

FACILITIES OF THE CLASON MAP CO.

Commercial Work Solicited

In order that you may take advantage of the equipment which we have, an outline of the work done by the various departments is given below.

Map Drawing. Our force of expert map and mechanical draftsmen are always available for commercial work.

Blue Printing. This division has sun, vacuum and electric continuous frames. Blue prints of any length made in one piece.

Map Mounting. The cloth backing of maps and charts requires great care and skill. We mount and varnish maps up to 9x12 feet in one piece.

Printing. The facilities of this division include the printing and lithographing of maps, folders and booklets or any other kind of publication.

Designing. The art department prepares illustrations, bird's-eye view maps, drawing of machinery, designs for letterheads and book covers.

Engraving. This division makes line plates for printing maps, half-tone plates for reproducing photographs, plates of drawings and designs, color plates for printing in colors.
