Collector,
Landing.,

I attach a copy of the result of examination of packages destroyed by the Wharfinger yesterday and to respectfully draw your attention to the quantity of socks among the lot as 44½ doz. and not 50½ doz. as was stated by the Wharfinger.

The Officer in Charge, Want of Entry Store was much perturbed on his hearing that you complain that 6 doz. Socks was short, and to erase such an impression, he has applied for, and submit herewith through me, the true copy of the list from Apapa.
