## Andre Kormendi - National Merit Semifinalist

Andre Kormendi

The National Merit Scholarship Corporation (NMSC) has announced the names of some 15,000 high school seniors who are Semifinalists in the 41st annual National Merit Scholarship Program. These academically talented young men and women have an opportunity to continue in the competition for approximately 6,900 Merit Scholarship awards, worth about \$26 million, to be offered next spring. Manchester High School is very pleased to announce that Andre Kormendi, son of Paula Kormendi of Manchester and Roger Kormendi of Ann Arbor has been awarded semifinalist status.

Juniors in some 19,000 U.S. high schools entered the

1996 Merit Program by taking the 1994 Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT), which served as an initial screen of more than one million program entrants. The highest scorers in each state were designated Semifinalists in numbers representing about one-half of one percent of the state's high school graduating class.

Before they can be considered for Merit Scholarship awards, Semifinalists must advance to the Finalist level of the competition by fulfilling additional requirements that include having an outstanding academic record, being endorsed and recommended by the high school principal, and submitting SAT I scores that confirm the student's earlier PSAT/NMSQT performance. Other important information about the student's educational interests and goals, as well as participation and leadership in school and community activities is provided in the detailed scholarship application the Semifinalist and an official of the high school must complete.

Andre is a senior at Manchester High School. He transferred to our school system at the beginning of ninth grade from the Ann Arbor schools. At the present time he is undecided about a college major. He is considering a number of colleges to attend next year with Alma being the highest on his list right now.

## Pumpkin Carving Contest! This Saturday - October 21

Julie Luckhardt and Chloe Miller are both enjoying their pumpkin art at last year's Pumpkinfest

The second annual Pumpkin Carving Extravaganza is set for this Saturday. Get ready for a big day of FUN at Chi-Bro Park with your family, your friends, and your neighbors. The festivities start at 11 AM and continue until 3:00 when the judging will begin.

Pumpkins are free to each participant, and safety knives will be provided on loan to those who need them. If you choose to bring your own knives, please be sure to mark them clearly with your name and be certain to keep them away from little ones.

Once all pumpkins are carved at 3:00, they will be lined up in age groups and

judged first, second and third in each category. Last year's prize-winning pumpkins were a difficult act to follow, but we know there are plenty of artistic carvers out there and we look forward to seeing the results of this year's contest. Pumpkins may then be taken home to perch on your porches until Halloween.

Once again there are other activities planned which will entertain you after you've completed your pumpkin. At 1:00 will be the popular "Pumpkin Seed Spitting Contest", followed by Apple Bobbing at 1:30 and a play, "The Witch and the Scarecrow," at 2:00, presented by the Manchester Academy for

the Arts Youth Theatre. Food will be available to participants - Ollie's will be there with pizza by the slice and Alber's has agreed to bring cider jugs so you may purchase food on site. Music will be provided by "Small Town Sounds" DJs, and Carl and Sharon Curtis will again bring their crank organ. If for no other reason, you'll want to stop by Chi-Bro Park to hear and see this unique instrument.

Everyone from age 3 to 103 is welcome to come and carve a pumpkin, have something to eat and enjoy another beautiful autumn afternoon in our little town.

-MJC

See you at the  
Pumpkin  
Festival

# The Second Front Page Contest at the Middle School

## Reviving A Mural Tradition

The Manchester Middle School Student Council is sponsoring a contest for Middle School students which will help brighten the environment at the school for students, staff and visitors alike. The contest encourages the students to enter their artwork to create a mural to be painted in the "big building" at school.

Middle School Student Council Representative Holly Sutton, a 7th grader who has been on Council since fifth grade, is part of a committee which has been working on the project since last year. "We still have the entries we received last year," says Holly, and those will be considered as well as new entries." Holly indicates that the new mural will be someplace new - none of the old murals will be replaced. In fact, if the competition goes well and the ensuing paint job works out they may well think about restoring some of the "old" murals.

The tradition of murals on the Middle School walls began in the 1970's, and continued for several years. But no new murals have been done for over ten years so the Council looks forward to an opportunity to revive this

practice for years to come. A lot of the present murals feature cartoon characters, so cartoons are "off limits" for this year's competition.

The winner will get to help paint the mural once it is begun. For starters, the committee will transfer the winning design to the wall by enlarging the outline with a projector. Then the fun part - actually painting the mural - will start.

Since the winner will be announced on October 27th, the student council plans to start work as soon as possible after November 1 and be done before the holiday break in December.

Rules for the contest are that the mural should have a theme of either the environment or sports, and only one entry will be accepted per student. Color pictures may be entered in any medium. All entries are due October 25 and judging will be done by a panel of five teachers over the next two days.

Last year's committee, whose idea it was to start the mural project, is no longer on Student Council, but the present council has decided to continue and wants to give credit to those former members whose work is now

A current mural in a middle school hallway. Were you one of the artists?

bearing fruit! Those students are Donny Potter, Angie Tyler, Justin Henderson and Diana Dillon. This year's committee members are Holly, Rachel Jefferson and Sarah Johnson. All are working hard to see this project become a reality.

The Middle School Student Council has an ambitious year planned, with a variety

of activities for each month. Student Council members are elected by their classmates after giving a speech enumerating the qualities they would bring to their position as a Student Council representative. This year, it would seem that their peers have done a great job of electing some eager and enthusiastic representatives. Congratula-

tions to all! You have all done well.

Watch the pages of the Enterprise to learn the winner of the mural contest and see the design before it's put on the wall. Then stop by and watch as our students work together to make their school a more beautiful place to study and to play.

- Marsha Johnson Chartrand

## Out & About

- by gar

### AMERICA THE BEAUTIFUL!

Only in America. Yes, in no other nation in this world could a descendant of slaves stand before his Nation's Capitol and speak his views, as is happening this Monday in October.

IN THE LAND OF THE FREE AND THE HOME OF THE BRAVE! Louis Farrakhan, Nation of Islam, addressed the people of this land of the free and home of the brave. He addressed a nation through a media that reached across this great country and throughout the world. He spoke of slave owner Presidents Washington and Jefferson. He spoke also of the Great Emancipator, President Abraham Lincoln, and alluded to his superiority views. Louis Farrakhan spoke also of our current President's disparaging remarks of Farrakhan's views.

Louis Farrakhan's Million Man March to Washington might be a way for him to ex-

press his views. It also gave voice to others who speak to and for the black community. Without doubt the induction of slaves into this country was and is at the root of many problems within our society. The Civil War was but a part of the price paid for the freedom for all citizens of this land.

Bigotry and prejudice exists not just in this country. Look at Bosnia, where Serb fights Muslim. Or at India where a caste system exists. Then there is China, and many other nations of the world, where repression exists without regard to individual rights.

But only in America would a Nation's government freely close sessions of Congress to allow Freedom of Expression. To my knowledge none of Africa's nations have this freedom. For whatever reasons, maybe this is the Promised Land.

God Bless America, the Land that I Love!

The Manchester Enterprise welcomes letters to the Editor, Guest Editorials, and your comments, suggestions and opinions.

We ask that all letters submitted for publication be signed! Should there be extenuating circumstances for withholding your name, we will give that full consideration.

Dear Enterprise:

I am still very involved in sports but basically for my own enjoyment. There are five colleges, four high schools and cable TV here in Dubuque, therefore lots to go to or see. I've seen football, swimming, volleyball, hockey, baseball, soccer and basketball from Little League, Middle/High School to college ranks. On Saturday Mom and I are going to the Unidome to watch the Panthers of Northern Iowa as guests of Will Mulvaney, who is the new defensive back coach. I'm sure Dutch fans remember Will - who was the 1993 Defensive Coach of the year.

I wrote a complaint letter to the 'Sporting News' Magazine

Holding up his end: Hardenbergh doesn't think it's past time for the National Pastime.

and they put my letter and picture (above) in the September 4th issue. Guess I'm a star now, huh!?!?!?

Jon Hardenbergh

### Sharon Township Proposed Synopsis

Regular Board Meeting - October 5, 1995

The meeting was called to order at 8:00 PM By Supervisor John A. Savage. All other Board Members were present. Planning Chairman Lavender, Planning Secretary Cole, Zoning Inspector Thomson and three township residents were also present. Washtenaw County First District Commissioner Joe Yekulis was a guest.

Minutes of the 9/7/95 regular meeting were read and approved.

Treasurer's report was read by Lorraine Dunny. Also the 1995 Township millage levy was discussed. Motion made, supported and carried to levy .9848, which is the same as 1995. Fire and rescue runs for September were reported. Mrs. Ann Klepi was present and explained the rescue run she was billed for. She stated she wished to make a formal appeal to the Township Board requesting full relief from the \$200 charge. This will be decided during the November 2 regular meeting. The entire Treasurer's report was approved by the Board.

Mr. Yekulis spoke briefly about county governmental activities and items of interest to townships. There was a question and answer period during which time county road commission requirements for mail boxes and the necessary removal of same was discussed.

Trustee Feldkamp reported on the recent land use program at the farm council facilities.

Zoning Inspector Thomson reported 7 land use permits issued for September being for three houses, two barns, one garage and one addition. Land splits and complaints were discussed.

Planning Chairman Lavender stated a public hearing concerning several issues that were printed in the local newspapers will be held on October 19. They will continue to study sign provisions for the zoning ordinance.

Zoning Board of Appeals had no activity during September.

Supervisor Savage reported very good response to recycling in the township these past two months.

Drain tax levies were discussed. Some parcels have a very small levy being in the cents. It is not cost efficient to collect these minute amounts. There was a motion made, supported and carried to levy as a drain tax at large and paid by the township. Feldkamp abstained from voting.

There were other letters and discussions not necessitating Board action.

Outstanding bills were presented and all ordered paid.

Being no further business, the meeting was adjourned by the Supervisor at 9:50 PM

Submitted by Duane R. Haselschwerdt, Clerk; Approved by John A Savage, Supervisor

## STATE OF MICHIGAN - PROBATE COURT - COUNTY OF WASHTENAW CLAIMS NOTICE - DECEDENT'S ESTATE

File No. 95-107817-IE. Estate of **HENRY J. HUELSBERG**, deceased 368-10-0847. TO ALL INTERESTED PERSONS: Your interest in the estate may be barred or affected by the following: A hearing will be held on November 7, 1995 at 9:00 AM in the probate courtroom, Ann Arbor, MI, before Judge John N. Kirkendall on the petition of Carole Huelsberg requesting Carole Huelsberg be appointed personal representative of Henry J. Huelsberg who lived at 21000 Sager Road, Chelsea, MI 48118, and who died October 3, 1995, and also requesting the will of the deceased dated December 7, 1992 be admitted to probate.

Creditors of the deceased are notified that all claims against the estate will be forever barred unless presented to the proposed personal representative, or to both the proposed personal representative and the Probate Court, within four months of the date of publication of this notice. Notice is further given that the estate will be thereafter assigned and distributed to entitled persons appearing of record.

KEUSCH & FLINTOFT, P.C. Attorneys for the Personal Representative by John P. Keusch, P-15927-119 S. Main, PO Box 187, Chelsea, MI 48118 313-475-8671. Personal Representative: **CAROLE HUELSBERG**, 3712 Hoadly Loop, SE, Tumwater, Washington 98502

## Fiddlers Philharmonic Present Rousing Concert at Emanuel

"It was a marvelous program," enthused Rev. Vincent Carroll. He was referring to the performance of the Fiddlers Philharmonic which took place during Sunday Worship at Emanuel United Church of Christ on Sunday, October 15.

Fiddlers Philharmonic consists of a select group of student musicians dedicated to preserving and performing American folk fiddling mu-

sic in its many derivations. An extracurricular activity of Saline Area Schools Community Education, student selection is based on character, musical ability, academic discipline and leadership.

Community Service performances are an important component of Fiddlers Philharmonic. These young people are representative of the positive side of the world today, and their dedication and commitment to this group reflects our local rural traditions.

Those who may have seen Fiddlers Philharmonic perform this summer at a Gazebo Concert will remember the enthusiasm generated by their visit then. Hopefully their visit this fall will be a continuation of a great relationship between the Manchester community and our neighbors from "over Saline Way."

## NOTICE TO RESIDENTS VILLAGE OF MANCHESTER FALL LEAF PICKUP

**BAGGED LEAVES** will be picked up beginning Monday, October 23, 1995 and continuing through Monday, November 13, 1995. Leaves must be placed in paper bags. **NO PLASTIC BAGS WILL BE PICKED UP.** Pickups may be on Mondays, Tuesdays, Thursdays or Fridays, depending on availability of Village truck and labor.

**THE PICKUP WILL BE FOR LEAVES ONLY!!!** If any tree branches, shrub clippings or flower/plants are found in the bags or leaf piles they will not be picked up.

**LOOSE LEAVES** will be picked up during the month of November with the vac-all truck as scheduling allows. Leaves should be raked to the edge of the road.

# Board Considers a Variety of Issues

## Highlights of Manchester Community Schools Board of Education Meeting October 16

The Board of Education opened their meeting with Visitor Input session. Karen Hinkley was on hand to outline the need for Art education at the elementary school level. Karen along with Cyndy Nye gave the Board members background on their ongoing efforts to provide art education for the first and second graders and the need elementary students have to prepare themselves for Art/Science expression.

Karen's group asked the board to consider adding an elementary Art Educator to the staff. President Paul Kluwe referred the matter to Committee and placed the issue on the board agenda for their next meeting.

The 1994-95 Financial Audit Report was presented by David Fisher of Rehman & Robson

Company. Fisher gave highlights of the district's excellent financial health. A fund balance of \$549,000 represents 7.8% of the total operating budget. The Capital Fund has a balance of \$3,649,000 which is to be used to construct the proposed building projects at Klager and Nellie Ackerson/Middle School's. Special funds and public programs are in excellent condition, Fisher stated. He did recommend some tightening of procedures to ensure ongoing proper accounting of all funds.

The Board appointed Crag Vitale as the 95/96 Varsity Boys Track Coach and Brian Barnard as Junior Varsity Boys Basketball Coach.

Amber Clouse and Mark Kueffner were granted waivers of membership to attend Columbia Option School. Stacey Heldt was accepted as a tuition Student for the 95/96 School year.

Board approved the Middle School Band trip to Toronto, Ontario for January 24, 1996. Band Director Cara Weissman presented the itinerary for Phantom of the Opera Theater outing. Linda Klepaczyk gave the board an update on the music program for Klager Elementary students. Linda presented an outline for a possible path of a student who is starting Kindergarten in 95/96 and 96/97. The program outlines what the students might participate in grades 1-4.

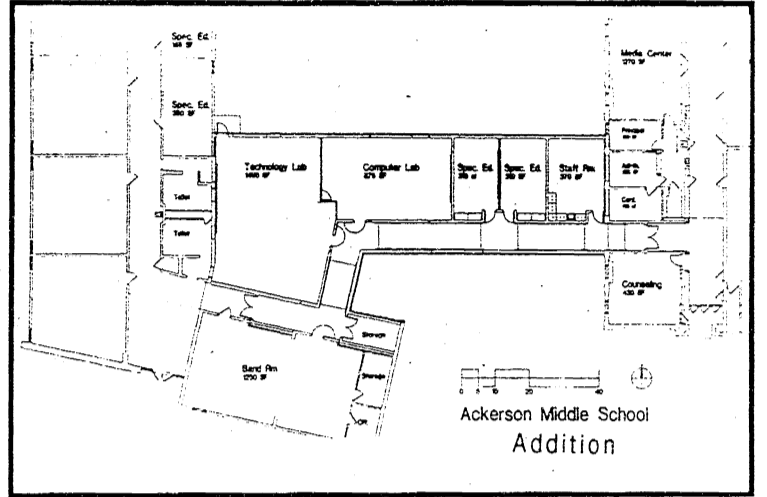

The building project was reviewed for the board and visitors by Superintendent Niedzweicki. Work will start in the spring at Nellie Ackerson and be completed before School starts in the fall. Klager work will start in the spring also but will take longer to complete.

October 6 was the official pu-

pil count day. The preliminary enrollment is 1241 students representing an increase of about 50 over last October. Elementary K-4, 513 students; Middle 5-8, 373 students; High School 9-12, 355 students. A blended count based on February and October enrollment will determine the

foundation grant compensation provided by the State of Michigan.

Manchester Tool and Die will install a sidewalk in front of the High School. The Fielders, owners of Tool and Die will provide this without cost to the school district. -EWG

# It's not just Cash Management Checking. It's checking that manages to make you real cash.

## Higher interest on higher balances. Unlimited check-writing.

**cash**  
MANAGEMENT  
CHECKING

Why let a good deal of money lie around in low-interest checking, savings or money-market accounts when it could be earning more in our Cash Management Checking account? The portion of your balance over \$5,000 earns a higher return tied to the Fed Funds Rate.\* You can write all the checks you want and use your ATM card anywhere. And it's FDIC insured. So stop by your local First of America office or dial 1-800-222-4FOA, Mon.-Fri., 8 a.m.-9 p.m.; Sun., 9 a.m.-1 p.m., to open your account by phone.

\$50,000	4.54% APY
\$25,000	4.17% APY
\$10,000	3.04% APY

Example APYs as of 9/24/95. Check with us for current rates.

**FIRST OF AMERICA Bank**

\*The interest rate for the portion of the balance above \$5,000 is tied to the weekly average Federal Funds Rate less not more than one percent, which, as of 9/24/95, is 4.81%. The portion of the balance \$5,000 and below earns an interest rate determined by the bank, which, as of 9/24/95, is 1.15%. The APY ranges from 1.16% to 4.73% on \$100,000. Annual Percentage Yields are subject to change after account opening. Fees may reduce earnings. Equal Housing Lender. Member FDIC. © 1995, FOA Bank Corporation. If hearing impaired, TDD available from 9-5 EST at (800) 289-4614. Offer available to individuals and sole proprietors only.

## THANK YOU

The organizing committee of **CROP WALK MANCHESTER 1995** would like to thank all those individuals and businesses who contributed to our October 8th effort to stop hunger. The food programs of Manchester Family Service and the Community Resource Center's Food Cupboard will share 25% of all funds raised. Hungry people cannot be productive members of society. You have taken the first steps to stop hunger. You have made a difference!

Thank you again.

## OBITUARY

**Katherine M. Furgason**  
Katherine M. Furgason, 86, of Tucson, Arizona, formerly of Manchester, passed away on October 12, 1995. Katherine was born in Manchester on March 19, 1909. She was married to Kenneth Furgason and he preceded her in death in January, 1985. Katherine was a past member of St. Mary Catholic Church, and the 20th Century Club.

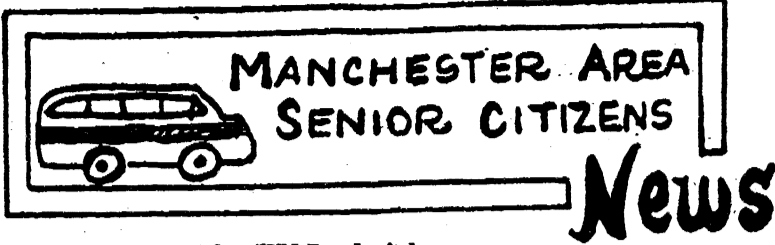

She is survived by one son, John & Anna Furgason; one daughter, Margaret Hollins; twelve grandchildren; and ten great-grandchildren. She was also preceded in death by a son, William.

The Furgason family received callers at the Jenter Braun Funeral Home on Monday with Scripture service at 7 PM Monday evening. Funeral Mass was celebrated on Tuesday from St. Mary Church. Father Edmond Van Hoof acted as celebrant with interment in St. Mary Cemetery.

## MANCHESTER AREA SENIOR CITIZENS News

by TV Ludwick

One of our local (over 50) adventurous young in heart gals named Marion Ahrens did something so very different this past summer, we'd like to share her experiences. We'd like to share with you the daily "log" of her experiences which was sent to Edna Knauss. Thanks.

Left home 5:36 Tuesday 8-8-95. Drove 633 miles first day - stayed in Atlantic, Iowa. After first day we drove many miles less & we stopped different times. Some of the places we saw were: Corn Palace in Mitchell, South Dakota, Mt. Rushmore, Bad Lands, Wall-Drug, Bear USA, Crystal Cove, Bill Cody Museum and lots of beautiful scenery. There was a 55 year Motorcycle Convention in Sturgis, South Dakota. People said this was the largest ever, over 200,000. They took over all the towns. It looked like fun and I'm sure they all were enjoying it.

We entered Yellowstone Park around 2 PM Saturday 8-12-95. We stopped at Fishing Bridge then went on to Canyon Village, rented a cabin for the night (one building with 8 units). We were going to see one of the falls & started driving Rt. 19 around Grand Canyon (so we found out), that driving is not for me. We turned around and went back to the village. Next morning we continued on to West Yellowstone Montana, checked in motel for two nights. We drove around Quake Lake, this was made during the earthquake of 1959. It was a beautiful drive. Also in West Yellowstone we went to the Imax Theater (screen six stories high, largest in the world). It made you feel like you were moving in it. The movie was on Yellowstone Park, short, but good. Monday 8-14-95, our lazy day B-4 reporting to work. Washed car, walked around & window shopped. Very expensive, tourist town only.

Tuesday 8-15-95, 8 AM reported for work at Hamilton's Stores Headquarters, located just B-4 entrance to the Park. Filled out paper work, had our picture taken for I.D. purposes, given name tags: Marion/Michigan. We received two blue checkered shirts & two aprons & was assigned to Fishing Bridge Area. Got my car registered at the Ranger Station & away we went to ask for Tom, the manager. We were introduced to several people - received our hours & meal schedules.

They showed us the Dorm. We do not get a private bath or share with two other people. We share with about 20 others. 41 steps from our dorm door to the bathroom. I'm finally remembering everything I need without making extra trips, with the schedules you never have to wait for showers, etc.

Not all college kids had left, so Betty Ann & I had to live out of a suitcase for two more nights. Betty shared with our dorm manager Ethel & I shared with a very nice girl (Margo) who had just graduated from Texas A&M. Thursday 17th we got our dorm room and cleaned it B-4 work, during break. We finally got to empty the car (I think things smelled a little musty). We have an early & late shift, we switch every Sunday: Breakfast - 7 AM, start work - 7:45 to 11:45 AM, lunch 12 noon, back to work 3 to 6 PM and dinner 6:15 PM. Late shift hours are: Breakfast - 7 AM (between 8 & 9, leftovers), lunch - 11 AM, start work 11:45 to 3:15 PM, dinner - 5:15 PM and go back 6 to 9:30 PM.

Note: Will continue this interesting letter from Marion in next week's **Enterprise**. On now to senior activities...

**Thursday, October 19:** Jan and loyal crew are serving macaroni & cheese to all seniors who are 55 or older to all who have called in to either Sharman at 428-8359 (AHEAD), or to Jan (before 10:30 on meal days) at 428-7630 for reservations. Washenaw County Nurses will be giving flu shots in the dining room from 10:30-11:30 AM to all who are 18 years of age or older and in good health. Cost is \$7.00. Remember, Medicare will not pay here, you must contact your doctor.

**Friday, October 20:** Senior bus begins pickup of seniors who wish to go along to the Saline Senior Citizens Card Party. Pickup begins at 6 PM, call Erma Alber at 428-8707 to place your name on the list.

**Sunday, October 22:** Mother-in-law's Day is here ('bout time). Give her a ring, drop in or just one of your famous smiles.

**Tuesday, October 24:** Our area volunteer nurse will be on hand at 11 AM to check your blood pressure in the dining room of Emanuel UCC. Turkey will be enjoyed at noon by all us eager eaters (suppose Jan will also cran-

## Happy Birthday, Seniors!

Senior Citizens celebrated their October birthdays on Thursday, October 5. From L-R: Florence Parr, Jeannette Micallef, Paul Schwab, Mary Smith, Bob Moran, Earl Alber

berries and pumpkin pie?). Naw, we can wait for another day— At 12:30, speaker Jacqueline Otto from Chelsea Hospital will speak on 'First American Home Care'. And at 5:30, pickup begins for the travelogue in Tecumseh, topic: Africa.

**Thursday, October 26:** Pork chops (from well-bred hogs) will delight us all—so tender. 12:30 is bingo time at the Center. And, at 6 PM, pickup starts to travel to our senior sponsored monthly card party at Freedom Township Hall which begins at 7:30 near Pleasant Lake. Come join in for the fun and fellowship, any age group are welcome. Light refreshments are served for your enjoyment.

## Senior Flu Vaccines Set for October

Influenza (flu) vaccines will be offered for three days in October in the **Blue Room at Saline Community Hospital**, 400 W. Russell Street, Saline. Appointments are not required.

Senior citizens and others considered at risk for complications from the flu can stop by for their flu shots. The vaccinations will be available from Monday, Oct. 18, from 9 a.m. to 4 p.m., and Tuesday, Oct. 17, from 7:30 a.m. to 3 p.m., and Wednesday, Oct. 18, from 9 a.m. to 4 p.m.

The vaccinations are free to Medicare patients. Those

covered by Medicare **must** bring their Medicare card with them. If you are not covered by Medicare or do not have your Medicare card with you, the fee will be \$ 10.

Influenza is a respiratory disease caused by a virus infection. Most people recover completely from flu; however, for some people, flu may be especially severe and pneumonia or other complications may develop.

Saline Community Hospital is pleased to offer a community flu vaccination program again this year. Experts have determined that

certain people are at especially high risk from flu, or its complications, and should receive the flu vaccine. This includes those 65 years old and older, and people of any age with certain medical conditions, such as diabetes, or diseases of the heart, lungs or kidneys. Those with severe anemia or lowered resistance to infection due to illness or medication are also advised to receive the vaccine.

If you have any questions about whether you should obtain the flu vaccine this year, please contact your physician.

# "Take Care of Tomorrow, Today"

## United Way Campaign Continues Through October

This week, the *Enterprise* continues its series spotlighting area services and organizations which benefit from United Way funds which are raised locally each fall. United Way places a priority on requests for funding which includes scholarship allocations for the children of the community.

This week we look at Manchester Cooperative Preschool, Manchester Summer Recreation, and Manchester Little League are all beneficiaries of the community's generosity via the United Way. Programs which serve young people have priority for Manchester United Way funding.

Manchester Cooperative Preschool will receive a \$3,000 grant from the United Way of Manchester's 1995 budget. The CoOp has indicated that United Way monies will be used to provide

scholarships, insurance and art supplies to the children at the Preschool. A part-time assistant is also slated to be funded by United Way funds to further assist the teacher and the students. The request was signed by CoOp Vice-President Breeda Miller, along with the signatures of 45 pre-schoolers!

A \$4,630 item was budgeted for the Manchester Area Summer Recreation Program. This program assists in providing school-aged children with summer playground activities in local parks and school yards, swimming instruction, and workshops, as well as a variety of age-appropriate field trips for "Junior and Senior Playground." Director Karin Hanson specified in the request for funds that scholarships are available for those who apply, since much of the program is supported by user

fees. Summer Recreation programs have expanded greatly in the past few years under Hanson's direction. Her enthusiasm and love of the children has made this program grow each year. This year it included around 100 school aged kids.

The Manchester Little League was once a part of the Summer Recreation budget. This year they established their own board and will receive \$5,000 from United Way donations. This summer 361 players on 29 teams were participants in the Little League, and players' registration fees made up more than half of their revenues. The projection for 1996 is 385 children on 32 teams. Fortunately, teams have sponsors from the community which also helps this project thrive. Scholarships for youths are available as part of the 1996 budget.

United Way helps the community in so many ways. The Manchester Township Library benefits residents of all ages and interests. Our community's Senior Citizens are served admirably by the Manchester Area Senior Citizens Council. Families who face financial difficulties and crises are assisted by the Manchester Family Services and Manchester's branch of the Salvation Army. The youth of the community are direct beneficiaries of United Way funding as they utilize Manchester Summer Recreation, Manchester Little League, and Manchester Cooperative Preschool during the course of their childhood years.

Our donations to United Way are appreciated over and over again by a large cross section of members of the Manchester community. It

would not take much imagination to determine that everyone in Manchester is touched in one way or another by a United Way beneficiary.

Perhaps this series of articles has inspired you to take a greater concern for the many ways in which United Way funds reach out to those who provide essential services to the community. You may decide to give more generously this year than you have in the past, or you may find you wish to assist in the United Way effort with your own time. If you are interested in making a donation of your time or talents, contact a United Way Board Member.

All of us gain when everyone gives generously to the United Way. You, too can "Take Care of Tomorrow, Today" when you give through the Manchester United Way.

## 7th Grade Storer Camp

Well, they survived! Almost 70 7th graders had the most interesting weekend of their lives. They took part in many activities; all of them helped to build trust and communication with their peers.

This is the fourth year that 7th graders have been involved in the Storer Camp weekend. Middle School Counselor, Mrs. Terry Monkiewicz, organizes this project and she sees so many positive things that she will probably be organizing it for a few more years.

This is only offered once a year and only to 7th graders. But if you enjoyed yourself when you went in the 7th grade and you are now in high school you could volunteer to be a

cabin leader. There are two high school kids to every 8-10 7th graders. Mr. Bill Kindt opens the invitation to the high school kids. They ask that the high schoolers be drug free and able to be in charge of the cabins at night.

This is a marvelous experience and one that the kids will remember all their lives. This is only some of what is happening at the Middle School. In the weeks to come we will be focusing on projects, clubs and special events not only at the Middle school but also at Klager and at the High School. If you are not "into" sports stay tuned. The kids in Manchester are into more than just football.

- Lois Hochstetler

## MHS Marching Band in Action!

On the Saturdays of October 7th and 14th, the MHS Marching Band participated in two Festivals. The first, the Vandercook Lake Invitational, was non-competitive and at the second, M.S.B.O.A. Festival at Jackson Northwest High School, they competed against 14 other bands for a rating.

At each Festival, the Band performed four songs with an "American" theme: "Hot Time in the Old Town Tonight", the theme from "Cabaret", "One Moment in Time", and "Moo Juice." At the Vandercook Lake Invitational, other bands performing included Springport, Vandercook Lake and Dansville.

At the M.S.B.O.A. Festival, seventeen area bands performed. (Two bands participated which did not compete for a rating.) The

MHS band had to stand up to extremely strong wind that blew hats and plumes off and made flags next to uncontrollable. But the band managed to still look great and receive a Division II rating.

Most people agree that, next to the stop at McDonald's afterwards, the best parts about Festival are the constructive criticism received from the judges, seeing other bands in action and getting new performance ideas, which helps our band look better at home football game halftime shows.

Come see the Manchester High School Marching Band in action this Friday, October 20, at the Athletic Field. They will be joined by 7th & 8th grade band members to present terrific pre-game and half-time shows.

## ATTENTION DEFICIT DISORDER THE MYTHS

- MYTH: Attention Deficit Disorder (ADD) does not really exist. It is simply the latest excuse for parents who do not discipline their children.
- MYTH: Children with ADD are not different from their peers; all children have a hard time sitting still and paying attention.
- MYTH: Only a few people really have ADD.
- MYTH: ADD can be prevented.
- MYTH: All children with ADD are hyperactive and have learning disabilities.
- MYTH: Many children are incorrectly diagnosed as having ADD.
- MYTH: Medication can cure students with ADD.
- MYTH: The longer you wait to deal with ADD in students, the better the chances are that they will outgrow it.
- MYTH: There is little parents and teachers can do to control the behavior of children with ADD.
- MYTH: Students with ADD cannot learn in the regular classroom.

### DO YOU NEED THE FACTS ABOUT ADD?

You do if you thought any of the above mentioned myths were actually facts. P.A.S.S. has the facts. We have gathered a lot of information about ADD, ADHD, LD, and many other special need issues. C.H.A.D.D. is another source for information about ADD; call them at 800-233-4050.

This list of myths (and the facts that are not listed here) were taken directly from a document developed by the Chesapeake Institute and The Widmeyer Group as part of contract # HS92017001 from the office of Special Education Programs, Office of Special Education and Rehabilitative Services, United States Department of Education. (They encourage reproduction and distribution of this publication.)

P.A.S.S. is a local parent/student support group. We meet Wednesdays at 7 PM at Klager. Call and leave us a message about what information you need, 428-0738.

\*\*\*\*\*

### SPECIAL PASS MEETING:

Dr. Pat MacQuarrie,

Director of Special Education for the Washtenaw Intermediate School District (WISD), is our invited speaker for Wednesday, November 1. She will inform us about the services and functions of WISD.

## AT HOME. IN THE COUNTRY.

Whether you're thinking of building or buying a home—or simply refinancing the home you already own—let Farm Credit Services custom build your home loan.

A Country Home Loan from Farm Credit Services offers flexible terms at competitive interest rates. You can select an adjustable rate mortgage with interest rate caps for your protection. Or a fixed rate mortgage with the added security of knowing your payment cannot change for a specified number of years.

**Varsity Women Victorious over Vandercook**

Thursday, the Varsity Basketball Team took up the challenge of the Vandercook Lake Jay Hawks on their own turf. The exciting game adds yet another win to the Dutchmen's record.

The game began with the Dutchmen storming ahead to 15-8 over the Jayhawks Stacy Mann scored on a bank-shot, Karen Goodell laid the ball in for two Jennette Branch swished a pair of free-throws. Sandi Fielder went all out, sinking four free-throws and then shooting a nice on just inside of three-point range. She tried again at the buzzer and sunk a long three-pointer almost at half court.

Manchester outdid Vandercook in the second quarter as well. Michelle Schaible scored on a jumper and a free throw, Jamie Knouase on a field goal, and Stacy Mann on a free throw. Jennette put in a pair of free throws followed by a great lay-up and Sandi Fielder stole, broke away and scored. At half time it was 27-16 in favor

of Manchester.

The third quarter brought no surprises with Julie Porter scoring five, Jamie Knouase scoring six, and Michelle Schaible scoring twice off free throws. Jessica Porter stopped a drive to the hole with her defense. Although the Dutchmen had gotten into foul trouble, they were still up 39-24.

The Dutch got somewhat sloppy near the game's end, being out scored 15-22. Julie Porter put in two free throws before Sandi Fielder exploded again. She sunk a free throw then a jump shot, then another three pointer and finally a lay up. Michelle Schaible sunk five free throws in a row thanks to two fouls and a technical foul against Vandercook Lake. Stacy scored one final free-throw before the game ended 54-56 in favor of Manchester.

The night's MVP was definitely Sandi Fielder, with 19 points. Keep up the hard work, Dutch!

-Patrick Chapin

**JV Girls Basketball**

The JV Women's Basketball Team met Vandercook Lake Jayhawks on court and were outdone just slightly in many aspects, ending in a 33-38 loss.

The first quarter was tough on Manchester as they were out played on offense and defense. The first quarter score ended at 4-8, including a smooth lay-up by Tracey Staples. The second quarter was closer, but the Jayhawks out played them once again. Melissa Hoelt and Lindsay Hosmer both sunk long jumpers, putting the score at 8-13.

The third quarter was kept alive thanks to the efforts of game MVP Amy Gall. She started out with a jump shot. Then Lindsay Hosmer sunk a

very long jumper from just inside the three-point line. Amy attacked and put in a hard drive and lay up, then a free throw. She followed with another lay-up, and then another, and another. When the dust settled at the end of the third quarter, Amy had eleven, and the score was Manchester 21, Vandercook 25.

The fourth quarter was fast and furious. Cortney Whitaker scored on a few lay ups and a pair of free throws, before fouling out. Amy Gall sunk a shot, as did Mary Barrett. Lindsay Hosmer provided excellent defense before she fouled out. The final scored ended Manchester 33, Vandercook Lake 38.

You'll get them next time, Dutch! -PC

**MANCHESTER'S "FENCE" DOES THE JOB!**

The Flying Dutchmen turned in another outstanding job on both the deFENCE and ofFENCE again in securing their sixth consecutive win.

Hapless Hanover-Horton was no match for our hometown boys when they ventured into H-H's home field. The Flying Dutch scored 42 points in the first half with a very balanced attack and a smothering defensive job. The win earned Manchester at least a tie for the Cascades Blue Conference title. Only Grass Lake stands in the way of an outright Blue Conference title.

The win was highlighted by a very balanced attack. Aaron Garrett started the scoring with a three yard run. Mark Harris took a 14 yard pass from Zach Maghes for the second score. Schleicher ran for 20 yards. Speedy Nick Davis ripped off 22 yards for one of his classic TD's. Schleicher scored again on a 25 yard aerial from Maghes. Steve Spurr scored from 11 yards out. Scoring was completed with Steve Riske on a 9 yard jaunt.

Trevor Schleicher converted seven extra points with his gifted toe. Aaron Garrett had two sacks and one fumble recovery in a crushing defensive effort that held Hanover-Horton's Comets to a minus 3 yard rushing. The Comets' only score came on a 8 yard pass from Moore to Swihart.

Next week's outcome in

the Big Eight meeting between undefeated Reading and Union City will determine the crossover opponent should Manchester be successful against Grass Lake. Grass Lake is currently 3 and 4 overall and 2 and 4 in the Cascades Blue Conference.

**GOOD LUCK DUTCH!** -EWG

**Student Athletes Can Get Free, Customized Mouth Guards**

The University of Michigan School of Dentistry will offer free, customized athletic mouth guards to elementary, junior high, high school and college students in Washtenaw County. Fittings will be 9 AM to noon on October 21 at the Mouth Guard clinic, third floor, School of Dentistry Building.

The impression process takes about ten minutes once you reach the chair, although there is usually a 30- to 45 minute wait before you can be seated, depending on the crowd. The finished guards will be available for fitting and pickup about two hours after the impressions. No appointments are necessary. Students will be taken "First come, first served," while supplies last. The clinic will be able to make 125 mouth guards.

U-M faculty members, dental students and local den-

tists will make the protective mouth guards that are required for most student athletes.

"A U-M School of Dentistry study shows that the customized mouth guards are considerably more comfortable than those bought in stores," said William C. Godwin, U-M professor of dentistry and specialist in sports dentistry. "When we surveyed the men's and women's lacrosse teams at Ann Arbor Pioneer High School, 34 of 36 players preferred the customized mouth guards made at the clinic to those available in stores. The more comfortable the guards are, the more likely students are to wear them."

The clinic is funded by a grant from Samuel Harris, a U-M dental graduate who practices in Detroit.

For more information, call 764-1559.

## Middle School Football

7th grade football is a learning experience. Some kids have the "instinct" for this game and some need the time to get the feel for the game. Trying to concentrate on the football, keeping all the plays in your head and then thinking about another team coming at you is a lot!

The 7th grade Dutch lost to the East Jackson Trojans, Wednesday the 18th, by a score of 22-0. It was beautiful weather and yet both teams seemed to have trouble hanging onto the ball.

Some of the highlights for the Dutch include: #12 William Robertz' pass to #18 Jonathan Miller for some significant yardage. Other players making yardage gaining runs were: #25 Brandon Lentz, #34 Nolan Ahrens, #7 Holly Horodeczny and #18 Jonathan Miller.

Although East Jackson appeared to have a bigger team physically, the Dutch still came up with some good tackles. These included: #40 Brett Maki, #55 Janie Jarels, #62 Evan Wahl and #27 Nick VanBogelen.

As the 7th grade team finished, the 8th grade team exploded onto the field. What a difference a year makes! These 8th graders were more confident and fired up.

The first Dutch drive consisted of #9 Jason Flint, #2 Derrick Hanewald and #50 Pat DuRussel all making significant

yardage. It culminated in #9 Jason Flint running in for the touchdown. #16 Tyler Breilein's pass to #9 Jason Flint was good for the 2 point conversion and the Dutch led 8-0.

East Jackson came right back to score but defensemen #33 Jeremiah Tobias and #3 Jason Schaible made them work for it. The Trojans tied it up 8-8.

#9 Jason Flint led the next Dutch drive by carrying the ball many times. One time he not only carried the ball but an East Jackson defenseman to gain an extra five yards. #2 Derrick Hanewald ran in for the touchdown and #9 Jason Flint ran in for the 2 point conversion. At the end of the first half the score was Manchester 16 - East Jackson 8.

The last of the third quarter and the first of the fourth was the next Dutch drive. It started when #23 Mark Hollosy intercepted an East Jackson pass. #50 Pat DuRussel ran in for the touchdown. #23 Mark Hollosy ran in for the 2 point conversion. The score was now 24-8, Manchester.

With two minutes left in the game, the Trojans came up with one last drive, ending in a touchdown. The 2 point conversion was no good. The final score of the game was Manchester 24, East Jackson 14.

The 7th and 8th grade teams travel to Northwest Wednesday. Good Luck! -L. Hochstetler

## JV Dutch Conquer the Comets

It was a beautiful night as the Dutch JV took on the Hanover Horton Comets.

The Dutch kicked off to the Comets and on the very first play Hanover Horton fumbled and #87 Keith Dettling recovered and Manchester was on its way! Three plays later #89 Terry Coleman ran in from 7 yards out for a touchdown. The kicked extra point was good. The Dutch took the early lead 7-0.

Manchester again kicked off to the Comets. TWO plays into their drive #30 Nick Niehaus intercepted a Comet pass. Manchester drive ended when #10 Mike Meranuck passed to #86 Eric VanBogelen for another Dutch touchdown. The kicked extra point was good. The score: Manchester 14, Hanover Horton 0.

The third time was the charm for the Comets, as they took the Manchester kick off. This time their drive resulted in a touchdown. However the 2 point conversion was no good. The Dutch now led 14-6, and that ended the first quarter.

The next Manchester drive got them all the way to the one yard line. There the Dutch fumbled and the Comets took

over. But Hanover Horton fumbled in the end zone and #66 Jon Hochstetler recovered the ball for a Manchester touchdown. The 2 point conversion was no good and the score was Manchester 20, Hanover Horton 6.

Hanover Horton was trying to put together a drive when their quarterback tried to pass. He made a wild scramble and when he finally threw the ball #24 Bill Alber intercepted it. Manchester's touchdown came when #44 Kirk Horodeczny ran it in. #10 Mike Meranuck passed to #86 Eric VanBogelen for the 2 point conversion. Manchester now led 28-6.

Just before the end of the first half found #89 Terry Coleman with a 60 yard touchdown run and then he kicked the extra point. At half time the Dutch led 35-6.

This week's "Dangerous Dutch Defense" includes #72 Chris Kemner, #24 Bill Alber, #36 Nolan Westcott, #20 Derek Hanselman, and #78 Tim Hough. These and other defensemen keep the opponents working for what little they get.

As evidenced by the score, Manchester also has an "Awe-

some Offense". #48 Mike Haskin, #64 Eric Flint, #77 Levi Smith, #14 Justin Turk and #84 Jim Hall are the ones who may not carry the ball for yardage or even make any touchdowns, but these players make the plays happen.

Hanover Horton came on strong in the third quarter. It seemed they dominated most of the quarter. Their drive ended in a touchdown and the 2 point conversion was good. Yet, at the end of the third quarter, Manchester still led 35-14.

The Comets were trying to put together a drive in the fourth quarter when #86 Eric VanBogelen intercepted a Comet pass and ran it in for a touchdown. The kicked extra point was no good. The score was Manchester 42 - Hanover Horton 14.

At times the Dutch are their own worst enemies, as penalties gave Hanover Horton more yardage than they ran for. The Comets got all the way to the 1 yard line but could not make the touchdown. The game ended and the final score was Manchester 42 Hanover Horton 14.

This Thursday the JV Dutch travel to Grass Lake. -LH

## Olivet College Fall Athletes

Geoff Brooks, a freshman at Olivet College, is a member of the Olivet Football team during the 1995 fall sports season. The Fighting Comets are a member of the Michigan Intercollegiate Athletic Association (MIAA) and the National Collegiate Athletic Association (NCAA) - Division III.

Geoff is a 1994 graduate of Manchester High School.

Olivet College is a liberal arts college located in south central Michigan, celebrating its 152nd year in 1996. Olivet offers 14 intercollegiate sports and is a founding member of the Michigan Intercollegiate Athletic Association - the oldest athletic conference in the nation.

## U-M Graduates listed

Some 1,400 University of Michigan students on the Ann Arbor campus became candidates for their degrees at the end of this summer. Some of them attended the University's spring commencement exercises last April; others may participate in the winter commencement in December.

Among those degree candidates was Susan Gail Amrhein, of Manchester, who expects to receive her Master of Architecture Degree from the College of Architecture and Urban Planning.

## Northwood Automotive Industry Show utilizes local talent

Northwood University recently held their Northwood Automotive Industry Show, the largest outdoor auto show in the nation. Northwood Automotive Industry Show is also the original "Auto Show" in the USA. This year Toyota debuted a new vehicle at Northwood and the prototype two-seater Mustang also made its premiere there.

Eight students who apply for the positions are chosen to comprise the student executive board of the Automotive Industry Show.

Robin M. Fleck, a 21 year-old senior from Manchester, MI, served as promotions manager. She has already earned an Associate of Arts in advertising and will graduate this spring with a BBA in marketing/management and an additional AA in automotive marketing. Robin has been actively involved with the auto show for the past

three years. The first year she was a team member of the GMC Truck Display. In her sophomore year she started a new display—Team Snowmobiles and was the captain of that display for the 1994-1995 auto shows. She was the recipient of the "Best Specialty/RV Display" Award both years. Robin is also a member of the American Advertising Federation. She is the daughter of Daniel and Shannon Fleck of Manchester, MI.

Northwood University is a private, accredited college specializing in managerial and entrepreneurial education offering two and four year degrees in a variety of enterprise fields. The college emphasizes the importance of free enterprise and is dedicated to the preservation of the free market and the important relationship between business and the arts.

### American Legion Auxiliary

The American Legion Auxiliary met at the Legion Home on October 11, 1995 with 21 members. The meeting was called to order by President Walkowe. Roll Call was taken by the Secretary and the minutes of the September 13, 1995 meeting were read, corrected and approved.

Phyllis Baker reported one new Senior member, Dawna Stockwell and two Junior members turned Senior, Kelli Stockwell and Amber Clouse join our ranks. Welcome aboard ladies.

Joyce Stein reminded Unit of upcoming Christmas gift shop at V.A.-Ann Arbor Hospital. She will ask for volunteers at November meeting. Also, small personal items are desperately needed for patients at the hospital. **We were asked to bring same to November meeting.**

Diane Hughes announced plans confirmed for Veterans Day potluck on Sunday, November 12 at 2:00 PM at the Hall. Bring dish to pass, meat will be furnished. Diane also asked for ideas concerning Christmas "gathering"; i.e., date, family, adults only, etc.. Please contact Diane or Laura Deacons with comments.

Maggie Tapping expressed dire need for non-perishable (can/box) food items for the Ronald McDonald House. As part of our ongoing commitment to the interest of all responsible youth organizations, we are requested to **bring items to the November meeting for distribution to Ronald McDonald House.**

The subject of Auxiliary pins was discussed at this meeting. Anyone desiring pins (membership, officers', etc.), please contact secretary. Also, auxiliary hats are available upon request.

## Shakespeare Reading Club

The Shakespeare Reading Club met on Tuesday, October 10th with Sallie Anderson to hear and witness a video lecture by Professor Peter Saccio of Dartmouth College.

Entitled "Shakespeare and English History," the lecture was but one of a series of talks covering "The Comedies, Tragedies and Histories of Shakespeare." This lecture dealt with those plays which dramatized political events of medieval times and were named for the ruling monarchs regardless of the importance of the role given to the king himself.

In the play Richard II, the king is forced to relinquish his crown by the machinations of his uncles and cousin Henry Bolingbroke. This play was written late in Shakespeare's career although dealing with a time period that preceded his other historic plays. His particular talent, that set him apart

from other playwrights of Elizabethan times, was his way of portraying the political events and military campaigns of the period lightened by glimpses into the lives of common folk whose lives were lived in the shadow if the intrigues in high places. He thereby provided the audience with moments of both comedy and tragedy in relief from the larger dramatic scenes.

Without belaboring the adage that "history repeats itself," he noted that he had found it interesting to give this lecture twenty odd years ago to students who were also following the daily news of Watergate and President Nixon's impending resignation.

Richard II differs also from Shakespeare's earlier historic dramas in having no battlefield scenes. The action turns entirely on the ambitions, intrigues and legal manipulations of Richard's uncles and cousins in their scheme to wrest the crown from him. The crown was eventually bestowed upon his arch enemy, Henry Bolingbroke, who thereby became Henry IV of England.

## Town Meeting to be held on Washtenaw County Health Improvement Plan

The public is invited to attend an upcoming Town Meeting on October 26th at 7:00 PM to discuss concerns about local health needs in the Manchester community. In cooperation with HIP (Health Improvement Plan) Washtenaw, the Community Resource center will sponsor the meeting to be held at St. Mary's Parish Center.

The overall mission of HIP Washtenaw is to actively collaborate with the community to develop plans which will contribute to the improved health of its people. The project goal is to decrease premature death, disability and illness by assessing and prioritizing health needs of the community.

HIP-Washtenaw is following a national trend in Public Health to develop a broad based community effort intended to improve the health of its residents. The end result of this planning process will be an action plan which will contribute to the improved health of Washtenaw County Residents.

Be a part of this effort to improve the health of our community. Call the Community Resource Center at 428-7722, to reserve your space at the Town Meeting for October 26th. A response is requested by October 20th.

## Olivet College Fall Athletes

**Geoff Brooks**, a freshman at Olivet College, is a member of the Olivet Football team during the 1995 fall sports season. The Fighting Comets are a member of the Michigan Intercollegiate Athletic Association (MIAA) and the National Collegiate Athletic Association (NCAA) - Division III.

Geoff is a 1994 graduate of Manchester High School.

Olivet College is a liberal arts college located in south central Michigan, celebrating its 152nd year in 1996. Olivet offers 14 intercollegiate sports and is a founding member of the Michigan Intercollegiate Athletic Association - the oldest athletic conference in the nation.

## U-M Graduates listed

Some 1,400 University of Michigan students on the Ann Arbor campus became candidates for their degrees at the end of this summer. Some of them attended the University's spring commencement exercises last April; others may participate in the winter commencement in December.

Among those degree candidates was **Susan Gail Amrhein**, of Manchester, who expects to receive her Master of Architecture Degree from the College of Architecture and Urban Planning.

## Northwood Automotive Industry Show utilizes local talent

Northwood University recently held their Northwood Automotive Industry Show, the largest outdoor auto show in the nation. Northwood Automotive Industry Show is also the original "Auto Show" in the USA. This year Toyota debuted a new vehicle at Northwood and the prototype two-seater Mustang also made its premiere there.

Eight students who apply for the positions are chosen to comprise the student executive board of the Automotive Industry Show.

**Robin M. Fleck**, a 21 year-old senior from Manchester, MI, served as promotions manager. She has already earned an Associate of Arts in advertising and will graduate this spring with a BBA in marketing/management and an additional AA in automotive marketing. Robin has been actively involved with the auto show for the past

three years. The first year she was a team member of the GMC Truck Display. In her sophomore year she started a new display—Team Snowmobiles and was the captain of that display for the 1994-1995 auto shows. She was the recipient of the "Best Specialty/RV Display" Award both years. Robin is also a member of the American Advertising Federation. She is the daughter of Daniel and Shannon Fleck of Manchester, MI.

Northwood University is a private, accredited college specializing in managerial and entrepreneurial education offering two and four year degrees in a variety of enterprise fields. The college emphasizes the importance of free enterprise and is dedicated to the preservation of the free market and the important relationship between business and the arts.

## People

### Don't Drink and Fly!

Even with her magical powers, this witch couldn't avoid a collision after consuming those beverages we noticed hanging from her back pocket. The residents of this home at Austin and Neal Roads have provided a timely and important message! Be careful - and remember, it's not a good idea to drink and DRIVE, either.

## SHERIFF SCHEBIL OFFERS TIPS FOR A SAFE HALLOWEEN...

With autumn's invariable arrival, we can look forward to enjoying the vibrant colors of the season; wind-scattered leaves; harvest moon-lit nights; and of course, one of the most important holidays for children—Halloween!

"It won't be long before our little ghosts and goblins are out on the prowl again, states Washtenaw County Sheriff Ronald J. Schebil. "Yet, before we send them off on their "trick-or-treating" adventures, I'd like to remind parents of few simple safety tips they can follow, that will help ensure their children have both a fun and safe Halloween.

### HALLOWEEN SAFETY TIPS

Children should be accompanied by a responsible adult when they go door-to-door.

If no adult supervision is available, keep children in large groups. Never allow your child to walk alone! Also, be sure you know which friends your children will be with and which route they are taking.

Tell your children to "trick or treat" in their own neighborhood and in well-lighted areas. (Daylight hours are best.)

If children are going out after dark, however, make sure they carry a flashlight. Costumes should be made of light-colored and/or reflectorized material.

Make sure children's costumes fit well and that their vision is not hampered. (Make-up or facial paint instead a mask would be a much safer choice.)

Instruct children to remove face masks before crossing the street and remind them to "LOOK BOTH WAYS" for on-coming traffic! Teach your children to use sidewalks and crosswalks whenever possible. If there are no sidewalks, instruct them to walk on the LEFT side of the street, facing on-coming traffic.

Leave your porch light on so children will know they are welcome to "trick or treat" at your home. Warn your children against going into the homes of anyone they do not know—for any reason!

Instruct children never to eat anything until they are home and the treats have been examined by parents. Wash and cut fruit before eating. Check the wrapper of commercial treats for signs of tampering. *Discard anything unwrapped.* Call local police and report any suspicious treats!

"Remember, basic common sense and a great deal of parental input are the necessary ingredients for a safe Halloween," concludes the Sheriff. "The Washtenaw County Sheriff's Department will be looking forward to a fun, happy and haunted night. Please help us assure that it is a safe trick-or-treat holiday for all of our children!"

Contact your local law enforcement agency for additional, up-to-date information on candy checkpoint locations in your area, or call the Washtenaw County Sheriff's Department, Crime Prevention Hotline, at (313) 971-4614.

## Make a sound investment in better hearing.

We all joke about our kids not listening to us... but what if your child really can't hear what you're saying? If you think your child might have a hearing problem, scheduling a hearing evaluation by Chelsea Community Hospital's certified audiologist is the surest way to find out.

We can make a big difference in the way your child hears - and that can make a big difference in the way she feels!

Hear better:

## Washtenaw County AFA to sponsor informational meeting

Concerned parents all over the country are sounding the alarm that they can no longer protect their children, in this high-tech era, from the pornography industry.

The Washtenaw County American family Association will sponsor an informational meeting for concerned citizens on the devastating effects of pornography on our communities. It will be held on Saturday, October 21, 1995 from 9:00 to 11:00 AM at the Church of Christ, 530 W. Stadium Blvd., Ann Arbor (across from Pioneer High School).

A light breakfast will be served. Featured speakers will include Richard Thompson, Oakland County Prosecutor; Bill Johnson, Michigan AFA Director, and "Ginger," a victim of pornography.

Local contact for the AFA is Joanne Fredal, 428-8010

## MHS Equestrian Team Celebrates a successful Completion to their Season

### THANK YOU

The Foss Family would like to thank the Manchester Rescue Squad and HVA for their quick response and care of Rick on October 9th. Also thank you to Kara Menzel for staying and all your reassurances and follow up and concern. Thank you again.

Roman, Judy & Rick Foss

I would like to thank the doctors and staff at St. Joe and Chelsea Hospitals. Also Dr. Thomas O'Brien and his nurse, Karen. Also Pastor Cooper and the wonderful people at Victory Baptist Church, along with Pastor John from the Chelsea Christian Fellowship Church. Thanks to my wonderful friends and neighbors at Wood Hill Apartments, and my loving family. Also my family in Kentucky who drove so many miles to be with me through my surgery. To my friends everywhere for your prayers, food, cards, visits, flowers everything! Now last but certainly not least, my wonderful Lord and Savior, Jesus Christ. Once again His Great Light shines through. He still hears and answers prayer.

Gladys Fillyaw

I had just finished reading about the area farmers helping another farmer in Manchester, and I thought, "how nice". Then my car died at the local grocery store. My thanks to Terry Conway who happened to be there also. She not only took me and my children home but also all my groceries. "Only In Manchester", I believe it! Thank you Terry.

Lois Hochstetler

The 1995 Manchester Equestrian Team has been coached by Sandee Sheats and Leonard Ellsworth. This year's team consisted of twelve equestrians ranging from their freshman to their senior years.

Senior Darci Hock, Junior Stacey Burmeister, Sophomores LeAnne Ellsworth, Marie Haeussler, Lindsay Kloster, Kelly Parr, Sarah Patak, and Dawn Shaw, and Freshmen Laura Haeussler, Sarah Jefferson, Laura Kanta and Angie Makielski round out this team who completed their season in a match held Sunday, October 8th, in Belleville.

Last Sunday's score of 105 put the Equestrians in second place to Chelsea, who finished with 119 points.

Individual scores were as follows:

Stacey Burmeister received a 6th place in Flag Race and in Cloverleaf Race, 5th place in Speed and Action, and First in the Two Person Relay Race along with Darci Hock.

LeAnne Ellsworth received 1st place finishes in both Western Equitation and Trail, 3rd in Western Bareback, 4th in Hunt Seat Equitation and Western Reining, and 6th place in Western Fitting and Showing.

Laura Haeussler received a second place in the Two Person Relay Race along with sister, Marie Haeussler; and 7th place in Speed and Action.

Marie Haeussler took 2nd in the two person relay race with Laura, Fourth in Speed and Action, 5th in Clover Leaf Race, and Sixth in Western Bareback.

Darci Hock placed first in the Two Person Relay along with Stacey Burmeister as well as in the Speed and Action event and Western Showing and Fitting; a Second in Hunt Seat Fitting & Showing, Third place in the Clover Leaf Race, and Fifth in Trail.

Laura Kanta Received 3rd place in Saddle Seat Bareback, and Seventh places in Saddle Seat Patter, Hunt Seat Bareback, and Western Equitation.

Angie Makielski was First in Western Bareback, followed up with a Third in Saddle Seat Pattern, Fourth in Saddle Seat Equitation,

Sixth in Saddle Seat Bareback, and Seventh Place in Saddle Seat Fitting and Showing.

Kelly Parr Placed third in Western Equitation and Wester Reining, and Fourth in Hunt Seat Fitting and Showing.

Sarah Patak earned third place in Equitation Over Fences, and also participated in Hunt Seat Fitting and Showing and Hunt Seat Equitation.

Dawn Shaw placed second in Equitation Over Fences, and also participated in Hunt Seat Fitting & Showing, Hunt Seat Equitation, and Hunt Seat Bareback events.

Equestriennes Sarah Jefferson and Lindsay Kloster were unable to participate in this year's final show.

Congratulations to these young women on this year's season, and a big thank you to the coaches for your dedication and encouragement.

### Freedom Township

This 4 Bedroom home on the corner of Bethel Church and Schneider Rds. features a split stone fireplace, 2 baths, and walkout lower level. Drive by and see the incredible landscaping and a truly immaculate home. \$169,000

## Mission Health

Mission Health has united four well-respected names in health care: Providence Hospital in Southfield, St. Joseph Mercy Hospital in Ann Arbor, Saline Community Hospital in Saline and McPherson Hospital in Howell.

A community-based health care network, Mission Health provides quality, accessible health care to residents across Southeast Michigan. In our four hospital units and more than 40 outpatient and specialty centers, we provide patients with virtually every medical, surgical, therapeutic and rehabilitative service with the outstanding quality and compassionate care that have hallmarked our organizations for decades.

Mission Health ranks as one of the largest health care providers in Southeast Michigan with:

## -a network of caring

- 1,250 acute care beds
- 1,444,000 outpatient visits annually
- 9,070 births each year
- 1,880 physicians

### **Making a difference in our community**

But Mission Health is more than just a big health organization providing traditional kinds of health care. It's an organization committed to making a difference in the health of our communities by providing health education classes and developing programs to keep people healthy.

Physicians, associates and volunteers at each of the Mission Health hospitals and outpatient centers are dedicated to the organization's Mission and Values:

*Building upon the traditions of its sponsors, the Daughters of Charity and the Sisters of Mercy, the purpose of Mission Health is to improve the health of the people it serves by caring for the whole person.*

*Mission Health's vision is to create a model regional health care network that embodies the values of the sponsors:*

- *Advocacy for the poor*
- *Inventiveness to infinity*
- *Justice*
- *Mercy*
- *Quality service*
- *Respect for human dignity*
- *Simplicity*

# On the Mission Health drawing board-- growing the network of care

The St. Joseph Mercy-Oscar Haab Building in Ypsilanti will show the community a new sign and will offer the services of more primary care physicians.

Mission Health continues to expand its satellite network to serve the needs of the growing populations in its service area.

## Just opened...Mission Health Professional Office Center

The Mission Health Professional Office

### Mission Health signs give familiar landmarks a new look

Passers-by may notice a new look on signs at Providence, St. Joseph, Saline and McPherson hospital and satellite locations as Mission Health signs go up. The photo at left shows one of the new signs at a Providence facility. The St. Joseph Mercy-Oscar W. Haab Building in Ypsilanti (top), also dons the new exterior look.

Inside the Haab building, things have changed, too, with the addition of several new physicians--internist/pediatricians John Frohna, MD and Naomi Rosenberg, MD; and internists Gerald Stair, MD and Jean Butler Cederna, MD. Continuing to practice in the Haab Building are the Arbor Medical Group's three internal medicine physicians: Dr. Alex Moyyad, MD; Steve Gao, MD; and Karen Virley, MD.

Other services offered in the Haab Building are walk-in laboratory services, family nursing services and a community room available for group use.

Center, located at 10 Mile and Haggerty roads in Novi, recently opened as home to the three-physician Providence Children's Medical Group: E. Albert Tzeel, MD; Regina Z. Rizk, MD; and Marcia J. Newcombe, MD. Additional services planned are Internal Medicine, OB/GYN, imaging, laboratory and community health education, including an outpatient diabetes education program.

## Coming in 1996...Mission Health Farmington Hills Center

Mission Health Farmington Hills Center, a 50,000-square-foot facility at Northwestern Highway and Inskter Road, is scheduled for completion in 1996. It will house urgent care, clinical laboratory, diagnostic imaging, pharmacy, physical therapy and community health education, as well as offices for 35 primary care physicians and specialists.

## Coming in 1997...Mission Health Canton Center

The Canton Health Building, located at Ford and Lilley roads, is rapidly outgrowing its space. Current services include adult urgent care, laboratory, radiology, pharmacy, physical therapy and occupational health services, as well as office space for primary care and orthopedic physicians.

By mid-1997, this Center hopes to move to a 70,000-square-foot building in Canton's Summit Park development, where area residents will find adult and pediatric urgent care, laboratory, radiology, mammography, ultrasound and physical therapy services, a pharmacy, community health education and home health care. The new Mission Health Canton Center will also provide office space for primary care physicians and specialists.

## Caring for those in need

Mission Health is committed to caring for individuals in other than traditional health care settings, reaching out into the community to help those whose health care needs are under-served.

Providence Hospital is sponsored by the Daughters of Charity; St. Joseph Mercy, Saline and McPherson hospitals are sponsored by the Religious Sisters of Mercy. Both of these congregations of sisters are committed to providing health care to individuals regardless of ability to pay. So, in addition to the uncompensated care that it already provides, Mission Health has made an additional commitment. Over the next five years, the organization will dedicate an additional \$10 million to provide for the special needs of the poor in our service areas.

Some of the organizations that have benefited to date are:

### Ann Arbor area -

Habitat for Humanity of Huron Valley; Leaps and Bounds, a primary preventive care program of the Poverty and Social Reform Institute; Catherine's House on the St. Joseph campus, which dispenses clothing and non-perishable foodstuffs, and the Webber School Student Health Clinic for primary preventive care.

### Detroit area -

St. Vincent Sarah Fisher Center; Manna Meals Soup Kitchen; Healthy Detroit; Joy of Jesus Detroit Revitalization/Dissemination Model Program; and Bishop Borgess Catholic High School for a primary preventive care program for at-risk young women.

Mission Health associates helped Habitat for Humanity build a house in Ypsilanti.

Above, The Neighborhood Health Clinic is a primary care clinic serving the uninsured and under-insured in Ypsilanti and Ypsilanti Township. A similar program at the Immaculate Heart of Mary parish in northwest Detroit will begin serving the working poor this month.

Left, Saline Community Hospital, as part of its community outreach, began a Parish Nurse Program to work with area churches in helping church members improve their health status and gain access to appropriate care.

Above, Deborah L. Peery, MD, an internist at Saline Community Hospital, advises her patients to do monthly breast self exams.

Mission Health offers women a choice of locations and services for breast care, education and mammography.

Mary B. Killeen (right) and Cheryl R. Rusk of McPherson Hospital worked with the American Cancer Society to develop a breast cancer awareness program for Livingston County female high school students.

# Oncology services at Mission Health-- winning the battle against cancer

One in every eight or nine American women  
will develop breast cancer...but if it's  
detected early, the disease is 90 percent curable.

## Breast Cancer--early detection emphasized during October, Breast Cancer Awareness Month

Mary Elizabeth Roth, MD, chairperson of Family Practice for Mission Health and Oakland Unit president for the American Cancer Society (ACS), stresses: "A woman's primary care physician will encourage her to do monthly breast self exams and have regular mammograms as recommended by the ACS." These recommendations include a baseline mammogram between the ages of 35 and 40; mammograms every one to two years between ages 40 and 50 and every year after age 50. Breast self exam should become a monthly ritual for women, Dr. Roth stresses.

Deborah L. Peery, MD, an internist on staff at Saline Community Hospital, agrees: "Most women may only see their doctors every year or so. So by doing regular monthly breast self exams (BSE), they're more likely to notice changes. I tell patients that if they feel anything abnormal in their BSE, they need to get to the doctor for evaluation, diagnosis and any needed treatment."

McPherson Hospital's Mary B. Killeen, director for Women's and Children's Services, and Cheryl R. Rusk, McPherson's manager for Radiology/Imaging, concur with the focus on monthly breast self-exam and regular mammography. The two worked with the American Cancer Society and Livingston County schools to develop an innovative educational program to teach high school junior and senior female students the importance

of breast self exam. A breast cancer survivor in her twenties shares her experiences and students watch a video, receive BSE instruction and take-home literature to share with other women in their families. For information, call 517-545-6656.

Dr. Roth applauds this sharing of information between the generations: "Our mothers, as women over 50, are at greatest risk for breast cancer, since 75 percent of breast cancers occur in women over 50."

In recent years, there has been controversy about screening mammography for women 40 to 49 years old, according to Maureen E. Forrest, MD, section head of Breast Imaging at St. Joseph Mercy Hospital in Ann Arbor. Dr. Forrest and the staff of McAuley Breast Care strongly believe that annual screening is justified in women age 40 to 49, as do the majority of medical associations, including the American College of Radiology and the American Medical Association.

Dr. Forrest notes, however, that "for women whose mothers or sisters had premenopausal breast cancer, screening mammography should begin 10 years before the breast cancer was diagnosed in their relatives, or at age 40, whichever is sooner."

## Many Mission Health locations offer breast care services

Mission Health has many locations and services (see sidebar listing on page 9) for breast care and education.

*(Continued on page 8)*

## Breast Self Examination

### Breast Self Examination

(BSE) should be part of your monthly health care activities, done two weeks after your menstrual period starts. After menopause or a hysterectomy, you should examine your breasts on the first day of every month.

### Three easy steps help you spot warning signs:

1. With your hands at your sides, look in the mirror to check for lumps or dimpling of your breasts. Then raise your arms over your head, looking for changes in the size or shape of your breasts or in skin texture.

2. In the shower, keep your fingers flat (don't use fingertips) and move your hand gently over each breast, checking for thickenings, knots or lumps. Use your right hand for your left breast and your left hand for your right breast.

3. Using your thumb and index finger, gently squeeze your nipple to check for discharge.

You should let your doctor know immediately if you find any irregularities or changes during your monthly breast self exams.

# Oncology services at Mission Health-- winning the battle against cancer

**"Everything about this outpatient center and our inpatient units...was driven by one guiding principle: providing compassionate, cutting edge care that always puts the patient at the center of the process."**

*Philip Stella, MD, McAuley Cancer Care Center*

(Continued from page 7) McAuley Breast Care offers a complete range of breast care services including screening and diagnostic mammography, instruction in breast self examination, video instruction and educational materials, breast ultrasound, fine needle aspiration biopsy, needle core biopsy, cyst aspiration, needle localization for surgical biopsy and stereotactic localization. McPherson and Saline hospitals and other St. Joseph Mercy outpatient facilities also offer breast cancer care services.

Providence provides a similar range of services through its four mammography centers and the department of Diagnostic Radiology.

The Women's Imaging Center at Providence Medical Center-Providence Park in Novi recently began offering stereotactic breast biopsy. James Selis, MD, director of Providence Breast Health and Education, explains: "Most breast biopsies are benign, but a biopsy procedure remains the definitive way to determine if cancer is present. The conventional biopsy process involves surgery to obtain breast tissue samples and can result in some scarring of the breast. With stereotactic biopsy--a virtually painless procedure that does not leave incision scars--we can extract all the tissue sample we need for analysis through a special hollow-core needle."

## **If breast cancer is the diagnosis**

Should a patient be diagnosed with breast cancer, Mission Health physicians are committed to providing her with treatment options as quickly as possible. Both St. Joseph Mercy Hospital and Providence have formed multidisciplinary work groups of specialists, including representatives from medical oncology, general surgery, radiation, oncology, pathology, radiology, nursing and other support services, who meet to evaluate a patient's case, recommend treatment options, then begin the chosen treatment as quickly as possible.

## **Treatment options for breast cancer**

Today, patients with breast cancer have numerous

treatment choices. In recent years, dramatic advances in technology allow surgeons to achieve the same success rate in tumor removal with less radical surgery for breast cancer, as well as for other cancers. Many women, therefore, may be able to choose between a mastectomy, in which the breast would be removed, and a lumpectomy, in which only the cancerous tumor is removed from the breast. Lumpectomy is often followed by a course of radiation therapy. And most women who have mastectomies now are candidates for breast reconstruction. A general surgeon, in conjunction with a plastic surgeon, can help a woman decide whether to have reconstruction and which reconstructive procedure would be right for her.

Through years of research, scientists have learned that by the time many cancers--including breast cancer--are diagnosed, microscopic pieces of the tumor may have already spread to other areas of the body. When this happens, a patient's physician may recommend chemotherapy, which attacks the spread of the disease by killing as many of the cancer cells as possible.

## **Special care for gynecological oncology patients**

Both Providence and St. Joseph Mercy Hospital provide patients with the services of physicians specializing in gynecological oncology--the treatment of cancers of the female reproductive system. Providence offers specialists through an arrangement with the Wayne State School of Medicine and St. Joseph Mercy through a similar arrangement with the University of Michigan Medical Center.

## **Mission Health offers comprehensive cancer services**

Mission Health offers patients a comprehensive array of outpatient and inpatient cancer care services, from research and diagnosis to treatment including surgery, radiation and medical oncology, pain management (please see sidebar story on page 10), education and support services and groups.

The McAuley Cancer Care Center at St. Joseph Mercy Hospital in Ann Arbor houses the Robert H. and Judy Dow Alexander Cancer Care (Continued on page 10)

Left, Philip Stella, MD, medical director of the McAuley Cancer Care Center, and Joy Stair, program administrator, are committed to keeping patients at the center of the diagnosis and treatment process for cancer care at St. Joseph Mercy Hospital.

Lower left, Providence and St. Joseph Mercy offer patients streamlined cancer diagnosis through the use of multi-disciplinary work groups. Here, members from the Providence Breast Cancer Work Group discuss a patient's case. Muhyi Al-Sarraf, MD (back right), is medical director of the Providence Cancer Center.

Mission Health offers breast health and education services at many locations. All locations use low dose mammography performed on fully accredited equipment.

## Pain management services in Mission Health's network

---

Mission Health specialists in pain management offer new hope to patients who suffer from serious and debilitating chronic pain including pain from cancer, back problems, post-traumatic/post-surgical pain, Raynaud's Syndrome, Reflex Sympathetic Dystrophy (RSD), shingles, headaches, facial pain and Temporal Mandibular Joint (TMJ) pain.

Services are available at several locations including:

The Michigan Pain Institute at  
St. Joseph Mercy Hospital, Ann Arbor  
313-712-5898

Providence Surgical Center, Southfield  
810-352-1890

The Providence Pain Control Center,  
Southfield  
810-424-3186

Providence Medical Center-Providence  
Park, Novi  
810-380-4170

Pain management services include:

- Biofeedback and relaxation techniques
  - Fluoroscope procedures (x-ray-guided nerve blocks)
  - Implantable devices to provide continuous relief from chronic cancer pain or other types of pain
  - Medications including anti-inflammatory drugs, anti-depressants, anti-seizure medications, injections, pain killers
  - Physical and occupational therapy
  - Spinal cord stimulator implants
  - Surgical procedures when necessary
  - Transcutaneous Electrical Nerve Stimulation (TENS)
-

# Oncology services at Mission Health-- winning the battle against cancer

---

**"Every attempt has been made to provide patient- and family-centered services--including radiation oncology, medical oncology, pain management, educational resources and support groups-- in one convenient, comfortable location."**

*Muhyi Al-Sarraf, MD, Providence Cancer Center*

---

*(Continued from page 8)* Center for outpatient oncology services, including the Chemotherapy Clinic, a day treatment area for patients and families, and the Fred and Sally Palma Radiation Oncology Treatment Facility.

"Everything about this outpatient center and our cancer inpatient units--from the layout of the facilities to the actual treatments provided, from support services to clinical research--was driven by one guiding principle: providing compassionate, cutting-edge care that always puts the patient at the center of the process," says Philip Stella, MD, the Center's medical director.

This same emphasis on quality care in a cost-effective, streamlined environment led St. Joseph Mercy to develop multidisciplinary work groups in 1992. "We have been very successful with these groups," Dr. Stella explains, "and now offer them for lung, breast, brain, gastrointestinal, prostate and bladder cancers."

Muhyi Al-Sarraf, MD, medical director of the Providence Cancer Center, says Providence shares the same commitment to multidisciplinary work groups as a means of "providing patients with quality, compassionate care and access to the newest cancer-fighting treatments. Providence has working groups for breast, gynecologic and lung cancers, head and neck cancer, and leukemia/lymphoma." Dr. Al-Sarraf also stresses the Hospital's commitment to laboratory research that "can immediately be used at the bedside to improve patient care."

The Providence Cancer Center provides outpatient oncology care for patients in a free-standing building located on the Hospital's Southfield campus. "Every attempt has been made to provide patient- and family-centered services--including radiation oncology, medical oncology, pain management, educational resources and support groups--in one convenient, comfortable location," says Dr. Al-Sarraf.

## **National and local affiliations benefit patients**

Mission Health hospitals are affiliated with several national cancer research groups, providing patients

access to the most advanced and progressive cancer therapies and treatments available. Providence remains the only community hospital in the nation to be a full member of SWOG--the Southwest Oncology Group. Both Providence and St. Joseph Mercy participate in the National Surgical Adjuvant Breast and Bowel Project (NSABP).

St. Joseph Mercy Hospital received one of only 50 grants made by the National Cancer Institute to establish the Ann Arbor Regional Community Clinical Oncology Program (CCOP). This program has expanded research efforts and provided patients with access to the latest cancer treatments, prevention and control trials through affiliations with many national cancer research consortiums.

## **Radiation Oncology offers specialized treatments**

Both the Providence Cancer Center and the McAuley Cancer Care Center offer patients sophisticated 3-D treatment planning which allows the radiation oncologist to look at a targeted cancer site from multiple directions and plan exactly how radiation treatments will be delivered, minimizing damage to surrounding tissues.

Using 3-D technology, Providence radiation oncologists use a recently-developed positioning technique for prostate cancer patients receiving radiation therapy. This technique dramatically reduces the amount of radiation delivered to the delicate tissues near the prostate gland. Providence physicians use 3-D planning before and after brachytherapy, a cancer-fighting technique where tiny cancer-killing radioactive seeds are precisely implanted into tumors.

Radiation oncologists at the McAuley Cancer Care Center also use brachytherapy to treat various cancers including breast cancer, gynecological cancers and lung cancer. In addition, this Center is one of few in Michigan to offer hyperthermia cancer treatment in which microwave-induced applications of heat shrink tumors and enhance the effectiveness of radiation therapy in certain types of cancer.

*(Continued on page 15)*

## Attention Deficit Hyperactivity Disorder (ADHD)

What do three to 10 percent of America's children have in common with Albert Einstein, Thomas Edison, Tom Cruise, Whoopie Goldberg, Cher and Henry "The Fonz" Winkler? Attention Deficit Hyperactivity Disorder (ADHD).

"Children, teens and adults can have ADHD," says Pamela Sohoni, MD, clinical director of Outpatient Child and Adolescent Psychiatry at St. Joseph Mercy Hospital, Ann Arbor, and a specialist in ADHD.

"Symptoms of ADHD include inattention, inability to focus on one task for any length of time, distractibility, hyperactivity and impulsivity," she explains. ADHD, seen more in boys than girls, is not caused by environment, she says, "and parents should not feel that they are responsible for a child's ADHD: The disorder is biological and neurological in nature."

It is also treatable, she stresses, with medications and psychosocial intervention.

"The majority of children with ADHD respond to stimulant medications such as dexedrine, ritalin and cyleert," Dr. Sohoni explains. "If those fail, we also have other alternatives, including antidepressants."

Before a child is diagnosed and treated as having ADHD, however, a thorough evaluation, which may include psychiatric and neuro-psychological testing, is needed. Significant input from parents and teachers is also important. "Some things that may seem to be symptoms of ADHD may be only normal variants for a child of a certain age. And other problems can co-exist with ADHD," Dr. Sohoni says, "like learning disabilities, defiance, depression, anxiety, and speech and language problems."

"We all have some of these symptoms at various times, but that does not mean all of us have ADHD," she explains. "Sometimes people want to use ADHD to explain all their problems."

Once diagnosed and on any needed medication, the child with ADHD benefits most from a consistent, predictable environment, and from parents and teachers who understand the kind of chronic difficulties the child will face, perhaps even into adulthood.

At home this may translate into setting up specific periods of time for waking up, going to bed, performing chores, doing homework, and enjoying recreational activities. In the classroom, strategies for working with the ADHD child might include providing a great deal of structure and consistency; allowing the child a time for controlled movement, such as watering plants or taking a note to the office. Setting up clear and concise rules for behavior, enforcing the consequences of rule-breaking and rewarding positive conduct are important both at home and at school.

St. Joseph Mercy Hospital offers separate eight-week treatment groups, held quarterly, for parents and children with ADHD.

# Mission Health behavioral services-- helping individuals and families

### Mission Health provides a range of behavioral services

"Mission Health hospitals and many of the network's satellite locations offer children, adolescents and adults a wide range of mental health services from outpatient and partial hospital programs to inpatient care," says Thomas Zelnik, MD, Mission Health chairperson of Psychiatry.

### Outpatient services

Throughout the outpatient network of St. Joseph Mercy Hospital, Saline Community Hospital and McPherson Hospital, a full array of therapies is offered for treatment of psychiatric and chemical dependency disorders. These therapies include brief through long-term psychotherapy, general psychiatric evaluation and psychological testing. Services for patients of all ages are delivered by psychiatrists, psychologists, social workers or nurses in a variety of modalities, including individual, family and group therapy. Some specialty care is available as well, for example, the sports performance psychology service. A number of support groups are also available for patients and families.

Outpatient locations in Ann Arbor, Canton, Plymouth,

Left, Mission Health offers a wide range of mental health services including partial hospital programs which provide intensive outpatient therapy, including activity therapy for patients.

Below, Pamela Sohoni, MD, clinical director of Outpatient Child and Adolescent Psychiatry at St. Joseph Mercy Hospital, stresses that Attention Deficit Hyperactivity Disorder (ADHD) is treatable.

Howell and Saline offer at least one of the services listed above.

Providence provides outpatient behavioral services for adults and families at three locations: at Providence Hospital in Southfield, at the Providence Pavilion adjacent to the Hospital's campus and at Providence Medical Center-Providence Park in Novi. Family-centered behavioral services will be added at more Providence satellites in the coming months, according to Elizabeth Donoghue Colvin, operations director for Mission Health Behavioral Services.

### Partial hospital programs

For adults who require more care than is afforded through regular office visits, but who can safely remain at home overnight, both Providence and St. Joseph Mercy Hospital offer partial hospital programs. In these programs, multi-disciplinary groups of psychiatrists, psychologists, nurses, social workers and activity therapists provide intensive care for patients in a setting which serves either as an alternative to or a "step down" from an inpatient hospital stay. A similar program for adolescents is also available.

Some partial hospital patients, however, require a safe environment in which to spend their nights, if that need cannot be met at home. To meet that need, St. Joseph Mercy Hospital recently opened a new program, one of only a handful in the country, according to Mary Bleakley, program director for Mission Health Behavioral Services. The Crisis Residential program, located in the Huron Oaks Building on the Hospital's Ann Arbor campus, "provides overnight care for partial hospital patients who cannot safely stay at home, but who do not need the more restrictive medical environment of an inpatient hospital unit." An overnight program is also being planned for the adolescent partial hospital program.

### Inpatient services

Providence offers a 25-bed inpatient unit treating psychiatric and chemically dependent adult patients, including "dually diagnosed" patients, who have both psychiatric and chemical dependency problems.

The St. Joseph Mercy Hospital inpatient unit can treat up to 24 adult patients. Through a special agreement that eliminates costly duplication of services, St. Joseph Mercy sends children and adolescents in need of inpatient psychiatric care to the University of Michigan Medical Center.

The Saline Greenbrook Recovery Center in Saline offers residential treatment program for chemical dependency (alcohol and/or substance abuse).

For information about the ADHD support group and other services available at St. Joseph Mercy, Saline and McPherson locations, call 313-712-2595.

For information on Providence services, call 1-800-875-5566.

# Oncology services at Mission Health-- winning the battle against cancer

Mission Health offers cancer patients the most advanced medical and surgical treatments and a full

spectrum of care -- from outpatient to inpatient, including hospice services.

## *(Continued from page 11)* Inpatient Care

Mission Health is dedicated to providing cancer patients with the most advanced medical and surgical treatments and a full spectrum of care, from outpatient treatments to inpatient care, including hospice care. The inpatient units at St. Joseph Mercy Hospital and at Providence have compassionate, committed care-givers, including nurses who have received special training in oncology and the delivery of chemotherapy treatments.

At St. Joseph Mercy Hospital, a multidisciplinary group of health professionals including physicians, nurses, nutritionists, pharmacists, social workers, chaplains and home care coordinators coordinates the care for each patient.

Through a program on Providence's oncology unit, nurse case managers orchestrate each patient's care, working closely with physicians, specially-trained oncology nurses, care givers and support staff members, to streamline the hospital stay, provide home follow-up and save the

patient from unnecessary hospital readmissions.

## A commitment to caring

Mission Health physicians and health care professionals recognize that cancer challenges the body, mind and spirit of cancer patients and their families. That's why our physicians and staff are committed to providing care that goes beyond the latest technologies to encompass supportive services such as rehabilitative physical, occupational and speech therapy; nutritional counseling; social work; pastoral care; education and support groups for patient and family.

For information about oncology programs, services and support groups, please call:

- McAuley Cancer Care Center at St. Joseph Mercy Hospital, Ann Arbor 313-712-5948
- Providence Cancer Center, Southfield 800-341-0801 or 810-424-3341.

Health Connection is published by the Corporate Communications department of Mission Health. Mission Health is sponsored by the Daughters of Charity National Health System - East Central and Mercy Health Services. Mission Health is composed of four units: Providence Hospital and Medical Centers in Southfield; St. Joseph Mercy Hospital in Ann Arbor; McPherson Hospital in Howell; and Saline Community Hospital. Mission Health serves numerous communities in southeast Michigan at its four hospitals and many satellite locations.

Fall 1995  
Volume 1, Number 2

Upper left, architect's drawing shows Mission Health Livonia Center, scheduled to open this winter.

Above, City of Livonia and Mission Health officials break ground for the Livonia Center on December 8, 1994.

Left, building progress as of mid-August.

Far left, construction workers pour cement in March 1995.

## Mission Health Livonia Center--building for the future

December 8, 1994--a snowy, sunny day in Livonia--was declared "Mission Health Day" by Livonia Mayor Robert Bennett as Mission Health officials and city dignitaries broke ground for Mission Health Livonia Center.

The building is the first medical center built by Mission Health, the community-based health care network formed by Providence Hospital in Southfield, St. Joseph Mercy Hospital in Ann Arbor, Saline Community Hospital in Saline and McPherson Hospital in Howell.

Today, Mission Health Livonia Center rises with four stories of steel and a completed roof. The 68,000-square-foot building on a wooded parcel of land at the corner of Seven Mile and Newburgh roads is scheduled to open early in winter 1996.

Mission Health Livonia Center will provide the community with an urgent care facility; outpatient diagnostic and treatment services including x-ray, ultrasound, women's imaging, CT, pharmacy, laboratory and physical therapy. It will also house the offices of 35 primary care physicians and specialists and will

provide space for community health education classes.

When this new facility opens, the physicians, staff and services of Providence Medical Center-Livonia (currently located on Farmington Road near Eight Mile Road), will move to the new location.

To help assure that the services offered at the Livonia Center meet community needs, Mission Health has appointed a Community Advisory Council of 10 community leaders who will help Mission Health focus on how best to help improve the health status of the community.
