or want to transfer money to another investment, you can make one withdrawal of any amount. You can even close out your CD altogether - without penalty. Our impressive

interest rate and low minimum deposit of \$100 are something to dance about, too.

3 Month CD 5.46% 5.35%

With an Options CD, you can waltz right in and change it anytime. And that's what it's all about.

Rates are fixed for the 3-month term but are subject to change. Effective annual yield assumes funds remain on deposit for one year at the same interest rate. Interest paid at maturity. Member FDIC. Call 1-800-544-4703 or in Manchester 428-8379 Ann Arbor 769-8300

Senior Citizens News

— T. V. Ludwick

October is here which means we are finally getting settled into fall. Guess what? The hummers are still around, so saith several of our senior members. Ann Fowler, bless her, stated she had perused approximately 29 pages of script searching for a clue to our small friends riding on the backs of larger birds and could find nothing to substantiate my claim. Then, husband read that they fly the 500 miles across the Gulf of Mexico to their winter home and I am wondering if at least feeble-mindedness has overtaken this particular senior citizen (will keep looking, you do, too). But isn't this a great topic for cussing and discussing? I tire of politics, religious differences and even social issues when they get nowhere. At least this subject FLIES.

Let's fly down to Emanuel dining room on Thursday at noon for the October Birthday Bash, featuring ham. No green eggs to go along with it, goodbye Dr. Seuss. All the big kids and small ones will miss you.

Friday, October 4: Senior bus leaves the Center at 9:00 a.m. for Saline Hospital for VIP flu shots.

Tuesday, October 8: Work begins at 10:45 on the november-December Trumpeter calendar of activities. Then, at noon, meat loaf will be served for the lunch for those 55 years or more. At 12:30, adjourn to the Center for helping on the current project, or just come and observe. You are most welcome. 5:30 is pickup time for the trip to Tecumseh for the monthly travelogue. Call Erma Alber at 428-8707 for your reservation.

Thursday, October 10: Turkey Strata is featured on the noon lunch menu, Jan surely has fancy names for fine food. We love turkey and it loves us, we don't think of cholesterol while eating it. Come to the Center for bingo afterwards.

Looking ahead: Rubena asks we announce that flu shots will be given at Emanuel Church in the dining room on November 7 from 9-12 noon. There has been questions asked about the date, place and time. Fee is \$5.

Come see what's new at Ricket's, besides his location! You'll no longer find Kim Ricket of Ricket's T.V. and VCR repair at 146 E. Main, as of September 23rd, his business is located at 114 Adrian Street. By expanding his office he is able to expand his services, too.

Now Kim handles the sales and services for Zenith Franchise as well as custom ordering Zenith products in which he will "cut you a deal." He can also handle Nintendo repairs, and soon he will offer Nintendo video rentals. Kim has a policy that he doesn't charge for housecalls or if he is unable to repair the appliance.

Come in for free coffee and check out his specials. His hours are Monday through Friday, 10-6, and Saturday 11-5. The phone number is 428-9028.

HOW MUCH DID YOU LOSE LAST YEAR ON NON-DEDUCTIBLE INTEREST?

Smart Money Managers Put Their Home Equity To Work.

As you know, Congress has phased out interest deductions on most consumer loans. An exception is a loan secured by your home. Which makes it a great time to apply for a home equity line of credit at First of America Bank.

A Special No Fee Offer.
When you sign up for a home equity line by December 31, 1991, we'll waive all out-of-pocket expenses — no application fee, no processing fee, no appraisal fee, no annual fee.

Put The Deduction Back In Your Interest.
The Federal tax laws allow you to use your home equity line of credit for any purpose you want. And in most cases, on loans all the way up to \$100,000, you may get to take a tax deduction.*

Take Advantage Of Your Tax Break.
Get your tax break with our home equity line of credit. You may use this line instead of other loans that are no longer fully tax deductible.

You can also access your credit line simply by writing a check. And the payment schedule is flexible, too.

However, using the equity in your home is not something you should do without careful consideration. Furthermore, there are some items—like normal living expenses, for example—for which a home equity line of credit is definitely not appropriate.

So stop by your nearest First of America Bank-Ann Arbor office, or call 995-7777 for more information. We'll provide you with a free information brochure and an application. We'll also help you determine if a home equity line of credit is right for you.

In no time, we can have your good credit working in your favor.

ONE OF THE MIDWEST'S BIGGEST BANKS, BUT ONLY WHEN YOU WANT US TO BE. **FIRST OF AMERICA**

*Information is based on current federal tax laws. Consult your tax advisor regarding your interest deductibility. The current APR of 10.5% is a variable rate subject to change quarterly. The maximum APR is 18%. Property insurance required. Equal Housing Lender.

The MANCHESTER ENTERPRISE

Second Front Page: Winging It Over Manchester — R. Zang

Never assume that a community the size of Manchester lacks for interesting people or fails to offer a variety of experiences for you to enjoy. Could be we have our own sense of magic, perhaps we just attract the sort that makes for the many slices of American pie. Now I don't wish to sound too audacious, but Manchester also can claim ownership of the skies, thanks to one individual who has a love of flying and wishes to pass it on to you too.

Some of you may have heard of this man who goes by the name of Terry Harris. I knew of him, and heard good things about what he does regarding teaching. What he teaches involves flying airplanes, the kind you see taking off from Rossetie airport. Now understand that someone of my humble persuasion looks for a story that you can learn something from, no strings attached, but I won't deny that in the back of my mind I hoped Terry would get me up in a plane too. What I didn't expect was having the operation of his little two-seater turned over to me 3,000 feet up over the Chrysler Proving Grounds. But let's not get ahead of things.

Let's say you've thought about taking flying lessons but didn't know what level of commitment you'd need to make or how much it'd cost. I'd say the first thing to do would be to determine if you finish what you start. Secondly, I'd hunt around for a good instructor who could help you succeed. Terry Harris resolves the second issue, the first is up to you.

You can start your lessons anytime you wish. However, expect to put in 50-72 hours of flight time, and additional hours reading about the business of flying an air-

plane. Terry uses a text by William Kershner called *The Student Pilot's Flight Manual*. You'll need to read all of it and talk about it with your instructor. The sections of this book relate to what you do in the air, so it's a matter of reading, discussing, and then applying.

Another book you'll use goes by the name of *Private Pilot Practical Test Standards* which the FAA puts out. When finished with your book learning and flight training you'll have to take an oral exam that takes two hours, and then go up in the air and perform the activities that demonstrate your proficiency.

The good news is that the book part comes pretty easy to most people. And if you do learn to fly, you'll belong to the 98% who pass the exam on the first try. The bad news is that only about 50% who start flight lessons actually follow through on their resolve.

Terry focuses on the commitment you need to make to succeed. If you take a weekly lesson, and remain consistent, you could get your pilot's license in about nine months. If you go gonzo and up lessons to twice weekly, you could have your "ticket" in your back pocket in six months. If you find excuses not to show up (weather too cold, a good movie on the VCR, mahjong with the neighbors) plan on having had some good experiences but not much else.

For everyone who takes lessons, requirements dictate the process. You must fly a minimum of 40 hours, 20 of which includes the presence of your instructor, the rest in a solo capacity. With your instructor, you must fly three hours cross country, each flight a minimum of 50 nautical miles, three

hours of night flying to include ten take-offs and landings, and three hours spent preparing for your flight test. As a solo flier, you must spend ten hours in airplanes (glider flying qualifies for other flight time), ten hours flying cross country, each flight a minimum of 50 nautical miles, and a solo flight over 300 miles in length, and make three solo take-offs and landings at an airport with a control tower.

All flight time gets recorded in a flight log. This log verifies your efforts and keeps you "current" as to your status as a pilot. I looked at Terry's log book. It had a number of entries, each neatly recorded. He also kept the log books of his students in a file.

Why would you want to put in more than the required hours of instruction? Common sense would say that over the course of a year, you'd experience the range of weather conditions and confront the variety of mechanical glitches a plane might present you. I'd want to find out about these things before confidently assuming responsibility for carrying aloft my own precious body or those of my companions. Michigan weather offers a variety of challenges, too. Terry bluntly states that not all pilots can handle certain weather factors (wind primarily), and not all planes should be aloft. His own small Aeronca Champ can't handle strong westerly crosswinds on take-off like a Cessna 150 might. Only experience could help you decide that.

So decide if it's worth the time you'd spend reading and discussing; learning about reading a flight map, charting a course, learning the mechanics of a small plane and how to determine its air worthiness, knowing the regulations presented

by the FAA, knowing flight procedures, and understanding controlled flight space. Knowing that you'll spend 50-55 hours or more with Terry up in a plane at \$20 a crack, the thickness of your wallet also becomes a factor.

Now the business of "flying" comes to mind in deciding whether you'd make the grade or not, so let me give you some first hand feedback, all because of Terry's belief in "learning by doing".

His little Aeronca Champ has two seats, one in front of the other, each with a joy stick and each with left and right foot pedals for ruddering. After a quick check of his equipment, he sends me to the back where I buckle into a reasonably comfortable bucket seat. Plexiglass windows frame the front and sides of this plane, the interior not much wider than a shower stall. Remember, lightweight, hollow construction, built to glide like a bird.

A roar of the motor, loud enough to distract, but not to annoy, moves us down the runway at Rossetie's place. Within seconds, Terry has the plane aloft, heading towards Manchester. As we climb, Terry mentions that small planes must remain at least 500 feet high, and usually travel at an elevation of 3,000 feet. As we climb I feel the characteristic bumps and lifts that accompany any ride on a plane; however, these seem a little more pronounced and regular. Considering the calmness of ground conditions, my guide explains that solar updrafts from the patchwork of fields creates its own roller coaster effect. My pilot seems relaxed and nonchalant, so I pretend to relax too, actually feeling safer in this little craft than in a speeding Boeing

737, five miles up. Our speed hovers around 80 mph, and the view below reveals wonders. More lakes and ponds than you can imagine, houses and fields in geometric array, a king's view of his kingdom, a hawk's vision of food below. Detroit to the east. Toledo south, Lansing northwest, all from 3,000 feet above Manchester.

Over Chrysler's Proving Grounds Terry gives me the controls, confidently explaining the use of joy stick and foot pedals (Air Rookie 101, in 15 seconds). I notice the feather lightness of the foot pedals, and sense how joy stick and pedals work together to sweeten the turn left or right. I hope to bank right, but drift left. Meanwhile, the air currents lift and push us in ways a ghost would tease a beachball, not exactly the feeling you'd want when trying this for the first time. Respect. I understand 50-70 hours of flight time and admire Terry for what he does and his patience as teacher.

He takes over the controls, and we enter a spiraling gliding turn descent, a great feeling. He doesn't perform unusual tricks, although I sense he could have some fun with me. We head back to Rossetie; I actually feel relaxed enough to stay aloft awhile and explore. When we approach the runway, we slow to a mere 40 mph, and gentle down towards the earth.

I can't feel the bump of the wheels on the ground, although a new pilot would do so often enough, not harming much of anything except pride.

We taxi back to Terry's small

Editorial / Opinion

OUT AND ABOUT

—by gar

We have around us people that accomplish jobs, or do considerable things that improve our lives either in fact or psychologically. Two very different people come to mind this week only because of what I observed.

Keith Reed, barber on Main Street, former resident of Manchester and Village Council member. Keith has always been interested in what is and has been happening to our community. Sometimes vocal but most of the time laid back with very definite opinions.

Since we have acquired the Enterprise I have been observing Keith, who is our next door neighbor on Main Street, take care of the flowers and the tree in front of his shop. Practically every morning scraps of wind-blown paper, leaves or discarded junk seem to accumulate at the end of the street in front of the barber shop. Keith picks up the junk, sweeps the leaves into the gutter, trims and waters the flowers and tree. You may think it is a little thing to do and that it's his job since the tree is in front of his shop, but it really brightens our end of the street and makes for a nicer day. Good job, Keith.

AND — John Weber, Village employee who works out at the transfer site. John and his wife Victoria celebrated their 50th wedding anniversary Saturday, September 28th, Congratulations. John is a real live character, born November 16, 1915, graduate of Dexter High School in 1935, owner at one time of three different grocery stores in Dexter, owned the Pleasant Lake Bar for 14 years, and had the Radio Cab Co. in Ann Arbor during the early 1950's. At one time John had farms in the Dexter area on Territorial and Fleming Roads.

John performs a very valuable service for the community, a job that not many people could tolerate. Rain or shine, snow and ice, cold or hot John opens the gates of the transfer site so that we can take our trash to the disposal site. When

Pictured above: John Weber, Village employee at the Village Transfer Site

a load of waste arrives, the metal and rubber must be separated from the load. The remaining trash goes into the hopper and is compacted into the transfer container. Load charges must be determined and prices can be a sore subject with some users.

Garbage cannot be accepted as the material is placed in a landfill that does not accept garbage. The job is odorous and dirty. It is, however, one of those jobs that needs to be accomplished.

If you get the opportunity stop and talk to John. You will find a very colorful character with a smashed cowboy hat, tobacco juice stained mustache, a weathered face that has the lines of age and experience that show like a road map. I have always enjoyed John and feel that we are very fortunate that he is available to take care of the transfer site. Good job, John, hope that you are with us for many, many more years.

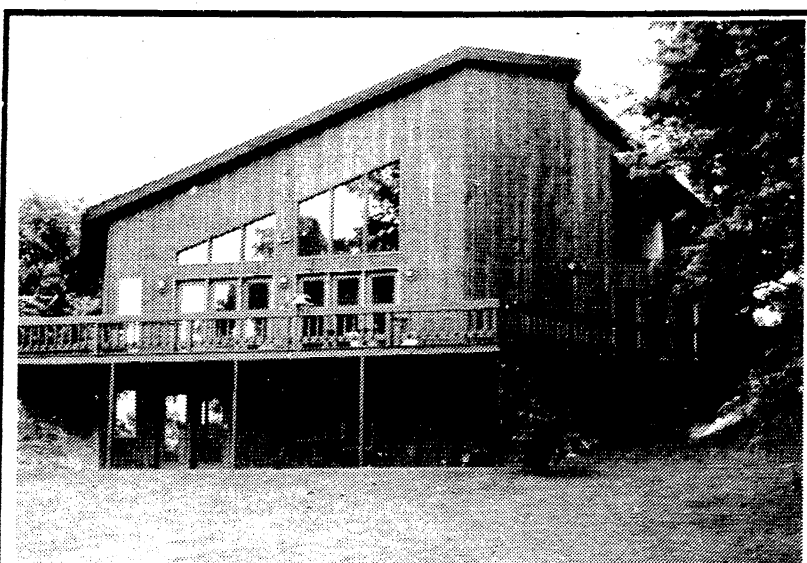

To the Editor:

There is a great evil lurking about. Villainous lawbreaking occurs year after year, yet we all turn our heads and hope we are never touched by what is cloaked by the shadows. A predictive and sinister crime was reported in last week's Enterprise with not a remark.

Yes, another innocent car was struck by a deer. I moved to Manchester to flee the risk of the city. Even here, none of us are safe.

I urge every red blooded, corn fed citizen to take matters into their own hands! Strike back in vigilance. For every guiltless auto assaulted, let us ambush one of them. We must band together to spare another innocent, the indignity of such a vicious onslaught.

Sincerely,
Eric Cooper

POLICE BEAT

September 21: A driver was cited for OUIL on Main Street near Hibbard.

September 22: Three larcenies from three different cars was reported in which cassette tapes were taken. The first larceny totalled \$470, the second was \$520, and the third was \$50.

September 22: A driver was cited for OUIL/UBAL on East Main Street and Division.

September 23: A driver struck a deer on Herman Road.

September 23: An attempted larceny of a purse occurred at Healing Hands. The purse was recovered.

September 24: A car was stopped at the four way stop sign on Main Street and Ann Arbor Hill when a car coming down Ann Arbor Hill struck the first car.

September 24: A larceny was reported in which hand tools totaling \$100 were stolen on Sharon Hollow Road.

September 25: A deer struck a car on Grossman Road.

September 25: A car backed into a parked vehicle at Johnson Controls.

September 26: A driver was cited for OUIL and UBAL at Ann Arbor Hill and Auburn street

September 29: Minor damage of property to a car was reported totaling \$100.

September 29: A motorcyclist sustained injuries when she fell while coming around a curve on Sharon Hollow Road.

Optimist Steer Bloodmobile Club — October 14

The Manchester Optimist Steer Club is preparing for their 1991/92 year. The club buys steer calves in the fall. Steer Club members draw for their animal, then feed and groom him unit Fair time the next summer.

Each boy and girl are sponsored by an Optimist Club member. The steer and lamb auction is a highlight of the Manchester Community Fair. The local buyers have been extremely generous in their bidding and purchasing. This has made for a pleasant and profitable business experience for our young citizens. Applications for membership are in the offices of the middle school and high school, and also with Optimist Steer Club Chairman Rich Kennedy, 428-8836.

Applications need to be turned in by October 7, and the calves will likely be purchased and delivered in mid to late October.

On Monday, October 14, is the Red Cross Bloodmobile will be held at the Knights of Columbus Hall. This open clinic is planned for 1-7 p.m. Marja Warner will act as Chairperson of the Day, phone 428-9506.

Sign-up boxes will be placed at our three banks: Comerica, Great Lakes Bancorp and First of America; also boxes will be at Walco Food Store and Baker's Dozen on or before October 1. Church and Industrial recruiters are urged to return donor cards by Tuesday, October 8 so the schedule may be prepared.

A goal of 120 pints of much needed blood has been set, will you visit the Bloodmobile on October 14th and help reach the goal?

FIRE RUNS

September 22: A personal injury accident was reported when a person fell in the home.

September 23: A rescue run was reported in Sharon Township for a medical emergency for poisoning.

September 25: Wires were down in the village and going across the road.

September 25: A dryer overheated and caught fire in Sharon Township.

Mothering Discussion Group Continues

The Mothering Discussion Group has set its next meeting for Saturday, October 12, 1991, at 1 p.m., at the home of Pam Wresche, 302 Division Street.

This group, which welcomes all parents who are interested in discussing ways to enrich their children's lives and their own experiences as parents, had its first meeting in September. Those in attendance decided to sample chapters from several different sources to choose a book to study as a group. Topics suggested so far include Waldorf parenting philosophy and the Parent Effectiveness Training (PET) method.

Anyone interested in attending the meeting on October 12 should call Pam at 428-9319 to get a copy of the material for that meeting.

Manchester Village Council Agenda

Recreation Task Force

—G. Gillow

The Recreation Task Force will hold its monthly meeting October 9 at 7:30 in the Blacksmith Shop.

Come and help plan our Halloween Party for the children. Parents are needed.

Is there a leadership class in Manchester High School? If so, it would be great if we could work together.

Volunteers to help the programs are always welcome. For information, contact the Community Resource Center at 428-7722.

DAN'S WESTSIDE AUTOMOTIVE

660 W. Main Street Phone 428-9455 Manchester, Michigan

ATTENTION FORD AND GM OWNERS WITH DRIVEABILITY PROBLEMS

The mechanics at DAN'S WESTSIDE AUTOMOTIVE need your vehicle. In our continuing education we've recently been concentrating on driveability, as that seems to be a continuous problem in the newer cars.

Every other Thursday night (starting Oct. 3rd, 91) we want to locate & repair your driveability problem. The only cost to you will be for parts; if needed. ALL THE LABOR'S FREE! (no parts will be replaced without owners consent first)

Requirements to be in Drawing for Free Repairs are:

1. Vehicle must be a FORD or General Motors product newer than 1984.
2. You must call or stop by and leave your name, phone number, type & year of car and the problem you are having, by the Monday before our Thursday FREE WORK NIGHT.
3. You must be able to have your car at WESTSIDE AUTOMOTIVE on the following Thursday after the drawing and possibly leave it through Friday.

1st DRAWING September 30th
1st FREE WORK NIGHT October 3rd

On The Road — To A Drug Free America

On the road to a drug free life is the theme for Substance Abuse Awareness Month in Washtenaw County. The Manchester Community Resource Center is coordinating promotion of this month-long campaign in Manchester.

present a unified and visible commitment toward the creation of a DRUG FREE AMERICA. Following is a list of suggestions for family activities that support the NO USE message to our youth.

* Purchase or make Red Ribbons for family members and friends. * Display a Red Ribbon on your front door, mailbox, trees and cars to show your

Parents, schools and the community can keep our youth happy, healthy and safe by working together.

Washtenaw County coordination is being facilitated by Leaders in Prevention in conjunction with National Federation of Parents "Red Ribbon Campaign", "Just Say No", Back to School Month, National Crime Prevention Month and National Collegiate Alcohol Awareness Week.

Manchester Community Schools, youth groups, industry, churches, organizations, local governments and law enforcement have been invited to take part in programs that promote a NO USE message for our youth.

More emphasis will be placed on the alcohol/drug Red Ribbon Week, October 19-27. It will be a national campaign with President and Mrs. Bush as Honorary Chairpersons. Its goal is to

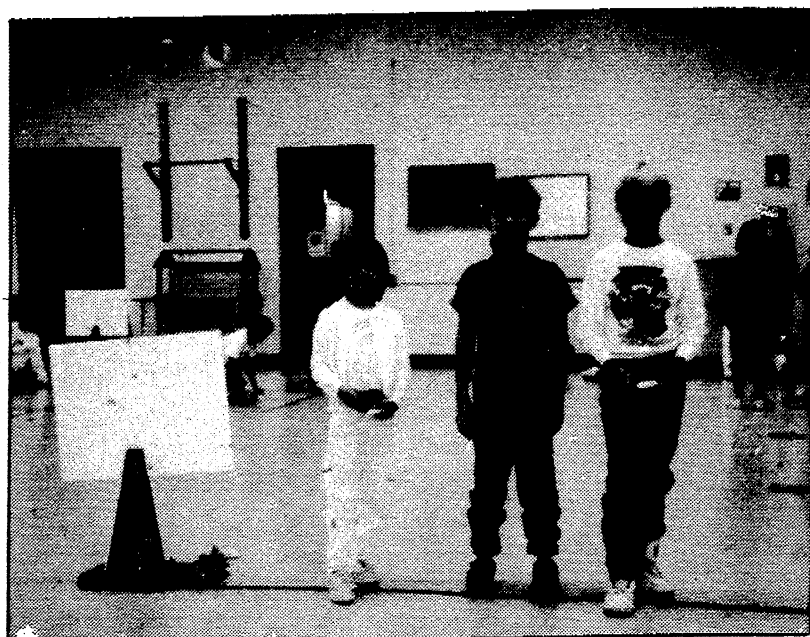

OCTOBER
SUBSTANCE ABUSE AWARENESS MONTH
Theme: ON THE ROAD TO A DRUG FREE LIFE

Promote commitment of youth to:

No Use of any Illegal Drug
No Illegal Use of a Legal Drug

Sponsored by the Community Resource Center

1st Graders having more fun

Pictured playing the English version of penny pitch are 1st graders from Mrs. Gregerson's class, (L to R) Rebekkah King, Jack Moore and Ryan Hendricks.

Students in 1st through 4th grade learned some new playground and sidewalk games and activities which will be used on the school playground during recess or at home. During gym classes, children rotated to stations to learn rules and practice the following activities:

Four Square, Sidewalk Bowling, HABA GABA (originated in Africa), Penny Pitch (originated in England), Hopscotch (French and American).

Students also learned how to play Funnel Ball and Tetherball.

NOTICE OF PUBLIC HEARING

The Manchester Village Council has been working on a comprehensive tree policy covering planting, regular maintenance and removal of trees on publicly-owned property and street rights-of-way. The Council invites public comment on this proposed tree policy at 7:15 p.m. on Monday, October 7, 1991, in the 1st floor Council Room of the Village Hall, 120 South Clinton St. A copy of the proposed tree policy can be seen at the Village Hall during regular business hours.

Sessions at St. Mary's Continue

The taped sessions on the fall of man and original sin continues this Sunday in the basement of St. Mary's Church. Professor Gerry Matatics speaks about the rhyme of time and the impressions left by God in our lives and the lives of the ancients. The sessions are guaranteed to be better than T.V. Please find the time to join us from 7-9 p.m. You can come to any one session and leave with deeper personal understanding.

Birth Announcement Kelly Dawn

Marty and Sandy Merriman are proud to announce the birth of their daughter, Kelly Dawn, on September 27, 1991 at St. Joseph's Hospital. Kelly weighed 7 pounds 6 ounces and was 20 inches long. Kelly has a 16-month-old sister at home, Danielle.

Maternal grandparents are Fred and Donetta Hulkovich of Aberdeen, Idaho. Paternal grandparents are Bill and Joyce Merriman of Manchester. Great-grandparents are Merle and Annabelle Wright of Manchester.

Effective date: The within amendment shall be effective immediately upon adoption and publication.

COMMUNITY NEWS

FIRE, continued from page 1.

flames. The built-in fire suppression system, contained within the hood of the vent stack, was triggered but did not contain the fire. According to Chris, 911 was dialed and the fire department was alerted when the three extinguishers did not stop the blaze. The fire was so intense within the hood that the vent stack glowed red and the heat ignited the surrounding structure.

Fire Chief Keith Johnson reported the alarm was sounded shortly after 6 p.m., which by that time the fire had already spread to the second floor above the kitchen and was in the ceiling between the second and third floors. The smoke was so dense that it was impossible to judge the extent of the conflagration. Interior walls blocked water from reaching the fire location.

Two firemen suffered some injuries. Richard Boham slightly injured his shoulder when part of the ceiling fell on him. Larry Bash suffered some twisting of his left leg when the floor gave away under his left foot. Smoke inhalation affected several firefighters but with no apparent ill affects. Saline's air replenishment system kept the backpacks in operation.

Johnson reported everyone did a super job. Unfortunately some of the tenants in the apartments above the Sheep suffered damages to personal property.

Chief Johnson requested immediate assistance from Chelsea and Pittsfield with their tower trucks. It was necessary to have water available on the second and third floors as well as the roof and only tower facilities could reach this height.

Consumers Power was alerted to turn off the power in the high tension lines behind the Sheep so that Chelsea's tower could access the roof from the rear of the building. With Pittsfield Township's tower unit on Main Street and Chelsea's in the alley, water could be applied to the roof when the fire broke through. Most of the internal damage is within the ceiling of the second floor and the roof of the third floor.

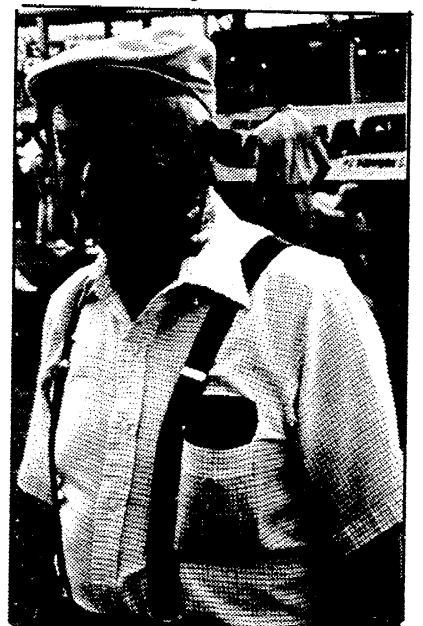

Chief Johnson reiterated how lucky the town was that the wind was not blowing, people were out of the apartments above, and the fire called in so quickly.

SUBSCRIBE TO THE MANCHESTER ENTERPRISE. Keep up on what's happening in our town!

WWRA prepares for recycling grant from DNR

The Western Washtenaw Recycling Authority (WWRA) met in Manchester last week to continue preparing for receipt of a recycling grant from the Michigan Department of Natural Resources in the amount of \$330,000. In fact, no actual money will be transferred until after the Authority buys the equipment and constructs the processing building at the Chelsea landfill.

In addition, the 10 governments which make up WWRA must also come up with \$110,000 in matching funds as well as the funds to operate the program.

After much discussion by the full board and the Finance Committee over the past nine

months, it was agreed that a special assessment per household would be the fairest way to raise the additional funds needed to implement the grant. Two public hearings will be held in late October and early November to receive public input.

The figures which have been arrived at after thorough analysis would assess each household in the townships \$17 per year for five years. Each household in the villages would be assessed \$30 per year because they will have curbside pickup.

The four townships surrounding Manchester will each have one drop-off station. The four townships surrounding Chelsea would each have two

drop-off stations because their population is double that of Manchester area.

The program, when implemented, will insure that the participating governments will be in compliance with state law which requires all counties to reduce the amount of solid waste going into landfills. By taking advantage of more convenient recycling the residents of western

Washtenaw County can guide their own program and eliminate the possibility that the county or state will mandate a program over which they have no control.

Because of the rural nature of western Washtenaw County, it is difficult for any township to provide convenient recycling to its residents. By banding together to apply for and implement this grant, the townships of

Bridgewater, Dexter, Freedom, Lima, Lyndon, Sharon, Sylvan and the villages of Chelsea and Manchester will be able to establish a recycling program which will be cost efficient and will meet the growing demand for recycling services.

Western Washtenaw County could become a model for the rest of the state if response to the program is positive.

SPORTS

Dutchmen Show Flair for Dramatics

— Jon Hardenbergh

Rich Lutton dives for winning touchdown.

Friday night was homecoming and the mood was festive as our varsity squad welcomed Grass Lake.

On the way to the game, Athletic Booster President Duane Kuebler asked me what happened to John Ward. If you watched the game you saw John score two touchdowns while rushing for 135 yards, so he's back in action. Also before the game, Pat Wallace, former MHS quarterback and Bobby Hayden, number one Dutch fan, predicted a win.

This was a rough, tough battle with a lot of head-banging

going on. John, a senior tailback broke through the Warrior's defensive line and was off to the races. With 3:33 left in the first quarter, he had gone 67 yards for our first touchdown. Jamie Sloat kicked the point after. Grass Lake rallied to score twice in the second period, to lead 7-14 at halftime.

There was no scoring in the third period, but in the fourth, John (who also plays defensive back) intercepted a pass and returned it 58 yards for the touchdown to tie the score. In the closing minutes, we drove toward their goal, with Rich Lutton

flying across from five yards out with the winning points. Quarterback Tom Fielder skirted left and dove into the endzone for a two-point conversion capping the score at 22-14.

Besides John rushing for 135, Lance Fielder powered for 102 yards. Defensively, Robert Sloan led our tacklers with 14, as Matt Fielder accumulated 13. Jamie Sloat and Lance Fielder totaled 12, nine and eight.

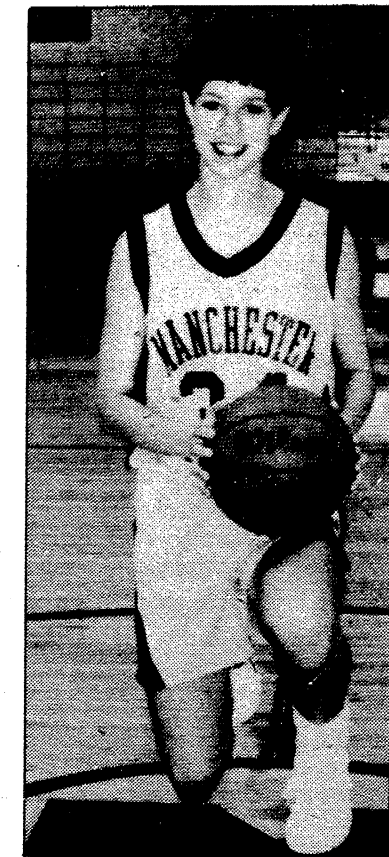

Join us Friday at Addison.

Lady Dutch Lose Nailbiter

We bused to Napoleon Thursday, September 26 for a league matchup. At one time, early in the first half, we found ourselves down by 14 points. We crawled slowly back to capture the lead, 49-47 in the closing seconds of regulation play. A lady Pirate hit a basket at the buzzer to send the contest into overtime. There were only five seconds left in this extra period and we trailed by three points when April Barret launched a three pointer to knot the score at 54, sending us into a second overtime. Unfortunately, Napoleon outscored us 6-2 to win 60-56.

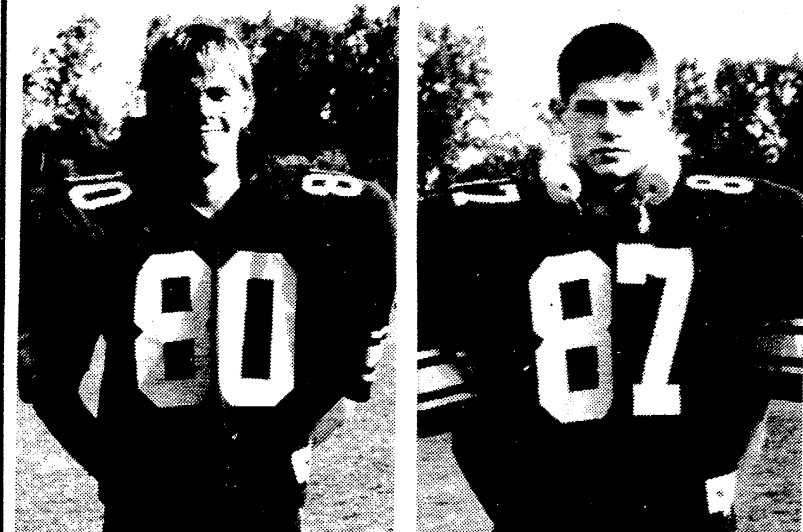

April Barret led our scorers, gunning for 20 points, as Adrienne Wallace popped for 16 points.

Our j.v.'s also fell in a close contest, 33-28. Be with us October 3rd and 8th as we host Vandercook Lake and Clinton respectively. Game times, 5:30.

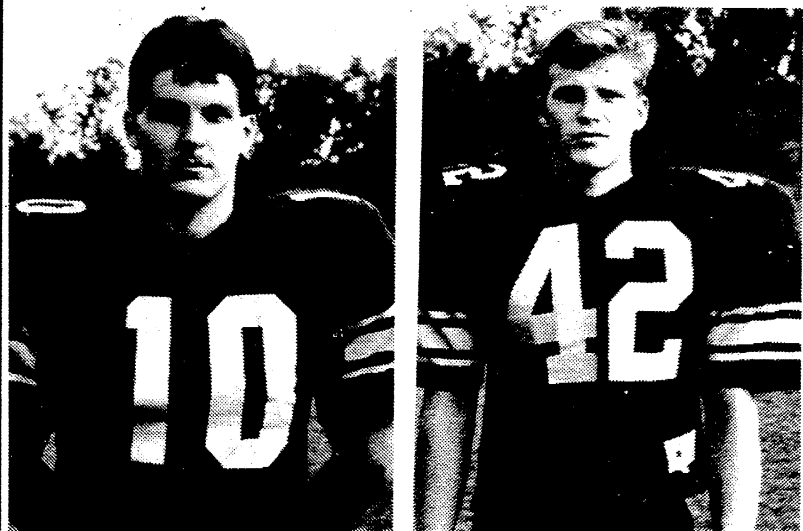

Adrienne Wallace scored 16 points in Thursday's game.

Manchester High School Equestrian Team

— Kathy Kueffner

Pictured Above: (Left) Maggie Evilsizer on her Quarter Horse Royal in Western Equitation; and (right) Jenni Williams takes Heather over a jump.

The second meet of the 1991 season was held Sunday, September 29 at the fairgrounds in Milan. The Manchester team accumulated 80 points to Chelsea's 52 and Saline's 42.

High point earner was Rebecca Scherdt with 25 points followed by Amber Burkhardt, 16-1/2 points, and Mark Kueffner and Allison Gaughan with 10-1/2 points each. Jenni Williams was first in Equitation over Fences and the trail class was won again this week by

Rebecca Scherdt. Rebecca also placed second in Western Fitting and Showing, and Hunt Seat Equitation. Amber Burkhardt was second in Western Equitation and third in Western Bareback.

Our next meet is Sunday, October 13, at the fairgrounds in Milan starting at 9:00 a.m. We hope to qualify at this meet for the State Championships to be held the last weekend in October at the Ingham County Fairgrounds in Mason, MI.

Little Dutchmen Remain Undefeated

Our j.v. football squad trekked to Grass Lake Thursday and our defense once again surrendered no points, while our offense ran wild for 37 points.

We wasted little time in tallying, as quarterback Mike Bernard passed 15 yards to Nate Kloster in the endzone. Soon after, Mike raced for another T.D. Brandon Woods got on the T.D. bandwagon as he scampered left for 18 yards. Shane Ahrens also scored utilizing nifty footwork.

Brad Davis had a big night as he rushed for 102 yards, while Mica Puscas gained 64. The coach's pick for defensive players of the week were Andy Winzenz

and Kye Potter. I must admit I felt we would be scored on tonight as the Warriors had a quick, tough halfback who got the ball to the five yard line with 3:42 remaining. Andy Winzenz stuck their QB, causing a fumble. Our Kevin Phelps fell on the loose sphere to keep alive our scoreless streak and end my fears. Lineman of the week is guard Adam Erskine.

Be with us Thursday as we host Addison. The Panthers field a solid squad, promising a good battle.

4th 5th and 6th Grade Basketball

Starting this October 5th and running through December 21st there will be a 4th, 5th, and 6th grade basketball program offered for all boys and girls in these grades. Each grade will have two to four coaches. The program will emphasize the fundamentals of basketball, concentrating on dribbling, shooting, and passing. There will be some intersquad games toward the end of the program. The following are the dates and times for the program.

FOURTH GRADE
Place: Middle School Gym
Time: 9:00 - 11:00 A.M.

FIFTH GRADE
Place: High School Gym
Time: 9:00 - 11:00 A.M.

SIXTH GRADE
Place: High School Gym
Time: 11:00 - 1:00 P.M.

DAY: SATURDAYS
October 5, 12, 19, 26
November 2, 9, 16, 23, 30
December 7, 14, 21

Each child will need to bring a pair of gym shoes, shorts, and a t-shirt. The intent of the program is to develop a solid basketball program school wide. To teach solid basketball fundamentals and to have fun.

CARDS OF THANKS

The Manchester Sportsman Club would like to thank everyone who helped make Hunter Safety a great success.

Mr. Brian Schick for announcing dates, time and registration of students, Manchester Stamping for furnishing the hearing protection, Steve Carson for safety glasses, Ron Weir for bow & arrow equipment and field instruction, Debbie Wiley for classroom help and Manchester Enterprise for publishing the time and dates.

We had 33 students, all received certificates. They were an excellent class. The high scores on the test indicate they were very attentive in class. Also we were very happy to see the number of parents who attended the classes with their children. We will be having classes again next fall.

Instructors Mike Hughes, Bruce Fielder, Steve Carson and Bob Trent

CARDS OF THANKS CONTINUED ON PAGE 15

CHARLES REINHART CO. REALTORS

Milk Jug Bins

The milk jug bins at the recycling center outside of Walco Foods have been well used since being installed in August. The Village of Chelsea has been emptying them weekly.

Each week about one bale of milk jugs is collected from the Manchester area. Chelsea is able to obtain the highest price for milk jug bales because they take the time to inspect the contents of the bins. Other types of plastic must be picked out and discarded by Chelsea workers.

We can help minimize time spent on inspection by depositing only clean milk jug type plastic. Look for the triangular recycling logo with number 2 in it on the bottom. Colored number 2 plastic such as laundry detergent bottles and other plastics can not be accepted, but they are accepted in Ann Arbor. Many other plastics are accepted in Adrian.

Compliance with these rules will assure that this program will continue without problems.

See sidebar "Where to Recycle" for more details.

Cards of Thanks

(Continued from Page 14)

Thank you to all who said prayers, sent cards, flowers, paid visits, and did so many acts of kindness while I was in the hospital and since my return home. God bless you.

Ardis Scheid

The Manchester Kiwanis Club would like to thank everyone who helped to make our Pig Roast and Volleyball Tournament a GREAT SUCCESS. To Chick Kirk, Larry Ruble, Alber Orchards, Manchester K of C, Bill Schwab, DuRussel Farms, all 19 of the volleyball teams and to all of you who attended the dinner, we thank you all.

Kiwanis will use the money raised to support our many community service projects. Manchester Kiwanis

I would like to thank all the people who were involved in my rescue on September 13. It is because of everyone's quick response that I'm still here today. Frank Messer, Rescue Squad, Police Department — thanks from the bottom of my heart. Jim Bennett

Approved by: Robert Little, Supervisor

Terry Harris (continued from page 3)

office, and park as though we've pulled up to the Stop and Go. I feel O.K., ears a little buzzed, legs a little wobbly, but ready to try again.

Anyone who holds a pilot's ticket generally has a purpose for flying. Many will buy their own plane and use it frequently for business or pleasure. Terry states that you don't need to fly x-hours per year to remain licensed, but

strongly advises to keep sharp by flying often, so as to remain alert and safe.

I like Terry Harris for his relaxed demeanor and common sense approach to flying. To listen to him speak of flying echoes of enthusiasm, pleasure, and affection. Need a good instructor? Head over to Rossettie's and look for a friendly looking red-haired man. I'll look for you 3,000 feet up.

Kiwanis Observes National Newspaper Week at Meeting October 17

The Kiwanis Club of Manchester will observe National Newspaper Week, October 6-12, 1991 at its meeting Thursday, October 17, according to Club President Carl Werner. Vanessa Forsthoefel, the Editor of the Manchester Enterprise, will be the guest speaker of the morning. She will be informing the Club's members and guests about the operation of our local newspaper.

Kiwanis International is the oldest participating organization in the annual Newspaper Week observance. The theme this year

is "Celebrate the first 200 Years of Free Speech."

"Our Kiwanis Club is taking this opportunity to salute newspapers for the vital role they play in our free society, and for the community service they provide," says Werner.

"Kiwanis clubs and newspapers share the same goal of building better communities," says Werner. "Newspaper stories and editorials contribute to the success of many good causes in the community," he says, "including many of our own Kiwanis service and fund-raising projects."

JV Football Action

— Jon Hardenbergh

#36 Brad Davis zoomed for 136 yards, pictured above scoring one of his two touchdowns. Our offense overpowered the Addison Panthers but our defense finally showed that they are human as they surrendered two touchdowns off a flea flicker.

Quarterback Mike Barnard completed four of six passes for 85 yards and three TD's. Brad Davis led our rushers with nine carries for 136 yards. Other scorers were Nate Kloster who caught a 13 yard pass; Brandon Woods grabbed a 40 yard pass; Brad Davis ran 60 yards for his second TD.; Geoff Brooks crossed pay dirt and Mica Puscas capped off a 10 yard run.

Defensive coordinator Jim Fielder picked linebacker Mica as defensive player of the week. Jim and I agreed that Dick Fielder, offensive coach, would have named Mike Barnard as offensive player of the week.

If you want to see a good solid battle of the undefeated, come to Booster Field Thursday as we host the Napoleon Pirates.

Curbside recycling will begin on Wednesday, October 30

Curbside recycling pickup of steel and glass will begin Wednesday, October 30 for residents in the Village of Manchester. Beginning in November, this service will be available on the third Wednesday of every month.

This early start of curbside pickup in Manchester is due to the cooperation of the Village of Chelsea, which will make the pickups in their truck and allow the use of some of its recycling containers.

Containers for these recyclable items are available at the Village Hall.

This first phase of recycling service is limited to steel cans (commonly called "tin cans"), lids, and brown, green and clear glass. Other items may be added to the program later.

The service is the first benefit residents will receive through the newly formed Western Washtenaw Recycling Authority. The WWRA is a joint operating authority made up of the Village of Manchester and Chelsea, and the eight townships of Manchester, Bridgewater, Freedom, Sharon, Lyndon, Lima, Dexter and Sylvan.

"Chelsea's offer makes it possible to start curbside recycling now, rather than waiting for the new WWRA to purchase equipment," said Manchester Village President Mary Kallewaard. "We appreciate Chelsea's help."

Village residents can pick up recycling containers at the Village Hall, 120 S. Clinton Street, Monday through Friday between 8 a.m. and 4 p.m., and between 9 a.m. and noon on Saturday, October 12 and October 19. Proof of residence, such as a driver's license or voter registration card must be shown.

There is no charge for the three containers but they must be

returned to the Village Hall if residents move out of the Village.

One container should be used for steel cans and jar lids. (Over 90% of food cans today are made of steel, although they are still usually called "tin cans".) Cans must be clean, labels removed and flattened. Do not include aluminum cans.

A second container should be used for glass. Glass must be clean and lids removed. Clear, green and brown glass containers should be placed together in the container, and the pickup crew will sort the glass as they toss it into the truck.

Volunteers needed to donate bone marrow for former MHS principal

Rod Morrison, former principal and athletic director in Manchester, is one of the 16,000 people annually who need bone marrow transplants. Rod has been diagnosed with acute leukemia and needs a bone marrow transplant. Unfortunately, no one in his family is a medical match.

Manchester, along with many other communities, have an organized campaign to recruit as many people as possible who will register with the National Bone Marrow Registry. Registering requires giving one small tube of blood to be tested, typed and entered into National Registry. Your blood type makes no difference. If a volunteer should match someone, that person would be asked to give small amounts of blood up to four more times. If a volunteer were a match and agreed to donate bone marrow, an overnight stay in the hospital is necessary. The procedure performed under general anesthesia lasts about an hour. Approximately 5% of the donor's body naturally replaces the marrow. Personal discomfort may be experienced for approximately 2-4 days.

To be a candidate for donation of bone marrow, a volunteer must be between the ages of 18 and 55 and in good health.

It is important to note that a person who is qualified to be a blood donor may match as a bone marrow donor. Many volunteers are needed since the ratio is 1 in 20,000 to find a Miracle Match. The search is a worthwhile one because each successful match literally offers a patient the chance of a lifetime.

In Manchester, a screening site is scheduled at United Church of Christ gymnasium, October 26, 11-5 p.m. The cost is \$48 per person, however the National Bone Marrow Registry will cover half and donations from the community will cover the remaining \$24.

Other screening sites are located at Jonesville High School, October 19, 8:30-11 a.m., or October 26 at the Lyle H. Torrant Center, 1175 W. Parnall Road in Jackson. Advance notification is not necessary at these locations.

The office of the Manchester High School superintendent is taking the names of volunteers who are willing to be screened as possible bone marrow donors. NAMES ARE NEEDED BY OCTOBER 11.

Monetary donations for the screening test or for the Morrison family can be made to: Morrison Miracle Match and sent to the Manchester High School.

For more information or questions, contact the Community Resource Center at 428-7722.

If This Is All You Got For Opening A Checking Account,

You'll Be Glad To Know Something New Just Popped Up.

ACCOUNT

Why settle for a toaster when our Club 50 checking account butters you up with special bonuses, perks and discounts?

Fall Bloodmobile Time is Here

— T. V. Ludwick

Next Monday, October 14, is a most important day to remember and mark on your calendar. The American Red Cross Bloodmobile

will be held at the Knights of Columbus Hall during the hours of 1 to 7 p.m.

Pre-registration is favored to avoid bottlenecks and to keep the appointments flowing. You may either make an appointment with your recruiter at each of our local industries, or at your church through its recruiter.

Or, you can sign up at one of the following spots in the boxes provided: They are the three banks, Walco Food Market and Baker's Dozen.

The recruiters for industry are: Manchester Tool & Die, Inc.-Marie Garlick; Pilot Metal Products-Bobbie Marshall; Johnson Controls, Inc.-Diana Parr; Pinnacle Engineering Company-Rose Johnson; and Manchester Stamping Corporation-Marilyn Clark.

Church recruiters are: Emanuel UCC-Mrs. Glen Feldkamp; Sharon United Methodist-Mrs. Robert Pratt; Victory Baptist-Rev. R. Dean Cooper; Bethel UCC-Mrs. Jack Creech; Iron Creek Commu-

nity-Mrs. Allan Gene Whiteman; Faith Community-Ms. Lynn Gonyer; Manchester United Methodist-Mrs. L.L. Carpenter; and St. Mary's Catholic-Mrs. James Landini. These recruiters are a dedicated group and if, by chance you are not called, please contact them for an appointed time.

Blood can be donated by anyone who is in good health, weighs at least 110 pounds and is between 17 and 70 years old. Donating blood is relatively painless and takes less than 45 minutes from registration to post donation snacks of juice, sandwiches and cookies.

Blood is given free to all hospital patients by the Red Cross; any cost is for hospital fees and administering blood. If you've thought about donating your blood and never have, now is the time to do it. It will make you (and us) proud of having helped with the "Gift of Life."

See you at the Knights of Columbus Hall—on Columbus Day!
